No. MC 31462 (Sub-No. E118), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Florida, on the one hand, and, on the other, points in Kansas. The purpose of this filing is to eliminate the gateways of (1) Gulfport, Mississippi and points within 35 miles thereof, and (2) Cairo, Illinois and points within 25 miles thereof.

No. MC 31462 (Sub-No. E141), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Illinois on and south of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 36 to junction Interstate Highway 57, thence along Interstate 57 to junction U.S. Highway 150, thence along U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Illinois Highway 26, thence along Illinois-Wisconsin State line, on the one hand, and, on the other points in South Carolina. The purpose of this filing is to eliminate the gateways of Cairo, Illinois and points within 25 miles thereof, any point in Tennessee and any point in Georgia.

No. MC 31462 (Sub-No. E142), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission between points in Illinois on the one hand, and, on the other, points in that part of Louisiana on, east, and south of a line beginning at the Mississippi-Louisiana State line extending along Interstate Highway 55 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction Louisiana Highway 12, thence along Louisiana Highway 12 to the Louisiana-Texas State line. The purpose of this filing is to eliminate the gateway of Cairo, Illinois and points within 25 miles thereof, and Gulfport, Mississippi and points within 35 miles thereof.

No. MC 31462 (Sub-No. E143), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Illinois on, south, and west of a line beginning at the Illinois-Indiana State line extending along Illinois Highway 130 to junction Illinois Highway 33, thence along Illinois Highway 33 to junction U.S. Highway 45, thence along Illinois Highway 45 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 150, thence along U.S. Highway 150 to junction Illinois Highway 78, thence along Illinois Highway 78 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Illinois-Iowa State line, on the one hand, and, on the other, points in that part of the Upper Peninsula of Michigan west of a line beginning at Excanaba, Michigan, extending along U.S. Highway 41 to Marquette, Michigan. The purpose of this filing is to eliminate the gateway of Burlington, Iowa, and points within 50 miles thereof.

No. MC 31462 (Sub-No. E144), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in that part of Illinois on and north of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 36 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Illinois-Missouri State line to points in North Carolina. The purpose of this filing is to eliminate the gateway of Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E145), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster,

Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Illinois to points in that part of Michigan on and east of a line beginning at the Michigan-Indiana State line extending along Michigan Highway 66 to junction Michigan Highway 78, thence along Michigan Highway 78 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Interstate Highway 75, thence along Interstate Highway 75 to the United States-Canada boundary line. The purpose of this filing is to eliminate the gateway of Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E146), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Illinois to points in Vermont. The purpose of this filing is to eliminate the gateway of Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof, and Hoosick Falls, New York.

No. MC 31462 (Sub-No. E147), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Illinois to points in New Hampshire. The purpose of this filing is to eliminate the gateway of Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof, and Hoosick Falls, New York.

No. MC 31462 (Sub-No. E158), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Illinois to points in Maine. The purpose of this filing is to eliminate the gateway of Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof, and Hoosick Falls, New York.

No. MC 31462 (Sub-No. E149), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Illinois to points in Pennsylvania. The purpose of this filing is to eliminate the gateway of Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E150), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Illinois to the District of Columbia. The purpose of this filing is to eliminate the gateway of Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E151), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Illinois to points in New Jersey. The purpose of this filing is to eliminate the gateway of Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E152), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Illinois to points in New York. The purpose of this filing is to eliminate the gateway of Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E153), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Illinois to points in Massachusetts. The purpose of this filing is to eliminate the gateway of Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E154), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Illinois to points in Maryland. The purpose of this filing is to eliminate the gateway of Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E156), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Household goods, as defined by the Commission, from points in that part of Illinois on and north of a line beginning at the Illinois-Missouri State line extending along U.S. Highway 40 to the Illinois-Indiana State line to points in that part of Virginia on, north and east of a line beginning at the Virginia-West Virginia State line extending along U.S. Highway 52 to the Virginia-North Carolina State line. The purpose of this filing is to eliminate the gateway of Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E157), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Kansas on the one hand, and, on the other, and points in Illinois. The purpose of this filing is to eliminate the gateway of Kansas City, Missouri and points within 30 miles thereof; St. Louis, Missouri, and East St. Louis, Illinois, and points within 50 miles thereof; and Cairo, Illinois, and points within 25 miles thereof.

No. MC 31462 (Sub-No. E163), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Illinois on and west of a line beginning at the Illinois-Kentucky State line extending along Illinois Highway 145 to junction Illinois Highway 13, thence along Illinois Highway 13 to junction Interstate Highway 57, thence along Interstate Highway 57 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Illinois Highway 29, thence along Illinois Highway 29 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction Illinois Highway 97, thence along Illinois Highway 97 to junction Interstate Highway 74, thence along Interstate Highway 74 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Illinois-Iowa State line, on the one hand, and, on the other, points in that part of Wisconsin on and north of a line beginning at Manitowoc, Wisconsin, extending along U.S. Highway 151 to junction Interstate Highway 90, thence along Interstate Highway 90 to the Illinois-Wisconsin State line. The purpose of this filing is to eliminate the gateway of Burlington, Iowa, and points within 50 miles thereof.

No. MC 31462 (Sub-No. E247), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Household goods, as defined by the Commission, from points in Mississippi to points in Maine. The purpose of this filing is to eliminate the

gateway of Cairo, Illinois, and points within 25 miles thereof, Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof, and Hoosick Falls, New York.

No. MC 31462 (Sub-No. E248), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods* as defined by the Commission, from points in Missouri to points in Maine. The purpose of this filing is to eliminate the gateway of St. Louis, Missouri and East St. Louis, Illinois and points within 50 miles thereof; Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof; and Hoosick Falls, New York.

No. MC 31462 (Sub-No. E251), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in the Lower Peninsula of Michigan to points in Maine. The purpose of this filing is to eliminate the gateway of Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof; and Hoosick Falls, New York.

No. MC 31462 (Sub-No. E252), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Minnesota to points in Maine. The purpose of this filing is to eliminate the gateways of Burlington, Iowa, and points within 50 miles thereof; Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof and Hoosick Falls, New York.

No. MC 31462 (Sub-No. E341), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Montana on and east of a line beginning at the United States-Canada Boundary line extending along U.S. Highway 91 to junction U.S. Highway 2, thence along U.S. Highway 2 to Browning, thence along U.S. Highway 89 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 191, thence along U.S. Highway 191 to the Montana-Idaho State line, on the one hand, and, on the other, points in North Carolina. The purpose of this filing is to eliminate the gateway of (1) Williston, North Dakota and points in North Dakota within 200 miles thereof; (2) Burlington, Iowa and points within 50 miles thereof; (3) Ft. Wayne, Indiana and points in Indiana within 40 miles thereof, and (4) any point which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E342), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Montana on and east of a line beginning at the United States-Canada Boundary line extending along U.S. Highway 91 to junction U.S. Highway 2, thence along U.S. Highway 2 to Browning, thence along U.S. Highway 89 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 191, thence along U.S. Highway 191 to the Montana-Idaho State line, on the one hand, and, on the other, points in South Carolina. The purpose of this filing is to eliminate the gateway of (1) Williston, North Dakota and points in North Dakota within 200 miles thereof; (2) Burlington, Iowa and points within 50 miles thereof; (3) Ft. Wayne, Indiana and points in Indiana within 40 miles thereof; and (4) any point which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E343), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Montana on and east of a line beginning at the United States-Canada Boundary lien extending along U.S. Highway 91 to junction U.S. Highway 2, thence along U.S. Highway 2 to Browning, thence along U.S. Highway 89 to junction U.S. Highway 287, thence along along U.S. Highway 287 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 191, thence along U.S. Highway 191 to the Montana-Idaho State line, on the one hand, and, on the other, points in Ohio. The purpose of this filing is to eliminate the gateway of (1) Williston, North Dakota and points in North Dakota within 200 miles thereof; (2) Burlington, Iowa and points within 50 miles thereof; (3) Ft. Wayne, Indiana and points in Indiana within 40 miles thereof; and any point which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E344), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Montana on and east of a line beginning at the United States-Canada Boundary line extending along U.S. Highway 91 to junction U.S. Highway 2, thence along U.S. Highway 2 to Browning, thence along U.S. Highway 89 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 191, thence along U.S. Highway 191 to the Montana-Idaho State line, on the one hand, and, on the other, points in Massachusetts. The purpose of this filing is to eliminate the gateway of (1) Williston, North Dakota and points in North Dakota within 200 miles thereof; (2) Burlington, Iowa and points within 50 miles thereof; (3) Ft. Wayne, Indiana and points in Indiana within 40 miles thereof; and any point which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E345), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Montana on and east of

a line beginning at the United States-Canada Boundary line extending along U.S. Highway 91 to junction U.S. Highway 2, thence along U.S. Highway 2, to Browning, thence along U.S. Highway 89 to junction U.S. Highway 287, thence along U.S. Highway 10 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 10, thence along US. Highway 10 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 191, thence along U.S. Highway 191 to the Montana-Idaho State line, on the one hand, and, on the other, points in New Jersey. The purpose of this filing is to eliminate the gateway of (1) Williston, North Dakota and points in North Dakota within 200 miles thereof; (2) Burlington, Iowa and points within 50 miles thereof; (3) Ft. Wayne, Indiana and points in Indiana within 40 miles thereof, and (4) any point which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 51146 (Sub-No. E15) (Correction), filed November 2, 1974, published in the Federal Register December 10, 1974. Applicant: SCHNEIDER TRANSPORT, INC., P.O. Box 2298, Green Bay, Wisc. 54306. Applicant's representative: Neil A. DuJardin (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper and paper products*, (except commodities in bulk) from Chattanooga, Tenn., to points in North Dakota, South Dakota, New York, Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, those points in New Jersey on and north of a line beginning at the intersection of the Pennsylvania-New Jersey State line and New Jersey Highway 57, thence along New Jersey Highway 57 to its junction with New Jersey Highway 24, thence along New Jersey Highway 24 to Newark, N.J., thence along U.S. Highway 1 to the Hudson River; and points in Nebraska on, north, and west of a line beginning at the intersection of the Wyoming-Nebraska State line and U.S. Highway 30, thence along U.S. Highway 30 to its junction with Nebraska Highway 70, thence along Nebraska Highway 70 to its junction with Nebraska Highway 92, thence along Nebraska Highway 92 to its intersection with U.S. Highway 81, thence along U.S. Highway 81 to its intersection with U.S. Highway 20, thence along U.S. Highway 20 to the Nebraska-Iowa State line. (14) *paper and paper products* (except commodities in bulk), from points in Alabama south and east of a line beginning at the intersection of the Alabama-Florida State line and U.S. Highway 331, thence north along U.S. Highway 331 to Montgomery, Ala., thence along U.S. Highway 80 to the Alabama-Georgia State line, to points in North Dakota and South Dakota (except points south and east of a line beginning at the intersection of the South Dakota-Nebraska State line and U.S. Highway 83, thence north along U.S. Highway 83 to its intersection with U.S. Highway 16, thence along U.S. Highway 16 to the South Dakota-Minnesota State line), New York (except points south and east of a line beginning at Hancock Eddy, thence along New York Highway 17 to its junction with New York Highway 30, thence northeast along New York Highway 30 to its junction with New York Highway 7, thence along New York Highway 7 to the New York-Vermont State line), Vermont (except points south of Vermont Highway 9), New Hampshire (except points south of New Hampshire Highway 9), and Maine (except points south of Maine Highway 25).

(17) *Paper and paper products* (except commodities in bulk), from points in Wyoming, Montana (except points west of U.S. Highway 91), and Idaho (except points north and west of a line beginning at the intersection of the Nevada-Idaho State line and U.S. Highway 93, thence along U.S. Highway 93 to its intersection with U.S. Highway 30, thence along U.S. Highway 30 to its junction with U.S. Highway 30N, thence along U.S. Highway 30N to its intersection with U.S. Highway 91, thence along U.S. Highway 91 to the Idaho-Montana State line), to points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, New York (except points west of a line beginning at Clayton, N.Y., thence along New York Highway 12 to Watertown, thence along U.S. Highway 11 to Cortland, thence along New York Highway 13 to its junction with New York Highway 14, thence along New York Highway 14 to the Pennsylvania-New York State line), Virginia (except points west of U.S. Highway 21), North Carolina (except points west of U.S. Highway 21), and the District of Columbia. (23) *paper and paper products* (except commodities in bulk), from Los Angeles, Calif., to points in Maryland, Virginia (except points south and west of a line beginning at the intersection of the Kentucky-Virginia State line and U.S. Highway 23, thence along U.S. Highway 23 to its junction with Virginia Highway 83, thence along Virginia Highway 83 to its intersection with U.S. Highway 460, thence along U.S. Highway 460 to its intersection with Virginia Highway 16, thence along Virginia Highway 16 to the North Carolina-Virginia State line), North Carolina (except points west and south of a line beginning at the intersection of the Virginia-North Carolina State line and North Carolina Highway 18, thence along North Carolina Highway 18 to Oakboro, thence along North Carolina Highway 115 to Statesville, thence along U.S. Highway 70 to its intersection with U.S. Highway 52, thence along U.S. Highway 52 to its intersection with North Carolina Highway 24, thence along North Carolina Highway 24 to U.S. Highway 220, thence along U.S. Highway 220 to its junction with North Carolina Highway 211, thence along North Carolina Highway 211 to its termination at Southport), and the District of Columbia.

(30) *paper and paper products* (except commodities in bulk), from points in Ohio on and within an area bordered on the west by the Indiana-Ohio State line, on the north by U.S. Highway 224, on the east by a line beginning at Findlay, Ohio, thence along U.S. Highway 68 to its junction with Ohio Highway 31, thence along Ohio Highway 31 to its junction with U.S. Highway 33, thence along U.S. Highway 33 to Columbus, Ohio, and on the south by U.S. Highway 40, to Memphis, Tenn., and points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Arkansas, Louisiana, Mississippi, Alabama, Missouri (except points north and east of a line beginning at the intersection of the Iowa-Missouri State line and Missouri Highway 149, thence along Missouri Highway 149 to Missouri Highway 6, thence along Missouri Highway 6 to the Mississippi River), points in Maine, New Hampshire, Rhode Island, Vermont (except points south of U.S. Highway 2), Massachusetts (except points west of U.S. Highway 5), Connecticut (except points north and west of U.S. Highway 202), South Carolina (except points north of a line beginning at the intersection of the North Carolina-South Carolina State line and U.S. Highway 25, thence along U.S. Highway 25 to its intersection with U.S. Highway 76, thence along U.S. Highway 76 to its intersection with Interstate Highway 95, thence along Interstate Highway 95 to the South Carolina-North Carolina State line), points in North Carolina on and west of U.S. Highway 25, and points in North Carolina on, and south and east of a line beginning at the intersection of the North Carolina-South Carolina State line and U.S. Highway 301, thence along U.S. Highway 301 to Rocky Mount, thence along U.S. Highway 64 to its termination on the Atlantic Ocean.

(36) *paper and paper products* (except commodities in bulk), from points in Ohio on and within an area bordered on the north by U.S. Highway 35, on the west by U.S. Highway 27, on the south by Ohio Highway 129, and on the east by U.S. Highway 25 (except points in Hamilton and Middletown, Ohio and their Commercial Zones), to Memphis, Tenn., and points in North Dakota, South Dakota, Nebraska, Oklahoma, Texas, Louisiana, Arkansas, Maine, New Hampshire, Vermont, New York, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, Virginia (except points west of U.S. Highway 21) (North Carolina, except points west of a line beginning at the intersection of the North Carolina-Virginia State line and U.S. Highway 21, then along U.S. Highway 21 to Sparta, thence along North Carolina Highway 18 to Roxboro, thence along North Carolina Highway 16 to its junction with U.S. Highway 321, thence along U.S. Highway 321 to the

North Carolina-South Carolina State line), South Carolina (except points west of a line beginning at the intersection of the North Carolina-South Carolina State line and U.S. Highway 321, thence along U.S. Highway 321 to its intersection with South Carolina Highway 72, thence along South Carolina Highway 72 to Greenwood, thence along U.S. Highway 25 to the Georgia-South Carolina State line). (53) *paper and paper products* (except commodities in bulk), from Newark and Rochester, N.Y., to points in Kansas, Oklahoma, Texas, Louisiana, North Dakota (except points east and south of a line beginning at the intersection of the International Boundary line between Canada and North Dakota and U.S. Highway 281, thence along U.S. Highway 281 to its junction with North Dakota Highway 3, thence along North Dakota Highway 3 to its junction with U.S. Highway 2, thence along U.S. Highway 2 to its intersection with North Dakota Highway 14, thence along North Dakota Highway 14 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to the North Dakota-South Dakota State line), South Dakota (except points west and south of a line beginning at the intersection of the North Dakota-South Dakota State line and U.S. Highway 83.

Thence along U.S. Highway 83 to its intersection with U.S. Highway 14, thence along U.S. Highway 14 to its intersection with South Dakota Highway 73, thence along South Dakota Highway 73 to the South Dakota-Nebraska State line), Nebraska (except points north and east of a line beginning at the intersection of the South Dakota-Nebraska State line and Nebraska Highway 61, thence along Nebraska Highway 61 to its intersection with U.S. Highway 30, thence along U.S. Highway 30 to its intersection with U.S. Highway 183, thence along U.S. Highway 183 to its intersection with U.S. Highway 6, thence along U.S. Highway 6 to its intersection with U.S. Highway 281, thence along U.S. Highway 281 to its intersection with Nebraska Highway 4, thence along Nebraska Highway 4 to Beatrice, thence along U.S. Highway 77 to the Nebraska-Kansas State line), Missouri (except points east and north of a line beginning at St. Joseph, thence along U.S. Highway 169 to its intersection with U.S. Highway 50, thence along U.S. Highway 50 to Sedalia, thence along U.S. Highway 65 to its intersection with Missouri Highway 14, thence along Missouri Highway 14 to West Plains, thence along U.S. Highway 63 to the Missouri-Arkansas State line), Arkansas (except points north and east of a line beginning at the intersection of the Missouri-Arkansas State line and U.S. Highway 63, thence along U.S. Highway 63 to its intersection with Arkansas Highway 1, thence along Arkansas Highway 1 to its intersection with U.S. Highway 49, thence along U.S. Highway 49 to the Arkansas-Mississippi State line), Mississippi (except points north and east of a line beginning at the intersection of the Arkansas-Mississippi State line and U.S. Highway 49, thence along U.S. Highway 49 to its junction with U.S. Highway 49E, thence along U.S. Highway 49E to Greenwood, thence along U.S. Highway 82 to the Alabama-Mississippi State line), and Alabama (except points north and east of U.S. Highway 82). The purpose of this filing is to eliminate the gateways marked with asterisks above. The purpose of this partial correction is to clarify the commodity descriptions. The remainder of this letter-notice will remain as previously published.

No. MC 76177 (Sub-No. E104), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd St., Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Classes A, B, and C explosives and blasting supplies*, between points in Alabama, on the one hand, and, on the other, points in that part of Missouri on and north of a line beginning at the Missouri-Oklahoma State line, thence along U.S. Highway 60 to the Missouri-Kentucky State line. The purpose of this filing is to eliminate the gateway of any point which is both within 15 miles of Energy, Ill., and within 15 miles of Wolf Lake, Ill.

No. MC 76177 (Sub-No. E110), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd St., Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (same as above). Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Classes A and B explosives and blasting supplies*, from points in that part of Kentucky on and east of a line beginning at the Kentucky-Indiana State line, thence along U.S. Highway 41 to the Kentucky-Tennessee State line, to points in New Mexico. The purpose of this filing is to eliminate the gateway of (1) Grafton, Ill., or any point within 2 miles thereof; and (2) Wolf Lake, Ill., or any point within 15 miles thereof.

No. MC 106920 (Sub-No. E47), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products*, as described in Paragraph B in the appendix to the report in Modification of Permits, 48 M.C.C. 628 and Section B of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, except sweet cream and milk, processed and unprocessed, from points in Arkansas to points in Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont. The purpose of this filing is to eliminate to gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E109), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, classified as *dairy products* under B in the Appendix to the report in *Modification of permits of Motor Contract Carriers of Packing-House Products*, 48 M.C.C. 628, from points in Missouri north of a line beginning at the Missouri-Illinois State line and extending along Missouri Highway 16 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction Missouri Highway 11, thence along Missouri Highway 11 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Missouri-Kansas State line, and extending along Missouri Highway 51 to junction Missouri Highway 72, thence along Missouri Highway 72 to junction Missouri Highway 21, thence along Missouri Highway 21 to junction Missouri Highway 32, thence along Missouri Highway 32 to junction Missouri Highway 36, thence along Missouri Highway 36 to junction Missouri Highway 5, thence along Missouri Highway 5 to the Missouri-Arkansas State line. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E110), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, classified as *dairy products* under B in the Appendix to the report in *Modification of Permits of Motor Contract Carriers of Packing-House Products*, 48 M.C.C. 628 from points in Missouri north of a line beginning at the Missouri-Illinois State line and extending along U.S. Highway 54 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction Missouri Highway 19, thence along Missouri Highway 19 to junction Missouri Highway 154, thence along Missouri Highway 154 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Kansas-Missouri State line to points in South Carolina. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E111), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities*, classified as *dairy products* under B in the appendix to the report in

Modification of Permits of Motor Contract Carriers of Packing-House Products, 48 M.C.C. 628, from points in Missouri north of a line beginning at the Illinois-Missouri State line and extending along U.S. Highway 54 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction Missouri Highway 19, thence along Missouri Highway 19 to junction Missouri Highway 154, thence along Missouri Highway 154 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Kansas-Missouri State line, and south of a line beginning at the Illinois-Missouri State line and extending along U.S. Highway 50 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction Missouri Highway 52, thence along Missouri Highway 52 to the Kansas-Missouri State line. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 114211 (Sub-No. E598), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson, (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery*, from points in that part of Illinois on and north of a line beginning at the Iowa-Illinois State line extending along Illinois Highway 92 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Illinois-Indiana State line, to points in that part of Texas on, south and west of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 62 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 380, thence along U.S. Highway 380 to junction Interstate Highway 635, thence along Interstate Highway 635 to junction Interstate Highway 45, thence along Interstate Highway 45 to junction Texas Highway 14, thence along Texas Highway 14, to junction U.S. Highway 77, thence along U.S. Highway 77 to junction U.S. Highway 87, thence along U.S. Highway 87 to the Gulf of Mexico, restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa, and Beatrice, Nebraska.

No. MC 114211 (Sub-No. E599), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery*, and *parts* thereof, from points in that part of Illinois on and north of a line beginning at the Illinois-Iowa State line extending along Illinois Highway 64 to Chicago, Illinois, to points in that part of Kansas on and west of a line beginning at the Missouri-Kansas State line extending along Highway Kansas 59 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Oklahoma State line. The purpose of this filing is to eliminate the gateway of Fort Dodge, Iowa.

No. MC 114211 (Sub-No. E600), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery*, from points in that part of Illinois on the line beginning at the Iowa-Illinois State line extending along U.S. Highway 136, thence along U.S. Highway 136 to junction Illinois Highway 29, thence along Illinois Highway 29 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Illinois-Indiana State line, to points in that part of Texas on the west of a line beginning at the Oklahoma-Texas State line extending along Interstate Highway 35, thence along U.S. Highway 77 to junction U.S. Highway 87, thence along U.S. Highway 87 to the Gulf of Mexico, with no transportation on return except as otherwise authorized, restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Nebraska City and Beatrice, Nebraska and points in Iowa.

No. MC 114211 (Sub-No. E650), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grading, paving and finishing machinery, equipment, parts, accessories and attachments*, from Green Isle, Minn., to points in Washington, Oregon, Idaho, California, Nevada, Utah, Arizona, New Mexico, Texas, Oklahoma, Louisiana, Mississippi, Alabama, Georgia, Florida, South Carolina, Delaware, New Jersey, Connecticut, Rhode Island, Massachusetts, New Hampshire, Vermont, Maine, to points in that part of Montana on and west of a line beginning at the Wyoming-Montana State line extending along Interstate Highway 90 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction U.S. Highway 89, thence along U.S. Highway 89 to junction U.S. Highway 91, thence along U.S. Highway 91 to the United States-Canada Boundary line; to points in that part of Wyoming on and west of a line beginning at the South Dakota-Wyoming State line extending along U.S. Highway 16 to junction Interstate Highway 90, thence along Interstate Highway 90 to the Wyoming-Montana State line; to points in that part of Arkansas on and south of a line beginning at the Tennessee-Arkansas State line extending along U.S. Highway 64 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Arkansas Highway 16, thence along Arkansas Highway 16 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction U.S. Highway 71.

Thence along U.S. Highway 71 to the Arkansas-Missouri State line; to points in that part of North Carolina on and east of a line beginning at the Virginia-North Carolina State line extending along U.S. Highway 221 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction U.S. Highway 64, thence along U.S. Highway 64 to the North Carolina-Tennessee State line; to points in that part of Virginia on and east of a line beginning at the Maryland-Virginia State line extending along U.S. Highway 1 to junction Virginia Highway 3, thence along Virginia Highway 3 to junction Virginia Highway 20, thence along Virginia Highway 20 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction Virginia Highway 40, thence along Virginia Highway 40 to junction Virginia Highway 8, thence along Virginia Highway 8 to junction U.S. Highway 221, thence along U.S. Highway 221 to the Virginia-North Carolina State line; to points in that part of Maryland on and southeast of a line beginning at the Pennsylvania-Maryland State line extending along U.S. Highway 1 to the Maryland-Virginia State line; to points in that part of Pennsylvania on and east of a line beginning at the New York-Pennsylvania State line extending along U.S. Highway 11 to junction Pennsylvania Turnpike, thence along Pennsylvania Turnpike to junction U.S. Highway 222, thence along U.S. Highway 222 to junction Pennsylvania Highway 10, thence along Pennsylvania Highway 10 to junction U.S. Highway 1, thence along U.S. Highway 1 to the Pennsylvania-Maryland State line; to points in that part of New York on and east of a line beginning at Alton, N.Y., extending along New York Highway 414 to junction New York Highway 96, thence along New York Highway 96 to junction New York Highway 17, thence along New York Highway 17 to junction U.S. Highway 11, thence along U.S. Highway 11 to the New York-Pennsylvania State line. The purpose of this filing is to eliminate the gateway of Canton, S. Dak.

No. MC 114211 (Sub-No. E651), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except those with vehicle beds, bed frames and fifth wheels), *equipment* designed for use in conjunction with tractors, *attachments* for the above-described commodities described above in mixed loads with such commodities, from Green Isle, Minn., to points in Washington, Oregon, California, Nevada, Idaho and points in that part of Montana on, north

and west of a line beginning at the Montana-North Dakota State line extending along U.S. Highway 12 to junction U.S. Highway 312, thence along U.S. Highway 312 to junction U.S. Highway 212, thence along U.S. Highway 212 to junction U.S. Highway 87, thence along U.S. Highway 87 to the Montana-Wyoming State line; points in that part of Wyoming on and west of a line beginning at the Montana-Wyoming State line extending along U.S. Highway 87 to junction U.S. Highway 16, thence along U.S. Highway 16 to junction Wyoming Highway 798, thence along Wyoming Highway 798 to junction U.S. Highway 187, thence along U.S. Highway 187 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to the Wyoming-Colorado State line; points in that part of Utah on and west of a line beginning at the Colorado-Utah State line extending along U.S. Highway 50 to junction Utah Highway 128, thence along Utah Highway 128 to junction U.S. Highway 163, thence along U.S. Highway 163 to the Utah-Arizona State line; points in that part of North Dakota on and north of a line beginning at the North Dakota-Minnesota State line extending along Interstate Highway 94 to junction North Dakota Highway 49, thence along North Dakota Highway 49 to the North Dakota-South Dakota State line; points in that part of Arizona on, south and west of a line beginning at the Utah-Arizona State line extending along U.S. Highway 163 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction Arizona Highway 264, thence along Arizona Highway 264 to the Arizona-New Mexico State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of that part of the Fargo, N. Dak., Commercial Zone located in Moorhead, Minn.

No. MC 114211 (Sub-No. E652), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts* thereof, from Baxter Springs, Kans., to points in that part of Minnesota on and northwest of a line beginning at the Minnesota-Iowa State line extending along Minnesota Highway 4 to junction U.S. Highway 16, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Minnesota Highway 23, thence along Minnesota Highway 23 to junction U.S. Highway 2, thence along U.S. Highway 2 to the Minnesota-Wisconsin State line; to points in that part of Wisconsin on and north of a line beginning at the Wisconsin-Minnesota State line extending along U.S. Highway 2 to the Wisconsin-Michigan State line; and to points in that part of Michigan on and east of a line beginning at the Michigan-Wisconsin State line extending along U.S. Highway 2 to junction Michigan Highway 69, thence along Michigan Highway 69 to junction Michigan Highway 95, thence along Michigan Highway 95 to junction U.S. Highway 2, thence along U.S. Highway 2 to Escanaba, Mich., with no transportation for compensation on return except as otherwise authorized, restricted against movement to oilfield locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E653), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors* (except those with vehicle beds, bed frames and fifth wheels), *equipment* designed for use in conjunction with farm tractors, and *parts* thereof, from Leavenworth, Kans., to points in Washington, to points in that part of Minnesota on, north and west of a line beginning at the North Dakota-Minnesota State line extending along U.S. Highway 10 to junction Minnesota Highway 34, thence along Minnesota Highway 34 to junction U.S. Highway 71, thence along U.S. Highway 71 to the United States-Canada Boundary line; to points in that part of North Dakota on and north of a line beginning at the North Dakota-Minnesota State line extending along U.S. Highway 81 to junction North Dakota Highway 46, thence along North Dakota Highway 46 to junction North Dakota Highway 30, thence along North Dakota Highway 30 to junction Interstate Highway 94, thence along Interstate Highway 94 to the Montana-North Dakota State line; to points in that part of Montana on and north of a line beginning at the Montana-North Dakota State line extending along U.S. Highway 10 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Montana-Idaho State line; to points in that part of Idaho on and north of a line beginning at the Idaho-Montana State line extending along U.S. Highway 12 to the Idaho-Washington State line; and to points in that part of Oregon on, west and north of a line beginning at the Oregon-Washington State line extending along Oregon Highway 11 to junction Interstate Highway 80N, thence along Interstate Highway 80N to junction Interstate Highway 5, thence along Interstate Highway 5 to junction U.S. Highway 20, thence along U.S. Highway 20 to Newport, Oreg. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., and that part of the Fargo, N. Dak., Commercial Zone located in Moorhead, Minn.

No. MC 114211 (Sub-No. E654), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof (except commodities, the transportation of which because of size or weight requires the use of special equipment), from Leavenworth, Kans., to points in that part of Texas on and south of a line beginning at the New Mexico-Texas State line extending along U.S. Highway 66, thence along U.S. Highway 66 to the Texas-Oklahoma State line (except Dallas, Ft. Worth, Houston, Galveston, Abilene, Sweetwater, Big Springs, Midland, Odessa, and El Paso), with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Tulsa, Okla.

No. MC 114211 (Sub-No. E655), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, between Springfield, Mo., on the one hand, and, on the other, points in that part of Iowa on and north of a line beginning at the Iowa-Illinois State line extending along Interstate Highway 80 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Iowa Highway 163, thence along Iowa Highway 163 to junction Interstate Highway 235, thence along Interstate Highway 235 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Interstate Highway 29, thence along Interstate Highway 29 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Iowa-Nebraska State line, and points in North Dakota and Minnesota. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 114211 (Sub-No. E656), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof (except commodities which because of size or weight requires the use of special equipment and except commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), from Clay Center, Kans., to points in Arkansas, Louisiana, Mississippi, Tennessee, the District of Columbia, West Virginia, Virginia, North Carolina, South Carolina, Georgia, Florida, and Alabama; to points in that part of New Mexico on and south of a line beginning at the Texas-New Mexico State line extending along U.S. Highway 62/180, thence along U.S. Highway 62/180 to the Texas-New Mexico State line; to points in that part of Oklahoma on and south of a line beginning at the Missouri-Oklahoma State line extending

XUM

along Interstate Highway 44 to junction Oklahoma Highway 99, thence along Oklahoma Highway 99 to junction Oklahoma Highway 19, thence along Oklahoma Highway 19 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Oklahoma Highway 7, thence along Oklahoma Highway 7 to junction H. E. Baily Turnpike, thence along H. E. Baily Turnpike to the Texas-Oklahoma State line; and to points in that part of Kentucky on and south of a line beginning at Paducah, Ky., extending along U.S. Highway 68 to junction Kentucky Highway 80, thence along Kentucky Highway 80 to junction U.S. Highway 23, thence along U.S. Highway 23 to the Kentucky-West Virginia State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Claremore, Okla.

No. MC 114211 (Sub-No. E657), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery* and *parts* thereof, from Leavenworth, Kans., to points in that part of Washington on and north of a line beginning at the Idaho-Washington State line extending along U.S. Highway 12 to junction Washington Highway 261, thence along Washington Highway 261 to junction Washington Highway 260, thence along Washington Highway 260 to junction Washington Highway 17, thence along Washington Highway 17 to junction Washington Highway 24, thence along Washington Highway 24 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Interstate Highway 5, thence along Interstate Highway 5 to Kelso, Wash.; to points in that part of Idaho on and west of a line beginning at the Montana-Idaho State line extending along U.S. Highway 2 to junction U.S. Highway 95, thence along U.S. Highway 95 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Washington-Idaho State line; to points in that part of Montana on and north of a line beginning at the Montana-North Dakota State line extending along Montana Highway 5 to junction Montana Highway 248, thence along Montana Highway 248 to junction Montana Highway 247, thence along Montana Highway 247 to junction U.S. Highway 2, thence along U.S. Highway 2 to the Montana-Idaho State line; to points in that part of Minnesota on and north of a line beginning at the United States-Canada Boundary line extending along U.S. Highway 59 to junction U.S. Highway 2, thence along U.S. Highway 2 to Duluth, Minn.; to points in that part of Michigan on and north and west of a line beginning at the Michigan-Wisconsin State line extending along Wisconsin Highway 73 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction Wisconsin Highway 69, thence along Wisconsin Highway 69 to junction Wisconsin Highway 95, thence along Wisconsin Highway 95 to junction U.S. Highway 41, thence along U.S. Highway 41 to Marquette, Mich.; and to points in that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line extending along U.S. Highway 2 to junction Wisconsin Highway 27, thence along Wisconsin Highway 27 to junction Wisconsin Highway 70, thence along Wisconsin Highway 70 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction Wisconsin Highway 17, thence along Wisconsin Highway 17 to junction Wisconsin Highway 70, thence along Wisconsin Highway 70 to junction Wisconsin Highway 55, thence along Wisconsin Highway 55 to the Wisconsin-Michigan State line, with no transportation for compensation on return except as otherwise authorized, restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr., and Minneapolis, Minn.

No. MC 114211 (Sub-No. E658), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery* and *parts* thereof, from Great Bend, Kans., to points in that part of Wisconsin on and north of a line beginning at the Wisconsin-Minnesota State line extending along Interstate Highway 94 to junction U.S. Highway 16, thence along U.S. Highway 16 to Lake Michigan, and to points in that part of Minnesota on and northeast of a line beginning at the United States-Canada Boundary line extending along U.S. Highway 75 to junction Minnesota Highway 175, thence along Minnesota Highway 175 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Interstate Highway 94, thence along Interstate Highway 94 to the Minnesota-Wisconsin State line, with no transportation for compensation on return except as otherwise authorized, restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., and Minneapolis, Minn.

No. MC 114211 (Sub-No. E659), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, between Grand View, Missouri, on the one hand, and, on the other, points in Oklahoma. The purpose of this filing is to eliminate the gateway of Martin City, Missouri, and points in Kansas.

No. MC 114211 (Sub-No. E660), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery* and *parts* thereof from Lincoln, Nebraska to points in that part of Minnesota on and northwest of a line beginning at the Wisconsin-Minnesota State line extending along U.S. Highway 12 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Minnesota Highway 371, thence along Minnesota Highway 371 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction U.S. Highway 71, thence along U.S. Highway 71 to the United States-Canada Boundary line; to points in that part of Washington on and northwest of a line beginning at Aberdeen, Washington and extending along U.S. Highway 12 to junction U.S. Highway 97, thence along U.S. Highway 97 to the Washington-Canada International Boundary line; and to points in that part of Wisconsin on and north of a line at the Minnesota-Wisconsin State line extending along Wisconsin Highway 54 to junction Wisconsin Highway 71, thence along Wisconsin Highway 71 to junction Wisconsin Highway 21, thence along Wisconsin Highway 21 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction U.S. Highway 10, thence along U.S. Highway 10 to Manitowoc, Wisconsin, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minnesota, points in Iowa, and Nebraska City, Nebraska.

No. MC 114211 (Sub-No. E661), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements;* from Leavenworth, Kansas, to points in that part of Texas on and southwest of a line beginning at Corpus Christi, Texas, and extending along Texas Highway 44 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 277, thence along U.S. Highway 277 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Texas Highway 116, thence along Texas Highway 116 to the Texas-New Mexico State line; to points in that part of Minnesota on and northwest on a line beginning at the Indiana-Minnesota State line extending along U.S. Highway 59 to junction Minnesota Highway 23, thence along Minnesota Highway 23 to junction Minnesota Highway 48, thence along Minnesota Highway 48 to the Minnesota-Wisconsin State line; and to points in that

part of Wisconsin on and northwest of a line beginning at the Minnesota-Wisconsin State line extending along Wisconsin Highway 77 to junction Wisconsin Highway 70; thence along Wisconsin Highway 70 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction Wisconsin Highway 47, thence along Wisconsin Highway 47 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Michigan State line, with no transportation for compensation on return except as otherwise authorized restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebraska.

No. MC 114211 (Sub-No. E662), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* for agricultural implements, between Tonkawa, Oklahoma, on the one hand, and, on the other, points in Iowa. The purpose of this filing is to eliminate the gateway of Beatrice and Nebraska City, Nebraska.

No. MC 114211 (Sub-No. E663), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery*, and *implements*, other than hand, as described in Section 1(b) of Appendix XII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, and therefore when their transportation is incidental to the transportation of the machinery and implements from Springfield, Missouri to points in South Dakota and to points in that part of Nebraska on and north of a line beginning at the Nebraska-Iowa State line extending along U.S. Highway 30 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction Nebraska Highway 70, thence along Nebraska Highway 70 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Nebraska-Wyoming State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 114211 (Sub-No. E664), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, between Independence, Missouri, on the one hand, and, on the other, points in North Dakota, Minnesota, points in that part of Illinois on and north of a line beginning at the Illinois-Indiana State line extending along Illinois Highway 114 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction Illinois Highway 17, thence along Illinois Highway 17 to junction Illinois Highway 23, thence along Illinois Highway 23 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Illinois Highway 92, thence along Illinois Highway 92 to the Illinois-Iowa State line, and points in that part of Iowa on and north of a line beginning at the Illinois-Iowa State line extending along Iowa Highway 92 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction Iowa Highway 163, thence along Iowa Highway 163 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Iowa Highway 10, thence along Iowa 10 to the Iowa-South Dakota State line. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 119641 (Sub-No. E4), filed May 9, 1974. Applicant: RINGLE EXPRESS, INC., P.O. Box 335, Moline, Ill. 61265. Applicant's representative: Robert C. Doran (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Insulated brick siding*, from Lockland, Ohio to points in Iowa within 1 mile of the Mississippi River from Fort Madison, Iowa to the Iowa-Minnesota State line, and points in Wisconsin. The purpose of this filing is to eliminate the gateway of Lowell, Ind.

No. MC 119968 (Sub-No. E2), filed May 20, 1974. Applicant: A. J. WEIGAND, INC., 3966 Pearl Road, Cleveland, Ohio 44109. Applicant's representative: Paul F. Beery, 8 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are manufactured and sold by chemical manufacturing plants* (except petroleum products, in bulk, in tank trucks), when moving to or from warehouses or other facilities of chemical manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemical manufacturing plants, in bulk, between points in Erie County, Pennsylvania, on the one hand, and, on the other, points in Illinois; Kentucky, those points in Indiana south of a line beginning at Gary, Indiana, and extending south along Interstate Highway 65 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction Indiana Highway 14, thence along Indiana Highway 14 to junction Indiana Highway 5, thence along Indiana Highway 5 to junction U.S. Highway 224, thence along U.S. Highway 224 to junction U.S. Highway 33, thence along U.S. Highway 33 to the Indiana-Ohio State line; those points in Ohio south and west of a line beginning at the Indiana-Ohio State line and extending east along U.S. Highway 33 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction Ohio Highway 39, thence along Ohio Highway 39 to junction Interstate Highway 77, thence along Interstate Highway 77 to the Ohio-West Virginia State line; and those points in West Virginia on and west of Interstate Highway 77. The purpose of this filing is to eliminate the gateway of Dover, Ohio.

No. MC 119968 (Sub-No. E3), filed May 20, 1974. Applicant: A. J. WEIGAND, INC., 3966 Pearl Road, Cleveland, Ohio 44109. Applicant's representative: Paul F. Beery, 8 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Such commodities as are manufactured and sold by chemical manufacturing plants (except petroleum products, in bulk, in tank trucks), when moving to or from warehouses or other facilities of chemical manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemical manufacturing plants, in bulk, between points in the Counties of Cameron, Clarion, Clearfield, Crawford, Elk, Forest, Jefferson, McKean, Mercer, Venango, and Warren, Pennsylvania, on the one hand, and, on the other, points in Illinois; Kentucky; those points in Indiana on and south of U.S. Highway 30; those points in Ohio south and west of a line beginning at the Indiana-Ohio State line and extending east along U.S. Highway 30 to the intersection of U.S. Highway 250, thence east on U.S. Highway 250 to the junction of Interstate Highway 77, thence along Interstate Highway 77 to the Ohio-West Virginia State line; and those points in West Virginia on and west of Interstate Highway 77. The purpose of this filing is to eliminate the gateway of Dover, Ohio.

No. MC 119968 (Sub-No. E13), filed May 20, 1974. Applicant: A. J. WEIGAND, INC., 3966 Pearl Road, Cleveland, Ohio 44109. Applicant's representative: Paul F. Beery, 8 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are manufactured and sold by chemical manufacturing plants* (except petroleum products, in bulk, in tank trucks), when moving to or from warehouses or other facilities of chemical manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemical manufacturing plants, in bulk, between points in West Virginia bounded by and on a line beginning at the Kentucky-West Virginia State line, extending along U.S. Highway 119 to junction U.S. Highway 60, thence west along U.S. Highway 60 to the West Virginia-Kentucky State

XUM

line, on the one hand, and, on the other, points in Connecticut; Massachusetts; that part of the southern peninsula of Michigan on and north of Interstate Highway 96; that part of New Jersey on and north of U.S. Highway 322; New York; that part of Ohio north of a line beginning at Sandusky, Ohio, and extending south along U.S. Highway 250 to junction Ohio Highway 39, thence along Ohio Highway 39 to the Ohio-Pennsylvania State line; that part of Pennsylvania on and north of a line beginning at the Ohio-Pennsylvania State line and extending east along Pennsylvania Highway 68 to junction U.S. Highway 422, thence along U.S. Highway 422 to junction U.S. Highway 22, thence along U.S. Highway 22 to junction U.S. Highway 322, thence along U.S. Highway 322 to the Pennsylvania-New Jersey State line. The purpose of this filing is to eliminate the gateway of Dover, Ohio.

No. MC 119968 (Sub-No. E16), filed May 20, 1974. Applicant: A. J. WEIGAND, INC., 3966 Pearl Rd., Cleveland, Ohio 44109. Applicant's representative: Paul F. Beery, 8 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are manufactured and sold by chemical manufacturing plants* (except petroleum products, in bulk, in tank trucks), when moving to or from warehouses or other facilities of chemical manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemical manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemical manufacturing plants, in bulk, between points in Ohio on, west, and south of a line beginning at Sandusky, Ohio, and extending south along U.S. Highway 250 to junction Ohio Highway 18, thence along Ohio Highway 18 to junction Ohio Highway 183, thence along Ohio Highway 183 to junction Ohio Highway 43, thence along Ohio Highway 43 to junction Ohio Highway 9, thence along Ohio Highway 9 to junction U.S. Highway 250, thence along U.S. Highway 50 to the Ohio-West Virginia State line, those points in West Virginia on and west of a line beginning at the Ohio-West Virginia State line, and extending east along U.S. Highway 250 to junction West Virginia Highway 2, thence along West Virginia Highway 2 to junction U.S. Highway 60, thence along U.S. Highway 60 to the West Virginia-Kentucky State line, those points in Kentucky on and north of a line beginning at the Kentucky-West Virginia State line and extending west along U.S. Highway 60 to intersection U.S. Highway 23, thence along U.S. Highway 23 to junction Kentucky Highway 10, thence along Kentucky Highway 10 to junction Kentucky Highway 8, thence along Kentucky Highway 8 to its termination near North Bend, Ohio, on the one hand, and, on the other, points in that part of Connecticut on and north of a line beginning at the Massachusetts-Connecticut State line and extending south along U.S. Highway 7 to junction U.S. Highway 44, thence along U.S. Highway 44 to junction Connecticut Highway 44 to junction Connecticut Highway 2, thence along Connecticut Highway 2 to junction Connecticut Highway 85, thence along Connecticut Highway 85 to New London, Conn., Rhode Island, Massachusetts, those points in New York bounded by a line beginning at junction New York Highway 12 and New York Highway 58 near Morristown, N.Y., thence south along New York Highway 12 to junction New York Highway 7, thence along New York Highway 7 to junction New York Highway 23, thence along New York Highway 23 to the New York-Massachusetts State line, thence north along the New York State line to the U.S.-Canada International Boundary line, thence along the New York State line to points of origin. The purpose of this filing is to eliminate the gateway of Dover, Ohio.

No. MC 119968 (Sub-No. E20), filed May 20, 1974. Applicant: A. J. WEIGAND, INC., 3066 Pearl Rd., Cleveland, Ohio 44109. Applicant's representative: Paul F. Beery, 8 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are manufactured and sold by chemical manufacturing plants* (except petroleum products, in bulk, in tank trucks), when moving to or from warehouses or other facilities of chemical manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemicals manufacturing plants, in bulk, between points in Ohio on and east of a line beginning at the Ohio-Pennsylvania State line and extending west along U.S. Highway 62 to junction Interstate Highway 77, thence along Interstate Highway 77 to junction U.S. Highway 250, thence along U.S. Highway 250 to the Ohio-West Virginia State line, on the one hand, and, on the other, points in Illinois on and north of Interstate Highway 70, Indiana on and north of Interstate Highway 70, and the southern peninsula of Michigan. The purpose of this filing is to eliminate the gateway of Dover, Ohio.

No. MC 119968 (Sub-No. E23), filed May 20, 1974. Applicant: A. J. WEIGAND, 3966 Pearl Rd., Cleveland, Ohio 44109. Applicant's representative: Paul F. Beery, 8 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are manufactured and sold by chemical manufacturing plants* (except petroleum products, in bulk, in tank trucks), when moving to or from warehouses or other facilities of chemical manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemical manufacturing plants, in bulk, between points in Ohio on and west of a line beginning at Cleveland, Ohio, and extending south along Interstate Highway 77 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Ohio Highway 16, thence along Ohio Highway 16 to junction U.S. Highway 23, thence along U.S. Highway 23 to the Ohio-Kentucky State line; and points in Kentucky on and north of a line beginning at the Kentucky-West Virginia State line and extending west along U.S. Highway 60 to intersection U.S. Highway 23, thence along U.S. Highway 23 to junction Kentucky Highway 10, thence along Kentucky Highway 10 to junction Kentucky Highway 8, thence along Kentucky Highway 8 to its termination near North Bend, Ohio, on the one hand, and, on the other, points in Maryland on and east of Interstate Highway 81, Delaware, and New Jersey on and south of New Jersey Highway 33. The purpose of this filing is to eliminate the gateway of Dover, Ohio.

No. MC 119988 (Sub-No. E121), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384, Lufkin, Tex. 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Tex. 75208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter*, and (2) *newspaper supplements* otherwise exempt from economic regulation under Section 203(b)(7) of the Interstate Commerce Act when transported in mixed loads with printed advertising matter, from points in that part of Texas on and east of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 81 to junction U.S. Highway 181, thence along U.S. Highway 181 to the Gulf of Mexico, to points in that part of Pennsylvania on and east of a line beginning at the Pennsylvania-New York State line and extending along U.S. Highway 219 to the Pennsylvania-Maryland State line. The purpose of this filing is to eliminate the gateway of Montgomery County, Kans.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

Title 40—Protection of the Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER N—EFFLUENT GUIDELINES AND STANDARDS

[FRL 331-8]

PRETREATMENT STANDARDS

On May 28, 1974; March 20, 1974; March 21, 1974; June 26, 1974; January 31, 1974; March 20, 1974; February 20, 1974, February 14, 1974; April 25, 1974; April 12, 1974; February 14, 1974; February 26, 1974; May 29, 1974; May 9, 1974 and February 28, 1974, notices were published in the proposed rules section of the FEDERAL REGISTER (39 FR 18610, 39 FR 15019, 39 FR 10869, 39 FR 23154, 39 FR 4039, 39 FR 10527, 39 FR 6595, 39 FR 5709, 39 FR 14684, 39 FR 13394, 39 FR 5720, 39 FR 7534, 39 FR 8666, 39 FR 16582, and 39 FR 7907 respectively), that the Environmental Protection Agency (EPA or Agency) was proposing regulations concerning the application of effluent limitations guidelines for existing sources to pretreatment standards.

The purpose of this notice is to establish final pretreatment standards for selected subcategories of existing sources within the dairy products processing industry point source category (40 CFR Part 405); grain mills point source category (40 CFR Part 406); canned and preserved fruits and vegetables processing point source category (40 CFR Part 407); canned and preserved seafood processing point source category (40 CFR Part 408); beet sugar processing point source subcategory (40 CFR Part 409); liquid and crystalline cane sugar refining subcategory (40 CFR Part 409); cement manufacturing point source category (40 CFR Part 411); feedlots point source category (40 CFR Part 412); organic chemicals manufacturing point source category (40 CFR Part 414); soap and detergent manufacturing point source category (40 CFR Part 417); glass manufacturing point source categories (40 CFR Part 426); asbestos manufacturing point source category (40 CFR Part 427); pulp, paper and paperboard point source category (40 CFR Part 430); builders paper and roofing felt segment of the builders paper and board mills point source category (40 CFR Part 431); and the meat products point source category (40 CFR Part 432) which discharge to publicly owned treatment works.

Pending further study, final pretreatment standards for existing sources for the following industrial subcategories will be promulgated by the Agency in the near future: In the organic chemicals manufacturing point source category (40 CFR Part 414), product-process subcategory groups C2 (phenol and acetone—cumene process), C3 (bisphenol A), and C4 (p-cresol); in the soap and detergent manufacturing point source category (40 CFR Part 417), manufacture of spray dried detergents, manufacture of liquid detergents, manufacturing of detergents by dry blending, and manufacture of drum dried detergents subcategories; and in the glass manufacturing point source categories (40 CFR Part 426), automotive glass laminating and float glass manufacturing subcategories.

This final rulemaking is promulgated pursuant to section 307(b) of The Federal Water Pollution Control Act, as amended (The Act); 33 U.S.C. 1317(b); 86 Stat. 816 et seq.; Public Law 92-500. This regulation is intended to be complementary to the general regulation for pretreatment standards set forth in 40 CFR 128. The general regulation was proposed July 19, 1973 (38 FR 19236), and published in final form on November 8, 1973 (38 FR 30982).

The general pretreatment standard considers pollutants discharged by users of publicly owned treatment works in the two broad categories compatible and incompatible. Compatible pollutants generally are not subject to Federal pretreatment standards; however 40 CFR 128.131 (prohibited wastes) may be applicable to compatible pollutants. Additionally, local pretreatment requirements may apply (see 40 CFR 128.110). Incompatible pollutants generally are subject to pretreatment pursuant to 40 CFR Part 128.

Operators of publicly owned treatment works and other interested persons should refer to the Federal Guidelines: Pretreatment of Pollutants Introduced into Publicly Owned Treatment Works, published Oct. 1973 pursuant to section 304(f) of the Act, for guidance as to local pretreatment requirements and to provide supplementary information on pretreatment.

Interested persons were invited to participate in the proposed rulemaking by submitting written comments within 30 days from the date of publication of the notices. Prior public participation in the form of solicited comments and responses from the states, Federal agencies, and other interested parties were described in the preamble to the proposed regulation. EPA has considered carefully all of the comments received and a discussion of these comments with the agencies response thereto follows:

(A) SUMMARY OF COMMENTS

The following responded to one or more of the requests for written comments contained in the preambles to the proposed regulations: Great Western Sugar Company; National Independent Meat Packers Association; American Meat Institute; The Soap and Detergent Association; Rohm and Haas Company; and the Metropolitan Sanitary District of Greater Chicago. Each of the comments received was carefully reviewed and analyzed. A summary of the significant comments and the Agency's response to those comments for each of the industries follows.

DAIRY PRODUCTS PROCESSING INDUSTRY POINT SOURCE CATEGORY (40 CFR PART 405)

(1) A commenter indicated that high concentrations of BOD5 in the two whey subcategories may upset treatment works.

Difficulty may be experienced in maintaining normal treatment efficiencies without special operational procedures when the BOD5 concentration attributable to whey becomes extremely high. This is especially true when there is not sufficient equalization present to prevent shock loading. Thus, it may be that there are situations where whey may not be amenable to treatment depending on the relative quality and quantity of influent to the municipal system and the design and operating characteristics of the publicly owned treatment works. Any discharger whose waste causes an upset or interferes with the operation or performance of the works shall be in violation of the prohibited wastes section (§ 128.131) of the general pretreatment regulation (40 CFR Part 128).

GRAIN MILLS POINT SOURCE CATEGORY (40 CFR PART 406)

(2) No comments were received concerning this industry.

CANNED AND PRESERVED FRUITS AND VEGETABLES PROCESSING POINT SOURCE CATEGORY (40 CFR PART 407)

(3) One commenter advised the Agency that this is a seasonal industry which results in peak loading of treatment works.

The operator of publicly owned treatment works is advised that peak loading or slugging of the treatment facility is possible. All precautions must be taken to prevent this type of discharge from upsetting the treatment works. Any discharger whose waste causes an upset or interferes with the operation or performance of the works shall be in violation of the prohibited wastes section (§ 128.131) of the general pretreatment regulation (40 CFR Part 128).

CANNED AND PRESERVED SEAFOOD PROCESSING POINT SOURCE CATEGORY (40 CFR PART 408)

(4) One commenter indicated that excessive discharges of oil and grease may pass through or interfere with the operation of a publicly owned treatment works.

Oil and grease, particularly from animal and vegetable sources, can be treated by biological techniques in a properly operated municipal treatment plant. Excessive discharges of oil and grease which would upset or interfere with the operation or performance of such publicly owned treatment works would be in violation of the prohibited wastes section (128.131) of the general pretreatment regulation (40 CFR 128).

BEET SUGAR PROCESSING POINT SOURCE SUBCATEGORY (40 CFR PART 409)

(5) A comment was received concerning the temperature parameter for this industry.

The discharges from the beet sugar industry generally range between 55–65°C. If a facility discharges to a municipal treatment works, dilution and heat losses in the interceptor system will normally prevent these discharges from adversely affecting the treatment works. During

cold weather these warm discharges can actually prove beneficial to the biological systems in the treatment plant.

(6) Several commenters had no objections to the pretreatment standards for existing sources proposed.

LIQUID AND CRYSTALLINE CANE SUGAR REFINING SUBCATEGORY (40 CFR PART 409)

(7) One commenter expressed concern regarding the extremely high concentrations of BOD5 and TSS in the filter cake slurry waste water.

Although the filter cake slurry waste water stream is considered to be highly amenable to treatment, the extremely high concentrations of BOD5 and TSS therein could, in some cases, interfere with the operation of publicly owned treatment works. These special situations should be controlled by the operators of the treatment works involved. Such control should not pose undue difficulty since the highly concentrated waste can be dry handled and disposed of as solid waste by the publicly owned treatment works. Any discharger whose waste causes an upset or interferes with the operation or performance of the publicly owned treatment works shall be in violation of the prohibited wastes section (128.131) of the general pretreatment regulation (40 CFR 128).

CEMENT MANUFACTURING POINT SOURCE CATEGORY (40 CFR PART 411)

(8) A comment was received concerning the temperature parameter for this industry.

Heat losses and dilution in the interceptor systems will generally effectively reduce any thermal discharges from these plants. Those discharges which may reach a treatment facility at a slightly higher than ambient temperature will enhance the biological activity in the treatment works. This is a highly desirable effect during cold weather.

FEEDLOTS POINT SOURCE CATEGORY (40 CFR PART 412)

(9) No comments were received.

ORGANIC CHEMICALS MANUFACTURING POINT SOURCE CATEGORY (40 CFR PART 414)

(10) Some commenters indicated that there may be other pollutants in the waste water from this industry besides BOD5, TSS and pH.

The Agency is aware that the waste water from this industry is composed of many varied and complex compounds. The operators of municipal treatment works are warned that though these wastes are usually organic in nature, caution should be exercised in treating these waste waters to assure that they do not interfere with the operation or performance of the publicly owned treatment works.

SOAP AND DETERGENT MANUFACTURING POINT SOURCE CATEGORY (40 CFR PART 417)

(11) Several commenters expressed their belief that the oil and grease discharged by this industry is amenable to treatment in publicly owned treatment works.

The Agency concurs that the oils and greases of animal or vegetable origin can be treated in a properly operated publicly owned treatment works. Excessive discharges of oil and grease may upset or interfere with the operation or performance of the publicly owned treatment works. Such excessive discharges would be in violation of the prohibited wastes section (§ 128.131) of the general pretreatment regulation (40 CFR Part 128).

GLASS MANUFACTURING POINT SOURCE CATEGORIES (40 CFR PART 426)

(12) No comments were received concerning the subcategories being considered for promulgation.

ASBESTOS MANUFACTURING POINT SOURCE CATEGORY (40 CFR PART 427)

(13) One commenter was concerned with the disposal of sludges containing asbestos fibers.

Waste from this industry category can contain large amounts of asbestos fibers. These wastes should not be introduced into (1) publicly-owned treatment works whose effluents could affect a potable water supply or (2) publicly-owned treatment works that dispose of sludges without adequate safeguards to prevent land migration of contaminants to ground or surface waters. Sites should be selected that have natural soil and geographical conditions to prevent such contamination or, if such conditions do not exist, artificial means (e.g. liners) must be provided to insure long-term protection. Where such control is not provided for sludges containing significant quantities of asbestos fibers, they should be excluded from the municipal sludge and disposed of separately under controlled conditions.

PULP, PAPER AND PAPERBOARD POINT SOURCE CATEGORY (40 CFR PART 430)

(14) No comments were received.

BUILDERS PAPER AND ROOFING FELT SEGMENT OF THE BUILDERS PAPER AND BOARD MILLS POINT SOURCE CATEGORY (40 CFR PART 341)

(15) Several comments were received questioning the necessity of a settleable solids limitation in addition to a suspended solids limitation.

Settleable solids are those suspended solids which settle out in one hour or less. Since this type of solids is present in all municipal and domestic wastes, they are readily treated in the primary units of a municipal treatment facility and therefore no limitation is established for this parameter in this regulation. The necessity of both a suspended solids and a settleable solids limitation is aimed primarily at direct dischargers to prevent the build-up of delta like formations in navigable waters at the point of discharge. Any discharger whose waste causes an upset or interferes with the operation or performance of the publicly owned treatment works shall be in violation of the prohibited wastes section (§ 128.131) of the general pretreatment regulation (40 CFR Part 128).

MEAT PRODUCTS POINT SOURCE CATEGORY (40 CFR PART 432)

(16) Several commenters indicated that excessive discharges of oil and grease may pass through or interfere with the operation of a publicly owned treatment works.

Oil and grease, particularly of animal and vegetable origin, can be treated by biological techniques in a publicly owned treatment works. Operators are warned that excessive discharges of oil and grease which would upset or interfere with the operation or performance of a publicly owned treatment works would be in violation of the prohibited waste section (§ 28.131) of the general pretreatment regulation (40 CFR Part 128).

(B) REVISION OF THE PROPOSED REGULATION PRIOR TO PROMULGATION

No substantive changes have been made from the proposed regulations except the format has been changed for clarification of the pretreatment standards.

(C) FINAL RULEMAKING

In consideration of the foregoing, 40 CFR Chapter I, Subchapter N is hereby amended by adding to Part 405, dairy products processing industry point source category, §§ 405.14, 405.24, 405.34, 405.44, 405.54, 405.64, 405.74, 405.84, 405.94, 405.104, 405.144, 405.124; Part 406; grain mills point source category, §§ 406.14, 406.24, 406.34, 406.44, 406.54, 406.64; Part 407, canned and preserved fruits and vegetables processing point source category, §§ 407.14, 407.24, 407.34, 407.44, 407.54; Part 408, canned and preserved seafood processing point source category, §§ 408.14, 408.24, 408.34, 408.44, 408.54, 408.64, 408.74, 408.84, 408.94, 408.104, 408.114, 408.124, 408.134, 408.144; Part 409, beet sugar processing point source subcategory, § 409.14; Part 409, Liquid and crystalline cane sugar refining subcategory, §§ 409.24, 409.34; Part 411, cement manufacturing point source category, §§ 411.14, 411.24, 411.34; 412, feedlots point source category, §§ 412.14, 412.24; Part 414, organic chemicals manufacturing point source category, §§ 414.14, 414.24, 414.34; Part 417, soap and detergent manufacturing point source category, §§ 417.14, 417.24, 417.34, 417.44, 417.54, 417.64, 417.74, 417.84, 417.94, 417.104, 417.114, 417.124, 417.134, 417.144, 417.194; Part 426, glass manufacturing point source categories, §§ 426.24, 426.34, 426.44, 426.64; Part 427, asbestos manufacturing point source category, §§ 427.14, 427.24, 427.34, 427.44, 427.54, 427.64, 427.74; Part 430, pulp, paper and paperboard point source category, §§ 430.14, 430.24, 430.34, 430.44, 430.54; Part 431, builders paper and roofing felt segment of the builders paper and board mills point source category, § 431.14; Part 432, meat products point source category, §§ 432.14, 432.24, 432.34, and 432.44 to read as set forth below. This final regulation is promulgated as set forth below and shall be effective March 13, 1975.

(Secs. 301, 304 (b), (c), 306 (b), (c), 307(b), Federal Water Pollution Control Act, as amended; 33 U.S.C. 1251, 1311, 1314 (b), (c), 1316 (b) and (c), 1317(b); 86 Stat. 816 et seq.; Pub. L. 92-500)

Dated: January 29, 1975.

JOHN QUARLES,
Acting Administrator.

The following parts of 40 CFR Chapter I are amended as set forth below:

PART 405—DAIRY PRODUCTS PROCESSING POINT SOURCE CATEGORY

The table of contents to Part 405 is amended by adding the following new entries to the indicated subparts:

Subpart A—Receiving Stations Subcategory

Sec.
405.14 Pretreatment standards for existing sources.

Subpart B—Fluid Products Subcategory

405.24 Pretreatment standards for existing sources.

Subpart C—Cultured Products Subcategory

405.34 Pretreatment standards for existing sources.

Subpart D—Butter Subcategory

405.44 Pretreatment standards for existing sources.

Subpart E—Cottage Cheese and Cultured Cream Cheese Subcategory

405.54 Pretreatment standards for existing sources.

Subpart F—Natural and Processed Cheese Subcategory

405.64 Pretreatment standards for existing sources.

Subpart G—Fluid Mix for Ice Cream and Other Frozen Desserts Subcategory

405.74 Pretreatment standards for existing sources.

Subpart H—Ice Cream, Frozen Desserts, Novelties and Other Dairy Desserts Subcategory

405.84 Pretreatment standards for existing sources.

Subpart I—Condensed Milk Subcategory

405.94 Pretreatment standards for existing sources.

Subpart J—Dry Milk Subcategory

405.104 Pretreatment standards for existing sources.

Subpart K—Condensed Whey Subcategory

405.114 Pretreatment standards for existing sources.

Subpart L—Dry Whey Subcategory

405.124 Pretreatment standards for existing sources.

Part 405 is amended as follows:

1. Subpart A is amended by adding § 405.14 as follows:

§ 405.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the receiving stations subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

2. Subpart B is amended by adding § 405.24 as follows:

§ 405.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the fluid products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

3. Subpart C is amended by adding § 405.34 as follows:

§ 405.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the cultured products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

4. Subpart D is amended by adding § 405.44 as follows:

§ 405.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the butter subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

5. Subpart E is amended by adding § 405.54 as follows:

§ 405.54 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the cottage cheese and cultured cream cheese subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

6. Subpart F is amended by adding § 405.64 as follows:

§ 405.64 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the natural and processed cheese subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this

section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

7. Subpart G is amended by adding 8405.74 as follows:

§ 405.74 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the fluid mix for ice cream and other frozen desserts subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

8. Subpart H is amended by adding § 405.84 as follows:

§ 405.84 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the ice cream, frozen desserts, novelties, and other dairy desserts subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

9. Subpart I is amended by adding § 405.94 as follows:

§ 405.94 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the condensed milk subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment Standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

10. Subpart J is amended by adding § 405.104 as follows:

§ 405.104 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the dry milk subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

11. Subpart K is amended by adding § 405.114 as follows:

§ 405.114 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the condensed whey subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

12. Subpart L is amended by adding § 405.124 as follows:

§ 405.124 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the dry whey subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

PART 406—GRAIN MILLS POINT SOURCE CATEGORY

The table of contents is amended by adding the following new sections to the indicated subparts:

Subpart A—Corn Wet Milling Subcategory

Sec.
406.14 Pretreatment standards for existing sources.

Subpart B—Corn Dry Milling Subcategory

406.24 Pretreatment standards for existing sources.

Subpart C—Normal Wheat Flour Milling Subcategory

406.34 Pretreatment standards for existing sources.

Subpart D—Bulgar Wheat Flour Milling Subcategory

406.44 Pretreatment standards for existing sources.

Subpart E—Normal Rice Milling Subcategory

406.54 Pretreatment standards for existing sources.

Subpart F—Parboiled Rice Processing Subcategory

406.64 Pretreatment standards for existing sources.

Part 406 is amended as follows:

1. Subpart A is amended by adding § 406.14 as follows:

XUM V40 I29 FEB 11 75 XUM

§ 406.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the corn wet milling subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

2. Subpart B is amended by adding § 406.24 as follows:

§ 406.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the corn dry milling subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

3. Subpart C is amended by adding § 406.34 as follows:

§ 406.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the normal wheat flour milling subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
BOD5	No limitation.
TSS	Do.

4. Subpart D is amended by adding § 406.44 as follows:

§ 406.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the bulgur wheat flour milling subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

6. Subpart F is amended by adding § 406.64 as follows:

§ 406.64 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the parboiled rice processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

PART 407—CANNED AND PRESERVED FRUITS AND VEGETABLES PROCESSING POINT SOURCE CATEGORY

The table of contents is amended by adding the following sections to the indicated subparts:

Subpart A—Apple Juice Subcategory

Sec.
407.14 Pretreatment standards for existing sources.

Subpart B—Apple Products Subcategory

407.24 Pretreatment standards for existing sources.

Subpart C—Citrus Products Subcategory

407.34 Pretreatment standards for existing sources.

Subpart D—Frozen Potato Products Subcategory

407.44 Pretreatment standards for existing sources.

Subpart E—Dehydrated Potato Products Subcategory

407.54 Pretreatment standards for existing sources.

Part 407 is amended as follows:

1. Subpart A is amended by adding § 407.14 as follows:

§ 407.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the apple juice subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

2. Subpart B is amended by adding § 407.24 as follows:

§ 407.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the apple products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

3. Subpart C is amended by adding § 407.34 as follows:

§ 407.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the citrus products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

4. Subpart D is amended by adding § 407.44 as follows:

§ 407.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the frozen potato products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

5. Subpart E is amended by adding § 407.54 as follows:

§ 407.54 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the dehydrated potato products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

PART 408—CANNED AND PRESERVED SEAFOOD PROCESSING POINT SOURCE CATEGORY

The Table of contents is amended by adding the following new sections to the indicated subparts:

Subpart A—Farm-Raised Catfish Processing Subcategory

Sec.
408.14 Pretreatment standards for existing sources.

Subpart B—Conventional Blue Crab Processing Subcategory

408.24 Pretreatment standards for existing sources.

Subpart C—Mechanized Blue Crab Processing Subcategory

408.34 Pretreatment standards for existing sources.

Subpart D—Non-Remote Alaskan Crab Meat Processing Subcategory

408.44 Pretreatment standards for existing sources.

Subpart E—Remote Alaskan Crab Meat Processing Subcategory

Sec.
408.54 Pretreatment standards for existing sources.

Subpart F—Non-Remote Alaskan Whole Crab and Crab Section Processing Subcategory

408.64 Pretreatment standards for existing sources.

Subpart G—Remote Alaskan Whole Crab and Crab Section Processing Subcategory

408.74 Pretreatment standards for existing sources.

Subpart H—Dungeness and Tanner Crab Processing in the Contiguous States Subcategory

408.84 Pretreatment standards for existing sources.

Subpart I—Non-Remote Alaskan Shrimp Processing Subcategory

408.94 Pretreatment standards for existing sources.

Subpart J—Remote Alaskan Shrimp Processing Subcategory

408.104 Pretreatment standards for existing sources.

Subpart K—Northern Shrimp Processing in the Contiguous States Subcategory

408.114 Pretreatment standards for existing sources.

Subpart L—Southern Non-Breaded Shrimp Processing in the Contiguous States Subcategory

408.124 Pretreatment standards for existing sources.

Subpart M—Breaded Shrimp Processing in the Contiguous States Subcategory

408.134 Pretreatment standards for existing sources.

Subpart N—Tuna Processing Subcategory

408.144 Pretreatment standards for existing sources.

Part 408 is amended as follows:

1. Subpart A is amended by adding § 408.14 as follows:

§ 408.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the farm raised catfish processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
ph	No limitation.
Oil and grease	Do.
TSS	Do.

2. Subpart B is amended by adding § 408.24 as follows:

XUM
V40-29 FEB 11 75 XUM

§ 408.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the conventional blue crab processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
Oil and grease	Do.
TSS	Do.

3. Subpart C is amended by adding § 408.34 as follows:

§ 408.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the mechanized blue crab processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
Oil and grease	Do.
TSS	Do.

4. Subpart D is amended by adding § 408.44 as follows:

§ 408.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the non-remote Alaskan crab meat processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
Oil and grease	Do.
TSS	Do.

5. Subpart E is amended by adding § 408.54 as follows:

§ 408.54 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the remote Alaskan crab meat processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
Oil and grease	Do.
TSS	Do.

6. Subpart F is amended by adding § 408.64 as follows:

§ 408.64 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the non-remote Alaskan whole crab and crab section processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
Oil and grease	Do.
TSS	Do.

7. Subpart G is amended by adding § 408.74 as follows:

§ 408.74 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the remote Alaskan whole crab and crab section processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
Oil and grease	Do.
TSS	Do.

8. Subpart H is amended by adding § 408.84 as follows:

§ 408.84 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the dungeness and tanner crab processing in the contiguous states subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
Oil and grease	Do.
TSS	Do.

9. Subpart I is amended by adding § 408.94 as follows:

§ 408.94 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the non-remote Alaskan shrimp processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
Oil and grease	Do.
TSS	Do.

10. Subpart J is amended by adding § 408.104 as follows:

§ 408.104 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the remote Alaskan shrimp processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
Oil and grease	Do.
TSS	Do.

11. Subpart K is amended by adding § 408.114 as follows:

§ 408.114 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the Northern shrimp processing in the contiguous states subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
Oil and grease	Do.
TSS	Do.

12. Subpart L is amended by adding § 408.124 as follows:

§ 408.124 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the Southern non-breaded shrimp processing in the contiguous states subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
Oil and grease	Do.
TSS	Do.

13. Subpart M is amended by adding § 408.134 as follows:

§ 408.134 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the breaded shrimp processing in the contiguous states subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following treatment standard establishes the quantity or quality or pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
Oil and grease	Do.
TSS	Do.

14. Subpart N is amended by adding § 408.144 as follows:

§ 408.144 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the tuna processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and grease	Do.

PART 409—BEET AND LIQUID AND CRYSTALLINE CANE SUGAR PROCESSING POINT SOURCE SUBCATEGORY

The table of contents is amended by adding the following sections to the indicated subparts:

Subpart A—Beet Sugar Processing Subcategory

Sec.
409.14 Pretreatment standards for existing sources.

Subpart B—Crystalline Cane Sugar Refining Subcategory

409.24 Pretreatment standards for existing sources.

Subpart C—Liquid Cane Sugar Refining Subcategory

409.34 Pretreatment standards for existing sources.

Part 409 is amended as follows:

1. Subpart A is amended by adding § 409.14 as follows:

§ 409.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the beet sugar processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Fecal coliform	Do.
Temperature (heat)	Do.

XUM
V 40 29 FEB 11 75 XUM

Part 409 is amended as follows:

1. Subpart B is amended by adding § 409.24 as follows:

§ 409.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the crystalline cane sugar refining subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

2. Subpart C is amended by adding § 409.34 as follows:

§ 409.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the liquid cane sugar refining subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

PART 411—CEMENT MANUFACTURING POINT SOURCE CATEGORY

The table of contents is amended by adding the following new sections to the indicated subparts:

Subpart A—Nonleaching Subcategory

Sec.
411.14 Pretreatment standards for existing sources.

Subpart B—Leaching Subcategory

411.24 Pretreatment standards for existing sources.

Subpart C—Materials Storage Piles Runoff Subcategory

Sec.
411.34 Pretreatment standards for existing sources.

Part 411 is amended as follows:

1. Subpart A is amended by adding § 411.14 as follows:

§ 411.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the nonleaching subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
Temperature (heat)	Do.
TSS	Do.

2. Subpart B is amended by adding § 411.24 as follows:

§ 411.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the leaching subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

3. Subpart C is amended by adding § 411.34 as follows:

§ 411.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the materials storage piles runoff subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
TSS	Do.

PART 412—FEEDLOTS POINT SOURCE CATEGORY

The table of contents is amended by adding the following sections to the indicated subparts:

Subpart A—All Subcategories Except Ducks

Sec.
412.14 Pretreatment standards for existing sources.

Subpart B—Ducks Subcategory

412.24 Pretreatment standards for existing sources.

Part 412 is amended as follows:

1. Subpart A is amended by adding § 412.14 as follows:

§ 412.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within all subcategories except ducks which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
Fecal coliform	No limitation.
BOD5	Do.

2. Subpart B is amended by adding § 412.24 as follows:

§ 412.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the ducks subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
Fecal coliform	No limitation.
BOD5	Do.

in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
Fecal coliform	No limitation.
BOD5	Do.

PART 414—ORGANIC CHEMICALS MANUFACTURING POINT SOURCE CATEGORY

The table of contents is amended by adding the following new sections to the indicated subparts:

Subpart A—Nonaqueous Processes Subcategory

Sec.
414.14 Pretreatment Standards for Existing Sources.

Subpart B—Processes With Process Water Contact as Steam Diluent or Absorbent

414.24 Pretreatment Standards for Existing Sources.

Subpart C—Aqueous Liquid Phase Reaction Systems (Except Product-Processes C2, C3, C4)

414.34 Pretreatment Standards for Existing Sources.

Part 414 is amended as follows:

1. Subpart A is amended by adding § 414.14 as follows:

§ 414.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the nonaqueous processes subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

2. Subpart B is amended by adding § 414.24 as follows:

§ 414.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the processes with process water contact as steam diluent or absorbent subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

3. Subpart C is amended by adding § 414.34 as follows:

§ 414.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the aqueous liquid phase reaction systems (for C1 product-process only) subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

PART 417—SOAP AND DETERGENT MANUFACTURING POINT SOURCE CATEGORY

The table of contents is amended by adding the following new sections to the indicated subparts:

Subpart A—Soap Manufacturing by Batch Kettle Subcategory

417.14 Pretreatment standards for existing sources.

Subpart B—Fatty Acid Manufacturing by Fat Splitting Subcategory

417.24 Pretreatment standards for existing sources.

Subpart C—Soap Manufacturing by Fatty Acid Neutralization Subcategory

417.34 Pretreatment standards for existing sources.

Subpart D—Glycerine Concentration Subcategory

Sec.
417.44 Pretreatment standards for existing sources.

Subpart E—Glycerine Distillation Subcategory

417.54 Pretreatment standards for existing sources.

Subpart F—Manufacture of Soap Flakes and Powders Subcategory

417.64 Pretreatment standards for existing sources.

Subpart G—Manufacture of Bar Soaps Subcategory

417.74 Pretreatment standards for existing sources.

Subpart H—Manufacture of Liquid Soaps Subcategory

417.84 Pretreatment standards for existing sources.

Subpart I—Oleum Sulfonation and Sulfation Subcategory

417.94 Pretreatment standards for existing sources.

Subpart J—Air—SO3 Sulfation and Sulfonation Subcategory

417.104 Pretreatment standards for existing sources.

Subpart K—SO3 Solvent and Vacuum Sulfonation Subcategory

417.114 Pretreatment standards for existing sources.

Subpart L—Sulfamic Acid Sulfation Subcategory

417.124 Pretreatment standards for existing sources.

Subpart M—Chlorosulfonic Acid Sulfation Subcategory

417.134 Pretreatment standards for existing sources.

Subpart N—Neutralization of Sulfuric Acid Esters and Sulfonic Acids Subcategory

417.144 Pretreatment standards for existing sources.

Subpart S—Manufacture of Detergent Bars and Cakes Subcategory

417.194 Pretreatment standards for existing sources.

Part 417 is amended as follows:

(1) Subpart A is amended by adding § 417.14 as follows:

§ 417.14 Pretreatment standards for existing sources.

The pretreatment standards under sections the quantity or quality of pollution 307(b) of the Act for a source within the soap manufacturing by batch kettle subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

XUM
V40-29 FEB 11 75 XUM

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and Grease	Do.
COD	Do.

(2) Subpart B is amended by adding § 417.24 as follows:

§ 417.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the fatty acid manufacturing by fat splitting subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and Grease	Do.
COD	Do.

(3) Subpart C is amended by adding § 417.34 as follows:

§ 417.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the soap manufacturing by fatty acid neutralization subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and Grease	Do.
COD	Do.

(4) Subpart D is amended by adding § 417.44 as follows:

§ 417.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the glycerine concentration subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and Grease	Do.
COD	Do.

(5) Subpart E is amended by adding § 417.54 as follows:

§ 417.54 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the glycerine distillation subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and Grease	Do.
COD	Do.

(6) Subpart F is amended by adding § 417.64 as follows:

§ 417.64 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the manufacture of soap flakes and powders subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and Grease	Do.
COD	Do.

(7) Subpart G is amended by adding § 417.74 as follows:

§ 417.74 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the manufacture of bar soaps subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and Grease	Do.
COD	Do.

(8) Subpart H is amended by adding § 417.84 as follows:

§ 417.84 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the manufacture of liquid soaps subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and Grease	Do.
COD	Do.

(9) Subpart I is amended by adding § 417.94 as follows:

§ 417.94 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the oleum sulfonation and sulfation subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and Grease	Do.
COD	Do.
Surfactants	Do.

(10) Subpart J is amended by adding § 417.104 as follows:

§ 417.104 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the air-SO3 sulfation and sulfonation subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and Grease	Do.
COD	Do.
Surfactants	Do.

(11) Subpart K is amended by adding § 417.114 as follows:

§ 417.114 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the SO3 solvent and vacuum sulfonation subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and Grease	Do.
COD	Do.
Surfactants	Do.

(12) Subpart L is amended by adding § 417.124 as follows:

§ 417.124 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the sulfamic acid sulfation subcategory which is a user of a publicly owner treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and Grease	Do.
COD	Do.
Surfactants	Do.

(13) Subpart M is amended by adding § 417.134 as follows:

§ 417.134 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the chlorosulfonic acid sulfation subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and grease	Do.
COD	Do.
Surfactants	Do.

(14) Subpart N is amended by adding § 417.144 as follows:

§ 417.144 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the neutralization of sulfuric acid esters and sulfonic acids subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	Pretreatment standard
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and grease	Do.
COD	Do.
Surfactants	Do.

(15) Subpart S is amended by adding § 417.194 as follows:

§ 417.194 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the manufacture of detergent bars and cakes subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties con-

trolled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and grease	Do.
COD	Do.
Surfactants	Do.

PART 426—GLASS MANUFACTURING POINT SOURCE CATEGORIES

The table of contents is amended by inserting the following new sections in the indicated subparts:

Subpart B—Sheet Glass Manufacturing Subcategory

Sec.
426.24 Pretreatment standards for existing sources.

Subpart C—Rolled Glass Manufacturing Subcategory

426.34 Pretreatment standards for existing sources.

Subpart D—Plate Glass Manufacturing Subcategory

426.44 Pretreatment standards for existing sources.

Subpart F—Automotive Glass Tempering Subcategory

426.64 Pretreatment standards for existing sources.

Part 426 is amended as follows:

1. Subpart B is amended by adding § 426.24 as follows:

§ 426.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the sheet glass manufacturing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
TSS	Do.

2. Subpart C is amended by adding § 426.34 as follows:

§ 426.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the rolled glass manufacturing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
TSS	Do.

3. Subpart D is amended by adding § 426.44 as follows:

§ 426.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the plate glass manufacturing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
TSS	Do.

4. Subpart F is amended by adding § 426.64 as follows:

§ 426.64 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the A cfor a source section 307(b) of the Act for a source within the automotive glass tempering subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
TSS	Do.

PART 427—ASBESTOS MANUFACTURING POINT SOURCE CATEGORY

The table of contents is amended by adding the following new sections to the indicated subparts:

Subpart A—Asbestos-Cement Pipe Subcategory

Sec.
427.14 Pretreatment standards for existing sources.

Subpart B—Asbestos-Cement Sheet Subcategory

427.24 Pretreatment standards for existing sources.

Subpart C—Asbestos Paper (Starch Binder) Subcategory

427.34 Pretreatment standards for existing sources.

Subpart D—Asbestos Paper (Elastomeric Binder) Subcategory

427.44 Pretreatment standards for existing sources.

Subpart E—Asbestos Millboard Subcategory

427.54 Pretreatment standards for existing sources.

Subpart F—Asbestos Roofing Subcategory

427.64 Pretreatment standards for existing sources.

Subpart G—Asbestos Floor Tile Subcategory

427.74 Pretreatment standards for existing sources.

Part 427 is amended as follows:

1. Subpart A is amended by adding § 427.14 as follows:

§ 427.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the asbestos-cement pipe subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
Oil	Do.
TSS	Do.

2. Subpart B is amended by adding § 427.24 as follows:

§ 427.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the asbestos-cement sheet subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
TSS	Do.

3. Subpart C is amended by adding § 427.34 as follows:

§ 427.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the asbestos paper (starch binder) subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
TSS	Do.

4. Subpart D is amended by adding § 427.44 as follows:

§ 427.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the asbestos paper (elastomeric binder) subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
TSS	Do.

5. Subpart E is amended by adding § 427.54 as follows:

§ 427.54 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the asbestos millboard subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
COD	Do.
TSS	Do.

6. Subpart F is amended by adding § 427.64 as follows:

§ 427.64 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the asbestos roofing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
TSS	Do.

7. Subpart G is amended by adding § 427.74 as follows:

§ 427.74 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the asbestos floor tile subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
COD	Do.
TSS	Do.

PART 430—PULP, PAPER, AND PAPERBOARD POINT SOURCE CATEGORY

The table of contents is amended by adding the following new section to the indicated subparts:

Subpart A—Unbleached Kraft Subcategory

Sec.
430.14 Pretreatment standards for existing sources.

Subpart B—Sodium Based Neutral Sulfite Semi-Chemical Subcategory

430.24 Pretreatment standards for existing sources.

Subpart C—Ammonia Base Neutral Sulfite Semi-Chemical Subcategory

430.34 Pretreatment standards for existing sources.

Subpart D—Unbleached Kraft—Neutral Sulfite Semi-Chemical (Cross Recovery) Subcategory

430.44 Pretreatment standards for existing sources.

Subpart E—Paperboard From Waste Paper Subcategory

430.54 Pretreatment standards for existing sources.

Part 430 is amended as follows:

1. Subpart A is amended as adding § 430.14 as follows:

§ 430.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the unbleached kraft subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR Parts 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

XUM V40 I29 FEB 11 75 XUM

2. Subpart B is amended by adding § 430.24 as follows:

§ 430.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the sodium based neutral sulfite semi-chemical subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

3. Subpart C is amended by adding § 430.34 as follows:

§ 430.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the ammonia base neutral sulfite semi-chemical subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

4. Subpart D is amended by adding § 430.44 as follows:

§ 430.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the unbleached kraft-neutral sulfite semi-chemical (cross recovery) subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
BOD5	No limitation.
TSS	Do.
pH	Do.

§ 430.54 Pretreatment standards for existing sources.

5. Subpart E is amended by adding § 430.54 as follows:

The pretreatment standards under section 307(b) of the Act for a source within the paperboard from waste paper subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.
Settleable solids	Do.

PART 432—MEAT PRODUCTS POINT SOURCE CATEGORY

The table of contents is amended by adding the following new section to the indicated subparts:

Subpart A—Simple Slaughterhouse Sucategory

Sec.
432.14 **Pretreatment standards for existing sources.**

Subpart B—Complex Slaughterhouse Subcategory

432.24 **Pretreatment standards for existing sources.**

Subpart C—Low Processing Packinghouse Subcategory

432.34 **Pretreatment standards for existing sources.**

Subpart D—High Processing Packinghouse Subcategory

432.44 **Pretreatment standards for existing sources.**

Part 432 is amended as follows:

1. Subpart A is amended by adding § 432.14 as follows:

§ 432.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the simple slaughterhouse subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

PART 431—BUILDERS PAPER AND ROOFING FELT SEGMENT OF THE BUILDERS PAPER AND BOARD MILLS POINT SOURCE CATEGORY

Part 431 is amended as follows:

1. Subpart A is amended by adding § 431.14 as follows:

§ 431.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the builders paper and roofing felt subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.

CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and grease	Do.
Fecal coliform	Do.

3. Subpart C is amended by adding § 432.34 as follows:

§ 432.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the low-processing packinghouse subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and grease	Do.
Fecal coliform	Do.

4. Subpart D is amended by adding § 432.44 as follows:

§ 432.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the high-processing packinghouse subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutane or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and grease	Do.
Fecal coliform	Do.

[FR Doc.75-3620 Filed 2-10-75;8:45 am]

§ 432.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the simple slaughterhouse subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
pH	No limitation.
BOD5	Do.
TSS	Do.
Oil and grease	Do.
Fecal coliform	Do.

2. Subpart B is amended by adding § 432.24 as follows:

§ 432.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the complex slaughterhouse subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

DAILY NEWSPAPERS AND BROADCAST STATIONS—FCC adopts new regulations on co-located common ownership; effective 2–12–75 6449

CHILD ABUSE AND NEGLECT—HEW/SRS proposes regulations for treatment and prevention; comments by 3–14–75 6505

SMOKE EMISSION STANDARDS—FAA proposal affecting aircraft interior materials; comments by 5–12–75 6506

HEALTH MAINTENANCE ORGANIZATIONS—HEW/HSA modifies procedures and revises application deadlines for Federal financial assistance 6524

OUTER CONTINENTAL SHELF—FEA reschedules public symposium on impact of proposed acceleration of leasing 6536

SILVER-PLATED HOLLOWARE—HEW/FDA requests information and data on problem of leachable lead; comments by 3–1–75 6523

FOOD ADDITIVES—HEW/FDA regulates acrylonitrile and styrene copolymer; effective 2–12–75 6489

MEETINGS—

CSC: Federal Employees Pay Council, 3–19–75 6528

USDA/CCC: Commodity Credit Corporation Advisory Board, 3–4 and 3–5–75 6519

Commerce: National Advisory Committee on Oceans and Atmosphere; 3–17 and 3–18–75 6522

DIBA: Advisory Committee on East-West Trade, 3–14–74 6520

DOD: Defense Intelligence Agency Scientific Advisory Committee, 3–7 and 3–18–75 6516

Defense Nuclear Agency: Advance Missile Materials Research Group, 3–10 and 3–11–75 6529

GSA: Advisory Committee for Protection of Archives and Records Centers; 2–27 and 2–28–75 6545

NSF: NATO Post-doctoral Fellowship Subpanel; 2–27 and 2–28–75 6546

POSTPONED MEETINGS—

Commerce/DIBA: President's Export Council, 2–27–75 .. 6520

PART II:

EMPLOYEES' HEALTH BENEFITS PLANS—HEW/PHS proposes requirement on employers' inclusion of membership option in qualified health maintenance organizations; comments by 3–31–75 6601

PART III:

DAIRY PLANTS—USDA/AMS proposes revision of general specifications for inspection and grading; comments by 7–1–75 6607

list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

Rules Going Into Effect Today

INTERIOR/NPS—Fishing regulations; Cape Hatteras National Seashore, North Carolina..... 4135; 1–28–75

FCC—Prohibition of external radio frequency power amplifiers of class D citizens radio service..... 1243; 1–7–75

Next Week's Deadlines for Comments On Proposed Rules

ACTION

Inspection and copying of records; compliance with Public Information Act; comments by 2–18–75..... 3462; 1–22–75

AGRICULTURE DEPARTMENT

Agricultural Marketing Service—

Filberts grown in Oregon and Washington; proposed modification in rate of assessment for 1974–75 fiscal year; comments by 2–21–75. 5163; 2–4–75

Tokay grapes grown in San Joaquin County, California; proposed increase in expenses for the 1974–75 season; comments by 2–18–75. 4315; 1–29–75

Commodity Credit Corporation—

Cotton loans; proposed schedule of premiums and discounts; comments by 2–21–75..... 3601; 1–23–75

Food and Nutrition Service—

National School Lunch Program; proposed rulemaking..... 3452; 1–22–75

COMMERCE DEPARTMENT

National Oceanic and Atmospheric Administration—

Taking and Importing of Marine Mammals; comments by 2–20–75. 4660; 1–31–75

CIVIL RIGHTS COMMISSION

Fees to be charged for retrieval and reproduction of records; comments by 2–17–75..... 4154; 1–28–75

Schedule of fees for document reproduction; comments by 2–17–75. 4154; 1–28–75

CONSUMER PRODUCT SAFETY COMMISSION

Children's sleepwear; sizes 7 through 14; proposed labeling, recordkeeping, and other requirements under standard FF 5–74; comments by 2–19–75. 3279; 1–20–75

Children's sleepwear; sizes 7 through 14; policy statement and solicitation of comments; comments by 2–19–75. 3282; 1–20–75

Children's sleepwear; sizes 7 through 14; proposed amendment and withdrawal of finding of possible need for amendment; comments by 2–19–75. 3276; 1–20–75

DEFENSE DEPARTMENT

Army Department—

All District and Division offices; policies and procedures to be followed in conduct of public hearings; comments by 2–18–75..... 2816; 1–16–75

ENVIRONMENTAL PROTECTION AGENCY

Connecticut; control of air pollution from facilities owned, operated, or under contract with Connecticut Transportation Authority; comments by 2–18–75..... 2832; 1–16–75

Timber products processing point source category; effluent limitations and guidelines; comments by 2–18–75. 2833; 1–16–75

Mass transit priority incentives in the state of New Jersey; comments by 2–21–75..... 3465; 1–22–75

FEDERAL COMMUNICATIONS COMMISSION

Cable television; inquiry; comments by 2–17–75..... 43850; 12–19–74

Uniform system of accounts for Class A and B telephone companies; extension of comment period to 2–20–75. 43230; 12–11–74

FEDERAL HOME LOAN BANK BOARD

Federal Savings and Loan Insurance Corporation; amendments relating to collateralized borrowings; comments by 2–18–75..... 3011; 1–17–75

HEALTH, EDUCATION, AND WELFARE DEPARTMENT

Public Health Service—

National Research Service Awards; comments by 2–18–75..... 3074; 1–17–75

Office of the Secretary—

Family planning services training grants; comments by 2–18–75. 2823; 1–16–75

INTERIOR DEPARTMENT

Bureau of Indian Affairs—

Enrollment of Northern Paiute Indians; comments by 2–20–75. 3309; 1–21–75

Land Management Bureau—

Special land use permits; service charges and rental fees; comments by 2–21–75..... 2818; 1–16–75

LABOR DEPARTMENT

OSHA—

Standards for toxic materials listed in schedule Tables G–1, G–2 and G–3; comments by 2–21–75. 4019; 1–27–75

MANAGEMENT AND BUDGET OFFICE

Freedom of information fees; comments by 2–16–75..... 3477; 1–22–75

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Freedom of information; schedule of fees for search and duplication of records; comments by 2–17–75. 3014; 1–17–75

NATIONAL SCIENCE FOUNDATION

Freedom of Information Act; regulations; comments by 2–20–75.... 3313; 1–21–75

NATIONAL SECURITY COUNCIL

Services performed under Freedom of Information Act; fee schedule; comments by 2–16–75.... 3612; 1–23–75

NUCLEAR REGULATORY COMMISSION

Trade secrets, extension of time for comments; comments by 2–20–75. 4153; 1–28–75

SMALL BUSINESS ADMINISTRATION

Disclosure of information; comments by 2–18–75..... 3014; 1–17–75

TRANSPORTATION DEPARTMENT

Coast Guard—

Drawbridge operation regulations, Fla.; comments by 2–21–75. 3311; 1–21–75

TRANSPORTATION DEPARTMENT

Transition area at West Woodward, Okla.; comments by 2–17–75. 4152; 1–28–75

Federal Aviation Administration—

Transition areas; comments by 2–20–75..... 3312, 3313; 1–21–75

Nationality and registration marks on fixed-winged aircraft; size and location requirements; comments by 2–19–75..... 40862; 11–21–74

TREASURY DEPARTMENT

Customs Service—

Customs region VIII consolidating customs ports on Puget Sound, Washington, into one customs port of entry..... 3452; 1–22–75

Internal Revenue Service—

Employment tax; procedure, and administration regulations; comments by 2–20–75..... 3299; 1–21–75

Industrial development bonds; income tax regulations; comments by 2–17–75..... 2694; 1–15–75

Office of the Secretary—

Disclosure of records; uniform schedule of fees; comments by 2–18–75. 2836; 1–16–75

VETERANS ADMINISTRATION

Release of information from other than claimant records; regulatory development; comments by 2–18–75. 2829; 1–16–75

Next Week's Public Hearings

COMMISSION ON THE REVIEW OF THE NATIONAL POLICY TOWARD GAMBLING

Orientation of newly appointed Congressional Members and discussion of contents of Commission's First Interim Report; to be held at Washington, DC, 2–19 and 2–20–75.... 2886; 1–16–75

Next Week's Meetings

AGRICULTURE DEPARTMENT

Agricultural Marketing Service—

Raisin Advisory Board; to be held in Fresno, Calif. (open) 2–20–75. 5172; 2–4–75

Shippers Advisory Committee to be held in Lakeland, Florida (open) 2–18 and 2–25–75..... 4663; 1–31–75

Forest Service—

Rock Creek Advisory Committee; to be held at Drummond, Mont. (open) 2–18–75.... 3626; 1–23–75

Office of the Secretary—

National Agricultural Research Planning Committee to be held in Washington, D.C. (open) 2–20–75. 4665; 1–31–75

COMMISSION ON CIVIL RIGHTS

Illinois State Advisory Committee; to be held at Chicago, Ill. (open) 2–19–75. 3633; 1–23–75

Michigan State Advisory Committee; to be held in Livonia, Michigan (closed) 2–20–75..... 4482; 1–30–75

Montana State Advisory Committee; to be held at Great Falls, Mont. (open) 2–22–75..... 3634; 1–23–75

New York State Advisory Committee; to be held at Poughkeepsie, N.Y. (open) 2–20–75..... 3634; 1–23–75

COMMERCE DEPARTMENT

NOTE: No acts approved by the President were received by the Office of the Federal Register for inclusion in today's List of Public Laws.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 18110; FCC 75-104]

PART 73—RADIO BROADCAST SERVICES

MULTIPLE OWNERSHIP Or STANDARD, FM AND TELEVISION BROADCAST STATIONS; SECOND REPORT AND ORDER [1]

In the matter of amendment of §§ 73.34, 73.240 and 73.636 of the Commission's rules.

1. The Commission has before it the further notice of proposed Rulemaking in this proceeding (22 F.C.C. 2d 339 (1970)) and responsive filings by numerous parties. Also under consideration are updated written filings and additional information presented during two and a half days of oral argument, pursuant to an invitation of the Commission given March 7, 1974 (45 F.C.C. 2d 768). A list of filing parties appears in Appendix A.

2. The proceeding began March 27, 1968, with the adoption of a *Notice of Proposed Rule Making* (33 Fed. Reg. 5315). Broadly speaking, the notice proposed rules proscribing common ownership of broadcast stations in different broadcast services in the same market (i.e., no common ownership of TV–AM, or TV–FM, or AM–FM).[1a] The proposed rules were prospective in nature, i.e., they did not contemplate divestiture of existing facilities but were to apply only to applications to construct new facilities or to acquire existing facilities.

3. A *First Report and Order* was adopted on March 25, 1970 (22 F.C.C. 2d 306). The rules promulgated therein were modified somewhat in a *Memorandum Opinion and Order* adopted February 26, 1971 (28 F.C.C. 2d 662), which disposed of petitions for reconsideration of the *First Report and Order*. These new rules prohibited common ownership of VHF television stations and aural stations in the same market. They permitted AM–FM combinations and they provided that all applications involving common ownership of UHF and aural stations would be treated on a case-by-case basis. They did not require divestiture, but did require that if the owner of a VHF station and one or two aural stations in the same market sold, he could not sell the TV and the aural stations to the same party. They did not cover common ownership of newspaper and broadcast stations.[2]

4. On the same date that the *First Report and Order* was adopted, the Commission also adopted a *Further Notice of Proposed Rule Making* (22 F.C.C. 2d 339) which contained a proposal as to common ownership of broadcast stations and of daily newspapers and broadcast stations in the same market. The proposal would require divestiture, within five years, to reduce one party's holdings in any market to one or more daily newspapers, or one television broadcast station, or one AM–FM combination. Under the proposal, if a broadcast station licensee were to purchase one or more daily newspapers in the same market, it would be required to dispose of any broadcast stations that it owned in that market within one year or by the time of its next renewal date, whichever is longer. No grants for broadcast station licenses would be made to owners of one or more daily newspapers in the same market. Comments were also invited on whether divestiture should be required with regard to AM–FM combinations so that no party could own such a combination unless he had made a showing that the two stations were for economic or technical reasons so interdependent that one could not be sold without the other.[3]

5. Although not unprecedented, the idea of divestiture of ownership was a departure from the typical Commission approach of limiting any new rules to prospective effect. As a consequence of the incorporation of this facet of the proposal, the question of the impact on industry structure was introduced. Moreover, because of the differences between prospective and retrospective proposals, each needs to be examined separately and tested against appropriate criteria.

6. *Response to the Proposal.* As could be expected, our proposal generated a great deal of interest and provoked a sizable number of filings. Most were directed to the question of newspaper-broadcast ownership, with most parties opposing rule changes but a number supporting them. Some approached the issues from the point of view of antitrust economic analysis; others stressed the diversity of viewpoint aspect. In addition, some parties discussed AM–FM combinations or television-radio combination divestiture.

7. Factual differences between situations also affected the nature of the views expressed in a filing. Thus, for example, as to newspapers, at one end of the continuum was the daily newspaper-television combination which faced multiple competitors of both media, and at the other end was the joint holding of the only TV station and daily newspaper in a market. Whether in terms of economics

[1] A synopsis of the actions taken can be found in Appendix G.

[1a] Before the proceeding was initiated, the rules governing common ownership of broadcast stations in the same market prohibited such ownership in the *same* broadcast service if certain coverage contours overlapped. They permitted common ownership of stations in *different* broadcast services in the same market. Hence a single licensee was permitted to own an AM–FM–TV combination licensed to serve the same community. moreover, the rules contained no prohibition of common ownership of newspapers and broadcast stations in the same market. However, as a matter of policy expressed in the Commission's multiple ownership rules and elsewhere, the Commission did examine concentrations of ownership in the same geographic area on an *ad hoc* basis in both comparative and non-comparative situations. These examinations gave consideration to broadcast and non-broadcast interests, such as newspapers.

[2] Under these rules, a TV station and an AM station were considered to be in the same market if the Grade A contour of the TV station encompassed the entire community of license of the AM station or if the 2 mV/m contour of the AM station encompassed the entire community of license of the TV station. With regard to TV and FM stations, the Grade A contour was used for TV and the 1 mV/m contour was used for FM. As to AM–FM combinations, they were considered to be in the same market if the 1 mV/m contour of the FM station encompassed the entire community of license of the AM station or if the 2 mV/m contour of the AM station encompassed the entire community of license of the FM station. With certain exceptions, the *First Report and Order* proscribed the formation of new AM–FM combinations in the same market and prohibited the sale of such an existing AM–FM combination to a single party unless a special showing were made that for technical or economic reasons the stations had to be operated in combination. The aforementioned *Memorandum Opinion and Order* (at 670–672) reversed the prohibitions against forming AM–FM combinations or selling existing combinations to a single party. In so doing it indicated that the subject of common ownership of AM and FM stations in the same market would be explored in the phase of the proceeding commenced by the *Further Notice of Proposed Rule Making*. It also indicated that, as an effective alternative to diversification of ownership, the Commission intended to explore the possibility of amending the AM–FM program duplication rule (§ 73.242) in such a way as to provide more non-duplicated programming over commonly owned AM and FM stations in the same area. A proceeding has since been begun to explore this possibility (*Notice of Proposed Rule Making*, Docket No. 20016, 39 Fed. Reg. 14228 (1974)).

XUM V40I30 FEB 12 75 XUM

or viewpoint diversity, parties differed on the weight to be given other media (for example news magazines) received in the market but originating elsewhere. So too with the weight to assign other local media such as weekly newspapers and outdoor advertising or direct mail. Although important factual differences were noted, a parallel method of evaluating the situations regarding daily newspaper-radio combinations could be found in the pleadings.

8. *Legal authority.* The *Further Notice* (at para. 48) invited comments or legal briefs on the Commission's authority to adopt the proposed rules. Several parties responded to this invitation concisely or at length. We have concluded that we have authority to adopt the rules both as proposed and as promulgated by the present document. A discussion of this subject follows.

9. The Commission has authority to adopt rules governing the issuance of broadcast licenses which would prohibit cross-ownership of newspapers and broadcast stations in the same area in furtherance of our long standing policy of promoting diversification of ownership of the electronic mass communications media. Statutory authority is found in Sections 2(a), 4(i), 4(j), 301, 303, and 309(a) of the Communications Act of 1934, as amended. Section 309(a) specifically requires the Commission to find that the granting of a license serves the public interest, convenience, and necessity. The term public interest encompasses many factors including "the widest possible dissemination of information from diverse and antagonistic sources." *Associated Press* v. *United States*, 326 U.S. 1, 20 (1945).

10. Our diversification policy is derived from both First Amendment and anti-trust policy sources. See, e.g., *Associated Press* v. *United States*, 326 U.S. 1 (1945), *supra*, affirming 52 F. Supp. 362 (S.D.N.Y. 1943) (L. Hand, J.); *Citizens Committee to Save WEFM* v. *FCC*, ---- F. 2d ------ (D.C. Cir., Oct. 4, 1974), (concurring opinion of Bazelon, C.J. at 6). The Federal Courts have consistently upheld our use of these grounds in efforts to promote diversity of control over the electronic media of mass communications. In its earliest opinions construing the Communications Act, the Supreme Court recognized that regulation of broadcasting was designed to preserve competition and prevent monopoly. *F.C.C.* v. *Pottsville Broadcasting Co.*, 309 U.S. 134, 137 (1940); *F.C.C.* v. *Sanders Bros. Radio Station*, 309 U.S. 470, 474–76 (1940). The Supreme Court said in *Red Lion Broadcasting Co.* v. *FCC*, 395 U.S. 367, 390: "It is the purpose of the First Amendment to preserve an uninhibited market place of ideas in which truth will ultimately prevail, rather than to countenance monopolization of that market, whether it be by the Government itself or a private licensee". The Court then concluded: "It is the right of the public to receive suitable access to social, political, aesthetic, moral, and other ideas and experiences which is crucial here. That right may not constitutionally be abridged either by Congress or by the FCC." 395 U.S. at p. 390. In *Mt. Mansfield TV Inc.* v. *FCC*, 442 F. 2d 470 (2nd Cir. 1971) the Court upheld our prime time access rule as being consistent with our obligations under the First Amendment to promote diversity of program sources.

11. Although the Commission is not empowered to enforce the anti-trust laws, it may properly take cognizance of anti-trust violations and anti-trust policy in performing its public interest licensing function. *United States* v. *RCA*, 358 U.S. 334 (1954). In expanding on this point in RCA, the Supreme Court said in dicta:

> Moreover, in a given case the Commission might find that anti-trust considerations alone would keep the statutory standard from being met, as when the publisher of the sole newspaper in an area applies for a license for the only available radio and television facilities, which, if granted, would give him a monopoly of that area's major media of mass communication. See 98 Cong. Rec. 7399; *Mansfield Journal Co.* v. *FCC*, 86 U.S. App. D.C. 102, 107, 108; 180 F. 2d 28, 33, 34.

Anti-trust policy has been recognized as a correlative source of authority for our diversification policy because requiring competition in the market place of ideas is, in theory, the best way to assure a multiplicity of voices. However, these two sources of our diversification policy are not always present to the same extent nor do they apply with equal force in every case. Our prospectively-applicable rule with respect to future newspaper-broadcast combinations in the same city draws its support principally from our First Amendment concern. Our divestiture order applied to "egregious" cases in which the only newspaper and the only broadcast station in a city are co-owned is founded upon both concerns. While we have proceeded by a different course than one based strictly on a market analysis, the fact is we have in effect used a geographic market in writing our new rules and have considered daily newspapers and stations as part of the same product market.

12. In November 1953 we adopted rules limiting the number of broadcast stations a person could own to five VHF television stations and seven AM and FM stations. We asserted authority to make regulations limiting concentration of stations under the same control. The United States Supreme Court upheld these regulations in *United States* v. *Storer Broadcasting Co.*, 351 U.S. 192 (1956).

13. In recent rule making proceedings the Commission has adopted rules prohibiting networks from having any cable interests and telephone companies from owning cable systems in their service areas. The Courts accepted our action in both instances. *Iacopi* v. *F.P.C.*, 451 F. 2d 1142 (9th Cir., 1971); *General Telephone Co. of the Southwest* v. *U.S.*, 449 F. 2d 846 (5th Cir., 1971).[3]

14. The sound public policy of placing into many, rather than a few hands, the control of the broadcast medium guides us in the licensing of the use of the radio spectrum. This basic principle, enforceable in *ad hoc* proceedings or through rule making, applies to the judgment of whether an individual application should be granted as well as to the comparison of competing applicants. *United States* v. *Storer Broadcasting Co.*, *supra*; *Clarksburg Publishing Co.* v. *F.C.C.*, 96 U.S. App. D.C. 211, 225 F. 2d 511 (1955); *Scripps-Howard Radio, Inc.* v. *F.C.C.*, 89 U.S. App. D.C. 13, 189 F. 2d 677 (1951), *Cert. den.* 342 U.S. 830; *Plains Radio Broadcasting Co.* v. *FCC*, 85 U.S. App. D.C. 48, 175 F. 2d 359 (1949). It is the policy behind our one-to-a-market rules adopted in the *First Report and Order, Multiple Ownership of Standard, FM and TV Broadcast Stations*, 22 F.C.C. 2d 306 (1970). The significance of ownership from the standpoint of "the widest possible dissemination of information" lies in the fact that ownership carries with it the power to select, to edit, and to choose the methods, manner and emphasis of presentation, all of which are a critical aspect of the Commission's concern with the public interest.

15. Despite the overwhelming authority supporting our proposed action, numerous parties have challenged our jurisdiction to take any action interfering with the rights of newspapers to own broadcast stations. The American Newspaper Publisher's Association (ANPA) advanced the major legal arguments against such a rule in their exhaustive and comprehensive filings with the Commission.

16. They first challenge our authority on constitutional grounds citing the First and Fifth Amendments to the United States Constitution. ANPA claims we are attempting to inhibit a newspaper owners' freedom to publish by preventing him from having an interest in broadcast stations. This argument fails for two reasons. First, the Commission is following the long established policy of promoting the widest possible dissemination of information from diverse and antagonistic sources . . ." *Associated Press* v. *United States*, 326 U.S. 1, 20 (1945). Second, the First Amendment does not protect business relations that are either unlawful or not in the public interest. Finally, we believe the opponents overstate their case in this and in the other arguments. The Commission has never proposed and is not now proposing to prohibit someone from owning a newspaper and a television station. It is plain that what we are doing is grandfathering present newspaper-television owner combinations; we are only requiring divestiture in egregious cases (see Appendix D and paras. 112–122, *infra*.) These divestitures are to take place over a five-year period and in order to avoid any possible future harm, we shall entertain waiver petitions.

[3] The issue in *Iacopi* was whether a divestiture plan complied with our rules rather than a direct attack on the validity of the rule itself. However, the Court did say: "The Commission has determined that network divestiture of CATV and syndication interests will increase competition and foster independent sources of TV programming. We defer to that interpretation." 451 F. 2d at 1147. See also the concurring statement of Judge Tamm of the United States Court of Appeals for the District of Columbia. "The pending rule making proceedings (Docket No. 18110) offer some hope that the Commission will finally come to grips with the grave problem inherent in the rising concentration of ownership in the mass media." *Hale* v. *F.C.C.*, 425 F. 2d 556, 566 (D.C. Cir. 1970).

17. ANPA contends such rules violate the Fifth Amendment because we are discriminating against a class. Rules that treat in an equal manner all parties whose activities raise similar public interest problems are not discriminatory. Since broadcast licenses confer no property rights, the Commission may cancel them provided it affords due process to the licensee. *Radio Commission* v. *Nelson Bros. Radio*, 289 U.S. 266 (1933). Discrimination is by definition, the arbitrary and capricious classification of entities by irrelevant standards. *Bolling* v. *Sharpe*, 347 U.S. 497 (1954). We need not confer licenses on a carefully defined class provided that we determine our action is consistent with the public interest.

18. The ANPA brief also cites an opinion by former General Counsel Hampson Gary, written in 1937, purporting to hold the Commission cannot deny a broadcast license to someone solely on the ground they published a newspaper. That opinion is not relevant to the consideration of Docket No. 18110 for four reasons. First, it was written in the context of a comparative proceeding. Second, it dealt with the broader question of *any* newspaper as opposed to the more limited consideration of one city. Third, prior statements by a regulatory agency as to its jurisdiction are not determinative of the legality of subsequent efforts to assert the same jurisdiction.[4] Finally, the problems of cross ownership and concentration of media ownership are much different in 1974 than in 1937.

19. The opponents of the adoption of the rules have called to our attention several attempts by Congress in the early fifties to prohibit the Commission from "discriminating" against newspaper owners in license proceedings. They contend Congress failed to enact legislation because of assurances by the Commission that it had no intention of "discriminating."

20. The opponents are apparently referring to then Chairman Hyde's testimony during hearings on the 1952 Amendments to the Communications Act. In view of the fact that the Commission prior to this testimony had taken newspaper ownership into account in denying applications, *Scripps-Howard Radio, Inc.* v. *FCC*, *supra* and *Plains Radio Broadcasting Co.* v. *FCC*, *supra*, the then Chairman's testimony could not have reasonably been taken as an indication that newspaper ownership by a potential licensee was of no concern to the Commission. It is also clear that an agency's view of the extent to which its public interest mandate requires it to take newspaper ownership into account can change over the years. Thus, the Chairman's testimony in 1952 concerning the Commission's views on what policy best serves the public interest does not mean that the agency is excused from its continuing responsibility to seek to further the public interest which may cause it to reach a different conclusion twenty-two years later. Finally, it should be noted that our proposed action does not bar newspapers as a class from becoming licensees. We merely propose to prevent common ownership in the same area. Thus, we believe it is impossible to discern any mandate from either Congress' action or inaction.

21. Several Court cases are cited in support of our lack of authority to promulgate these rules. In *Tri-State Broadcasting Co.* v. *FCC*, 95 F. 2d 564 (D.C. Cir. 1938) the court stated it knew of no rule or statute prohibiting a newspaper from owning a radio station. We fail to see how this justifies a ban on our promulgating such a rule. ANPA relies most heavily on *Stahlman* v. *FCC*, 126 F. 2d 124 (D.C. Cir., 1942). That case upheld our authority to issue a subpoena as part of our investigatory powers. It also contained considerable dicta such as "there is nothing in the Act which either prevents or prejudices the right of a newspaper, as such to apply for and receive a license to operate a radio broadcast station." 126 F. 2d at 127. This statement deals with newspaper owners in general and is not related to the issues in this proceeding. Judge Edgerton noted in a concurring opinion that the court was not deciding the issue of cross-ownership.

22. ANPA also cites the case of *McClatchy Broadcasting Co.* v. *FCC*, 239 F. 2d 15 (D.C. Cir. 1956), *cert. denied*, 353 U.S. 918 (1957) where a newspaper owner seeking a television station in the same city lost in a comparative proceeding. The Court said newspaper ownership was not a *disqualifying* factor standing alone but the case did not deal with that issue in a rulemaking proceeding.

23. Finally, the opponents have said we do not have authority to order immediate divestiture and that even if we did, such a remedy is so harsh it should be sparingly used. This argument begs the question. The Commission has a very unusual licensing scheme in that, unlike other agencies, we must re-evaluate each license every three years. We cannot renew a license unless we determine that to do so is in the public interest. In this connection we have determined that in certain egregiously concentrated markets the public interest requires divestiture. However, we have applied the divestiture over a five-year period in order to minimize disruption.

COMMON OWNERSHIP NOT INVOLVING NEWSPAPERS[5]

24. *The Arguments.* Most of what little discussion there was on the subject of common ownership of broadcast stations in the same market was opposed to prohibitions on AM–FM combinations or divesting any existing radio-television combinations.

25. Because of the Commission's decision to focus on the subject of newspaper-television combinations at the oral argument, most of the parties gave little attention in their recent filings to the other matters which had been included for consideration in the proceeding. A number did mention their agreement with the Commission's decision to give principal attention to the subject of newspaper - television combinations. Many thought that, in addition to not posing problems from a diversification point of view, existing radio-television combinations or AM–FM combinations served an important function. Particularly emphasized was the need of an FM station to rely on an existing AM station in order to underwrite the losses which were sustained while the companion FM station was being established. A similar point was made regarding the cash flow radio stations generate which could be relied upon by a fledgling UHF television station. From a philosophical point of view, too, there was support for permitting such combinations. The main thrust in that regard was that there was no basis for believing that coownership of radio and television stations in a locality was detrimental to the public interest. In effect, these parties took the position that absent a persuasive showing of harm, there was no reason for the Commission to act to terminate such common ownership. Overall the networks pointed to the importance of the owned and operated stations to the network operations. ABC and CBS stressed the importance of permitting existing radio ownership to continue, particularly in terms of the negative impact on network radio operations that a splitting of common ownership would have. NBC asserted that existing radio-television combinations should be transferable jointly.

26. A notably different point of view was expressed in the joint filing on behalf of the Civil Liberties Union of Alabama and The Selma Project. Quoting the Commission to the effect that a public interest basis need be shown in order to overcome the importance of diversification which would otherwise call for separate ownership, this pleading urges the separation of AM and FM station ownership. They see no basis for giving different treatment to ownership of an AM and an FM station in a locality from that

[4] See e.g., *U.S.* v. *Southwestern Cable Co.*, 392 U.S. 157, 169–170 (1968). The Commission once had doubts about its own jurisdiction in the field of CATV but changed its position in the mid-sixties.

[5] A few parties mentioned radio-television as well as AM–FM combinations and their comments are included in this section.

XUM V40130 FEB 1275 XUM

given ownership of two AM or two FM stations there. While acknowledging the advantage that increased non-duplication (as proposed by the Commission) would have in terms of ending waste of spectrum space, they nevertheless insist that two, separately programmed, stations under common ownership do not advance the cause of diversity. In their view, diversity is most important in the smallest of communities where the non-duplication rule may not even be applied, for it is there that choices are usually most limited. Nor do they find persuasive the argument that there would be a resultant diminution in the quality of radio programs if ownership of AM and FM stations were separated. Not only do they believe that independent FM stations could do just as well, they discount the notion that much current programming has any real merit. Finally, they contend that continuation of AM–FM combinations would effectively preclude minority group ownership.

27. Westinghouse believes that newspaper-television ownerships are a more significant problem than aural-visual ownerships, and that aural-visual separation would disrupt and downgrade service. Cosmos Broadcasting Corp. agrees with the view that there is no need for divestiture of commonly owned radio and television stations and that TV-newspaper ownerships are the more significant aspect of the diversity problem, because other broadcast services are "substantially less significant" sources of news and public affairs information.

28. Affected parties argue that broadcast stations in Alaska are in a unique economic situation which is caused by the isolation and distance of Alaska from the mainland of the U.S., the limited and sparse population of the State and the need for quality service. In addition, they assert that the operating costs of Alaskan stations are higher because all supplies must be shipped a long distance from the lower 48 states and that living costs in Alaska are also much higher than the average in the U.S., resulting in higher wages and salaries, the single highest expense item in operating a broadcast station. TV Broadcast Financial Data for the year 1973 for the city of Anchorage (the only Alaskan city covered by the reports) show that the figures for the three television stations showed an operating loss of $718,673. Similarly, the FCC data on AM and FM stations indicate that in 1972 Alaska was the only state where the radio stations as a whole reported a loss for the year.

29. Not only Alaska but stations in Montana should also be exempt from the proposed divestiture rules we are told. The argument is that Montana is a large, sparsely populated State with a depressed economy which, nevertheless, has to absorb costs of construction and operation which are as high in Montana communities as those in larger markets. Thus, it is asserted, being able to split the costs between television and radio stations contributes to profitability and stability. Divestiture, it is said, would not necessarily increase diversity, for in one particular market one of three assigned VHF channels is inactive, one of three FM channels is inactive and both assigned UHF channels are inactive.

30. *Conclusions.* The issues presented by joint ownership of radio and television facilities in a given market have already been partially resolved. The present rules adopted in an earlier phase of this proceeding bar the creation of such combinations but they do not require separation of existing ownership except through sale to separate owners when they are in fact sold. We were offered no basis for taking any action to divest any existing combination, nor do we see any such basis for requiring divestiture in the larger markets. Moreover, we do not believe that we need to follow the policy of separating ownership in smaller markets as we have been urged to do. In reaching our decision in this regard we examined all cases where one party owned the only television and the only radio stations in a community. In all instances[6] save one, there was at least one city-grade signal from outside that encompassed the city. Separately owned daily newspapers also served some of the communities. As with the newspaper aspect of this proceeding, we considered this sufficient to demonstrate the presence of a full-fledged competitor and hence that no divestiture was required. As to the remaining case, Zanesville, Ohio, where there is no encompassment, the licensee has sold its daily newspaper and it too faces a full-fledged competitor. Accordingly, we shall not make any change in the standards applicable to this aspect of multiple ownership.

31. While it was not the principal focus of the current section of this proceeding, the subject of AM–FM combination ownership is properly before us and in need of resolution. Three major avenues are open. We could act to bar only future combinations, could seek to end existing combinations as well or could act instead through a non-ownership method. There can be no question that wholesale disruption would attend any effort at divestiture. Even if it could be demonstrated (and this record in no way does so) that this would not be an insuperable obstacle, other impediments remain. The state of FM has indeed improved over the years, but much has been due to the pioneering efforts of AM licensees who were encouraged by us to enter the FM market. More than this, it is by no means clear that FM stations can yet be expected to stand on their own.[7] Some of course do but many cannot. Unlike the program duplication question addressed later, separation of ownership ends all economies of scale.[8] Whether prospective or retrospective, we do not believe that a separation of ownership is consonant with the current state of the medium. Divestiture could silence a number of stations or leave them too financially weak to offer full service. Even prospective rules could slow growth in FM broadcasting. This is not to say that the idea of diversification is of no importance, but it does not depend on such a barrier to all combinations. Rather, if a license for an unused FM channel is worth seeking, others besides AM licensees will step forward, and under our 1965 Policy Statement on comparative hearings, diversification is the most important single issue governing the choice of who is to succeed in a hearing. Thus, the new, non-multiple owner, entrant has a real advantage. On the other hand, where none steps forward, there is a real reason to doubt that the situation would be different if a prospective barrier existed. Thus, the major effect of any such rule would be to stunt growth where it is most needed and only an AM licensee is ready to proceed or to do the really unnecessary where others already have an interest and a distinct advantage in a hearing. With this in mind, we put the issue to rest and shall not adopt rules in this area.[9]

32. What then of the "single aural service" concept? Does the above discussion portend a change in the Commission's view? The answer is no. The fact that we are not proceeding now to divorce AM and FM ownership does not indicate that other appropriate steps to further our policy goals are not warranted. Just as we have taken the presence or absence of FM station coverage into account in the new AM allocation rules,[10] so can we proceed in furtherance of the policy in the area of program non-duplication. We have expressed the view that simultaneous presentation of identical programs on two stations in a community is wasteful of scarce spectrum space. Even if separation is not feasible, extension of non-duplication restrictions may well be. Clearly, if this is done, more program choices will be available to the listener. While no decisions have yet been made on how to resolve the issues raised in the non-duplication proceeding, it is clear that such action as is appropriate in the area of AM–FM combinations should come through such means. Therefore, we shall not adopt rules to bar future AM–FM combinations when the result would be to affect, in many instances, the

[6] In our view the situation in Alaska is unique and we agree with the arguments expressed earlier on the need to exempt stations there. Also, the list of monopolies excludes satellite stations as they are not full-fledged stations themselves and are vulnerable to challenge by a party wishing to operate independently. The very fact they are not now independent suggests that the locality cannot support competing services.

[7] In the non-duplication notice of proposed rule making (mentioned at the end of footnote 2) we reported on our observations regarding recent developments in the economic position of FM stations. In essence, the data support the idea of separation of programming but fall short of demonstrating that all FM stations can stand on their own.

[8] E.g., use of common studio, same staff, side mounting of FM antenna on AM tower.

[9] Since such a conclusion must as always rest on the facts then obtaining, it does not necessarily follow that there never would be a time when separation is necessary. If such a time occurs, we can act; it is clearly not now.

[10] 39 F.C.C. 2d 645 (1973).

places where separate FM operation is least likely. Unless there were wholesale divestiture of existing AM–FM combinations, a future prohibition would only require separate ownership of the channels least likely to be viable under separate operation. Only extensive divestiture would provide for separate ownership of just those channels most likely to be worthwhile separately. Even if this makes sense theoretically, the cost would be too high, the cure worse than the disease.

NEWSPAPER OWNERSHIP—ECONOMIC CONSEQUENCES

33. Much of the discussion relating to daily newspaper-television station common ownership in the pleadings was approached from the joint of view of anti-trust considerations. To aid in understanding the nature of the questions thus presented the succeeding paragraphs in part follow an anti-trust oriented arrangement. In addition, a number of pleadings were directed to the question of diversity of viewpoints as it related to newspaper-broadcasting common ownership. These arguments will be discussed separately.

34. *Relevant Product Market.* When the possibility of garnering too large a share of the market suggests that an anti-trust issue may be raised, there are two initial aspects to consider. The first is the product line or the line of commerce in an economic sense. Sometimes there are difficulties in establishing what is the market because of the dispute which exists regarding the substitutability of products. To give an example: if a steel company seeks to acquire an aluminum company, does this constitute a form of horizontal integration leading perhaps to impermissible oligopolistic concentration? To answer the question requires among other things a determination of the relevant product market, and, in this example, a knowledge about the conditions under which aluminum or steel could be used as substitutes for one another, either generally or in some particular uses. Establishing the relevant product market or line of commerce is one of the most intricate areas of anti-trust law to apply.

35. The dispute here centers on whether newspapers and television stations are part of the same product market, or in other words are competitors.[11] In anti-trust terms this is a basic question, for if they are not, then the cross ownership which exists does not suggest that owning both would lead to owning a larger share of the same market. According to the Department of Justice, newspapers and television stations are in many ways engaged in the same business, namely attracting audiences and selling them to advertisers. While it does acknowledge that the two are not interchangeable for all advertisers, it asserts that the two are far more alike than they are different. It also contends that there is a public interest in preserving competition between products which are physically distinct but are commercially substitutable for certain classes of customers. Since Justice sees newspaper and television advertising as interchangeable, it would define the product market so as to include newspapers and television stations.

36. A number of other parties have expressed a contrary view on the subject. It is their reading of pertinent cases that newspapers and television stations constitute separate lines of commerce. The principal distinction mentioned by these parties seems to be based on differences in the kind of advertising carried by each—the newspaper being mostly a vehicle for local advertising with television stations carrying mostly national (or at least regional) advertising. They also mention a distinction in usage, with television being capable of conveying motion, activity and emotional ambience and newspapers being needed for the presentation of extensive factual information that television can present only in fragmentary pieces or for uses that do not extend beyond a simple brief exposure.

37. *Relevant Geographic Market.* To evaluate the economic implications of the situation requires knowledge not only of the product line but of the geographic confines involved as well. Depending on where the geographical line is drawn, the situation could be much altered. Generally speaking, as the area enlarges, the part of the market belonging to the company in question drops as other economic entities are included in the market share calculations. The subject is not the simple one it may seem, as there are a number of ways to go about the determination. Thus, as parties have pointed out, even the Commission has approached the subject differently at different times. In the *Frontier* case,[12] The Commission dealt with the question through the use of the city and environs as the relevant geographic market rather than the much larger Grade B coverage area of the television station in question. Later, when considering the *Chronicle* case,[13] the Commission used the station's Grade B contour.

38. As might be expected, the parties favoring divestiture urge a narrower geographic confine for use in a Commission determination, and those opposing divestiture urge a broader one employing Grade B coverage or ADI for the television station and for newspapers the similarly extensive primary market area or the city and retail trade zone. In the Department of Justice filings against the renewal applications for several stations, the thrust of its pleading here has been followed, with use of a market in no case larger than the equivalent of a city and its suburbs.[14]

Conversely, the opposing parties urge the Commission to apply its own standards and to reject as artificially contrived the market concepts of the Department of Justice.

39. *Market Share of Newspaper-Television Station Combinations.* Certain facts mentioned by the parties are not in dispute. Daily newspapers tend to be much larger enterprises than television stations. Radio stations are significantly smaller than either. Moreover, few cities have competing daily newspapers, so that from the point of view of advertising revenues, a daily newspaper-television station combination would inevitably garner a sizeable portion of the total local advertising revenues. The dispute, then, centers on the importance of these economic facts in terms of Commission policy goals. Also, to what extent should the Commission take into account the multiplicity of media exposures from magazines and other sources, in determining the degree of concentration? The Department of Justice points to a Roper study that indicated that the public principally relied on newspapers and television stations for their news. On this basis they would give little weight to other media sources. Justice then goes on to compare the local market shares of the newspaper and television station combinations with Clayton Act Section 7 merger guidelines. Simply put, in an oligopolistic situation the acquisition of even small shares of the market can conflict with these guidelines. However, as a number of parties point out, the prohibition in Section 7 applies to acquisitions, not to internal growth, as was the case with the creation of most newspaper-television combinations. Instead, these parties point out that the Sherman Act prohibitions on monopolization apply. In such instances, Section 2 of the Act requires a showing of action of the entity in question to set prices or otherwise restrict competition. They contend that no showing has been made that establishes anything resembling such economic power. According to these parties, even the Rosse, Owen, Grey study[15] purporting to show higher rates being charged by newspaper-owned television stations, to which the Department of Justice refers, is subject to many doubts, so that even the Department does not vouch for its methodology or conclusions. The conclusion that a 15% price increase differential is available to newspaper-owned TV stations is directly refuted in two industry studies which point out that the other study did not take audience figures into account in relation to prices charged. Our own examination does not substantiate the findings of the Rosse study.

40. It is clear that by any standard, market differences do exist, and that the extent of economic power, whether exercised or not, varies. When this proceeding began, there were 19 instances (now

[11] A similar comparison is made between newspapers and radio stations.

[12] 21 F.C.C. 2d 570 (1970); 23 F.C.C. 2d 316 (1970); 27 F.C.C. 2d 486 (1971); 29 F.C.C. 2d 480 (1970); 35 F.C.C. 2d 875 (1972).

[13] 16 F.C.C. 2d 882 (1969); 20 F.C.C. 2d 903 (1969); 40 F.C.C. 2d 775 (1973).

[14] Separately from the anti-trust based market concepts is the alternative suggestion from Justice to divest wherever the Grade B television signal encompasses the SMSA of the newspaper community.

[15] *Empirical Results on the Price Effects of Joint Ownership in the Mass Media* (1970). See para. 96, *infra*, and Appendix B, p. 1.

XUM V40130 FEB 1275 XUM

fewer) in which the owner of the only local daily newspaper also was connected to the only television station licensed to the community. From a concentration point of view, these would seem to present the most severe cases, but even in these instances, the industry did not agree that action by this agency was appropriate. They say also that from a diversity point of view even in these communities there is a plethora of media voices originating in or entering the market. While the overall industry view is that there is no need for any divestiture, at least one broadcast filing (that of the Post Company, of Idaho Falls, Idaho) seems to indicate that presumptively in these cases of one-owner markets, there is a condition of inadequate diversity. The Post Company prefers a rule to an *ad hoc* approach or if that fails to be adopted, a policy statement. Either, it argues, would be preferable in terms of industry stability because it would give advance notice, simplify administration and reduce uncertainty.

41. *Audience Share of the Market.* The National Citizens Committee for Broadcasting ("NCCB") would follow the approach of the de Jonckheere study [28] on market share and give appropriate market-share weights on a scale of 100, divided 40 to daily newspapers, 40 to television stations, and 20 to radio stations. Each entity would be given its circulation share (or be evenly divided for radio stations) and the market share thus be derived. Although NCCB would not include weekly newspapers, it says if they are to be included, they should be given 1/7 the weight of a daily newspaper. To the figures on market share thus obtained NCCB would apply both *per se* and *prima facie* limits. If a single owner had a 30% share it would be considered *per se* objectionable; 20% to 30% would constitute a *prima facie* showing of concentration that a party could offer to rebut. NCCB would have the Commission ignore a less than 20% market share absent an allegation of abuse. According to NCCB, its plan avoids the pitfalls of a mandatory across-the-board ban which by its nature could not take into account differences in individual markets. Likewise, it sees this approach as being preferable to the haphazard methods involved in a totally *ad hoc* procedure.

42. *The Place of Anti-Trust Considerations in Commission Determinations.* No one has argued that anti-trust considerations are totally inapplicable to the media, rather the dispute centers on the importance of anti-trust considerations to the resolution of the public interest issues now before the Commission. The Department of Justice points to its own responsibility for the enforcement of the anti-trust laws and for the preservation and enhancement of commercial competition as the basis for its filing here. Its view is that the Commission should act itself based on the anti-trust arguments which have been made. In particular, Justice says that there is too much concentration of ownership which in turn has caused a curtailment of the options open to advertisers. Throughout, the Justice filings proceed from economic premises having principally to do with economic competition for advertising. It is not that diversity of viewpoint is not dealt with; it is. Rather, it is a question of the orientation, of views expressed in competitive terms, views it feels the Commission is obliged to consider.

[28] *Monopoly in the Media*, by Terrall M. de Jonckheere. See Appendix B, p. 2.

NEWSPAPER OWNERSHIP — DIVERSITY OF PROGRAM AND SERVICE VIEWPOINTS

43. The preceding discussion has focused on the economic significance of combinations. The other side is the impact on the dissemination of ideas in a democratic society if there is a combination of media holdings held by a single entity. At what point, if any, is there a lack of diversity of viewpoints and programming or if such diversity at some level exists does that end the need to consider the size or market share of the entity in question? These are the kinds of questions to consider.

44. Opponents of the proposal have argued that the proposal rests on the false premises that current diversity is inadequate and that 51 voices are necessarily better than 50. However, they assert, if the forced transfer of a station to the 51st voice results in the station's news operation's being reduced to "rip and read", the addition of the 51st voice would not have been beneficial.

45. *Do They Speak With One Voice.* Opponents contend that cross ownership of newspapers and broadcast stations does not mean that both entities speak with the same voice. Most of the parties state that their broadcast stations and newspapers have separate management, facilities, and staff, including news and advertising staffs (which compete with each other for advertising), and do not have joint advertising rates. Some even claim that because they have separate editorial boards they present editorials in one outlet which are opposed in the other. We are told that there are other built-in protections against commonly owned newspapers and station's offering the same viewpoint and information. These parties point to the professionalism in journalism and the development of industry practices and codes of ethics which transcends employee-employer loyalties and result in highly independent staffs operating even common owned media. Also, the technology which requires specialized and separate management teams for various media holdings is said to limit the influence of the common owner. Finally, we are assured, there is protection because of existing diversity, so that in major markets it would not be possible to control the informational output of the communications media or to prevent a significant point of view from reaching the public. These parties assert that if abuses of this nature were occurring, there would be outcries from the public and other local competitive media. They believe that the absence of such complaints is the most telling argument against the need for the proposed rules and that in smaller markets economic considerations may inhibit the financial separation of different media.

46. Supporters, on the other hand, argue that a so-called separation cannot be considered as equivalent to separate ownership. They fear conscious or unconscious decision making protective of the other entity and even more the possible inhibition in the operation of each without regard to the consequences on the other. They urge separate ownership as the only way to have truly diverse and antagonistic voices.

47. *Adequacy of Current Diversity.* Opponents point out that there has been a long term trend of increasing diversity of media ownership with many more broadcast stations operating now than formerly was the case. According to NAB, in the top 100 markets (based on size of SMSA's) the total number of media outlets has increased markedly. From 1922 to 1967 the number of broadcast outlets increased 968%. While the number of daily newspapers has remained about constant, they say that there has been considerable growth in circulation, particularly in smaller cities. This leads these parties to conclude that in most major markets the addition of one more media owner would have a minimal effect on the amount of diversity in that market as there will continue to be a large number of media owners even if the proposed rules are not adopted.

48. More specifically, many parties referred to the Seiden study submitted by NAB to show that there is ample diversity in their own markets. The Seiden study listed all media available in each market in various categories, including those originating within and outside the market. Unlike the premises under which this study was done, the Justice Department would only include local television and newspapers in evaluating diversity since in its view these are the only effective competitors for local advertising. Weekly newspapers and other periodicals as well as broadcast signals originating outside the market on this basis should therefore not be counted. Opponents of the proposed rule and of the Justice viewpoint recommended that national media be considered in addition to local media because they reach substantial numbers of people to provide diverse information sources. Further, they urge that the fact that the public favored one medium or one newspaper or broadcast outlet rather than another should not be taken as indicating a lessening of the diversity of available media. They thought it should be irrelevant for the purpose of the Commission's proposal that the circulation bases differed so markedly.

49. At the time the proceeding began there were ninety-four (94) TV stations which were affiliated with local newspapers. The Seiden study purported to show that there is abundant diversity in these communities as well as elsewhere—that there is abundant diversity in every TV market. In New York City, we were

told, there were 610 media with 434 owners. Even in Zanesville, Ohio, the then most concentrated market, there were 49 media with 39 owners. Of these, four media were considered local, and were held by two owners. In Glendive, Montana, the smallest market, there were 36 media with 30 owners. Of these, five media with four owners were local. The average for the top 50 markets was 317 media, owned by 170 different groups. Of these, 139 originated in the market and were held by 111 different owners.

50. The American Newspaper Publishers Association ("ANPA") says that the number of newspaper-owned TV stations has decreased since 1948, when 48% were owned by newspapers, to 14% in 1969, and there has been an absolute as well as proportional decrease in newspaper-owned stations since 1955. The NAB says that newspaper ownership of all broadcast outlets is less than 7%. The Udell study submitted by the ANPA showed that in 78 markets with newspaper owned TV stations, 143 TV stations commenced operation after the newspaper owned station, and 131 of these new operations were started by non-newspaper interests. This to them shows that newspaper owned TV stations have not discouraged others from entering the field. Udell found that although often the newspaper-owned TV station dominated its market, there were many cases in which it was not the dominant station.

51. Opponents assure us that the Fairness Doctrine, Section 315 of the Communications Act, and the developing body of law falling under the category of "access to media" ensure that stations will not present only one viewpoint. Moreover, we should take into account, they insist, the fact that the public's increased awareness of its stake in the free flow of information has caused an increase in the filing of petitions to protect that interest and this too helps to ensure diversity of viewpoints. They conclude that not only do we have enough diversity, in fact modern technology has brought society to the point of information overkill, where the individual is paralyzed by the sheer volume of information and available choices.

52. Supporters of Commission action do not accept any such view. Instead they see a growing diminution in major media choices particularly newspapers and they assert that the Seiden approach uses numbers to obscure the situation by the faulty means of equating media regardless of subject or circulation.

NEWSPAPER OWNERSHIP—SPECIFIC ARGUMENTS

53. *The Commission Should Proceed on an Ad Hoc Basis Rather Than By Rule Making.* The parties who oppose adoption of the rules contend that as to newspaper ownership the Commission should continue to use the *ad hoc* approach as it has in the past rather than proceed on a rule making basis. The Commission, it is said, has greater flexibility in attacking situations where specific abuse may occur by the *ad hoc* approach rather than by seeking an across-the-board solution by means of a rule. They insist that both the Commission and the Department of Justice have the tools and the authority to reach any situations with the potential for abuse so that wholesale divestiture without regard to the facts of each particular situation is simply not warranted. Each market, they say, has its own characteristics and each differs from every other market; a rule would not take these differences into account nor would it make provision for those individual situations where there is no question that the cross-ownership has resulted in superior service. Opponents further argue that the proposed rules reflect only one component of the public interest, i.e., diversity, and ignore other important elements such as the costs and detrimental effects of forced separation.

54. The rule making approach, opponents charge, represents a blunderbuss policy in place of precise and carefully fashioned judgments based on facts in each individual situation. They assert that if the Commission were to continue to attack the problem on a case-by-case basis, it could root out those situations which threaten injury to the public interest without itself inflicting injury on the public interest by requiring the divestiture of a cross-owned station where there has not been so much as a suggestion of impropriety. The Commission should, it is asserted, consider, in each individual situation, such factors as the extent of interdependence of the cross-owned media in a particular market; whether the market is metropolitan, regional or local; the prospects for financial independence; and the extent of the possible disruption of service to the community. Factors such as these, they say, do not lend themselves to consolidation in a rule. Finally, the opponents argue that, in order to warrant an industry-wide approach such as that represented by a rule making proceeding, the Commission must, at the very least, indicate that the problem which it seeks to attack is so widespread as to require such an approach. This they charge the Commission has not done.

55. Supporters urge us to act through rule making rather than *ad hoc* procedures as in keeping with our stated intentions in this regard and with other approaches taken in the area of concentration. Moreover, we are told, such an *ad hoc* procedure could introduce uncertainty to the detriment of the industry and public alike.

56. *Divestiture Would Not Necessarily Accomplish the Desired Ends, and Might Produce Harmful Results.* Opponents have asserted that if any divestiture were to be accomplished through the trading of broadcast properties between newspaper publishers, there would be no overall decrease in concentration of control nor any increase in the total number of available voices. Thus, they insist, no real benefit would be brought about by divestiture, but real detriment would. An economic study offers the view that it is easier to operate a broadcast station within your home market, so that a station outside the home market would bring a lesser price. Further, a publisher accustomed to operating a station at home might be unwilling to undertake a similar operation in some other city, with the attendant increases in costs and additional control and managerial problems.

57. The economic studies further contend that by the very fact that many stations would be put on the market, the value of those stations would be reduced. However, in spite of this reduction of the price of stations, it is asserted that in many instances the price will remain too high to service the debt capital necessary to purchase a station. Under these circumstances, they expect that many of the available stations would be purchased by multiple owners or nationwide conglomerates, with the result that the divestiture requirement would not increase the overall diversity of voices, and it may in fact decrease the number of available voices. Supporters point out that as to the community in question, they nonetheless would represent a new choice.

58. Some parties assert that there is a correlation between newspaper ownership and high quality news and public affairs programming. Others contend that economies of scale can be achieved with cooperative news gathering facilities. In both instances, we are told, divestiture would result in a loss of these benefits, perhaps causing a reduction in the quality of program offerings, because owners could no longer rely on these resources. However, on the other side it has been alleged that there is no correspondence between the quality of news carried on a television station and that contained in a commonly owned newspaper. In addition, proponents of the rule contend that there has been no showing that economies of scale exist or if they do exist, they charge that they are products of an oligopolistic situation which has resulted in higher advertising prices on jointly owned facilities. Post-Newsweek asserts in its study that it is not common ownership but other factors [29] which account for higher advertising rates, and various parties point out the study showing higher television rates failed to take size of audience into account.

59. *The Proposed Rule Assumes a Similarity in Cross-Ownership Situations.* According to various opponents the approach we contemplate fails to recognize the differences between UHF and VHF, between radio and television, and between markets of different sizes, subordinates the public interest to administrative convenience and will have lasting deleterious effects on the industry. Thus they say we should observe these distinctions and recognize that a rule requiring divestiture for radio-newspaper combinations is not necessary because in most large markets an individual radio station does not have significant market power. However, it is

[29] The four are: being the first station on air in market, being a CBS affiliate, operating on a low-band VHF channel or lowest channel in market, and having the highest audience share.

XUM V40 I30 FEB 12 75 XUM

said, in smaller markets (below the top 100) individual radio stations may be significant competitive factors. Therefore, we are urged to review radio-newspaper combinations in markets below the top 100 on a case-by-case basis and require divestiture where necessary. Others urge the adoption of specific rules for smaller markets.

60. Licensees in smaller markets generally believe the Commission's concern should be with larger markets and exemptions should be provided for smaller markets. They point to the smaller size of these combinations, arguing that as a result there is less cause for concern about detrimental impact and more about disruption. However, licensees in large markets believe the serious problem exists only in those markets where there is only one daily newspaper and only one television station. These parties place their stress on the number of direct competitors in the market.

61. *Unique Situations*—Several parties argue that "unique" situations in particular markets require that the proposed rules not be applied in those cases. For example, the licensee of a Class A FM station in Santa Monica, California, and publisher of an evening newspaper in Santa Monica argues that his holdings constitute a minute fraction of the total mass media in the market. Santa Monica, a suburb of Los Angeles, is said to be saturated with broadcast service, receiving primary signals from 10 AM, numerous FM and 11 commercial and one educational television stations. Similar arguments have been made that other communities are overshadowed by nearby cities of much greater size, and we have been told that in such communities, UHF and FM stations might not have survived without newspaper ownership.

62. *Jointly Owned Broadcast Stations and Newspapers in the Same Market Can Give Better Service.* One frequent argument is that joint ownership of newspapers and broadcast stations made possible the early development of FM and TV service even though these pioneering stations often had to be operated at a loss. This leads these opponents to conclude that had the resources of newspapers not been available, the public would have been without such service for a long period of time.

63. In addition to the historical argument, these parties offer arguments supporting the view that benefits would continue to accrue. According to the exponents of this view the public would lose more than it would gain if those of the journalistic tradition are excluded from broadcasting. They argue that newspaper owners, coming from a tradition of journalism rather than entertainment, have set high standards of emphasis upon informative broadcasting with extensive news staffs and upon dedication to meeting community needs and advancing community projects. In fact, former Chairman Newton N. Minow has suggested that the public interest might better be served if, contrary to the thrust of our proposal, more newspapers were given the opportunity to operate TV outlets in their communities. He also suggested that the tradition of professional journalism offered by the newspapers greatly enhanced their ability to offer programs in the public interest.

64. The argument has been made that integrating broadcast and newspaper operations enables the licensee to provide service in the public interest which could not be provided if the operations were conducted independently and under separate ownership. Combined ownership is said to permit experimentation, innovation, minority programming, more effective dissemination of news and public information, independence from advertisers, lower advertising costs, financial stability, and otherwise contributes to diversity. They argue that because of the combination, many efficiencies and economies of operation can be effectuated, such as economies in buying and maintaining equipment, the joint use of buildings and office space, the common staff of program, technical and administrative personnel, etc.

65. Many have asserted that newspaper-owned broadcast licensees have a record of public service which is among the highest in broadcasting. Their contributions to the public interest constitutes in the view of these parties a tangible benefit which cannot be sacrificed for the theoretical benefits which the Commission has assumed will result from the proposed divestiture. They assert that newspapers owning broadcast stations in the same community are doubly conscious of their responsibilities to the public and have a greater knowledge of and immersion in the community's needs and problems than do non-newspaper owners. Local newspapers are said to often be locally owned by people who have long been directly involved in the community and in community service, particularly as an outlet for public expression. They insist that newspaper ownership of broadcast stations is more stable than that of other entities and that newspaper owners do not traffic. Continuity of ownership of broadcast stations we are assured would avoid the weaknesses inherent in stations which change hands frequently. We are told that the long term owner is continuously aware of community problems and by so doing can maintain a long range effort to deal with those problems.

66. Conversely, the argument is made that the existing owner takes the community for granted, and assumes too much in connection with ascertaining community problems. A newcomer, the view goes, would gain fresh insights since it would have to ascertain without presumption based on past history. Thus, the argument goes, service could actually improve.

67. In connection with radio stations in particular, opponents of the proposal see real benefits in newspaper ownership. They say that there are many situations where a radio station could only survive economically because of the support provided by a co-owned newspaper in the same market. If this were precluded, they feel the community would have fewer voices. They also assert that such a combination could provide higher quality programming than could normally be expected from singly owned stations. Moreover, the programming of newspaper owned stations is said to function as a counter-balance to national network dominance.

68. *Broadcast Media and Newspapers Are Not Comparable.* Although opponents of the current proposal acknowledge that newspapers and TV are the public's primary source of news, they contend that there is a radical difference between them, both in method and scope. They are seen as complementary, not competing, sources of news. In their view the Commission's statement that newspaper ownership of a co-located TV station directly parallels joint ownership of two TV stations in the same community, ignores many salient differences. For example: (a) the broadcast media bring the public only the headlines whereas newspapers provide the details and background; (b) the broadcast media devote no more than 10% to 12% of their time to news whereas newspapers devote 100% of their non-advertising space of journalistic function; (c) broadcasting is basically an entertainment medium whereas a newspaper is primarily a news medium; (d) a newspaper is a recorder of events whereas the broadcast media are not; (e) newspapers provide a permanent record for future reference whereas the broadcast media do not; (f) the types of advertising and the products advertised through the two media differ; (g) the two media do not necessarily encompass the same market; (h) the persons who use TV as their primary source of communication do not necessarily subscribe to newspapers; and (i) the broadcast media are inherently incapable of providing on a day-to-day basis in-depth local reporting whereas a newspaper has such capability. Pointing to the Commission's *Further Notice* in this proceeding (at para. 29), where it was indicated that studies showed that persons relying most heavily upon newspapers as a source of information are those identified as leaders or opinion molders, the opponents state that the joint ownership of a newspaper or TV station is likely to make no difference to these people since the nature of the newspaper analysis of a news event varies so greatly from the most abbreviated form of news which appears on TV. Further, we are assured, these persons are unlikely to rely on a single source of information for their news.

69. The point is also made that the two media function quite differently in the manner in which they cover the news, thus reflecting not only the innate differences between the media but differences in coverage as well. These factors are said to ensure that the public receives the benefits of separate news sources, which do, in fact, even if they are commonly owned offer divergent

viewpoints and approaches to issues of public concern. Editorial practice we are told, is a far more significant facet of diversity than is ownership. Accordingly, they would reject what they see as the Commission's assumption that cross-ownership causes newspapers to speak and write with one voice. Not all parties, of course, find these distinctions particularly important as they continue to see the two as parallel entities.

70. *The Rules Would be Contrary to Past Policies and Pronouncements That Led to the Development of the Present Broadcast Services and are Inequitable to Those Who Acted in Reliance on Those Policies.* The various parties presenting this argument submit that the present structure of the broadcast industry has been created by the Commission which has licensed each station in question, at times after a comparative hearing, and repeatedly renewed those licenses after finding that the renewal would be in the public interest, convenience and necessity. These parties contend that it would be a breach of faith for the Commission to now reverse these prior decisions and ban the cross ownership which was previously approved.[18]

71. They assert that diversity is one of several fundamental criteria considered by the Commission in granting broadcast licenses, and the Commission has considered these other criteria, including local ownership, integration of ownership and management and experience, in finding that a grant of a broadcast license to a newspaper or existing broadcast licensee would serve the public interest. Instances of such actions they point to include the licensing of the AM and FM stations in Elyria, Ohio, to Elyria-Lorain Broadcasting Co., the publisher of the local newspaper; the assignment of KOA-AM-FM and TV, Denver, Colorado, to a single party; and the grant of the application of Paducah Newspapers, Inc. for WPSD-TV in Paducah, Kentucky. They also mention *Orlando Daily Newspaper, Inc.*, 11 F.C.C. 760 (1946) and the *Policy Statement on Newspaper Ownership*, 9 R.R. 702 (1944). Based on their reading of these precedents the current proposal would without valid basis, they aver, summarily reverse the ongoing practice of years standing.

72. On the other hand, supporters of Commission action assert that while the economic and technical considerations of the 1940's and 1950's justified a more lenient Commission policy toward cross ownership, those prior considerations are no longer operative. Under present conditions, they think it is unlikely that the number of newspapers and broadcast stations will significantly increase in the foreseeable future, and the Commission is therefore justified in taking a more restrictive approach (see footnote 18).

[18] In part, this is in response to the Commission's statement in the *First Report and Order* (in particular in para. 22) that changed circumstances necessitated that a different view now be taken regarding such combinations.

73. *Great and Irreversible Damage Would Result To Media and To Individual Stations and Newspapers.* Opponents insist that no matter how economically strong, no industry can absorb unlimited burdens. At some point they say, there is a limit, which once exceeded, leads to a collapse of that industry. They assert that quite a number of burdens have been imposed on broadcasters so that the point is nearing when the ability of the industry to respond may be impaired. As examples of such burdens they mention a series of recent Commission actions such as increased fees, new renewal procedures and prime-time access as well as the more frequent occurrence of petitions to deny and increased costs. The point is that whatever the source, whatever the legitimacy of the justification, the unavoidable impact on the broadcaster is a burden that can lead to a driving out of needed capital as well as a pushing away of fresh talent and creativity. Opponents argue that too much of a good thing can be fatal and that the price paid would be in lessened diversity, which is the opposite of the hoped-for result. Supporters assert that we should question these dire predictions. These, for the most part, are seen as greatly exaggerated. Such validity as is accepted is said to exist in only some individual circumstances.

74. The proposed rules would also have adverse economic consequences for newspapers we are advised by opponents. Divestiture could impair the revenues of newspapers and result in the decline in their value. Moreover, they contend that to the extent owners decide to keep their broadcast stations and divest their newspapers, there would be a decline in the value of newspapers with potential for forcing marginal operations out of business. They also suggest that the proposed rules would threaten the balance reached by the Congress in the Newspaper Preservation Act between the public interest in competition and the public interest in continued financial viability of newspapers and their editorial independence. Finally, they express a concern that adopting rules might limit the ability of publishers to enter into electronic newspaper distribution in the future. They feel that for newspapers to remain viable it may be necessary for them to be able to use something other than the present modes of newspaper production and distribution which may become too slow or expensive.

75. Divestiture, opponents assert, also raises questions concerning the continued viability of special format daily newspapers. For example, the licensee of an AM and FM station in New York City also publishes a daily Yiddish-language newspaper. The paper operates with an annual deficit which in part is offset by an annual profit from the radio stations. The licensee contends that funds from the radio stations are necessary to provide for continued publication of the paper.

76. Finally, a particular danger is said to be involved in divestiture because the results would be permanent and irreversible. They assert that the genius of the administrative process is its ability to be flexible and to consider matters in the light of changed circumstances, attributes which could not be brought to bear for there is no way to return to the *status quo ante* if the results are not what were intended. They argue that since there is no way to return the outlets to their original holders if the action proves improvident, the risk is so great that any cause for concern is sufficient to establish that the step should not be taken unless there is clear proof of harm from the existing circumstances.

THE RULES WOULD DISCOURAGE RISK CAPITAL IN BROADCASTING AND IMPOSE HIGH COSTS OF OPERATION CONTRARY TO THE PUBLIC INTEREST

77. This argument, made by several broadcast interests, is that divestiture would result in a drastic alteration of the industry structure and breed economic instability. This they say would come about because the new owners of divested stations would face significant economic burdens, principally as a result of paying high prices for broadcast properties that have appreciated greatly over the years. Because of high interest rates, the cost of debt service will reduce the working capital and profit accumulation which would otherwise be available for programming including news and public affairs. Beyond these economic factors, various other burdens are mentioned as being placed on broadcasters, and the fear is expressed that this could be a last straw. The continuing infusion of capital, energy, and creativity needed to properly nourish the industry in their view may be stymied because of the economic burdens, the governmental interventions and restrictions imposed. The NAB sees this proceeding as one in which adoption of the rules would give just such a negative signal to those now involved or who would become involved in broadcasting: results clearly detrimental to the public interest. Supporters say they cannot agree that an industry they see as characterized by extraordinarily high profits would somehow become anathema to investors.

THE PROPOSED RULE AMOUNTS TO THE VIRTUAL ABANDONMENT OF THE COMMISSION'S POLICY FAVORING LOCAL OWNERSHIP

78. Opponents charge that the divestiture provision of the rule would frustrate the Commission's policy favoring local ownership which has long been considered conducive to programming responsive to local needs and interests. This they say can be seen in the Commission prediction that many licensees will simply trade stations with other licensees, thereby achieving divestiture without significant upheaval in the identity of the media ownership. They argue that this trading of broadcast properties would result in absentee ownership. However they do not think such ownership is desirable, particularly where a broadcast station is traded

XUM
V40I30
FEB 12 75
XUM

away from a newspaper with local ownership and strong community ties. Rather, they believe that the strong affiliation between a newspaper and its community often results in programming on a commonly owned television station which is particularly responsive to the needs and interests of the community. They think an absentee owner, with less contact with the community might be less concerned with the public interest and more concerned with the balance sheet, and the divestiture may result in the fragmentation of professional staffs which have been built up over the years to provide the best possible service to the public. This leads them to conclude that the absentee ownership resulting from divestiture would therefore result in a loss of service to the public.

79. Opponents have rejected suggestions that the first opportunity to purchase a station be given to a local group or that more than one potential purchaser be submitted to the Commission as unworkable and contrary to Section 310(b) of the Communications Act. They assert that such courses of action would interfere with existing interests and equities and jeopardize existing service. Proponents, on the other hand, asserted that any resulting reduction in local ownership should not be used to justify and maintain a monopoly situation, and they urge the Commission to proceed with divestiture. In their view, local ownership as a goal necessarily pales in comparison with providing needed diversity.

NEWSPAPER OWNERSHIP—MISCELLANEOUS ARGUMENTS

80. Parties opposing the Commission's proposal have offered several procedural or jurisdictional objections. Several have taken the view that the proposal represents such a fundamental policy shift that the Commission should not act without Congressional mandate. It was their view that this subject should be considered at Congressional hearings from which policy guidelines would emerge. The Commission is urged not to proceed without such guidance from the Congress.

81. Two other procedural objections to implementation of the proposed rules have been interposed, both relying on the view that a hearing would be required beforehand. One asserted that the Commission should not proceed without holding oral argument on the proposal [»] and the other insisted that any affected party would be entitled to a full evidentiary hearing before it could be required to divest.

82. Progressive Broadcasting Corporation is licensee of Stations WHOM–AM and FM and is commonly owned with a daily newspaper. It wonders if the rule would apply to it and asserts that if it would special recognition is required of its unusual situation. It argues that a rule should not apply to it since the radio stations are essential Spanish language and the daily newspaper, even if it is circulated generally, reaches only an audience that reads Italian. Moreover, it asserts that the Spanish speaking audience for the stations does not much overlap with the readers of *Il Progresso Italo-Americano*. Aside from the divergence in audience, Progressive contends that neither has the broad general appeal and impact that seemed to be the cause of the Commission's concern. For itself and others similarly situated Progressive asks that any rule which might be adopted not be considered applicable to such situations.

83. The Illini Publishing Company, a not-for-profit corporation at the University of Illinois, owns the daily student newspaper, an FM station, and the yearbook. It stated that it would not comment on the desirability of cross-ownership for commercial properties but that cross-ownership in its situation is a guarantee of finanial and therefore editorial independence from the University administration, the student government, or any other potential pressure group. It has never accepted student fees but has depended on the sale of advertising and circulation, and in various years one or the other of the three media was supported by its fellows.

84. The Forward Association publisher of *The Jewish Daily Forward* and licensee of New York City Stations WEVD–AM and FM says it is not clear whether the rule would apply to foreign language newspapers. The Association says it should not, but if it did, the Commission should hold an evidentiary hearing in each case to determine whether divestiture should be required.

85. The Oklahoma Press Association in opposing the proposal notes that some universities have both newspapers and television stations. While educational broadcast stations are exempted from the duopoly rules, it points out that it is not clear where the proposal leaves Notre Dame University and the University of Missouri, both of which operate *commercial* television stations (WNDU–TV and KOMU–TV, respectively).

86. Finally, several parties wonder how many papers per week a newspaper must publish to be defined as a daily? Is a paper that publishes three days a week a weekly and one that publishes four days a week a daily? They also suggest that if the proposed rule is adopted, it could be circumvented by publishing six different weekly publications, each on a separate day.

DIVESTITURE WOULD CONSTITUTE AN UNPRECEDENTED GOVERNMENTAL INTRUSION

87. The NAB and others insist that there is no precedent for the action proposed here. Never before in the history of the FCC or any other governmental agency, they assert, has a proposal of this magnitude ever been implemented. In strictly legal terms, the charge is that no agency has ever so proceeded without basing its action on a proven law violation and in furtherance of an express statutory authorization. Here neither is said to be present and this makes it all too clear how drastic and extreme the proposal really is. The closest example, that of the 1943 FCC action affecting radio duopoly cannot, it is said, be considered analogous. In that situation, we are told, relatively few stations were affected and the economic impact was notably smaller than that which would be anticipated here.

DIVESTITURE WOULD HAVE A "CHILLING" EFFECT AND INHIBIT FREE SPEECH AND PRESS

88. The charge is made by the NAB that already extensive regulation exists and unwarranted extension of such regulation could only have harmful results. Inevitably, they feel, a fear would be created that governmental action could be invoked as a means of expressing displeasure at a course of conduct, not because it is unlawful but because it is contrary to governmental preference. Even if the current proposal in itself did not bring the weight of government to bear in such a manner, they believe that the fear would be created that it could happen in the future. The net effect they foresee would be a restriction on free speech, a curtailment of creative journalism, affecting newspapers as well as stations. Thus, the NAB states, in a democracy, it is the power of the government, not that of the press that is to be feared. Especially in the current political climate, the action here proposed is bound to be interpreted as a governmental assault on the free press, it is argued.

89. The lesson of history in this regard is said to be clear: there is no such thing as compulsory freedom. Just so, there can be no compulsory diversity. The greatness of this country's press, print and broadcast, we are told is the product of the lack of governmental intrusion. It is its freedom of operation that has and will continue to offer a continuation of the situation in which American diversity exceeds that of any country. The Commission is urged not to yield to temptation by following the restrictive paths traveled by other countries. Rather, the Commission should follow the path of freedom and non-intervention. Supporters assert that the structured approach involved here is a lesser danger in free speech terms than Commission intervention in programming as could happen in fairness cases.

IF ANY RULE IS ADOPTED, EXISTING INTERESTS SHOULD BE GRANDFATHERED

90. This view which is in direct conflict with the divestiture proposal was expressed by Duhamel Broadcasting Enterprises, Inc., and Paducah Newspapers, Inc. Divestiture, Paducah says, would be disruptive, counter-productive, unfair, oppressive, etc., and should not be ordered in the absence of a showing of specific harm. Although cast somewhat differently, the point is essentially the same as that presented by many other parties and which has been discussed previously.

PROPOSAL TOO RIGID

91. Several points are subsumed under this heading. One concerns the view expressed by several parties that an exemption for UHF stations is an economic necessity. At most, they argue, these situations should be considered on a case-by-case basis. Another party takes the view that in certain markets, a weekly newspaper can be the more powerful medium, not the daily, and the rule would give no recognition to such a situation.

[»] This, of course, has taken place.

THE COMMISSION SHOULD ADOPT SPECIFIC RULES TO DEAL WITH POTENTIAL ABUSES

92. Several parties suggest that if the Commission can identify evils which could occur in cross-ownership situations, such as preferential advertising rates for purchase of both newspaper space and broadcast commercial time, it should regulate such practices by specific rules. The Commission's response to the payola scandals—sponsorship identification requirements of Section 73.119 and 73.654—is said to be a good example of selective rule making.

93. According to various parties, the objective of achieving maximum diversification of media ownership is not in and of itself determinative of where the public interest lies. This is said to be evidenced by the numerous cases in which the Commission has granted, in comparative proceedings, applications resulting in a greater concentration of media control. They take the view that the Commission's proposal would establish an irrebuttable presumption that any legally qualified applicant unconnected with a newspaper will serve the public better than a station owned by a company which also publishes a local newspaper. A complete prohibition of common ownership is said to risk the exclusion of the best available interested party to the community which in some cases might lead to the exclusion of the only applicant. In sum, the view is that the single most critical factor in governing the extent to which the public interest will be served is the licensee's motivation and interest in serving the community. According to many affected parties the common owner of co-located newspaper and broadcast facilities is often the only one in the community so motivated. On this basis, they assert that the proposed rules would work to the detriment of the public, and thus they urge rejection of such a rule. Supporters see things quite differently, questioning whether such a grant could really add anything worth the cost of possibly forever excluding another party which might step forward in the future.

MAJOR STUDIES SUBMITTED

94. A number of studies have been submitted, including some by parties not associated with the newspaper or broadcast industries. The studies cover four major topics. Some studies treat more than one topic, but are listed only once in the summary which follows. A list of these studies is contained in Appendix B.

95. *Economic Consequences of Divestiture.* Both the Frazier, Gross study and the First National City Bank study indicate that combination owners will most likely transfer their TV stations rather than their newspapers. First National is extremely pessimistic about the financial outcome for sellers of TV stations, under divestiture market conditions. Frazier's judgment is that TV stations will sell at 10% to 20% below true value if all affected stations were to be divested. Our own evaluation is that the concern may be exaggerated.

96. *Effect of Common Ownership on Competition.* No claims were made that newspaper-television station owners have committed any specific non-competitive acts as such, but Rosse et al. attempt to show that, all other things held constant, newspaper-owned TV stations charge their advertisers higher prices than other TV stations, and that this is probably due to the monopoly effect. Their calculations show that newspaper-owned TV stations charge about 15% higher rates. The NAB and ANPA statisticians see a conceptual error in Rosse's model—audience was omitted as one explanatory variable, and when the error was corrected, the difference in prices between newspaper-owned TV stations and others was not statistically significant. The Post-Newsweek study also covered this point. The Commission's own examination of the point fails to show an effect on rates attributable to newspaper ownership. Levin uses past TV station sales prices as a measure of whether newspapers have been subsidizing their owned TV stations. He finds they have not.

97. *Effect of Common Ownership on Station Performance.* Both the Student Group and Levin did empirical analyses to determine if newspaper-owned TV stations differ from other TV stations in the quantities of news, public affairs, local programming, etc., they present, and Levin also studied possible differences in diversity. Levin's findings appear to be inconclusive. The Student Group finds that there is no significant difference in the performance, between TV stations owned by local newspapers and other TV stations. Although the NAB findings use different methodology with the Student Group data, the results are essentially the same—no significant differences. A Commission staff study on this topic is attached as Appendix C. When the earlier submissions were prepared, the Annual Programming Reports for television stations had not yet become available. The Commission's study is the first to use this data. The American Institute conducted a study of public attitudes, behavior and knowledge of current events in two similar cities, to determine if media monopoly (Zanesville, Ohio) results in a less informed public than competitive media (York, Pennsylvania). The York population sample was found to be significantly more knowledgeable on current events, and this was attributed to the fact that the only newspaper, TV station and AM/FM radio station in Zanesville were then controlled by a single owner. J. Anderson attempts to discover whether the informational content of the news broadcasts and daily papers of co-owned media show a greater correspondence than do media separately owned. He finds that TV–newspaper combinations and radio-newspaper combinations do not result in a monolithic presentation of information, in the many sample cities studied. Cox Broadcasting's two studies result in similar findings for two specific markets where they own newspapers and broadcast stations—Atlanta and Dayton.

98. *Multiplicity and Diversity of the Media.* Sterling shows that the number and proportion of newspaper-owned broadcast stations has been on the decline since 1950. Udell says that newspaper-owned TV stations have declined from 29% (of all TV stations) in 1955 to 14% in 1969. He also points out that there has been growth in the TV industry in spite of newspaper ownership in many markets. The ANPA staff study presents tabulations that confirm the downward trend and they also show that the total media voices (including magazines and other publications) is extremely high in most markets (e.g. 660 in Washington, D.C.). Seiden's study, counting all the media voices in the ADI counties of each market, also presents high figures (e.g. 98 in San Diego; 610 in New York City). Wilcox in his submission seems to suggest that newspapers and broadcasters are not instrumental in shaping public opinion, and that with the enormous volume and contradictory viewpoints presented, people are overwhelmed and reject everything. The Commission does not believe that "counts" as such add much to our knowledge as they fail to consider the particular characteristics that assume considerable significance in many situations.

CONCLUSIONS

99. *Introduction.* It has become clear in reviewing the record of this proceeding that additional public interest considerations need to be applied in judging the public interest consequences of present as distinguished from future common ownership interests in co-located newspapers and stations. Put otherwise, the idea of divestiture, implicit in retrospective rules, requires a demonstration of more than just theory or a resting on narrowly drawn balances. Rather, we must consider the impact that divestiture would have, taking into account factors not present in connection with prospective rules, matters which must be examined if fairness is to be achieved. Before we proceed with our discussion of these two aspects separately, there are a number of general observations to be made about the public policy on which Commission action is based. The multiple ownership rules rest on two foundations; the twin goals of diversity of viewpoints and economic competition. The Commission has a responsibility to consider various aspects of the qualifications of licensees or applicants, among them the question of multiple ownership. In so doing, the Commission acts in individual cases or through rule making. Early in its history, the Commission acted to adopt rules to end common ownership of stations in the same service serving substantially the

XUM V40130 FEB 1275 XUM

XUM

same area. Needless to say, such commonly owned stations could neither be true competitors nor could they offer true diversity. Since then the multiple ownership rules have been extended in a number of respects to better serve one of both of the above goals. As to competition in particular, the national public policy (expressed in anti-trust laws and elsewhere) in favor of competition and against actions which would curtail it, finds a reflection in the actions of the Commission. Sometimes, this policy will yield, however, to the even higher goals of diversity and the delivery of quality broadcasting service to the American people. This is a vitally important matter, for it is essential to a democracy that its electorate be informed and have access to divergent viewpoints on controversial issues. Needless to say, thought had to be given to how much diversity to seek in terms of providing the best practicable service to the American public."

100. *Prospective Rules.* While there can be no doubt that newspapers brought a pioneering spirit to broadcasting, first in radio and then in television, it does not necessarily follow that new co-located coownership always would serve the public interest in the same way. In no way does this suggest a lack of recognition of the efforts made by the pioneers. Rather, it speaks to the issues raised when possible new entrants step forward. Now, unlike then, the broadcast medium has matured. While not all have made profits, for the most part, it is the particular market situation, or the newness of the operation that is the cause. Thus, the special reason for encouraging newspaper ownership, even at the cost of a lessened diversity, is no longer generally operative in the way it once was. Nor are newspapers the sole reservoir of experience on which reliance has to be placed. To the extent that TV (or radio) facilities are worth applying for, qualified and experienced applicants can be expected to step forward. Newspapers are not the only interested parties. The Commission is obliged to give recognition to the changes which have taken place and see to it that its rules adequately reflect the situation as it is, not was.

101. The thrust of recent rule changes in the area of multiple ownership as well as the underlying principles go in the direction of increased diversity. It appears that the licensing of a newspaper applicant for a new station in the same *city* as that in which the paper is published is not going to add to already existing choices, is not going to enhance diversity. In fact, since the number of channels open for filing has vastly diminished, the channel in question may be the last or one of the last available for the community. All this leads us to conclude that steps need to be taken in this regard. We think that any new licensing should be expected to add to local diversity. Accordingly, the rules will bar combinations that would not do so. Not all print media are equal or are generally circulated. Thus, we do not believe that weekly newspapers or specialized publications (including foreign language dailies) need to be included in the prohibitions we are adopting. Their situation would be different, for much of the audience of a station owned by such an entity would receive that entity's views for the first time. Each such publication is a relatively unimportant fraction of the media mix in a particular area. For this reason and because of the sheer size of daily newspapers, we shall limit the rule to daily [31] newspapers of general circulation. For the purpose of this rule, collegiate papers, even if dailies, are not considered to be circulated generally.

102. Since there is no basis in fact or law for finding newspaper owners unqualified as a group for future broadcast ownership, some limit needs to be placed on the geographic effect of the rule. We have decided to follow the parallel of the multiple ownership rule already adopted in this proceeding which bars new TV-radio combinations within certain specified contours, namely Grade A for television, 2 mV/m for AM and 1 mV/m for FM.[32] The rule would bar newspaper ownership if the predicted contours encompassed the city in which the daily newspaper is published.[33]

103. The rule will apply to new ownership patterns however created, whether by initial application and construction or by acquisition. In fact, the latter category is perhaps an even greater cause for concern since there would be a loss of an already existing separate voice if a separately owned station were acquired by a paper. In addition, once a sale is to take place the rule would require a split in an existing combination. No divestiture would be effected nor hardship created since this is a voluntary action by the seller. Thus the rule will apply to all applications for assignment or transfer other than those to heirs or legatees or those for *pro-forma* changes in ownership.[34] In addition to barring daily newspapers from acquiring a station if any of the above-mentioned contours encompass the newspaper community, we shall prohibit grant of a renewal to any station which acquires such a newspaper.[35]

104. The new rule will apply to radio, as well as television applications. While on the one hand it could be argued that the larger number of radio facilities means there already is more diversity than in television, the fact is that we wish to encourage still greater diversity. This to us is a worthwhile goal which does not depend on its being urgent to be justified. Since diversity can be fostered through prospective rules without the fundamental disruption that would occur with altering all current ownership patterns, even a smaller gain is worth pursuing. Also this is the same approach we took in regard to radio-TV combinations, where it, too, could be argued that the numbers suggested no need for concern if a television station acquired a radio station. The effect of the new rule could also be expected to enhance at least to some degree competition in the media.

105. The portion of the multiple ownership rules being amended today has come to be known as the "duopoly" portion of those rules (as contrasted with the seven-station portion). Originally, the duopoly rules proscribed common ownership, operation, or control of two broadcast stations in the same broadcast service serving substantially the same area. Later the proscription was changed to proscribe common ownership, operation or control of two stations in the same broadcast service if specified contours of the stations overlapped (Grade B for television, 1 mV/m for AM and for FM). Then, at an earlier stage of this proceeding, the duopoly rules were amended to cut across broadcast service lines, namely, VHF television and radio. Today they are further amended to include daily newspapers.

106. In discussing duopoly in the preceding parts of this document we have, for the sake of convenience, spoken solely of common ownership of media. However, it is necessary to take cognizance of the other terms in the duopoly rule as well, since not only common ownership is proscribed, but also common

[30] Sometimes there can be a clash between the goals of diversity and competition. Such is the situation in *Carroll* cases where we consider whether the addition of a station in a locality would damage an existing station's ability to program in the public interest, and whether the proposed station would function as a substitute for it. Leaving aside the quantum of proof required, at their core these cases say that the loss to the public is of such importance that even the goal of competition must take second place. It should be noted that the Commission's function is not to protect stations from competition and the public interest is not disserved even at a station's demise, so long as another takes it place in providing public service programming.

[31] For this purpose we are using the print media definition of a daily, i.e., published 4 times a week or more, in contrast to weekly, semi-weekly, or tri-weekly publications.

[32] For an explanation of this rule, see para. 3 and footnote 2, *supra*.

[33] Any concern that this restriction could be avoided by simply proposing facilities sufficiently limited to prevent encompassment can be resolved when it is recognized that the Commission has already designated applications for hearing on "307(b) efficiency" issues when this happened in connection with the current multiple ownership rules. If the multiple ownership situation arguably would lead to artificial restrictions on station facilities, such matters could be explored in hearing.

[34] Parties believing that survival of both entities depends on their joint sale may make such an argument in seeking waiver of this requirement.

[35] As proposed in the *Further Notice*, if a broadcast station licensee were to purchase one or more daily newspapers in the same market, it would be required to dispose of its stations there within 1 year or by the time of its next renewal date, whichever is longer. If the newspaper is purchased less than a year from the expiration of the license, the renewal application may be filed, but it will be deferred pending sale of the station, if necessary, until the year has expired.

operation or control. It is clear that under the original rule, a party owning 100% of an AM station was prevented from owning 100% of another AM station serving substantially the same area. However, what if he owned 100% of one station and although having no ownership interest in the other he was a director or an officer thereof? Did such a position constitute "control" of the other station so that the proscription of the rule applied? What if a party had no ownership interest in either station but was a director of each, or was an officer of one and general manager of the other? What if he had a minority stock interest in one and was an officer of the other? Was this proscribed? The Commission, by ruling on such questions on a case-by-case basis over the years, has developed policy concerning them. In the earlier stages of this proceeding we indicated that the policy as originally developed for stations in the same broadcast service would be carried over and applied to such cross-interests in VHF and radio stations (22 F.C.C. 2d 306 at 324–5; 28 F.C.C. 2d 662 at 669–670). In the *Further Notice* (22 F.C.C. 2d 339 at 349) we proposed to apply the policy to any new rules that might be adopted herein with regard to newspapers and invited comments on the subject. Nothing filed in response to this invitation suggests a need for different treatment, and we shall therefore adhere to the policy in administering the new rules adopted today.

107. The Commission's present rules proscribing acquisition of common ownership of stations in different services in the same market apply with full force to VHF television stations. However, as to UHF stations, the prohibitions do not apply. Instead, a case-by-case approach is followed. After careful consideration we have decided not to follow this distinction in connection with newspaper-television common ownership. Arguably, some of the same reasons which applied previously and upon which the distinction was created might be said to be present here. Admittedly, there is some commonality in the two areas of the rules in terms of how we should treat UHF stations, but we see even more that is distinctive. Thus, the level of concern over common ownership of an FM station and a UHF television station (a matter handled on a case-by-case basis) is not the same as with a daily newspaper and UHF stations. The latter combination results in a much more imposing entity in most cases. Sometimes, of course, the broadcast-broadcast common ownership situation would raise a problem; hence we provide for treatment of these cases on an *ad hoc* basis. Here the reverse of the broadcast-broadcast combination situation is to be expected. Presumptively, the creation of new television station-daily newspaper combinations or a sale of an existing combination raises a problem. This may not always be the case, but since parties can seek waiver, there is a protection in the event that in a particular case our approach could be unduly harsh. We wish to act to encourage even greater diversity than we now have and think therefore that UHF should not be exempted as a matter of course. As to the view to be taken regarding the significance of operation on a UHF channel as it relates to the question of possible divestiture, discussed below, we believe that the cases need to be judged on their own terms and not based on any assumption that stations on UHF channels have an inferior position in the market. In only one of the cases where the question of possible divestiture exists does this apply, and from the information now before us, exemption on this basis would not appear to be warranted.

108. *Divestiture.* We now turn to the most difficult of the questions before us: should divestiture be required? and if so, to what extent? We have been told by some parties that common ownership of a daily newspaper and a broadcast station raises such a problem as to require divestiture wherever the two entities are co-located. To some extent, in making this argument, reliance is placed on the economic strength of the combination, in terms of their revenues or the percentage of the market advertising revenues the two control. Others place reliance on circulation figures to show the power of the combination. In either instance, we are asked to require the current owner to divest in the hope or expectation that a change in ownership would bring public benefits. The principal benefit mentioned by others is the gain in diversity which the new owner would bring. Still others recognizing that disruption would attend the implementation of any such requirement urge it only in egregious cases. In part this is seen as a matter of fairness, in part it rests on the view that the need is not so great in other cases. We remain no less convinced than before of the importance of diversity, but this is not the only point to consider. Our examination of the situation leads us to conclude that we may have given too little weight to the consequences which could be expected to attend a focus on the abstract goal alone. There are a number of public interest consequences which form the basis of our concern. Requiring divestiture could reduce local ownership as well as the involvement of owners in management as many sales would have to be outside interests. The continuity of operation would be broken as the new owner would lack the long knowledge of the community and would have to begin raw. Local economic dislocations are also possible as a result of the vast demand for equity capital and wide-scale divestiture could increase interest rates and affect selling price too. None of these points was given consideration when we spoke in more sweeping terms at an earlier stage of this proceeding.

109. In our view, stability and continuity of ownership do serve important public purposes. Traditions of service were established and have been continued. Entrance and exit from broadcast ownership by these parties are determined by factors other than just profit maximization. Many began operation long before there was hope of profit and were it not for their efforts service would have been much delayed in many areas. Particularly in connection with a number of entities, there is a long record of service to the public." Under what circumstances then, should such ownership be disturbed? We have concluded that a mere hoped for gain in diversity is not enough. Unlike for prospective rules, divestiture introduces the possibility of disruption for the industry and hardship for individual owners.

110. We agree with the Justice Department that the Commission, like any other regulatory agency, must consider the anti-trust implications of its actions. Indeed, the relationship between anti-trust law and administrative law is necessarily a complementary one in which "the basic goal of direct governmental regulation through administrative bodies and the goal of indirect governmental regulation in the form of the anti-trust law is the same." *Northern Natural Gas Co.* v. *F.P.C.*, 399 F. 2d 953 at 959 (D.C. Cir. 1968). On the other hand, as Judge Wright succinctly stated in *Northern Natural Gas Co., supra*, 399 F. 2d at 960–961:

> This is not to suggest, however, that regulatory agencies have jurisdiction to determine violations of the antitrust laws. See *People of the State of California* v. *F.P.C., supra*, 369 U.S. at 490, 82 S. Ct. 901; *United States* v. *Radio Corporation of America, supra*, 358 U.S. at 350, n. 18, 79 S. Ct. 457; *National Broadcasting Co.* v. *United States*, 319 U.S. 190, 223–224, 73 S. Ct. 990 (1943); *Mansfield Journal Co.* v. *FCC*, 86 U.S. App. D.C. 102, 107, 180 F. 2d 23, 33 (1950). Nor are the agencies strictly bound by the dictates of these laws, for they can and do approve actions which violate antitrust policies where other economic, social and political considerations are found to be of overriding importance. In short, the antitrust laws are merely another tool which a regulatory agency employs to a greater or lesser degree to give "understandable content to the broad statutory concept of the 'public interest'." *F.M.C.* v. *Aktiebolaget Sevenska Amerika Linien, supra*, 390 U.S. at 244, 88 S. Ct. at 1009.

Accordingly, we have analyzed the basic media ownership questions in terms of this agency's primary concern—diversity in ownership as a means of enhancing diversity in programming service to the public—rather than in terms of a strictly antitrust approach. Indeed, we have taken into consideration such matters such as potential disruption of the

[36] A careful comparison has been made by the Commission's staff between like television stations differing only in whether or not they were owned by newspapers. The findings, attached hereto as Appendix C, show an undramatic but nonetheless statistically significant superiority in newspaper owned television stations in a number of program particulars. This material is derived from material contained in the first annual program report.

V40I30 FEB 12 75 XUM

broadcast industry which may not have been relevant from an antitrust analysis, but are intimately involved with important public interest considerations which this agency cannot ignore.

111. The distinction between our approach and the Justice Department's is best put this way. Justice and others applying traditional antitrust criteria are primarily interested in preserving competition in advertisting.[27] They place a greater emphasis on public policies underlying the need to preserve competition than on diversity aspects and for their arguments they use analytic tools taken from economic studies of market share and the like. Conversely, the diversity approach would examine the number of voices available to the people of a given area.[28] The premise is that a democratic society cannot function without the clash of divergent views. It is clear to us that the idea of diversity of viewpoints from antagonistic sources is at the heart of the Commission's licensing responsibility. If our democratic society is to function, nothing can be more important that insuring that there is a free flow of information from as many divergent sources as possible. This is not a reflection on the efforts of combination owners in diligently serving the public interest. Rather, it is a recognition that it is unrealistic to expect true diversity from a commonly owned station-newspaper combination. The divergency of their viewpoints cannot be expected to be the same as if they were antagonistically run.

112. Having said that our primary concern is diversity in programming service, we have analyzed the question of requiring full-scale divestiture under standards and with regard for considerations which are relevant under our broad public interest mandate. This does not mean that the Justice Department's concern for economic competition is irrelevant; only that it is of secondary concern under the Commission's regulatory responsibilities.[29] After reviewing the record in this context, we believe that because of the disruption and losses which could be expected to attend divestiture—resulting in losses or diminution of service to the public—divestiture should be limited to use in only the most egregious cases.[30] We have examined instances where there is co-located common ownership of a daily newspaper and a television and/or radio station to see which situations, if any, required action. In doing so we had to select some standards. As in all such efforts, the standards are not necessarily the only ones that could have been selected. We think the ones we have chosen are suitable and in fact preferable to other possible formulations. Nevertheless, we recognize that others would have preferred more or less stringent standards. A choice had to be made, and it had to rest on a valid and comprehensive foundation. We think it does, even if it is not the only possible formulation or does not represent the only point at which a balance could be struck. Before describing the standards it might be helpful to explain the criteria we used. We were greatly concerned about a lack of diversity that reaches a point sufficient to constitute an effective monopoly in the marketplace of ideas as well as economically. This did not mean, for example, that no magazines or other periodicals entered the market, or that no other radio or television station could be received there. Aside from the fact that such media outlets often had only a tiny fraction in the market, they were not given real weight since they often dealt exclusively with regional or national issues and ignored local issues. If they did deal with locally oriented issues, it was their own locality that was the focus. Such a situation does not bespeak a real diversity on vital issues of local concern. In fact, it is local issues on which so much decision making by the electorate is required, and on which the level of diversity provided by incoming media is lowest. Accordingly, we made an effort to determine whether diversity, real community-wide diversity, was present on such topics of local concern. As to prospective interests, we concluded that we were free to act to foster diversity without being concerned about negative impact from our action. As to interests already in existence, however, we concluded that a recognition needed to be given to such concerns and we used as a guideline whether a single full-fledged choice was available. We thought it would suffice, provided it was one which could be expected to deal with matters of local concern. In such cases there would not be such an unacceptable level of undue concentration. We looked then to incoming signals as a basis for exemption from divestiture.[31]

113. We examined all the instances known to us[32] of common ownership of the only daily newspaper with the only local radio or television station. Not all, it turned out, represented true monopoly situations, and stations were removed from the list if a direct competitor was found. In some of these instances, although only one station might be licensed to a city (such as Norfolk, Virginia) the truth is that the industry and local residents alike perceive the other stations licensed to other cities in the area (in that case Tidewater, Virginia which includes the cities of Hampton, Portsmouth and Newport News) as local, and they so function in terms of responding to local problems. In such cases, there is true (even if not unlimited) diversity. Sometimes, the situations were not so clear-cut.

114. Ascertaining and endeavoring to serve local needs was the key point, and some standard had to be developed to indicate where this was a reasonable expectation and where it was not. We did not believe that determining that a signal (regardless of whether it was city-grade, Grade A or Grade B) could be received, would suffice. We drew the line so as to require encompassment of the newspaper locality[33] by the city-grade signal[34] of another commercial television (or radio) station.[35] There are two reasons for selecting this standard. First of all, dependable coverage of the community in question would be provided, but even more importantly, because of the proximity of the station to the city in question, such stations could be expected to serve the needs of the newspaper locality as well as their own. While it is true that another signal level could have been used if we were only concerned with reception of the station, we do not believe that this would have been satisfactory. We think the focus properly belongs on the responsiveness of the outside station to local problems and needs. While the entertainment offerings of more distant stations garner many viewers, such is not the expectation for public affairs programs. Even if many did watch, little of this material could be expected to deal with problems of the newspaper community. It is unrealistic to imagine that these outside stations, not providing a city-grade signal, would be able to give meaningful responses to the needs of the distant newspaper locality, a nd it would be unfair to impose any such burden on them to attempt it. It is for these reasons that we cannot base our decision on overall viewing patterns as such. Rather, it must be on whether an outside station can be expected to provide meaningful attention to local problems and issues. Some would argue, no doubt, that all of these monopoly situations require divestiture even if a city-grade signal of an outside station encompasses the city in question. We see several problems with such an approach. First, some of these cases are labeled monopolies arbitrarily because only one channel is licensed to a particular city even though others are licensed to cities which together are part of a hyphenated market. Sometimes the residents of the individual communities themselves think of the area as joined together in the sense that local problems and their solutions transcend the borders of the separate cities involved. In such situations, the other stations in the market do direct themselves to the problems faced in common. In fact a question might well be raised in such situations if they did not do so. Even in situations where the communities involved are not so tightly bound, we believe that the attention to local problems outside stations could be expected to provide is sufficient to demonstrate the existence of adequate diversity. This is premised on the efforts of these stations to ascertain and endeavor to serve the needs of a

[27] This is not to suggest that we agree that any showing of higher prices has been made. The point was simply that Justice has applied a traditional competitive view whereas the Commission needs to look to other, even more vital, concerns as well. So it is too with the de Jonckheere approach to examining market concentration that does not give adequate attention to the core concern: diversity of programming service to the public.

[28] The Seiden approach is totally unrealistic in its inclusion of any publication or station that reaches even a small fragment of the market and moreover deals not at all with local issues.

See footnotes at end of document.

monopoly community which they encompass with a city-grade signal[36], efforts which need be undertaken. Although we continue to believe that divestiture is a harsh remedy, one to be reserved only where the need is overwhelming and the evidence unambiguous, it is equally clear that in some circumstances, no other answer can be given. We believe such to be the case where two city-grade signals are not present that offer an effective juxtaposing of views on local issues. In our view, this country can ill afford a monopoly on the expression of views of issues of local concern. This basis for divestiture, however, is a far cry from one based only on some theoretical increase in already existing diversity which might follow from such action and would ignore the ramifications of such a step. Accordingly, we do not believe that further divestiture can be defended.

115. Up to this point we have not attempted to distinguish radio stations from television stations in terms of the need for divestiture or to indicate the reasoning underlying our views on each. As will be clear from the discussion which follows, we are applying the same standards to a radio monopoly co-owned with a monopoly newspaper as we have to a television monopoly with a newspaper connection. Radio and television are given parallel treatment, based on encompassment by a city-grade signal. We are not unaware of the fact that in the cases where the television station and newspaper are the only ones of each in the locality, a city-grade radio signal may very well encompass the city.[37] This fact, in our view, is not sufficient to change matters. Realistically, a radio station cannot be considered the equal of either the paper or the television station in any sense, least of all in terms of being a source for news or for being the medium turned to for discussion of matters of local concern. When the weight of a daily newspaper and the commonly owned television station (perhaps with a radio station or even an AM–FM combination under common control) are combined, the radio station standing by itself cannot be considered as providing significant diversity or as constituting a meaningful competitior at all. Accordingly, the rule shall not provide an exemption based on encompassment of the monopoly television-newspaper community by a radio station as would be the case for encompassment by a television station. Weekly newspapers, likewise, have too small an impact in comparison to the daily newspaper-television station combination to provide a basis for an exception.

116. As to the situations where there is no local TV station and the only radio stations are owned in common with the only daily newspaper, we are of the view that the combined importance of the daily newspaper and the radio station(s)[38] is akin to that of a television-newspaper combination in the television cities. It must be remembered in this connection that there is no local television station to which the local residents can turn and in most cases no incoming city-grade television signal from another community. (In one case, that of Miles City, Montana, there is a television station licensed to serve that community, and we believe this fact sufficient to demonstrate adequate diversity.) Also, because of the much greater number of licensed radio stations, the expectation would be that a choice of signals would be the norm. Thus, the places lacking any other city-grade radio signal[39] could be viewed as isolated. In the smaller non-television communities, radio stations play a truly vital part in local affairs and their efforts and importance can exceed the level reachable by television stations in large markets. These media outlets are a much more central focus in these smaller communities. Even if a television city-grade signal encompasses the newspaper-radio monopoly community it does not follow that the station would provide effective diversity in that community. The outside television station would not be expected to be attuned to meeting the local problems, needs, and interests of these smaller newspaper-radio communities.

117. The rules we have fashioned will prohibit the monopoly situations described above and will require divestiture no later than January 1, 1980.[40] In the case of newspaper-television station monopolies either property could be sold.[41] In the case of radio-newspaper monopolies either the newspaper or a radio station would have to be sold, so if there were an AM–FM combination involved, the affected party need only dispose of one of the stations.[42] Since AM–FM combinations are not precluded by the rules, the AM–FM combination could be sold together.[43] Our goal, the creation of a competing source of news and public affairs programming attentive to the needs of the locality, could be thwarted if appropriate protections were not included to insure compliance with the requirements of the new rules. Thus, for example, there is a need to protect against a station's being offered for sale at a price out of keeping with its true value so that the owners could seek waiver on the basis of the inability to dispose of the station. We expect the parties involved to proceed in good faith. In connection with any attempt to show the inability to dispose of an interest to conform to the rules, we shall not give any weight to a showing that does not include a full description of the effort made to sell that interest, the price at which it was listed and a certification of a station (or if it applies, newspaper) broker that in his view this price is consistent with the fair market value of the station (or newspaper) in question.

118. We anticipate a number of waiver requests. The following discussion sets forth some of the circumstances in which waivers, either permanent or temporary, might be granted.[44]

119. It is not our intention that the rules should work a forfeiture.[45] The rules are not in the least premised on the existence of improprieties in the operation of the media holdings. Thus, only a sale, not a loss is contemplated. For this reason, inability to sell the station would be a basis for waiver. Otherwise a refusal to grant a further renewal of license to the present licensee would work a forfeiture, a result contrary to our intent. We would take a similar view if the only sale possible would have to be at an artificially depressed price.[46] Likewise, if it could be shown that separate ownership and operation of the newspaper and station cannot be supported in the locality, waiver might well be appropriate. In any of these instances we contemplate waivers of reasonable duration, so that we shall not always be bound by a result based on outdated information. Finally, if it could be shown for whatever reason[47] that the purposes of the rule would be disserved by divestiture, if the rule, in other words, would be better served by continuation of the current ownership pattern, then waiver would be warranted. However, we would not be favorably inclined to grant any request premised on views rejected when the rule was adopted, as we do not intend to relitigate resolved issues.

120. On our own motion, in two cases we are exempting stations from divestiture because it is clear that for each case a waiver would be warranted. At Hickory, North Carolina, the television station operates on a UHF channel with highly limited facilities and without a network affiliation. Whether by net weekly circulation or any other measure, the station, its audience and hence its impact, is minor. Consequently, there appears to be little basis for expecting any interest to be shown in acquiring this station. With Brookfield, Missouri, in the radio station list, it is equally clear that it is not on equal footing with the others in the group. By various indicia, both the station and the community are significantly different from the others. To neither of the above licensees would it be fair to insist that they go to the expense of filing a waiver request when the outcome is clear. Therefore we shall act now.

121. As to others desiring waiver we wish to make it clear that we do not contemplate holding evidentiary hearings on the individual waiver requests unless there are substantial issues of fact to be resolved. Legal, as distinguished from factual issues, can just as well if not better be resolved without the need for an evidentiary hearing. An evidentiary hearing on the other hand could only cause delay and unnecessary expense to all concerned. There is no requirement for the holding of an evidentiary hearing imposed by law absent the raising of substantial factual issues and we shall not take on a pointless task.

122. The current state of the economy may suggest to some that any station sales could only be at a depressed price, but as pointed out previously, there is no need to sell now if it is more advantageous to wait. With a 5-year grace period for compliance, particular market conditions or even an overall market down turn would not provide a basis for obviating the divestiture requirement, unless such a condition were to last the

See footnotes at end of document.

XUM V40-30 FEB 12 75 XUM

full five-year period. Such a turn of events does not seem plausible, but even if we thought it were, any action on this basis would have to await future happenings. In the meantime, we expect that parties wishing to seek waiver of the divestiture requirement will file their requests within 6 months of the publication of this document in the FEDERAL REGISTER. This should be sufficient time to properly assay the applicable circumstances and to prepare even a lengthy request. We are not prepared to consider late-filed requests unless based on changed circumstances which would not have been anticipated.

123. *Miscellaneous Matters Relating to New Rules.* We have been urged to exempt Puerto Rico from any rules we might adopt. Whatever action might have been required if any divestiture were to take place there, the fact is that no divestiture is required. The arguments we have been offered dealt mostly with existing and not future ownership combinations. In our view, the need for diversity is no less great in Puerto Rico than elsewhere, and we see no less need to apply the prospective rules there. To the extent a prospective applicant believes that special circumstances warrant deviation from the new requirements, it is at liberty to seek waiver to permit acceptance of a non-conforming application.

124. The suggestion has been made that we should act to help insure that ownership of any divested station should pass to minority group ownership. Secondarily we were urged to act similarly to encourage assignment to local (preferably minority) owners. The trouble with this request is that it appears to run afoul of Section 310(b) of the Communications Act of 1934, as amended. That provision specifically bars the Commission from considering whether the public interest would be served by transferring ownership to a party other than the one proposed in the application filed with the Commission. We inquired of the party urging this approach how it could be done consistent with Section 310(b) and were not offered any persuasive basis for believing it could be done. Accordingly, we shall not adopt such a requirement even obliquely as we were urged through requiring the assignor/trarsferor to attempt to find a buyer in keeping with the priorities urged by NCCB. However, it is clear that few stations are licensed to minority group owners. Divestiture might be an occasion for affected parties to consider this fact reaching their decisions, but no requirement to this effect will be adopted.

125. *Impact on comparative hearings involving regular renewal applicants.* Under the rules adopted herein, only a small number of co-owned broadcast-newspaper combinations are required to divest and no co-owned TV-radio combinations must do so. This raises a question as to the effect our action taken today will have on comparative renewal proceedings when licensees not required to divest apply for renewal of license and are challenged by a competing applicant. The answer to that question lies in the following discussion of our 1970 "Policy Statement Concerning Comparative Hearings Involving Regular Renewal Applicants" (22 F.C.C. 2d 424).

126. In that statement we attempted to balance the benefits received by the public from the statutory spur inherent in the fact that there can be a challenge at renewal time against the value of not undermining predictability and stability of broadcast operation. The balance was struck by adopting a policy which provided that if a renewal applicant could show in a hearing with a competing applicant that its program service during the preceding license term had substantially met the needs and interests of its area (and that the operation of the station had not been characterized by serious deficiencies) the renewal applicant was given a controlling preference over the new applicant. In adopting this policy, we stated that as to the Commission's rules and policies governing diversification of the media of mass communications, where a renewal applicant with other media interests had in the past been awarded a grant as consistent with those rules and policies and thereafter rendered service that substantially met the needs and interests of its area it would be unfair and unsound to permit him to be ousted on the basis of a comparative demerit because of his media holdings. Our position was that as a general matter the renewal process is not an appropriate way to restructure the broadcast industry. Rather, we stated, this should be done in rule making proceedings.

127. The 1970 Policy Statement was struck down by the Court in Citizens Communications Center v. F.C.C., 447 F. 2d 1201 (1971). The basis of the Court's action was that in a comparative hearing involving a regular renewal applicant, the Communications Act and Ashbacker Radio Corp. v. F.C.C., 326 U.S. 327 (1945), require a single full hearing in which the parties may produce evidence and be judged on the basis of all relevant criteria. It was the view of the court that the 1970 Policy Statement provided for a full comparison of the renewal applicant and the challenger only in cases where in the initial stage of the hearing the incumbent could not show a past record of substantial service without serious deficiencies. In other cases, the Court said, the challenger was given no hearing at all.

128. In ruling the 1970 Policy Statement illegal, the Court said (at fn. 33):

> Thus, without impinging at all upon the Commission's substantive discretion in weighing factors and granting licenses, our holding today merely requires the Commission to adhere to the comparative hearing procedure which it has followed without fail since Ashbacker and which has rightly come to be accepted by observers as a part of the due process owned to all mutually exclusive applications.

However, in such a single full comparative renewal hearing the Court observed that superior performance by an incumbent licensee should be a plus of major significance. This is because "(t)he court recognizes that the public itself will suffer if incumbent licensees cannot reasonably expect renewal when they have rendered superior service." (At fn. 35.) Nonetheless, it was the Court's view that "(d)iversification is a factor properly to be weighed and balanced with other important factors, including the renewal applicant's prior record, at a renewal hearing." (At fn. 36.)

129. After the decision in Citizens Communications Center, the Commission (noting the doubts expressed by the Court as to procedures made by the Commission in adopting the 1970 Policy Statement) issued a Further Notice of Inquiry in Docket No. 19154 (31 F.C.C. 2d 443 (1971))[*] inviting views of interested parties on the formulation of policy in this area that would be consistent with the Court's holding that a full hearing is required. That proceeding is still pending. The Commission has recently announced its intention to consider in the near future what its policy should be in this regard, but has not yet resolved the point. In the light of Citizens Communications Center, whatever policy is developed will take into account diversification as a factor that must be considered in a comparative renewal hearing. Also in the light of that case, the weighing of factors lies within the substantive discretion of the Commission, and the weight to be given the factor of diversity in comparative renewal hearings remains to be determined. Until such time as a new policy is formulated in Docket No. 19154, of necessity, under Citizens Communications Center, the factor of diversification must be considered in comparative renewal hearings, but the weight to be given that factor will be a matter within the discretion of the Commission. In connection with both any policy that may be developed and with comparative renewal proceedings that may occur before the development of such policy, we reiterate what we have said on another occasion (31 F.C.C. 2d 443 at 445), that we do not believe the Court in Citizens Communications Center is seeking to have the ownership patterns of the broadcast industry restructured through the renewal process; that, rather, any overall restructuring should be done in a rule making proceeding. And what we consider to be the necessary overall restructuring has been done today.

130. During the pendency of this proceeding, in situations involving petitions to deny renewal applications, the Court has approved our policy of refusing to consider questions of concentration of control unless specific abuses are shown. (Hale v. F.C.C. 425 F. 2d 556 (D.C. Cir. 1970); *Stone* v. *F.C.C.* 466 F. 2d 316 (D.C. Cir. 1972); Columbus Broadcasting Coalition v. F.C.C., —— F. 2d —— (D.C. Cir. 1974.)) Parties as of now may raise concentration issues in connection with such petitions. However, absent a showing of economic monopolization that

See footnotes at end of document.

might warrant actions under the Sherman Act, it would not be our view that such arguments would raise valid issues necessitating the designation of renewal applications for hearing. (See fn. 29, supra.) We should make clear at this time that since the stations which are subject to the divestiture provision are in effect under an order to terminate their present cross-ownership there would be no point in conducting protracted comparative hearings concerning those facilities during the interim period. Our finding that divestiture is required would obviously weaken their position in a comparative proceeding, but since we have determined that their present operations should be divested without regard to the quality of their service, as a means of improving the pattern of ownership, we think it would be inequitable to subject them in their present posture to competitive challenge. Furthermore, any comparative hearings at renewal time would probably run through the date when divestiture must be accomplished; this would create a chaotic situation. In view of these considerations, interested parties should be advised that we do not contemplate conducting comparative hearings in the usual course when these licenses come up for renewal.

131. *Policy Regarding Non-Divestiture Combinations.* As we had occasion to observe in the earlier discussion of the comments, a number of parties argued for (or suggested as a substitute for a separation in ownership) requirements to insure separate operation of jointly owned media entities. Although we were not persuaded that their arguments offered a valid basis for obviating the need for divestiture, or for requiring separation in ownership on a prospective basis, we are persuaded that valid points exist in this argument. Various combination owners have stressed that their two media interests—print and broadcast—are operated separately. Even if separate operation cannot be equated with separate ownership, it is nonetheless an important point. Were it otherwise and the two operated jointly, it might have been necessary for the Commission to act to require divestiture in many more situations. If the power of the print-broadcast combination were exercised monolithically or if the print and media outlets were mirror images of one another, speaking with one voice, we would have to be concerned.

In the divestiture cases, we held that even in the absence of specific abuses, the need to provide at least minimal diversity required action. As to the remaining instances of combination ownership, we believe some clarification in our expectations is required.

132. Many of the parties owning newspapers and broadcast stations in the same locality described how the two entities—print and broadcast—were separately operated. We were told that separate editorial and reportorial staffs were utilized. Many pointed to a separation in sales staff and an emphasis on competition between media. We endorse such efforts to insure a maximum of diversity and competition possible under the circumstances of common ownership and we commend those conscientious owners for their efforts.[*]

133. Based on the foregoing discussion, *it is ordered*, Pursuant to the authority contained in sections 4(i) and (j) and 303 of the Communications Act of 1934, as amended, That §§ 73.35, 73.240 and 73.636 of the Commission's rules and regulations are amended as set forth in Appendix F, effective February 12, 1975, the date of publication of this document in the Federal Register. All applications not granted by that date shall be subject to the new rules. Since these rules embody important new policy having widespread effect, we believe that it is in the public interest to make the effective date February 12, 1975, rather than to delay the effective date to a time at least 30 days after publication in the FEDERAL REGISTER. 5 U.S.C. 553(d)(3).

134. *It is further ordered*, That the provisions of newly adopted Section 73.35 (c) barring common ownership of the only AM station and a daily newspaper, and Section 73.636(c) barring common ownership of the only television station and daily newspaper ARE WAIVED insofar as they apply to such existing newspaper-broadcast combinations in Brookfield, Missouri, and Hickory, North Carolina.

135. *It is further ordered*, That this proceeding IS TERMINATED.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082 (47 U.S.C. 154, 303))

Adopted: January 28, 1975.

Released: January 31, 1975.

FEDERAL COMMUNICATIONS COMMISSION,[**]
VINCENT J. MULLINS,
Secretary.

APPENDIX C

STAFF STUDY OF 1973 TELEVISION STATION ANNUAL PROGRAMMING REPORTS [1]

Summary

It was found that on the average, co-located newspaper-owned TV stations programmed 6% more local news, 9% more local non-entertainment, and 12% more total local including entertainment than do other TV stations. A regression analysis technique was used which holds constant the effects of the following factors: network affiliation, UHF or VHF, group ownership, revenue size, total minutes broadcast during the week and number of commercial stations in market. In each case these differences were statistically significant.
Prepared by: Research & Education Division of the Broadcast Bureau.

Staff Study of 1973 TV Station Annual Programming Reports

One of the questions raised in the current cross-ownership inquiry, is whether newspaper owned co-located TV stations program differently than other TV stations, with respect to news, public affairs or other non-entertainment programs, other factors being equal. In order to investigate this question the staff has studied the 1973 Annual Programming Reports, specifically the 18 program categories and day parts shown in Table 1. We find that for the sample composite week reported by the TV stations on their annual report, those stations owned by co-located newspapers broadcast significantly more minutes in several categories of local programming.

Methodology

A reduced form station model of local and public service programming was specified and then regression analysis was used to evaluate the model with each of the eighteen program categories as dependent variables. This method permits one to "hold constant" the other factors in the relationship.
The programming model was specified as:

$$P = b_0 + b_1X_1 + b_2X_2 + b_3X_3 + b_4X_4 + b_5X_5 + b_6X_6 + b_7X_7 + b_8X_8 + e$$

where
P=minutes of program category broadcast during the 1972–1973 composite week.
X_1=Channel type (VHF or UHF; VHF=1).
X_2=CBS affiliation (Dummy variable, CBS=1).
X_3=NBC affiliation (Dummy variable, NBC=1).[1a]
X_4=Newspaper joint ownership in same market (Dummy variable =1 if joint owned).
X_5=Group ownership (Dummy variable =1 if group owned).
X_6=Station revenue in thousands of dollars.
X_7=Number of commercial stations in station's market.
X_8=Total minutes broadcast (6 A.M.–Midnight during the composite week).
e=Disturbance factor (assumed normally distributed with mean of zero and variance is σ^2).

In evaluating the model, the object was to test the relationship between X_1 (newspaper joint ownership) and P (minutes of program category) for each of the eighteen programs categories.[2] The null hypothesis for each of the eighteen program categories was that the newspaper joint ownership coefficient (b_1) is not significantly different from zero.[3]

Data

Data on the observations included in the study were drawn from a number of sources. Table 2 shows the source of data for each variable in the study.
In general, the analysis included observations from all network affiliates. Independent stations were not included because the number of co-located independent station-newspaper combinations was very small, and their programming patterns were different from affiliated stations. In addition, three other classes of stations were excluded: (1) stations outside the continental U.S., (2) satellite stations, and (3) stations in the top seven markets.[4] The stations in the top seven markets were omitted because previous work by the staff indicated that the stations in these markets behave somewhat differently than stations in other markets and would weigh the results because of their large size. In any case, there were only two newspaper-TV co-located combinations in the top seven markets.

Findings

Table 3 shows the regression results for each of the eighteen programming categories. This table reports the coefficient (b), standard error of the coefficient (S_b) and t statistic for each of the eight independent variables across all eighteen program categories.
Hypothesis tests on the coefficient b_1 indicate that the quantitative effect of newspaper ownership on public service and local programming is not significantly different than zero in all but these three categories:
1. 6 A.M.–Midnight, local sources only, news, public affairs and "other" (ALNPO).
2. 6 A.M.–Midnight, local sources only, news (ALN).
3. 6 A.M.–Midnight, local sources only, all programming, including entertainment (ALNPOE).
Table 3 shows that all three of these coefficients are positive. Thus newspaper joint ownership tends to be associated with increased amounts of program time devoted to ALNPO, ALN, and ALNPOE. The amount of increase for each category is:
1. 6 A.M.–Midnight, local sources only, news, public affairs and "other"—55.74 minutes per week (9.0% over the mean of 614.76 minutes).
2. 6 A.M.–Midnight, local sources only, news—21.94 minutes per week (6.3% over the mean of 344.76 minutes).
3. 6 A.M.–Midnight, local sources only, all programming, including entertainment—94.78 minutes per week (12.5% over the mean of 757.10 minutes).
The conclusion is that television stations under joint ownership with a co-located newspaper quantitatively perform at least as well as other stations in the areas covered by this study; however these jointly owned stations broadcast significantly more minutes than other stations in several categories of local programming, other important factors being equal.

NOTE.—Codes in right column are abbreviations used in table 3.

[1] None of the previous studies submitted by the parties had these reports yet available to them when they were prepared. Thus, Levin used data taken from *TV Guide* for his studies.
[1a] The effect of ABC affiliation is captured in the intercept term.

[2] It should be noted that the coefficients associated with the independent variables were not expected to remain constant across all programming categories. For example, the network terms were expected to be larger and more significant for categories that include all program sources than for categories that include local program sources only.
[3] Although the results show other significant relationships, this study was confined to the newspaper ownership factors.
[4] The top seven markets were defined according to 1972 ARB ADI TV households rank; New York, Chicago, Los Angeles, Philadelphia, San Francisco, Boston, and Detroit.

Wisconsin: Janesville	WCLO	WJVL

APPENDIX F

1. Section 73.35 of the Commission's rules and regulations is amended to read as follows:

§ 73.35 Multiple ownership.

(a) No license for a standard broadcast station shall be granted to any party (including all parties under common control) if such party directly or indirectly owns, operates, or controls: one or more standard broadcast stations and the grant of such license will result in any overlap of the predicted or measured 1 mV/m groundwave contours of the existing and proposed stations, computed in accordance with § 73.183 or § 73.186; or one or more television broadcast stations and the grant of such license will result in the predicted or measured 2 mV/m groundwave contour of the proposed station, computed in accordance with § 73.183 or § 73.186, encompassing the entire community of license of one of the television broadcast stations or will result in the Grade A contour(s) of the television broadcast station(s), computed in accordance with § 73.684, encompassing the entire community of license of the proposed station; or a daily newspaper and the grant of such license will result in the predicted or measured 2 mV/m contour, computed in accordance with § 73.183 or § 73.186, encompassing the entire community in which such newspaper is published.

(b) No license for a standard broadcast station shall be granted to any party (including all parties under common control) if such party, or any stockholder, officer or director of such party, directly or indirectly owns, operates, controls, or has any interest in, or is an officer or director of any other standard broadcast station if the grant of such license would result in a concentration of control of standard broadcasting in a manner inconsistent with public interest,

See footnotes at end of document.

convenience, or necessity. In determining whether there is such a concentration of control, consideration will be given to the facts of each case with particular reference to such factors as the size, extent and location of areas served; the number of people served, classes of stations involved and the extent of other competitive service to the areas in question. The Commission, however, will in any event consider that there would be such a concentration of control contrary to the public interest, convenience or necessity for any party or any of its stockholders, officers or directors to have a direct or indirect interest in, or be stockholders, officers, or directors of, more than seven standard broadcast stations.

(c) No renewal of license shall be granted for a term extending beyond January 1, 1980, to any party that as of January 1, 1975, directly or indirectly owns, operates or controls the only daily newspaper published in a community and also as of January 1, 1975, directly or indirectly owns, operates or controls the only commercial aural station or stations which place(s) a city-grade signal over the community during daytime hours. The provisions of this paragraph shall not require divestiture of any interest not in conformity with its provisions earlier than January 1, 1980. Divestiture is not required if there is a separately owned, operated or controlled television broadcast station licensed to serve the community.

NOTE 1.—The word "control" as used herein is not limited to majority stock ownership, but includes actual working control in whatever manner exercised.

NOTE 2.—In applying the provisions of paragraphs (a) and (c) of this section, partial (as well as total), ownership interests in corporate broadcast licensees and corporate daily newspapers represented by ownership of voting stock of such corporations will be considered.

NOTE 3.—Except as provided in Note 4 of this section, in applying the provisions of paragraphs (a), (b) and (c) of this section to the stockholders of a corporation which has more than 50 voting stockholders, only those stockholders need be considered who are officers or directors or who directly or indirectly own 1 percent or more of the outstanding voting stock.

NOTE 4.—In applying the provisions of paragraphs (a), (b) and (c) of this section to the stockholders of a corporation which has more than 50 voting stockholders, an investment company as defined in 15 U.S.C. section 80a-3 (commonly called a mutual fund), need be considered only if it directly or indirectly owns 3 percent or more of the outstanding voting stock or if officers or directors of the corporation are representatives of the investment company. Holdings by investment companies under common management shall be aggregated.

NOTE 5.—In calculating the percentage of ownership of voting stock under the provisions of Note 4, if an investment company directly or indirectly owns voting stock in a company which in turn directly or indirectly owns 50 percent or more of the voting stock of a corporate broadcast licensee or corporate daily newspaper, the investment company shall be considered to own the same percentage of outstanding shares of the corporate broadcast station licensee or corporate daily newspaper as it owns of the outstanding voting shares of the company standing between it and the licensee corporation or corporate daily newspaper. If the intermediate company owns less than 50 percent of the voting stock of a corporate broadcast station licensee or corporate daily newspaper, the holding of the investment company need not be considered under the 3-percent rule, but, officers or directors of the licensee corporation or of the corporate daily newspaper who are representatives of the intermediate company shall be deemed to be representatives of the investment company.

NOTE 6.—In applying the provisions of paragraphs (a), (b) and (c) of this section to the stockholders of a corporation which has more than 50 voting stockholders, a bank holding stock through its trust department in trust accounts need be considered only if such bank directly or indirectly owns 5 percent or more of the outstanding voting stock: *Provided*, The bank files a disclaimer of intent to control the management or policies of the broadcast or newspaper corporation. Holdings by banks shall be aggregated if the bank has any right to determine how the stock will be voted.

NOTE 7.—In cases where record and beneficial ownership of voting stock of a corporate broadcast station licensee or corporate daily newspaper which has more than 50 voting stockholders are not identical, e.g., bank nominees holding stock as record owners for the benefit of mutual funds, brokerage houses holding stock in street names for the benefit of customers, trusts holding stock as record owners for the benefit of designated parties, the party having the right to determine how the stock will be voted will be considered to own it for the purposes of these rules.

NOTE 8.—Paragraph (a) of this section will not be applied so as to require divestiture, by any licensee, of existing facilities. Said paragraph will not apply to applications for increased power for Class IV stations; to applications for assignment of license or transfer of control filed in accordance with § 1.540 (b) or § 1.541 (b) of this chapter, or to applications for assignment of license or transfer of control to heirs or legatees by will or intestacy if no new or increased overlap would be created between commonly owned, operated or controlled standard broadcast stations and if no new encompassment of communities proscribed in paragraph (a) of this section as to commonly owned, operated, or controlled standard broadcast stations and television broadcast stations or daily newspapers would result. Said paragraph will apply to all applications for new stations, to all other applications for assignment or transfer, and to all applications for major changes in existing stations except major changes that will result in overlap of contours of standard broadcast stations with each other no greater than already existing. (The resulting areas of overlap of contours of standard broadcast stations with each other in such major change cases may consist partly or entirely of new terrain. However, if the population in the resulting overlap areas substantially exceeds that in the previously existing overlap areas, the Commission will not grant the application if it finds that to do so would be against the public interest, convenience, or necessity.) Paragraph (a) of this section will not apply to any application by a party who directly or indirectly owns, operates, or controls a UHF television broadcast station where grant of such application would result in the Grade A contour of the UHF station encompassing the entire community of license of a commonly owned, operated, or controlled standard broadcast station or would result in the entire community of license of such UHF station being encompassed by the 2 mV/m contour of such standard broadcast station. Such community encompassment cases will be handled on a case-by-case basis in order to determine whether common ownership, operation, or control of the stations in question would be in the public interest. Commonly owned, operated, or controlled broadcast stations, with overlapping contours or with community-encompassing contours prohibited by paragraph (a) of this section may not be assigned or transferred to a single person, group, or entity, except as provided above in this note. If a commonly owned, operated or controlled standard broadcast station and daily newspaper fall within the encompassing proscription of paragraph (a) of this section, the station may not be assigned to a single person, group or entity if the newspaper is being simultaneously sold to such single person, group or entity.

NOTE 9.—Paragraph (a) of this section will not be applied to cases involving television stations which are primarily "satellite" operations. Such cases will be considered on a case-by-case basis in order to determine whether common ownership, operation, or control of the stations in question would be in the public interest. Whether or not a particular television broadcast station which does not present a substantial amount of locally originated programming is primarily a "satellite" operation will be determined on the facts of the particular case. An authorized and operating "satellite" television station the Grade A contour of which completely encompasses the community of license of a commonly owned, operated, or controlled standard broadcast station, or the community of license of which is completely encompassed by the 2 mV/m contour of such standard broadcast station may subsequently become a "non-satellite" station with local studios and locally originated programming. However, such commonly owned, operated, or controlled standard and "non-satellite" television stations may not be transferred or assigned to a single person, group, or entity except as provided in Note 8.

NOTE 10.—For the purposes of this section a daily newspaper is one which is published four or more days per week, which is in the English language, and which is circulated generally in the community of publication. A college newspaper is not considered as being circulated generally.

2. Section 73.240 of the Commission's rules and regulations is amended to read as follows:

§ 73.240 Multiple ownership.

(a) (1) No license for an FM broadcast station shall be granted to any party (including all parties under common control) if such party directly or indirectly owns, operates, or controls: one or more FM broadcast stations and the grant of such license will result in any overlap of the predicted 1 mV/m contours of the existing and proposed stations, computed in accordance with § 73.313; or one or more television broadcast stations and the grant of such license will result in the predicted 1 mV/m contour of the proposed station, computed in accordance with § 73.313, encompassing the entire community of license of one of the television broadcast stations or will result in the Grade A contour(s) of the television broadcast station(s), computed in accordance with § 73.684, encompassing the entire community of license of the proposed station; or a daily newspaper

See footnotes at end of document.

XUM
V40-30
FEB 12 75
XUM

and the grant of such license will result in the predicted 1 mV/m contour, computed in accordance with § 73.313, encompassing the entire community in which such newspaper is published.

(2) No license for an FM broadcast station shall be granted to any party (including all parties under common control) if such party, or any stockholder, officer or director of such party, directly or indirectly owns, operates, controls, or has any interest in, or is an officer or director of any other FM broadcast station in the grant of such license would result in a concentration of control of FM broadcasting in a manner inconsistent with the public interest convenience, or necessity. In determining whether there is such a concentration of control, consideration will be given to the facts of each case with particular reference to such factors as the size, extent and location of areas served, the number of people served, classes of stations involved and the extent of other competitive service to the areas in question. The Commission, however, will in any event consider that there would be such a concentration of control contrary to the public interest, convenience or necessity for any party or any of its stockholders, officers or directors to have a direct or indirect interest in, or be stockholders, officers, or directors of, more than seven FM broadcast stations.

(b) Paragraphs (a) and (c) of this section are not applicable to noncommercial educational FM stations.

(c) No renewal of license shall be granted for a term extending beyond January 1, 1980, to any party that as of January 1, 1975, directly or indirectly owns, operates or controls the only daily newspaper published in a community and also as of January 1, 1975, directly or indirectly owns, operates or controls the only commercial aural station or stations which place(s) a city-grade signal over the community during daytime hours. The provisions of this paragraph shall not require divestiture of any interest not in conformity with its provisions earlier than January 1, 1980. Divestiture is not required if there is a separately owned, operated or controlled television broadcast station licensed to serve the community.

NOTE 1.—The word "control" as used herein is not limited to majority stock ownership, but includes actual working control in whatever manner exercised.

NOTE 2.—In applying the provisions of paragraphs (a) (1) and (c) of this section, partial (as well as total) ownership interests in corporate broadcast licensees and corporate daily newspapers represented by ownership of voting stock of such corporations will be considered.

NOTE 3.—Except as provided in Note 4 of this section, in applying the provisions of paragraph (a) (1), (a) (2), and (c) of this section to the stockholders of a corporation which has more than 50 voting stockholders, only those stockholders need be considered who are officers or directors or who directly or indirectly own 1 percent or more of the outstanding voting stock.

NOTE 4.—In applying the provisions of paragraphs (a) (1) and (a) (2) and (c) of this section to the stockholders of a corporation which has more than 50 voting stockholders, an investment company as defined in 15 U.S.C. section 80a-3 (commonly called a mutual fund), need be considered only if it directly or indirectly owns 3 percent or more of the outstanding voting stock or if officers or directors of the corporation are representatives of the investment company. Holdings by investment companies under common management shall be aggregated.

NOTE 5.—In calculating the percentage of ownership of voting stock under the provisions of Note 4, if an investment company directly or indirectly owns voting stock in a company which in turn directly or indirectly owns 50 percent or more of the voting stock of a corporate broadcast licensee or corporate daily newspaper, the investment company shall be considered to own the same percentage of outstanding shares of the corporate broadcast station licensee or corporate daily newspaper, as it owns of the outstanding voting shares of the company standing between it and the licensee corporation or corporate daily newspaper. If the intermediate company owns less than 50 percent of the voting stock of a corporate broadcast station licensee or corporate daily newspaper, the holding of the investment company need not be considered under the 3-percent rule, but, officers or directors of the licensee corporation or of the corporate daily newspaper who are representatives of the intermediate company shall be deemed to be representatives of the investment company.

NOTE 6.—In applying the provisions of paragraphs (a) (1), (a) (2), and (c) of this section to the stockholders of a corporation which has more than 50 voting stockholders, a bank holding stock through its trust department in trust accounts need be considered only if such bank directly or indirectly owns 5 percent or more of the outstanding voting stock: *Provided*, The bank files a disclaimer of intent to control the management or policies of the broadcast or newspaper corporation. Holdings by banks shall be aggregated if the bank has any right to determine how the stock will be voted.

NOTE 7.—In cases where record and beneficial ownership of voting stock of a corporate broadcast station licensee or corporate daily newspaper which has more than 50 voting stockholders are not identical, e.g., bank nominees holding stock as record owners for the benefit of mutual funds, brokerage houses holding stock in street names for the benefit of customers, trusts holding stock as record owners for the benefit of designated parties, the party having the right to determine how the stock will be voted will be considered to own it for the purposes of these rules.

NOTE 8.—Paragraph (a) (1) of this section will not be applied so as to require divestiture, by any licensee, of existing facilities. Said paragraph will not apply to applications for assignment of license or transfer of control filed in accordance with § 1.540(b) or § 1.541(b) of this chapter, or to applications for assignment of license or transfer of control to heirs or legatees by will or intestacy if no new or increased overlap would be created between commonly owned, operated or controlled FM broadcast stations and if no new encompassment of communities proscribed in paragraph (a) (1) of this section as to commonly owned, operated, or controlled FM broadcast stations and television broadcast stations or daily newspapers would result. Said paragraph will apply to all applications for new stations, to all other applications for assignment or transfer, and to all applications for major changes in existing stations except major changes that will result in overlap of contours of FM broadcast stations with each other no greater than already existing. (The resulting areas of overlap of contours of FM broadcast stations with each other in such major change cases may consist partly or entirely of new terrain. However, if the population in the resulting overlap areas substantially exceeds that in the previously existing overlap areas, the Commission will not grant the application if it finds that to do so would be against the public interest, convenience, or necessity.) Paragraph (a) (1) of this section will not apply to any application by a party who directly or indirectly owns, operates or controls a UHF television broadcast station where grant of such application would result in the Grade A contour of the UHF station encompassing the entire community of license of a commonly owned, operated, or controlled FM broadcast station or would result in the entire community of license of such UHF station being encompassed by the 1 mV/m contour of such FM broadcast station. Such community encompassment cases will be handled on a case-by-case basis in order to determine whether common ownership, operation, or control of the stations in question would be in the public interest. Commonly owned, operated, or controlled broadcast stations, with overlapping contours or with community-encompassing contours prohibited by paragraph (a) (1) of this section may not be assigned or transferred to a single person, group, or entity, except as provided above in this note. If a commonly owned, operated or controlled FM broadcast station and daily newspaper fall within the encompassing proscription of sub-paragraph (a) (1) of this section, the station may not be assigned to a single person, group or entity if the newspaper is being simultaneously sold to such single person, group or entity.

NOTE 9.—Paragraph (a) (1) of this section will not be applied to cases involving television stations which are primarily "satellite" operations. Such cases will be considered on a case-by-case basis in order to determine whether common ownership, operation, or control of the stations in question would be in the public interest. Whether or not a particular television broadcast station which does not present a substantial amount of locally originated programming is primarily a "satellite" operation will be determined on the facts of the particular case. An authorized and operating "satellite" television station the Grade A contour of which completely encompasses the community of license of a commonly owned, operated or controlled FM broadcast station, or the community of license which is completely encompassed by the 1 mV/m contour of such a FM broadcast station may subsequently become a "non-satellite" station with local studios and locally originated programming. However, such commonly owned, operated, or controlled FM and "non-satellite" television stations may not be transferred or assigned to a single person, group, or entity except as provided in Note 8.

NOTE 10.—For the purposes of this section a daily newspaper is one which is published four or more days per week, which is in the English language, and which is circulated generally in the community of publication. A college newspaper is not considered as being circulated generally.

3. Section 73.636 of the Commission's rules and regulations is amended to read as follows:

§ 73.636 Multiple ownership.

(a) (1) No license for a television broadcast station shall be granted to any party (including all parties under common control) if such party directly or

See footnotes at end of document.

indirectly owns, operates, or controls: one or more television broadcast stations and the grant of such license will result in any overlap of the Grade B contours of the existing and proposed stations, computed in accordance with § 73.-684; or one or more standard broadcast stations and the grant of such license will result in the Grade A contour of the proposed station, computed in accordance with § 73.684, encompassing the entire community of license of one of the standard broadcast stations, or will result in the predicted or measured 2 mV/m groundwave contour(s) of the standard broadcast station(s), computed in accordance with § 73.183 or § 73.186, encompassing the entire community of license of the proposed station, or one or more FM broadcast stations and the grant of such license will result in the Grade A contour of the proposed station, computed in accordance with § 73.-684, encompassing the entire community of license of one of the FM broadcast stations, or will result in the predicted 1 mV/m contour(s) of the FM broadcast station(s), computed in accordance with § 73.313, encompassing the entire community of license of the proposed station; or a daily newspaper and the grant of such license will result in the Grade A contour, computed in accordance with § 73.684, encompassing the entire community in which such newspaper is published.

(2) No license for a television broadcast station shall be granted to any party (including all parties under common control) if such party, or any stockholder, officer or director of such party, directly or indirectly owns, operates, controls, or has any interest in, or is an officer or director of any other television broadcast station if the grant of such license would result in a concentration of control of television broadcasting in a manner inconsistent with public interest, convenience, or necessity. In determining whether there is such a concentration of control, consideration will be given to the facts of each case with particular reference to such factors as the size, extent and location of areas served, the number of people served, and the extent of other competitive service to the areas in question. The Commission, however, will in any event consider that there would be such a concentration of control contrary to the public interest, convenience or necessity for any party or any of its stockholders, officers or directors to have a direct or indirect interest in, or be stockholders, officers, or directors of, more than seven television broadcast stations, no more than five of which may be in the VHF band.

(b) Paragraphs (a) and (c) of this section are not applicable to noncommercial educational television stations.

(c) No renewal of license shall be granted for a term extending beyond January 1, 1980, to any party that as of January 1, 1975, directly or indirectly owns, operates or controls the only daily newspaper published in a community and also as of January 1, 1975, directly or indirectly owns, operates or controls the only commercial television station which places a city-grade signal over the community. The provisions of this paragraph shall not require divestiture of any interest not in conformity with its provisions earlier than January 1, 1980.

NOTE 1.—The word "control" as used herein is not limited to majority stock ownership, but includes actual working control in whatever manner exercised.

NOTE 2.—In applying the provisions of paragraphs (a) (1) and (c) of this section, partial (as well as total) ownership interests in corporate broadcast licensees and corporate daily newspapers represented by ownership of voting stock of such corporations will be considered.

NOTE 3.—Except as provided in Note 4 of this section, in applying the provisions of paragraphs (a) (1), (a) (2) and (c) of this section to the stockholders of a corporation which has more than 50 voting stockholders, only those stockholders need be considered who are officers or directors or who directly or indirectly own 1 percent or more of the outstanding voting stock.

NOTE 4.—In applying the provisions of paragraphs (a) (1), (a) (2) and (c) of this section to the stockholders of a corporation which has more than 50 voting stockholders, an investment company as defined in 15 U.S.C. section 80a-3 (commonly called a mutual fund), need be considered only if it directly or indirectly owns 3 percent or more of the outstanding voting stock or if officers or directors of the corporation are representatives of the investment company. Holdings by investment companies under common management shall be aggregated.

NOTE 5.—In calculating the percentage of ownership of voting stock under the provisions of Note 4, if an investment company directly or indirectly owns voting stock in a company which in turn directly or indirectly owns 50 percent or more of the voting stock of a corporate broadcast licensee or corporate daily newspaper, the investment company shall be considered to own the same percentage of outstanding shares of the corporate broadcast station licensee or corporate daily newspaper as it owns of the outstanding voting shares of the company standing between it and the licensee corporation or corporate daily newspaper. If the intermediate company owns less than 50 percent of the voting stock of a corporate broadcast station licensee or corporate daily newspaper, the holding of the investment company need not be considered under the 3-percent rule, but, officers or directors of the licensee corporation or of the corporate daily newspaper who are representatives of the intermediate company shall be deemed to be representatives of the investment company.

NOTE 6.—In applying the provisions of paragraphs (a) (1), (a) (2), and (c) of this section to the stockholders of a corporation which has more than 50 voting stockholders, a bank holding stock through its trust department in trust accounts need be considered only if such bank directly or indirectly owns 5 percent or more of the outstanding voting stock: *Provided*, The bank files a disclaimer of intent to control the management or policies of the broadcast or newspaper corporation. Holdings by banks shall be aggregated if the bank has any right to determine how the stock will be voted.

NOTE 7.—In cases where record and beneficial ownership of voting stock of a corporate broadcast station licensee or corporate daily newspaper which has more than 50 voting stock holders are not indentical, e.g., bank nominees holding stock as record owners for the benefit of mutual funds, brokerage houses holding stock in street name for the benefit of customers, trusts holding stock as record owners for the benefit of designated parties, the party having the right to determine how the stock will be voted will be considered to own it for the purposes of these rules.

NOTE 8.—Paragraph (a) (1) of this section will not be applied so as to require divestiture, by any licensee, of existing facilities. Said paragraph will not apply to applications for assignment of license or transfer of control filed in accordance with § 1.540(b) or § 1.541(b) of this chapter, or to applications for assignment of license or transfer of control to heirs or legatees by will or intestacy if no new or increased overlap would be created between commonly owned, operated or controlled television broadcast stations and if no new encompassment of communities proscribed in paragraph (a) (1) of this section as to commonly owned, operated, or controlled television broadcast stations and standard or FM broadcast stations or daily newspapers would result. Said paragraph will apply to all applications for new stations, to all other applications for assignment or transfer, and to all applications for major changes in existing stations except major changes that will result in overlap of contours of television broadcast stations with each other no greater than already existing. (The resulting areas of overlap of contours of television broadcast stations with each other in such major change cases may consist partly or entirely of new terrain. However, if the population in the resulting overlap areas substantially exceeds that in the previously existing overlap areas, the Commission will not grant the application if it finds that to do so would be against the public interest, convenience, or necessity.) Paragraph (a) (1) of this section will not apply to major changes in UHF television broadcast stations authorized as of September 30, 1964, which will result in Grade B overlap with another television broadcast station that was commonly owned, operated, or controlled as of September 30, 1964; or to any application concerning a UHF television broadcast station which would result in the Grade A contour of the UHF station encompassing the entire community of license of a commonly owned, operated, or controlled standard or FM broadcast station or which would result in the entire community of license of such UHF station being encompassed by the 2 mV/m or 1 mV/m contours of such standard or FM broadcast stations, respectively. Such UHF overlap or community encompassment cases will be handled on a case-by-case basis in order to determine whether common ownership, operation, or control of the stations in question would be in the public interest.

Commonly owned, operated, or controlled broadcast stations, with overlapping contours or with community-encompassing contours prohibited by paragraph (a) (1) of this section may not be assigned or transferred to a single person, group, or entity, except as provided above in this note. If a community owned, operated or controlled television broadcast station and daily newspaper fall within the encompassing proscription of subparagraph (a) (1) of this section, the station may not be assigned to a single person, group, or entity if the newspaper is being simultaneously sold to such single person, group or entity.

See footnotes at end of document.

XUM

XUM

NOTE 9.—Paragraph (a)(1) of this section will not be applied to cases involving television stations which are primarily "satellite" operations. Such cases will be considered on a case-by-case basis in order to determine whether common ownership, operation or control of the stations in question would be in the public interest. Whether or not a particular television broadcast station which does not present a substantial amount of locally originated programming is primarily a "satellite" operation will be determined on the facts of the particular case An authorized and operating "satellite" television station the Grade B contour of which overlaps that of a commonly owned, operated, or controlled "non-satellite" parent television broadcast station, or the Grade A contour of which completely encompasses the community of publication of a commonly owned, operated or controlled daily newspaper or the community of license of a commonly owned, operated or controlled standard or FM broadcast station, or the community of license of which is completely encompassed by the 2 mV/m contour of such a standard broadcast station or the 1 mV/m contour of such an FM station may subsequently become a "non-satellite" station with local studios and locally originated programming. However, such commonly owned, operated, or controlled "non-satellite" television stations with Grade B overlap or such commonly owned, operated, or controlled non-satellite television stations and standard or FM stations with the aforementioned community encompassment, may not be transferred or assigned to a single person, group, or entity except as provided in Note 8. Nor shall any application for assignment or transfer concerning such non-satellite stations be granted if the assignment or transfer would be to the same person, group or entity to which the commonly owned, operated or controlled newspaper is proposed to be transferred, except as provided in Note 8.

NOTE 10.—For the purposes of this section a daily newspaper is one which is published four or more days per week, which is in the English language and which is circulated generally in the community of publication. A college newspaper is not considered as being circulated generally.

APPENDIX G

SUMMARY OF ACTIONS TAKEN

I. *Previous Rules Continued in Effect.*

(a) *TV-radio combinations.* No divestiture of existing combinations is required. The present rules governing such combinations which were adopted in an earlier phase of this proceeding remain in effect. This means that a licensee of a VHF television station may not build or acquire a radio station(s) (AM, FM, or AM–FM) in the same market; and that the licensee of an AM station, an FM station, or an AM–FM combination may not build or acquire a VHF station in the same market. Although existing combinations are not required to divest, if the owner of a VHF-radio combination sells, he must sell the TV and the radio station(s) to different parties. Applications involving UHF TV stations and radio stations are handled on a case-by-case basis. VHF television stations and AM stations are considered to be in the same market if the Grade A contour of the TV station completely encompasses the community of license of the AM station, or if the 2 mV/m contour of the AM station completely encompasses the community of license of the TV station. A similar market concept holds for FM stations and TV stations except that the critical contour for the FM station is 1 mV/m.

(b) *AM–FM combinations.* Existing rules governing such combinations continue in effect. No divestiture is required This means that the licensee of an AM station may build or acquire an FM station in the same market and vice versa. Moreover, such a combination may be sold to a single party. The matter of whether the present rules governing duplication of programming by AM–FM combinations should be amended will be pursued in pending Docket No. 20016 (39 Fed. Reg. 14228 (1974)).

II. *New Rules Adopted.*

(a) *Radio-newspaper combinations.* Divestiture is required by January 1, 1980, if the only daily newspaper of general circulation published in a community and the only radio station(s) placing a city-grade signal over the entire community in daytime hours are under common ownership. The owner of such a newspaper-AM-FM combination may satisfy the divestiture requirement by selling the newspaper, the AM–FM, the AM, or the FM. Waivers will be granted on a proper showing. The formation of new radio-newspaper combinations in the same market is barred. They are considered to be in the same market if the 2 mV/m contour of an AM station or the 1 mV/m contour of an FM station completely encompasses the community in which the newspaper is published. If an existing radio station licensee acquires a daily newspaper in the same market, he is given until the date of expiration of license of the radio station, or one year, whichever is longer, in which to divest of one of the two properties. Newspaper-radio combinations which are in the same market but which do not fall within the divestiture requirement previously mentioned need not divest. However, if such combinations are sold the newspaper and the radio station(s) must be sold to different parties.

(b) *TV-newspaper combinations.* Divestiture is required by January 1, 1980, if the only daily newspaper of general circulation published in a community and the only TV station placing a city-grade signal over the entire community are under common ownership. The divestiture requirement may be satisfied by selling either the newspaper or the TV station. The divestiture requirement applies whether the TV station is UHF or VHF. Waivers will be granted on a proper showing. The formation of new TV-newspaper combinations in the same market is barred. (The proscription against formation of new TV-newspaper combinations applies whether the TV station is UHF or VHF.) They are considered to be in the same market if the Grade A contour of the TV station completely encompasses the community in which the newspaper is published. If an existing TV licensee acquires a daily newspaper in the same market, he is given until the date of expiration of the TV license, or one year, whichever is longer, in which to divest. Newspaper-TV combinations which are in the same market but which do not fall within the divestiture requirement previously mentioned need not divest. However, if such combinations are sold the newspaper and the TV station must be sold to different parties.

III. *Policy as to cross-interests in newspaper-broadcast combinations.*

The policy heretofore applied to cross-interests in broadcast stations serving substantially the same area will be applied to newspaper-broadcast combinations falling within the ambit of the newly adopted rules.

FOOTNOTES

[29] We shall examine allegations of economic monopolization which might warrant actions under the Sherman Act on an ad hoc basis in the future in those remaining circumstances where monopolization arguments might still be raised. (See para. 130, infra.) Moreover, we note that the Department of Justice, rather than submit data upon which industry-wide divestiture could be based, has offered general observations regarding the need for media competition and its concern about daily newspaper-VHF television combinations. Other parties have not had a proper opportunity to address the Department's separate filings with respect to the renewal applications for several stations and we doubt, in any event, that they would provide an appropriate basis for formulation of a general standard. Action on these pleadings will be taken in connection with the renewal applications in question. The Department has not offered us specific data in this proceeding on which to rely in applying anti-trust standards. Instead, it says that we are under an obligation to consider the competitive principles underlying the anti-trust laws. While we agree fully, we do not find that the data before us provide a footing for more severe action than we are taking. Divestiture has a substantial impact, and should be required only when we can determine that it is required by the public interest. We agree that it is not necessary to have proof of abuses before we can act, and we recognize that trading of stations would tend to lessen concern based on financial losses or investment uncertainty. However, we do not think that these considerations are a substitute for the requirement of a stronger showing than we have of the need for such a severe remedy on a broader basis. Even if some disruption occurs, we have acted to divest where competition and diversity are absent. Extending this to apply to all newspaper-television combinations, regardless of competition, is not warranted on the record before us and would cause serious public injury. We cannot rest upon an assertion that pricing may not be as competitive simply on the basis that it is "reasonable to assume" so. Merely stating that all daily newspaper-VHF television combinations are inconsistent with the public interest and the anti-trust laws is not enough. The Department urges that the degree of concentration is striking, but at present, 79 television stations are owned partly or wholly in common with daily newspapers published in the same locality. This number represents about 10.4% of the 757 commercial television stations on the air. If newspaper stations elsewhere are included the figure nears 14%, which is far below the 48% figure that obtained in 1948. A similar pattern of a continuing separation of daily newspapers and television stations in the same locality can be observed during the period of this proceeding. Thus, the 1970 figure of 96 co-located newspaper-television combinations dropped to 94 the next year and to 83 by April of 1974. By July of 1974 the figure had dropped still further to 79. Further reduction will take place as a result of our action here and through continuation of already begun changes in patterns of station ownership. We have drawn a line that is based on competition as well as diversity of voices and our experience suggests that there is neither need nor wisdom in going beyond it.

[30] There is another point, too, that with prospective rules as is the case with new applicants, even a small gain in diversity can be the basis for the requirement. Far more must be shown to warrant forcing an entity to dispose of its interest, and many cases lack any such urgency.

[31] Of course a daily newspaper competitor would equally well suffice to remove the combination from the ambit of the rules, but in these cases none were found.

[32] While we are reasonably sure about the information in question, absolute certainty is not possible. Neither at the Commission nor in any trade publication (print or broadcast) is there a definitive list of these common ownership situations. This information is called for only indirectly in station ownership reports and they are at best only a partial source of information. As a result we contemplate a change in the ownership reports to have specific disclosure of all media ownership.

[33] Although the rule does not rest on this premise, in each instance the location is identical to that of the co-owned station's community of license.

[34] For AM and FM, the city-grade signal levels are 5 mV/m and 3.16 mV/m, respectively. For all stations, encompassment by a city-grade signal means the same as encompassment by a principal community contour.

[35] The question immediately arises of what to do about translators and satellites. As to the former, little could be expected in terms of coverage of diversity. The station whose signal is translated is often quite far away and the existence of a translator has no bearing on the stations' obligation regarding ascertainment of community problems. In effect then, even if the translator provides a dependable signal throughout the monopoly community, it cannot be relied upon to bring in a service attuned to the needs of the monopoly community. Satellites present a more difficult problem as they do operate with more substantial facilities and the primary station is obliged to carry some programming attuned to the needs of the satellite community. We do not believe that this is sufficient to demonstrate diversity unless the satellite has a local studio from which public affairs and news programs can and do originate. Such a station (in effect a semi-satellite) would suffice to demonstrate diversity. Educational stations are not under an obligation to provide the full range of responsive programming as are commercial stations, and we cannot ignore their specialization. It is more than lack of commercials that sets them apart. Since they cannot be equated with commercial stations, we shall not exempt based on encompassment by an educational station. So too with foreign stations which have no obligation to serve the needs of their American audiences or to deal with issues of concern to them.

[36] Stations have a secondary obligation to provide service to areas outside their city of license. In a number of instances stations which place city-grade signals over monopoly communities are addressing themselves to the problems, needs and interests of those communities. Stations in a similar posture should recognize and undertake to serve, on a secondary basis, these monopoly communities.

[37] In fact, such ordinarily would be our expectation, as a community large enough to support a television station could be expected to have a number of radio stations, at least one of which would be separately owned from the newspaper.

[38] In some instances AM stations alone, in others AM–FM combinations.

[39] The reference is to daytime coverage, and the reason for this is quite simple: the data on file at the Commission do not suffice to give an accurate current picture of night-time AM coverage without the most painstaking examination of each case and a total restructuring of the maps and other data submitted by the stations to take into account all subsequent developments.

[40] This period of five years represents to us a proper balance between the private equities involved and the need for such dispatch as circumstances allow.

[41] If the present owner preferred, both the newspaper and the station could be sold but it would have to be to separate buyers.

[42] Some of the affected AM stations are full-time stations; others are daytime only. Compliance may be achieved by divesting either of the stations regardless of its hours of operation, or by divesting both if that is preferred.

[43] We would not consider it compliance if a station were acquired solely to be divested and our expectation is that divestiture of a station not yet on the air would not constitute compliance with the rules.

[44] The stations required to divest are listed in Appendix D and Appendix E to this document. As explained earlier (see fn. 33), the list is not to be taken as definitive. There may be additional stations within the ambit of the rules that do not have city-grade encompassment but nonetheless were not found in our search. Conversely, we may have included stations in the list that do not fit within the ambit—that for one reason or another should not have been included. Licensees of such stations can call such situations to our attention.

[45] Nevertheless, in recognition of the fact that we are requiring divestiture, we shall issue tax certificates to these parties pursuant to 26 U.S.C. 1071. We shall also do so in non-divestiture cases where current combinations are sold to separate owners in order to come into compliance with the new policy underlying the rule. We took this view earlier in this proceeding as to broadcast combinations—see the 1971 Memorandum Opinion and Order (28 F.C.C. 2d 662 at 671) and the Public Notice of July 16, 1970, FCC 70–744.

[46] An appropriate showing would have to be made of the fair value and the inability to obtain such a price. Also, as with inability to sell at all, we do not contemplate permanent waiver, for problems in disposing of these interests would not be expected to endure indefinitely.

[47] Among others that parties may wish to bring to our attention are local access of origination on the community's cable television system or other special circumstances they think have a bearing on the appropriateness of granting waiver.

[48] The Commission had previously issued a Notice of Inquiry in that docket (27 F.C.C. 2d 580 (1971)) to explore whether standards of "substantial service" could be developed for television broadcasting.

[49] We do not intend any change in the traditional view taken regarding activities by the media which run afoul of the anti-trust laws. Common ownership in itself does not constitute an abuse. The subject of combination rates and joint sales practices is under consideration in a rule making proceeding in Docket No. 19789.

[50] Commissioners Lee, Reid, and Washburn concurring and issuing statements; Commissioners Hooks and Robinson concurring in part and dissenting in part and issuing statements; Commissioner Quello issuing a separate statement. Statements of Commissioners Lee, Reid, Hooks, Quello, Washburn, and Robinson; filed as part of the original document.

[FR Doc.75-3416 Filed 2-11-75;8:45 am]

[FCC 75-115]

PART 0—COMMISSION ORGANIZATION

Authority Delegation to Chairman

1. The amendment set forth in the attached below delegates authority to the Chairman to settle claims under the Military Personnel and Civilian Employees' Claims Act of 1964, as amended, 31 U.S.C. 240–243. Claims may be filed under this act by Commission employees who have suffered damage to personal property incident to their agency service; provided, the amount involved does not exceed $6,500, and the employee did not cause the damage through his own negligence.

2. Presently, under § 0.211(d), the Commission has delegated authority to the Chairman to act on tort claims when the amount involved does not exceed $5,000. This amendment would permit the Chairman to settle employee property damage claims filed under the Military Personnel and Civilian Employees' Claims Act of 1964, as amended.

3. Authority for the amendment set out below is found in sections 4(i), 5(d), and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 155(d), and 303(r). As the amendment relates to matters of internal Commission organization and procedure, the prior notice and effective date provisions of 5 U.S.C. 553 are inapplicable.

4. In view of the foregoing, *It is ordered,* That effective February 12, 1975, Part 0 of the rules and regulations is amended as set forth below.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 156, 393)

Adopted: January 29, 1975.

Released: February 5, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

In Part 0 of Chapter I of Title 47 of the Code of Federal Regulations, § 0.211 (d) is amended to read as follows:

§ 0.211(d) Chairman.

• • • • • •

(d) To act within the purview of the Federal Tort Claims Act, as amended, 28 U.S.C. 2672, upon tort claims directed against the Commission where the amount of damages does not exceed $5,000; and to act within the purview of the Military Personnel and Civilian Employees' Claims Act of 1964, as amended, 31 U.S.C. 240–243, to settle claims directed against the United States where the amount of the claim does not exceed $6,500.

[Doc. No. 20004; #29907]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

PART 5—EXPERIMENTAL RADIO SERVICES (OTHER THAN BROADCAST)

Telemetering of Scientific Data; Correction

In the matter of amendment of Part 2 and Part 5 of the Commission's rules and regulations to provide for the use of frequencies in the bands 40.66–40.70 and 216–220 MHz for the tracking of, and telemetering of scientific data from, ocean buoys and animal wildlife.

In the Report and Order in the above-entitled matter, FCC 75-4, released January 9, 1975, and published in the FEDERAL REGISTER at 40 FR 2815, the text is corrected by inserting February 18, 1975, in § 5.108(a) for "for effective date of the rules"; and February 18, 1976, is inserted in § 5.109 for "one year after effective date of the rules".

Released: January 29, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

PART 95—CITIZENS RADIO SERVICE

External Radio Frequency Power Amplifiers; Report and Order; Correction

In the matter of Amendment of Parts 2 and 95 of the Commission's rules to prohibit external radio frequency power amplifiers at Class D Citizens Radio Service stations and to prohibit marketing of external radio frequency power amplifiers capable of operation in the band 26.96–27.26 MHz.

In the Report and Order in the above-entitled matter, FCC 74-1426, released January 3, 1975, and published in the FEDERAL REGISTER at 40 FR 1246, § 2.815 is corrected by inserting the effective date January 23, 1975, in the first sentence of paragraph (b); and August 12, 1975, in the last sentence in lieu of the words "six months after the effective date."

Released: January 29, 1975.

[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75-3908 Filed 2-11-75;8:45 am]

[Docket No. 20081, RM-2201; FCC 75-111]

PART 73—RADIO BROADCAST SERVICES

FM Stations; Table of Assignments; New York

1. The Commission here considers the notice of proposed rulemaking, adopted June 12, 1974 (39 FR 22438), proposing that the FM Table of Assignments (§ 73.202(b) of the Commission's rules and regulations) be amended by substituting Channel 289 for 288A at Endicott, New York, as petitioned for by January Enterprises, Inc. (January), licensee of Station WMRV(FM) on the channel there. The only comments filed were by the petitioner January, which in essence merely incorporated by reference the petition.[1]

2. Endicott, population 16,556,[2] is located in Broome County, population 221,815. As stated in the Notice, Endicott is one of four communities clustered along a 10-mile section of N.Y. Route 17, approximately seven miles north of the Pennsylvania border. Included are Binghamton (pop. 64,123), Johnson City (pop. 18,025), Endwell (pop. 15,999), and Endicott. Binghamton is the principal city of the Binghamton Standard Metropolitan Statistical Area (SMSA), which consists of Broome and Tioga (pop. 46,573) Counties in New York State and Susquehanna County (pop. 34,344) in Pennsylvania. Aural broadcast service for the Binghamton "market" consists of four unlimited-time AM stations (WENE, WKOP, WNBF, and WINR), three FM stations (WMRV, WAAL, and WQYT), and noncommercial educational FM Station WHRW. Stations WMRV and WENE are licensed to the petitioner at Endicott; the other stations are licensed to Binghamton.

3. In support of its petition, January urges that the proposed change of assignments would produce certain desirable results. Station WMRV would be able to upgrade its facilities to serve about an additional 140,000 persons within its predicted 1 mV/m contour, eliminate intermixture of FM assignments in the market (thus enabling January to compete equally with the Binghamton FM stations operating on Class B channels), and there would be a more efficient use of spectrum. In the latter respect, the engineering data submitted by January clearly establish that the proposed substitution would have no preclusionary effect and that Channel 289 could be sited in a restricted area in and around Endicott, Binghamton, Johnson City, and Endwell. While January cites a number of precedents as to upgrading and the desirability of channel change(s) to avoid intermixture, we wish to make it clear that in reaching our decision here, our primary concern is that of effective spectrum management. In this respect, unless Channel 289 is assigned to Endicott it may not be used elsewhere in the vicinity because of the present assignment of Channel 288A to that community. As in other similar instances, irrespective of other reasons urged by petitioner, we find that the public interest, convenience, and necessity would be served by the substitution of Class B Channel 289 for 288A at Endicott in such circumstances.[3] Pursuant to the Working Arrangement under the Canada-United States FM Agreement of 1947, the Canadian Department of Communications has agreed to this change.

4. In view of the foregoing, and pursuant to authority contained in sections 4(i), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, *It is ordered*, That, effective March 14, 1975, the FM Table of Assignments, § 73.202(b) of the rules and regulations, is amended to read as follows for the city listed below:

§ 73.202 Table of Assignments.

(b) • • •

City:	Channel No.
Endicott, New York	289

5. *It is further ordered*, That an application for renewal of the license of Station WMRV(FM), Endicott, New York, shall specify operation on Channel 289 instead of Channel 288A. If the license of January Enterprises, Inc. for Station WMRV(FM) is renewed, the station may continue to operate on Channel 288A until it is ready to operate on Channel 289 or the Commission sooner directs; operation on Channel 289 is subject to the following conditions:

(a) At least 30 days before it wishes to commence operation on Channel 289, or within 30 days after it receives notification from the Commission if the Commission sooner directs change, the licensee of Station WMRV(FM) shall submit to the Commission the technical information normally required of an applicant for a construction permit on Channel 289 at Endicott, New York; and

(b) At least 10 days prior to commencing operation on Channel 289, the licensee shall submit the measurement data normally required of an applicant for an FM broadcast station license.

6. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Adopted: January 28, 1975.

Released: February 5, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Title 7—Agriculture

CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTIONS, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

SUBCHAPTER E—WAREHOUSE REGULATIONS

PART 106—DRY BEAN WAREHOUSES

Licensing of Inspectors Otherwise Licensed and Exemption From License Fees

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that the Agricultural Marketing Service, pursuant to the authority conferred by section 28 of the U.S. Warehouse Act (7 U.S.C. 268) is amending warehouse regulations appearing in Part 106 (dry beans) of Subchapter E of Chapter I in Title 7 of the Code of Federal Regulations to issue licenses under the U.S. Warehouse Act to inspectors who hold licenses under another Federal act and to exempt such inspectors from the required license fee.

Under grain warehouse regulations, any person who holds a valid license as a grain inspector under the U.S. Grain Standards Act is granted an inspectors license under the U.S. Warehouse Act and is exempt from payment of the licence fee required under such Act. Inspectors (agricultural commodity graders) of dry beans are licensed under the authority of the Agricultural Marketing Act of 1946 rather than under the U.S. Grain Standards Act. Such inspectors have not been granted licenses without show of evidence that they can correctly grade beans and have not been exempt from fee payment under the U.S. Warehouse Act.

The Agricultural Marketing Service is hereby amending the Regulations for Dry Bean Warehouses to grant inspectors' licenses under the U.S. Warehouse Act to applicants who show satisfactory evidence that they hold an effective license under the Agricultural Marketing Act of 1946 and to exempt such inspectors from payment of the specified fee of $6. These changes follow the precedent set for U.S. Grain Standards Act inspectors under existing regulations. No prior notices or public procedures are being given because they would be impractical, unnecessary and contrary to the public interest and because the amended regulation grants an exemption and relieves a former restriction.

Said regulations therefore are amended to read:

§ 106.55 Warehouse licenses fees.

There shall be charged and collected a fee of $20 for each original warehouseman's license applied for by a warehouseman, and a fee of $6 for each license issued to an inspector or weigher except that no fee shall be charged for issuance of a license to an inspector who holds an unsuspended and unrevoked license under the Agricultural Marketing Act of 1946 and regulations thereunder to inspect and grade any beans and to certificate the grade thereof.

• • • • •

Paragraph (e) is added and will read:

§ 106.59 Inspectors and weighers applications.

• • • • •

(e) In lieu of compliance with the requirements of paragraph (b) of this section, the license applied for may be granted whenever such applicant furnishes satisfactory evidence that he holds an effective license under the Agricultural Marketing Act of 1946 and regulations thereunder, to inspect and grade such beans and to certificate the grade thereof.

• • • • •

These amendments shall become effective on February 12, 1975.

Done at Washington, D.C., February 6, 1975.

JOHN C. BLUM,
Associate Administrator.

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 726—BURLEY TOBACCO

Subpart—Proclamations, Determinations and Announcements of National Marketing Quotas and Referendum Results

BASIS AND PURPOSE

Correction

In FR Doc. 75-2941 in the issue for Friday, January 31, 1975, appearing at page 4633, make the following changes:

1. On page 4633, in the third column, the fifth paragraph should read as follows:

Section 726.11 is revised to read as follows:

DETERMINATIONS AND ANNOUNCEMENTS—1973–74 MARKETING YEAR

§ 726.11 Burley tobacco.

2. On page 4633, the last line of the third column should read "year beginning October 1, 1975, is hereby"

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 981—ALMONDS GROWN IN CALIFORNIA

Administrative Rules and Regulations; Suspension of Certain Provisions

Notice of a proposal to suspend the operation of subparagraphs (5) and (7) of § 981.441(d) of the administrative rules and regulations (Subpart—Administrative Rules and Regulations: 7 CFR 981.441–981.482; 39 FR 23239; 39258; 40 FR 3005; 4416) for the 1974–75 crop year was published in the January 14, 1975, issue of the FEDERAL REGISTER (40 FR 2589). That crop year ends June 30, 1975.

The marketing agreement, as amended, and Order No. 981, as amended (7 CFR Part 981), regulate the handling of almonds grown in California (hereinafter referred to collectively as the "order"). The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposal was based on a unanimous recommendation of the Almond Control Board.

The notice afforded interested persons an opportunity to submit written data, views, or arguments with respect to the proposal; none were received.

Section 981.441(d)(5) allows a handler credit for his paid media advertising that promotes almonds and almond products through his own retail store. The credit, however, is limited to the percentage which his sales of almonds and

XUM
V40I30
FEB 12 75
XUM

almond products were to the total sales through the retail store in the previous crop year. Paragraph (d)(5) has been operative since July 1, 1974 (39 FR 23239). It now appears that the subparagraph will sharply reduce the credits some handlers formerly received for promoting almonds and almond products sold through their retail stores for more than anticipated at the time the regulation was made effective, and therefore may serve to reduce local promotions of almonds and almond products. Any reduction in the number of these promotions would be inconsistent with the intent of paragraph (d)(5). The Control Board has indicated that a thorough review of this matter is necessary before any changes in the provisions of paragraph (d)(5) can be proposed.

Section 981.441(d)(7) also has been operative since July 1, 1974. It allows a handler credit for his paid media advertising that promotes almonds and almond products through the handler's mail order offer which also mentions the handler's retail store selling almonds and almond products and the handler's catalog. Credit for that promotion expense is based, in part, on the percentage calculated for the handler pursuant to paragraph (d)(5). Since paid media advertising under paragraph (d)(7) must mention the handler's retail store selling almonds and almond products, and since suspension of paragraph (d)(5) affects the method of computing the credit allowable pursuant to paragraph (d)(7), it was also proposed that paragraph (d)(7) be suspended for the 1974–75 crop year.

Therefore, after consideration of all relevant matter presented, including that in the notice, the information and recommendation submitted by the Board, and other available information, it is found that to suspend the operation of paragraphs (d)(5) and (7) of § 981.441(d) of the administrative rules and regulations for the 1974–75 crop year will tend to effectuate the declared policy of the act.

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) and for making it effective at the time hereinafter provided in that: (1) This action relieves restrictions on handlers; (2) this action should be made effective as soon as possible so as to enable handlers to obtain maximum benefit from it; (3) handlers are aware of this action and require no advance preparation to comply therewith; and (4) no useful purpose would be served by postponing its effective time beyond that hereinafter provided.

It is therefore, ordered, That the operation of paragraphs (d)(5) and (7) of § 981.441 of the administrative rules and regulations (Subpart—Administrative Rules and Regulations; 7 CFR 981.441–981.482; 39 FR 23239; 39258; 40 FR 3005; 4416) be suspended for the 1974–75 crop year.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674))

Dated: February 6, 1975, to become effective February 14, 1975.

CHARLES R. BRADER,
Acting Director,
Fruit and Vegetable Division.

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER E—VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS, ORGANISMS AND VECTORS

PART 113—STANDARD REQUIREMENTS

Miscellaneous Amendments

Correction

In FR Doc. 74-30055, appearing at page 44712 in the issue for Friday, December 27, 1974, make the following changes:

On page 44721 in paragraph (d) of § 113.145, the reference to "(c)(1)" in line seven should read: "(d)(1)". Also on page 44721 in paragraph (d) of § 113.145 the reference to "(c)(1)" in line eight should read "(d)(1)".

Title 13—Business Credit and Assistance

CHAPTER III—ECONOMIC DEVELOPMENT ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 309—GENERAL REQUIREMENTS FOR FINANCIAL ASSISTANCE

Grant and Loan Program

Part 309 of Chapter III of Title 13 of the Code of Federal Regulations is hereby amended.

In that the material contained herein is a matter relating to the grant and loan program of the Economic Development Administration and because a delay in implementing these regulations would be contrary to the public interest, the relevant provision of the Administrative Procedure Act (5 U.S.C. 533) requiring notice of proposed rulemaking and opportunity for public participation are inapplicable.

The purpose of this amendment is to make a technical change concerning the employment of expediters.

1. Section 309.7 is revised by amending paragraph (a) to read as follows:

§ 309.7 Employment of expediters or administrative employees; compensation of persons engaged by or on behalf of applicants.

(a) No application or plan for financial assistance shall be approved by EDA under sections 101, 201, 202, 301, 302, 403, or 903 of the Act unless the applicant:

* * * * * * *

(Sec. 701, Pub. L. 89-136 (August 26, 1965); 42 U.S.C. 3211; 79 Stat. 570 and Department of Commerce Organization Order 10-4, April 1, 1970 (35 FR 5970))

Effective date: This amendment becomes effective on March 7, 1975.

Dated: February 5, 1975.

D. JEFF CAHILL,
Acting Assistant Secretary for Economic Development.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 82 Stat. 146, 147; (15 U.S.C. 45, 1601-1605)) [Cease and desist order, American Roofing and Remodeling Co., Newark, Calif., Docket C-2577, Oct. 16, 1974]

In the matter of Richard A. Edson, an individual trading and doing business as American Roofing and Remodeling Company.

Consent order requiring a Newark, Calif., home improvement contracting firm, among other things to cease violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

It is ordered, That respondent Richard A. Edson, an individual trading and doing business as American Roofing and Remodeling Co., or under any other name or names, and respondent's agents, representatives, and employees, successors and assigns, directly or through any corporation, subsidiary, division or other device, in connection with any extension or arrangement of consumer credit or advertisement to aid, promote, or assist directly or indirectly any arrangement or extension of consumer credit, as "consumer credit" and "advertisement" are defined in Regulation Z (12 CFR 226) of the Truth in Lending Act (Pub. L. 90-321 (15 U.S.C. 1601 et seq)), do forthwith cease and desist from:

1. Failing to disclose the date on which the finance charge begins to accrue when different from the date of the transaction, as required by § 226.8(b)(1) of Regulation Z.

2. Failing to disclose the term "annual percentage rate", using that term, in credit transactions where finance charges are imposed, as required by § 226.6(b)(2) of Regulation Z.

3. Failing to disclose the sum of all payments required, and describe that sum as the "total of payments," as required by § 226.8(b)(3) of Regulation Z.

4. Failing to provide a description of the type of any security interest held or to be retained or acquired by the creditor in connection with the transaction, as required by § 226.8(b)(5) of Regulation Z.

5. Failing to identify the method of computing any unearned portion of the finance charge in the event of pre-payment of the obligation, as required by § 226.8(b)(7) of Regulation Z.

6. Failing to use the term "cash price", as defined in § 226.2(i) of Regulation Z, to describe the purchase price of the transaction, as required by § 226.8(c)(1) of Regulation Z.

7. Failing to use the term "cash downpayment" to describe the downpayment in money made in connection with the transaction, as required by § 226.8(c)(2) of Regulation Z.

8. Failing to use the term "unpaid balance of cash price" to describe the difference between the cash price and the total downpayment, as required by § 226.8(c)(3) of Regulation Z.

9. Failing to disclose all other charges, individually itemized, which are included in the amount financed but which are not part of the finance charge, as required by § 226.8(c)(4) of Regulation Z.

10. Failing to disclose the sum of the unpaid balance of cash price and all other charges and describe that sum as the "unpaid balance", as required by § 226.8(c)(5) of Regulation Z.

11. Failing to use the term "amount financed" to describe the amount of credit extended as required by § 226.8(c)(7) of Regulation Z.

12. Failing to disclose the "finance charge", using that term, as required by § 226.8(c)(8)(i) of Regulation Z.

13. Failing to disclose the sum of the cash price, all charges which are not included in the amount financed but which are not a part of the finance charge, and describe that sum as the "deferred payment price," as required by § 226.8(c)(8)(ii) of Regulation Z.

14. Failing, in any transaction in which respondent retains or acquired a security interest in real property which is used or is expected to be used as the principal residence of the customer, to provide each customer with notice of the right to rescind in the manner and form specified in §§ 226.9(b) and 226.9(f) of Regulation Z, prior to consummation of the transaction.

15. Failing in any consumer credit transaction or advertisement to make all disclosures determined in accordance with §§ 226.4 and 226.5 of Regulation Z, at the time and in the manner, form, and amount required by §§ 226.6, 226.8, 226.9, and 226.10 of Regulation Z.

It is further ordered, That respondent notify the Commission at least thirty (30) days prior to any proposed change in his business organization such as dissolution, assignment, incorporation, partnership, sale or any other change which may affect compliance obligations arising out of this order.

It is further ordered, That respondent deliver a copy of this order to cease and desist to each of his operating divisions and to all present and future personnel of respondent engaged in the consummation of any extension of consumer credit, and that respondent secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business address or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the respondent herein within sixty (60) days after service upon him of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which he has complied with this order.

The Decision and Order was issued by the Commission, October 16, 1974.

CHARLES A. TOBIN,
Secretary.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended (15 U.S.C. 45)) [Cease and desist order, Union Carbide Corporation, New York, N.Y., Docket C-2557, Oct. 4, 1974]

In the matter of Union Carbide Corporation, a corporation. Consent order requiring a New York City formulator and distributor of carbaryl insecticide, among other things to cease claiming that its agricultural insecticides are absolutely safe to use or absolutely safe to man or the environment. Further, respondent must place in all promotional material expressing or implying safety claims about agricultural insecticides, a statement reminding users that all pesticides are harmful if misused, and that they should only be used as directed.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

I. *It is ordered,* That respondent, Union Carbide Corporation, a corporation, its successors and assigns and respondent's officers, representatives, agents, and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, or sale or distribution of any insecticide product with precautionary labeling which contains any active insecticidal ingredient(s) presently marketed by respondent or currently being field tested by respondent and which is intended for use by custom applicators and commercial growers to protect animals or food, forage, field or fiber crops by virtue of the capacity of its active ingredient(s) to kill insects (sometimes referred to hereinafter as "such products"), do forthwith cease and desist from:

A. Representing, directly or by implication, by print or broadcast advertising, by other promotional material, or by sales representatives' oral statements, that such products are absolutely or unqualifiedly safe, non-toxic or free of hazard for any use registered under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended (hereinafter FIFRA) or any other approved use based upon evidence filed in connection with registration under FIFRA.

B. Representing, directly or by implication, by print or broadcast advertising or by other promotional material, that such products are qualifiedly safe, non-toxic or free of hazard for any use registered under FIFRA or any other approved use based upon evidence filed in connection with registration under FIFRA; *Provided however,* That factual statements about such products regarding any use registered under FIFRA, any other approved use based upon evidence filed under FIFRA, the level of hazard or toxicity to products or species treated in accordance with such use(s) or residues resulting from such use(s) shall not be prohibited if:

(1) Respondent prominently and in close conjunction thereto, includes a statement (except in broadcast advertisements not more than 30 seconds in length) denoting the existence of any

specific caution or category thereof, other than directions for use (e.g., "Do not apply within 7 days of harvest"), which appears on such product's labels, including but not limited to limitations on application due to regional or climatic variations; restrictions on subsequent use of treated crops, animals, or lands; and limitations due to consequent injury of specific species, e.g., crop(s), animal(s), fish, bird(s), or beneficial insect(s); where such specific caution is relevant and material and without notice of which said factual statements would be untrue or misleading; and

(2) At the time of such representations, (1) such statements do not differ in substance from claims accepted in connection with registration under FIFRA, or (2) in the case of other statements not currently rejected as unsubstantiated in connection with registration under FIFRA, such other statements are substantiated by competent scientific tests or other objective materials which provide a reasonable basis for the representation(s) made, and the substantiation materials are either (i) available for public inspection or (ii) otherwise available to the FTC to determine compliance with this Order; and

(3) Such factual statements do not use the word "safe," or any form thereof.

C. Representing, directly or by implication, by print or broadcast advertising or by other promotional material, that such products are relatively or comparatively safe, less toxic or freer of hazard, for any use registered under FIFRA, or any other approved use based upon evidence filed in connection with registration under FIFRA: *Provided however*, That comparative factual statements about such products regarding any use registered under FIFRA, any other approved use based upon evidence filed under FIFRA, the level of hazard or toxicity to products or species treated in accordance with such use(s) or residues resulting from such use(s) shall not be prohibited if:

(1) Such factual statements compare the promoted insecticide with a specifically identifiable insecticide product, product form, or product group; and

(2) Respondent prominently and in close conjunction thereto, includes a statement (except in broadcast advertisements not more than 30 seconds in length) denoting the existence of any specific caution or category thereof, other than directions for use (e.g., "Do not apply within 7 days of harvest"), which appears on such product's labels, including but not limited to limitations on application due to regional or climatic variations; restrictions on subsequent use of treated crops, animals, or lands; and limitations due to consequent injury of specific species, e.g., crop(s), animal(s), fish, bird(s), or beneficial insect(s); where such specific caution is relevant and material and without notice of which said factual statements would be untrue or misleading; and

(3) At the time of such representations, (1) such statements do not differ in substance from claims accepted in connection with registration under FIFRA, or (2) in the case of other statements not currently rejected as unsubstantiated in connection with registration under FIFRA, such other statements are substantiated by competent scientific tests or other objective materials which provide a reasonable basis for the representation(s) made, and the substantiation materials are either (i) available for public inspection or (ii) otherwise available to the FTC to determine compliance with this Order; and

(4) Such factual statements do not use the word "safe," or any form thereof.

II. With respect to representations not covered by the provisions of section I of this Order, *It is ordered*, That Union Carbide Corporation, a corporation, its successors and assigns and respondent's officers, representatives, agents, and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, or sale or distribution of such products, do forthwith cease and desist from:

A. Representing, directly or by implication, by print or broadcast advertising, by other promotional material, or by sales representatives' oral statements, that such products are absolutely safe, nontoxic or free of hazard to human beings, warm-blooded animals, birds, fish, beneficial insects, or the environment:

B. Representing, directly or by implication, by print or broadcast advertising or by other promotional material, that such products are qualifiedly safe, nontoxic or free of hazard to human beings, warm-blooded animals, birds, fish, beneficial insects, or the environment; *Provided however*, That factual statements which (i) describe physical, chemical, biological or toxicological characteristics of the promoted insecticide, or (ii) discuss the aforesaid characteristics and their effects on the environment, human beings, warm-blooded animals, fish, birds, or beneficial insects shall not be prohibited if:

(1) The label(s) for such product(s) contains no relevant and required general or specific warning or caution regarding such characteristics or any effect caused by such characteristics; *Provided*, That nothing in this subsection shall prohibit:

(a) The dissemination of instructions for the proper use of such product(s); or

(b) Factual statements which reproduce or discuss the substance of or reason(s) for any statement, warning or caution or direction for use found on the label of the promoted product(s) and are consistent with such statements, warnings, cautions, or directions for use; or

(c) Factual statements regarding such characteristics or characteristics and their effects of insecticides in other than toxicity category I or toxicity category II; *Provided further*, that factual statements regarding the effects of any such characteristics, without an accompanying description of such characteristics, shall not be prohibited if: (i) the label(s) for such product(s) contains no relevant and required general or specific warning or caution regarding such characteristic(s) or effect(s) and (ii) the causal relationship between such characteristic(s) and the described effect(s) has not been substantiated by competent scientific tests or other objective materials known, or which through the exercise of reasonable diligence should be known, to respondent; and

(2) Such factual statements are true and not misleading under normal circumstances and conditions under which the product could be expected to be used, *Provided further*, That, if, circumstances and conditions of normal use exist in which said factual statements are untrue or misleading, respondent must describe, prominently and in close conjunction with said factual statements, specific circumstances and conditions for use in which said factual statements are true and not misleading; and

(3) At the time of such representations, (1) such statements do not differ in substance from claims accepted in connection with registration under FIFRA, or (2) in the case of other statements not currently rejected as unsubstantiated in connection with registration under FIFRA, such other statements are substantiated by competent scientific tests or other objective materials which provide a reasonable basis for the representation(s) made, and the substantiation materials are either (i) available for public inspection or (ii) otherwise available to the FTC to determine compliance with this Order; and

(4) Respondent discloses, prominently and in close conjunction with any such factual statements concerning human safety (except in broadcast advertisements not more than 30 seconds in length), any toxicological characteristics relating to human safety which are relevant and material and without the disclosure of which said factual statements would be untrue or misleading; and

(5) Respondent discloses, prominently and in close conjunction with any other such factual statements (except in broadcast advertisements not more than 30 seconds in length), any hazardous collateral effects which are relevant and material and without the disclosure of which said factual statements would be untrue or misleading; and

(6) Such factual statements do not use the word "safe," or any form thereof.

C. Representing, directly or by implication, by print or broadcast advertising or by other promotional material, that such products are relatively or comparatively more safe, less toxic or freer of hazard to human beings, warm-blooded animals, birds, fish, beneficial insects, or the environment than any other insecticide product(s); *Provided however*, That comparative factual statements which (i) describe physical, chemical, biological or toxicological characteristics of the promoted insecticide or (ii) in the case of insecticides in toxicity category I or toxicity category II, discuss the aforesaid characteristics and their effect on the environment, human beings, warm-blooded animals, fish, birds, or beneficial insects or (iii) in the case of insecticides in other than toxicity category I or toxicity category II, discuss the effect of such products on the environment, human beings, warm-blooded animals, fish, birds, or beneficial insects shall not be prohibited if:

(1) Such factual statements compare the promoted insecticide with a specifically identifiable insecticide product, product form, or product group; and

(2) Such factual statements are true and not misleading under normal circumstances and conditions under which the product could be expected to be used, *Provided further*, That if circumstances and conditions of normal use exist in which said factual statements are untrue or misleading, respondent must describe, prominently and in close conjunction with said factual statements, specific circumstances and conditions of use in which said factual statements are true and not misleading; and

(3) At the time of such representations, (1) such statements do not differ in substance from claims accepted in connection with registration under FIFRA, or (2) in the case of other statements not currently rejected as unsubstantiated in connection with registration under FIFRA, such other statements are substantiated by competent scientific tests or other objective materials which provide a reasonable basis for the representation(s) made, and the substantiation materials are either (i) available for public inspection or (ii) otherwise available to the FTC to determine compliance with this Order; and

(4) Respondent discloses, prominently and in close conjunction with any such factual statements concerning human safety (except in broadcast advertisements not more than 30 seconds in length), any toxicological characteristics relating to human safety in regard to which the promoted product is the more toxic and which are relevant and material and without the disclosure of which said factual statements would be untrue or misleading; and

(5) Respondent discloses, prominently and in close conjunction with any other such factual statement (except in broadcast advertisements not more than 30 seconds in length), any hazardous collateral effects in regard to which the promoted product is the more hazardous and which are relevant and material and without the disclosure of which said factual statements would be untrue or misleading; and

(6) Such factual statements do not use the word "safe," or any form thereof.

III. *It is further ordered*, That respondent Union Carbide Corporation, a corporation, its successors and assigns and respondent's officers, representatives, agents, and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, or sale or distribution of such products do forthwith cease and desist from making any representations, directly or by implication, or omitting any representations, by print or broadcast advertising or by other promotional material, which contradict, are inconsistent with, or detract from the effectiveness of any warning, caution or direction for use required to be set forth on the label of such product. *Provided*, That if any representations directly or by implication, made by respondent, or the omission of representations by respondent, are in accord with the provisions of Sections I, II, and IV of this Order, they shall be considered as being in compliance with this Section of the Order.

IV. *It is further ordered*, That respondent, Union Carbide Corporation, a corporation, its successors and assigns and respondent's officers, representatives, agents, and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, or sale or distribution of such products do forthwith cease and desist from disseminating or causing the dissemination of:

A. Any print advertising or print promotional material which contains claims covered by Section I or II for any such product unless it clearly and conspicuously includes in such print advertisement or print promotional material the following statement:

Stop! All pesticides can be harmful to health and the environment if misused. Read the label carefully and use only as directed.

B. Any broadcast advertisement more than 30 seconds in length for any such product which contains claims covered by Sections I or II unless it clearly and conspicuously includes the following statement:

All pesticides can be harmful to health and the environment if misused. Read the label carefully and use only as directed.

C. Any broadcast advertisement not more than 30 seconds in length for any such product which contains claims covered by Sections I or II unless it clearly and conspicuously includes the following statement:

All pesticides can be harmful. Read the label. Use as directed.

Provided, That in television advertisements not more than 10 seconds in length which contain no direct representations concerning product safety, the requirements of the term "clearly and conspicuously" shall in all cases be met by including the above statement in the video portion of the advertisement.

V. Nothing in this Order shall be construed to apply to scientific articles published in recognized scientific or agricultural journals or government publications, or reprints thereof, or representations (other than print advertising or other promotional material) before public or governmental forums such as public hearings, scientific meetings, or to governmental agencies, agents, or employees responsible for the regulation or dissemination of information concerning insecticide products covered by this Order.

VI. *It is further ordered*, That nothing in this Order shall prohibit the dissemination of product labels (as defined by section 2(p)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended), or reproductions thereof.

VII. For purposes of determining compliance with sections I.B.(1), I.C.(2), II.B.(1), and III of this Order, the term "label" shall include all written, printed, or graphic matter on, or attached to, an insecticide product subject to this Order. In the event general or specific warnings or cautions or directions for use required pursuant to registration under FIFRA do not appear on the label as defined in the preceding sentence, the term "label" shall also include the other "labeling" as defined by section 2(p)(2) of FIFRA where said required general or specific warnings or cautions or directions for use do in fact appear. It is recognized that other matter, typically promotional material, will on occasion constitute "labeling" as defined by section 2(p)(2) of FIFRA. Although such material may be subject to various Sections of this Order, it shall not be deemed to be "label" as used in sections I.B.(1), I.C.(2), II.B.(1), and III of this Order.

VIII. *It is further ordered*, That for purposes of Section II.B. and section II.C. of this Order the terms "toxicity category I" and "toxicity category II" shall mean respectively the most toxic and next most toxic categories defined by Environmental Protection Agency Interpretation 18 of the regulations for the enforcement of FIFRA, 40 CFR 162.116 (b), in effect on April 1, 1973.

IX. *It is further ordered*, That this Order shall become effective upon service, except that sections I.B., I.C., II.B., II.C., and III of this Order shall become effective at such time as and to the extent that a Trade Regulation Rule covering the advertising and promotion of products subject to this Order, and containing terms at least as onerous as this Order, becomes final and effective. *Provided*, That at all times subsequent to the date this Order is served, claims which would be governed by Sections I.B., I.C., II.B., or II.C., if said sections were in effect, shall be deemed to be "claims covered by sections I or II" for purposes of section IV of this Order.

X. *It is further ordered*, That should the Federal Trade Commission promulgate a Trade Regulation Rule or Industry Guide governing the advertising or promotion of products subject to this Order, then any pertinent less comprehensive or less restrictive provisions of such Rule or Guide shall automatically replace any comparable provisions set forth herein which are effective on the date that such Rule or Guide becomes effective.

XI. *It is further ordered*, That the respondent forthwith distribute a copy of this Order to each of its operating divisions engaged in the manufacture, sale, advertising, promotion or distribution of products subject to this Order, and to all present and future employees of respondent responsible for the advertising, promotion, distribution or sale of such products.

XII. *It is further ordered*, That the respondent notify the Commission at

XUM
V40-30 FEB 12 75 XUM

least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale, resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other changes in the corporation which may affect compliance obligations arising out of this Order.

XIII. *It is further ordered,* That respondent corporation shall, within sixty (60) days after service upon it of this Order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this Order, except that such report shall in the case of sections I.B., I.C., II.B., II.C., and III be filed within sixty (60) days after their becoming effective against respondent corporation.

The Decision and Order was issued by the Commission, October 4, 1974.

CHARLES A. TOBIN,
Secretary.

[Cease and desist order, Turkey Mountain Estates, Inc., et al, Shell Knob, Mo., Docket C-2570, Oct. 8, 1974.]

In the matter of Turkey Mountain Estates, Inc., a corporation; Central Crossing Developers, Inc., a corporation; Lakeside Investment Company, Inc., a corporation; Tomahawk Developers, Inc., a corporation; and E. C. Shafer, individually and as an officer of said corporations; and J. B. Gum, individually and as an officer of said corporations, with the exception of Central Crossing Developers, Inc.

Consent order requiring four affiliated Shell Knob, Mo., developers of recreational or retirement home sites, among other things to cease using bait advertising and other deceptive selling practices, and violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

I. *It is ordered,* That respondents Turkey Mountain Estates, Inc., a corporation; Central Crossing Developers, Inc., a corporation; Lakeside Investment Company, Inc., a corporation; and Tomahawk Developers, Inc., a corporation; and their successors and assigns and their officers and E. C. Shafer, individually and as an officer of said corporations; and J. B. Gum, individually and as an officer of said corporations, with the exception of Central Crossing Developers, Inc., respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device in connection with the extension of consumer credit or advertisements to aid, promote or assist, directly or indirectly, in the extension of consumer credit, as "consumer credit" and "advertisement" are defined in Regulation Z (12 CFR 226) of the Truth in Lending Act (15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Failing to accurately disclose the date on which the finance charge begins to accrue, as required by § 226.8(b)(1) of Regulation Z.

2. Failing to disclose the "total of payments", as required by § 226.8(b)(3) of Regulation Z.

3. Failing to accurately disclose the number, amount and due dates or periods of payment scheduled to repay the indebtedness, as required by § 226.8(b)(3) of Regulation Z.

4. Failing to state the "cash price", and failing to state the "cash downpayment", and failing to state the "unpaid balance of cash price", as required by §§ 226.8(c)(1), 226.8(c)(2), and 226.8(c)(3) of Regulation Z.

5. Failing to use the term "unpaid balance of cash price" to describe the difference between cash price and the total downpayment, and failing to use the terms "cash price" and "cash downpayment", as required by §§ 226.8(c)(1), 226.8(c)(2), and 226.8(c)(3).

6. Failing to disclose the "finance charge", as required by § 226.8(c)(8)(i) of Regulation Z.

7. Failing to disclose the "deferred payment price", as required by § 226.8(c)(8)(ii) of Regulation Z.

8. Failing to use the term "deferred payment price", as required by § 226.8(c)(8)(ii) of Regulation Z.

9. Failing, in any transaction arising in the future in which a customer has the right to rescind, as provided in § 226.9 of Regulation Z, to provide the customer with the notice of right to rescind, in the form and manner provided in that Section prior to consummation of the transaction, and in connection therewith to provide a question seeking a statement in writing, on a separate form, designating whether or not said customer expects to use the lot as his principal place of residence, at that time or in the future.

10. Failing to describe the amount on any "balloon payment" and failing to use the term "balloon payment", as required by § 226.8(b)(3) of Regulation Z.

11. Failing to disclose the identity of the creditor on the instrument or statement on which required disclosures are made, as required by Section 226.8(a) of Regulation Z.

12. Failing to disclose the annual percentage rate and the period in which payment must be made to avoid late charges on any periodic statement and failing to transmit such a statement in a form which the customer may retain, as required by § 226.8(n) of Regulation Z.

13. Failing to disclose discount for prompt payment and related disclosures, as required by § 226.8(o) of Regulation Z.

14. Failing in any consumer credit transaction or advertising to make all disclosures determined in accordance with §§ 226.4 and 226.5 of Regulation Z, at the time and in the manner, form and amount required by §§ 226.6, 226.8, 226.9 and 226.10 of Regulation Z.

15. Stating in any advertisement the amount of monthly installment payments which can be arranged in connection with a consumer credit transaction, without also stating all of the following items, in terminology prescribed under § 226.8 of Regulation Z, as required by § 226.10(d)(2) thereof.

(i) The cash price;

(ii) The amount of the downpayment required or that no downpayment is required, as applicable;

(iii) The number, amount and due dates or periods of payments scheduled to repay the indebtedness if the credit is extended;

(iv) The amount of the finance charge expressed as an annual percentage rate; and

(v) The deferred payment price.

II. *It is ordered,* That respondents Turkey Mountain Estates, Inc., a corporation; Central Crossing Developers, Inc., a corporation; Lakeside Investment Company, Inc., a corporation; and Tomahawk Developers, Inc., a corporation, and their successors and assigns and their officers and E. C. Shafer individually and as an officer of said corporations; and J. B. Gum, individually and as an officer of said corporations, with the exception of Central Crossing Developers, Inc., respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device in connection with the advertising, offering for sale, sale or distribution of recreational or retirement home sites or any other product in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using any advertising, sales plan or procedure involving the use of false, deceptive or misleading statements or representations designed to obtain leads or prospects for the sale of other real property.

2. Discouraging the purchase of, disparaging in any manner or refusing to sell, any real property advertised by respondents.

3. Advertising or offering any property or products for sale for the purpose of obtaining leads or prospects for the sale of different property or products unless the respondents maintain an adequate and readily available stock of said property or products.

4. Representing, directly or indirectly, that any real property or services are offered for sale when such is not a bona fide offer to sell said real property or services.

5. Representing, directly or indirectly, that an advertising allowance voucher or discount is offered on the purchase of any real property unless such an allowance is actually a reduction in the advertising cost of the respondents.

6. Representing, directly or indirectly, or by implication, in any form of advertisement that a prospective purchaser may purchase an "advertising lot", or other section of land at a discounted or reduced price, unless in immediate connection with such representations respondents clearly and conspicuously disclose the improvements or benefits included in the price of such lots, or the lack thereof, if such improvements or benefits differ in any respect with the improvements or benefits which are advertised in connection with the remainder of the lots in the land developments.

7. Misrepresenting, directly or indirectly, or by implication, the purpose or effect of any provision in the contract for sale, or other forms, completed at the time of sale or thereafter, whereby the purchasers are required to declare their intention as to establishing a permanent or principal place of residence on the land.

It is further ordered, That respondents deliver a copy of this order to cease and desist to each operating division and to all present and future personnel of respondents engaged in the consummation of any extension of consumer credit or sale of any real property, or any aspect of preparation, creation or placing of advertising, and that respondents secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondents such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporations which may affect compliance obligations arising out of the order.

It is further ordered, That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which they are engaged as well as a description of their duties and responsibilities.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

Decision and order was issued by the Commission Oct. 8, 1974.

CHARLES A. TOBIN,
Secretary.

Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements;* 13.1852–75 Truth in Lending Act; § 13.1905 *Terms and conditions;* 13.1905–60 Truth in Lending Act.

(Sec. 6, Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 82 Stat. 146, 147; (15 U.S.C. 45, 1601–1605))

[Cease and desist order, Authorized TV Inc., et al., Seattle, Wash., Docket C-2584, Oct. 22, 1974]

In the matter of Authorized TV, Inc., a corporation doing business as Schoenfeld's Muntz TV and as Stereo Mart, and Alvin E. Schoenfeld, individually and as an officer of said corporation, and Frank A. Besancon, an individual doing business as TV Mart North.

Consent order requiring Seattle, Wash., retailers of television sets, record players and stereophonic components, and supplies among other things to cease violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

It is ordered, That respondents Authorized TV, Inc., a corporation doing business as Schoenfeld's Muntz TV and as Stereo Mart, or under any other name or names, and its officers, and Alvin E. Schoenfeld, individually and as an officer of said corporation, and Frank A. Besancon, an individual doing business as TV Mart North, or under any other name or names, and respondents' successors, assigns, agents, representatives and employees, directly or through any corporation, subsidiary, division, or other device, in connection with any extension or arrangement for the extension of consumer credit, or any advertisement to aid, promote or assist directly or indirectly any extension of consumer credit, as "advertisement" and "consumer credit" are defined in Regulation Z (12 CFR 226) of the Truth in Lending Act (Pub. L. 90–321, (15 U.S.C. 1601 et seq.)), do forthwith cease and desist from:

1. Stating, in any such advertisement, the rate of any finance charge unless the rate of the finance charge is expressed as an "annual percentage rate," using that term, as required by § 226.10(d)(1) of Regulation Z.

2. Representing in any such advertisement, directly or by implication, the amount of the downpayment required or that no downpayment is required, the amount of any installment payment, the dollar amount of any finance charge, the number of installments or the period of repayment, or that there is no charge for credit, unless all of the following items are stated in terminology prescribed under § 226.8 of Regulation Z, as required by § 226.10(d)(2) of Regulation Z:

a. The cash price;

b. The amount of the downpayment required or that no downpayment is required, as applicable;

c. The number, amount, and due dates or period of payments scheduled to repay the indebtedness if the credit is extended;

d. The amount of the finance charge expressed as an annual percentage rate; and

e. The deferred payment price.

3. Failing, in any consumer credit transaction or advertisement, to make all disclosures, determined in accordance with §§ 226.4 and 226.5 of Regulation Z, at the time and in the manner, form and amount required by §§ 226.6, 226.7, 226.8, 226.9, and 226.10 of Regulation Z.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in the consummation of any extension of consumer

[1] Copies of the complaint and decision and order filed with the original document.

[1] Copies of the complaint and decision and order filed with the original document.

credit or in any aspect of the preparation, creation or placing of advertising, to all persons engaged in reviewing the legal sufficiency of advertising, and to all present and future agencies engaged in preparation, creation or placing of advertising on behalf of respondents, and that respondents secure from each such person and agency a signed statement acknowledging receipt of said order.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergency of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which they are engaged, as well as a description of their duties and responsibilities.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Decision and Order issued by the Commission Oct. 22, 1974.

CHARLES A. TOBIN,
Secretary.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2–5, 54 Stat. 1128–1130, 72 Stat. 1717 (15 U.S.C. 45, 70, 68)) [Cease and desist order, C. Itoh & Co. (America) Inc. New York City, Docket C–2586, Oct. 22, 1974]

In the matter of C. Itoh & Co. (America) Inc., a corporation. Consent order requiring a New York City importer and distributor of fabrics, among other things to cease misbranding and falsely labeling its products and misrepresenting the fiber content of its goods. Further, respondent is required to bond its imported wool products for twice their value, with the bond subject to forfeiture should applicable legal requirements not be complied with.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:[1]

It is ordered, That respondent, C. Itoh & Co. (America) Inc., a corporation, its successors and assigns, and its officers, and respondent's representatives, agents and employees, directly or through any corporation, subsidiary, division or any other device, in connection with the introduction, sale, advertising or offering for sale, in commerce, or the transportation or causing to be transported in commerce, as the importation into the United States of any textile fiber product; or in connection with the sale, offering for sale, advertising, delivery, transportation, or causing to be transported, of any textile fiber product which has been advertised or offered for sale, in commerce; or in connection with the sale, offering for sale, advertising, delivery, transportation or causing to be transported, after shipment in commerce, of any textile fiber product, as the terms "commerce" and "textile fiber product" are defined in the Textile Fiber Products Identification Act, do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling, invoicing, advertising or otherwise identifying such products as to the name or amount of the constituent fibers contained therein.

It is further ordered, That respondent, C. Itoh & Co. (America) Inc., a corporation, its successors and assigns, and its officers, and respondent's representatives, agents and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the introduction into commerce, or the offering for sale, sale, transportation, distribution, delivery for shipment or shipment, in commerce of wool products, as "commerce" and "wool product" are defined in the Wool Products Labeling Act of 1939, do forthwith cease and desist from misbranding such products by:

1. Falsely and deceptively stamping, tagging, labeling, or otherwise identifying such products as to the character or amount of the constituent fibers contained therein.

2. Failing to securely affix to or place on, each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner each element of information required to be disclosed by section 4(a)(2) of the Wool Products Labeling Act of 1939.

It is further ordered, That respondent, C. Itoh & Co. (America) Inc., a corporation, its successors and assigns, and its officers, and respondent's representatives, agents, and employees, directly or through any corporation, subsidiary, division, or other device, do forthwith cease and desist from importing or participating in the importation of wool products into the United States except upon filing bond with the Secretary of the Treasury in a sum double the value of said wool products and any duty thereon, conditioned upon compliance with the provisions of the Wood Products Labeling Act of 1939.

It is further ordered, That respondent, C. Itoh & Co. (America) Inc., a corporation, and its officers, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the advertising, offering for sale, sale or distribution of fabrics or other products, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from misrepresenting the amount of constituent fibers contained in such products through stamping, tagging, labeling, advertising, or otherwise identifying such products as to the character and amount of constituent fibers contained therein.

It is further ordered, That respondent notify, by delivery of a copy of this order by registered mail, each of its customers that purchased the products which gave rise to this complaint of the fact that such products were misbranded.

It is further ordered, That respondent shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That respondent notify the Commission at least thirty (30) days prior to any proposed change in respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist contained herein.

[1] Copies of the complaint and decision and order filed with the original document.

Decision and order issued by the Commission October 22, 1974.

Title 17—Commodity and Securities Exchange

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release Nos. 33–5558, 34–11198, AS–169]

LIFO INVENTORY METHOD OF ACCOUNTING

Disclosure Problems Relating to Its Adoption

In the matter of Part 211 Interpretative Releases Relating to Accounting Matters (Accounting Series Releases), Part 231 Interpretative Releases Relating to the Securities Act of 1933 and General Rules and Regulations Thereunder and Part 241 Interpretative Releases Relating to the Securities Exchange Act of 1934 and General Rules and Regulations thereunder.

The Commission today authorized the issuance of the following exchange of correspondence between its Chief Accountant and the Internal Revenue Service relating to discussions held in regard to financial disclosure problems arising from the adoption of LIFO accounting by many registrants and the book-tax conformity requirements of the Internal Revenue Code.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

JANUARY 23, 1975.

JANUARY 20, 1975.

MR. LAWRENCE B. GIBBS, *Assistant Commissioner (Technical), Internal Revenue Service, Room 3042, 1111 Constitution Avenue NW., Washington, D.C. 20224.*

DEAR MR. GIBBS: As we discussed, this letter sets forth my understanding of the solutions agreed upon to prevent possible conflicts between financial disclosure principles and Revenue Ruling 74–586.

The Commission's Accounting Series Release No. 159 requires a public company to include "Management's Discussion and Analysis of the Summary of Earnings" in filings with the Commission. The same analysis must be included in the annual report to stockholders, although its format may vary somewhat from that used in filings on Form 10–K or in registration statements. The purpose of requiring this analysis, which under the rules would include a statement explaining "changes in accounting principles or in the method of their application that have a material effect on net income as reported," is to provide investors with a summary in one place of the most significant elements of reported results.

In the case of companies which have changed to LIFO accounting for inventories, an explanation of the change and its effect is called for by Accounting Series Release No. 159. My understanding of our agreement on Accounting Series Release No. 159 reporting is that the Service would not terminate a LIFO election if the same language used in the financial statements footnote to disclose the effect of the change to LIFO is repeated in management's analysis of operations. This is true whether such analysis is included as a separate narrative or as a part of the president's letter. You are agreeable to this position because the change to LIFO would only be made where that method is preferable to the one previously used. Thus the description of the change would state the effect on income but would be written in a manner which conveys the message that a summary of operations using the LIFO method for the current year is more meaningful in understanding the company's results of operations.

A typical example relating to the impact on earnings might read as follows:

FOOTNOTE A.—The company has changed its method of accounting for inventories to Last-in, First-out (LIFO) method. This was done because the rapid increase in prices during the year would result in an overstatement of profits if use of the First-in, First-out (FIFO) method were continued since inventories sold were replaced at substantially higher prices. The effect on reported earnings for the year was a decrease of $XXX,-XXX, or $X.XX per share.

Excerpt from Management's Analysis of Summary of Earnings:

In order not to overstate reported profits as a result of inflation during the year, the company changed its method of accounting for inventory from First-in, First-out to Last-in, First-out. This was necessary because of the rapid increase in prices in 197X which caused inventories sold to be replaced at substantially higher prices. The effect of the change was to decrease reported earnings by $XXX,XXX, or $X.XX per share.

Your Rev. Proc. 73–37 has previously stated that a company which changed to LIFO may make any disclosure which is required by Accounting Principles Board Opinion No. 20 in its financial statements for the year of the change without causing the Service to terminate the LIFO election. I understand that consistent with this position and in recognition of new financial disclosure principles, the Service will amplify Rev. Proc. 73–37 to allow the disclosures required by Accounting Principles Board Opinion No. 28 and financial Accounting Standards Board Statement No. 3 in addition to the disclosure required in Accounting Series Release No. 159. The amplified Revenue Procedure also would provide that the above disclosures could be made in news releases, etc., in the year of election.

We believe that Rev. Proc. 73–37 amplified as discussed above will satisfactorily solve the problem of permitting necessary disclosures in the year in which a change to LIFO is made. The disclosures required to be made under our present rules and the other authoritative sources cited above are limited to the income effects of the specific changes made during the year and therefore would only cover any segment of an inventory for which a change was made. If part of the inventory was changed to LIFO in one year and another segment was changed in the next, the disclosures in the second year would only relate to the effect on overall earnings of the segment changed in that year and not to the effect of a different inventory method on the inventory previously changed to LIFO.

Rule 3–07 of Regulation S–X requires that the disclosure made in the year of change be repeated at any time the financial statements for that year are subsequently reported. Instructions to registration statements and annual reports filed with the Commission require a summary of operations which includes information or explanation of material significance, including accounting changes. Securities Exchange Act of 1934 Release No. 11079 requires that a five year summary of operations be included in the annual reports to shareholders. We understand that such a repetition of previously made disclosure will not cause conformity problems. Our rules and the relevant authoritative literature do not presently require that any disclosure be made of the effect of using an alternative calculation of cost of sales covering periods subsequent to the year in which the change to LIFO is made. We do encourage but do not require registrants to make disclosure of the proforma effect on income if the LIFO system had been used in the year prior to its adoption, but we understand that this disclosure would cause no conformity problems since the registrant was not using the LIFO method for tax purposes in such previous year.

We also considered Rev. Rul. 73–66 which was issued in part as a result of the 1972 amendments on Regulation S–X which require (in Rule 5–02–6(b)) that registrants using the LIFO method disclose "the excess of replacement or current cost over stated LIFO value" if material, either parenthetically in the balance sheet or in a note to the financial statements. The ruling presently provides that a footnote or parenthetical statement to the balance sheet could state the excess of FIFO over LIFO cost. We understand that the Service will amplify Rev. Rul. 73–66 so that the use of replacement or current cost (which normally would not differ significantly from FIFO) also would be permitted in this note or parenthetically in the financial statements.

Sincerely,

JOHN C. BURTON,
Chief Accountant.

DEPARTMENT OF THE TREASURY
INTERNAL REVENUE SERVICE
WASHINGTON, D.C. 20224

JANUARY 23, 1975.

MR. JOHN C. BURTON,
Chief Accountant,
Securities and Exchange Commission,
Washington, D.C. 20549.

DEAR MR. BURTON: I have received your letter dated January 20, 1975.

Your letter is consistent with my understanding and the position of the Internal Revenue Service, as set forth in Revenue Procedure 75–10, 1975–7 I.R.B. dated February 18, 1975, and Rev. Rul. 75–50, 1975–7 I.R.B., to be announced today in Technical Information Releases, copies of which are enclosed for your information.

It is also my understanding that the above mentioned letter and this letter are being published concurrently by the Securities and Exchange Commission and the Internal Revenue Service today.

Sincerely yours,

LAWRENCE B. GIBBS,
Assistant Commissioner (Technical).

Enclosures.

INTERPRETATIVE RELEASES

Natural Gas Reserve Estimates

In the Matter of Part 231 Interpretative Release Relating to the Securities Act of 1933 and General Rules and Regulations thereunder, Part 241 Interpretative Release Relating to the Securities Exchange Act of 1934 and General Rules and Regulations thereunder and Part 251 Interpretative Release Relating to the Public Utility Holding Company Act

XUM
V40130
FEB 1275
XUM

of 1935 and General Rules and Regulations thereunder.

In the interest of informing registrants and the investing public, the Securities and Exchange Commission has issued this release describing certain practices in processing filings under the Securities Act of 1933 (Securities Act) and Securities Exchange Act of 1934 (Exchange Act).

On June 14, 1974 the Commission issued Securities Act of 1933 Release No. 5504 (39 FR 27556) which described certain practices of the Division of Corporation Finance in connection with processing filings which include natural gas reserves. That release indicated that the Division would continue to follow its practice of submitting copies of prospectuses filed by registrants subject to the jurisdiction of the Federal Power Commission (FPC) to that agency for any comments it desired to make. The release also indicated that appropriate technical personnel, designated by the FPC, would be invited to attend conferences where supplemental natural gas reserve information was submitted to the Division in connection with its review of natural gas reserve estimates.

In furtherance of these practices, which it intends to continue, the Division has been authorized by the Commission to provide copies of letters of comments on filings which include natural gas reserve estimates and any written responses and communications in connection therewith to the FPC. The Commission's present rules[1] provide that such letters of comment and the responses thereto are non-public, although the Commission may determine to make them public. Accordingly, the letters of comment furnished to the FPC and any written responses and communications with respect thereto will be furnished to the FPC with the understanding that they will remain non-public unless and until the Commission determines otherwise.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

JANUARY 31, 1975.[2]

[FR Doc.75-3929 Filed 2-11-75;8:45 am]

[Securities Act Release No. 5560]

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

PART 239—FORMS PRESCRIBED UNDER THE SECURITIES ACT OF 1933

Exemption for Closely Held Issuers

The Securities and Exchange Commission today announced the adoption of Rule 240 (17 CFR 230.240) and related Form 240 (17 CFR 239.240) under the Securities Act of 1933 ("Act"), "Exemption of Certain Limited Offers and Sales by Closely Held Issuers," which provides an exemption from registration for limited offers and sales of small dollar amounts of securities by an issuer that before and after the transaction pursuant to the rule has a limited number (100) of beneficial owners of its securities. The purpose of the rule is to provide an exemption from the registration but not the anti-fraud or other provisions of the Act for offers and sales that take place in the raising of capital by small businesses where, because of the small size and the limited character of the offering, the public benefits of registration are too remote. The rule is available for issuers only; it is not available for resales of securities by affiliates of the issuer or other persons. Generally speaking, Form 240 is a notice to be filed not more than once in each calendar year with the Commission's Regional Office for the region in which the issuer's principal business operations are conducted reporting that a sale has been made in reliance on the rule. In connection with adoption of Rule 240 and Form 240, the Commission also adopted an amendment to Rule 144 (17 CFR 230.144) under the Act which specifies that securities sold pursuant to Rule 240 would be deemed to be "restricted securities" for the purpose of Rule 144 and could, therefore, be resold pursuant to its provisions.

The Commission proposed Rule 240, Form 240 and the amendment to Rule 144 for comment in June 1974 (Securities Act Release No. 5499, June 3, 1974) (39 FR 20609) and received approximately thirty letters of comment thereon. Most commentators supported the concept of the proposed rule but suggested certain modifications. The rule as adopted differs in several ways from that proposed. Among the revisions are the deletion of the prohibition on use of the rule by limited partnerships; the addition of a prohibition on use of the rule by investment companies registered or required to be registered under the Investment Company Act of 1940; the elimination of the limitation on the number of purchasers (but not the number of beneficial owners); the increase in the limitation on the number of beneficial owners from fifty to one hundred; the change in the period for calculating the aggregate amount that can be sold in reliance on the rule from a consecutive twelve month period to the twelve months preceding each sale; and the broadening of the exclusions in calculating such aggregate amount. These and other revisions from the proposed rule are discussed under the appropriate paragraph in the synopsis of the rule that follows. The Commission finds that these changes have already generally been the subject of comment or are technical in nature and that republication for comment is not required under the Administrative Procedure Act.

RULE 240 AND FORM 240

This release contains a general discussion of the background, purpose and general effect of the rule to assist in a better understanding of its provisions. A brief synopsis of each paragraph of the rule is also included. However, attention is directed to the rule itself for a more complete understanding.

BACKGROUND AND PURPOSE

Congress, in enacting the federal securities laws, created a continuous disclosure system designed to protect investors and to assure the maintenance of fair and honest securities markets. The Commission, in administering and implementing these laws, has sought to coordinate this disclosure system with the exemptive provisions provided by such laws. Rule 240 is a further effort in this direction.

The legislative history of the Securities Act of 1933 indicates that the main concern of Congress was to provide full and fair disclosure in connection with the offer and sale of securities. Congress recognized, however, that there were certain situations in which the protections afforded by the registration provisions of the Act were not necessary. Concerning those specified exemptions from the Act, the House Report stated that "The Act carefully exempts from its application certain types of • • • securities transactions where there is no practical need for its application or where the public benefits are too remote."[1]

Section 3(b) of the Act provides that the Commission may by rules, and subject to such terms and conditions as it may prescribe, "add any class of securities to the securities exempted as provided in this section (section 3 of the Act), if it finds that the enforcement of this title with respect to such securities is not necessary in the public interest and for the protection of investors by reason of the small amount involved or the limited character of the public offering." The Commission believes that offers and sales of securities by an issuer pursuant to the rule are of such limited character and of such small amount that enforcement of the registration provisions of the Act with respect to such transactions is not necessary in the public interest or for the protection of investors. Notwithstanding the exemption from registration, however, the anti-fraud provisions of the federal securities laws, and the state securities laws, continue to apply to such transactions.

GENERAL DESCRIPTION

In summary, the rule provides that offers and sales of securities of the issuer by the issuer are exempt from registration if all the conditions of the rule are met. These conditions impose limitations on the manner of offering, the number of beneficial owners and the aggregate sales price of securities of the issuer, and resales of the securities. Other conditions prohibit payments for solicitation of buyers or in connection with sales and require the filing of a notice of sales. The conditions are intended to assure that

[1] 17 CFR 200.80(c)(4). On January 27, 1975 the Commission announced proposals to repeal this subparagraph (c)(4) of rule 200.80 and to adopt a proposed Rule 17 CFR 200.83 to the fullest extent possible permitted by law to permit persons to request and obtain confidential treatment of information supplied to the Commission other than in formal filings. Securities Act Release No. 5561.

[1] H.R. Rep. No. 85, 73d Cong., 1st Sess. 5(1933).

the offering is one in which the dollar amount involved is small and the offering is limited in character.

The rule is only available to issuers of securities other than investment companies registered or required to register under the Investment Company Act of 1940 and is not available to affiliates of the issuer or other persons for sale of the issuer's securities. The rule provides an exemption for the issuer transaction only, not for the securities themselves. Persons who acquire securities from issuers in a transaction complying with the rule acquire securities that are unregistered and that are deemed to have the same status as if such securities were acquired in a transaction exempt from registration under section 4(2) of the Act; such securities can only be reoffered or resold if registered or, if available, pursuant to an exemption from the registration provisions of the Act such as section 4(1) of the Act or Rule 237 (17 CFR 230.237) thereunder. In this connection, the amendment to Rule 144 makes Rule 144 available for resales of securities acquired pursuant to Rule 240, provided that all the conditions of Rule 144 are met.

SYNOPSIS OF THE PROVISIONS OF RULE 240

Preliminary notes. The first preliminary note reminds issuers that Rule 240 provides an exemption from registration only, and not from the anti-fraud or other provisions of the federal securities laws. The second note reminds issuers that state law also applies to transactions under the rule and that the rule does not relieve the issuer from compliance with such law. A new third note has been added to make it clear that purported reliance on the rule is not an election and that the issuer can rely on any exemption that is otherwise available for the transaction. The fourth note makes it clear that the rule is available to issuers only and is a transactional exemption, and is not available for resales of securities. The fifth note restates the Commission's position as with respect to Rules 144, 146 (17 CFR 230.146) and 147 (17 CFR 230.147), that the rule is not available to any issuer with respect to any transactions which, although in technical compliance with the rule, are part of a plan or scheme to evade the registration provisions of the Act. For example, if an issuer liquidates and forms a new corporation for purposes of repeated use of the rule, the exemption provided by the rule would be unavailable. In such cases, registration pursuant to the Act is required.

A new sixth note outlines the relationship of offers and sales pursuant to the rule to offers and sales in reliance upon other exemptions. In determining the availability of such other exemptions, offers and sales pursuant to the rule must be given due consideration when applying the traditional integration guidelines set forth in Securities Act Release No. 4552 (27 FR 11316). For example, while a transaction may be exempt pursuant to Rule 240, the same transaction may be part of a larger issue of securities and affect, for example, the availability of an exemption under Regulation A, section 3(a)(11) or section 4(2) for other transactions which are part of such larger issue.

Definitions: securities of the issuer: Rule 240(a)(1). The term "securities of the issuer" is defined for purposes of the rule to mean all securities of the issuer and its affiliates. Thus, securities of all classes of the issuer, as well as securities of affiliated corporations or other entities, would be considered in applying the conditions of the rule. The definition has been expanded from that proposed to make explicit that securities issued by partnerships with the same or affiliated general partners and fractional undivided interests in oil or gas rights created by the same or affiliated persons would be included within the meaning of the term "securities of the issuer."

Definitions: affiliate: Rule 240(a)(2). The term "affiliate" or affiliated" with a person is defined to be a person that directly or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with such person.

Definitions: executive officer: Rule 240(a)(3). A definition of "executive officer" identical to that in the proxy rules and in Form 10–K has been added since that term is used in paragraph (e) in identifying persons whose transactions are excludable from the calculation of the aggregate sales price of securities sold if such transactions are made in reliance on an exemption other than the rule.

Definitions: deletion of proposed rule 240(a)(3): Definition of predecessor. The definition of the term "predecessor" has been deleted since the term no longer appears in the rule. The Commission believes that the inclusion of predecessors in calculating the aggregate sales price and number of beneficial owners would be unduly restrictive in view of the purpose of the rule and the other conditions on the availability of the rule. However, if, for example, an issuer liquidates and forms a new corporation for the purposes of repeated use of the rule, the exemption provided by the rule would be unavailable. (See preliminary note 5.)

Definitions: promoter: Rule 240(a)(4). A definition of "promoter" based on that in Rule 251 of Regulation A under the Act has been added to the rule since the term "promoter" is now used in paragraph (e) in identifying persons whose transactions are excludable from the calculation of the aggregate sales price of securities sold if such transactions are made in reliance on an exemption other than the rule.

Deletion of proposed rule 240(b): use of the rule. Paragraph (b) of the rule as proposed provided that the rule would not be available for the offer or sale of interests in limited partnerships, whether such offers or sales were made prior or subsequent to the formation of the partnership. The Commission has decided that it should not single out this one form of business organization, and therefore has revised the rule to make it available to all issuers of securities other than investment companies registered or required to be registered under the Investment Company Act of 1940. However, the rule makes it clear, in its definition of "securities of the issuer," that interest in partnerships with the same or affiliated general partners and that fractional undivided interests in oil or gas rights created by the same or affiliated persons would be considered to be securities of the same issuer. All sales by such partnerships or entities would therefore be aggregated in determining the amount sold and all purchasers of interests in these partnerships or entities must be considered in calculating the number of beneficial owners. This is intended to avoid repeated use of the rule by the same or related persons for a series of offerings.

Conditions to be met: Rule 240(b). This paragraph provides that transactions by an issuer involving the offer or sale of its securities in accordance with all the terms and conditions of the rule will be exempt from the registration provisions of the Act provided, however, that the issuer is not an investment company registered or required to be registered under the Investment Company Act of 1940. The rule has been made unavailable to such investment companies in light of the similar restrictions in Regulation A under the Act and on the availability to investment companies of section 3(a)(11) of the Act. A note has been added to this paragraph to indicate that each individual transaction effected in reliance on the rule must meet all the terms and conditions of the rule; the availability of the rule will not be affected by other transactions effected in reliance on the rule but which do not meet all its terms and conditions. However, all such transactions must be considered in determining the availability of other exemptions for other offers or sales of unregistered securities. (See preliminary note 6.) A second note has been added to emphasize that the rule is available only to issuers for offers and sales of their securities.

Limitation on manner of offering: Rule 240(c). The rule provides that the securities shall not be offered or sold by any means of general advertising or general solicitation. Offers and sales in reliance on the rule cannot be made through newspapers, advertisements or other means of general advertising. Where such means are used, an exemption cannot be justified on the basis of the "limited character" of the offering pursuant to the rule.

Prohibition of remuneration paid for solicitation or for sales: Rule 240(d). The rule also provides that no commission or similar remuneration may be paid for solicitation of prospective buyers or in connection with sales of securities. This provision is based on similar ones in certain state securities statutes and is intended to assure that securities are not offered or sold using high pressure tactics or otherwise through organized securities distribution media.

XUM V40-30 FEB 12 75 XUM

Limitation on aggregate sales price: Rule 240(e). In order to assure that only a limited dollar amount of securities is sold, the rule provides that the aggregate sales price of all sales of securities of the issuer as defined in subparagraph (a)(1) of the rule in reliance on the rule or otherwise without registration under the Act within the preceding twelve months shall not exceed $100,000. Three notes have been added to this paragraph to explain and illustrate the calculation of the aggregate sales price.

The rule specifically excludes from the computation of the dollar amount the following: (1) all securities of the issuer registered or exempt from registration under the Act if such securities were sold prior to the effective date of the rule; and (2) the following securities if sold in reliance on an exemption other than the rule: (i) nonconvertible notes or similar evidences of indebtedness (1) representing a purchase money mortgage or (2) issued to banks, savings institutions, trust companies, insurance companies, investment companies registered under the Investment Company Act of 1940, Small Business Investment Companies or Minortiy Enterprise Small Business Investment Companies licensed by the U.S. Small Business Administration, or pension or profit sharing trusts, and (ii) securities sold to promoters, directors, executive officers, or full-time employees of the issuer. It should be noted that the persons described in subparagraph (e)(2)(ii), but not the institutional lenders described in subparagraph (e)(2)(i), count as beneficial owners even in the event that the securities sold to such persons are not includable in calculating the aggregate sales price of securities of the issuer. In addition, nonconvertible notes must be included in the computation of the aggregate sales price when such notes have been issued with warrants or other rights enabling the purchaser to acquire an equity interest in the issuer.

The rule, as proposed, included a limitation on the aggregate dollar amount of securities that could be sold within any consecutive twelve month period. Upon reconsideration of this limitation, the Commission has determined that reliance on a consecutive twelve month period is unnecessarily confusing and it has therefore changed the calculation period to the twelve months preceding each sale.

Deletion of proposed rule 240(f): number of purchasers. The proposed rule contained a limitation on the number of persons who could purchase securities (other than registered securities) from the issuer, its predecessors or any affiliated issuers in a twelve month period in order to assure the limited character of any offering. As proposed, the rule limited the number of such purchasers to twenty-five in any consecutive twelve month period, with special provisions for computing the number of purchasers. The Commission has determined that the limitation on the number of purchasers in a twelve month period is not necessary in the context of the rule because of the overall limitation on the number (100) of beneficial owners of securities of the issuer as that term is defined in subparagraph (a)(1) of the rule. Accordingly, the Commission has deleted the limitation on the number of purchasers.

Limitation on the number of beneficial owners: Rule 240(f). The rule provides that both immediately before and after any transaction in reliance on the rule, the issuer shall, after reasonable inquiry, have reasonable grounds to believe, and shall believe that the securities of the issuer as defined in subparagraph (a)(1) of the rule are beneficially owned by 100 or fewer persons. As proposed, the rule was limited to issuers with 50 or fewer beneficial owners and contained no provisions for a reasonable inquiry or for reasonable grounds for the issuer's belief concerning the number of beneficial owners of its securities. Upon reconsideration of this limitation, the Commission has determined that a limit of 100 beneficial owners would be consistent with the purposes of the rule and of section 3(b) of the Act.

The rule contains special provisions for computing the number of beneficial owners where family relationships are involved or where the purchaser is a corporation or trust. In addition, banks and other institutional-type lenders described in subparagraph (e)(2)(i) that purchase or hold only nonconvertible notes or similar evidences of indebtedness of the issuer would be excluded. The purpose of this condition is to make the rule available only where the public interest in registration appears remote due to the limited number of beneficial owners involved. Notes to this paragraph of the rule have been added to remind issuers that purchasers of nonconvertible notes with warrants attached and persons described in subparagraph (e)(2)(ii) count in computing the number of beneficial owners.

Limitation on resale: Rule 240(g). The condition relating to resale has been revised to make clear that the securities acquired pursuant to the rule are unregistered securities and that they are deemed to have the same statues as if they were securities acquired in a transaction pursuant to section 4(2) under the Act.

The rule requires the issuer to exercise reasonable care to assure that purchasers are not acting as underwriters, which reasonable care includes at least making reasonable inquiry to determine if the purchaser is buying for himself or others, informing the purchaser of the restrictions on resale,[3] and legending of the certificates.

In connection with such restrictions, the Commission is amending Rule 144 to include within the definition of "restricted securities" those securities acquired from the issuer in a transaction in reliance on Rule 240 under the Act or which were issued by an issuer in a transaction in reliance on Rule 240 and were acquired in a transaction or chain of transactions not involving any public offering. Thus, Rule 144 would be available for resales of securities acquired pursuant to Rule 240.

Notice of sales: Rule 240(h). The rule requires that during each calendar year an issuer which sells securities in reliance on the rule must file a notice on Form 240 with the Commission's Regional Office for the region in which the issuer's principal business operations are conducted within ten days after the close of the first month in which a sale in reliance on the rule is made. As proposed, the form would have had to be filed prior to the first sale. The Commission has concluded that issuers may have found it difficult to comply with an advance filing requirement and that a filing after the first sale would be satisfactory. Although many commentators objected to the filing requirement, the Commission believes that the filing requirement is presently justified in light of the experimental nature of the rule and the creation of a new exemption.

It should be noted, however, that the exemption provided by the rule will be available for the first $100,000 of the securities of the issuer sold by the issuer if the sale of such securities complied with all the conditions of the rule other than the notice requirement. However, the exemption provided by the rule will not be available for any subsequent sale of securities by such issuer unless such issuer files: (a) prior to such subsequent sale in reliance on this rule a notice on Form 240 covering the prior sale of all securities for which reliance on this rules is claimed; and (b) a notice on Form 240 covering such subsequent sale.

FORM 240

Form 240 is a notice to be filed with the Commission's Regional Office for the region in which the issuer's principal business operations are conducted reporting that a sale(s) has been made pursuant to the rule. The Form is brief and requires information about the issuer, its officers, directors, principal stockholders and promoters, the aggregate sales price of unregistered securities, and the number of beneficial owners. It need only be filed once in each calendar year, within ten days after the close of the month in which the first sale(s) is made in reliance on the rule. The Form will be publicly available immediately in the regional office at which it is filed.

OPERATION OF RULE 240

The rule will operate prospectively only since there is now no similar exemption under section 3(b). The staff will issue interpretative letters to assist persons in complying with the rule but will not issue no-action letters dealing with Rule 240. As to resales of securities,

[3] In this regard see Securities Act Release No. 5226 (January 10, 1972) (37 FR 600) relating to the applicability of the anti-fraud provisions of the securities laws to disclosure of the restrictions on resale of securities offered pursuant to section 4(2) of the Act.

the staff will continue its present policy of not issuing no-action letters in section 4(1) situations with respect to securities acquired on or after April 15, 1972, as set forth in the release accompanying the adoption of Rule 144 (Securities Act Release No. 5223, January 11, 1972) (37 FR 590, 4329).

In view of the objectives and policies underlying the Act, the rule is not available to any issuer with respect to any transaction which, although in technical compliance with the provisions of the rule, is part of a plan or scheme to evade the registration provisions of the Act. In such cases, registration is required.

Rule 240 relates only to transactions exempted by the rule from the registration provisions of the Act. It does not provide an exemption from the antifraud or other provisions of the federal securities laws or from provisions of state securities laws.

The rule is available only to the issuer of the securities and not to affiliates or other persons proposing to resell securities of the issuer. Such resale must be made in compliance with the registration provisions of the Act unless an exemption from such provisions is available. Also, the rule does not relieve issuers of their obligations under relevant state laws.

The Commission hereby adopts Rule 240 and Form 240 pursuant to sections 3(b) and 19(a) of the Act, as amended, and amends Rule 144 under the Act pursuant to sections 4(1) and 19(a) of the Act. The Commission finds that republication for comment of Rule 240, Form 240 and the amendment to Rule 144 is not necessary under the Administrative Procedure Act because the revisions made from the rule, form and amendment, as proposed, have already been the subject of public comment or are technical in nature. The text of Rule 240, Form 240 and of the amendment to Rule 144 is set forth below. These actions are effective on and after March 15, 1975.

(Secs. 3(b), 4(1), 19(a), 48 Stat. 75, 77, 85; Sec. 209, 48 Stat. 908; 59 Stat. 167; Sec. 12, 78 Stat. 580; 84 Stat. 1480; 15 U.S.C. 77c(b), 77d(1), 77s(a))

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

JANUARY 24, 1975.

Parts 230 and 239 of the Code of Federal Regulations are amended by (1) adding thereunder new § 230.240, (2) amending § 230.144(a)(3), and (3) adding new § 239.240, as follows

§ 230.240 Exemption of certain limited offers and sales by closely held issuers.

PRELIMINARY NOTES

1. Rule 240 relates to transactions exempted only from section 5 of the Act by section 3(b) of the Act. It does not provide an exemption from the anti-fraud provisions of the federal securities laws or from the civil liability provisions of Section 12(2) of the Act or other provisions of the federal securities laws.

2. Nothing in this rule obviates the need for compliance with any applicable state law relating to the offer and sale of securities.

3. Purported reliance on this rule does not act as an election; the issuer can also claim the availability of any other applicable exemption.

4. The rule is available only to the issuer of the securities and is not available to affiliates or other persons for resales of the issuer's securities. The rule provides an exemption only for the transactions in which the securities are offered or sold by the issuer, not for the securities themselves. The securities acquired in a transaction effected in reliance on the rule are unregistered securities and are deemed to have the same status as if they were acquired in a transaction pursuant to section 4(2) of the Act.

5. In view of the objectives of the rule and the purpose and policies underlying the Act, the rule is not available to any issuer with respect to any transactions which, although in technical compliance with the rule, are part of a plan or scheme to evade the registration provisions of the Act. In such cases registration pursuant to the Act is required.

6. While a transaction may be exempt pursuant to Rule 240, the same transaction may be part of a larger issue of securities and may affect the availability of a different exemption for other transactions which are a part of such larger issue. See Securities Act Release No. 4552 (November 6, 1962) (27 FR 11316) concerning the integration of transactions.

(a) *Definitions.* For purposes of the rule only, the following definitions shall apply.

(1) *Securities of the issuer.* The term "securities of the issuer" shall include all securities issued by the issuer and by any affiliate of the issuer. Securities issued by partnerships with the same or affiliated general partners and fractional undivided interests in oil or gas rights created by the same or affiliated persons shall be deemed to be included as "securities of the issuer."

(2) *Affiliate.* The term "affiliate" of or "affiliated" with a person means a person that directly or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with such person.

(3) *Executive officer.* The term "executive officer" means the president, secretary, treasurer, any vice president in charge of a principal business function (such as sales, administration or finance) and any other person who performs similar policy-making functions for the issuer.

(4) *Promoter.* The term "promoter" includes: (i) any person who, acting alone or in conjunction with one or more persons, directly or indirectly takes the initiative in founding and organizing the business or enterprise of an issuer; or (ii) any person who, in connection with the founding or organizing of the business or enterprise of the issuer, directly or indirectly receives in consideration of services or property 10 percent or more of the proceeds from the sale of any class of securities. However, a person who receives such securities or proceeds either solely as underwriting commissions or solely in consideration of property shall not be deemed a promoter within the meaning of this paragraph if such person does not otherwise take part in founding and organizing the enterprise.

NOTE: Commissions may not be paid or given for soliciting buyers or in connection with sales of securities pursuant to the rule. See paragraph (d).

(b) *Conditions to be met.* Transactions by an issuer involving the offer and sale of its securities in accordance with all terms and conditions of this rule shall be exempt only from the provisions of section 5 of the Act pursuant to section 3(b) of the Act; provided, however, that the issuer is not an investment company registered or required to be registered under the Investment Company Act of 1940.

NOTES: 1. Each individual transaction effected in reliance on the rule must meet all the terms and conditions of the rule; the availability of the rule will not be affected by other transactions effected in reliance upon the rule but which do not meet all its terms and conditions.

2. This rule is available only for offers and sales by issuers of their securities. See Preliminary Note 4.

(c) *Limitation on manner of offering.* The securities shall not be offered, offered for sale or sold in reliance on this rule by any means of general advertising or general solicitation.

(d) *Prohibition of remuneration paid for solicitation or for sales.* No commission or similar remuneration shall be paid or given directly or indirectly for soliciting any prospective buyer or in connection with sales of the securities in reliance on this rule.

(e) *Limitation on aggregate sales price.* The aggregate sales price of all sales of securities of the issuer as defined in subparagraph (a)(1) in reliance on this rule or otherwise without registration under the Act within the twelve months preceding the point in time immediately after the last such sale shall not exceed $100,000.

NOTES: 1. The calculation of the aggregate sales price may be illustrated as follows: If an issuer sold $50,000 of its securities on June 1, 1975 in reliance on the rule, and an additional $25,000 on September 1, 1975, the issuer would be permitted to sell only $25,000 more until June 1, 1976 since until that date the issuer must count both prior sales toward the $100,000 limit. However, if the issuer made its third sale on June 1, 1976, the issuer could sell $75,000 of its securities since the June 1, 1975 sale would not be within the preceding twelve months.

2. If a transaction relying on the rule fails to meet the limitation on the aggregate sales price, it does not affect the availability of the rule for the other transactions considered in applying such limitation. For example, if the issuer in the prior note made its third sale on May 31, 1976 in the amount of $30,000, the rule would not be available for that sale; but the exemption for the prior two sales would be unaffected.

3. The calculation of the aggregate sales price would include all consideration received for the issuance of securities of the issuer, including cash, services, property, notes, or other consideration.

XUM V40130 FEB 1275 XUM

For purposes of computing the dollar amount of securities sold, the following shall be excluded:

(a) All securities of the issuer registered or exempt from registration under the Act, if such securities were sold prior to the effective date of this rule.

(b) The following securities if sold in reliance on an exemption from registration other than this rule:

(i) Nonconvertible notes or similar evidences of indebtedness (1) representing a purchase money mortgage or (2) issued to a bank, savings institution, trust company, insurance company, investment company registered under the Investment Company Act of 1940, Small Business Investment Company or Minority Enterprise Small Business Investment Company licensed by the U.S. Small Business Administration, or pension or profit sharing trust; or

NOTE: The exclusion set forth in this subparagraph does not apply to arrangements where nonconvertible notes are issued with warrants or other rights enabling the purchaser to acquire an equity interest in the issuer.

(ii) Securities sold to any promoter, director, executive officer, or full-time employee.

NOTE: It should be noted that this subparagraph (ii) only provides an exclusion for the computation of the aggregate dollar amount of securities sold; persons named in this subparagraph are not excluded from the computation of the number of beneficial owners in paragraph (f).

(f) *Limitation on Number of Beneficial Owners.* Both immediately before and immediately after any transaction in reliance on this rule, the issuer shall, after reasonable inquiry, have reasonable grounds to believe, and shall believe, that the securities of the issuer as defined in subparagraph (a)(1) are beneficially owned by 100 or fewer persons. For purposes of this provision:

(1) the following shall be deemed the same and not a separate beneficial owner:

(i) Any relative or spouse of a beneficial owner and any relative of such spouse, who has the same home as such beneficial owner;

(ii) Any trust or estate in which a beneficial owner or any of the persons related to him as specified in subparagraphs (f)(1)(i) or (iii) collectively have 100 percent of the beneficial interest (excluding contingent interests); and

(iii) Any corporation or other organization of which a beneficial owner or any of the persons related to him as specified in subparagraphs (f)(1)(i) or (ii) collectively are the beneficial owners of all of the equity securities (excluding directors' qualifying shares) or equity interests;

(2) there shall be counted as one beneficial owner any corporation or other organization, except that if such entity was organized for the specific purpose of acquiring the securities offered, each beneficial owner of equity interest or equity securities in such entity shall count as a separate beneficial owner; and

(3) there shall be excluded from the computation any owner of only a purchase money mortgage and any bank, savings institution, trust company, insurance company, investment company registered under the Investment Company Act of 1940, Small Business Investment Company or Minority Enterprise Small Business Investment Company licensed by the U.S. Small Business Administration, or pension or profit sharing trust which purchases or holds only nonconvertible notes or similar evidences of indebtedness of the issuer.

NOTES: 1. The exclusion set forth in this subparagraph does not apply to arrangements where nonconvertible notes are issued with warrants or other rights enabling the purchaser to acquire an equity interest in the issuer.

2. It should be noted that subparagraph (e)(2)(ii) only provides an exclusion for the computation of the aggregate dollar amount of securities sold; persons named in that subparagraph are not excluded from the computation of the number of beneficial owners.

(g) *Limitation on resale.* In determining the availability of an exemption from registration for resale of securities acquired in a transaction effected in reliance on this rule, such securities shall be deemed to have the same status as if they had been acquired in a transaction pursuant to section 4(2) of the Act and they cannot be resold without registration under the Act or exemption therefrom. The issuer shall exercise reasonable care to assure that the purchasers of the securities are not underwriters within the meaning of section 2(11) of the Act, which reasonable care shall include, but not necessarily be limited to:

(1) making reasonable inquiry to determine if the purchaser is acquiring the securities for his own account or on behalf of other persons;

(2) informing the purchaser of the restrictions on resale; and

(3) placing a legend on the certificate or other document evidencing the securities stating that the securities have not been registered under the Act and setting forth or referring to the restrictions on transferability and sale of the securities.

(h) *Filing of notice of sales.* (1) During each calendar year, within ten days after the close of the first month in which a sale in reliance on this rule is made, the issuer shall file with the Regional Office of the Commission for the region in which the issuer's principal business operations are conducted three copies of a notice on Form 240 which shall be signed by a duly authorized officer of the issuer or by a person acting in a similar capacity for a noncorporate issuer.

(2) Notwithstanding the foregoing, the exemption provided by this rule will be available for the first $100,000 of the securities of the issuer as defined in subparagraph (a)(1) sold by the issuer if the sale of such securities complied with all the conditions of this rule other than the notice requirement. However, the exemption provided by this rule will not be available for any subsequent sale of securities by such issuer unless such issuer files:

(i) prior to such subsequent sale in reliance on this rule, a notice on Form 240 covering the prior sale of all securities for which reliance on this rule is claimed; and

(ii) a notice on Form 240 covering such subsequent sale.

§ 230.144 Persons deemed not to be engaged in a distribution and therefore not underwriters.

• • • • • •

(a) • • •

(3) The term "restricted securities" means securities acquired directly or indirectly from the issuer thereof, or from an affiliate of such issuer, in a transaction or chain of transactions not involving any public offering or from the issuer in a transaction in reliance on Rule 240 under the Act or which were issued by an issuer in a transaction in reliance on Rule 240 and were acquired in a transaction or chain of transactions not involving any public offering.

• • • • • •

§ 239.240 Form 240, report by issuer of sales of securities pursuant to § 230.240 of this chapter.

This form shall be filed with the appropriate Regional Office of the Commission not more than 10 days after the close of the first month during the calendar year in which a sale is made in reliance on the rule.

NOTE: Copies of Form 240 have been filed with the Office of the Federal Register as part of this document. Additional copies will be available on request from the Securities and Exchange Commission, Washington, D.C. 20549.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

PART 2—ADMINISTRATIVE FUNCTIONS, PRACTICES, AND PROCEDURES

Subpart H—Delegations of Authority

DELEGATIONS OF AUTHORITY TO THE COMMISSIONER

The Commissioner of Food and Drugs is amending "Part 2—Administrative Functions, Practices, and Procedures" (21 CFR Part 2) to include new and revised delegations of authority from the Assistant Secretary for Health. The authorities were delegated by memorandum effective December 6, 1974, and included expanded authorities relating to quarantine and inspection and new authorities relating to holding health conferences and acceptance of gifts under the Public Health Service Act. Other delegations were reissued to correct section references which were recodified by an amendment to the act. All authorities may be redelegated.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 701(a), 52 Stat. 1055; 21 U.S.C. 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 2 is amended in § 2.120 by revising paragraph (a)(2), (4), (5) and (15), and by

adding paragraph (a) (19), (20), and (21) as follows:

§ 2.120 Delegations from the Secretary and Assistant Secretary.

(a) • • •

(2) Functions vested in the Secretary under section 301 (Research and Investigation); section 307 (International Cooperation); section 310 (Health Education and Information); section 311 (Federal-State Cooperation); and section 314(f) (Interchange of Personnel with States) of the Public Health Service Act (42 U.S.C. 241, 242l, 242o, 243, 246(f)) which relate to the functions of the Food and Drug Administration.

• • • • • •

(4) Functions vested in the Secretary under section 361 of the Public Health Service Act (42 U.S.C. 264) which relate to the law enforcement functions of the Food and Drug Administration concerning the following products and activities: biologicals (including blood and blood products); interstate travel sanitation (except interstate transportation of etiological agents under 42 CFR 72.25); food (including milk and food service sanitation and shellfish sanitation); and drugs, devices, cosmetics, and electronic products, and other items or products regulated by the Food and Drug Administration.

(5) Functions vested in the Secretary under sections 351 and 352 of the Public Health Service Act (42 U.S.C. 262 and 263) which relate to biological products.

• • • • • •

(15) Function of issuing all regulations of the Food and Drug Administration. The reservation of authority contained in Chapter 2-000 of the Department Organization Manual shall not apply.

• • • • • •

(19) Functions vested in the Secretary under the second sentence of section 309 (Health Conferences) of the Public Health Service Act (42 U.S.C. 242n) to call for a conference and invite as many health authorities and officials of State or local public or private agencies or organizations as deemed necessary or proper on subjects related to the functions of the Food and Drug Administration.

(20) Functions vested in the Secretary under section 501 (Gifts) of the Public Health Service Act (42 U.S.C. 219) to accept offers of unconditional gifts, of other than real property, provided such gifts are of $1,000 value or less and the total costs associated with acceptance of property will not exceed the cost of purchasing a similar item and the cost of normal care and maintenance.

(21) Functions vested in the Secretary under section 362 of the Public Health Service Act (42 U.S.C. 265) which relate to the prohibition of the introduction of foods, drugs, devices, cosmetics, and electronic products and other items or products regulated by the Food and Drug Administration into the United States when it is determined that it is required in the interest of public health when such functions relate to the law enforcement functions of the Food and Drug Administration.

• • • • • •

Effective date. This order shall be effective February 12, 1975.

(Sec. 701(a), 52 Stat. 1055 (21 U.S.C. 371(a))

Dated: February 5, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.75-3888 Filed 2-11-75;8:45 am]

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

ACRYLONITRILE/STYRENE COPOLYMER

The Food and Drug Administration is issuing this regulation to provide for the use of a polymeric substance in the production of bottles, taking into consideration a proposed interim food additive regulation and an FDA environmental impact statement now under consideration.

As published in the FEDERAL REGISTER of November 4, 1974 (39 FR 38907), a proposal discussed a previously unknown migration problem of acrylonitrile monomer which may be common to many food-contact articles containing acrylonitrile copolymers, and also discussed the absence of toxicological data to establish a definitive "no-effect" level for acrylonitrile monomer. The proposal would define the prior sanctions for acrylonitrile copolymers under a new § 121.2010 (21 CFR 121.2010), and it would establish an interim food additive regulation § 121.4010 (21 CFR 121.4010) for such copolymers to allow their continued use for a limited period of time while the questions raised are being resolved by further study. The proposed regulation includes a tolerance of 0.3 part per million (ppm) as the maximum amount of acrylonitrile monomer which can migrate from the food-contact article, and it requires the submission of certain chemical and toxicological data. The proposed interim regulation is intended to apply to all food additive uses of acrylonitrile copolymers.

The Commissioner of Food and Drugs, having evaluated the data in a petition (5B3056) filed by Monsanto Co., 800 North Lindbergh Blvd., St. Louis, MO 63166, publish in the FEDERAL REGISTER of December 12, 1974 (39 FR 43323), and other relevant material, concludes that the food additive regulations (21 CFR Part 121) should be amended, as set forth in § 121.2629 below, to provide for the safe use of an acrylonitrile/styrene copolymer in the manufacture of bottles intended to hold soft drinks. Furthermore, the Commissioner concludes that the copolymers described in § 121.2629 will meet the 0.3 ppm extractives limitation of the proposed interim food additive regulation when used within the prescribed restrictions. Upon adoption of the proposed § 121.4010 interim regulation, § 121.2629 will be amended to cross-reference the requirements of § 121.4010.

An environmental impact analysis report for the acrylonitrile/styrene copolymer has been submitted by the Monsanto Co., and is being evaluated as part of an overall consideration by the FDA of the environmental impact of all plastic bottles for carbonated beverages and beer use pursuant to the notice published in the FEDERAL REGISTER of September 7, 1973 (38 FR 24391). The FDA is preparing a draft environmental impact statement for FDA actions on all substances used or intended for use in the fabrication of plastic bottles for carbonated beverages and beer use, which will apply to acrylonitrile/styrene copolymer.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784-1788; 21 U.S.C. 321(s), 348, 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 121 is amended by adding to Subpart F the following new section:

§ 121.2629 Acrylonitrile/styrene copolymer.

Acrylonitrile/styrene copolymer identified in this section may be safely used as a component of packing materials intended for use with foods identified in table 1 of § 121.2526(c) as type VI-B under conditions of use described in C, D, E, F or G of table 2 of § 121.2526(c).

(a) *Identity.* For purposes of this section acrylonitrile/styrene copolymer consists of the copolymer produced by polymerization of 66-72 parts by weight of acrylonitrile and 28-34 parts by weight of styrene.

(b) *Adjuvants.* The copolymer identified in paragraph (a) of this section may contain adjuvant substances required in its production with the exception that it shall not contain mercaptans or other substances which form reversible complexes with acrylonitrile monomer. Permissible adjuvants may include substances generally recognized as safe in food, substances used in accordance with prior sanction, substances permitted under applicable regulations in this part, and the following:

Substances:	*Limitations*
Condensation polymer of toluene, sulfonamide and formaldehyde.	0.15 percent maximum.

(c) *Specifications.* (1) Nitrogen content of the copolymer is in the range of 17.4-19.0 percent.

(2) Minimum number average molecular weight of the copolymer is 30,000 as determined by a method available upon request from the Food and Drug Administration, Bureau of Foods, Division of Food and Color Additives (HFF-330), 200 C St. SW., Washington, D.C. 20204.

XUM
V40130 FEB 12 75 XUM

(3) Residual acrylonitrile monomer content of the finished food contact article is not more than 80 parts per million as determined by a gas chromatographic method available upon request from the Food and Drug Administration, Bureau of Foods, Division of Food and Color Additives.

(d) *Extractive limitations.* (1) Total nonvolatile extractives not to exceed 0.01 milligram per square inch surface area of the food contact article when exposed to distilled water and 3 percent acetic acid for 10 days at 150° F.

(2) The extracted copolymer shall not exceed 0.001 milligram per square inch surface area of the food contact article when exposed to distilled water and 3 percent acetic acid for 10 days at 150° F as determined by a method available upon request from the Food and Drug Administration, Bureau of Foods, Division of Food and Color Additives.

Any person who will be adversely affected by the foregoing order may at any time on or before March 14, 1975, file with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective February 12, 1975.

(Secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784–1788 (21 U.S.C. 321(s), 348, 371 (a)))

Dated: February 5, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

PART 146b—CERTIFICATION OF STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- (OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS FOR VETERINARY USE

PART 151c—CHLORAMPHENICOL FOR VETERINARY USE

CFR Corrections

The following are corrections to errors made in Title 21, Parts 141 to 599, revised as of June 1, 1974.

1. In § 146.104 appearing on page 73, an amendment to paragraph (c) (4) was inadvertently omitted. As corrected, § 146b.104(c) (4) reads as follows:

§ 146b.104 Streptomycin tablets, veterinary; dihydrostreptomycin tablets, veterinary.

* * * * *

(c) * * *

(4) If it is intended for use in animals raised for food production, it shall be used in accordance with § 135c.15, § 135c.44, or § 135c.114 of this chapter.

2. In § 151c.16(a), appearing on page 115, the last two words in the last line were inadvertently omitted. The last line of § 151c.16(a) should read "(1) of this chapter, except safety."

SUBCHAPTER C—DRUGS

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Monensin, Zinc Bacitracin

An order was published in the FEDERAL REGISTER of December 17, 1974 (39 FR 43628) amending the table in § 135e.50(f) by revising items 6 and 7. A subsequent order inadvertently published out of sequence on December 18, 1974 (39 FR 43718) revised the table in § 135e.50(f) and thereby vacated the amendment established by the December 17 order.

This order reinstates the amendment of items 6 and 7 in the table in § 135e.50(f). Therefore, the table in § 135e.50(f), as amended in the order of December 17, 1974, is republished in its entirety as follows:

§ 135e.50 Monensin.

* * * * *

(f) * * *

Principal ingredient	Grams per ton	Combined with	Grams per ton	Limitations	Indications for use
1. Monensin	90-110			For broiler chickens; do not feed to laying chickens; feed continuously as the sole ration; withdraw 72 hours before slaughter; as monensin or monensin sodium	As an aid in the prevention of coccidiosis caused by *E. necatrix, E. tenella, E. acervulina, E. brunetti, E. mivati,* and *E. maxima.*
2. Monensin	90-110	3-nitro-4-hydroxyphenylarsonic acid.	45.4 (0.005%)	For broiler chickens; do not feed to laying chickens; feed continuously as the sole ration; withdraw 5 days before slaughter; as sole source of organic arsenic; as monensin or monensin sodium.	Growth promotion and feed efficiency, improving pigmentation; as an aid in the prevention of coccidiosis caused by *E. necatrix, E. tenella, E. acervulina, E. brunetti, E. mivati,* and *E. maxima.*
3. Monensin	90-110	Lincomycin	2	For floor-raised broiler chickens; do not feed to laying chickens; to be fed as a sole ration; withdraw 72 hours before slaughter; as monensin sodium.	For increase in rate of weight gain and improved feed efficiency; as an aid in the prevention of coccidiosis caused by *E. necatrix, E. tenella, E. acervulina, E. brunetti, E. mivati,* and *E. maxima.*
4. Monensin	90-110	Lincomycin and 3-nitro-4-hydroxyphenylarsonic acid.	2 and 45-45	For floor-raised broiler chickens; do not feed to laying chickens; feed continuously as the sole ration; withdraw 5 days before slaughter as sole source of organic arsenic; as 3-nitro-4-hydroxyphenyl arsonic acid provided by code No. 031, § 135.501(c) of this chapter; as monensin sodium provided by code No. 014, § 135.501(e) of this chapter; as lincomycin provided by code No. 037, § 135.501(e) of this chapter; as a combination provided by code No. 037, § 135.501(c) of this chapter.	For increase in rate of weight gain; as an aid in the prevention of coccidiosis caused by *E. necatrix, E. tenella, E. acervulina, E. brunetti, E. mivati,* and *E. maxima.*
5. Monensin	90-110	Bacitracin	5-10	For broiler chickens; do not feed to laying chickens; feed continuously as sole ration; withdraw 72 hours before slaughter; as bacitracin methylene disalicylate provided by code No. 028 § 135.501(e) chapter; as monensin sodium.	For increased rate of weight gain and improved feed efficiency; as an aid in the prevention of coccidiosis caused by *E. necatrix E. tenella, E. acervulina, E. brunetti, E. mivati,* and *E. maxima.*
6. Monensin	90-110	do	10	For broiler chickens; do not feed to laying chickens; feed continuously as sole ration; withdraw 72 hours before slaughter; as zinc bacitracin as provided by code No. 022, § 135.501(c) of this chapter; as monensin sodium.	As an aid in the prevention of coccidiosis caused by *E. necatrix, E. tenella, E. acervulina, E. brunetti, E. mivati, E. maxima;* for increased rate of weight gain and improved feed efficiency.
7. Monensin	90-110	do	10-30	do	As an aid in the prevention of coccidiosis caused by *E. necatrix, E. tenella, E. acervulina, E. brunetti, E. mivati,* and *E. maxima;* for improved feed efficiency.

Effective date. This order shall become effective February 12, 1975.

Dated: February 4, 1975.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER G—ENGINEERING AND TRAFFIC OPERATIONS

PART 630—PRECONSTRUCTION PROCEDURES

Subpart C of Part 630 of Title 23 of the Code of Federal Regulations is, effective on the date of issuance shown below, amended by revising § 630.302(h) to read as follows:

§ 630.302 Definitions.

* * * * *

(h) The term "liquidated damages" means the daily amount set forth in the contract to be deducted from the contract price to cover additional costs incurred by a State highway agency because of the contractor's failure to complete the contract work within the number of calendar days or workdays specified. The term may also mean the total of all daily amounts deducted under the terms of a particular contract.

* * * * *

The subpart is further revised, effective on the date of issuance shown below, by changing the citation in paragraph 9 of Appendix A thereto from "23 U.S.C. 301(c)" to "23 U.S.C. 307(c)."

Issued on February 6, 1975.

NORBERT T. TIEMANN,
Federal Highway Administrator.

[FR Doc.75-3973 Filed 2-11-75;8:45 am]

Title 24—Housing and Urban Development

SUBTITLE A—OFFICE OF THE SECRETARY, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-75-285]

PART 20—CONTRACT APPEALS

Board of Contract Appeals and Rules of the Board

On August 26, 1974, at 39 FR 30920, the Department issued an interim rule with respect to Part 20, which established a Board of Contract Appeals and prescribed rules of procedure to be followed in proceedings before the Board. The interim rule provided opportunity for the filing of public comments and as a result the Department received two comments which have been carefully reviewed.

One comment advocated clarifying language with respect to the role and powers of the Board under § 20.4(b) and urged provision for the Board to adopt its own procedures. The comment also criticized what it termed the "unreasonable limited use of depositions" and suggested that § 20.4(c) authorize parties to arrange for depositions or for the Board to order depositions where the parties cannot agree. In addition, the comment urged that the Secretary's subpoena power be delegated to the Board and it recommended that the Department establish procedures for handling small claims. HUD is adopting the comment regarding liberalized deposition powers (Sec. 20.40(c)), delegation of subpoena powers (§ 20.4(e)), and the institution of small claims procedures (§ 20.50(m)). The Department believes, on the other hand, that the power to direct that the Board withhold exercise of its authority prior to hearing in appropriate cases and permit the Secretary to render decisions directly is necessary to allow administrative flexibility with respect not only to contract appeal cases but other matters before the Department that involve hearing. Accordingly, the powers of the Board have not been modified with respect to intermediate opinion and direct decision by the Secretary. Moreover, HUD believes that existing procedures for intradepartmental policy clearances provide adequate safeguards for changes in the Board's various procedures; and formalizing these administrative safeguards in Part 20 might only raise an unintended question regarding the applicability of such safeguards to other policy decisions.

The second comment which was framed as an inquiry rather than an affirmative recommendation asked whether the Board might include members who were not "attorneys selected by the General Counsel." Section 20.3 "Membership of the Board" now clarifies that Board members shall be attorneys admitted to practice before the highest court of any state or the District of Columbia.

In addition, certain other changes have been adopted at the Department's own discretion. Specifically, § 20.4(f) "Disclosure of Information" now provides that relevant facts within a party's knowledge or control shall be fully disclosed prior to hearing, or in the alternative, before the rendering of a final decision. This change has been adopted so as to clarify the Board's discovery policy and is consistent with rules and current practice with other Contract Appeal agencies. Certain language changes have been made to clarify possible areas of ambiguity. Section 20.4(a) has been revised to clarify that the Board's jurisdiction pertains only to procurement actions unless the Secretary refers other matters to it. Sections 20.10(a) and 20.20 have been revised to better explain the concept of "filing." Section 20.10(d) "Duties of the Contracting Officer" includes certain technical revisions. In addition, we have modified § 20.40(a)(2) to clarify discovery procedures.

Accordingly, Title 24 is amended by adding a new Part 20, which reads as follows:

Subpart A—Department of Housing and Urban Development Board of Contract Appeals

Sec.
20.1 Scope of part.
20.2 Organization of the Board.
20.3 Membership of the Board.
20.4 Authority and jurisdiction of the Board.
20.5 Rules.

Subpart B—Rules of the Department of Housing and Urban Development Board of Contract Appeals

Sec.
20.10 Notice of appeal.
20.20 Pleadings.
20.30 Motions.
20.40 Discovery.
20.50 Hearing.

Subpart A—Department of Housing and Urban Development Board of Contract Appeals

§ 20.1 Scope of part.

This part sets forth policies and procedures regarding matters to be considered by a Board of Contract Appeals, and prescribes the rules of the Board.

§ 20.2 Organization of the Board.

There is hereby established in the Office of the Secretary a Board of Contract Appeals (the Board).

§ 20.3 Membership of the Board.

The Board shall consist of a Chairman who shall be a Department of Housing and Urban Development (HUD) employee and such other members as may be designated to assist the Chairman as needed to hear, consider, and determine appeals as stated in Section 20.4. A member, other than the Chairman, assigned to an appeal may be either an employee of HUD (or another Government agency serving on a detail) or a special Government employee. The Chairman and each member shall be attorneys who have been admitted to practice before the highest court of any state or the District of Columbia.

§ 20.4 Authority and jurisdiction of the Board.

The Board shall have the following power and authority and shall exercise the following jurisdiction:

(a) *General.* Except as stated in paragraph (b) of this section, the Board shall hear, consider, and determine appeals from decisions of contracting officers arising under or growing out of or in connection with the administration or performance of contracts entered into by HUD and subject to the Federal Procurement Regulations, and as otherwise authorized by the Secretary. The Board has authority to determine appeals falling within the scope of its jurisdiction as fully and finally as might the Secretary himself.

(b) *Secretary's decision.* The Secretary reserves the right to direct, prior to any submission or hearing, that the authority of the Board shall not be exercised where he may desire or be required to render a decision on a matter in dispute. In such instances, the Secretary may request the Board to submit findings and recommendations.

(c) *Board powers.* The Board shall have all powers necessary and incident to the proper performance of its duties assigned herein. Subject to the approval of the Secretary, the Board shall adopt its own methods of procedure and rules and regulations for its conduct and for

XUM V40-30 FEB 12 75 XUM

the preparation and prosecution of appeals.

(d) *Final decision.* In each case, the Board shall make a final decision which is impartial, fair, and just to the parties and is supported by the record of the case and the law. The member or members assigned to consider an appeal have authority to act for the Board in all matters with respect to such appeal. No member may act for the Board or participate in a decision if he has participated directly in any aspect of the award or administration of the contract involved. There shall be no communication between any party to an appeal and a Board member or Board employee concerning the merits of the appeal, unless such communication (if written) is also furnished to the other party to the appeal or (if oral) is made in the presence of the other party. The Board also shall exercise care to avoid receiving, except as part of the formally established appeal record, any information having a substantial bearing upon an appeal from persons who do not represent a party in the appeal, but nonetheless have an interest in the decision to be rendered.

(e) *Subpoena power.* Pursuant to 5 USC 304, any Board member presiding over an appeal under § 20.4(a) may request the appropriate United States District Court for the issuance of subpoenas for witnesses or documents relating to that appeal.

(f) *Disclosure of information.* Full disclosure of relevant and material facts within a party's knowledge or control shall be required prior to a hearing, if any, or the rendering of a final decision.

§ 20.5 Rules.

Appeals referred to the Board will be handled in accordance with the rules of the Board. The provisions of 60 Stat. 237, formerly the Administrative Procedure Act, 5 U.S.C. 551–559, are inapplicable to proceedings before the Board. The Board rules will be interpreted so as to secure a just, speedy, and inexpensive determination of appeals without unnecessary delay.

(a) *Time extensions.* Each time limit specified shall be a maximum and a party shall make every reasonable effort to accomplish the action described in a shorter period. The Board may extend any time limitation only upon a showing of good cause therefor.

(b) *Computation of time.* Except as otherwise provided by law, in computing any period of time prescribed by these rules or by any order of the Board, the day of the event from which the designated period of time begins to run shall not be included, but the last day of the period shall be included unless it is a Saturday, Sunday, or a legal holiday, in which event the period shall run to the end of the next business day.

(c) *Service of documents.* Except where the Board rules specifically provide for service of documents by the Board, all motions, answers, briefs, notices, and all other papers filed with the Board shall be served by the filing party on the opposing party. Service shall be made by delivering in person or by mailing, properly addressed with postage prepaid, one copy of the document to the opposing party or its counsel. There shall be attached to the original of each document filed with the Board a certificate of service signed by the filing party stating that service has been made.

Subpart B—Rules of the Department of Housing and Urban Development Board of Contract Appeals

§ 20.10 Notice of appeal.

(a) *Filing.* The original Notice of Appeal together with two copies, addressed to the Secretary, shall be filed with the officer from whose decision the appeal is taken. The notice of appeal may be filed by mail or other means. The notice of appeal must be filed within the time specified therefor in the contract or as allowed by applicable provision of directive or law.

(b) *Contents.* A Notice of Appeal shall indicate that an appeal is thereby intended, identify the decision, and the date thereof, from which the appeal is taken and the HUD service or staff office cognizant of the dispute, and furnish the number of the contract in dispute. The notice of appeal shall be signed personally by the appellant or by an officer of the appellant corporation, or member of the appellant firm, or by the appellant's duly authorized representative or attorney. The complaint referred to in § 20.20 may be filed with the notice of appeal, or the appellant may designate the notice of appeal as a complaint, if it otherwise fulfills the requirements of a complaint.

(c) *Forwarding and acknowledgment of appeals.* When a notice of appeal in any form has been received by the officer from whose decision the appeal is taken, he shall endorse thereon the date of mailing (or date of receipt, if otherwise conveyed) and within 5 days shall forward said notice of appeal to the Board. Following receipt by the Board of the original notice of an appeal (whether through the contracting officer or otherwise), the appellant will be promptly advised of its receipt and will be furnished a copy of these rules. The Board will simultaneously transmit copies of appropriate documents to the contracting officer, the HUD service or staff office concerned, and the HUD Office of the General Counsel (OGC).

(d) *Duties of the contracting officer.* Following receipt of a notice of appeal, or advice that an appeal has been filed, the Contracting Officer shall promptly compile and forward no later than 30 days from the notice of appeal to OGC copies of the documents listed below. OGC shall promptly review the file and transmit to the Board all documents pertinent to the appeal, including the following:

(1) The findings of fact and the decision from which the appeal is taken, and the letter or letters of other documents of claim in response to which the decision was issued;

(2) The contract, and pertinent plans, specifications, amendments, and change orders;

(3) Correspondence between the parties pertaining to the claim and other data pertinent to the appeal;

(4) Transcripts of any testimony and any exhibits taken during the course of proceedings, and affidavits or statements of any witnesses on the matter in dispute made prior to the filing of the notice of appeal with the Board;

(5) Such additional information as may be considered material.

Upon completion of the foregoing compilation, the Contracting Officer shall notify the appellant, provide him with a listing of its contents, and afford him an opportunity to examine the complete compilation at the office of the Contracting Officer, or at the office of the Board for the purpose of satisfying himself as to the contents, and furnishing or suggesting any additional documentation deemed pertinent to the appeal. Following receipt of the foregoing compilation as it may be augmented at the time of receipt, the parties will be so advised by the Board.

§ 20.20 Pleadings.

(a) *Complaint.* Unless he elects to have an appeal considered on the record, the appellant shall within 30 days after receipt of notice of docketing of the appeal, file with the Board by mail or other means, an original and two copies of a complaint setting forth simple, concise, and direct statements of each of his claims alleging the basis with appropriate reference to contract provisions for each claim, the dollar amount claimed for each claim and the error or errors in the final decision. This pleading shall fulfill the generally recognized requirements of a complaint, although no particular form or formality is required. Upon receipt thereof, the Board shall serve a copy upon the OGC. Should the complaint not be actually received within 30 days, appellant's claim and appeal may, if in the opinion of the Board the issues before the Board are sufficiently defined, be deemed to set forth his complaint and the OGC shall be so notified.

(b) *Answer.* Within 30 days from receipt of said complaint, or the aforesaid notice from the Board, OGC shall file with the Board an original and two copies of an Answer thereto, setting forth simple, concise, and direct statements of HUD's defenses to each claim asserted by appellant. This pleading shall fulfill the generally recognized requirements of an answer, and shall set forth any affirmative defenses or counterclaims, as appropriate. If the answer is not filed within 30 days, the Board may, in its discretion, enter a general denial on behalf of HUD, and the appellant shall be so notified.

(c) *Amendments of pleadings or record.* (1) The Board upon its own initiative or upon application by a party may, in its discretion, order a party to make a more definite statement of the complaint or answer, or to reply to an answer.

(2 The Board, may, in its discretion, and within the proper scope of the appeal, permit either party to amend his pleading upon conditions just to both parties. When issues within the proper scope of the appeal, but not raised by the pleadings or the documentation described in § 20.10(d) are tried by express or implied consent of the parties, or by permission of the Board, they shall be treated in all respects as if they had been raised therein. In such instances motions to amend the pleadings to conform to the proof may be entertained, but are not required. If evidence is objected to at a hearing solely on the ground that it is not within the issues raised by the § 20.10(d) documentation (which shall be deemed part of the pleadings for this purpose), it may be admitted, provided, however, that the objecting party may be granted a continuance if necessary to enable him to respond to such evidence.

§ 20.30 Motions.

(a) *General.* The Board may entertain any timely motion:

(1) For extension of time or to cure defaults;

(2) To require that a pleading be made more definite and certain, or for leave to amend a pleading;

(3) To dismiss a claim for lack of jurisdiction; to dismiss a claim for failure to prosecute; or to grant summary relief;

(4) For resolution of disputed discovery matters;

(5) To grant the appeal for failure of the Government to prosecute its defense;

(6) To reopen a hearing; or to reconsider a decision; or

(7) For any other appropriate order.

The Board may, on its own motion, initiate any such action by notice to the parties. Unless otherwise specified by the Board, a party who receives a motion shall file any answering material within 20 days after the date of receipt. The Board may require the presentation of briefs or arguments. The Board shall make an order on each motion that is appropriate and just to the parties, and upon conditions that will promote efficiency in disposing of the appeal. Motions to reconsider a decision must be made within 30 days after the date of receipt of the decision.

(b) *For summary decision.* (1) Any party may, after commencement of the proceeding and at least 30 days before the date fixed for the hearing, move with or without supporting affidavits for a summary decision in his favor of all or any part of the proceeding. Any other party may, within 15 days after service of the motion, serve opposing affidavits or countermove for summary decision.

(2) The Board may grant such motion if the pleadings, affidavits, material obtained by discovery or otherwise, or matters officially noticed, show that there is no genuine issue as to any material fact and that a party is entitled to summary decision.

(3) Affidavits shall set forth such facts as would be admissible in evidence and shall show affirmatively that the affiant is competent to testify to the matters stated therein. When a motion for summary decision is made and supported as provided in this rule, a party opposing the motion may not rest upon the mere allegations or denials of his pleading; his response, by affidavits or as otherwise provided in this rule, must set forth specific facts showing that there is a genuine issue of fact for the hearing.

(4) Should it appear from the affidavits of a party opposing the motion that he cannot for reasons stated present by affidavit facts essential to justfy his opposition, the Board may deny the motion for summary decision or may order a continuance to permit affidavits to be obtained or discovery to be had or may make such other order as is just.

§ 20.40 Discovery.

(a) *General.* (1) Schedules and time periods for the parties to pursue the means of discovery each may select will be established by the Board with due consideration to the regular order of appeals, to the desires of the parties, to the requirement for just, speedy, and inexpensive determination of appeals without unnecessary delay, and to other pertinent factors.

(2) Subject to the provisions of paragraphs (c), (d), (e), and (f) of this section, after an appeal has been docketed, pleadings filed, and an initial prehearing conference held, any party upon giving reasonable notice to the other party may pursue such discovery as it selects for purposes of obtaining relevant, unprivileged information or evidence. If no initial prehearing conference occurs within sixty days after pleadings are filed, the parties may then proceed with discovery as necessary.

(3) Upon motion by a party or person from whom discovery is sought, the Board may make any order which justice requires to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense.

(4) In the absence of agreement between the parties as to the time, place, and manner of obtaining discovery, discovery shall be governed by those terms and conditions which the Board may order.

(b) *Prehearing or presubmission conference.* The Board may upon its own initiative or upon application of either party, call upon the parties to appear before a member of the Board for a conference to consider:

(1) The simplification or clarification of the issues;

(2) The possibility of obtaining stipulations, admissions, agreements on documents, understandings on matters already of record, or similar agreements which will avoid unnecessary proof;

(3) The limitation of the number of expert witnesses, or avoidance of other cumulative evidence, if the case is to be heard;

(4) The possibility of agreement disposing of all or any of the issues in dispute;

(5) The exchange of exhibits and lists of witnesses;

(6) Such other matters as may aid in the disposition of the appeal. The results of the conference shall be reduced to writing by the Board and this writing shall thereafter constitute part of the record. Additional conferences may be held at the discretion of the Board.

(c) *Depositions.* (1) The parties may mutually agree to, or the Board may, upon application of either party, order the taking of testimony of any person by deposition upon oral examination or written interrogatories before any officer authorized to administer oaths at the place of examination, for use as evidence or for purpose of discovery. In order to avoid undue expense and delay, requests for the taking of depositions will not be routinely granted and will require a substantial showing of good cause. The deposition of a HUD employee shall be permitted ordinarily only when the information or evidence sought to be elicited is not discoverable by alternative means.

(2) No testimony taken by deposition shall be considered as part of the evidence in the hearing of an appeal unless and until such testimony is offered and received in evidence at such hearing. It will not ordinarily be received in evidence if the deponent is present and can testify personally at the hearing. In such instance, however, the deposition may be used to contradict or impeach the testimony of the witness given at the hearing. In cases otherwise heard on the record, the Board may, on motion of either party and in its discretion, receive depositions as evidence in supplementation of that record.

(3) All expenses of taking the deposition of any person shall be borne by the party taking that deposition, except that the other party shall be entitled to copies of the transcript of the deposition only upon paying therefor.

(d) *Interrogatories to parties.* After an appeal has been docketed either party may serve written interrogatories upon the opposing party to be answered fully and separately in writing under oath and to be returned within 15 days of receipt thereof.

(e) *Inspection of documents.* After an appeal has been docketed either party may request a party to produce and permit inspection and copying or photographing of designated documents relevant to the appeal.

(f) *Admission of facts.* After an appeal has been docketed either party may serve on the opposing party a request for admission of facts to be answered fully and separately in writing, under oath and to be returned within 15 days of receipt thereof.

§ 20.50 Hearing.

(a) *Election.* Upon receipt of respondent's answer or the notice referred to in the last sentence of § 20.20(b) above, appellant shall advise the Board whether

XUM
V40I30 FEB 12 75 XUM

he desires a hearing, as prescribed herein or whether in the alternative he elects to submit his case on the record without a hearing, as prescribed in § 20.50(c).

(b) *Pre-hearing briefs.* Based on an examination of the documentation described in § 20.10(d), the pleadings, and a determination of whether the arguments and authorities addressed to the issues are adequately set forth therein, the Board may in its discretion require the parties to submit pre-hearing briefs in any case in which a hearing has been elected pursuant to § 20.50(a). In the absence of a Board requirement therefor, either party may in its discretion, and upon appropriate and sufficient notice to the other party, furnish a pre-hearing brief to the Board. In any case where a pre-hearing brief is submitted, it shall be furnished so as to be received by the Board at least 15 days prior to the date set for hearing, and a copy shall simultaneously be furnished to the other party.

(c) *Submission without a hearing.* Either party may elect to waive a hearing and to submit his case upon the Board record, as settled pursuant to § 20.50(d). In the event of such election to submit, the submission may be supplemented by oral argument (transcribed if requested), or briefs, or both, in accordance with § 20.50(1). Where neither party desires a hearing, and the Board does not require one, the Board's decision will be based upon the available record as furnished by the parties.

(d) *Settling of the record.* (1) A case submitted on the record pursuant to § 20.50(d) shall be ready for decision when the parties are so notified by the Board. A case which is heard shall be ready for decision upon receipt of transcript, or upon receipt of briefs when briefs are to be submitted. At any time prior to the date that a case is ready for decision, either party, upon notice to the other, may supplement the record with documents and exhibits deemed relevant and material by the Board. The Board upon its own initiative may call upon either party, with appropriate notice to the other, for evidence deemed by it to be relevant and material. The weight to be attached to any evidence of record will rest within the sound discretion of the Board.

(2) The Board record shall consist of documentation described in § 20.10 and any additional material, pleadings, pre-hearing briefs, record of pre-hearing or pre-submission conferences, depositions, interrogatories, admissions, transcripts of hearing, hearing exhibits, and post-hearing briefs, as may thereafter be developed pursuant to these rules.

(3) This record will at all times be available for inspection by the parties at the office of the Board. In the interest of convenience prior arrangements for inspection of the file should be made with the Board. Copies of material in the record may, if practicable, be furnished to a party at the cost of reproduction.

(e) *Notice of hearings; where and when held.* Hearings will ordinarily be held in Washington, D.C., except that upon request seasonably made and upon good cause shown, the Board may in its discretion set the hearing at another location. Hearings will be scheduled at the discretion of the Board with due consideration to the regular order of appeals, to the desires of the parties, to the requirement for just, speedy, and inexpensive determination of appeals without unnecessary delay, and to other pertinent factors. The parties shall be given at least 15 days notice of the time and place set for hearings. Notices of hearing shall be promptly acknowledged by the parties. A party failing to acknowledge a notice of hearing shall be deemed to have submitted his case upon the Board record as provided in § 20.50(c).

(f) *Unexcused absence of a party.* The unexcused absence of a party at the time and place set for hearing will not be occasion for delay. In the event of such absence, the hearing will proceed and the case will be regarded as submitted by the absent party as provided in § 20.50(c).

(g) *Nature of hearings.* Hearings will be as informal as reasonably permissible, and will seek to provide the Board with the pertinent facts and the positions of the parties as a basis for the Board's decision or recommendation. The parties may offer such relevant evidence or argument as they deem appropriate, subject, however, to the exercise of reasonable discretion by the presiding member of the Board in supervising the extent and manner of presenting such evidence. In general, admissibility will hinge on relevancy and materiality. The weight to be attached to any stipulations or evidence presented will be determined by the Board. The Board may in any case require evidence in addition to that offered by the parties.

(h) *Examination of witnesses.* Witnesses before the Board will be examined orally under oath or affirmation, unless the facts are stipulated, or the Board member shall otherwise order. If the testimony of a witness is not given under oath the Board may, if it seems expedient, warn the witness that his statements may be subject to the provisions of Title 18, United States Code, sections 287 and 1001, and any other provisions of law imposing penalties for knowingly making false representations in connection with claims against the United States or in any matter within the jurisdiction of any department or agency thereof.

(i) *Transcript of proceedings.* Testimony and argument at hearings shall be reported verbatim. Transcripts of the proceedings shall be supplied to the parties at such rates as may be fixed by contract between the Board and the reporter. If the proceedings are reported by an employee of the Government, the appellant may receive transcripts upon payment to the Government at the same rates as those set by contract between the Board and the independent reporter.

(j) *Copies of papers.* When books, records, papers, or documents have been received in evidence, a true copy thereof or of such part thereof as may be material or relevant may be substituted therefor, during the hearing or at the conclusion thereof.

(k) *Withdrawal of exhibits.* After a decision has become final the Board may, upon request and after notice to the other party, in its discretion permit the withdrawal of original exhibits, or any part thereof, by the party entitled thereto. The substitution of true copies of exhibits or any party thereof may be required by the Board in its discretion as a condition of granting permission for such withdrawal.

(l) *Post-hearing submissions.* Unless otherwise directed by the Board, the parties will submit simultaneous briefs within 30 days of the receipt of the transcript, and reply briefs within 15 days of the initial briefs.

(m) *Decisions.* (1) Decisions of the Board will be made in writing and shall be forwarded simultaneously to both parties. The rules of the Board and all final orders and decisions will be open for public inspection at the offices of the Board in Washington, D.C. Decisions of the Board will be made upon the record.

(2) *Accelerated procedure.* In the event an appeal involves twenty-five thousand dollars ($25,000) or less, the Board will undertake to issue a decision on the appeal on an expedited basis, without regard to its normal position on the docket. Under this accelerated procedure, the case will be further expedited if the parties elect to waive pleadings or elect to waive the hearing and submit on the record. In all other respects, these rules will apply.

(n) *Remands from courts.* Whenever any matter is remanded to the Board from any court for further proceedings, each of the parties shall, within 20 days of such remand, submit a report to the Board, recommending procedures to be followed in order to comply with the court's order. The Board will review the reports and enter special orders governing the handling of matters remanded to it for further proceedings by any court. To the extent the court's directive and time limitations will permit, such orders will conform to these rules.

(Sec. 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d)).

Effective date. This Part 20 is effective as of March 14, 1975.

JAMES T. LYNN,
Secretary of the Department of Housing and Urban Development.

[FR Doc.75-3961 Filed 2-11-75;8:45 am]

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

[Order No. 596-75]

PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

PART 16—PRODUCTION OR DISCLOSURE OF MATERIAL OR INFORMATION

Freedom of Information Act Requests Procedure and Policy

These amendments revise Department of Justice regulations in the light of past

experience under the Freedom of Information Act and conform the regulations to the requirements of the Act as amended by Pub. L. 93-502, 88 Stat. 1561. On 13 January 1975, the Department published in the FEDERAL REGISTER (40 FR 2443) proposed fee regulations and that subject is therefore not covered by these amendments.

Present system. The present system of processing Freedom of Information requests furnishes the framework on which the amendments build. Under existing regulations requests for records are sent to the Deputy Attorney General (except that requests for records of the Immigration and Naturalization Service, the Bureau of Prisons, and the Board of Immigration Appeals are sent directly to those divisions). The Deputy Attorney General then sends the requests to the division which has primary concern with the records requested. (The term "division" includes all divisions, bureaus, offices, services, administrations, and boards of the Department, the Pardon Attorney, and Federal Prisons Industries except as otherwise provided.) That division then responds by either granting the request, denying it, or granting and denying it in part. There is a ten-day period for this initial response, with provision for extension of time. The Deputy Attorney General is specifically charged with insuring timely response and may be petitioned when a request is not answered within the applicable time limit.

Denials of initial requests may be appealed to the Attorney General within thirty days of receipt by the requester. The Attorney General then has twenty days to act on the appeal unless the time is extended. The Deputy Attorney General maintains files on all requests for information (except for requests directed to the Immigration and Naturalization Service, the Bureau of Prisons, and the Board of Immigration Appeals), and on all appeals. There is a provision for classification review of national security information more than ten years old.

Amended regulations. Discussed below are the major changes made by these amendments. There are additional minor changes, not discussed, which are either necessary under the amended Act, or are desirable in light of the experience of the Department with the present regulations.

The amended regulations establish in the Office of the Deputy Attorney General a new unit, designated the Freedom of Information Appeals Unit, which will assist the Attorney General in processing administrative appeals of initial denials of requests under the Freedom of Information Act. This assistance was formerly provided by the Office of Legal Counsel. The organizational location of this new unit is consistent with the overall responsibility of the Deputy Attorney General to supervise the processing of Freedom of Information requests. The Office of Legal Counsel will continue to process appeals in cases where the Deputy Attorney General has participated in the initial denial, and will continue its function of providing requested guidance to all divisions of the Department on difficult issues of law associated with Freedom of Information requests.

The amended regulations, while maintaining the same general system as presently exists, establish more specific requirements for the making and processing of requests. Most of these requirements are intended to insure compliance with the new time limits imposed by the amendments to the Act. Thus, the amended regulations require that requests under the Act be clearly marked, so as to enable prompt processing by the Department. The burden of forwarding misdirected requests to the appropriate office ordinarily the Office of the Deputy Attorney General) is placed on Department personnel; but time limits do not commence to run on such requests until they have been so delivered or, with the exercise of due diligence, should have been.

The amended regulations make clear that authority to deny a request lies only in the division head unless otherwise specified by regulation. Allowing delegation of this authority by regulation permits divisions with widely scattered components to decentralize the initial decision authority in order to meet the time limits of the Act.

Authority to extend (in increments of five working days) is limited to division heads. It was felt that limiting this authority still further—to the Attorney General and the Deputy Attorney General—would entail more delay than the time limits of the Act permit, while placing the authority in officials lower than division heads would not be consistent with the strict control that is necessary. This procedure may result in the use of the entire ten-day extension time at the division level, but in view of the shorter standard period available at that level this appears to be the most appropriate policy. Where the extension authority is abused, the Deputy Attorney General may remove it.

The Office of the Deputy Attorney General is required to keep records of all time extensions taken. This serves the dual purpose of insuring that time requirements are met and of monitoring extensions so that the ten-day extension limit in the Act is not exceeded.

The amended regulations provide that when the time for initial reply, including any extensions, has expired and no determination has been made, the requester must be informed that he may deem this a denial and appeal to the Attorney General. This provision assures the preservation of the twenty-day period alloted to the Attorney General for appeals. In cases of unavoidable delay such as that occasioned by requests for voluminous records, a requester may be asked to defer appeal so long as the division is making diligent efforts to process the request. When a requester who accepts such a disposition believes that a division is not making diligent efforts, immediate appeal to the Attorney General provides the opportunity for relief. For this reason, provisions in the present regulations allowing petition to the Deputy Attorney General to complain of delay are eliminated as unnecessary.

The section on responses by the divisions is amended to require the letter denying a request to include the name and title or position of the person responsible for the denial. This person would be the division head or other person authorized by regulation to issue final denials. It is possible, however, that a person from another agency or division may share that status—under the regulations and the Act—if the denial is made at the instance of that person, out of regard for the primary interest or expertise of his agency or division, and with notice to him that his judgment will be relied on.

Two new paragraphs are added to the section dealing with appeals to the Attorney General, covering extensions of time and the handling of appeals where the time limits have been exhausted. In the latter case the requester will be informed of his right to treat the failure to complete administrative review as an exhaustion of administrative remedies, enabling immediate suit for judicial review. He will also be advised, however, of the reason for the delay and of the date by which a response may be expected. When the delay is unavoidable, it is anticipated the requester will avoid unnecessary litigation expenses by foregoing judicial review until the Department completes processing of the request, since a court may and presumably would grant an extension in such circumstances. No appeal to the Attorney General is provided with respect to denials by the Special Prosecutor, who is authorized, if he wishes, to establish an appeals procedure within his Office.

Extensive changes are made in Department procedures regarding the processing of requests for classified records. The present regulations provide for classification review of records only when they are over ten years old. The amended regulations require that in all cases of requests for records classified pursuant to Executive Order 11652 or its predecessors, the Department must review the information to determine if it continues to warrant classification. This requirement applies whenever classified matter is requested, even if other exemptions are also to be asserted. Because under Executive Order 11652 national security material can ordinarily be declassified only by the originating agency, documents classified by another agency are to be treated as records of that agency for purposes of FOIA decisionmaking authority; requests pertaining to such documents are to be referred to such agency for disposition (not only as to the classified information exemption but as to all other exemptions which might be asserted); the requester is to be informed that this referral has occurred and that he may expect a reply from that other agency.

The Appeals Unit will refer classified material included in an appeal to the Attorney General to the Departmental Review Committee, established

XUM V40130 FEB 1275 XUM

under part 17 of chapter I. The Committee will complete its review in ten working days unless that time is extended by the Deputy Attorney General.

Because the amendments pertain to matters of procedure and policy, the relevant provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, opportunity for public participation, and delay in effective date are inapplicable. In addition, since many of these changes are necessary to achieve compliance with the amendments to the Freedom of Information Act (5 U.S.C. 552) which become effective on February 19, 1975, there is not sufficient time to receive and evaluate public comment. However, in accordance with the spirit of the public policy set forth in 5 U.S.C. 553, interested persons may submit written comments on these amendments to the Office of Legal Counsel, Department of Justice, Washington, D.C. 20530, no later than March 19, 1975. Comments should identify this order (596–75). Arrangements to inspect copies of written comments may be made by calling the Office of Robert Saloschin, Chairman, Freedom of Information Committee, Department of Justice at 202–739–2069. All comments received in this manner will be evaluated and acted upon in the same manner as if this document were a proposal.

In consideration of the above, Title 28, chapter I, parts 0 and 16 are amended as set forth below.

Effective date. These amendments become effective on February 19, 1975.

EDWARD H. LEVI,
Attorney General.

1. Section 0.18 is added to read as follows:

§ 0.18 Freedom of Information Appeals Unit.

The Freedom of Information Appeals Unit is established in the Office of the Deputy Attorney General, under the supervision of the Deputy Attorney General, to assist the Attorney General in acting on Freedom of Information appeals under § 16.7 of this chapter, except that in the case of appeals from initial decisions in which the Deputy Attorney participated this assistance shall be provided by the Office of Legal Counsel.

2. The last sentence of § 16.2 is revised to read as follows:

§ 16.2 Public reference facilities.

* * * * *

Each of these public reference facilities will maintain, make available for public inspection and copying, and publish quarterly (unless the applicable division determines by order published in the Federal Register that the publication would be unnecessary or impracticable), a current index of the materials available at that facility which are required to be indexed by 5 U.S.C. 552(a)(2).

3. Section 16.3 is amended by revoking paragraph (e) and by revising paragraphs (a), (b) and (d) as follows:

§ 16.3 Requests for identifiable records and copies.

(a) *How made and addressed.* A request for a record of the Department which is not customarily made available and which is not available in a public reference facility as described in § 16.2, shall be made in writing, with the envelope and the letter clearly marked "FREEDOM OF INFORMATION REQUEST" or "INFORMATION REQUEST." All such requests shall be addressed to the Deputy Attorney General, Department of Justice, Washington, D.C. 20530, except that requests for records of the following divisions shall be addressed as follows:

Bureau of Prisons (including Federal Prison Industries)—Director, Bureau of Prisons, 320 First Street NW., Washington, D.C. 20534.

Board of Immigration Appeals—Chairman, Board of Immigration Appeals, Department of Justice, Washington, D.C. 20530.

Law Enforcement Assistance Administration—Administrator, Law Enforcement Assistance Administration, 633 Indiana Ave. NW., Washington, D.C. 20531.

Immigration and Naturalization Service—As set forth in 8 CFR Part 103.

Any request for information not marked and addressed as specified in this paragraph will be so marked by Department personnel as soon as it is properly identified, and forwarded immediately to the appropriate office as specified above. A request improperly addressed will not be deemed to have been received for purposes of the time period set forth in 5 U.S.C. 552(a)(6)(A)(i) until forwarding to the appropriate office has been effected, or until such forwarding would have been effected with the exercise of due diligence by Department personnel. On receipt of an improperly addressed request forwarded as set forth above to the appropriate office, such office shall notify the requester of the date on which the time period commenced to run.

(b) *Request should reasonably describe the records sought.* A request for access to records should sufficiently identify the records requested to enable Department personnel to locate them with a reasonable amount of effort. Where possible, specific information regarding dates, titles, file designations, and other information which may help identify the records should be supplied by the requester. If the request relates to a matter in pending litigation, the court and its location should be identified.

* * * * *

(d) *Categorical Requests*—(1) *Records must be reasonably described.* A request for all records falling within a reasonably specific category shall be regarded as conforming to the requirement that records be reasonably described if it enables the records requested to be identified by any process that is not unreasonably burdensome or disruptive of Department operations.

(2) *Assistance in reformulating nonconforming requests.* If it is determined that a request does not reasonably describe the records sought, as specified in paragraph (d)(1) of this section, the response denying the request on that ground shall specify the reasons why the request failed to meet the requirements of paragraph (d)(1) of this section and shall extend to the requester an opportunity to confer with Department personnel in order to attempt to reformulate the request in a manner which will meet the needs of the requester and the requirements of paragraph (d)(1) of this section.

(e) [Revoked]

4. Section 16.4 is revised to read as follows:

§ 16.4 Requests referred to division primarily concerned.

(a) *Referral to responsible division.* The Deputy Attorney General shall, promptly upon receipt of a request for Department records, forward the request to the division of the Department which has primary concern with the records requested. As used in this subpart, the term "division" includes all divisions, bureaus, offices, services, administrations, and boards of the Department, the Pardon Attorney and Federal Prison Industries, except as otherwise expressly provided. As used in this subpart, the term "responsible division" means, with respect to a particular request, the division to which the Deputy Attorney General forwards the request pursuant to this paragraph or, if the request is not one which is to be addressed to the Deputy Attorney General under § 16.3(a), the division to which the request is properly addressed thereunder.

(b) *Deputy Attorney General shall assure timely response.* The Deputy Attorney General shall periodically review the practices of the divisions in meeting the time requirements set out in § 16.5, including the granting of extensions of time, and shall take such action to promote timely responses as he deems appropriate. Such action may include, but is not limited to, removal from a division of a request or class of requests or removal of the authority of a division to grant extensions, as specified in § 16.5(f).

(c) *Records to be kept by Deputy Attorney General.* The Deputy Attorney General shall retain or be furnished with a file copy of each request which is required to be addressed to him pursuant to § 16.3(a). With respect to such requests he shall maintain records to show the date of receipt by the Department (and, in the case of improperly addressed requests, the date of receipt by the appropriate office after forwarding pursuant to § 16.3(a)), the responsible division to which it was forwarded under this section, and the date of such forwarding. The Board of Immigration Appeals, the Bureau of Prisons, the Immigration and Naturalization Service and the Law Enforcement Assistance Administration, respectively, shall retain or be furnished with file copies of requests required to be addressed to them pursuant to § 16.3(a), and shall maintain records to show the date of receipt by the Department (and, in the case of improperly addressed requests, the date of receipt by the appropriate office after forwarding pursuant to § 16.3(a)).

5. Section 16.5 is revised to read as follows:

§ 16.5 Prompt response by responsible division.

(a) *Response within ten days.* Within ten days (excluding Saturdays, Sundays and legal public holidays) of the receipt of a request by the Department (or, in the case of an improperly addressed request, of its receipt by the appropriate office after forwarding pursuant to § 16.3(a)) the responsible division shall determine whether to comply with or to deny such request and dispatch such determination to the requester unless an extension is made under paragraph (c) of this section.

(b) *Authority to deny request.* Unless otherwise specified by division regulation, only the head of a division may deny a request, and is the "person responsible for the denial" within the meaning of 5 U.S.C. 552(a). When a denial is made at the request of another agency or division, and out of regard for its primary interest or expertise, the person in that agency or division responsible for the request to deny may also be a "person responsible for the denial" if, before his final recommendation is accepted, he is advised that he will be so designated under § 16.6(b)(2).

(c) *Extension of time.* In unusual circumstances as specified in this paragraph, the head of a division may extend the time for initial determination on requests up to a total of ten days (excluding Saturdays, Sundays, and legal public holidays). Extensions shall be granted in increments of five days or less and shall be made by written notice to the requester which sets forth the reason for the extension and the date on which a determination is expected to be dispatched. As used in this paragraph "unusual circumstances" means, but only to the extent necessary to the proper processing of the request—

(1) The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(2) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(3) The need for consultation, which shall be conducted with all practicable speed, with another agency or another division having substantial interest in the determination of the request, or the need for consultation among two or more components of the responsible division having substantial subject matter interest therein.

(d) *Treatment of delay as a denial.* If no determination has been dispatched at the end of the ten-day period, or the last extension thereof, the requester may deem his request denied, and exercise a right of appeal in accordance with § 16.7. When no determination can be dispatched within the applicable time limit, the responsible division shall nevertheless continue to process the request; on expiration of the time limit it shall inform the requester of the reason for the delay, of the date on which a determination may be expected to be dispatched, and of his right to treat the delay as a denial and to appeal to the Attorney General in accordance with § 16.7; and it may ask the requester to forego appeal until a determination is made.

(e) *Copies of extension notices and delay advisories maintained by Deputy Attorney General.* Copies of all extension notices issued under paragraph (c) of this section and delay advisories issued under paragraph (d) of this section shall be supplied to and maintained by the Deputy Attorney General.

(f) *Removal by Deputy Attorney General.* The Deputy Attorney General may remove any request or class of requests from the division to which it is referable under this part. The Deputy Attorney General may remove from a division the authority to grant extensions of time under this section. In event of such action the Deputy Attorney General shall perform the functions of the head of that division with respect to the removed requests or authority.

6. Section 16.6 is amended by revising paragraphs (b) and (d) as follows:

§ 16.6 Responses by divisions: Form and content.

* * * * *

(b) *Form of denial.* A reply denying a written request for a record shall be in writing, signed by the head of the responsible division (or other person authorized by regulation to deny requests) and shall include:

(1) *Exemption category.* A reference to the specific exemption or exemptions under the Freedom of Information Act authorizing the withholding of the record, a brief explanation of how the exemption applies to the record withheld, and, where relevant, a brief statement of why a discretionary release is not appropriate; and

(2) *Person responsible.* The name and title or position of the person or persons responsible for the denial under § 16.5(b), provided, that no person not an employee of the responsible division shall be so designated unless he has been advised that he will be so designated before his final recommendation is accepted; and

(3) *Administrative appeal and judicial review.* A statement that the denial may be appealed under § 16.7(a) within thirty days by writing to the Attorney General (Attention: Freedom of Information Appeals Unit), Department of Justice, Washington, D.C. 20530, that the envelope and letter should be clearly marked: "FREEDOM OF INFORMATION APPEAL" or "INFORMATION APPEAL," and that judicial review will thereafter be available in the district in which the requester resides or has his principal place of business or the district in which the agency records are situated or the District of Columbia. Provided, however, that a denial by the Office of the Watergate Special Prosecution Force shall instead of the foregoing describe any internal appeals procedure which it may establish or, in absence of such procedure, advise the requester that judicial review is available in the districts set forth above.

* * * * *

(d) *Copy of response to Deputy Attorney General.* The Deputy Attorney General shall be provided and shall maintain a copy of each denial letter; each notification under paragraph (c) of this section; and each letter advising the requester of the determination to grant the request, except such grant letters issued by the Board of Immigration Appeals, the Bureau of Prisons, the Immigration and Naturalization Service, and the Law Enforcement Assistance Administration.

7. Section 16.7 is revised as follows:

§ 16.7 Appeals to the Attorney General from initial denials.

(a) *Appeals to the Attorney General.* When a request for records has been denied in whole or in part by a head of a division or other person authorized to deny requests, the requester may, within thirty days of its receipt, appeal the denial to the Attorney General; except that no appeal to the Attorney General shall lie from a denial of a request for records of the Office of the Watergate Special Prosecution Force, which is hereby authorized to establish an internal appeals procedure. Appeal to the Attorney General shall be in writing, addressed to the Attorney General (Attention: Freedom of Information Appeals Unit), Department of Justice, Washington, D.C. 20530, and both the envelope and the letter shall be clearly marked: "FREEDOM OF INFORMATION APPEAL" or "INFORMATION APPEAL." An appeal not so addressed and marked will be so marked by Department personnel as soon as it is properly identified, and forwarded immediately to the Freedom of Information Appeals Unit. An appeal improperly addressed will not be deemed to have been received for purposes of the time period set forth in 5 U.S.C. 552(a)(6)(A)(ii) and for purposes of paragraph (b) of this section until the Appeals Unit receives the request or would have done so with the exercise of due diligence by Department personnel.

(b) *Action within twenty working days.* The Attorney General will act upon the appeal within twenty days (excluding Saturdays, Sundays and legal public holidays) of its receipt, unless an extension is made under paragraph (c) of this section.

(c) *Extension of time.* In unusual circumstances as specified in this paragraph, the time for action on an appeal may be extended up to ten days (excluding Saturdays, Sundays, and legal

XUM
V40-30 FEB 12 75
XUM

public holidays) minus any extension granted at the initial request level pursuant to § 16.5(c). Such extension shall be made by written notice to the requester which sets forth the reason for the extension and the date on which a determination is expected to be dispatched. As used in this paragraph "unusual circumstances" means, but only to the extent necessary to the proper processing of the appeal—

(1) The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(2) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(3) The need for consultation, which shall be conducted with all practicable speed, with another agency or another division having substantial interest in the determination o fthe request or the need for consultatio namong two or more components of the responsible division having substantial subject matter interest therein.

(d) *Treatment of delay as a denial.* If no determination on the appeal has been dispatched at the end of the twenty-day period or the last extension thereof, the requester is deemed to have exhausted his administrative remedies, giving rise to a right of review in a district court of the United States as specified in 5 U.S.C. 552(a)(4). When no determination can be dispatched within the applicable time limit, the appeal will nevertheless continue to be processed; on expiration of the time limit the requester shall be informed of the reason for the delay, of the date on which a determination may be expected to be dispatched, and of his right to seek judicial review in the United States district court in the district in which he resides or has his principal place of business, the district in which the Department records are situated or the District of Columbia. The requester may be asked to forego judicial review until determination of the appeal.

(e) *Form of action on appeal.* The Attorney General's determination on appeal shall be in writing. An affirmance in whole or in part of a denial on appeal shall include (1) a reference to the specific exemption or exemptions under the Freedom of Information Act authorizing the withholding of the record, a brief explanation of how the exemption applies to the record withheld, and, where relevant, a brief statement of why a discretionary release is not appropriate; and (2) a statement that judicial review of the denial is available in the district in which the requester resides or has his principal place of business, the district in which the agency records are situated or the District of Columbia.

(f) *Copies to Deputy Attorney General.* Copies of all appeals, all actions on appeal, all extension notices issued under paragraph (c) of this section, and all delay advisories issued under paragraph (d) of this section shall be supplied to and maintained by the Deputy Attorney General.

8. Section 16.8(c) is revised to read as follows:

§ 16.8 Maintenance of files.

* * * * *

(c) *Protection of privacy.* Where the release of the identity of a requester, or other identifying details related to a request, would constitute a clearly unwarranted invasion of personal privacy, the Deputy Attorney General shall delete identifying details from the copies of documents maintainod in the public file established under paragraph (b) of this section.

9. Section 16.10(b) is revised to read as follows:

§ 16.10 Exemptions.

* * * * *

(b)(1) In processing requests for information classified pursuant to Executive Order 11652, the responsible division shall review the information to determine whether it continues to warrant classification under the criteria of sections 1 and 5 (B), (C), (D), and (E) of the Executive Order. Information which no longer warrants classification under these criteria shall be declassified and shall not be withheld on the basis of 5 U.S.C. 552(b)(1). No record remaining classified after such review shall be withheld by a division on the basis of any exemption other than 5 U.S.C. 552(b)(1) unless in addition to such other exemption it is also asserted that the record is exempt under 5 U.S.C. 552(b)(1).

(2) The Freedom of Information Appeals Unit shall, upon receipt of any appeal from an initial denial based in whole or in part upon 5 U.S.C. 552(b)(1), refer to the Departmental Review Committee, established in Part 17 of this chapter, any portion of the request as to which that exemption was asserted at the initial level. Within ten days (excluding Saturdays, Sundays and legal public holidays) of receipt of such referral (unless such period is extended by the Deputy Attorney General), the Committee shall advise the Appeals Unit whether all or any portion of the material referred warrants continued classification under the criteria of Executive Order 11652.

(3) When a request for Department records encompasses information classified by another agency, or by a division of the Department other than the responsible division, the responsible division shall refer that portion of the request to the originating agency or division for determination as to all issues in accordance with the Freedom of Information Act. In the case of a referral to another agency under this paragraph, the requester shall be notified that such portion of his request has been so referred and that he may expect a determination from that agency. In the case of a referral to another division under this paragraph, the requester need not be notified, the original date of receipt of the request as established under this section shall continue to govern for purposes of all time limits, and the originating division shall advise the division receiving the request of its determination.

(5 U.S.C. 301; 5 U.S.C. 552 as amended by Public Law 93-502, 88 Stat. 1561)

Title 31—Money and Finance: Treasury

CHAPTER II—FISCAL SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER A—BUREAU OF GOVERNMENT FINANCIAL OPERATIONS

PART 223—SURETY COMPANIES DOING BUSINESS WITH THE UNITED STATES

Rule Making

In the FEDERAL REGISTER of January 3, 1975, at page 786, as corrected in the FEDERAL REGISTER of January 15, 1975, at page 2694, there was published a notice of proposed rule making to amend 31 CFR Part 223 (also appearing as Department Circular 297), governing surety companies doing business with the United States. Interested parties were given 30 days, ending on or before February 3, 1975, in which to submit written views or comments with regard to those amendments. As no written views or comments, requiring changes, were received during the 30 day period, the Department finds that there is no good cause to postpone the proposed amendments' stated effective date. Accordingly, the proposed amendments, as corrected, are hereby adopted, effective February 10, 1975.

In addition the Department finds it necessary to amend 31 CFR 223.12(b) by amending "(Chief Auditor)" to read "for Auditing". This change was inadvertently omitted from the Department's miscellaneous amendments to title 31 of the CFR, published at 39 FR 20964 on June 17, 1974, in accordance with the Fiscal Service reorganization as mandated by Treasury Department Orders No. 229 and 229-1, appearing at 39 FR 2280 and 39 FR 10454 respectively. The Department further finds that notice and public procedure respecting the amendment to 31 CFR 223.12(b) is not appropriate or necessary as it is essentially procedural and has minimal public effect.

Dated: February 6, 1975.

[SEAL] JOHN K. CARLOCK,
Fiscal Assistant Secretary.

Accordingly, notice is hereby given pursuant to 5 U.S.C. 553, that the Secretary of the Treasury is adopting, under authority of 5 U.S.C. 301 and 31 U.S.C. 453a, the following revisions to Part 223 of Subchapter A, Chapter II of Title 31 of the Code of Federal Regulations.

§ 223.22 [Amended]

1. In § 223.22: Amend "Fees shall be imposed and collected for the following services performed by the Treasury Department, whether the action requested is granted or denied, effective with requests submitted as of January 20, 1972" to read "The fees specified below shall be imposed and collected for services performed by the Treasury Department, whether the action requested is granted or denied, effective February 10, 1975."

2. Section 223.22 is amended by revising paragraphs (a) and (c) to read as follows:

(a) For examining a company's application for a certificate of authority as an acceptable surety on Federal bonds, or for examining a company's application for a certificate of authority as an acceptable reinsuring company on such bonds: $720 (see § 223.2).

* * * * *

(c) For determining the continuing qualifications for annual renewal of a company's certificate of authority: $495 (see § 223.3).

* * * * *

§ 223.1 [Amended]

3. In § 223.1: Amend "sureties on recognizances," to read "sureties on, or reinsurers, of recognizances".

§ 223.2 [Amended]

4. In § 223.2: Amend "A fee of $550 shall be transmitted" to read "A fee shall be transmitted".

§ 223.3 [Amended]

5. In § 223.3: Amend "the fee of $365 as prescribed" to read "the fee as prescribed", and add the paragraph designation "(a)" at the beginning of the text.

6. Section 223.3 is further amended by adding a new paragraph "(b)" at the end thereof which reads:

(b) If a company meets the requirements for a certificate of authority as an acceptable surety on Federal bonds in all respects except that it is a United States branch of a company not incorporated under the laws of the United States or of any State, or it is limited by its articles of incorporation or corporate charter to reinsurance business only, it may be issued a certificate of authority as a reinsuring company on Federal bonds. The fees for initial application and renewal of a certificate as a reinsuring company shall be the same as the fees for a certificate of authority as an acceptable surety on Federal bonds.

7. Section 223.5 is revised to read:

§ 223.5 Business.

(a) The company must engage in the business of suretyship whether or not also making contracts in other classes of insurance, but shall not be engaged in any type or class of business not authorized by its charter or the laws of the State in which the company is incorporated. It must be the intention of the company to engage actively in the execution of surety bonds in favor of the United States.

(b) No bond is acceptable if it has been executed (signed and/or otherwise validated) by a company or its agent in a State where it has not obtained that State's license to do surety business. Although a company must be licensed in the State or other area in which it executes a bond, it need not be licensed in the State or other area in which the principal resides or where the contract is to be performed. The term "other area" includes the Canal Zone, District of Columbia, Guam, Puerto Rico, and the Virgin Islands.

§ 223.11 [Amended]

8. Section 223.11(b)(2)(iii) is amended by deleting the period at the end thereof and by inserting ", or" in its stead.

9. Section 223.11(b)(2) is further amended by adding a new subdivision (iv) at the end thereof which reads:

(iv) An instrumentality or agency of the United States which is permitted by Federal law or regulation to execute reinsurance contracts.

§ 223.12 [Amended]

10. In § 223.12(a): Amend "the fee of $50 prescribed by" to read "the fee prescribed by".

11. In § 223.12(b): Amend "the fee of $50 prescribed by" to read "the fee prescribed by".

12. In § 223.12(c): Amend "A fee of $25 shall be transmitted" to read "A fee shall be transmitted".

§ 223.16 [Amended]

13. In § 223.16: Amend "(Chief Auditor)" to read "for Auditing".

Prior to adoption of the proposed amendments, consideration will be given to written views or arguments submitted to the Commissioner, Bureau of Government Financial Operations, U.S. Department of the Treasury, Washington, D.C. 20226, and received on or before February 3, 1975. Pursuant to 31 CFR 1.4 (h), comments submitted in response to this notice of proposed rule making are available to the public upon request, unless confidential status for the submission has been requested and approved.

(5 U.S.C. 301, 31 U.S.C. 483a (6 U.S.C. 6-13))

Title 32—National Defense

CHAPTER VII—DEPARTMENT OF THE AIR FORCE

SUBCHAPTER I—MILITARY PERSONNEL

PART 880—MEDICAL, DENTAL, AND VETERINARY CARE FROM CIVILIAN SOURCES

Miscellaneous Amendments

These amendments provide that health professionals applying for a commission in the USAF Medical Service may obtain physical examinations from a civilian source where no adequate military examining facility is available; eliminate the requirement for a "Certification of Duty Status" if the medical or dental care was obtained by the member after July 1, 1973; add procedure to be followed in obtaining spectacles when an eye refraction is obtained from a civilian source; and make other minor changes to update the Part.

Part 880, Subchapter I of Chapter VII of title 32 of the Code of Federal Regulations is amended as follows:

§ 880.0 [Amended]

1. Section 880.0(b) is amended by removing the phrase "active duty and retired uniformed service members and NATO Air Force members who are" and by substituting the phrase "eligible patients".

2. Section 880.0(c) is amended by removing the phrase "when Government veterinary services is unavailable".

3. In § 880.2 paragraph (f) is amended by adding the phrase "and loss of body tissue" at the end of the sentence, paragraph (g) is amended by removing the phrase "hemorrhoid-ectomies," and substituting the phrase "sterilization procedures, nontherapeutic abortions,", paragraph (i) is revised and paragraphs (m), (n), (o), and (p) are added as set forth below:

* * * * *

§ 880.2 Definitions.

* * * * *

(i) *Uniformed services.* The Air Force, Army, Navy, Marine Corps, Coast Guard (including uniformed service Academy Cadets and Midshipmen), the Commissioned Corps of the Public Health Service, and the Commissioned Corps of the National Oceanic and Atmospheric Administration.

6. Section 880.2(k) is amended by removing the phrase "North Atlantic Treaty" and substituting the phrase "NATO Status of Forces Agreement" and by removing "Iceland" from the list of nations.

* * * * *

(m) *Immediate nonemergency care.* Medical, surgical, or dental care for other than an emergency condition, which is necessary at the time and place for the health and well being of the member.

(n) *Deferred nonemergency care.* Medical or dental care such as eye refractions, immunizations, dental prophylaxis, and so forth.

(o) *United States.* The 50 states and the District of Columbia.

(p) OCHAMPUSEUR. The Executive Director, OCHAMPUSEUR, U.S. Army Command, Europe, APO New York 09403.

4. In § 880.4 paragraph (b) is amended by substituting paragraph (k) for paragraph (j), paragraph (c) is amended by removing "(Uniformed Services Health Benefits Program in Areas Other than the United States, Puerto Rico, Canada, Mexico, and Countries Within the U.S. European Command)" and substituting "(Health Benefits for Eligible Air Force Beneficiaries in Overseas Areas)", paragraph (e) is amended by adding the phrase "and are not itemized on the statement" after the phrase "When charges appear excessive", paragraph (f) is amended by removing subparagraphs (1) and (2) and substituting "(1) USAF

XUM V40-30 FEB 12 75 XUM

Members—AFMPC/DPMDERM, Randolph Air Force Base, Texas 78148" and by renumbering subparagraph (3) to make it subparagraph (2), and paragraph (d) is revised to read as set forth below:

§ 880.4 Policy.

* * * * *

(d) *Payment to civilian agencies.* Statements of charges for medical or dental care from civilian agencies are normally received by the Air Force medical facility nearest the civilian agency providing the medical or dental care, and processed for payment through the local accounting and finance office. However, if the statement of charges is initially received by another Air Force medical facility and sufficient information to process the account is available or readily obtainable, the account will be processed for payment there. Statements are not to be forwarded to another medical facility except under unusual circumstances and the civilian agency must be notified of the referral. In these cases, a letter of transmittal will be sent that will list the reason(s) why the statement could not be processed for payment. Statements will not be forwarded because the service member is not assigned to the base initially receiving the statement. In no instance will a statement for civilian medical or dental care provided in the United States be sent to an overseas installation for payment.

NOTE.—OCHAMPUSKUR pays for civilian medical care provided to active duty Air Force personnel in countries within the U.S. European Command, Africa, the Middle East, and the Malagasy Republic.

5. In § 880.6, paragraph (c) is amended by removing the sentences beginning with "An Air Force member * * *" and "Return to military control * * *" and paragraph (d) is added to read as follows:

§ 880.6 Care authorized from civilian sources.

* * * * *

(d) The services of chiropractors are not authorized.

6. Section 880.8 is amended by revising paragraph (a) and adding new paragraph (f) as set forth below:

§ 880.8 For whom authorized.

* * * * *

(a) Active duty Air Force personnel, including Air Force cadets, and NATO Air Force personnel listed in § 880.2(k).

* * * * *

(f) Health professionals applying for a commission in the USAF Medical Service may be provided physical examinations by qualified civilian physicians where no adequate military examining facility is available. Payment is made from funds available to the local USAF Recruiting Service.

7. Section 880.10 is revised to read as follows:

§ 880.10 Who authorizes.

Approval of civilian medical and dental attendance at Air Force expense is the responsibility of:

(a) *Emergency inpatient care.* The commander of the Air Force base, or his authorized representative, nearest the civilian medical facility providing the care. Emergency care will not be delayed pending approval (§ 880.14).

(b) *Emergency outpatient and immediate nonemergency care.* Advance approval is not required (§ 880.14).

(c) *Deferred nonemergency care.* The Air Force base commander, or his authorized representative, under whose jurisdiction the member is assigned; or the commander of the unit to which a member is assigned in cases where the member's organization is not at an Air Force base.

(d) *Supplemental care.* The director of base medical services.

8. Section 880.12 is revised to read as follows:

§ 880.12 When not authorized.

Civilian medical or dental care at Air Force expense is not authorized for:

(a) Elective treatment unless explicitly approved in advance by HQ, USAF/SG and the member's commander.

(b) Treatment when adequate medical or dental service is available from an Air Force or other Government medical or dental facility in the vicinity.

(c) Discharged members of the Air Force. When a discharged member received medical care for an illness or injury incurred while on active duty, he may apply for a correction of records to change his discharge date as provided by Part 865 of this chapter.

(d) Persons other than those stated in § 880.8. (For dependents and retired members see AFRs 168–9 and 168–4.)

(e) Air Force military personnel absent without leave (AWOL) prior to July 1, 1973, or in desertion status.

NOTE.—Effective July 1, 1973, charges for medical care received from civilian sources by a member in AWOL status may be paid from Air Force funds. Charges incurred while in AWOL status prior to July 1, 1973, remain the responsibility of the member. However, charges for medical care provided after return of the individual to military control may be made from Air Force funds. For the purpose of this part, return to military control may be actual (see Part 889 of this chapter) or constructive. Constructive return is effected when military authorities are notified of the presence of the individual in a civilian medical facility and action is taken regarding the disposition of the member, such as investigation of his condition or making a medical decision regarding disposition and treatment.

9. Section 880.14 is revised to read as follows:

§ 880.14 Emergencies.

Emergency and immediate nonemergency medical or dental care at Air Force expense may be obtained from a civilian source without advance authorization by or in behalf of Air Force members authorized in § 880.8. Emergency dental care is limited to treatment for the relief of pain and to prevent loss of oral tissue, treatment of acute septic conditions, essential correction of dental injuries, or damage to dental prostheses requiring immediate attention.

§ 880.16 [Amended]

10. Section 880.16(a) is amended by adding "Air Force" after "NATO" and by changing "AFR 168–19" to read "AFR 168–31".

§ 880.18 [Amended]

11. Section 880.18(c)(2) is amended by removing the word "Any" and substituting the word "Deferred".

(10 U.S.C. 8012)

By order of the Secretary of the Air Force.

STANLEY L. ROBERTS,
Chief, Legislative Division, Office of The Judge Advocate General.

Title 32A—National Defense Appendix

CHAPTER VI—DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION, DEPARTMENT OF COMMERCE

[DMS Reg. 1, Amdt. 2]

DMS REG. 1—BASIC RULES OF THE DEFENSE MATERIALS SYSTEM

Change in Schedule II, Authorized Program Identifications and Claimant and Sub-Claimant Agencies

SUMMARY STATEMENT

Amend Schedule II to DMS Reg. 1 to provide program identification symbol F–2 which has been authorized for certain items by the Federal Energy Administration for and related to development of Alaskan North Slope oil resources.

This amendment is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended (50 U.S.C. App. 2154). In the formulation of this amendment, consultation with industry has been rendered impracticable because this amendment applies to numerous trades and industries.

This amendment affects DMS Regulation 1 as revised July 1, 1974 (39 FR 23008) as amended (39 FR 36480) by inserting in Schedule II to DMS Regulation 1 the program identification F–2 which has been authorized for certain items sponsored by the Federal Energy Administration for and related to the development of Alaskan North Slope oil resources pursuant to the joint order dated September 23, 1974 (39 FR 34608) and joint notice dated December 30, 1974 (40 FR 267) as amended January 31, 1975 (40 FR 5409), issued by the Director, Office of Preparedness, General Services Administration and the Administrator, Federal Energy Administration.

Accordingly, Schedule II to DMS Regulation 1 is hereby amended to read as follows:

SCHEDULE II TO DMS REG. 1—AUTHORIZED PROGRAM IDENTIFICATIONS AND CLAIMANT AND SUB-CLAIMANT AGENCIES

(See sections 2(c), 3(5), 4(a), 5(a), and 14(b)).

The program identifications listed in this schedule have equal preferential status and are the only ones authorized under the Defense Materials System and the Defense Priorities System and must be used in accordance with this regulation, DPS Reg. 1 and other applicable regulations and orders of BDC.

The identifications are not listed in alphabetical or numerical sequence but are grouped by Claimant Agencies and Sub-Claimant Agencies. Within each group, the Claimant and Sub-Claimant Agencies listed in Column 3 are authorized to employ the program identifications listed in Column 1 in support of the programs listed in Column 2.

The full names of the Claimant Agencies and Sub-Claimant Agencies shown by initials in Column 3 are:

AEC—Atomic Energy Commission.
BDC—Bureau of Domestic Commerce.
CIA—Central Intelligence Agency.
FAA—Federal Aviation Administration.
NASA—National Aeronautics and Space Administration.

F-2	Certain items sponsored by the Federal Energy Administration for and related to the development of Alaskan North Slope oil resources.		

[1] State and local governments will be authorized to use the program identification D–2 only upon application to the Defense Civil Preparedness Agency of the Department of Defense, sponsorship by the Office of the Assistant Secretary of Defense (Installations and Logistics) and specific approval by Bureau of Domestic Commerce.

[2] Bureau of Domestic Commerce will administer these programs. (See paragraph 2 of joint order, dated Sept. 23, 1974, 39 F.R. 34608 and paragraph 5 of joint notice, dated Dec. 30, 1974, 40 F.R. 26, issued by the Director, Office of Preparedness, General Services Administration and the Administrator, Federal Energy Administration.)

(Joint order, dated September 23, 1974, (39 FR 34608) and joint notice dated December 30, 1974 (40 FR 26) as amended January 31, 1975 (40 FR 5409) issued by the Director, Office of Preparedness, General Services Administration, and the Administrator, Federal Energy Administration, Defense Production Act of 1950, as amended, (64 Stat. 816; 50 U.S.C. App. 2061 et seq.); Executive Order 10480, as amended, 18 FR 4939, 6201, 19 FR 3807, 7249, 21 FR 1673, 23 FR 5061, 6971, 24 FR 3779, 27 FR 9683, 11447, 3 CFR 1949–1953 Comp., p. 919; Executive Order 11725, 38 FR 17175; DMO 8400.1, 32A CFR 15; Department of Commerce Organization Order 10–3, 38 FR 33624, and 40–1, 39 FR 1871; Department of Commerce, Domestic and International Business Administration Organization and Function Orders 41–1, as amended, 39 FR 2780, 39 FR 18490, 45–1, 39 FR 18489, and 45–2, 39 FR 18489.)

DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION,
JOHN P. HEARNEY,
Acting Deputy Assistant Secretary for Domestic Commerce.

FEBRUARY 5, 1975.

[FR Doc.75-3718 Filed 2-11-75;8:45 am]

CHAPTER VI—DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION, DEPARTMENT OF COMMERCE

[DPS REG. 1, Amdt. 3]

DPS REG. 1—BASIC RULES OF THE DEFENSE PRIORITIES SYSTEM

Change in Schedule I—Authorized Program Identifications and Defense Agencies

This amendment is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended (50 U.S.C. App. 2154). In the formulation of this amendment consultation with industry has been rendered impracticable because this amendment applies to numerous trades and industries.

This amendment affects DPS Regulation 1, as revised July 1, 1974, (39 FR 23022) as amended, (39 FR 36480; 39 FR 41529) by inserting in Schedule I to DPS Regulation 1, the program identification F–2 which has been authorized for certain items sponsored by the Federal Energy Administration for and related to the development of Alaskan North Slope oil resources pursuant to the joint order, dated September 23, 1974 (39 FR 34608) and joint notice dated December 30, 1974 (40 FR 26) as amended January 31, 1975 (40 FR 5409) issued by the Director, Office of Preparedness, General Services Administration and the Administrator, Federal Energy Administration.

Accordingly, Schedule I to DPS Regulation 1 is hereby amended to read as follows:

SCHEDULE I TO DPS REG. 1—AUTHORIZED PROGRAM IDENTIFICATIONS AND DEFENSE AGENCIES

(See sections 2(1), 4(a), 12(a), and 12(b)).

The program identifications listed in this schedule have equal preferential status and are the only ones authorized under the Defense Priorities System and the Defense Materials System and must be used in accordance with this regulation, DMS Reg. 1 and other applicable regulations and orders of BDC.

The identifications are not listed in alphabetical or numerical sequence but are grouped by Defense Agencies. Within each group, the Defense Agencies listed in Column 3 are authorized to employ the program identifications listed in Column 1 in support of the programs listed in Column 2.

The full names of the Defense Agencies shown by initials in Column 3 are:

AEC—Atomic Energy Commission.
BDC—Bureau of Domestic Commerce.
CIA—Central Intelligence Agency.
FAA—Federal Aviation Administration.
NASA—National Aeronautics and Space Administration.

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER E—PESTICIDE PROGRAMS

[FRL 332-8]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

2,4-D; Correction

In FR Doc. 74-28899 appearing at page 43292 in the issue of Thursday, December 12, 1974, the phrase "to citrus fruits and from the postharvest application of the 2,4-D isopropyl ester" was inadvertently omitted for § 180.142(a) in the paragraph "5 parts per million • • •" in the seventh line after the word "ester". Therefore, the paragraph "5 parts per million • • •" is corrected to read as follows:

§ 180.142 2,4-D; tolerances for residues.

(a) • • •

5 parts per million in or on apples, citrus fruits, pears, and quinces. The tolerance on citrus fruits also includes residues of 2,4-D (2,4-dichlorophenoxyacetic acid) from the preharvest application of 2,4-D isopropyl ester and 2,4-D butoxyethyl ester to citrus fruits and from the postharvest application of 2,4-D isopropyl ester to lemons.

• • • • • •

Dated: February 5, 1975.

SUBCHAPTER G—TRANSPORTATION AND MOTOR VEHICLES

[FPMR Amdt. G-32]

PART 101-39—INTERAGENCY MOTOR VEHICLE POOLS

Revised Policy on Providing Agencies With Information Concerning Claim Action on Accidents

This regulation provides revised policy whereby (a) the GSA Regional Counsel no longer will provide copies of legal papers to an agency responsible for investigating an accident in which a party other than the operator of the motor pool system vehicle is at fault, and (b) a specific request from that agency is necessary before the GSA Regional Counsel will provide information concerning claim action.

Section 101-39.805 is revised as follows:

§ 101-39.805 Claims in favor of the Government.

Whenever there is any indication that a party other than the operator of the motor pool system vehicle is a fault, the agency responsible for investigating the accident shall submit all original documents and data pertaining to the accident and its investigation to the GSA Regional Counsel of the region that issued the vehicle. The Regional Counsel will initiate the necessary action to effect recovery of the Government claim. Upon specific request of the using agency, the GSA Regional Counsel will notify that agency of the introduction of the Government claim and provide pertinent information about the claim's progress and final settlement.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. This regulation is effective February 12, 1975.

Dated: February 3, 1975.

DWIGHT A. INK,
Acting Administrator of General Services.

CHAPTER II—BUREAU OF LAND MANAGEMENT

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5487]

[Sacramento 5264]

CALIFORNIA

Withdrawal of National Forest Recreation and Administrative Sites

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are hereby withdrawn from appropriation under the United States mining laws, 30 U.S.C. Ch. 2, but not from leasing under the mineral leasing laws, in aid of programs of the Department of Agriculture for recreation and administrative sites:

KLAMATH NATIONAL FOREST

HUMBOLDT MERIDIAN

Forks of Salmon Fire Station

T. 10 N., R. 7 E. (unsurveyed),
Sec. 13, portion thereof described as:
Beginning at a point located on the down river wing wall of the north abutment to the bridge crossing the North Fork of the Salmon River;
thence north 132 feet;
thence north 60° E., 132 feet;
thence north 50° E., 277.2 feet to an existing telephone pole;
thence east 158.4 feet to the waters edge of the North Fork of the Salmon River;
thence in a southwesterly direction along the river edge to the point of beginning.

MOUNT DIABLO MERIDIAN

Idlewild Campground

T. 40 N., R. 10 W. (unsurveyed),
Sec. 18, portion thereof described as:
Beginning at corner No. 2 of the Herbert Pinley Homestead Patent, H.E.S. 44;
thence north 0°47' E., 1320 feet;
thence east 660 feet;
thence south 0°47' W., 660 feet;
thence east 660 feet;
thence south 0°47' W., 1304 feet;
thence south 89°26' W., 329 feet to corner No. 4 H.E.S. 44;
thence north 45° W., 923 feet to corner No. 3 of H.E.S. 44;
thence west 330 feet to point of beginning.

Eddy Gulch Lookout

T. 39 N., R. 11 W. (unsurveyed),
Sec. 15, portion thereof described as:
Beginning at the northwest corner foundation supporting the northwest leg of the existing lookout tower;
thence north 50 feet;
thence west 50 feet;
thence south 300 feet;
thence east 200 feet;
thence north 300 feet;
thence west 150 feet to the point north 50 feet from the northwest foundation.

Sawyers Bar Administrative Site

T. 40 N., R. 11 W.,
Sec. 29;
Beginning at the C.E. ⅛ section corner of sec. 29;
thence south 89°19' W., 949 feet;
thence north 330 feet;
thence north 89°19' E. 949 feet;
thence south 330 feet to the point of beginning.

Bacon Rind Campground

T. 39 N., R. 11 W. (unsurveyed),
Sec. 21, portion thereof described as:
Beginning at a point of the Bacon Rind County Road 2E001, located at the inlet end of the 18" CMP culvert through which drains the Bacon Rind Stream;
thence north 54.0° E., 97 feet;
thence north 29.5° W., 139 feet;
thence north 47.0° W., 100 feet;
thence north 57.5° W., 200 feet;
thence south 89.0° W., 200 feet;
thence south 9.5° W., 138 feet;
thence south 45.0° E., 248 feet;
thence south 72.0° E., 210 feet;
thence north 69.0° E., 728 feet to the point of beginning.

Blue Ridge Lookout

T. 39 N., R. 12 W. (unsurveyed),
Sec. 11, portion thereof described as:
Beginning at the northeast corner foundation supporting the northeast leg of the existing lookout tower;
thence east 50 feet;
thence north 200 feet;
thence west 300 feet;
thence south 300 feet;
thence east 300 feet;
thence north 100 feet to the point E. 50 feet from the northeast corner foundation.

The areas described aggregate 56.3 acres of land in Siskiyou County.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of national forest lands under lease, license, or permit or governing the disposal of their mineral or vegetative resources other than under the mining laws.

FEBRUARY 6, 1975.

JACK O. HORTON,
Assistant Secretary of the Interior.

[Public Land Order 5488]

[Sacramento 5337]

CALIFORNIA

Withdrawal for Public Recreation Area

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described public lands, which are under the jurisdiction of the Secretary of the Interior, are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws, 30 U.S.C., Ch. 2, but not from leasing under the mineral leasing laws for protection of public values in connection with the South Yuba National Recreation Trail area:

MOUNT DIABLO MERIDIAN

T. 17 N., R. 9 E.,
Sec. 19, lots 1 and 2, NE¼, E½NW¼.

The area described aggregates 321.40 acres in Nevada County.

2. The withdrawal made by this order does not alter the applicability of the public land laws governing the use of the lands under lease, license or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

3. The withdrawal made by this order is subject to the withdrawal made by Powersite Reserve No. 88 of June 25, 1910, and to the provision that any definite plan of recreation development will be submitted to the Federal Power Commission before any structures or improvements are placed on the land.

JACK O. HORTON,
Assistant Secretary of the Interior.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER D—TARIFFS AND SCHEDULES

[Docket No. 35613[1]]

PASSENGER AND FREIGHT TARIFFS AND SCHEDULES

Miscellaneous Amendments

Regulations for the Transmission and Furnishing of Tariffs and Schedules to Subscribers and Other Interested Persons

At a General Session of the Interstate Commerce Commission, held at its office

[1] This proceeding embraces certain issues raised in Docket No. 35959, *Investigation of Charges for Furnishing Tariffs by Eastern Railroads*, discontinued February 27, 1974.

XUM
V40I30
FEB 12 75
XUM

in Washington, D.C., on the 30th day of January 1975.

Notice of the institution of this rulemaking proceeding was published in the March 8, 1974, issue of the FEDERAL REGISTER (39 FR 9205). The purpose of this notice was to announce our intention to consider the amendment of Parts 1300, 1303, 1304, 1306, 1307, 1308, and 1309 for the purpose of establishing therein regulations to govern the transmission and furnishing of tariffs and schedules to subscribers and other interested persons. The regulations proposed then would require the transmission by first-class mail of one copy of each new publication to each subscriber thereto not later than the time the copies for official filing are transmitted to the Commission and would require the furnishing without delay of a copy of any tariff or schedule to any person upon reasonable request therefor. A 4-day mailing delay would be permitted to transmit publications filed on less than 10 days' notice. It was proposed that the charge for furnishing the copy could not exceed the cost of mailing the copy by first-class mail.

The participation was very substantial. As the result of the comments received, we conclude that the proposed rules should be modified and the modified ones adopted.

The modified rules will provide that one copy of each new publication must be transmitted to each subscriber thereto by first-class mail (or other means agreed upon writing by subscriber and carrier or agent) not later than the time the copies for official filing are transmitted to the Commission. The 4-day mailing delay has been changed to five for publications filed on less than 10 days' notice. The charge for furnishing the copy would be shared by the subscriber and the carrier or agent, except that this would not apply to participating carriers as to a particular tariff. The modified rules are set forth in appendixes C through K. An interim period of 90 days has been allowed for carrier development of implementation procedures.

It appearing, That the notice of proposed rulemaking in this docket having been published in the March 8, 1974, issue of the FEDERAL REGISTER (39 FR 9205), a full investigation of the matters and things involved in this docket having been made, and the Commission on this date having entered its report setting forth its findings and conclusions, which report is hereby referred to and made a part thereof; therefore:

It is ordered, That Parts 1300, 1303, 1304, 1306, 1307, 1308, and 1309 of Chapter X of Title 49 of the Code of Federal Regulations be and they are hereby, amended as set forth below:

PART 1300—FREIGHT SCHEDULES: RAILROADS

§ 1300.30 [Amended]

1. Section 1300.30 is amended to read as set forth in appendix C. (12, 24 Stat. 383, as amended, 49 Stat. 546, as amended; (49 U.S.C. 12, 304); secs. 5, 6, 24 Stat. 380, as amended, 49 Stat. 560, as amended; (49 U.S.C. 5, 6, 317)).

PART 1303—PASSENGER SERVICE SCHEDULES: RAIL AND WATER CARRIERS

§ 1303.36 [Amended]

2. Section 1303.36 is amended to read as set forth in appendix D. (secs. 5, 6, 12, 24 Stat. 380, 49 Stat. 546, 560; secs. 304, 306, 54 Stat. 933; (49 U.S.C. 5, 6, 12, 304, 317, 906)).

PART 1304—EXPRESS COMPANIES SCHEDULES AND CLASSIFICATIONS

§ 1304.42 [Amended]

3. Section 1304.42 is amended to read as set forth in appendix E. (secs. 12, 24 Stat. 383, as amended, 49 Stat. 546, as amended; (49 U.S.C. 12, 304); secs. 5, 6, 24 Stat. 380, as amended, 49 Stat. 560, as amended; (49 U.S.C. 5, 6, 317)).

PART 1306—PASSENGER AND EXPRESS TARIFFS AND SCHEDULES OF MOTOR CARRIERS

§ 1306.17 [Amended]

4. Section 1306.17 is amended to read as set forth in appendix F. (secs. 204, 217, 218, 49 Stat. 546, as amended, 560, as amended, 561, as amended; (49 U.S.C. 304, 317, 318)), unless otherwise noted.

PART 1307—FREIGHT RATE TARIFFS, SCHEDULES, AND CLASSIFICATIONS OF MOTOR CARRIERS

Subpart A—Schedules of Motor Contract Carriers of Property

§ 1307.14 [Amended]

5. Section 1307.14 is amended to read as set forth in appendix G. (secs. 204, 217, 218, 49 Stat. 546, as amended, 561, as amended, sec. 210a, 52 Stat. 1238, as amended; (49 U.S.C. 304, 317, 318, 310a)), unless otherwise noted. Subpart B—Common Carrier Freight Tariffs and Classifications.

§ 1307.48 [Amended]

6. Section 1307.48 is amended to read as set forth in appendix H. (secs. 204, 217, 49 Stat. 546, as amended, 560, as amended, sec. 210a, as amended, 52 Stat. 1238, as amended; (49 U.S.C. 304, 317, 310a)).

PART 1308—FREIGHT TARIFFS AND SCHEDULES OF WATER CARRIERS

§ 1308.12 [Amended]

7. Section 1308.12 is amended to read as set forth in appendix I.

§ 1308.109 [Amended]

8. Section 1308.109 is amended to read as set forth in appendix J. (secs. 304, 306, 54 Stat. 933, 935; (49 U.S.C. 904, 906)).

PART 1309—TARIFFS AND CLASSIFICATIONS OF FREIGHT FORWARDERS

§ 1309.5 [Amended]

9. Section 1309.5 is amended to read as set forth in appendix K. (secs. 20, 24 Stat. 386, as amended, secs. 204, as amended, 217, as amended, 19a. as amended, 49 Stat. 546, as amended, 560, as amended, 563, as amended, secs. 403, 405, 413, 56 Stat. 285, 287, 295; (49 U.S.C. 20, 304, 317, 319, 1003, 1005, 1013)).

It is further ordered, That this order shall become effective 90 days from the date of service of this order to afford the carriers an opportunity to develop implementation procedures as explained in the report.

And it is further ordered, That notice of this order be given to the general public by mailing a copy to each party of record in docket No. 35613, to the Governor of every State and to the public utilities commissions or other regulatory commissions or boards of each State having jurisdiction over transportation, by depositing a copy in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, for public inspection, and by delivering a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to all interested persons.

This is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.75-3992 Filed 2-11-75;8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 946]

IRISH POTATOES GROWN IN THE STATE OF WASHINGTON

Proposed Redistricting and Reapportionment of Committee Membership

Consideration is being given to a proposal to redistrict and reapportion membership among districts on the State of Washington Potato Committee. This proposal was recommended by the committee which is the local administrative agency established pursuant to Marketing Agreement No. 113 and Order No. 946, both as amended (7 CFR Part 946). This program regulates the handling of Irish potatoes grown in the State of Washington and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

Statement of consideration. The order provides in § 946.31 that upon recommendation of the committee the Secretary may reestablish districts within the production area and may reapportion committee membership among various districts.

In recent years potato production in the State of Washington has increased in the Grant County area, due in part to the Columbia Basin Project. The Columbia Basin Project is a large-scale irrigation project being carried out by the U.S. Department of Interior's Bureau of Reclamation. Centered in Grant County, it was begun in the 1940's and currently has facilities completed and water available for over 500,000 acres. Additional land is under investigation for potential development.

The proposed new districts would be defined by county and township lines and the Columbia Basin Project's three irrigation districts with their distinct separation by topography, traffic flow and area awareness. Boundaries of the three irrigation districts are on file with the U.S. Department of the Interior and the local irrigation district offices and are well known to producers in the area. Also, each irrigation district maintains published statistical data showing Irish potato acreage, et cetera, which are not available in Crop Reporting Board releases.

In unanimously recommending redistricting and reapportionment at its September 18, 1974, public meeting, the committee had considered (1) the relative importance of new areas of production, (2) changes in the relative position, with respect to production of existing districts, (3) the geographic location of production areas as it would affect the efficiency of administering the marketing order program and (4) other relevant factors. The committee determined the proposed changes would result in more efficient administration of the program and provide greater equity of representation on the committee.

The proposed reapportionment would adjust producer committeemen from four to three in District No. 1, and from one to two in District No. 2. The remaining three districts' representation would be unchanged, as would the total number of committeemen. Also, handler representation would be unaffected by the reapportionment.

All persons who desire to submit written data, views or arguments in connection with these proposals shall file the same in duplicate with the Hearing Clerk, Room 112-A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than February 27, 1975. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposals are as follows:

1. A new § 946.103 is added to read as follows:

§ 946.103 Reestablishment of districts.

(a) Pursuant to § 946.31, on and after July 1, 1975, (1) the following new districts are established:

(1) District No. 1—the counties of Ferry, Stevens, Pend Oreille, Spokane, Whitman and Lincoln, plus the East Irrigation District of the Columbia Basin Project, plus the area of Grant County not included in either the Quincy or South Irrigation Districts which lies east of township vertical line R27E, plus the area of Adams County not included in either the South or Quincy Irrigation Districts.

(2) District No. 2—the counties of Kittitas, Douglas, Chelan and Okanogan, plus the Quincy Irrigation District of the Columbia Basin Project, plus the area of Grant County not included in the East or South Irrigation Districts which lies west of township line R28E.

(3) District No. 3—the counties of Benton, Klickitat and Yakima.

(4) District No. 4—the counties of Walla Walla, Columbia, Garfield and Asotin, plus the South Irrigation District of the Columbia Basin Project, plus the area of Franklin County not included in the South District.

(b) § 946.104 is revised to read as follows:

§ 946.104 Reapportionment of committee membership.

(a) Pursuant to § 946.25(c), membership representation of the State of Washington Potato Committee shall be reapportioned among the districts of the production area so as to provide the following members and their respective alternates:

(1) District No. 1—Three producer members and two handler members;

(2) District No. 2—Two producer members;

(3) District No. 3—Two producer members and one handler member;

(4) District No. 4—Two producer members and one handler member;

(5) District No. 5—One producer member and one handler member. The producer member and his alternate from District No. 5 shall each be a certified seed producer.

(b) The new districts are established in the current fiscal period only for the purpose of making nominations of committee members for the coming fiscal period. The new districts are to be established as operating entities beginning on July 1, 1975.

(c) The terms used in this section have the same meaning as when used in said marketing agreement and this part.

Dated: February 7, 1975.

CHARLES R. BRADER, *Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social and Rehabilitation Service

[45 CFR Part 220]

CHILD ABUSE AND NEGLECT

Proposed Service Programs and Requirements

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare. The proposed regulations implement provisions of Pub. L. 93-247, the Child Abuse Prevention and Treatment Act of January 31, 1974, and add four requirements for State plans for service programs under Title IV, Parts A and B, of the Social Security Act.

The Child Abuse Prevention and Treatment Act authorizes funds for special grants to the States for improving their programs relating to child abuse

XUM
V40I30
FEB 12 75
XUM

and neglect. To obtain the grants, a State must meet ten requirements, pursuant to clauses (A) through (J) of section 4(b)(2). Four of these requirements are applicable to programs under Title IV–A and B of the Social Security Act, pursuant to section 4(b)(3), which reads:

Programs or projects related to child abuse and neglect assisted under Part A or B of Title IV of the Social Security Act shall comply with the requirements set forth in clauses (B), (C), (E), and (F) of paragraph (2).

The cited clauses concern reporting of known and suspected instances of child abuse and neglect; prompt investigation and action to protect the child when such reports are received; methods to preserve the confidentiality of records; and cooperation among law enforcement officials, courts, and appropriate State agencies providing human services.

Regulations proposed by the Office of Child Development to implement other provisions of Pub. L. 93–247 were published in the FEDERAL REGISTER on August 28, 1974 (39 FR 31707). Final regulations were published on December 19, 1974 (39 FR 43935).

Consideration will be given to any comments, suggestions, or objections which are received in writing by the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, P.O. Box 2382, Washington, D.C. 20013 on or before March 14, 1975. Comments received will be available for public inspection in Room 5326 of the Department's offices at 330 C Street SW., Washington, D.C. on Monday through Friday of each week from 8:30 a.m. to 5:00 p.m. (area code 202–245–0950).

(Sec. 240(c), 81 Stat. 914 (42 U.S.C. 625); sec. 1102, 49 Stat. 647 (42 U.S.C. 1302))

(Catalog of Federal Domestic Assistance Program No. 13.707, Child Welfare Services; and 13.754, Public Assistance—Social Services)

Dated: December 30, 1974.

JAMES S. DWIGHT, Jr.,
Administrator, Social and Rehabilitation Service.

Approved: January 31, 1975.

CASPAR W. WEINBERGER,
Secretary.

A new § 220.12 is added to Part 220, Chapter II, Title 45 of the Code of Federal Regulations to read as follows:

§ 220.12 Provisions relating to child abuse and child neglect.

(a) A State plan under Title IV–A or IV–B of the Social Security Act must provide that:

(1) The State or local agency administering the program will provide for the reporting of known and suspected instances of child abuse and neglect and will comply with all State laws and legally binding administrative procedures regarding such reporting;

(2) Upon receipt of a report, from any source, of known or suspected instances of child abuse or neglect, the agency will initiate an investigation promptly to substantiate the accuracy of the report; and, upon a finding of abuse or neglect, take immediate steps to protect the health and welfare of the abused or neglected child, and that of any other child under the same care who may be in danger of abuse or neglect.

(3) The State or local agency administering the program will preserve the confidentiality of all records pertaining to known or suspected instances of child abuse or neglect in accordance with § 205.50 of this chapter, in order to protect the rights of the child and of his parents or guardians. For purposes, of this section, the requirements of § 205.50 of this chapter relating to Title IV–A shall also apply to Title IV–B; and

(4) The State or local agency administering the program will have written interagency agreements for cooperation with law enforcement officials, courts of competent jurisdiction, and other appropriate State and local agencies providing human services.

(b) For purposes of this section:

(1) "Child" means a person under the age of eighteen.

(2) "Child abuse and neglect" means harm or threatened harm to a child's health or welfare by a person responsible for the child's health or welfare.

(3) "Harm or threatened harm to a child's health or welfare" can occur through: non-accidental physical or mental injury; sexual abuse, as defined by State law; or negligent treatment or maltreatment, including the failure to provide adequate food, clothing, or shelter. *Provided, however,* That a parent or guardian legitimately practicing his religious beliefs who thereby does not provide specific medical treatment for a child, for that reason alone shall not be considered a negligent parent or guardian. However, such an exception shall not preclude a court from ordering that medical services be provided to the child, where his health requires it.

(4) "Person responsible for a child's health or welfare" means the child's parent, guardian, or other person responsible for the child's health or welfare, whether in the same home as the child, a relative's home, a foster care home, or a residential institution.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Parts 25, 121]

[Docket No. 9611; Notice No. 75–3]

TRANSPORT CATEGORY AIRPLANES

Smoke Emission From Compartment Interior Materials

The Federal Aviation Administration is considering amending Parts 25 and 121 of the Federal Aviation Regulations (FARs) to establish standards for the smoke emission characteristics of compartment interior materials used in transport category airplanes. An advance notice of proposed rule making was published on July 30, 1969 (Notice 69–30; 34 FR 12450), soliciting the views of all interested persons on four questions which the FAA believed would elicit information, in addition to that developed by the FAA, upon which to base a notice of proposed rule making. All comments received have been considered in the formulation of the rules proposed herein.

Interested persons are invited to participate in the making of the proposed rules by submitting such written data, views or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC–24, 800 Independence Avenue SW., Washington, D.C. 20591. All communications received on or before May 12, 1975, will be considered by the Administrator before taking action on the proposed rules. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments in the Rules Docket, for examination by interested persons.

E. I. du Pont de Nemours & Co. (du Pont), in a petition for rule making dated June 26, 1968, recommended the adoption of a smoke emission standard that would be based on the National Bureau of Standards (NBS) nonflaming and flaming smoke generation tests. In its petition, du Pont stated that its evaluations supported the conclusion "that conditions could exist in which interior materials would be the primary source of smoke in an aircraft cabin. Such a condition could result when burnthrough of the cabin occurs as a result of its exposure to the side of a vertical flame front. In that case little fuel smoke would enter the cabin and the smoke producing energy within the cabin initially would be predominantly radiant energy. The FAA agrees that smoke emission standards for cabin interior materials could enhance safety in those and other circumstances and, by this Notice, is proposing to amend Parts 25 and 121 to adopt smoke emission standards that would be applicable to cabin interior materials used in transport category airplanes. However, the FAA has found that the standard recommended by du Pont, that an optical density of D_s=16, as calculated by the NBS, not be exceeded within two minutes, would unnecessarily preclude the use of so many materials that it would place an unreasonable burden on aircraft manufacturers and air carrier operators. Accordingly, different standards are being proposed by this Notice. In order to facilitate consideration and comment on the proposed standards, the comments received in response to the questions asked in Notice 69–30 are discussed below:

Question No. 1 as stated in Notice 69–30:

Are there aircraft interior materials now available that, in like circumstances, emit appreciably less smoke than currently used materials, but that still meet the flame resistance standards prescribed in § 25.853 of the Federal Aviation Regulations?

Subsequent to the publication of Notice 69–30, Amendment 25–32 (37 FR 3964) amended § 25.853 by revising the flame resistance standards of that section. The commentators' responses to the question do not contain sufficient detail from which the FAA can evaluate the effects, if any, of that amendment on the currency of those answers. However, the FAA has conducted a survey of the smoke emission characteristics of numerous available cabin materials in nine major categories of use, and has determined that aircraft interior materials are available that emit appreciably less smoke than currently used materials. The FAA believes that the establishment of the proposed smoke emission standards will eliminate those materials that emit appreciably more smoke than the other materials without imposing an undue burden on the industry. It also appears that materials that meet the proposed standards will be available in sufficient quantity and variety to meet reasonable design goals.

Question No. 2 as stated in Notice 69–30:

Are there test methods that can correctly and consistently measure the smoke emission characteristics of aircraft interior materials?

The responsive comments to this question are divided fairly equally between affirmatives and negatives. Those commentators responding in the affirmative generally favored the use of the NBS Smoke Test Apparatus, although a few made reference to the XP–2 Smoke Density Chamber.

Those commentators answering this question in the negative contend, in general, that no known test method correctly measures smoke emission characteristics of materials as they might be related to an aircraft fire. Factors relied upon for these conclusions included the limited dimensions and configuration of samples that could be tested, failure of any of the test methods to account for possible interactions among materials, and the absence of many influences that might be present in an actual aircraft fire. Some of these commentators recommended a full scale model approach to testing. The FAA recognizes the merit of many of the positions taken by the commentators in this regard. However, such a test would not, in all probability, duplicate all or even necessarily any conditions that may occur in the case of an actual crash fire. A smoke emission standard based on one of the known test methods, while it may not eliminate all safety hazards resulting from smoke emission, can enhance safety.

The specimen test conditions used in the NBS Smoke Test Apparatus more closely approximate conditions which might be expected in an aircraft cabin fire than do those of the XP–2 chamber or other available smoke tests. Specimens are exposed to a combination of open flame and radiant heat in a manner in which cabin furnishings might be exposed during an aircraft fire, and the test results yield a cumulative measure of smoke within the test chamber that may be considered representative of the manner in which smoke might accumulate in an aircraft cabin. In this connection, a comment recommended that the allowable smoke contribution of a material should be allocated on the basis of its relation to the cabin interior environment as a whole. The FAA does not agree. The possible complexity of post-crash fires and the many different modes of fire actions that may be involved make it impracticable to determine the relationships between specific materials and the cabin interior environment as a whole during a fire.

Question No. 3 as stated in Notice 69–30:

Would it be feasible to standardize on one of these test methods to determine compliance with a specified smoke emission standard?

The positions taken by commentators on this question generally reflected their positions on question No. 2. Those answering the question affirmatively recommended the test method they felt gave the most correct and consistent results as the test upon which to standardize; those who contended there was no test method that gave correct and consistent results generally advocated further investigation before adoption of a standard. Some comments reflected the commentators belief that the presently known test methods require the use of equipment that is both very costly and in short supply. In this connection it was suggested that any rule incorporating a specific test method as a standard also provide for correlation of test results performed using other equipment. The FAA does not agree. There are more than 50 of the NBS smoke chambers in use; no data have been presented that indicate that the expense involved in its use is unreasonable in view of the safety benefits to be derived; and no data have been presented that indicate that test results achieved by one test method can be correlated with those achieved by another.

Question No. 4 as stated in Notice 69–30:

Using this standard test method, what level of smoke emission performance should be specified?

Those comments that made reference to a specific level focused on achieving critical visibility level of D_s=16 in not less than two minutes. It was suggested that such a standard was incompatible with the requirements of § 25.803 that all passengers and crewmembers can be evacuated within 90 seconds. The FAA does not agree. The level of smoke emission allowed during testing is not a prediction of the smoke levels that may exist throughout the aircraft cabin during a fire. In addition, as pointed out in the discussion relating to other questions, there are other factors such as availability of materials that must be considered. The levels proposed herein are based on the present state of the art and on assuring availability of a sufficient variety of materials to allow a reasonable design flexibility while screening out those that contribute great amounts of smoke under test conditions.

Several commentators recommended that any rule adopted by the FAA regarding smoke emission of cabin interior materials also include standards relating to the toxicity of emissions. Some commentators objected to a smoke emission rule not including toxicity standards because they believed toxicity to be a more serious problem than smoke. The National Transportation Safety Board, however, pointing out that asphyxiation by smoke has been a leading cause, and sometimes the only cause, of fatalities in a number of aircraft accidents, recommended the adoption of smoke emission standards. The FAA recognizes that toxic gas emission from burning cabin interior materials can pose grave hazards to the safety of occupants, and, by an advance notice of proposed rule making (Notice 74–38, 39 FR 45044), is instituting rulemaking procedures in that connection.

A number of commentators noted that human ability to see through smoke depends not only on the smoke density but also on the loss of visual acuity resulting from the effects of eye irritants carried in the smoke. It was suggested that the rule account for this eye irritant effect so that the smoke emission standards would realistically relate to cabin visibility. The FAA recognizes that there are a number of variables affecting the ability of an individual to see through smoke and that, of these variables, the effects of irritants on visual acuity are significant although largely unpredictable. However, at the present time, it is beyond the state of the art to formulate a rule relating all the variables in such a way as to predict the actual ability of an individual to see in a smoke filled cabin. The proposed rules, therefore, do not account for the many complex physiological factors involved in determining human visual acuity. Rather the intent is to set forth a repeatable standardized test for measurement of the resistance of smoke to the passage of light so that materials producing an unacceptable amount of smoke may be screened out.

The rules proposed herein would require that certain materials used in each compartment occupied by the crew or passengers meet certain test criteria pertaining to smoke emission. The materials to be tested would be specified either in terms of their use in a compartment or in terms of processes involved in their manufacture. Each subject material would be tested in accordance with National Bureau of Standards Technical Note 708, "Interlaboratory Evaluation of Smoke Density Chamber," issued December, 1971, Appendix II, "Test Method for Measuring the Smoke Generation Characteristics of Solid Material," dated September, 1971. The document may be examined at FAA Headquarters, 800 Independence Avenue SW., Washington, D.C.

XUM
V40-30 FEB 12 75 XUM

20591, and at FAA Regional Office of the Chief, Engineering and Manufacturing Branch (or in the case of the Western Region, the Chief, Aircraft Engineering Division; or in the case of the Europe, Africa, and Middle East Region, the Chief, Aircraft Certification Staff). Copies may be obtained from A165 Instrument Laboratory, National Bureau of Standards, Washington, D.C. 20234, in limited quantities, free of charge, or from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, for a price of $0.75 (SD Catalog No. C 13.46:708). The FAA has found that this test method more closely approximates conditions that might be expected to exist in an aircraft cabin fire than do other known test methods. Furthermore, the FAA has not found that correlation may be established between the selected method and other known test methods. Additions to, or variations in, the NBS test procedure for specific materials would be provided in the rules.

Two commentators, noting that smoke from wire insulation can fill a passenger compartment in cases involving minor fires or even overheated wires without fire, recommended that electrical wiring be included among the materials required to be tested for smoke emission. It was contended that wire and cable insulations are now available that emit appreciably less smoke than many currently used materials and yet meet flame resistance standards. These commentators stated that the NBS chamber could be used for smoke emission testing of wire in a manner similar to that used for compartment interior materials. The FAA agrees that smoke emission standards are appropriate for electrical wire and cable insulation installed in the fuselage area, and, accordingly, the test method and smoke emission limits for such insulation are proposed herein.

The proposed rules would require that all subject materials be tested and, except for textiles, air ducting, thermal insulation and insulation covering, and electrical wire and cable insulation, be shown to produce an optical density (D_s) of not more than 200 within four minutes, except that if the maximum specific optical density is reached within 90 seconds the maximum may not exceed 100, in order to be used in a transport category airplane compartment interior. The limiting optical density for textiles (including draperies and upholsteries), air ducting, and thermal insulation and insulation covering would be 100 within four minutes after start of the test, and for electrical wire and cable insulation would be 15 within 20 minutes after start of the test. The FAA believes that adoption of these limits will screen out the heavy smokers thereby substantially improving safety, in circumstances where smoke from burning compartment interior materials is a hazard, without unduly hampering the achievement of other reasonable design goals.

In addition to the type certification requirements being proposed, the FAA believes that retrofit provisions are necessary to ensure that cabin interiors are upgraded with respect to the smoke emission characteristics of the compartment interior materials. Under present § 121.312, an airplane for which application for type certificate was filed after the effective date of a smoke emission amendment, upon overhaul or refurbishing, would be required to be in compliance with the smoke emission rule under which it was type certificated, while an older airplane would not be required to retrofit to any smoke emission standard. So that airplanes, for which application for certificate was filed prior to the effective date of the smoke emission amendment, may be brought up to a corresponding level it is proposed to require installation of materials meeting smoke emission standards in conjunction with overhaul or refurbishing, but to allow a reasonable time for the development and implementation of a materials replacement schedule. Accordingly, the proposal would require that the retrofit of cabin interior materials to meet smoke emission requirements be completed by no later than the first major overhaul or refurbishing occurring 5 years or more after the effective date of the amendment. However, since electrical wire and cable insulation is not subject to wear and tear and refurbishment in service to the extent that cabin materials are, provision for retrofit of electrical insulation is not being proposed at this time.

The contents of this Notice do not affect items being considered in the 1974–75 FAA Biennial Airworthiness Review Program.

This notice of proposed rule making is issued under the authority of sec. 313 (a), 601, and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend Parts 25 and 121 of the Federal Aviation Regulations as follows:

1. By amending § 25.853 by adding a new paragraph (g) to read as follows:

§ 25.853 Compartment interiors.

• • • • •

(g) Materials listed in this section must be tested for smoke emission in accordance with the applicable portions of Appendix F of this part. The specific optical density, D_s, determined in accordance with the test, may not exceed the following values:

(1) 100 within 4 minutes after start of the test for textiles (including draperies and upholstery), air ducting, and thermal insulation and insulation covering.

(2) 200 within 4 minutes after start of the test, except that if the maximum specific optical density in reached within 90 seconds after start of the test that maximum may not exceed 100, for interior ceiling panels, interior wall panels (including window reveals), partitions, large cabinet walls, materials used in the construction of stowage compartments (other than underseat stowage compartments and compartments for stowing small items such as magazines and maps), seat cushions, padding, structural flooring, floor covering, transparencies, parts constructed of elastomeric materials, and thermoformed parts.

2. By amending § 25.1359 by adding a new paragraph (e) to read as follows:

§ 25.1359 Electrical system fire and smoke protection.

• • • • •

(e) Insulation on electrical wire and cable installed in any area of the fuselage must be tested for smoke emission in accordance with the applicable portions of Appendix F of this part. The specific optical density, D_s, determined in accordance with the test, may not exceed 15 within 20 minutes after start of the test.

3. By amending Appendix F of Part 25 by adding a new paragraph (i) to read as follows:

Appendix F

• • • • •

(i) *Smoke emission test in compliance with §§ 25.853(g) and 25.1359(e).*

(1) All materials required to be tested for smoke emission must be tested in accordance with the following:

(i) Except as otherwise provided in this Appendix, National Bureau of Standards (NBS) Technical Note 708, "Interlaboratory Evaluation of Smoke Density Chamber," December 1971, Appendix II, "Test Method for Measuring the Smoke Generation Characteristics of Solid Material," dated September 1971, which is incorporated by reference herein in accordance with 5 U.S.C. 552(a)(1). The document may be examined at FAA Headquarters, 800 Independence Avenue SW., Washington, D.C. 20591, and at FAA Regional Offices of the Chief, Aircraft Engineering and Manufacturing Branch (or in the case of the Western Region, the Chief, Aircraft Engineering Division; or in the case of the Europe, Africa, and Middle East Region, the Chief, Aircraft Certification Staff). Copies may be obtained from A165 Instrument Laboratory, National Bureau of Standards, Washington, D.C. 20234, in limited quantities, free of charge, or from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402, for a price of $0.75 (SD Catalog No. 13.46:708).

(ii) Specimen conditioning for test must be in accordance with paragraph (a) of this Appendix instead of the conditioning specified in NBS Technical Note 708.

(iii) Each test must be conducted with the material in the flaming or non-flaming condition, whichever produces the greater amount of smoke.

(iv) At least 3 specimens of a material must be tested and the results averaged to determine compliance with the applicable smoke emission limit.

(2) For compartment interior materials specified in § 25.853(g), the following additional smoke emission test requirements must be met:

(i) In each test, the specimen surface producing the greatest amount of smoke must be exposed to the heat source.

(ii) Thick foam parts, such as seat cushions, must be tested in ½ inch thickness.

(3) For electrical wire and cable insulation specified in § 25.1359(e), the following additional smoke emission test requirements must be met:

(i) Each specimen tested must consist of a 10-foot length of 20 gage wire or cable, with insulation, of the specification to be qualified for the airplane.

(ii) For testing, each specimen must be wrapped tightly around an open frame metal fixture, Figure 1 of this appendix, designed to form 20 turns of wire on ¼-inch center spacings with the loose ends of the wire extending into the center opening of the fixture. The open frame containing the wire must be backed by aluminum foil, leaving one side exposed, and placed in the specimen holder with the exposed side facing the heat source.

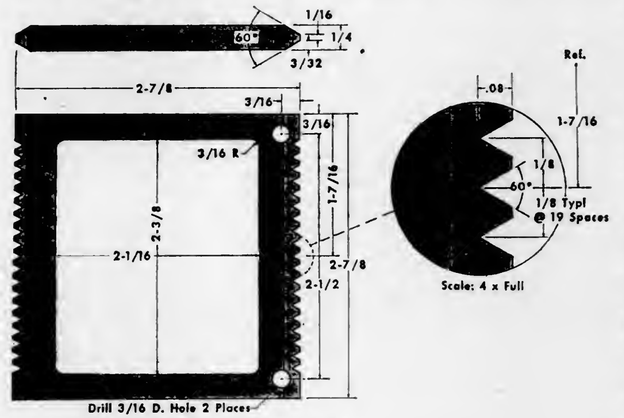

Figure 1

Details of Wire Holding Fixture for Airframe

4. By amending § 121.312 by designating the present text as paragraph (a), redesignating present paragraphs (a) and (b) as subparagraphs (1) and (2) respectively, and adding a new paragraph (b) to read as follows:

§ 121.312 Materials for compartment interiors.

• • • • •

(b) In addition to the requirements of paragraph (a) of this section, for an airplane for which the application for type certificate was filed prior to (the effective date of this amendment), upon the first major overhaul of the airplane cabin or refurbishing of the cabin interior occurring after (the date 5 years after the effective date of this amendment), all materials that do not meet the requirements of § 25.853(g) of this Chapter in effect on (the effective date of this amendment) must be replaced with materials that meet these requirements.

Issued in Washington, D.C., on February 4, 1975.

C. R. MELUGIN, Jr.,
Acting Director,
Flight Standards Service.

[14 CFR Part 39]

[Docket No. 14306]

ROLLS ROYCE ENGINES

Proposed Airworthiness Directive

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Rolls-Royce RB211 engines. There have been reports of high power primary engine surge, caused by high friction loads in the variable inlet guide vanes (VIGV) actuating mechanism, that could result in damage to that mechanism and to compressor rotor blades and stator vanes with corresponding loss of engine thrust. Since this condition is likely to exist or develop in other engines of the same type design, the proposed airworthiness directive would require modification of the VIGV actuating mechanism, the intermediate pressure compressor inlet guide vanes, and the intermediate compressor stator vanes.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue, SW., Washington, D.C. 20591. All communications received on or before March 14, 1975, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

This amendment is proposed under the authority of secs. 313(a), 601, and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); and of sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

ROLLS ROYCE (1971) LIMITED. Applies to Rolls Royce RB211 series engines, serial numbers 10389 and prior.

Compliance required by December 31, 1975, unless already accomplished.

To prevent high power surge and possible damage to the variable inlet guide vanes (VIGV) actuating mechanism and to rotor blade tips and stator vanes, caused by friction in the VIGV mechanism, accomplish the following:

1. Modify the inlet guide vane spherical trunnions, bearing pads, actuating rings, and bearing support segments in accordance with Rolls-Royce (1971) Limited Service Bulletin RB211-72-3326, dated November 14, 1973, or later CAA-approved revision, or an FAA-approved equivalent.

2. Modify the intermediate pressure (IP) compressor inlet guide vanes in accordance with Rolls-Royce (1971) Limited Service Bulletin RB211-72-3335, Revision 2, dated March 12, 1974, or later CAA-approved revision, or an FAA-approved equivalent.

3. Modify the IP compressor stator vanes in the 4th and 5th stage stator assemblies in accordance with Rolls-Royce (1971) Limited Service Bulletin RB211-72-3482, dated April 9, 1974, or later CAA-approved revision, or an FAA-approved equivalent.

Issued in Washington, D.C. on February 3, 1975.

C. R. MELUGIN, Jr.,
Acting Director,
Flight Standards Service.

[14 CFR Part 71]

[Airspace Docket No. 75-SO-10]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Mayfield, Ky., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before March 14, 1975, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at

XUM
V40130
FEB 1275
XUM

the Federal Aviation Administration, Southern Region, Room 645, 3400 Whipple Street, East Point, Ga.

The Mayfield transition area would be designated as:

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Mayfield-Graves County Airport (latitude 36°46'03" N., longitude 88°35'05" W.)

The proposed designation is required to provide controlled airspace protection for IFR operations at Mayfield-Graves County Airport. A prescribed instrument approach procedure to this airport, utilizing the Cunningham, Ky. VORTAC, is proposed in conjunction with the designation of this transition area. If the proposed designation is determined acceptable, the airport authorization will be changed from VFR to IFR.

This amendment is proposed under the authority of Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on February 4, 1975.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.75-3884 Filed 2-11-75;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74-NW-27]

VOR FEDERAL AIRWAYS

Proposed Extension

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would extend several airways in the area of central Idaho via a VOR/DME to be established near Salmon, Idaho, at lat. 45°01'17" N., long. 114°05'00" W.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Northwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Wash. 98108. All communications received on or before March 14, 1975 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would:

1. Extend V-113 from Boise, Idaho, to Butte, Mont., via Salmon, Idaho.
2. Extend V-121 from McCall, Idaho, to Dillon, Mont., via Salmon, Idaho.
3. Extend V-231 from Missoula, Mont., to Burley, Idaho, via Salmon, Idaho.
4. Extend V-520 from Lewiston, Idaho, to Jackson, Wyo., via Salmon, Idaho, and Dubois, Idaho.
5. Rescind V-328 from Dubois, Idaho, to Jackson, Wyo. V-520 would overlie this route.

The proposed amendment would provide shorter airways between:

1. Salt Lake City, Utah, and Missoula, Mont.
2. Dubois, Idaho, and Lewiston, Idaho.
3. Butte, Mont., and Boise, Idaho.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on February 6, 1975.

F. L. CUNNINGHAM,
Acting Chief, Airspace and Air Traffic Rules Division.

[Docket No. MC-55; Notice No. 75-3]

DRIVERS IN LEASE OR INTERCHANGE SERVICE

Notice of Proposed Rulemaking

In this, the second, notice of proposed rulemaking in this docket, the Director of the Bureau of Motor Carrier Safety is proposing to amend the provisions of the Federal Motor Carrier Safety Regulations relating to use of drivers, other than regularly employed drivers, by commercial motor carriers who operate in interstate or foreign commerce.

On April 11, 1974, the Director issued a notice, inviting interested persons to submit comments on proposed amendments to § 391.65 of the Federal Motor Carrier Safety Regulations (39 FR 13900). Section 391.65 specifies the conditions under which one motor carrier may use a driver furnished, and regularly employed, by another motor carrier without first taking all the steps necessary to ensure that the driver is fully qualified under Part 391 of the Regulations. The purpose of § 391.65 was to make special provision for the common practice of augmenting motor carrier equipment and service by leases and interchanges of equipment. Under lease and interchange arrangements, a motor carrier may contract with another motor carrier for the use of the latter's equipment for a specified period of time. It is common practice for the carrier who furnishes the equipment to supply a driver to operate it. Because the driver's qualifications have been established by the carrier who furnishes the equipment, § 391.65 permits the carrier using the equipment also to use the driver in his service without first going through the procedures to ensure that the driver is fully qualified under Part 391, if the using carrier secures a certificate of qualification from the carrier who regularly employs the driver.

As stated in the Notice, the principal problem addressed by the April 11, 1974, proposal was the practice of issuing permanent qualification certificates to drivers so that they can drive for other motor carriers. Many comments in response to the Notice indicate that the practice of issuing certificates for that purpose is far more widespread than the Bureau had originally assumed. The comments disclosed not only widespread issuance of permanent or semipermanent qualification certificates but also a significant number of instances in which drivers were being employed under § 391.63 in violation of the intent with which that section was authored. Section 391.63 created several exemptions to the usual driver-qualification rules for the purpose of allowing carriers to use drivers on an intermittent, casual, or occasional basis without full compliance with requirements pertaining to investigations and inquiries into the character and background of newly employed drivers. It appears, however, that a number of motor carriers have applied this special exception to virtually all part-time drivers, without regard to whether the use of those drivers is really intermittent, casual, or occasional.

These practices threaten to undermine the primary foundation on which the present driver-qualification system rests: motor carriers are responsible for checking into the qualifications of every person who seeks employment as the driver of a commercial motor vehicle and for ensuring that the person is qualified to drive safely under prescribed criteria before he is permitted to drive a commercial motor vehicle in interstate or foreign commerce. In addition, since a driver may become unqualified or disqualified at any time, the motor carrier who employs a driver is under a continuous duty to monitor the driver's qualifications to ensure that he is not permitted or required to drive while he lacks the requisite qualifications to do so under the driver-qualification rules in Part 391 of the Regulations.

The Regulations do not preclude a driver from driving commercial motor vehicles on behalf of more than one motor carrier. In general, drivers are free to "moonlight" or to find additional employment during vacation times, while they are laid off, or when they are on strike. But when a driver drives for a second carrier, the latter has the same duty to examine and investigate the driver's qualifications as does his principal employer. The only exceptions to this general rule are found in the above-mentioned provisions for intermittent, casual, or occasional drivers and for drivers in lease or interchange service.

The Bureau recognizes that the driver-qualification requirements place substantial impediments in the path of free

mobility of the driver force from one job to another. The Bureau also realizes that compliance with the rules entails paperwork and overhead expense for motor carriers. But the burdens of continuous surveillance of the qualifications of drivers, both at the time they are first employed and thereafter throughout their tenures, are clearly related to fulfilling the statutory mandate to regulate qualifications of drivers as part of the motor carrier safety program. The alternative to the present system, after all, would be a Federal licensing program. Institution of such a program might well entail costs, paperwork and other burdens that far exceed those now in existence. Hence, it is in the best interest of motor carriers and drivers to participate in good faith in the present driver-qualification system.

As noted above, comments to this docket, as well as the Bureau's own investigation, have disclosed the existence of large, and unintended, loopholes in the driver-qualification system. The problems have arisen through misuse of the exemptions found in §§ 391.63 and 391.65. Many carriers have advised the Bureau that they routinely issue qualification certificates to all drivers, effective for the period of time the driver is employed by that carrier. Some carriers issue a certificate to any driver, upon request, so that he can use it to secure another driving job while he is on vacation or laid off. These practices are, as noted above, contrary to the purpose of the Bureau of instituting the special exemption provisions in § 391.65. The purpose of that section was to facilitate lease and interchange operations, not to create a pool of drivers whose qualifications are not the responsibility of any employer.

The April 1974 Notice proposed to attack this practice by restricting the maximum duration of a qualification certificate to a period of 30 days. Comments on that proposal said that such a restriction would be unduly burdensome in the case of a motor carrier engaged in extensive lease and interchange operations. The Director agrees that such may be the case; at the same time he believes that some time limit on the validity of certificates is necessary to prevent their misuse. The Bureau now proposes to require each certificate to bear an expiration date not later than the date on which the driver's current medical examiner's certificate expires.

The proposal would also require the expiration date of the medical certificate to appear on the face of the certificate. This requirement is imposed because, under the revision of § 391.65 under consideration, the using carrier would no longer have to secure, and keep on file, a copy of the medical certificate. Since the carrier that furnishes the driver would be responsible for making the using carrier aware of any facts which may render the driver unqualified during the period he is in the employ of the using carrier, it seems appropriate to require the carrier issuing the qualification certificate to state, on its face, the period during which the driver's current medical certificate will remain in force. Compliance with this requirement will eliminate the need for a copy of the medical certificate to be given to the using carrier, thereby saving paperwork and filing. An additional reason for requiring a statement of the expiration date of the driver's medical certificate is the fact that physicians have in some cases conditioned certification of a driver's medical status on the requirement that he undergo a medical examination more frequently than the biennial period specified as minimal in § 391.45 of the Regulations.

Many of the comments suggested that the driver's social security number should appear on the qualification certificate. The Bureau has no objection to placing that number on the certificate, and the sample certificate included in the proposal contains space for inserting it. However, the Bureau at this time does not intend to make it mandatory for issuing carriers to put the social security number on the certificate.

As noted above, § 391.65 would, under this proposal, be explicitly limited to cover only drivers in lease and interchange service. In all other circumstances, the only basis on which a driver who is regularly employed by one motor carrier could drive for another carrier without first going through full qualification procedures would be under § 391.63, which covers drivers employed on an intermittent, casual, or occasional basis. The Director is proposing to modify § 391.63 also, to ensure that its coverage is restricted to drivers who are truly employed intermittently, casually, or occasionally. Specifically, he proposes to preclude a driver who is regularly employed by the motor carrier, or a driver who has been employed by the carrier to drive on more than 60 days during the preceding year, from classification as an intermittent, casual, or occasional driver. Those drivers would have to be fully qualified before the carrier could use their services.

In consideration of the foregoing, the Director of the Bureau of Motor Carrier Safety proposes to amend §§ 391.51, 391.63, and 391.65 of the Federal Motor Carrier Safety Regulations (Subchapter B of Chapter III in title 49, CFR) as set forth below.

Interested persons are invited to submit written data, views, or arguments relating to the proposed amendments. All comments should refer to the docket number and notice number appearing at the top of this document. Comments should be submitted in three copies to the Director, Bureau of Motor Carrier Safety, Federal Highway Administration, U.S. Department of Transportation, Washington, D.C. 20590. All comments submitted before the close of business on April 14, 1975, will be considered before further action is taken on the proposed amendments. Comments will be available for examination by any interested person in the public docket of the Bureau of Motor Carrier Safety, Room 3401, 400 Seventh Street SW., Washington, D.C., both before and after the closing date for comments.

This notice of proposed rulemaking is issued under the authority of section 204 of the Interstate Commerce Act, as amended, 49 U.S.C. 304, section 6 of the Department of Transportation Act, 49 U.S.C. 1655, and the delegations of authority by the Secretary of Transportation and the Federal Highway Administrator at 49 CFR 1.48 and 389.4, respectively.

Issued on January 31, 1975.

ROBERT A. KAYE,
Director,
Bureau of Motor Carrier Safety.

I. Paragraph (e) of § 391.51 would be revised to read as follows:

§ 391.51 Driver qualification files.

• • • • • •

(e) The qualification file for a driver furnished by another motor carrier incident to a lease or interchange of equipment and employed under the rules in § 391.65 must include a copy of the certificate specified in that section, certifying that the driver is fully qualified to drive a motor vehicle under the rules in this part.

• • • • • •

II. Section 391.63 would be revised to read as follows:

§ 391.63 Intermittent, casual, or occasional drivers.

(a) If a motor carrier employs a person to drive a motor vehicle for a single trip or on an intermittent, casual, or occasional basis, the motor carrier must comply with all the rules in this part with respect to the qualifications of that person, except that the motor carrier need not:

(1) Require the person to furnish an application for employment in accordance with § 391.21;

(2) Make the investigations and inquiries specified in § 391.23 with respect to that person;

(3) Perform the annual review of the person's driving record required by § 391.25; or

(4) Require the person to furnish a record of violations or a certificate in accordance with § 391.27.

(b) Before a motor carrier permits or requires a person described in paragraph (a) of this section to drive a motor vehicle, the motor carrier must obtain his name, his social security number, and the identification number, type, and issuing State of his motor vehicle operator's license. The motor carrier must retain that information in its files for 3 years after the person's employment by the motor carrier.

(c) A person is employed by a motor carrier to drive a motor vehicle on an intermittent, casual, or occasional basis, as specified in paragraph (a) of this section, if:

(1) The person is not a regularly employed driver (as defined in § 395.2(f) of this subchapter) of that motor carrier; and

XUM
V40I30
FEB 12 75
XUM

(2) The person was employed by the motor carrier to drive a motor vehicle on less than 61 of the preceding 365 days.

III. § 391.65 would be revised to read as follows:

§ 391.65 Drivers furnished by other motor carriers in lease or interchange service.

(a) The rules in this section apply to the use of a driver who is regularly employed by a motor carrier (the "furnishing carrier") and who is employed by another motor carrier (the "using carrier") to drive a motor vehicle incident to a lease or interchange of the motor vehicle between the furnishing carrier and the using carrier.

(b) The using carrier may employ a driver to whom the rules in this section apply without first complying with the rules in subparts A–F of this part with respect to that driver if:

(1) The driver is fully qualified to drive a motor vehicle under the rules in this part; and

(2) Before the driver is employed by the using carrier, the furnishing carrier supplies the using carrier with a certificate of qualification with respect to the driver that conforms to the rules in paragraphs (c) and (d) of this section.

(c) The certificate of qualification must:

(1) Be in substantially the form specified in paragraph (d) of this section;

(2) Be issued by the furnishing carrier and be signed by an authorized officer or employee of that carrier;

(3) State the name of the driver;

(4) Certify that the driver is regularly employed by the furnishing carrier;

(5) Certify that the driver is fully qualified to drive a motor vehicle under the rules in Part 391 of the Federal Motor Carrier Safety Regulations;

(6) State the date upon which the driver's current medical examiner's certificate expires; and

(7) Specify an expiration date for the certificate which shall not be later than the expiration date of the driver's current medical examiner's certificate.

The certificate may also contain the driver's social security number. The certificate may be either a separate document (which the driver may carry), or it may be part of the agreement between the furnishing carrier and the using carrier for lease or interchange of equipment.

(d) Form of certificate of qualification:

CERTIFICATE OF QUALIFICATION

FOR DRIVER IN LEASE OR INTERCHANGE SERVICE

(name of driver)

(social security number)

I certify that the above-named driver is regularly employed by me and is fully qualified to drive a motor vehicle under Part 391, Federal Motor Carrier Safety Regulations. His current medical examiner's certificate expires on ----------

(date)

This certicate expires:

(date not later than expiration date of medical certificate)

Issued on ------ Issued by----------

(date) *(name of carrier)*

(address)

(signature) *(title)*

(e) A using carrier who obtains a certificate of qualification under the rules in this section must retain a copy of the certificate in its files for 3 years from and after the date the certificate was obtained.

(f) A furnishing company who issues a certificate of qualification under the rules in this section must:

(1) Make no false statement or false representation in the certificate; and

(2) Notify a using carrier who holds an unexpired certificate pertaining to a driver of any facts which render the driver unqualified or disqualified under the rules in this part.

CIVIL AERONAUTICS BOARD

[14 CFR Parts 372, 373, 378]

[SPDR-41; Docket No. 27480; Dated: February 7, 1975]

OVERSEAS MILITARY PERSONNEL CHARTERS, STUDY GROUP CHARTERS AND CHARTERERS, AND INCLUSIVE TOUR CHARTERS

Notice of Proposed Rule Making

Notice is hereby given that the Civil Aeronautics Board has under consideration a proposal to amend the various parts of its regulations, insofar as they presently permit escrowed charter deposits to be invested in securities publicly traded on an exchange, so as to (1) permit such funds to be invested also in bank certificates of deposit, and (2) revise the method of determining the maximum extent to which escrowed funds may be so invested.

The principal features of the proposed rule are set forth in the attached Explanatory Statement and the proposed amendment is set forth in the proposed rule. The amendment is proposed under authority of sections 101(3), 204(a), 401 and 402 of the Federal Aviation Act of 1958, as amended, (72 Stat. 737, 743, 754 and 757, as amended, 49 U.S.C. 1301, 1324, 1371 and 1372).

Interested persons may participate in the proposed rule making through submission of twelve (12) copies of written data, views, or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before March 31, 1975, will be considered by the Board before taking final action upon the proposed rule. Copies of such communications will be available for examination of interested persons in the Docket Section of the Board, Room 710, Universal Building, 1825 Connecticut Avenue NW, Washington, D.C., upon receipt thereof.

Individual members of the general public who wish to express their interest as consumers by participating informally in this proceeding, may do so through submission of comments in letter form to the Docket Section at the above indicated address, without the necessity of filing additional copies thereof.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND, *Secretary.*

EXPLANATORY STATEMENT

Certain of our special regulations governing the operation of various types of charters require their organizers, authorized to act as indirect air carriers, to provide security for safeguarding charter customers' advance payments by either posting a bond, or by an arrangement which involves posting a bond in combination with a bank depository agreement. When the latter type of security arrangement is used, the regulations governing Overseas Military Personnel Charters (Part 372), Study Group Charters (Part 373), and Inclusive Tour Charters (Part 378) permit such escrowed funds to be invested in "Federal, State, or Municipal bonds, or other negotiable securities which are publicly traded on a securities exchange," provided that such "other" securities may be substituted for cash in an amount not greater than 80 percent of their market value at the time of their deposit.[1]

The Board has tentatively concluded that a bank certificate of deposit (CD) should be as suitable for the investment of escrowed funds as are the "other" securities which these regulations currently permit to be substituted for cash in the escrow account. Particularly in light of recent developments in the security markets, there appears to be no adequate basis for regarding CD's, as a class, to be any less stable, secure or liquid than are such "other" securities, as a class. Accordingly, the Board proposes to amend §§ 372.24(a)(2)(ii)(*f*), 373.15(b)(2)(viii) and 378.16(b)(2)(viii) so as to permit investment of escrowed funds in CD's, in the same manner and to the same extent as such funds may be invested in "other" negotiable securities.

The Board also proposes to amend the method of determining the maximum extent to which escrowed funds may be so invested: In lieu of the present method, which limits investments in "other" securities to 80 percent of the value of the securities, we propose instead to permit escrowed funds to be invested in such "other" securities or CD's in an aggregate amount not exceeding 80 percent of the funds in the escrow account, thereby requiring that 20 percent of the funds of the escrow account be retained in cash.

[1] The rules governing Travel Group Charters (Part 372a) have never permitted escrowed funds to be invested, because of our belief that cash should be fully available at any time to meet the needs of participants in charters operated under that rule.

Similarly, we propose to amend the proviso so as to require that, should the value of these securities decrease, from time to time, then additional cash or securities must be deposited in the escrow account.

It should be specifically noted that if the Board determines to adopt the amendments proposed herein, with respect to its rules governing certain existing types of charters, then the same amendments will duly be made upon our adoption of any rulemaking proposals which may be pending at the time the within proceeding is concluded, and which include comparable security provisions.

It is proposed to amend the Board's Special Regulations (14 CFR Parts 372, 373 and 378) as follows:

PART 372—OVERSEAS MILITARY PERSONNEL CHARTERS

1. Amend § 372.24(a)(2)(ii)(*f*) as follows:

§ 372.24 Surety bond, depository agreement, escrow agreement.

(a) • • •
(2) • • •
(ii) • • •

• • • • • •

(*f*) Notwithstanding any provisions above, the amount of total cash deposits required to be maintained in the depository account of the bank may be reduced by one or both of the following: The amount of surety bond in the form prescribed herein in excess of the minimum bond required by subdivision (i) of this subparagraph; an escrow with the designated bank of Federal, State, or municipal bonds or other negotiable securities, consisting of bank certificates of deposit or securities which are publicly traded on a securities exchange, such securities to be made payable to the escrow account: *Provided,* That such other negotiable securities shall be substituted in an amount no greater than 80 percent of the total market value of the escrow account at the time of such substitution: *And provided, further,* That should the market value of such other negotiable securities subsequently decrease, from time to time, then additional cash or securities qualified for investment hereunder shall promptly be added to the escrow account, in an amount equal to the amount of such decreased value.

PART 373—STUDY GROUP CHARTERS BY DIRECT AIR CARRIERS AND STUDY GROUP CHARTERERS

2. Amend § 373.15(b)(2)(viii) as follows:

§ 373.15 Surety bond.

• • • • • •
(b) • • •
(2) • • •

• • • • • •

(viii) Notwithstanding any provisions above, the amount of total cash deposits required to be maintained in the depository account of the bank may be reduced by one or both of the following: The amount of surety bond in the form prescribed herein in excess of the minimum bond required by subdivision (i) of this subparagraph; an escrow with the designated bank of Federal, State, or municipal bonds or other negotiable securities, consisting of bank certificates of deposit or securities which are publicly traded on a securities exchange, such securities to be made payable to the escrow account: *Provided,* That such other negotiable securities shall be substituted in an amount no greater than 80 percent of the total market value of the escrow account at the time of such substitution: *And provided, further,* That should the market value of such other negotiable securities subsequently decrease, from time to time, then additional cash or securities qualified for investment hereunder shall promptly be added to the escrow account, in an amount equal to the amount of such decreased value.

PART 378—INCLUSIVE TOUR CHARTERS

3. Amend § 378.16(b)(2)(viii) as follows:

§ 378.16 Surety bond.

• • • • • •
(b) • • •
(2) • • •

• • • • • •

(viii) Notwithstanding any provisions above, the amount of total cash deposits required to be maintained in the depository account of the bank may be reduced by one or both of the following: The amount of surety bond in the form prescribed herein in excess of the minimum bond required by subdivision (i) of this subparagraph; an escrow with the designated bank of Federal, State, or municipal bonds or other negotiable securities, consisting of bank certificates of deposit or securities which are publicly traded on a securities exchange, such securities to be made payable to the escrow account: *Provided,* That such other negotiable securities shall be substituted in an amount no greater than 80 percent of the total market value of the escrow account at the time of such substitution: *And provided, further,* That should the market value of such other negotiable securities subsequently decrease, from time to time, then additional cash or securities qualified for investment hereunder shall promptly be added to the escrow account, in an amount equal to the amount of such decreased value.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 20350; FCC 75-125; RM-2345]

TELEVISION SERVICE FOR STATE OF NEW JERSEY

Notice of Inquiry and Proposed Rule Making

In the Matter of petition for inquiry into the need for adequate Television Service for the State of New Jersey.

1. On March 4, 1974, the New Jersey Coalition for Fair Broadcasting (Coalition) filed a petition for inquiry into the need for adequate television service for the State of New Jersey. The petition was assigned rule making number RM–2345 and public notice of its acceptance was made on April 9, 1974. Upon request of the Office of Newark Studies, the time for filing responses was extended to May 31, 1974.

2. In its petition the Coalition asks the Commission to conduct public hearings in New Jersey, either en banc or by designating a single Commissioner to hear witnesses and certify transcripts of the hearing to the full Commission. In the alternative, the Coalition requests that such hearings be held before the Commission en banc or a designated Commissioner, in Washington, or that the Commission take such other actions as may be consistent with and fulfill the objectives of the petition.

3. Section V of the petition proposes three alternative methods that the Commission should investigate for bringing VHF service to New Jersey, as follows:

A. Investigate short spacing new channels as means of providing New Jersey with commercial VHF service.

B. Investigate the reallocation of existing commercial VHF stations to New Jersey.

C. Investigate hyphenated dual-community commercial VHF service between New Jersey and existing out-of-state stations.

4. In short, the Coalition urges the Commission to hold public hearings either in New Jersey or Washington, D.C., or to take whatever other action it sees fit, and it suggests three means of obtaining VHF channel assignments for New Jersey. Two of the three alternatives proposed have serious and complex technical implications which are addressed in the petition only by references to previous Commission actions which may or may not be germane to the actions proposed by petitioner. We therefore must make a determination as to whether all issues can be investigated simultaneously or whether they should be separated and, if separated, their order of priority. In so doing, the matter of timely schedules must be taken into account if indeed public hearings are to be considered. There is the possibility that a public hearing record directed only to the need or lack of need for television service might well be of no practical benefit because of the absence of engineering data which, contrary to some pleadings, must be obtained and evaluated.

5. In view of the foregoing, we have decided to adopt this Notice of Inquiry covering the matters set forth in paragraph 3 above. In this inquiry, parties are expected to specifically address the technical aspects of the alternatives and deal with such problems as what the effects of short-spaced assignments would be, what the effect of reallocation of channels would be, etc. The subject matter of the notice of proposed rule-making will cover only the second and

XUM
V40I30
FEB 12 75
XUM

third alternatives, namely, the possibility of reallocating existing commercial VHF assignments to the State of New Jersey and of hyphenating channel assignments between communities in New Jersey and communities outside of the State.

6. The Coalition's petition sets forth the propositions that New Jersey constitutes an important and self-contained commercial, political and cultural community with its own particular problems, needs and interests that require specific television broadcast service designed to meet them; that New Jersey residents currently have inadequate television service; that this inadequacy of service is caused by a unique lack of any commercial VHF television allocation, the current disuse of its commercial UHF allocations, the inability of the State's noncommercial allocations to provide all of the services that are provided by commercial outlets; that the commercial VHF channels allocated to neighboring states fail to provide adequate New Jersey-oriented service; and that the Commission has a clear duty to redress such an inequitable distribution of broadcast services. On these matters we invite comments in both the Notice of Inquiry and the Notice of Proposed Rule Making. In addition to comments as to the benefits which might accrue to the people of New Jersey by adoption of the proposals, we invite comments from parties in New York, Pennsylvania and Delaware as to the effect of the proposals, if adopted, on service in those states. The broader issues which have been raised by several of the interested parties are more appropriately addressed in a more general proceeding[1] now under consideration by the Commission.

7. For the information of interested parties, we list below the following documents that were received in response to the public notice of the acceptance of the instant petition (RM-2345) and characterize each filing briefly:

(a) Statement of Group W Westinghouse Broadcasting Company concerning the broadcast service provided by Station KYW-TV (Philadelphia) to the New Jersey portion of its service area.

(b) Opposition to petition for inquiry by Metromedia, Inc. Metromedia urges the Commission to refrain from instituting the inquiry sought by petitioner on the following grounds: The existing scheme of television allocations does not unfairly discriminate against New Jersey viewers; the New Jersey situation is not unique in any meaningful respect; petitioners have understated the level of television service which is available to New Jersey viewers; petitioners suggested remedies ignore economic and engineering realities and petitioners have wholly failed to establish the need for an inquiry into New Jersey television service.

(c) The Association of Maximum Service Telecasters, Inc. (MST), in its comments, states that it does not oppose consideration of the adequacy of New Jersey's television service, but it believes that no consideration should be given to any remedy that entails derogation from the Commission's mileage separation requirements. MST vigorously opposes an alternative which involves short-spacing stating that the Commission has never sanctioned derogations remotely approaching the magnitude of those that would be required to meet petitioners objectives. MST avers that the alternative of reallocating a New York or Philadelphia station to a New Jersey community suggested in the petition could be implemented without moving the transmitter site, or with such a small change in transmitter location that it would not result in any short-spacing. MST does not object to consideration of such a reallocation as long as it does not result in short-spacing. MST feels that hyphenating a New York or Philadelphia station assignment would not involve any derogation from required separations.

(d) The American Broadcasting Companies, Inc. (ABC), states that its New York station WABC-TV has made a sincere and continuing effort to accommodate the needs and interests of its New Jersey viewers in accord with an agreement entered into between WABC-TV and the New Jersey Coalition (May 12, 1972). ABC cites the Sixth Report and Order (paragraph 460) where the Commission, consistent with its distinction between UHF and VHF facilities (St. Louis Telecast, Inc., 12 RR 1289, 1369 (1957)) declined to move a VHF channel from Chicago, Illinois, to Gary, Indiana. Similarly ABC cites St. Louis Telecast, Inc. (12 RR 1369-70) as an articulation of the Commission's policy on the allocation of television facilities to metropolitan areas. It is ABC's belief that it would not be appropriate in an investigative proceeding or hearing, to reconsider such fundamental policy decisions.

(e) Part of the pleadings in this matter is a letter from Joseph Sivo, 1404 Manhattan Avenue, Union City, New Jersey. Mr. Sivo places a complaint against the three major networks CBS, NBC, and ABC, wherein he states the networks failed to cover a musical concert in Union City, New Jersey.

(f) The National Black Media Coalition (NBMC) urges the Commission to immediately assign commercial VHF channels to the state of New Jersey. NBMC seeks a thorough revision of the TV assignment table with a view not to technical priorities but instead to human rights—particularly the right of every American to a community with which he can identify in a meaningful way. It suggests the use of low powered television stations. New York and Philadelphia, according to NBMC, could easily support 2 or 3 times the number of TV stations now on the air. In support of this, NBMC suggests the assignment of 20-30 UHF channels to New York and Los Angeles. NBMC requests the Commission to extend the inquiry requested by petitioner to include an examination of the harm done to residents of large, distinct cities overshadowed by larger ones which contain all the area's TV stations, and that in its initial investigation of the New Jersey case, it include the problems of Delaware. NBMC further requests the appointment of a working task force consisting of and representing members of the general public, for the purpose of studying the nation's television assignments and recommending a new schedule of assignments, and assign this task force appropriate staff and funds with which to accomplish its goal.

(g) The Director of the UCLA Communications Law Program (CLP) notifies the Commission that its extensive Los Angeles television market study has produced data which tend to support the petition of inquiry filed by the New Jersey Coalition. CLP points out that its study of Los Angeles television reveals that the Los Angeles stations fail to provide programming from or about Orange County in a manner similar to that found between New York and Philadelphia stations with regard to programming from or about New Jersey. CLP suggests that while focusing specifically on New Jersey the Commission could well develop data and solutions pertinent to the problem of under-reported areas like Orange County.

(h) Brendan T. Byrne, Governor of the State of New Jersey, filed comments urging the Commission to act favorably on the petition submitted by the New Jersey Coalition for Notice of Inquiry. Governor Byrne contends that New Jersey, sandwiched as it is between two dominant metropolitan centers, is looked upon in the newsrooms more often as a suburban satellite and commuter haven than as a separate, important political and social entity with its own problems and needs. Reference is made to a 1973 study by the Eagleton Institute of Politics showing that New Jersey citizens could recognize the candidates in the New York mayoralty race much more readily than they could recognize the major party New Jersey gubernatorial candidates.

(i) Kenneth Gibson, mayor of the City of Newark, contends that New Jersey, the eighth most populous state, is serviced by six commercial New York stations and three Philadelphia stations yet only about 5 percent (a slightly higher figure in Philadelphia) of the news and public affairs programming relates to New Jersey. Mr. Gibson points to letters of agreement between the New York and Philadelphia stations and the New Jersey Coalition (in particular with the licensee of Channel 13) much of which he claims has been unfulfilled.

(j) Letter comments were received from Roger L. Miller and Constance A. Miller urging that the Commission give the matter the utmost consideration.

(k) Senator Clifford P. Case (N.J.) advised by letter that in his view the petition clearly demonstrates the necessity for a VHF television service geared toward the needs and problems of New Jersey.

8. This notice of inquiry and notice of proposed rulemaking will provide a comment period of sixty days and a period for reply comments of thirty days. After the initial comment period the Commission will determine whether to hold public hearings and, if so, the manner in which they will be held.

9. Authority for the adoption of this Notice of Inquiry and notice of proposed rule making is contained in sections 4(i) and (j), 303, 307(b) and 403 of the Communications Act of 1934, as amended.

10. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before April 14, 1975 and reply comments on or before May 14, 1975. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this Notice.

11. In accordance with the provisions of § 1.419 of the rules, an original and 14 copies of all comments, replies, pleadings, briefs, and other documents shall be furnished the Commission. All filings in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its Headquarters, 1919 M Street, NW., Washington, D.C.

Adopted: January 30, 1975.

Released: February 6, 1975.

STANDARD FOR EXPOSURE TO INORGANIC ARSENIC

Notice of Proposed Rulemaking

Correction

In FR Doc. 75-1727 appearing at page 3392 in the issue for Tuesday, January 21, 1975, make the following changes:

(1) On page 3399, the first word in the last line of column two should read "lead".

2. On page 3402, § 1910.03(o) (1) (v) the fifth paragraph in the second column should read as follows:

(v) Emergency procedures as required by paragraph (l) of this section; and

3. On page 3403, § 1910.93(t) (the first full paragraph in the second column) should read as follows:

(t) *Effective date.* This standard shall become effective 30 days following publication of the final standard in the FEDERAL REGISTER.

4. On page 3404, in the third column, the last three lines of the fifth paragraph should read "tion of X-rays which shall be given only annually; and annually for all other employees exposed above the action level."

5. On page 3404, in the third column, the eighth paragraph (paragraph 2.) should be transferred down so that it follows paragraph 1. (the last paragraph in the third column.)

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

ART ADVISORY PANEL OF THE COMMISSIONER OF INTERNAL REVENUE

Determination of Necessity for Renewal

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776, 5 U.S.C. App. I Supp. II), the Commissioner of Internal Revenue announces the renewal of the following advisory committee:

Title: The Art Advisory Panel of the Commissioner of Internal Revenue.

Purpose: The Panel assists the Internal Revenue Service by reviewing and evaluating the acceptability of property appraisals submitted by taxpayers in support of the fair market value claimed on works of art involved in Federal Income, Estate or Gift taxes in accordance with sections 170, 2031, and 2512 of the Internal Revenue Code of 1954.

It has been determined, that pursuant to section 10(d) of the Federal Advisory Committee Act, Pub. L. 92-463, all discussions and records of the Panel having to do with the value of a work of art involved in a federal tax return are concerned with matters listed in section 552(b) of Title 5 of the U.S. Code. Consequently, the meetings at which such matters are discussed and the records of such meetings should not be open. This is necessary to protect the confidentiality of tax returns under 26 U.S.C. 6103 and 7213 and the regulations thereunder.

Statement of Public Interest: It is in the public interest to continue the existence of the Art Advisory Panel. The membership of the Panel is balanced between museum directors and art dealers to afford differing points of view in determining fair market value.

Authority for this Panel will expire two years from the date the charter is approved by the Assistant Secretary of the Treasury for Administration and filed with the appropriate congressional committee unless the Commissioner of Internal Revenue formally determines that continuance is in the public interest.

DONALD C. ALEXANDER,
Commissioner.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Wyoming 49444]

WYOMING

Notice of Application

FEBRUARY 5, 1975.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), Colorado Interstate Corporation has applied for a natural gas pipeline right-of-way across the following lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 58 N., R. 100 W.,
Sec. 30, lot 4 and SE¼SW¼;
Sec. 32, N½NE¼.
T. 58 N., R. 102 W.,
Sec. 24, S½N½.

The pipeline will convey natural gas from a well in sec. 23, T. 58 N., R. 102 W. to an existing pipeline in sec. 33, T. 58 N., R. 100 W., all in Park County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should send their name and address to the District Manager, Bureau of Land Management, P.O. Box 119, Worland, WY 82401.

PHILIP C. HAMILTON,
Chief, Branch of Lands and Minerals Operations.

[FR Doc.75-3935 Filed 2-11-75;8:45 am]

COLORADO INTERSTATE GAS CO.

Notice of Pipeline Application

FEBRUARY 4, 1975.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 USC 185), Colorado Interstate Gas Company, P.O. Box 1087, Colorado Springs, Colorado 80944, has applied for a right of way for a four-inch natural gas gathering pipeline across the following lands:

SIXTH PRINCIPAL MERIDIAN, COLORADO.

T. 12 N., R. 100 W.,
Sec. 13: E½.

The pipeline will connect Burch Federal #13-9 well with an existing natural gas pipeline of Mountain Fuel Supply Company.

The purposes of this notice are: to inform the public that the Bureau of Land Management will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved and, if so, under what terms and conditions; to allow interested parties to comment on the application; and to allow any persons asserting a claim to the lands or having bona fide objections to the proposed pipeline right of way to file their objections in this office. Any person asserting a claim to the lands or having bona fide objections must include evidence that a copy thereof has been served on the applicant.

Any comment, claim, or objection must filed with the Chief, Branch of Land Operations, Bureau of Land Management, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202, within thirty days from the date of this notice.

EVERETT K. WEEDIN,
Chief, Branch of Land Operations.

Fish and Wildlife Service

SPORT HUNTING OF MIGRATORY BIRDS

Draft Environmental Statement; Notice of Public Hearings

Notice of availability of the draft EIS regarding the issuance of annual regulations permitting the sport hunting of migratory birds was published in the FEDERAL REGISTER on February 11, 1975. It is the policy of the Department of the Interior to permit the public an opportunity to comment on its environmental statements. Accordingly, a public hearing will be held in each U.S. Fish and Wildlife Service region in accordance with Part 455, Chapter I of the Departmental Manual.

The dates, times, and places of the hearings are as follows:

Region I—Date: March 19, 1975. Place: Bonneville Power Administration Auditorium 100 N. E. Holladay Street, Portland, Oregon. Time: 7:30 p.m.

Region II—Date: March 19, 1975. Place: Acoma Room, City Convention Center, Albuquerque, New Mexico. Time: 7:30 p.m.
Region III—Date: March 15, 1975. Place: Room 564, Federal Building, Fort Snelling, Minneapolis, Minnesota. Time: 9 a.m.
Region IV—Date: March 17, 1975. Place: Lenox Square Auditorium, Lenox Square, Shopping Center, 3393 Peachtree Road, Atlanta, Georgia. Time: 1-5:30 p.m. and beginning again at 7:30 p.m.
Region V—Date: March 22, 1975. Place: Defense Industrial Supply Center, Building 4, Robbins Avenue, Philadelphia, Pennsylvania. Time: 9:30 a.m.
Region VI—Date: March 18, 1975. Place: Room 269, Denver Post Office Building, 1823 Stout Street, Denver, Colorado. Time: 7 p.m.
Alaska—Date: March 19, 1975. Place: Council Chambers, Lousac Library, Anchorage, Alaska. Time: 7 p.m.

The EIS is available for inspection at all U.S. Fish and Wildlife Service field stations, regional and area offices, and the U.S. Fish and Wildlife Service, Office of Environmental Coordination, Department of the Interior, 18th and "C" Streets NW., Washington, D.C. In addition a brochure which summarizes the EIS is available from the following U.S. Fish and Wildlife Service Regional offices.

Region I—Regional Director, P.O. Box 3737, Portland, Oregon 97208.
Region II—Regional Director, U.S. Post Office and Courthouse, 500 Gold Avenue, SW., Albuquerque, New Mexico 87103.
Region III—Regional Director, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111.
Region IV—Regional Director, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329.
Region V—Regional Director, John W. McCormack Post Office and Courthouse, Boston, Massachusetts 02109.
Region VI—Regional Director, 10597 West Sixth Avenue, P.O. Box 25486, Denver, Colorado 80215.
Alaska—Area Director, 813 "D" Street, Anchorage, Alaska 99501.

Persons wishing to make an oral presentation or to submit their views in writing at any of these hearings should deliver a notice to that effect to the appropriate Regional Director at the above address, no less than five working days before the date of the hearing at which the testimony is to be presented. A time limit of 10 minutes per witness is imposed in the case of oral testimony, although additional time may be granted at the discretion of the Hearing Officer. This notice is published under authority of the Migratory Bird Treaty Act, 16 U.S.C. 704.

LYNN A. GREENWALT,
Director,
U.S. Fish and Wildlife Service.

Office of Hearings and Appeals

[Docket No. M 74-104]

CANTERBURY COAL CO.

Amendment to Petition[1] for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861 (c) (1970), Canterbury Coal Company has filed an amended petition to modify the application of 30 CFR 75.1405 to its David Mine, Avonmore, Pennsylvania.

30 CFR 75.1405 provides:

All haulage equipment acquired by an operator of a coal mine on or after March 30, 1971, shall be equipped with automatic couplers which couple by impact and uncouple without the necessity of persons going between the ends of such equipment. All haulage equipment without automatic couplers in use in a mine on March 30, 1970, shall also be so equipped within 4 years after March 30, 1970.

Petitioner amends its original petition and proposes the following alternative method for coupling and uncoupling mine cars at Petitioner's David Mine:

A. No more than four loaded or empty cars will comprise a trip.

B. (1) When coupling car to car or car to the outby end of a motor, the hand-link aligner will be used to guide the link at all times.

[1] The original petition was published in 39 FR 15891 on May 6, 1974.

V40-30 FEB 12 75 XUM XUM

(2) When coupling a car to the kitchen end of a motor, the link-hook will be used at all times.

(Drawings of the hand-link aligner and link-hook are shown in Exhibit "A."[2])

C. Dropping and lifting of pins will be done by engaging the end of the hand-link aligner in the ring provided on the pin, except when the pin can be handled from within the car of the kitchen of the motor.

(A drawing of a typical pin provided with a ring is shown in Exhibit "A".)

D. Coupling (dropping and lifting of a pin) will be done only with the trip totally stopped and with the brakes of the motor or motors fully applied.

E. Coupling between cars will be done on level areas of track at all times.

F. Petitioner will train and instruct all employees annually in the above procedures. New employees will be instructed and trained as part of their orientation program. Petitioner will maintain a record of the instruction and training of its employees in the above procedures.

G. The above procedures shall be a mandatory safety rule at the David Mine and shall be so posted on the bulletin boards of Petitioner and the United Mine Workers of America located at the mine.

Petitioner avers that the alternative method for coupling and uncoupling mine cars at Petitioner's David Mine proposed herein will at all time guarantee to the miners at Petitioner's David Mine no less than the same measure of protection than would be afforded the miners of such mine by a requirement for automatic couplers.

Petitioner further avers that the application of mandatory safety standard 30 CFR 75.1405 to David Mine will result in a diminution of safety to the miners in such mine. At least two men have been killed by being crushed between cars equipped with automatic couplers in Western Pennsylvania within the past fourteen months.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before March 14, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director, Office of Hearings and Appeals.

FEBRUARY 5, 1975.

[FR Doc.75-3852 Filed 2-11-75;8:45 am]

[Docket No. M74-69]

ZEIGLER COAL CO.

Amendment to Petition for Modification of Application of Mandatory Safety Standard [1]

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 861(c) (1970), Zeigler Coal Company has filed an amended petition to modify the application of 30 CFR 75.1105 to its Zeigler No. 9 Mine, Madisonville, Kentucky.

30 CFR 75.1105 provides:

Underground transformer stations, battery-charging stations, substations, compressor stations, shops, and permanent pumps shall be housed in fireproof structures or areas. Air currents used to ventilate structures or areas enclosing electrical installations shall be coursed directly into the return. Other underground structures installed in a coal mine as the Secretary may prescribe shall be of fireproof construction.

Petitioner filed this amended petition for the purpose of clarifying the original petition and summarizing and incorporating subsequent changes and additions, including: letters, reports, and recommendations.

Recommendations of MESA Special Investigative Team & United Mine Workers' Safety Committee. As mentioned above, there is attached [2] hereto a Special Investigative Report dated August 21, 1974, prepared by Michell E. Mills, an authorized representative of the Secretary of Interior, which recommends that the petition for modification originally filed in this case be granted, subject to certain additional safeguards hereinafter delineated. There is also attached hereto for informational purposes, a statement dated August 28, 1974, signed by the president of the union local and two members of the mine safety committee, United Mine Workers of America, recommending to the District Manager, Mining Enforcement & Safety Administration, approval of the alternative plan submitted in this 301(c) petition.

Alternate Method. 1. The following safety features are to be maintained on the belt conveyor and belt drive units installed in the main south entries:

a. Fire-resistant belt—Data 42" Super Mylock Conveyor Belt, $\frac{3}{32}$ top x $\frac{3}{32}$ bottom S.B.K.—U.S. Bureau of Mines approved.

b. Fire sensoring system throughout the belt line. Control panel located at Portal No. 2—Manufacturer, Pyott-Boone, Inc.

c. All belt power transformer enclosed in fireproof housing.

d. All hydraulic fluids used are to be fire-resistant fluids.

e. All belt drives are to be protected with the water deluge spray system.

f. Communication between underground mine and both portals are to be of one phone system—Data M.S.A. permissible communication unit, Approval No. 98-20.

2. The belt transformer located at the 2nd South drive section, West drive section and 2nd West drive section, shall have the following safeguards:

a. A U.S.B.M. approved multipurpose dry chemical type fire suppression system installed which shall contain no less than 30 pounds.

b. Transformer stations will be incorporated into the fire sensoring system which is located along the present belt conveyors, with their own separate monitoring stations.

3. The permanent pump stations at the three locations shall be maintained in the following manner:

a. The permanent pump stations shall be enclosed in a fireproof housing.

b. A U.S.B.M. approved multipurpose dry chemical type fire suppression system shall be installed which shall contain no less than 30 pounds.

c. Pump stations will be incorporated into the fire sensoring system which is located along the present belt conveyors and they will have their own separate monitoring stations.

4. At the areas indicated on the map [2] which accompanied the original letter of petition dated February 26, 1974, the petitioner will construct a wall of stoppings of fireproof materials. Of the seven entries involved, two will be equipped with fireproof doors.

5. The petitioner will inaugurate the following fire fighting procedures in the event of a belt fire in area "A" as marked on said map:

a. Upon hearing the alarm, the man at Portal No. 2 will read the location from the control panel of the sensoring system.

b. He will then notify persons underground of the location of the fire.

c. He will then instruct the man located at Portal No. 1 to shut down the blowing fan located there.

d. The two fire doors located in the row of seven entries at the location specified above, shall be closed.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before March 14, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director, Office of Hearings and Appeals.

FEBRUARY 4, 1975.

[FR Doc.75-3854 Filed 2-11-75;8:45 am]

[Docket No. M75-86]

BETTY B. COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 816(c) (1970), Betty B. Coal Company has filed a petition to modify the application of 30 CFR 75.1403 to its No. 4 Mine, Dickenson County, Virginia.

30 CFR 75.1403 provides:

Other safeguards adequate, in the judgment of an authorized representative of the Secretary, to minimize hazards with respect to transportation of men and materials shall be provided.

In support of its petition, Petitioner states:

(1) The subject mine was developed in 1923. Subsequently, the track haulage entry was driven in an area with poor roof conditions. The roof of this entry has been arched and supported to protect the personnel working in the area.

(2) Petitioner uses the track entry solely to transport men and supplies; coal haulage is accomplished by a belt line. Petitioner conducts a maximum of four personnel/supply trips per day.

(3) Shelter holes for workmen are provided every fifty or sixty feet on the left and right sides of the track entry.

(4) To provide the additional clearance for the track entry, so as to be in compliance with Section 75.1403, would result in a diminution of safety to the miners in the subject mine because such expansion of the entry would expose additional unsupported roof.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before March 14, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director, Office of Hearings and Appeals.

Farmers Home Administration

[Notice of Designation Number A076—Amdt. 1]

WISCONSIN

Designation of Emergency Areas

The Secretary of Agriculture has found that an additional general need for agricultural credit exists in the following counties in Wisconsin:

Green Lafayette
Iowa

The Secretary has found that this additional need exists as a result of a natural disaster consisting of killing frost September 22 in Green and Iowa Counties and on September 22 and 23, 1974, in Lafayette County.

Therefore, the Secretary has amended his designation of October 10, 1974, of these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Patrick J. Lucey that such designation and amendment be made.

Applications for Emergency loans must be received by this Department no later than March 31, 1975, for physical losses and October 31, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 5th day of February 1975.

(S) FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

[FR Doc.75-3901 Filed 2-11-75;8:45 am]

COMMODITY CREDIT CORPORATION ADVISORY BOARD

Public Meeting

Pursuant to Pub. L. 92-463 notice is hereby given that the Commodity Credit Corporation Advisory Board will meet at 8:30 a.m. on Tuesday, March 4, 1975 and Wednesday, March 5, 1975, in Room 2-W, of the Administration Building of the U.S. Department of Agriculture, Washington, D.C.

The purpose of this regularly scheduled quarterly meeting of the Advisory Board is to advise the Secretary of Agriculture relative to surveys of the general policies of the Commodity Credit Corporation, including Corporation policies in connection with the purchase, storage and sale of commodities, and the operation of lending and price support programs.

The meeting will be open to the public. Any member of the public may file a written statement with the Board before or within one week following the meeting.

The names of the members of the Advisory Board, Agenda, Summary of the Meeting and other information pertaining to the meeting may be obtained from Mr. Frank G. McKnight, Secretary, Commodity Credit Corporation, Room 202-W, Administration Building, U.S. Department of Agriculture, Washington, D.C.

Signed at Washington, D.C. on February 6, 1975.

GLENN A. WEIR,
Acting Executive Vice President, Commodity Credit Corporation.

Rural Electrification Administration

ALABAMA ELECTRIC COOPERATIVE, INC.

Draft Environmental Impact Statement

Notice is hereby given that the Rural Electrification Administration has prepared a Draft Environmental Impact Statement in accordance with section 102(2)(C) of the National Environmental Policy Act of 1969, in connection with a loan application from Alabama Electric Cooperative, Inc., P.O. Box 550, Andalusia, Alabama. This project includes financing for the construction of two 210 NW coal fired generating units at the site of the existing 66 MW Tombigbee power plant near Jackson, Alabama, and the construction of approximately 157 miles of 230 kV transmission lines and related terminal facilities in Washington, Clarke, Monroe, Conecuh and Covington Counties, all in the State of Alabama.

XUM
V40-30
FEB 12 75
XUM

Additional information may be secured on request, submitted to Mr. David H. Askegaard, Assistant Administrator—Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250. Comments are particularly invited from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved from which comments have not been requested specifically.

Copies of the REA Draft Environmental Impact Statement have been sent to various Federal, State and local agencies, as outlined in the Council on Environmental Quality Guidelines. The Draft Environmental Impact Statement may be examined during regular business hours at the offices of REA in the South Agriculture Building, 12th Street and Independence Avenue SW., Washington, D.C., Room 4310, or at the borrower address indicated above.

Comments concerning the environmental impact of the construction proposed should be addressed to Mr. Askegaard at the address given above. Comments must be received within sixty (60) days of the date of publication of this notice to be considered in connection with the proposed action.

Final REA action with respect to this matter (including any release of funds) will be taken only after REA has reached satisfactory conclusions with respect to its environmental effects and after procedural requirements set forth in the National Environmental Policy Act of 1969 have been met.

Dated at Washington, D.C., this 5th day of February, 1975.

DAVID H. ASKEGAARD,
Acting Administrator, Rural Electrification Administration.

ADVISORY COMMITTEE ON EAST-WEST TRADE

Meeting

Amendment to Notice of Open Meeting Published January 28, 1975 (FR Doc. 75-2426, Filed 1-27-75: 8:45 A.M.) 40 FR 4171.

The March 14, 1975, meeting of the Advisory Committee on East-West Trade will be extended to include an afternoon session from 2 p.m. to 4 p.m. in Room 4830 of the Main Commerce Building, after a lunch break.

The agenda for the afternoon meeting is:

1. Overview of the U.S. Economy from the Department of Treasury.

2. Commentary and Discussion by a distinguished scholar.

ARTHUR T. DOWNEY,
Deputy Assistant Secretary for East-West Trade.

FEBRUARY 6, 1975.

PRESIDENT'S EXPORT COUNCIL

Postponement of Open Meeting

The meeting of the President's Export Council, scheduled for Thursday, February 27, and announced in the FEDERAL REGISTER on January 27 (40 FR 4029), has been postponed. When the meeting has been rescheduled, an announcement will appear in the FEDERAL REGISTER.

Inquiries may be addressed to Mr. Friedrich R. Crupe, Executive Secretary of the President's Export Council, U.S. Department of Commerce, Domestic and International Business Administration, Bureau of International Commerce, Washington, D.C. 20230 (telephone 202-967-2373).

Dated: February 7, 1975.

CHARLES W. HOSTLER,
Deputy Assistant Secretary for International Commerce.

National Oceanic and Atmospheric Administration

J. LAWRENCE DUNN

Notice of Receipt of Application

Notice is hereby given that the following applicant has applied in due form for a permit to take and import marine mammals for scientific research as authorized by the Marine Mammal Protection Act of 1972 and the Regulations Governing the Taking and Importing of Marine Mammals.

J. Lawrence Dunn, D.V.M., General Manager and Staff Veterinarian, Mystic Marinelife Aquarium, P.O. Box 190, Mystic, Connecticut 06335, to take and import up to seven (7) Atlantic harbor seals, up to one hundred (100) blood samples from Atlantic harbor seals, up to one hundred (100) ectoparasite samples from these same animals, up to twenty (20) tissue parasite samples from harbor seals found dead, up to ten (10) skin biopsies from harbor seals showing lesions of seal pox, and up to ten (10) milk or colostrum samples from lactating harbor seals for the purpose of scientific research.

The harbor seals and specimen materials will be collected from animals taken by Dr. Dunn on Sable Island, Nova Scotia, in conjunction with researchers from Dalhousie University, Halifax, Nova Scotia, who, during the course of their studies, capture and tag large numbers of harbor seals. The specimen materials will be taken from these captured animals.

The animals and specimen materials taken and imported will be used in research designed to elicit knowledge of the life cycle of the seal heartworm (*Dipetalonema spirocauda*), in support of determining a cure for that disease in seals and in histopathology studies of seal pox and its causative virus.

Dr. Dunn has been engaged in research and care of marine mammals for a period of more than 12 years.

Documents submitted with this application are available in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, and the Office of the Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is sending copies of the application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Interested parties may submit written data or views on this application on or before March 14, 1975, to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235.

All statements and opinions contained in this notice in support of this application are summaries based upon information supplied by the Applicant and, therefore, do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: February 6, 1975.

ROBERT F. HUTTON,
Associate Director for Resource Management, National Marine Fisheries Service.

[FR Doc.75-3958 Filed 2-11-75;8:45 am]

DR. G. EDGAR FOLK

Notice of Receipt of Application

Notice is hereby given that the following applicant has applied in due form for a permit to take marine mammals for scientific research as authorized by the Marine Mammal Protection Act of 1972 and the Regulations Governing the Taking and Importing of Marine Mammals.

Dr. G. Edgar Folk, Department of Physiology and Biophysics, University of Iowa, Iowa City, Iowa 52242 to take four (4) ringed seals (*Pusa hispida*) for the purpose of scientific research.

The seals are to be captured in either the area of Wainwright, Alaska, or at the mouth of the Coleville River, Alaska. The animals are to be captured by an experienced native collector using nets and will be transported by air to a laboratory at Point Barrow, Alaska. The purpose of this research is to investigate the cardiac physiology of the seals in relation to the daily activity patterns and

slowing-of-the-heart-studies when the seals dive. The data will be obtained by placing 20-40 gram radio transmitters in the abdominal cavity of the seals and recording the signals for up to one and a half years. On termination of the experiments, the transmitters will be removed, the animals tagged and released near the point of capture.

Another area of investigation will be obtaining fat samples from an unspecified number of seals taken by Eskimos for subsistence. These samples will be analysed for yearly cyclic fluctuations of the chemical structure of the fat tissue. The results of this investigation will be compared with the cardiac physiology studies mentioned above, in order to contribute knowledge to the understanding of seal physiology.

Documents submitted in connection with this application are available in the Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, the Office of the Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930, and the Office of the Regional Director, National Marine Fisheries Service, Alaska Region, P.O. Box 1668, Juneau, Alaska 99801.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is sending copies of the application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written views or data, or requests for a public hearing on this application should be submitted to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235 on or before March 14, 1975. The holding of such hearing is at the discretion of the Director.

All statements and opinions contained in this Notice in support of this application are summaries based upon information supplied by the Applicant and, therefore, do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: February 7, 1975.

ROBERT F. HUTTON,
Associate Director for Resource Management, National Marine Fisheries Service.

[FR Doc.75-3956 Filed 2-11-75;8:45 am]

NICHOLAS R. HALL AND DR. WILLIAM W. DAWSON

Notice of Receipt of Application

Notice is hereby given that the following applicants have applied in due form for a permit to take marine mammals for scientific research as authorized by the Marine Mammal Protection Act of 1972 and the Regulations Governing the Taking and Importing of Marine Mammals.

Mr. Nicholas R. Hall and Dr. William W. Dawson, Department of Neuroscience and Opthalmology, College of Medicine, University of Florida, Gainesville, Florida 32610 to take up to twenty Atlantic bottlenose dolphins by capture for the purpose of scientific research.

The animals are to be used in endocrine, sleep, and visual research studies. The endocrine studies will be conducted by using routine diagnostic blood collecting procedures and examining the blood for its concentrations of reproductive hormones. The purpose of this research is to establish the reproductive cycle of female dolphins in hopes of contributing to the breeding husbandry of the species and providing basic physiologic information of this species.

An objective of the second area of research is to describe the sleep-wakefulness behavior of dolphins. One method of determining whether or not the animal is asleep will be to remove it from the water and apply a local anesthetic on certain areas of the head. Three small gauge electrodes will then be inserted to penetrate just below the blubber overlying the skull. The animals will then be placed in an enclosure and for several days the electrodes will transmit brain wave signals to a recorder while the breathing rate and vocalizations of the animal are monitored. The length of these investigations will be dependent on both the quality of the results and the health and well being of the animals.

The visual research studies will be conducted by two experiments. The first will be to make optical measurements on several of the animals much as they are made during routine eye examinations of humans. The second technique to be performed on some of the animals will involve anesthetizing them and taking electrical measures of the sensitivity of retina's color vision apparatus.

The applicants anticipate that up to ten of the requested animals will either succumb or need to be sacrificed in the course of the work. The other animals will be judged for their suitability to be tagged and released.

The requested animals will be maintained in one or more of the following enclosures. A pool measuring 60 feet long by 20 feet wide by 10 feet deep; two kidney-shaped pools 40 feet by 15 feet by 5 feet deep. A holding tank measuring 15 feet in diameter by 10 feet deep is also available. All of the facilities are supplied with fresh filtered sea water. Veterinary care will be provided to the animals when needed. The work proposed will be carried out over a three year period and the number of animals to be held at any one time will not exceed the capacity of the holding facilities.

The arrangements and facilities for transporting and maintaining the marine mammals requested in the above described application have been inspected by a licensed veterinarian, who has certified that such arrangements and facilities are adequate to provide for the well-being of the marine mammals involved.

Documents submitted in connection with the above applications are available for review at the following locations:

Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235

Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Florida 33702

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is forwarding copies of these applications to the Marine Mammal Commission and the Committee of Scientific Advisors.

Interested parties may submit written data or views on these applications on or before March 14, 1975, to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235.

All statements and opinions contained in this notice in support of this application are summaries based on information supplied by the Applicants and therefore, do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: February 3, 1975.

ROBERT F. HUTTON,
Associate Director for Resource Management, National Marine Fisheries Service.

LONG ISLAND GAME FARM, INC.

Issuance of Permit to Take Marine Mammals

On December 9, 1974, notice was published in the FEDERAL REGISTER (39 FR 42937), that an application had been filed with the National Marine Fisheries Service by Long Island Game Farm, Incorporated, Chapman Boulevard, Manorville, New York 11949, for a permit to take three (3) California sea lions (*Zalophus californianus*) for the purpose of public display.

Notice is hereby given that, on February 5, 1975, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a permit for the above mentioned taking to Long Island Game Farm, Inc. subject to certain conditions set forth therein.

The permit is available for review by interested persons in the Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, and in the Offices of the Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930, and the Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Dated: February 5, 1975.

JACK W. GEHRINGER,
Acting Director, National Marine Fisheries Service.

[FR Doc.75-3960 Filed 2-11-75;8:45 am]

MARINE ANIMAL PRODUCTIONS INC./ MARINE LIFE INC.

Notice of Receipt of Application

Notice is hereby given that the following applicants have applied in due form

XUM V40-30 FEB 12 75 XUM

for a permit to take marine mammals for public display as authorized by the Marine Mammal Protection Act of 1972 and the Regulations Governing the Taking and Importing of Marine Mammals.

Marine Animal Productions Inc./Marine Life Inc., 150 Debuys Road, Biloxi, Mississippi 39531 to take eight (8) Atlantic bottlenosed dolphins (*Tursiops truncatus*) and ten (10) California sea lions (*Zalophus californianus*) for the purpose of public display.

The California sea lions will be taken by a professional collector from the California Channel Islands. The animals will be collected during the period of November to April.

The bottlenose porpoises will be collected in the waters between Mobile Bay and the mouth of the Mississippi River by means of a seine net by the staff of the Applicant.

Four dolphins and six sea lions will be maintained at facilities in Gulfport, Mississippi and Pigeon Forge, Tennessee. The animals will be held in three filtered salt water pools at Gulfport which have the following dimensions:

1. Main pool, 80 feet in diameter by 16 feet deep;
2. Stadium pool, 100 feet long by 30 feet wide by 10 feet deep with a sea lion haul out area of 20 feet by 45 feet;
3. Bay pool, 120 feet long by 55 feet wide by 10 feet deep.

The Pigeon Forge facility has two pools measuring 60 feet by 30 feet by 10 feet and 20 feet in diameter by 4 feet deep, respectively.

Four dolphins will be maintained at the Gulfport facilities and at Pontchartrain Beach, New Orleans, Louisiana. The Pontchartrain pool measures 50 feet long by 40 feet wide by 11 feet deep.

The animals are held at Gulfport during the winter months and transported by air to Tennessee and Louisiana for the summer months. Four of the requested sea lions will be maintained year-round at the Gulfport facility.

The animals will perform in a show of thirty minutes duration eight times a day. The display is for profit and expects some 130,000 visitors a year. Mr. Donald Jacobs, president of the corporations, has 15 years experience in marine mammal husbandry, the staff has experience in husbandry and training ranging from two years to 17 years. Regular veterinary care is available to the animals by a staff veterinarian.

The arrangements and facilities for transporting and maintaining the marine mammals requested in the above described applications have been inspected by a licensed veterinarian, who has certified that such arrangements and facilities are adequate to provide for the well-being of the marine mammals involved.

Documents submitted in connection with the above application are available for review at the following locations:

Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235;
Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731;
Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Florida 33702.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is sending copies of the applications to the Marine Mammal Commission and the Committee of Scientific Advisors.

Interested parties may submit written data or views on this application on or before March 14, 1975, to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235.

All statements and opinions contained in this notice in support of this application are summaries based upon information supplied by the Applicants and therefore, do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: February 5, 1975.

Associate Director for Resource Management, National Marine Fisheries Service.

[FR Doc.75-3959 Filed 2-11-75;8:45 am]

DONALD B. SINIFF

Receipt of Application for a Scientific Research Permit

Notice is hereby given that the following applicant has applied in due form for a permit to take marine mammals for scientific research as authorized by the Marine Mammal Protection Act of 1972 and the Regulations Governing the Taking and Importing of Marine Mammals.

Donald B. Siniff, Associate Professor, Department of Ecology and Behavioral Biology, 223 Snyder Hall, University of Minnesota, St. Paul, Minnesota 55101, to collect biological data and materials from an unspecified number of dead seals killed by polar bears, and to collect biological data and materials from three-hundred fifty (350) ringed seals (*Pusa hispida*), two-hundred fifty (250) bearded seals (*Erignathus barbatus*) taken by native and Canadian Wildlife Service personnel along the northern coast of Canada each year.

The research activities will be conducted annually during April, May and June, from 1975 through 1977. The biological data will be collected by students in the Department of Ecology and Behavioral Biology of the University of Minnesota.

The purpose of the research is to collect data on polar bear/seal interactions in the Canadian Arctic and to attempt to establish the general status and dynamics of the seal populations involved. The data collected will be used to determine the age, sex, size, reproductive status, and other biological parameters. All of the biological material collected will be deposited with the Canadian Wildlife Service.

Documents submitted in connection with this application are available in the Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, and the Office of the Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is sending copies of the application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written views or data or requests for a public hearing on this application should be submitted to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235 within 30 days of the publication of this notice. The holding of such hearing is at the discretion of the Director.

All statements and opinions contained in this notice in support of this application are those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: February 7, 1975.

ROBERT F. HUTTON,
Associate Director for Resource Management National Marine Fisheries Service.

Office of the Secretary

NATIONAL ADVISORY COMMITTEE ON OCEANS AND ATMOSPHERE

Notice of Partially Closed Meeting

The National Advisory Committee on Oceans and Atmosphere (NACOA) will hold a meeting Monday and Tuesday, March 17 and 18, 1975. The Tuesday morning session will be closed to the public under authorization of the Assistant Secretary of Commerce for Administration in a determination dated February 6, 1975, and cosigned by the Assistant General Counsel for Administration, and attached to this notice. Closure is necessitated by classified briefings on the development portion of the U.S. Navy's ocean science program. All other sessions will be open to the public and will be held in Room 6802 of the U.S. Department of Commerce Building, 15th and Constitution Avenue NW, Washington, D.C. The closed session will be held in the Hoffman Building No. 2, conference room 8S11, 200 Stovall Street, Alexandria, Virginia.

The Committee, consisting of 25 non-Federal members appointed by the President from State and local governments, industry, science, and other appropriate areas, was established by Congress by Public Law 92-125, on August 16, 1971. Its duties are to (1) undertake a continuing review of the progress of the marine and atmospheric science and service programs of the United States, (2) submit a comprehensive annual report to the President and to the Congress setting forth an overall assessment of the status of the Nation's marine and atmospheric activities on or before June 30 of each year, and (3) advise the Secretary

of Commerce with respect to the carrying out of the purposes of the National Oceanic and Atmospheric Administration. All members of the Committee have appropriate security clearances.

A general agenda contains the following topics:

MONDAY—OPEN, COMMERCE DEPARTMENT

9 a.m. to 5 p.m.—Discussion of topics for the Committee's fourth annual report including issues of coastal zone management and ocean resource development. General business including progress reports on the International Decade of Ocean Exploration study, civil/military weather operations, and the FCST study of capital structure supporting marine and atmospheric science.

TUESDAY—CLOSED, HOFFMAN BUILDING NO. 2

9 a.m. to noon—Security classified briefings on and discussion of the development portion of the U.S. Navy's ocean science program.

TUESDAY—OPEN, COMMERCE DEPARTMENT

1:30 p.m. to 5 p.m.—Additional discussion related to the fourth annual report.

The public is welcome at the Monday and Tuesday open session and will be admitted to the extent of the seating available. Persons wishing to make formal statements should notify the Chairman in advance of the meeting. The Chairman retains the prerogative to place limits on the duration of oral statements and discussions. Written statements may be submitted before or after each session.

Additional information concerning this meeting may be obtained through the Committee's Executive Director, Dr. Douglas L. Brooks, whose mailing address is: National Advisory Committee on Oceans and Atmosphere, Department of Commerce Building, Room 5225, Washington, D.C. 20230. The telephone number is 967-3343.

DOUGLAS L. BROOKS,
Executive Director.

DETERMINATION MADE PURSUANT TO SECTION 10(D) OF THE FEDERAL ADVISORY COMMITTEE ACT

The National Advisory Committee on Oceans and Atmosphere (NACOA) will hold a regular meeting in Washington, D.C. on Monday and Tuesday, March 17 and 18, 1975. By memorandum of February 4, 1975, the Chairman of the Committee has requested that the morning session on Tuesday, the 18th be closed.

This session will be devoted to a continuation of classified briefings by the U.S. Navy on its ocean science program begun in December. At that time, the Committee was briefed on the basic research program; they will now hear about the development program. This briefing will require the presentation and discussion of security classified objectives supporting the Navy ocean science program and the use of security classified documents and briefing materials. Any non-classified information will be so intermixed with the classified information that it is not feasible in any respect to separate them.

Pursuant to the authority delegated to me by the Secretary of Commerce, I find and determine that the morning session of the Tuesday meeting will be concerned with matters listed in Section 522(b)1 of Title 5, United States Code (specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy and are in fact properly classified pursuant to such Executive Order), and that the session may be closed to protect security classified information and documents, and to insure the free discussion thereof.

Dated: February 6, 1975.

GUY W. CHAMBERLIN, JR.,
Acting Assistant Secretary for Administration.

Dated: February 5, 1975.

ALFRED MEISNER,
Assistant General Counsel for Administration.

NDA 2-811]

CHORIONIC GONADOTROPIN

Follow-Up Notice and Opportunity for Hearing; Correction

In FR Doc. 74-28409, appearing in the issue of Thursday, December 5, 1974, the following corrections are made:

1. On page 42399, in the 10th line of paragraph "7" in the third column, "patient" is changed to read "patients".

2. On page 42400, the 36th line from the top of the second column reading "blood androgens in thus an extremely" is changed to read "blood androgens is thus an extremely" and the 39th line reading "recognized that cancer of the prostate" is changed to read "recognize that cancer of the prostate".

3. (a) On page 42402 for the sixth line of the second paragraph in the first column, the type size for the sentence which begins, "HCG has no known effect • • •" and continues through the rest of that paragraph and the next, is changed to all capital letters so that the affected text reads as follows:

"• • • HCG has no known effect on fat mobilization, appetite or sense of hunger, or body fat distribution.

INDICATIONS

HCG has not been demonstrated to be effective adjunctive therapy in the treatment of obesity. There is no substantial evidence that it increases weight loss beyond that resulting from caloric restriction, that it causes a more attractive or "normal" distribution of fat, or that it decreases the hunger and discomfort associated with calorie-restricted diets."

(b) The type size for the last complete paragraph of the third column is changed to all capital letters so that the affected text reads as follows:

"HCG has not been demonstrated to be effective adjunctive therapy in the treatment of obesity. There is no substantial evidence that it increases weight loss beyond that resulting from caloric restriction, that it causes more attractive or 'normal' distribution of fat, or that it decreases the hunger and discomfort associated with calorie-restricted diets."

SILVER-PLATED HOLLOWWARE

Request for Information and Data

At a public meeting held January 9, 1975, the Bureau of Foods requested submission to the Food and Drug Administration of certain information which is needed as a basis for regulatory action with regard to silver-plated hollowware. The purpose of this notice is to outline the problem and to delineate the information desired. It is requested that the information be received by the Food and Drug Administration on or before March 1, 1975.

On June 13, 1974, the Dallas District Office of the Food and Drug Administration received a request from the Army and Air Force Exchange Service to analyze silver-plated cups and goblets sold worldwide in post exchanges. Analyses confirmed excessive levels of leachable lead in the articles examined. (FDA currently takes regulatory action against ceramic dinnerware when the lead content of a leaching solution exceeds 7 parts per million (ppm) after testing of the dinnerware in accordance with the method described in the Journal of the Association of Official Analytical Chemists 56, 483 (1973). This same method was employed by the Food and Drug Administration in testing the silver-plated hollowware.) Follow-up examinations by the FDA Boston District home district for the importer, revealed a lead content of leaching solution averaging from 29.5 ppm to 171.0 ppm. The items analyzed included imported goblets, brandy snifters, and baby cups. Because of a greater potential hazard (i.e., involving repeated use by infants and young children), a recall was implemented for the baby cups which leached more than 7 ppm lead as determined by the testing method.

Subsequent to the baby cup recalls, an import alert was issued to all field installations to check all imported silver-plated hollowware for excessive leachable lead. Additionally, efforts were made to determine whether domestic silver plate leached lead. Between July 1974 and December 1974, FDA examined some 90 different silver-plate articles including baby cups, tankards, coffee sets, tea sets, goblets, salad bowls, gravy bowls, and serving trays. These analyses included articles imported from five countries as well as articles manufactured in the United States. Leachable lead values ranged from none detected to 316 ppm lead in the leaching solution. Those articles leaching lead in excess of the 7 ppm guideline used for ceramic dinnerware

XUM
V40I30
FEB 12 75
XUM

appeared to come primarily from the United States and from one exporting country. Some of the apparent sources of lead were the base metals, spouts, and fluxes used to manufacture the hollowware.

This limited survey indicates that the excessive leaching of lead from silver-plated hollowware is not limited to a few manufacturers but is potentially widespread throughout the silver-plate industry, both domestic and foreign. Thus, an announced public meeting was held on January 9, 1975 with the principals of the silver-plate industry, including importers, exporters, and manufacturers, the purpose of which was to determine the necessary corrective procedures to be implemented to assure consumer protection from excessive exposure to lead. At the meeting FDA provided an overview of the problem of leachable lead in silver-plated hollowware and requested industry to provide information on the technology of silver-plate manufacture and other necessary information to enable the Food and Drug Administration to resolve the problem. Detailed presentations were made by members of FDA which dealt with the subjects of human lead intakes and toxicity, history of FDA's activities concerning heavy metals in ceramic dinnerware and its relevance to silver-plated hollowware, the acidity of various foods, and the scope and results of FDA's survey of silver-plated hollowware. Representatives of the industry outlined some recent technology changes aimed at solving the problem and their economic impact. The appropriateness of FDA's test procedure as applied to all silver-plated hollowware was also discussed.

At the meeting it was agreed that the industry attendees would compile information of the type solicited in this announcement, and report such information to the Food and Drug Administration by March 1, 1975.

The minutes of the meeting along with other relevant background material are on file in the office of the Hearing Clerk and may be examined by any interested person.

An ad hoc committee of experts in pediatric lead toxicity appointed by the Department of Health, Education, and Welfare has suggested that 300 micrograms of lead per day to be the maximum daily permissible intake from all sources for children between 1 and 3 years of age. The maximum permissible daily intake of lead for infants is not precisely known; however, on the basis of a smaller body size alone it must be assumed to be less than the figure of 300 micrograms per day established for children. The levels found in the survey do represent a significant health hazard for adults on the basis of the expected infrequent use rate of most of the articles offered for adult use. However, utilizing the ad hoc committee's guidelines, repeated use by infants or children of cups, bowls, etc., which leach such high levels of lead would pose a chronic health hazard, not only because repeated use of the articles would result in a greater level of exposure but also because infants and children are much more susceptible than adults to brain damage from lead, and because infants and children absorb about five times as much of the lead ingested as do adults. However, highly frequent use of silver-plated hollowware items leaching high levels of lead may pose a serious health hazard to adults.

To ensure that all pertinent safety and technological information is considered, this notice solicits from all possible sources information in response to the following questions concerning silver-plated hollowware:

1. What materials are currently used to fabricate domestic and imported silver-plated hollowware and what is the lead content of each?

a. *Primary materials* (components of finished article).

Base metals (brass, nickel-silver, etc.).
Attachments (spouts, handles, etc.).
Solders.
Silver plate.
Others.

b. *Secondary materials* (not part of the finished article, but used in fabrication).

Fluxes.
Electrolytes.
Mold materials (sand, etc.).
Processing aids.
Others.

2. In each of the materials above:

a. Is lead intentionally included or is it an unwanted impurity?

b. Is recycled material used?

c. What quality control is undertaken with particular regard to lead content?

3. Which of the materials above are likely to result in lead contamination of foods?

4. What is the present range of silver plate thickness, and how has this changed over the years? Is the silver layer:

a. Uniform (e.g., inside versus outside surfaces, edges, etc.)?

b. Impermeable (i.e., continuous and nonporous)?

c. Attacked by any food and beverage components? If so, to what extent?

d. Ever coated with polymeric (e.g., lacquer) materials? If so, identify materials, methods of application, and thickness.

5. Which of the lead sources would be most difficult to eliminate technologically and why?

6. What would be the social and economic consequence of eliminating leachable lead from any of the sources above?

7. List the silver-plated hollowware items currently on the U.S. market and categorize them as follows:

a. Commonly used to contain liquids.

b. Could conceivably be used to contain liquids or liquid-coated foods (salad with dressing, pickles, etc.)

c. Used to contain or measure liquids but always for a brief period of time.

d. Never used to contain liquids or liquid-coated foods.

8. Submit available data on leaching of lead to foods or other leaching media as compared to the regulatory test medium of 4 percent acetic acid (presently used for ceramic dinnerware). Submit details of analytical methods used and name of laboratory which performed the analyses.

9. Any other pertinent data, or recommendations for solving the problem at hand, will be welcome.

This information will be used to determine the scope of the problem and to establish appropriate regulatory control mechanisms for leachable lead in silver-plated hollow ware to ensure that the consuming public is not exposed to excessive levels of lead.

All information and data should be sent to the Associate Director for Technology, HFF-400, Bureau of Foods, Food and Drug Administration, 200 C St. SW., Washington, D.C. 20204. To assure full consideration, such information should be mailed or otherwise transmitted in time to be received by the Food and Drug Administration by March 1, 1975.

The Commissioner urges the cooperation of all segments of the public in this important work.

Dated: February 6, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

Health Services Administration

HEALTH MAINTENANCE ORGANIZATIONS

Applications for Federal Financial Assistance

On November 27, 1974, there was published in the FEDERAL REGISTER (39 FR 41390-91) a notice announcing deadlines for the submission of applications for assistance under the Health Maintenance Organization Act of 1973 (42 U.S.C. 300e et seq.). This notice establishes modified procedures and revised deadlines for the submission of such applications. The Health Services Administration will now distinguish between projects which have been funded under the Health Maintenance Organization Act and projects which have not been so funded, as follows:

New Projects. Applications for the support of HMO projects not previously funded under the Health Maintenance Organization Act must be submitted to the appropriate DHEW Regional Office in accordance with the following schedule in order to be considered for funding during fiscal year 1975:

Deadline for Submission of Applications	*Anticipated Date of Award*
Feb. 3, 1975	Apr. 30, 1975.
Apr. 1, 1975	June 30, 1975.

It is anticipated that the schedule of funding cycles for fiscal year 1976 will be published three months prior to the first deadline for submission of applications thereunder.

Projects Previously Funded Under the Health Maintenance Organization Act. In order to respond to the different rates of progress of HMO feasibility, planning, and initial development projects, and to different beginning dates of initial operations, the Health Services Administration will accept and consider applications for continuation funding, or for funding of subsequent levels of progress, on an individual basis, as completion of the appropriate activities under the previously funded projects is demonstrated. It is

estimated that a 13-week review period will be required between the receipt of such applications and final action on their approval.

Dated: February 5, 1975.

ROBERT VAN HOEK,
Acting Administrator, Health Services Administration.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. EX75-6; Notice 1]

MOTOR COACH INDUSTRIES, INC.

Temporary Exemption from Federal Motor Vehicle Safety Standards

Motor Coach Industries, Inc. of Pembina, North Dakota, has applied for a temporary exemption from Motor Vehicle Safety Standard No. 121, *Air Brake Systems*, on the basis that compliance would cause it substantial economic hardship.

Petitioner, a subsidiary of Greyhound Corporation, manufactured 620 buses in 1974. It builds the Challenger Model MC-5B (50 produced in 1974), a 35-foot two-axle intercity coach, and the Crusader Model MC-8 (570 produced in 1974), a 40-foot three-axle intercity coach. This vehicle will also be produced by another Greyhound subsidiary, Transportation Manufacturing Corporation, a new entity, to whom the exemption would also be given. Motor Coach requests an exemption of two months, until May 1, 1975, for MC-5B vehicles as its supplier of axles and anti-skid components is unable to furnish parts necessary for conformity by March 1, 1975, the effective date of the standard. An exemption of 12 months, until March 1, 1976, is requested for the MC-8 vehicles for the reason that the company is experiencing repetitive failure of the third axle anti-skid computer. Petitioner requires the additional time "to analyze the problem created by a lightly loaded third axle with each trailing wheel carrying only 3,000 pounds maximum." Failure to obtain the exemption for the MC-5B would result in a loss of production of 20 vehicles, estimated at $1,400,000 plus interest. The petitioner's net income for the first 11 months of 1974 was $1,438,000. Losses would also include start-up costs of $200,000, and the lay-off of workers for 60 days. If an exemption for the MC-8 is not granted, the petitioner will encounter sizable warranty costs on its production of four vehicles a day, until the third axle computer is perfected. Thus, the granting of the exemption, by insuring uninterrupted employment and the implementation of mass transit programs, is, in the petitioner's view, in the public interest.

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on this subject (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition of Motor Coach Industries, Inc. described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5221, 400 Seventh Street SW., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, notice will be published in the FEDERAL REGISTER pursuant to the authority indicated below.

Comment closing date. February 21, 1975.

Proposed effective date. March 1, 1975.

(Sec. 3, Pub. L. 92-548, 86 Stat. 1159-(15 U.S.C. 1410); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8)

Issued on February 6, 1975.

ROBERT L. CARTER,
Associate Administrator, Motor Vehicle Programs.

CIVIL AERONAUTICS BOARD

[Docket Nos. 27423, 27425, 26310, Order No. 75-2-31]

OZARK AIR LINES INC.

Order of Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 6th day of February, 1975.

In the matter of rules relating to the acceptance and carriage of live animals proposed by Ozark Air Lines, Inc.

Rules and practices relating to the Acceptance and Carriage of Live Animals in Domestic Air Freight Transportation.

By tariff revisions[1] marked to become effective February 7, 1975, Ozark Air Lines, Inc. (Ozark) proposes to establish various rules which set forth the terms, conditions, and other provisions governing the acceptance of live animals for transportation.

Specifically, Ozark proposes, among other things, to refuse to accept on passenger aircraft any single piece of a shipment where the gross weight of the animal and container is in excess of 200 pounds (Rule 19(A)(4)); to refuse to accept on any aircraft shipments of poisonous snakes, poisonous lizards, or other poisonous reptiles (Rule 19(A)(1)); and to establish packaging standards for nonpoisonous reptiles (Rule 19(C)(6)(e)).

Complaints have been filed requesting rejection, or in the alternative, suspension pending investigation, by the Pet Industry Parties (PIP), and jointly by the American Association of Zoological Parks and Aquariums (AAZPA) and the Zoological Action Committee, Inc. (Zoo-Act). The complainants variously allege, inter alia, that the proposed rule prohibiting shipments containing a single piece in excess of 200 pounds conflicts with and duplicates another rule which provides that Ozark would accept, subject to advance arrangements, shipments with pieces weighing in excess of 200 pounds; that the carrier's justification is inadequate; that the 200-pound limit places an impossible burden on shippers and effectively precludes the domestic movement of exotic animals by air; and that the live-animal restrictions involve a limitation on the carrier's common-carrier obligation, and it is improper for the carrier to attempt to alter its live-animal acceptance provisions while such rules are currently under investigation by the Board in Docket 26310.

In support of its proposal and in answer to the complaints, Ozark asserts, inter alia, that this filing is designed to comply with objections and suggestions of shippers and others; to comply with Federal Aviation Administration Regulations; and to set forth provisions for the transportation of live animals which are just and reasonable, and, for the most part, are already in effect for other carriers. Furthermore, Ozark asserts that, with respect to Rule 19(A)(1), it has merely sought to join with Delta Air

[1] Revisions to Airline Tariff Publishing Company, Agent, Tariff C.A.B. No. 96.

XUM
V40-30 FEB 12 75 FR
XUM

Lines, Inc. (Delta) in a rule which is already effective; that the shipment by air of poisonous reptiles is not in the public interest and poses a real and present hazard to other live-animal shipments and employees of the carriers and shippers; that rules similar to 19(A)(4) are already contained in Rule 19 and the carrier is only trying to follow a recognized practice and has chosen a limitation which is consistent with the capabilities of its aircraft and ground-handling facilities and equipment; that in arriving at the proposed 200-pound limit, it has taken into account the capacity of its aircraft in relation to available cargo space; and that proposed Rule 19(C)(6)(e) does not differ substantially from existing sections of the rule; however, in the interest of conformity and in an attempt to lessen the proliferation of rules, it is willing to join with Delta and Trans World Airlines, Inc. (TWA) in existing Rule 19(C)(6)(b).

All of the proposed rules come within the scope of the investigation in Docket 26310, *Rules and Practices Relating to the Acceptance and Carriage of Live Animals in Domestic Air Freight Transportation*, and their lawfulness will be determined in that proceeding. The issue now before the Board is whether to suspend the proposal or to permit it to become effective pending investigation.

The establishment of a 200-pound limit per piece and the refusal to accept poisonous reptiles represent, in our opinion, a significant decrease in Ozark's common-carrier obligation, and would represent a significant difference from typical industry tariff provisions. We see no valid basis for Ozark's 200-pound limitation, which would single out live animals while permitting other commodities to be handled based on the capacity of the carrier's facilities. No other carrier has the same limitation in effect.

It should be noted that Ozark, as well as all other carriers, participates in the advance-arrangement rule which provides that all shipments with pieces weighing in excess of 200 pounds are subject to advance arrangements. This rule, in our opinion, gives the carrier sufficient flexibility to plan use of its aircraft or other facilities in advance.

It also appears that the proposed refusal to accept poisonous reptiles is unreasonable. Ozark states that Delta Air Lines, Inc. (Delta) has the same restriction in effect in its tariff, as a result of the Board's "approval." The fact is, however, that Delta's provision (as well as a complete refusal to accept all live snakes by Trans World Airlines, Inc.) became effective after suspension by the Board, Order 74-1-79, January 14, 1974, when the 180-day suspension period expired.

The establishment of packing requirements for reptiles, on the other hand, does not appear significantly different from those currently in effect for other carriers, and we will not suspend them, pending investigation.

Consistent with the above, and upon consideration of the complaints and all other relevant factors, the Board finds that Ozark's proposals excluding poisonous snakes and other poisonous reptiles from carriage in Rule 19(A)(1) and establishing a 200-pound per piece limit on animal shipments in Rule 19(A)(4) should be suspended pending investigation.[2] The remaining proposal of Ozark will be permited to become effective.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, that:

1. Pending hearing and decision by the Board, the provisions in Rule Nos. 19(A)(1) and 19(A)(4) applicable to the carrier OZ on 8th Revised Page 10–C of Airline Tariff Publishing Company, Agent, Tariff C.A.B. No. 96, are suspended and their use deferred to and including May 7, 1975, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

2. Except to the extent granted herein, the complaints of the Pet Industry Parties in Docket 27425 and American Association of Zoological Parks and Aquariums and the Zoological Action Committee, Inc. in Docket 27423 are dismissed; and

3. Copies of this order shall be filed with the tariff and served upon the American Association of Zoological Parks and Aquariums, and the Zoological Action Committee, Inc., which are hereby made parties to Docket 26310.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[Dockets 24626, 27075; Order 75-2-33]

EASTERN AIR LINES, INC.

Order Granting Exemption and Setting Application for Hearing

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 6th day of February 1975.

Application of Eastern Air Lines, Inc., for an exemption pursuant to section 416(b) of the Federal Aviation Act of 1958, as amended—Docket 24626.

Application of Eastern Air Lines, Inc., for amendment of its certificate of public convenience and necessity for route 5—Docket 27075.

By application filed August 12, 1974, Eastern Air Lines, Inc. (Eastern), requests renewal of its present exemption authority to provide a single round-trip flight on a Pittsburgh-Atlanta-Jamaica routing for an additional period of 2 years.[1]

In support of its application, Eastern alleges, *inter alia*, that order 74-1-12 (later extended by order 74-5-127)[2] permitted Eastern to operate one daily round trip on a Pittsburgh-Atlanta-Jamaica routing, and Eastern began such service in January soon after it was authorized (flights 988 and 989); that prior thereto, beginning in December 1972 Eastern provided service over a Buffalo - Pittsburgh - Atlanta - Jamaica routing, as authorized in order 72-9-118 (see footnote 1, *supra*); that the Buffalo-Pittsburgh segment of these flights was poorly patronized during 1973; that there is sufficient alternative service available in the affected markets; and that the circumstances which led the Board to grant Eastern relief from the Toronto long-haul restriction remain valid today. The carrier also stated that compliance with condition 5 of its certificate would (1) result in an additional expense of $500,000 for the Toronto-Buffalo segment; (2) necessitate changing the number of the flight at Atlanta;[3] (3) require operation of the Buffalo-Pittsburgh segment, resulting in an estimated loss of $468,000 in 1975; and (4) burden Eastern's ability to continue to provide uninterrupted service from Pittsburgh to Jamaica via Atlanta.

United Air Lines, Inc. (United), filed a motion for leave to file an unauthorized document,[4] together with an answer in opposition to Eastern's request, stating that Eastern's application represents an attempt to eliminate condition 5 from Eastern's route 5 for an extended period of time all without economic justification or the showing of a public need; that Eastern has not met the statutory standards for exemption under the Act; that enforcement of condition 5 would not cause the public to lose the convenience of a daily Jamaica flight originating and terminating at Pittsburgh; that it appears that Eastern is more concerned with Pittsburgh-Atlanta and beyond traffic than with the Pittsburgh-Jamaica traffic as it alleges; that the proposed elimination of Eastern's long-haul certificate restriction will have a serious economic impact on United; and that Eastern has failed to submit adequate economic justification for the exemption sought.

Eastern filed a reply to United's answer stating that: authority to operate a single daily flight over a Pittsburgh-Atlanta-Jamaica routing is narrower than the relief initially granted by the Board over United's objection in order 72-9-118; contrary to United's assertion, enforcement of condition 5 would mean that Eastern's Jamaica flights would miss the Atlanta connecting complex, resulting in the loss of connecting traffic support for its Atlanta-Jamaica operations and inconvenience Jamaica connecting passengers; the purpose of its application is to eliminate the uneconomic and unnecessary portions of flights which would otherwise hinder its Pittsburgh-Atlanta-Jamaica service; renewal will have no competitive impact on the Pittsburgh-Atlanta market, since the level of Eastern's service will remain unchanged; and United's claim that Eastern has failed to submit adequate economic justification for the requested exemption is groundless.

Subsequently, on October 7, 1974, Eastern filed a certificate application in docket 27075 to permanently authorize unrestricted service between Pittsburgh and Jamaica via Atlanta. Contemporaneously therewith the carrier filed a motion for leave to amend its exemption application,[5] together with a supplement to the latter application, stating that: since Eastern now is the designated U.S.-flag carrier for the Toronto-Pittsburgh nonstop route under the new United States-Canada bilateral agreement, a stop at Buffalo is no longer required on flights between Toronto and Pittsburgh; however, Eastern cannot combine nonstop Toronto-Pittsburgh operations with its existing Pittsburgh-Atlanta-Jamaica flights and still maintain its present Pittsburgh/Atlanta-Jamaica service; compliance with condition 5 would therefore force Eastern to institute an additional Toronto-Pittsburgh nonstop round trip and to incur more than $782,000 in needless operating expenses without the benefit of any added revenue support; the addition of the Toronto-Pittsburgh nonstop route does not change those provisions which prohibit the advertising of Toronto-Jamaica flights and require a change of flight number at Atlanta; and there would be no need for another nonstop flight in the local Toronto-Pittsburgh market, since Eastern's December 3rd schedules include four daily round-trip nonstop flights. The carrier requests that grant be for a period of 2 years commencing December 12, 1974 or until 90 days after final decision on its certificate application for similar relief in docket 27075, whichever occurs first.

United filed an answer to Eastern's amendment, and Eastern filed a reply to United's answer.

Upon consideration of the pleadings and all the relevant facts, we have decided to (1) set Eastern's certificate application in docket 27075 for hearing and (2) renew Eastern's present Pittsburgh-Atlanta-Jamaica authority for an additional 2-year period, or until 90 days after final decision on its certificate application in docket 27075, whichever should first occur.

We believe that the public interest would best be served by renewing Eastern's present Pittsburgh-Atlanta-Jamaica exemption authority, pending an investigation of the need for permanent certificate authority in a formal proceeding. None of the arguments advanced by United persuade us to the contrary. The service which Eastern plans to provide—a single daily round trip—will be extremely limited in scope and does not have the effect of eliminating condition 5 from Eastern's route 5. In addition, the level of Eastern's Pittsburgh-Atlanta service will remain unchanged, so that any adverse competitive impact on United will not result from the exemption granted herein.

The effect of enforcing condition 5(b) of route 5 of Eastern's certificate would be to require the proposed Pittsburgh-Atlanta-Jamaica flight to operate beyond Pittsburgh to Toronto.[6] The long-haul restriction on Eastern's Pittsburgh-Atlanta authority was imposed in order to keep Eastern from competing on a turnaround basis with United, the unrestricted incumbent in the market. Although this question will be resolved at the hearing on the requested certificate amendment, it appears that a Pittsburgh-Atlanta flight serving a point as distant as Jamaica serves precisely the same purpose as a restriction requiring such flights to serve Toronto (which actually is considerably closer to Pittsburgh than Jamaica is to Atlanta). Moreover, there has been no showing of any need for service to Toronto on the proposed flight. The Toronto-south markets involved are all amply served, and it appears that they will be only minimally affected by Eastern's proposed Pittsburgh-Atlanta-Jamaica flight. In addition, the marketability of the flight in relation to Toronto-Jamaica service cannot be improved because the United States-Canada bilateral prohibits the advertising of Toronto-Jamaica flights and requires a change of flight number at Atlanta. Enforcement of condition 5 would cause Eastern's proposed flight to Jamaica to be uneconomic, and since condition 5 was not designed to limit Eastern's operations in United States-Jamaica markets, this result is unduly burdensome. Furthermore, certification proceedings could not be completed in time to permit Eastern to conduct its proposed services. Under all these circumstances, the Board concludes that enforcement of section 401 of the Act and the terms, conditions, and limitations of Eastern's certificate, to the extent that it would prevent the limited authority granted herein, would be an undue burden on the carrier by reason of the limited extent of, and unusual circumstances affecting, the carrier's operations, and would not be in the public interest.

During the past few years the Board has acted with caution in setting for hearing certificate amendment applications where it appeared that grant of the application would increase or intensify

[1] By order 72-4-150, Mar. 10, 1972, the Board authorized Eastern to provide Atlanta-Jamaica service (*Chicago/Atlanta-Jamaica Service Investigation*). Condition 6 of route 5 (now condition 5(b)) requires that all Pittsburgh-Atlanta schedules originate or terminate in Toronto. By order 72-9-118, Sept. 29, 1972, Eastern was exempted from the provisions of its certificate for route 5 so as to permit it to provide one daily Buffalo-Pittsburgh-Atlanta-Jamaica round trip. Subsequently, by order 74-1-12, Jan. 2, 1974, the Board amended order 72-9-118 to authorize Eastern to discontinue a single daily round-trip flight between Pittsburgh and Buffalo on its Buffalo-Pittsburgh-Atlanta-Jamaica service. By order 74-5-127, May 24, 1974, the authority granted in order 74-1-12 was extended until Dec. 12, 1974, Eastern has invoked the automatic extension provisions of 5 U.S.C. 558(c).

[2] Both orders were predicated upon the need to conserve fuel; however, Eastern does not base its present applicaton upon consideration of fuel conservation.

[3] The Canadian bilateral prohibits the advertising by Eastern of Toronto-Jamaica service and requires that Eastern change the flight number of the proposed service at Atlanta.

[4] We will grant the motion.

[5] We will grant the motion.

[6] At the time order 72-9-118 was issued, Eastern could not provide Pittsburgh-Toronto nonstop service, but only nonstop authority between Buffalo and Toronto. Thus, the practical effect of condition 5(b) was to require that both Buffalo and Toronto be served on all Pittsburgh-Atlanta flights and, consequently, there were references in order 72-9-118 to Buffalo service. As a result of the recent amendments to the United States-Canada bilateral, Eastern can operate between Toronto and Pittsburgh (see also condition 3 of Eastern's route 148). Since the carrier could now operate Toronto-Pittsburgh-Atlanta-Jamaica service, we will not consider the need for service to Buffalo on the proposed flight.

[7] The Board can find no basis upon which to reject Ozark's filing.

XUM V40130 FEB 1275 XUM

competition among domestic air carriers. This course has been occasioned by depressed economic conditions in air transportation following a period of rapid expansion and, more recently, by the need to conserve scarce fuel. It has also to some extent been influenced by unusual demands upon the time of the Board's staff in fare and rate matters, *e.g.*, in the recently completed *Domestic Passenger-Fare Investigation*. Undoubtedly this course can be expected to change as the relevant circumstances change, and it goes without saying that the Board has a continuing duty to address those situations where it becomes apparent that there are legitimate needs for additional or improved air service which are not being met.[1] Moreover, it does not appear from the present pleadings that grant of Eastern's application would significantly increase or intensify competition, for the reasons stated in the preceding paragraphs, or would increase overall capacity; and indeed it appears likely that a net savings in fuel would result. Of course such questions, like others, will be ultimately determined on the record at the hearing.

We have determined that the proceeding instituted herein is by its very nature not one which could lead to a "major Federal action significantly affecting the quality of the human environment" within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA). In a case such as the instant one all prospective environmental effects, direct and secondary, proceed in the first instance from changes in aircraft schedules and levels of service. Our conclusion in regard to the environment is largely based, therefore, upon our findings that there are unlikely to be environmentally significant changes in such schedules and service levels should unrestricted Pittsburgh-Atlanta-Jamaica service be authorized. In its application for exemption authority in docket 24626, Eastern proposes the operation of a single daily Pittsburgh-Atlanta-Jamaica round trip. In view of the size of the Pittsburgh/Atlanta-Jamaica markets (less than 20,000 O&D passengers for calendar year 1973) and the level of existing service,[2] it is unlikely that Eastern would offer significantly more service. Such a service change must be placed against the large overall level of traffic at Pittsburgh and Atlanta. In 1973 there were 210,885 and 96,348 certificated carrier aircraft departures at Atlanta and Pittsburgh, respectively.[3] Therefore, it is unreasonable to suppose on the face of the matter that authorization of unrestricted Pittsburgh-Atlanta-Jamaica service will lead to more than very minor environmental changes.

Accordingly, we are not directing our staff to undertake the preparation of an environmental assessment. Our conclusion herein is not intended to foreclose any party from presenting evidence (subject to the usual evidentiary rules in force in CAB proceedings) or from making arguments with respect to relevant environmental issues. Nor is our conclusion intended to foreclose our consideration of environmental impacts resulting from the contemplated licensing action which, although of a lesser magnitude than those required to trigger the NEPA procedures, might nonetheless be relevant to our decision.

Accordingly, it is ordered, That:

1. The application of Eastern Air Lines, Inc., in docket 27075 for amendment of its certificate of public convenience and necessity for route 5 be and it hereby is set for hearing at a time and place to be hereafter designated;

2. The hearing shall consider the issue of whether the public convenience and necessity require that Eastern's certificate be altered, amended, or modified so as to authorize the carrier to engage in turn-around air transportation between Pittsburgh, Pa., and Jamaica, via Atlanta, Ga.;

3. Eastern Air Lines, Inc., be and it hereby is temporarily exempted from section 401 of the Act, and the terms, conditions, and limitations of its certificate of public convenience and necessity for route 5, to the extent necessary to permit it to operate one daily round trip on a Pittsburgh-Atlanta-Jamaica routing:

4. The authority granted in paragraph 3 above shall be effective on the date of this order and shall continue in effect for a period of 2 years or until 90 days after final decision on its certificate application in docket 27075, whichever shall first occur;

5. The motions of United Air Lines, Inc., and Eastern Air Lines, Inc., for leave to file an unauthorized document and for leave to amend the application be and they hereby are granted;

6. This authority may be amended or revoked at any time in the discretion of the Board without hearing; and

7. This order shall be served on Eastern Air Lines, Inc.; United Air Lines, Inc.; Allegheny Airlines, Inc.; Braniff Airways, Inc.; Trans World Airlines, Inc.; Delta Air Lines, Inc.; Northwest Airlines, Inc.; Piedmont Airlines, Inc.; Southern Airways, Inc.; Pan American World Airways, Inc.; American Airlines, Inc.; National Airlines, Inc.; Governor, State of Pennsylvania; Governor, State of Georgia; Mayor, City of Pittsburgh; Mayor, City of Atlanta; Airport Manager, Hartsfield International Airport; Airport Manager, Greater Pittsburgh Airport; the Postmaster General; the Departments of the Interior, Transportation, Commerce, Health, Education, and Welfare, and State; the National Aeronautics and Space Administration; the Environmental Protection Agency; the Council on Environmental Quality; and the Federal Aviation Administration.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75-3971 Filed 2-11-75;8:45 am]

[1] In this connection, it may be noted that the public is currently being asked to comment on a Domestic Route Study, prepared by the Board's Bureau of Operating Rights, which explores potential service needs during the next decade and suggests possible future standards for setting route cases for hearing. This study, however, has not to date been adopted or endorsed by the Board, nor has the Board determined to defer all consideration of present service needs until a long-term study is completed and a decision is reached as to what new general standards, if any, are needed in this area, which is presently governed by section 399.60 of the Board's Policy Statements.

[2] Except for Eastern's proposed flight, only connecting flights are offered in the Atlanta/Pittsburgh-Jamaica markets.

[3] *Airport Activity Statistics of Certificated Route Air Carriers*, 12 months ended Dec. 31, 1973.

CIVIL SERVICE COMMISSION

FEDERAL EMPLOYEES PAY COUNCIL

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Pub. L. 92-463, notice is hereby given that the Federal Employees Pay Council will meet at 2:00 p.m. on Wednesday, March 19, 1975. This meeting will be held in room 3314 of the U.S. Civil Service Commission building, 1900 E. Street, N.W., and will consist of continued discussions on the fiscal year 1976 comparability adjustment for the statutory pay systems of the Federal Government.

The Chairman of the U.S. Civil Service Commission is responsible for the making of determinations under section 10(d) of the Federal Advisory Committee Act as to whether or not meetings of the Federal Employees Pay Council shall be open to the public. He has determined that this meeting will consist of exchanges of opinions and information which, if written, would fall within exemptions (2) or (5) of 5 U.S.C. 552(b). Therefore, this meeting will not be open to the public.

For the President's Agent:

FRED W. HOHLWEG,
Acting Advisory Committee Management Officer for the President's Agent.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 332-6; OPP-32000/187]

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street SW., Washington, D.C. 20460.

On or before April 14, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after April 14, 1975.

Dated: February 4, 1975.

JOHN B. RITCH, Jr.,
Director,
Registration Division.

MOBIL CHEMICAL CO.

[FRL 332-7]

Establishment of Temporary Tolerances

Mobil Chemical Co., Post Office Box 26683, Richmond, VA 23261, submitted a petition (PP 5G1505) requesting establishment of temporary tolerances for negligible residues of the herbicide bifenox (methyl 5-(2,4-dichlorophenoxy)-2-nitrobenzoate) in or on the raw agricultural commodities the grain and straw of barley, oats, rice, and wheat and sorghum grain and forage at 0.05 part per million.

It has been determined that the temporary tolerances of 0.05 part per million for negligible residues of the herbicide in or on the above raw agricultural commodities will protect the public health. They are therefore established as requested on condition that the herbicide be used in accordance with the temporary permits being issued concurrently and which provide for distribution under the Mobil Chemical Co. name.

These temporary tolerances expire February 5, 1976. Residues remaining in or on the above raw agricultural commodities after expiration of these tolerances will not be considered actionable if the pesticide is legally applied during the term, and in accordance with provisions of the temporary permits/tolerances.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805).

Dated: February 5, 1975.

EDWIN L. JOHNSON,
Deputy Assistant Administrator
for Pesticide Programs.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19787; File No. BL-13137; FCC 75-126]

CHESAPEAKE-PORTSMOUTH BROADCASTING CORP.

Memorandum Opinion and Order Modifying Hearing

In re application of Chesapeake-Portsmouth Broadcasting Corporation, Portsmouth, Virginia, for broadcast license for WPMH(AM).

1. The Commission has before it the briefs of Chesapeake-Portsmouth Broadcasting Corporation (Chesapeake-Portsmouth) and the Broadcast Bureau filed in accordance with the Commission's memorandum opinion and order released June 18, 1974, 47 FCC 2d 306.[1] The Briefs were limited by the Commission's memorandum opinion and order to an analysis of section 319(c) of the Communications Act, 47 USC § 319(c), and its relation to section 309 of the Act, 47 USC § 309, and particularly section 309(e), including any relevant legislative history and Commission and judicial precedent concerning the application of these provisions to a proceeding on an application for license to cover construction permit.

2. Chesapeake-Portsmouth had petitioned the Commission for waiver of its rules and reconsideration of the order designating for hearing its application for license to cover construction permit of WPMH in Portsmouth, Virginia. In our Memorandum Opinion and Order, supra, we denied the petition for reconsideration.[2] On our own motion, however, we noted that the application had been designated for hearing under section 309(e) but that a provision of section 319(c), uncited by either party, makes Section 309(a)-(g) inapplicable to "any license the issuance of which is provided for and governed by the provisions of [section 319(c)]." The Commission was concerned with whether the order of designation complied with the Communications Act.

3. We have examined the arguments of the parties and have independently researched the problem. It is our opinion that an application for license to cover construction permit may not be designated for hearing under the provisions of section 309(e).

4. Section 319(c) reads as follows:

• • • • •

Upon the completion of any station for the construction or continued construction of which a permit has been granted, and upon it being made to appear to the Commission that all the terms, conditions, and obligations set forth in the application and permit have been fully met, and that no cause or circumstance arising or first coming to the knowledge of the Commission since the grant of the permit would in the judgment of the Commission, make the operation of such station against the public interest, the Commission shall issue a license to the lawful holder of said permit for the operation of the station. Said license shall conform generally to the terms of said permit. The provisions of Section 309(a), (b), (c), (d), (e), (f), and (g) shall not apply with respect to any station license the issuance of which is provided for and governed by the provisions of this subsection.

5. The provisions of section 319(c) plainly put the applicant for a license to cover construction permit in a protected position—different from and superior to those applicants for licenses (or construction permits) subject to section 309(a)-(g). Under section 309 we first had to find that grant of the construction permit to Chesapeake-Portsmouth was in the public interest before we made the grant; as we read section 319(c), we are enjoined to issue the license to cover the construction permit unless factors coming to our attention subsequent to the grant of the permit would, in our judgment, make a grant of the license to cover the construction permit against the public interest. This requires a finding different from the one under section 309. There is, as it were, a continuation of the Commission's previous finding of public interest in granting the construction permit until we reach an opposite conclusion with respect to the application for the license.

6. This reading of section 319(c) is buttressed by the legislative history of that section. Early House bills proposing a national scheme for regulation of radio took the position that grant of a license to cover a construction permit be at the discretion of the licensing authority. These bills provided that grant of the permit to construct should not be construed to impose any duty on the licensing authority to issue a license for the operation of the station. H.R. 11964, 67th Cong., 2d Sess. (1922); H.R. 13773, 67th Cong., 4th Sess. (1923). Vigorous objections were raised to this proposed provision on the ground that no one would be willing to construct or would be able to borrow funds for construction if there were no assurance that the license to cover the construction permit would issue. *See* 64 Cong. Rec. 2792-3 (1923).

7. In 1924, one of the supporters of absolute discretion introduced a new House bill which was substantially like its predecessors of 1922 and 1923 except that the express language denying the construction permit weight of itself was deleted and language almost identical[3] to that now appearing in Section 319(c) was substituted. H.R. 7357, 68th Cong., 1st Sess. (1924). In contrast to the previously proposed absolute discretion of the licensing authority, the language proposed in 1924 conferred limited power to refuse licenses to cover construction permits, *i.e.*, only upon new information. Subsequent bills included substantially the same provision which was finally adopted as Section 21 of the Radio Act of 1927.

8. With minor changes in language, not here pertinent, the Communications Act of 1934 reenacted Section 21 of the 1927 Act as section 319(b). The Communications Act Amendments, 1952, ch. 879, 66 Stat. 711 (July 16, 1952), removed the license to cover construction permit provision from subsection (b) of section 319 and placed it in a new subsection (c) and also excluded section 319(c) license applications from the ambit of Section 309 for the first time. The House Report on the 1952 amendments, H. Rept. No. 1750, 1952 U.S. Code Cong. and Adm. News 2234, makes clear that then section 319(b) "directs" the Commission to issue the license if no subsequent adverse information arises and that ". . . in most cases the issuance of such license would almost automatically follow from the fact that the construction permit was granted" and thus the prehearing and protest procedures of revised section 309 (b) and (c) should not apply. See also Benton Broadcasting Service, 9 RR 586 (1953) and KACY, Inc., 30 FCC 2d 648 (1971).

9. In 1960, to accommodate changes in Section 309, section 319(c) was amended to make subsections (d) through (g) of section 309 also inapplicable to licenses to cover construction permits. 14 Stat. 889. Specific language in section 319(c)

[1] Briefs filed by the Chief, Broadcast Bureau and by Chesapeake-Portsmouth Broadcasting Corporation on August 23, 1974, and reply briefs filed by the Chief, Broadcast Bureau and by Chesapeake-Portsmouth Broadcasting Corporation on August 30, 1974.

[2] On October 18, 1974, Chesapeake-Portsmouth filed a document entitled "Supplement to Petition for Waiver of the Commission's Rules and Request for Expedited Consideration," and the Chief, Broadcast Bureau filed an opposition to that document on October 23, 1974. We explicitly denied Chesapeake-Portsmouth's petition for waiver and dismissed its petition for reconsideration of designation and expedited consideration. At that time we authorized Chesapeake-Portsmouth to file its pleading with the officer presiding at the hearing as a petition for summary decision. Since Chesapeake-Portsmouth's petitions are no longer before us, its supplement is clearly unauthorized and will be dismissed.

[3] The only difference is the identity of the licensing authority.

excludes the application of the procedural requirements of section 309 to applications for licenses to cover construction permits:

> • • • Section 309 (a), (b), (c), (d), (e), (f), and (g) shall not apply with respect to any station license the issuance of which is provided for and governed by the provisions of this subsection [319(c)].

10. The Bureau would have us adopt the thesis that the provisions of section 309(a)-(g) are inapplicable only when a license is issued automatically but that if a hearing is required, section 309(e) becomes applicable because, once designated for hearing, the license is no longer one "the issuance of which is provided for and governed by [section 319(c)]." The Bureau's argument is ingenuous. It deprives the provision of any substantive meaning. Clearly, section 309(e) cannot be applicable to licenses to cover construction permits granted without hearing, for the very reason that no hearing is held. Thus the only instances in which section 309(e) otherwise might be applicable are instances when a hearing is necessary.

11. To adopt the Bureau's interpretation is to reduce the section 319(c) prohibition on the applicability of section 309(a)-(g) to a restatement of the obvious: the hearing provisions of Section 309 do not apply when no hearing is held. This is antithetical to the principles of statutory construction that meaning be given to every provision of a statute and that a provision may not be interpreted to render it superfluous or nugatory. *Ginsberg & Sons* v. *Popkin*, 285 U.S. 204 (1932); *Ex parte Public Nat. Bank*, 278 U.S. 101 (1928); and *Washington Market Co.* v. *Hoffman*, 101 U.S. 112 (1879). As Chesapeake-Portsmouth points out, it is not impossible to ascribe meaning to the language in question. There are a number of kinds of licenses the issuance of which is not provided for under section 319(c) and which are not governed by section 319(c); namely, all those for which a construction permit is not required. See section 319(d). Furthermore, the Bureau's position seems tied to the concept relied on in its opposition to the petition for reconsideration that designation for hearing of the application for license to cover construction permit constitutes a finding by the Commission that grant would be against the public interest.[4] If the Commission's designation order were such an affirmative finding that a grant of the application for license to cover construction permit was against the public interest, then a hearing would serve no purpose for the Commission would already have decided the ultimate question. Rather, the designation order is a finding only that public interest questions have been raised which require examination in a record hearing. The Commission cannot make a determination of the public interest until it has considered the record evidence and arguments adduced by a hearing. For these reasons, we believe the position taken by the Bureau is fatally flawed; section 309(e) does not apply to this proceeding[5] and should not have been the basis of the order designating for hearing Chesapeake-Portsmouth's application for license to cover construction permit.

12. Nevertheless, we do not believe, as Chesapeake-Portsmouth argues, that we were precluded from designating its application for hearing or that we must now grant the license. We agree with Chesapeake-Portsmouth that section 319(c) was intended to create an expedited procedure whereby, if the terms of the construction permit were met, a license would issue "almost automatically" without the waiting period prescribed by section 309(c)(2).[6] However, as in this case, where new information raises the question of whether causes or circumstances exist which would make a grant against the public interest, such expedited treatment is no longer warranted. The Commission must have adequate time to investigate charges brought against a permittee; otherwise, we would be forced either to designate a license application for hearing without certainty of the necessity for such action or to issue a license in circumstances which might prove to be contrary to the public interest.

13. Nor do we agree with Chesapeake-Portsmouth that the kinds of issues we designated are precluded by section 319(c). We agree that generally the Commission should designate for hearing applications for licenses to cover construction permits only for alleged technical violations of an extremely serious nature, for questions concerning the underlying validity of the permit itself, for serious character qualifications issues, or for alleged noncompliance with the construction permit. But we believe it would be contrary to the public interest to take the position argued by Chesapeake-Portsmouth that we may not set for hearing matters involving the general operation of a station under program test authority.[7] The determinative question is whether the matters here designated, if proved, would justify a conclusion that a grant of the pending application would be *against* the public interest. The four issues designated by us were whether there was adequate supervision and control of the station; whether there was compliance with the equal employment opportunity requirements of the Rules; whether there was compliance with the Emergency Broadcast System rules; and whether there was a public file available in compliance with the Rules.[8] In our view, the charges against Chesapeake-Portsmouth are sufficiently serious *in toto* to require resolution before we can issue a license under the standard established by section 319(c).

14. The final matter for consideration is the question of which party is to bear the burden of proceeding and the burden of proof of the ultimate issue. Unlike section 309(e), which places the burden of proceeding and of proof on the applicant in a hearing on a construction permit or license application governed by that section, and section 312(d), which places the burden on the Commission on the question of issuance of a revocation or cease and desist order, section 319(c) does not expressly prescribe these burdens. If read literally, the language would seem to require someone, presumably the applicant, to make it appear to the Commission that no new cause or circumstance arising or first coming to the knowledge of the Commission since the grant of the permit would make the operation of the station against the public interest. This is an impossible burden, greater even than that borne at the time of the grant of the construction permit because the applicant would be required to prove that nothing had happened since grant of the permit which would make grant of the license against the public interest. After careful consideration, we believe the scheme of section 319(c) requires the Bureau to bear both the burden of proceeding with the evidence and the burden of proving that there is a new cause or circumstance which makes issuance of a license against the public interest.[9] The exclusion of section 319(c) license applications from the provisions of section 309(e) would be rendered largely meaningless if the burdens were the same under both sections. Furthermore, this interpretation is most compatible with the idea that section 319(c) provides a greater degree of protection to applicants for licenses to cover construction permits than that afforded

[4] The Bureau argued at page 4 of its opposition, filed January 30, 1974: "Such an affirmative finding has been made in this case at the time of designation for hearing of [Chesapeake-Portsmouth's] license application."

[5] In *Independent Broadcasting Co., Inc.* v. *FCC*, 39 U.S. App. D.C. 396, 193 F. 2d 900 (1951), the Court affirmed a Commission decision in which we applied the procedural provisions and decisional criterion of sec. 309 to a hearing involving an application for license to cover construction permit. At that time, however, the Act did not exclude licenses to cover construction permits from the provisions of section 309. Not until 1952 did Congress amend Section 319 by expressly making the standards of section 309 inapplicable to section 319(c) licenses. Thus, we believe, Congress effectively, if silently, overruled the *Independent* decision. *Communications Act Amendments, 1952, supra.*

[6] Chesapeake-Portsmouth does not argue that we may not designate an application for hearing under section 319(c).

[7] Chesapeake-Portsmouth has been operating under program test authority since January 4, 1972. A field investigation of its operation was made in August of 1972.

[8] The Review Board has since added a meritorious programming issue requested by Chesapeake-Portsmouth and issues requested by the Broadcast Bureau with respect to Chesapeake-Portsmouth's compliance with certain operator and logging rules and with respect to whether, in light of violation notices issued by the Commission, Chesapeake-Portsmouth will exercise the degree of responsibility required of a licensee of the Commission. 45 FCC 2d 1046 (1974) and FCC 74R-394, released October 23, 1974.

[9] The designation order and subsequent issues added by the Review Board do not raise any question as to whether "all the terms, conditions, and obligations set forth in the application and permit have been met", as required before issuance of a license under section 319(c). The burden of proceeding and of proof on such an issue would necessarily be on the applicant.

XUM

other applicants. Therefore we will modify the designation order in this proceeding by removing the burdens of proceeding and of proof from Chesapeake-Portsmouth and placing them on the Bureau. Furthermore, on our own motion, we will modify the assignment of burdens on those issues subsequently added by the Review Board. *See* Note 8, *supra*.

15. *Accordingly, it is ordered,* That the order and notice of apparent liability designating this proceeding for hearing, FCC 73–748, released July 25, 1973, is modified as follows:

a. In paragraph 3, delete the language "pursuant to Section 309(e) of the Communications Act of 1934, as amended;"

b. Paragraph 3(e) is modified to read as follows: To determine, in light of the evidence adduced under the preceding issues, whether a grant of the application would be against the public interest.

c. Paragraph 7 is modified to read as follows: 7. IT IS FURTHER ORDERED, That the Broadcast Bureau shall have the burden of going forward with the evidence and the burden of proof with respect to issues (a) through (e);

d. Paragraph 9 is deleted.

16. *It is further ordered,* That the Memorandum Opinions and Orders of the Review Board, 45 FCC 2d 1046 (1974) and FCC 74R–394, released October 23, 1974, ARE MODIFIED so that the Broadcast Bureau will assume both the burdens of going forward with the evidence and of proof on these issues added in response to the Bureau's requests for enlargement of issues.

17. *It is further ordered,* That the Supplement to the Petition for Reconsideration of Designation Order, Petition for Waiver of the Commission's Rules, and Request for Expedited Consideration IS DISMISSED.

Adopted: January 29, 1975.

Released: February 6, 1975.

FEDERAL COMMUNICATIONS COMMISSION,

[Report No. 739]

COMMON CARRIER SERVICES INFORMATION [1]

Domestic Public Radio Services Applications Accepted for Filing [2]

FEBRUARY 3, 1975.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) the close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cut-off dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to §§ 21.27 of the Commission's Rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION
[SEAL] VINCENT J. MULLINS,
Secretary.

60268–CR–P–75, The Mountain States Telephone and Telegraph Company (KSV88) C.P. to add test facilities to operate on 459.40 MHz located at 103 North Durbin, Casper, Wyoming.

60269–CR–P–75, The Mountain States Telephone and Telegraph Company (KOB79) C.P. to replace transmitter operating on 459.65 MHz located 26.4 miles ENE. of Vernal, Utah.

60270–CR–P–75, The Mountain States Telephone and Telegraph Company (KOB80) C.P. to replace transmitter operating on 454.65 MHz located at 67 N. Vernal Avenue, Vernal, Utah.

60271–CR–P/L–75, The Mountain States Telephone and Telegraph Company (New) C.P. for a new rural subscriber station to operate on 157.77 MHz to be located 19.9 miles NE of Douglas, Wyoming.

POINT TO POINT MICROWAVE RADIO SERVICE

2168–CF–MP–75, Eastern Microwave, Inc. (WQR74) Salem, Ohio (Lat. 40°51'22" N., Long. 80°52'06" W.): Mod. of C.P. (9381–C1–P–73)—(a) to relocate station to foregoing coordinates and (b) to change point of communication to Hookstown (WQR72), Pennsylvania, on azimuth 131°/39', on existing frequencies (11425H MHz and 11585H MHz).

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's Rules, regulations and other requirements.

[2] The above alternative cut-off rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio and Local Television Transmission Services (Part 21 of the Rules).

2169–CF–MP–75. Same (WQR72) 1.4 miles SE. of Hookstown, Pennsylvania. (Lat. 40°34'41" N., Long. 80°27'34" W.): Mod. of C.P. (9382–C1–P–73)— (a) to relocate station to foregoing coordinates; (b) to delete Ellwood City, Pennsylvania, as point of communication; (c) to add existing frequencies 10795H MHz and 11135H MHz, via path intercept, toward McKees Rocks, Pennsylvania, on azimuth 109°/15'; (d) to change azimuth toward Pittsburgh (WQR73), Pennsylvania, to 109°/05'; and (e) to change azimuth toward Aliquippa, Pennsylvania, to 74°/58'.

2431–CF–P–75, United Video, Inc. (KXQ38) 1.75 miles SE. of Dallas City, Illinois (Lat. 40°37'24" N., Long. 91°07'53" W.): C.P. to add (reinstate) 10735H MHz and 10895H MHz toward Fort Madison, Iowa, on azimuth 277°/18'.

2432–CF–P–75, Andrews Tower Rental, Inc. (WQQ43) 1.2 miles North of Bowie, Texas (Lat. 33°35'00" N., Long. 97°51'42" W.): C.P. to add 6004.5V MHz and 6063.8V MHz toward Wichita Falls, Texas, on azimuth 300°/00'.

2433–CF–P–75, Same (New) Wichita Falls, Texas (Lat. 33°53'50" N., Long. 98°32'33" W.): C.P. for a new station—6197.2H MHz, 6256.5H MHz, and 6315.9H MHz toward Electra, Texas, on azimuth 294°/00'.

2434–CF–P–75, Same (New) Electra, Texas (Lat. 34°02'16" N., Long. 98°54'43" W.): C.P. for a new station—5945.2V MHz, 6004.5V MHz, and 6063.8V MHz toward Vernon and Seymour, Texas, on azimuth 288 degrees/30 minutes and 212°/00', respectively. (A waiver of 21.701(i) is requested by Andrews.)

2437–CF–P–75, Microwave Transmission Corporation (KNL31) Fremont Peak, California (Lat. 36°45'20" N., Long. 121°30'00" W.): C.P. to add 6152.8V MHz and 5967.5V MHz towards Williams Hill, California, on azimuth 153°/11'.

2438–CF–P–75, Same (New) Williams Hill, 7.0 miles SW. of San Ardo, California (Lat. 35°57'04" N., Long. 121°00'08" W.): C.P. for a new station—6170.0H MHz and 6404.8H MHz toward Cuesta Ridge, California. (Note: A waiver of 21.701(i) is requested by MTC.)

2444–CF–MP–75, American Television & Communications Corporation (WAT976) Mastins Corners, Virginia (Lat. 38°11'14" N., Long. 77°45'56" W.): Mod. of C.P. to change antenna system and replace transmitters on 5945.2H & 6063.8H MHz toward Charlottesville, Virginia, on azimuth 250°/25'.

2445–CF–MP–75, American Television & Communications Corporation (WAT977) Charlottesville, Virginia (Lat. 37°58'59.5" N., Long. 78°28'54" W.): Mod. of C.P. to change antenna system, increase transmitters output power, and replace transmitters on 6226.9H and 6286.2H MHz toward Spear Mtn., Virginia, on azimuth 208°/44'.

2446–CF–MP–75 Same (WAT978) Tower Hill, Virginia (Lat. 37°34'33.5" N., Long. 78°45'43" W.): Mod. of C.P. to change antenna system and replace transmitters on 6197.2V and 6256.5V MHz toward Jack Mtn., Virginia, on azimuth 231°/24'.

2447–CF–MP–75, Same (WAT979), Lynchburg, Virginia (Lat. 37°20'12.5" N., Long. 79°08'12" W.): Mod. of C.P. to change antenna system and replace transmitters on 5945.2H and 6004.5H MHz toward Dry Fork, Virginia, on azimuth 198° 32'.

2448–CF–MP–75, Same (WAT980), Dry Fork, Virginia (Lat. 36°44'28" N., Long., 79°23'-05"W.): Mod. of C.P. to change antenna system and replace transmitters on 6226.9H and 6286.2H MHz toward Reidsville, North Carolina, on azimuth 211°35'; 6226.9V and 6286.2V MHz toward Danville, Virginia, on azimuth 191°55'.

2449–CF–MP–75, Same (WAT981), Reidsville, North Carolina (Lat. 36°23'17" N., Long. 79°39'11" W.): Mod. of C.P. to change antenna system and replace transmitters on 5974.8H and 6034.2H MHz toward Greensboro, North Carolina, on azimuth 202°57'; 6034.2H MHz toward Burlington, North Carolina, on azimuth 256°45'.

2450–CF–MP–75, Same (WAT982), Greensboro, North Carolina (Lat. 36°03'47" N., Long. 79°49'21" W.): Mod. of C.P. to change antenna system and replace transmitters on 11385V and 11625V MHz toward High Point, North Carolina, on azimuth 247°44'.

2490–CF–P–75, Southern Bell Telephone and Telegraph Company (KJL23), 4.2 Miles SE of Nickelsville, Georgia. Lat. 32°39'15" N., Long. 83°01'48" W. C.P. to add frequency 6286.2H MHz toward Gordon, Georgia, on azimuth 306°36'.

2491–CF–P–75, Same (KJL24), 2.5 Miles South of Gordon, Georgia. Lat. 32°50'52" N., Long. 83°20'22" W. C.P. to change alarm system and add frequencies 6034.2H MHz toward Round Oak, Georgia, on azimuth 318°14'; add 6004.5H MHz toward Nickelsville, Georgia, on azimuth 126°26'.

2261–CF–P–75, General Telephone Company of the Northwest, Inc. (KPJ99), 109 Midway Blvd., Oak Harbor, Washington. Lat. 48°-17'32" N., Long. 122°38'35" W. C.P. to change antenna system and location, correct co-ordinates, azimuth, and path distance, and add frequencies 2178.0V and 2178.0H MHz toward Camano Island, Washington, on azimuth 135°54'.

2480–CF–P–75, Southern Bell Telephone and Telegraph Company (KJK92), 0.8 Mile SSW of Clarks Hill, South Carolina. Lat. 33°39'39" N., Long. 82°10'47" W. C.P. to add frequency 6197.2V MHz toward Thomson, Georgia, on azimuth 238°49'; add 6197.2V MHz toward Augusta, Georgia, on azimuth 136°30'.

2481–CF–P–75, Same (KJK93), 2.7 miles NE of Thomson, Georgia. Lat. 33°29'53" N., Long. 82°28'34" W. C.P. to remove tower lighting requirements and add frequency 5974.8V MHz toward Mitchell, Georgia, on azimuth 215°47'; add 5974.8V MHz toward Clarks Hill, South Carolina, on azimuth 56°39'.

2482–CF–P–75, Same (KJK94), 1.6 miles NNE of Mitchell, Georgia. Lat. 33°14'29" N., Long. 82°41'46" W. CP to add frequency 6197.2V MHz toward Tennille, Georgia, on azimuth 192°53'; add 6197.2V MHz toward Thomson, Georgia, on azimuth 35°40'.

2483–CF–P–75, Same (KJK95), 1.9 miles East of Tennille, Georgia. Lat. 32°56'10" N., Long. 82°46'44" W. CP to add frequency 5974.8V MHz toward Nickelsville, Georgia, on azimuth 217°01'; add 5974.8V MHz toward Mitchell, Georgia, on azimuth 12°50'.

2484–CF–P–75, Same (KJL23), 4.2 miles SE of Nickelsville, Georgia. Lat. 32°39'15" N., Long. 83°01'48" W. CP to add frequency 6197.2V MHz toward Tennille, Georgia, on azimuth 36°53'.

2485–CF–P–75, Same (KTF45), 937 Greene Street, Augusta, Georgia. Lat. 33°28'30" N., Long. 81°58'10" W. CP to add frequency 5974.8V MHz toward Clarks Hill, South Carolina, on azimuth 316°37'.

2486–CF–P–75, Same (KJG91), 787 Cherry Street, Macon, Georgia. Lat. 32°50'19" N., Long. 83°37'54" W. CP to add frequency 4010H MHz toward Round Oak, Georgia, on azimuth 03°22'.

2487–CF–P–75, Same (KJG92), 0.25 Mile South of Round Oak, Georgia. Lat. 33°06' 19" N., Long. 83°36'47" W. CP to change alarm system and add frequencies 6226.9V MHz toward Jackson, Georgia on azimuth 306°11'; 6256.5H MHz toward Gordon, Georgia, on azimuth 136°05'; add 3970H MHz toward Macon, Georgia, on azimuth 183°22'.

2488–CF–P–75, Same (KJG93), 1.4 miles ENE of Jackson, Georgia. Lat. 33°17'58" N., Long. 83°55'39" W. CP to add frequencies 6063.8H MHz toward Rockdale, Georgia, on azimuth 352°28'; add 6004.5V MHz toward Round Oak, Georgia, on azimuth 126°01'.

2489–CF–P–75, Same (KJG94), Rockdale, approximately 3 miles SE of Convers, Georgia. Lat. 33°37'42" N., Long. 83°58'47" W. CP to add frequency 6315.9V MHz toward Jackson, Georgia, on azimuth 172°26'.

2511–CF–P–75, American Telephone and Telegraph Company (KIK32) 3.5 miles SE of Adairsville, Georgia. Lat. 34°19'01" N. Long. 84°53'52" W. CP to add frequency 4198V MHz toward Yorkville, Georgia, on azimuth 191°25'.

2512–CF–P–75, Same (KIT27), 0.5 mile North of Yorkville, Georgia. Lat. 33°55'25" N., Long. 84°59'35" W. CP to add frequencies 4190H, 6197H, and 6316H MHz toward Villa Rica, Georgia, on azimuth 155°19'; add 4190V MHz toward Adairsville, Georgia, on azimuth 11°27'.

2513–CF–P–75, Same (KIT28), 1.8 miles East of Villa Rica, Georgia, Lat. 33°43'43" N., Long. 84°53'09" W. CP to add frequencies 4198H, 5945H, and 6064H MHz toward Yorkville, Georgia, on azimuth 335°23'.

2514–CF–P–75, Same (KIV70), 4.8 miles East of Chatsworth, Georgia. Lat. 34°46'12" N., Long. 84°41'16" W. CP to correct address of alarm center and add frequencies 4198H, 6227H and 6346H MHz toward Cleveland, Tennessee, on azimuth 345°46'.

2515–CF–P–75, Same (KIV71), 4.0 miles NE of Cleveland, Tennessee. Lat. 35°12'41" N., Long. 84°49'27" W. CP to correct address of alarm center and add frequencies 4190H, 5975H, and 6094H MHz toward Chatsworth, Georgia, on azimuth 165°42'; add 4190H, 5975H, and 6054H MHz toward Pikeville, Tennessee, on azimuth 326°24'.

2516–CF–P–75, Same (KIV72), 4.5 miles East of Pikeville, Tennessee. Lat. 35°34'54" N., Long. 85°07'32" W. CP to correct address of alarm center and add frequencies 4198H, 6227H, and 6346H MHz toward Cleveland, Tennessee, on azimuth 146°14'; add 4198H, 6227H, and 6346H MHz toward Crossville, Tennessee, on azimuth 15°46'.

2517 CF–P–75, Same (KIV73), 6.0 miles NE of Crossville, Tennessee. Lat. 36°01'19" N., Long. 84°58'21" W. CP to correct address of alarm center and add frequencies 4190H, 5975H, and 6094H MHz toward Jamestown, Tennessee, on azimuth 13°04'.

2518–CF–P–75, Same (KIV74), 8.0 miles NE. of Jamestown, Tennessee. Lat. 36°30'12" N., Long. 84°50'03" W. C.P. to correct address of alarm center and add frequencies 4198H, 6227H, and 6346H MHz toward Crossville, Tennessee on azimuth 193°09'; add 4198H, 6227H, and 6346H MHz toward Wiborg, Kentucky, on azimuth 42°46'.

2519–CF–P–75, Same (KIV75), Wiborg, 5.5 miles North of Whitley City, Kentucky. Lat. 36°48'29" N., Long. 84°28'59" W. C.P. to correct address of alarm center and add frequencies 4190H, 5975H, and 6094H MHz toward Jamestown, Tennessee, on azimuth 222°59'; add 4190V, 5975H, and 6094H MHz toward Argyle, Kentucky, on azimuth 325°47'.

2262–CF–P–75, General Telephone Company of the Northwest, Inc. (KPJ97), 2.0 miles ENE, of Camano Island, Washington. Lat. 48°11'21" N., Long. 122°29'38" W. C.P. to correct co-ordinates, azimuth and path distance and to add frequencies 3128.0V and 2128.0H MHz toward Oak Harbor, Washington, on azimuth 316°01'.

CORRECTIONS

2265–CP–P–/ML–75, Correct: Applicant's name to read: General Telephone Company of the Northwest, Inc. (all other particulars remain the same as reported on Public Notice #737 dated January 20, 1975).

2453–CF–P–75, Southern Pacific Communications Company. Correct Call Sign to read WOH38.

2302–CF–P–75, MCI Telecommunications Corporation. Correct File Number to 2303–CF–P–75.

2114–CF–P/ML–75 through 2119–CF–P/ML–75, Southern Pacific Communications Company. Correct File Numbers to read 2414–CF–P/ML–75 through 2419–CF–P/ML–75.

Delete File Numbers 2386–CF–P–75 and 2397–CF–P–75 Southern Pacific Communications Company, entered in error.

The entry of CPI Satellite Telecommunications, Inc.'s applications File Number 2045 and 2046–CF–P–75, under Applications Accepted for Filing on page seven of the Commission's Public Notice dated January 20, 1975, were inadvertently placed thereon. These applications appeared on the Public Notice of January 13, 1975, and this is the date which governs the time within which to file formal objections thereto.

FEDERAL ENERGY ADMINISTRATION

PUBLIC SYMPOSIUM REGARDING THE IMPACT OF PROPOSED ACCELERATION IN OCS LEASING

Rescheduling

In the FEDERAL REGISTER of December 24, 1974 (39 FR 44508), the Federal Energy Administration published a notice of a public symposium to be held on January 22 and 23, 1975, in Los Angeles, California, to examine issues and problems surrounding possible accelerated exploration and development of the Outer Continental Shelf leasing off the coast of Southern California. However, on January 3, 1975, the Federal Energy Administration published in the FEDERAL REGISTER (40 FR 837), a notice that the public symposium was postponed until further notice.

Notice is hereby given that this public symposium is rescheduled for March 4 and 5, 1975. The symposium will be held in Room 8544, Federal Building, 300 N. Los Angeles Street, Los Angeles, California 90012, beginning at 9 a.m. on March 4, 1975.

In view of the fact that environmental issues will be considered in a hearing by the Department of the Interior, the symposium to be conducted by the Federal Energy Administration will focus on the following issues:

(a) relation of the Outer Continental Shelf to the U.S. energy supply/demand balance.
(b) Operating conditions and technical constraints regarding operations on the Outer Continental Shelf.
(c) Applicable laws and regulations.
(d) Social impacts of Outer Continental Shelf exploration and development.

The Federal Energy Administration encourages representatives of recognized regional groups, environmental and consumer organizations, officials of State and local governments, representatives of the oil, gas and chemical industries, and the general public to attend the symposium and to submit written comments on the above issues. Written comments should be submitted no later than April 4, 1975, and should be addressed to the Federal Energy Administration, Executive Communications, Room 3309, Box BS, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

Procedures for the Symposium. Persons selected to address the symposium have been asked to limit their oral presentation to about twenty minutes. A few minutes for questions will be reserved at the end of each presentation. Such questions must be in writing and will be collected prior to each question period. Oral questions from the floor will not be accepted. The symposium will be open to the public and to the press and other media. A complete record of the proceedings will be compiled and made available to the public in Room 3400, Administrator's Reception Area, Washington, D.C., and the FEA Branch Office, Suite 800, 3660 Wilshire Boulevard, Los Angeles, California, between the hours of 8 a.m. and 4:30 p.m. daily.

Any questions concerning the symposium should be directed to the Office of Oil and Gas, 202–961–6277.

ROBERT E. MONTGOMERY, Jr.
General Counsel.

FEBRUARY 6, 1975.

FEDERAL MARITIME COMMISSION

TRANS-PACIFIC FREIGHT CONFERENCE OF JAPAN/KOREA AND JAPAN/KOREA-ATLANTIC AND GULF FREIGHT CONFERENCE

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreements Filed by:

Charles F. Warren, Esquire
1100 Connecticut Avenue, N.W.
Washington, D.C. 20036

Agreements Nos. 150–61, filed by the Trans-Pacific Freight Conference of Japan/Korea, and 3103–57, filed by the Japan/Korea-Atlantic and Gulf Freight Conference, are similar in language, and amend Article 20 of each agreement to regulate the matter of Conference voting in the case of prolonged indebtedness by member lines.

By Order of the Federal Maritime Commission.

Dated: February 5, 1975.

FRANCIS C. HURNEY,
Secretary.

[Independent Ocean Freight Forwarder License No. 1445]

ALL AIR & SEA FORWARDING CORP.

Order of Revocation

All Air & Sea Forwarding Corp., P.O. Box 511, Wilmington, California 90744 voluntarily surrendered its Independent Ocean Freight Forwarder License No. 1445 for revocation.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) § 7.04(f) (dated September 15, 1973);

It is ordered, That Independent Ocean Freight Forwarder License No. 1445 be and is hereby revoked effective January 27, 1975, without prejudice to reapply for a license at a later date.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon All Air & Sea Forwarding Corp.

ROBERT S. HOPE,
Managing Director.

U.S. ATLANTIC & GULF/AUSTRALIA-NEW ZEALAND CONFERENCE

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before March 4, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

Jacob P. Billig, Esq.
Billig, Sher & Jones, P. C.
1126 Sixteenth Street NW.
Washington, D.C. 20036

Agreement 6200–18 would modify the U.S. Atlantic & Gulf/Australia-New Zealand Conference's basic agreement by the addition of a new paragraph, No. 14, reading as follows:

14. It is an essential term of this agreement and a basic condition of each and every promise or undertaking herein contained that member lines (subject to there being obtained any requisite approval thereof of the Federal Maritime Commission of the United States of America or any other regulatory agency affecting the flag of the carrying vessel) agree that during the time of this agreement they will use their best endeavors to observe and maintain the conference system of shipping in relation to any outwards cargo shipping from Australia in which they may engage. To that end if at any time during the term of this agreement two or more member lines are engaged in a particular trade outwards from Australia and there is no current conference agreement relative to such trade then those member lines will negotiate in good faith for the formation of such an agreement.

By Order of the Federal Maritime Commission.

Dated: February 7, 1975.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. E–9232]

ALABAMA POWER CO.

Change in Delivery Point

FEBRUARY 4, 1975.

Take notice that on January 27, 1975, Alabama Power Co. filed in the above-referenced docket 8th Revised Sheet No. 37 to its FPC Electric Tariff, Original Volume No. 1. Alabama states the purpose of such filing is to give notice that effective December 6, 1974, electric service to the McIntosh delivery point of Clarke-Washington EMC was terminated at the request of Alabama Electric Cooperative, Inc., acting as agent for Clarke-Washington EMC. Alabama further states the McIntosh delivery point has been transferred to the electric system of Alabama Electric Cooperative, Inc.

Any person desiring to be heard and to make any protest with reference to said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE, Washington, D.C. 20426, in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before February 27, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Alabama's filing is on file with the Commission and available for public inspection.

[Project No. 271]

ARKANSAS POWER AND LIGHT CO.

Issuance of Annual License

FEBRUARY 5, 1975.

On February 4, 1970, Arkansas Power and Light Company, Licensee for Carpenter and Remmel Developments Project No. 271, located on the Ouichita River in Hot Spring and Garland Counties, Arkansas, filed an application for a new license under Section 15 of the Federal Power Act and Commission Regulations thereunder (§§ 16.1–16.6).

The license for Project No. 271 was issued effective February 7, 1923, for a period ending February 6, 1973. Since the original date of expiration, the Project has been under annual license. In order to authorize the continued operation and maintenance of the Project pursuant to Section 15 of the Act, pending completion of Licensee's application and Commission action thereon, it is appropriate and in the public interest to issue an annual license to Arkansas Power and Light Company for continued operation and maintenance of Project No. 271.

Take notice that an annual license is issued to Arkansas Power and Light Company (Licensee) under Section 15 of the Federal Power Act for the period February 7, 1975 to February 6, 1976, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Carpenter and Remmel Developments Project No. 271, subject to the terms and conditions of its present license.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP66-12]

ALGONQUIN GAS TRANSMISSION CO.

Refund Report

FEBRUARY 4, 1975.

Take notice that on December 2, 1974, Algonquin Gas Transmission Co. (Algonquin) tendered for filing a report on refunds made to its customers on November 8, 1974, pursuant to ordering paragraph (E) of the Commission's order issued August 10, 1971, in the above-captioned docket. Algonquin further states that Algonquin received from Texas Eastern Transmission Corporation (TET CO) on July 9, 1974, a refund resulting from purchases during the period January 1, 1962 through December 31, 1964 and that this refund was flowed through to Algonquin's customers.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 21, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3857 Filed 2-11-75;8:45 am]

[Docket No. RP73-74]

ALGONQUIN GAS TRANSMISSION CO.

Refund Report

FEBRUARY 4, 1975.

Take notice that on October 24, 1974, Algonquin Gas Transmission Corp. (Algonquin) tendered for filing schedules listing the actual sales volume data for the 12 month period ending December 12, 1973, and a calculation of refunds based thereon. The October 24, 1974, filing was made pursuant to a Commission order issued September 24, 1974, in the above-captioned docket. Algonquin states that it will make said refunds on November 8, 1974, to the customers listed in its October 24, 1974, filing.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 21, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestant parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. R-389-B]

JUST AND REASONABLE NATIONAL RATES FOR SALE OF GAS

Order Denying Rehearing

FEBRUARY 4, 1975.

In the matter of Just And Reasonable National Rates For Sales Of Natural Gas On Or After January 1, 1973, And New Dedications Of Natural Gas To Interstate Commerce On Or After January 1, 1973.

On January 27, 1975, Texas Eastern Transmission Corporation (Texas Eastern) and Transwestern Pipeline Company (Transwestern) jointly petitioned for rehearing of the January 3, 1975, Order Modifying In Part Opinion No. 699-F, which had been issued as the result of a petition filed by these same companies for clarification of Opinion No. 699-F, issued November 7, 1974.

The January 3 order made it clear that an emergency sale pursuant to § 157.29 could be made by a producer for only one 60 day period. The Commission reached this determination for the reason that the public interest is not served by permitting a producer to sell natural gas in interstate commerce without a certificate for more than sixty (60) days, except under the express provisions of § 157.29 (c) as promulgated by Opinion No. 699-B, issued September 9, 1974.

Petitioners' application for rehearing presents no new facts or principles of law which were not fully considered in Opinion No. 699-F and its subsequent modifications and clarifications, or, which having now been considered, warrant any modification of the January 3, 1975, order.

The Commission orders. The application for rehearing filed by Texas Eastern and Transwestern on January 27, 1975, is denied.

By the Commission.[1]

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3882 Filed 2-11-75;8:45 am]

[Docket No. E-9155]

NORTHERN STATES POWER CO.

Order Accepting for Filing and Suspending Proposed Rate Increase, Denying Request for Maximum Suspension, Granting Petition To Intervene, and Establishing Procedures

FEBRUARY 5, 1975.

On December 6, 1974, Northern States Power Company (Wisconsin) (NSP) tendered for filing proposed changes to existing rates for service to eleven wholesale customers.[1] NSP requests that these changes be permitted to become effective on February 6, 1975.

Notice of the proposed rate increase was issued December 13, 1974, with comments, protests, or petitions to intervene due on or before January 3, 1975. On January 2, 1975, the cities of Bloomer, Cadott, Cornell, New Richmond, Black River Falls, Rice Lake, Westby, and Whitehall (Cities), all in Wisconsin, filed a petition to intervene and request for maximum suspension period. On January 13, 1975, the City of Spooner, Wisconsin, filed a petition to intervene in which it states that it adopts as its own the petition to intervene filed by Cities. Similarly, the City of Bangor, Wisconsin filed a petition to intervene also adopting the petition of the Cities. A Notice of Intervention by the Public Service Commission of the State of Wisconsin was filed on January 8, 1975. Cities filed an amendment and supplement to its petition to intervene on January 6, 1975. NSP answered Cities' petition to intervene on January 15, 1975. Cities, in return, replied to NSP's answer to the petition. NSP also responded to Cities' reply to NSP's answer. Both of these documents were filed on January 20, 1975.

Our review of the proposed rate increase together with all the pleadings filed by NSP and Cities indicates that the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, or otherwise unlawful. We shall, therefore, accept the proposed rate increase for filing and suspend it for one day when it will be permitted to become effective, subject to refund, pending a hearing and decision as to the justness and reasonableness of the proposed rate increase. We shall also institute a separate phase of this proceeding (Phase II), which will be the subject of a hearing and decision separate and apart from the investigation into the justness and reasonableness of the proposed rate increase, for the purpose of developing a complete evidentiary record concerning alleged restrictions contained in NSP's currently effective rate schedules proposed to be continued in the rate schedules filed herein.[2] Certain of the allegations raised in the pleading require further discussion, however.

Cities state that the contracts under which service is provided are fixed-rate fixed-term contracts and that they cannot be changed unilaterally because of the Mobile-Sierra doctrine.[3] Cities, however, point to no provisions to substantiate this allegation. The contracts provide as follows:

RATE: Municipality agrees to pay Northern States monthly for Firm Power Service furnished in the previous month under the provisions and at the rates in effect from time to time as accepted for filing by the Federal Power Commission and as transmitted to the Public Service Commission of Wisconsin. The rate schedule now in effect for such service is attached hereto as Schedule A.

This language clearly indicates that the parties contemplated that NSP could alter its rates by a unilateral filing pursuant to section 205 of the Federal Power Act and Cities allegations to the contrary are without merit.

Cities also allege a price squeeze situation with regard to NSP' retail rates and the wholesale rates proposed herein. As we have so often noted in the past[4], the Commission must utilize a cost plus fair return standard for establishing the justness and reasonableness of wholesale rates and does not have the authority under the Federal Power Act to set wholesale rates predicated upon retail rates over which we have no jurisdiction. In this regard, Cities did make allegations as to the propriety of the costs allocated to wholesale customers. We believe that this is a proper area of inquiry. We shall, however, limit Phase I of the proceedings hereinafter ordered to exclude consideration of the price squeeze issue.

Cities also request that the proposed rate increase be suspended for the full statutory period. The basis for this request is a stated inability of the Cities to get approval from the Wisconsin Public Service Commission for any increase in their rates occasioned by the increase they must pay their supplier, NSP. Just as we cannot defer our determination of the just and reasonable level of wholesale rates to the determination of the level for retail rates under the jurisdiction of a state agency, we cannot defer our determination of the appropriate length of the suspension period to alleged difficulties customers may have before its state regulatory authority in passing on rate increases to its customers.[5] The increased rates will be permitted to go into effect, subject to refund at the rate of 9% per annum. We believe that this procedure protects the interests of NSP and its customers in this proceeding. We shall therefore deny Cities' request for a maximum suspension.

Cities question the appropriateness of certain charges from NSP's parent, Northern States Power Company (Minnesota) and ask that we direct NSP to provide certain documents and evidence as to the reasonableness of these charges. We note that the agreement is on file with this Commission and is the currently effective rate schedule for the service. We do not, however, believe that we should foreclose the inquiry into the appropriateness of the costs NSP relies on in requesting this rate increase. Nor do we believe that we should at this time dictate the manner in which it seeks to demonstrate the justness and reasonableness of the proposed rates. This matter, like all other cost issues, should be fully explored in the evidentiary hearing in Phase I hereinafter ordered.

Cities state that certain provisions of the contracts providing for the service to the wholesale customers, specifically the provisions which prohibit interconnection with other systems and prohibit purchases from or sales to any other electric utility, are anticompetitive and contrary to the antitrust laws of the United States. In reply, NSP states that it has entered new contracts which revises the Terms and Conditions of Service to indicate that NSP is concerned with system reliability. NSP states that it is willing to extend the same Terms and Conditions to all other Cities. We believe that this change in the contracts is appropriate, but it does not dispose of all the issues raised by Cities allegations. We shall therefore institute Phase II of this proceeding to develop a complete evidentiary record on the specific contract provisions alleged to be improper and the relief requested. We shall not hesitate to order, to the extent we have jurisdiction over the conduct or contracts involved, appropriate reformation of the contracts or any other relief shown to be necessary to remedy the offenses proved.

The Commission finds: (1) NSP's proposed rate increase should be accepted for filing and suspended for one day when it shall be permitted to become effective, subject to refund.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the Federal Power Act that the Commission enter into hearings under Section 205 and 206 of the Act concerning the lawfulness of the rates, terms, and conditions proposed by NSP and into the alleged anticompetitive provisions of the contracts as hereinafter described.

(3) Good cause exists to permit the intervention of the above named intervenors as hereinafter ordered and conditioned.

(4) Good cause exists to deny Cities' request for a suspension for the full statutory period.

The Commission orders: (A) Pending a hearing and decision thereon, NSP's proposed rate increase is accepted for filing and suspended for one day until February 7, 1975, when it will be permitted to become effective, subject to refund.

(B) Pursuant to the authority of the Federal Power Act, particularly sections 205 and 206 thereof, the Commission's rules of practice and procedure, and the Regulations under the Federal Power Act (18 CFR, Chapter I), a public hearing shall be held on June 17, 1975, at 10 a.m., e.d.t., in a hearing room at the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning all issues, other than those issues to be considered in Phase II of these proceedings hereinafter ordered, which bear on the lawfulness and reasonableness of the rates and charges proposed in NSP's filing (Phase I).

(C) With respect to Phase I of these proceedings, the Commission Staff shall file its evidence and exhibits on or before April 29, 1975. Any intervenor evidence and exhibits shall be filed on or before May 1, 1975. Rebuttal evidence of NSP shall be filed on or before May 27, 1975.

(D) A second phase (Phase II) of this proceeding is hereby instituted for the development of a complete evidentiary record concerning the anticompetitive provisions of NSP's contracts as contained in Cities' pleadings and over which this Commission has jurisdiction to grant relief. Intervenor evidence in support of their allegations as to these anticompetitive provisions in NSP's contracts shall be filed on or before May 20,

1975. Staff evidence, if any, shall be filed on or before June 3, 1975. NSP shall file its prepared evidence on or before June 17, 1975. Any intervenor rebuttal evidence shall be filed on or before July 1, 1975. A public hearing for the purpose of cross-examination of the filed testimony and exhibits shall commence on July 15, 1975, in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, at 10 a.m., e.d.t.

(E) A Presiding Administrative Law Judge shall preside at the hearings initiated by this order, and shall conduct such hearings in accordance with the Federal Power Act, the Commission's rules and regulations, and terms of this order.

(F) The above named petitioner are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however*, That the participation of such intervenors shall be limited to matters over which this Commission has jurisdiction and which affect the rights and interests specifically set forth in their petitions to intervene. As to Phase I, these matters are limited to the appropriate level of the wholesale rates proposed herein. As to Phase II, these matters are limited to the alleged anticompetitive contract provisions of NSP over which this Commission has jurisdiction.

(G) The request by Cities intervenors for the maximum suspension of NSP's filing is hereby denied.

(H) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[Docket No. CI75-433]

SKELLY OIL CO.

Notice of Application

FEBRUARY 4, 1975.

Take notice that on January 24, 1975, Skelly Oil Company (Applicant), P.O. Box 1650, Tulsa, Oklahoma 74102, filed in Docket No. CI75-433 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Natural Gas Pipeline Company of America (Natural) from the Forty Niner Ridge Unit Well No. 1, in Eddy County, New Mexico, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant proposes to sell gas to Natural from the subject acreage at a rate of 65.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment. Applicant estimates sales volume at 120,000 Mcf of gas per month. Applicant states it will make a 60 day sale within the contemplation of Section 157.29 of the Commission's regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the emergency period within the contemplation of § 2.70 of the Commission's General policy and interpretations (18 CFR 2.70).

Applicant further states that it is requesting the subject sale on a limited-term basis pending its determination of whether it will use the subject gas for its own purposes and that the proposed price is believed by Applicant to be the lowest price at which this particular sale of gas may be obtained for the interstate market.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 21, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-3877 Filed 2-11-75;8:45 am]

JAMES W. STAPLES, ET AL.

[Docket No. CI75-437]

Notice of Application

FEBRUARY 4, 1975.

Take notice that on January 27, 1975, James W. Staples, Lee Evins and Robert Greenburg (Applicants), P.O. Box 76, Tuleta, Texas 78162, filed in Docket No. CI75-437 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Company (United) from the Fortitude Field, Bee County, Texas, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicants propose to sell an estimated 500 Mcf per day of gas from the subject acreage to United for one year at a rate of 85 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment, within the contemplation of § 2.70 of the Commission's General policy and interpretations (18 CFR 2.70).

Applicants state that the subject gas could be sold intrastate at a much greater consideration, but that the location of United's 18-inch pipeline makes the sale to United "more advantageous, and more economical."

Any person desiring to be heard or to make any protest with reference to said application should on or before February 20, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[Docket No. CP75-214]

FLORIDA GAS TRANSMISSION CO.

Application

FEBRUARY 5, 1975.

Take notice that on January 27, 1975, Florida Gas Transmission Company (Applicant), P.O. Box 44, Winter Park, Florida 32789, filed in Docket No. CP75-214 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon natural gas service and measuring equipment and appurtenant facilities used to render the service on a direct sale basis to Suni-Citrus Products Company (Suni-Citrus) in Haines City, Florida, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant states that Suni-Citrus has sold the plant to which the gas is delivered to Bordo Citrus Products Cooperative, which has decided to obtain its gas service from Central Florida Gas Corporation. Applicant, accordingly, proposes to remove and salvage the subject facilities, the estimated salvage vaule of which is $3,517.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 25, 1975, file with the Federal Power Commission, Washington, DC. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

[Docket Nos. RP71-14, et al, G-13202, and RP67-9]

EL PASO NATURAL GAS CO.

Refund Report

FEBRUARY 4, 1975.

Take notice that on November 15, 1974, El Paso Natural Gas Company (El Paso), tendered for filing a report of refunds which indicated that on October 11, 1974, El Paso refunded a total of $10,726,269.74 to the jurisdictional customers of its former Northwest division. The refund report indicates that the refunds were made pursuant to refund plans approved by Commission letter orders issued September 11, 1974 in the above-referenced dockets. The subject letter orders approved two refund plans: (1) to return $9,416,968.36 in excess revenues collected under the proposed rates at Docket Nos. RP71-14, et al, plus interest accumulations; and (2) to flow through $86,150.04 in producer supplier refunds under Docket Nos. G-13202 and RP67-9, plus interest accumulations.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 18, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-134 (PGA 75-7A)]

EASTERN SHORE NATURAL GAS CO.

Purchased Gas Cost Adjustment to Rates and Charges

FEBRUARY 5, 1975.

Take notice that Eastern Shore Natural Gas Company (Eastern Shore) on January 29, 1975, tendered for filing Third Substitute Eleventh Revised Sheet No. 3A and Third Substitute Eleventh Revised PGA-1 to its FPC Gas Tariff, Original Volume No. 1 to become effective February 1, 1975. The proposed changes reflect the rates accepted by Commission letter order dated December 24, 1974, as adjusted to include the rate changes proposed by its supplier.

Pursuant to the Purchased Gas Adjustment Clause contained in its tariff, Eastern Shore proposes to decrease the commodity or delivery charges of its rate schedules CD-1, CD-E, G-1, E-1, I and PS-1, as proposed in its January 17, 1975, filing, by 0.4¢ per Mcf to reflect the equivalent changes in the similar rates of its sole supplier, Transcontinental Gas Pipe Line Corporation, contained in the latter's filing in Docket No. RP75-3 on January 15, 1975. Eastern Shore requests waiver of the notice requirements of § 154.22 of the Regulations under the Natural Gas Act and § 20.2 of the General Terms and Conditions of its Tariff, to the extent necessary, to permit the proposed tariff sheets to become effective as of February 1, 1975, coincident with the proposed effective date of Transcontinental's rate changes.

Copies of the filing have been mailed to each of the Company's jurisdictional customers and to interested State Commissions.

Any person desiring to be heard or to protest said filing should file a Petition to Intervene or Protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 C.F.R. 1.8, 1.10). All such petitions or Protests should be filed on or before February 18, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a Petition to Intervene. Copies of this filing are on file with the Commission and available for public inspection.

[Docket No. E-9188]

DUKE POWER CO.

Filing of Supplement to Electric Rate Schedule

FEBRUARY 5, 1975.

Take notice that on December 20, 1974, the Duke Power Company tendered for filing a supplement to its Electric Power Contract with the City of Gastonia, North Carolina. The supplement is to become effective January 20, 1975 and provides a new Delivery Point No. 10 for service to Gastonia. A 100/12.5 kv substation and 1.74 miles of tap line will be constructed to provide that service.

Any person desiring to be heard or to make any protest with reference to the subject matter of this Notice, should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All such petitions or protests should be filed on or before February 20, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the documents referred to herein are on file with the Commission and are available for public inspection.

[Docket No. E-9239]

INDIANA & MICHIGAN ELECTRIC CO.

Tariff Change

FEBRUARY 4, 1975.

Take notice that Indiana & Michigan Electric Company (I&M), on January 29, 1975, tendered for filing proposed changes in its FPC Rate Schedule No. 58 applicable to service rendered by I&M to the City of Richmond, Indiana (Richmond). According to I&M, the proposed changes would increase revenues from Richmond by $363,579 if the proposed increases had been in effect for the twelve-month period ending December 1974.

I&M states that the proposed changes implement the contractual obligations as set forth in the Service Agreement between I&M and Richmond and have been authorized by the decision of the United States Court of Appeals for the District of Columbia Circuit in Richmond Power & Light v. F.P.C., 481 F.2d 490 (1973). I&M states further that copies of the filing were served upon Richmond and upon its counsel, as well as upon the Public Service Commission of Indiana.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 18, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. E-9228]

KENTUCKY UTILITIES CO.

Contract Cancellation

FEBRUARY 4, 1975.

Take notice that on January 20, 1975, Kentucky Utilities Company (KU) tendered for filing a letter dated January 9, 1975, wherein KU notified Jackson Purchase Rural Electric Cooperative Corporation (Jackson) that KU was cancelling its Contract for Electric Service dated December 1, 1967. The effective date of the cancellation is January 15, 1978.

KU's letter states that its action is made necessary by the inadequacy of the rates and charges specified in said contract. KU's January 9, 1975, letter further states that KU wishes to enter into a new contract with Jackson which provides for rate and other charges adequate to cover KU's costs of providing the service.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 21, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protest-

MICHIGAN WISCONSIN PIPE LINE CO.

Proposed Changes in Rates and Charges

FEBRUARY 5, 1975.

Take notice that on January 7, 1975, Michigan Wisconsin Pipe Line Company (Michigan Wisconsin) tendered for filing Substitute Eighth Revised Sheet No. 27F to its F.P.C. Gas Tariff, Second Revised Volume No. 1.

Michigan Wisconsin states that the above tariff sheet reflects a reduction in rate of .06¢ necessitated by the Commission's disposition of Northern Natural Gas Company's rate increase at Docket No. RP71-107, et al.; order dated December 26, 1974.

Michigan Wisconsin further states that also enclosed are the supporting calculations and revised schedules to Michigan Wisconsin's November 15, 1974 tariff filing.

According to Michigan Wisconsin, copies of the filing have been mailed to its jurisdictional customers, to all parties in Docket No. RP73-102 and all interested state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. RP73-63]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Petition to Amend Authorization

FEBRUARY 5, 1975.

Take notice that on January 24, 1975, Natural Gas Pipeline Company of America (Natural) filed a petition to amend the order establishing a revolving exploration and development fund issued in Docket No. RP73-63 on August 3, 1973, as amended by Order Amending Order issued August 3, 1975. Natural states that the amendment of the order will enlarge the revenues available for the revolving exploration and development fund program and thus increase the amount of exploration and development of new gas supplies.

The Petition to Amend requests permission for Natural to transfer to the revolving exploration and development fund program all of the revenues attributable to the sale by Natural to Phillips Petroleum Company of liquid hydrocarbons under that certain contract as amended dated September 1, 1966. Natural further states that it would discontinue reducing its cost of service by the amount of these revenues generated from such sale and requests authority to revise its FPC Tariff so as to reflect the resulting rate increase in its jurisdictional rates.

Any person desiring to be heard or to make any protest with reference to said Petition to Amend should on or before February 21, 1975, file with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3871 Filed 2-11-75;8:45 am]

[Docket No. E-9219]

NEW ENGLAND POWER POOL AGREEMENT (NEPOOL)

Notice of Filing Supplement to NEPOOL Agreement

FEBRUARY 5, 1975.

Take notice that on January 20, 1975, the Secretary of the New England Power Pool (NEPOOL) Management Committee tendered for filing the signature pages executed by the following twelve new participant systems in NEPOOL, all of whom are municipal electric systems in the State of Massachusetts, dated December 14, 1974:

City of Chicopee Municipal Lighting Plant.
City of Westfield Gas and Electric Light Department.
Town of Ashburnham Municipal Light Plant.
Town of Boylston Municipal Light Department.
Town of Marblehead Municipal Light Department.
Town of North Attleborough Electric Department.
Town of Paxton Municipal Light Department.
Town of Shrewsbury Electric Light Plant.
Town of South Hadley Electric Light Department.
Town of Templeton Municipal Lighting Plant.
Town of Wakefield Municipal Light Department.
Town of West Boylston Municipal Lighting Plant.

The proposed filing will not change the NEPOOL Agreement in any manner, other than to make the twelve municipal electric systems additional participants in the Pool. Waiver of the Commission's notice requirements is requested in order that the participation of the twelve new participants may be effective as of December 14, 1974.

Any person desiring to be heard or to make any protest with reference to the subject matter of this Notice, should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All such petitions or protest should be filed on or before February 20, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the documents referred to herein are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

GENERAL SERVICES ADMINISTRATION

SECRETARY OF DEFENSE

[Temporary Reg. F-329]

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in a telecommunications rate proceeding.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.*

a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the South Carolina Public Service Commission involving the application of the Southern Bell Telephone and Telegraph Company for an increase in telecommunications rates.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ARTHUR F. SAMPSON,
Administrator of General Services.

ADVISORY COMMITTEE FOR PROTECTION OF ARCHIVES AND RECORDS CENTERS

Meetings

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, Pub. L. 92-463, notice is hereby given that meetings of the Advisory Committee for Protection of Archives and Records Centers will be held at 9 a.m. on February 27 and 28, 1975, in the Departmental Auditorium, Conference Room C, 14th and Constitution Avenue NW., Washington, D.C.

The meetings on February 27 and 28 will be devoted to a review of pertinent aspects of previously received testimony; discussion of the testimony as it relates to the protection of Archives and Records Centers; discussion of the outline of the proposed report, and to receive additional testimony from interested parties concerning the protection of archives and records from fire.

Individuals wishing to offer testimony are requested to submit, in advance, to the Advisory Committee Secretary, a one-page outline of their testimony, and to limit their oral remarks to fifteen minutes. Written statements of any length will be accepted.

Further information with reference to these meetings can be obtained from Mr. D. Peter Lund, Advisory Committee Secretary, c/o Society of Fire Protection Engineers, 60 Batterymarch Street, Boston, MA 02110, or call 617-482-0686.

Dated: January 28, 1975.

INTERNATIONAL TRADE COMMISSION

[TEA-W-263]

NORTHLAND SHOE CORP.

Workers' Petition for a Determination

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the former workers of the Northland Shoe Corp., Fryeburg, Maine, a wholly owned subsidiary of Standard Prudential Corp., New York, New York, the United States International Trade Commission, on February 6, 1975, instituted an investigation under section 301(c)(2) of the Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with footwear for women (of the types provided for in items 700.45 and 700.55 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

The optional public hearing afforded by law has not been requested by the petitioners. Any other party showing a proper interest in the subject matter of the investigation may request a hearing, provided such request is filed within 10 days after the notice is published in the FEDERAL REGISTER.

The petition filed in this case is available for inspection at the Office of the Secretary, United States International Trade Commission, 8th and E Streets, NW, Washington, D.C., and at the New York City office of the International Trade Commission located at 6 World Trade Center.

By order of the Commission.

Issued: February 7, 1975.

KENNETH R. MASON,
Secretary.

NATIONAL CAPITAL PLANNING COMMISSION

FREEDOM OF INFORMATION ACT

Fees for Search and Duplication, as Amended—Uniform Agency

At its meeting on February 6, 1975, the National Capital Planning Commission adopted the following schedule of fees which the Commission may charge for services performed pursuant to the Freedom of Information Act, 5 U.S.C. 552, as amended:

1. Publications offered for sale—as marked
2. Commission reports—$0.15/page
3. Committee reports—$0.15/page
4. Commission Memorandums of Actions—$0.15/page
5. Transcripts of Commission meetings and Committee meetings—$0.15/page
6. Other records—$0.15/page
7. Maps—microfilm printout—$0.50/each
ozalid maps—$0.20/linear foot

The Commission keeps on file a limited quantity of back copies of Commission reports, Committee reports, and Commission Memorandums of Actions. The Commission will first attempt to fill specific requests for these documents from its supply of back copies and until the supply is exhausted, the Commission will provide the documents at no charge. Once the supply is exhausted, the requested document will be provided in accord with the fee schedule.

Fees will be waived when less than $5.00 or when it is in the public interest to do so. Such a waiver will be in the public interest, for example, when in the determination of the Commission the request will not impose an undue burden or expense upon it and the request is (1) from another Government organization, Federal, State or local; (2) for the purpose of obtaining information primarily for the benefit of the general public rather than for the primary benefit of the requester, as will be the case with certain requests from news media and from organizations engaged in a non-profit activity designed for public safety, health, welfare, or education; (3) from employees and former employees seeking information from their own personnel records; (4) from or on behalf of the defending party in connection with a proceeding against such party by the Federal Government; and (5) from a low-income person and the fee would impose a financial hardship.

This schedule shall be effective February 14, 1975.

DANIEL H. SHEAR,
Secretary.

FEBRUARY 7, 1975.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. STN 50-516; STN 50-517]

LONG ISLAND LIGHTING CO.

Jamesport Nuclear Power Station, Units 1 and 2, Availability of NRC Draft Environmental Statement

Pursuant to the National Environmental Policy Act of 1969 and the United States Nuclear Regulatory Commission's regulations in 10 CFR Part 51, notice is hereby given that a Draft Environmental Statement prepared by the Commission's Office of Nuclear Reactor Regulation related to the proposed Jamesport Nuclear Power Station, Units 1 and 2, to be constructed by Long Island Lighting Company in Suffolk County, New York is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C. and in the Riverhead Free Library, 330 Court Street, Riverhead, New York 11901. The Draft Statement is also being made available at the New York State Office of Planning Services, 488 Broadway, Albany, New York 12207 and the Tri-State Regional Planning Commission, 100 Church Street, New York, New York 10007. Copies of the Commission's Draft Environmental Statement may be obtained by request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

The Applicant's Environmental Report, as supplemented, submitted by Long Island Lighting Company is also available for public inspection at the above-designated locations. Notice of availability of the Applicant's Environmental Report was published in the FEDERAL REGISTER on September 13, 1974 (39 F.R. 33022).

Pursuant to 10 CFR Part 51, interested persons may submit comments on the Applicant's Environmental Report, as supplemented, and the Draft Environmental Statement for the Commission's consideration. Federal and State agencies are being provided with copies of the Applicant's Environmental Report

XUM
V40130
FEB 12 75
XUM

and the Draft Environmental Statement (local agencies may obtain these documents upon request). Comments are due by March 31, 1975. Comments by Federal, State, and local officials, or other persons received by the Commission will be made available for public inspection at the Commission's Public Document Room in Washington, D.C. and the Riverhead Free Library, 330 Court Street, Riverhead, New York 11901. Upon consideration of comments submitted with respect to the draft environmental statement, the Staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Comments on the Draft Environmental Statement from interested persons of the public should be addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Rockville, Maryland, this 6th day of February 1975.

For the Nuclear Regulatory Commission.

WM. H. REAGAN, JR.,
Chief, Environmental Projects Branch 4, Division of Reactor Licensing.

[FR Doc.75-3708 Filed 2-11-75;8:45 am]

[Construction Permit Nos. CPPR-77; CPPR-78]

VIRGINIA ELECTRIC AND POWER CO. (NORTH ANNA POWER STATION, UNITS 1 AND 2)

Notice and Order

MAY 28, 1974.

Before the Atomic Safety and Licensing Board.

Please take notice, that an evidentiary session will be held on February 13, 1975 commencing at 9:30 a.m. at the Landow Building, 7920 Woodmont Avenue, ASLBP Hearing Room, Bethesda, Maryland 20014.

As discussed in a telephone conference call on February 6, 1975, with all parties, the purpose of this session is to clarify the record relating to submission of in camera material.

It is so ordered.

Dated at Bethesda, Maryland, this 6th day of February 1975.

ATOMIC SAFETY AND LICENSING BOARD,
JOHN B. FARMAKIDES,
Chairman.

[FR Doc.75-3830 Filed 2-11-75;8:45 am]

[Docket No. 50-285]

FORT CALHOUN STATION, UNIT NO. 1

Negative Declaration Regarding Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has considered the issuance of changes to the Technical Specifications Appendix B of Facility Operating License No. DPR-40. These changes would authorize the Omaha Public Power District (the licensee) to operate their Fort Calhoun Station Unit 1 at a 2° F increase in the condenser cooling water differential temperature (ΔT).

The U.S. Nuclear Regulatory Commission, Division of Reactor Licensing, has prepared an environmental impact appraisal for the proposed change to the Technical Specifications Appendix B, of License No. DPR-40, Fort Calhoun Station, Unit 1, described above. On the basis of this appraisal, we have concluded that an environmental impact statement for this particular action is not warranted because there will be no significant environmental impact attributable to the proposed action other than that which has already been predicted and described in the Commission's Final Environmental Statement for Fort Calhoun Station Unit 1 published in May 1972. The environmental impact appraisal is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. and at the Blair Public Library, 1665 Lincoln Street, Blair, Nebraska 68008.

Dated at Rockville, Maryland, this 4th day of February 1975.

For the Nuclear Regulatory Commission.

GORDON K. DICKER,
Chief, Environmental Projects Branch 2, Division of Reactor Licensing.

[FR Doc.75-3828 Filed 2-11-75;8:45 am]

[Docket No. 50-285]

OMAHA PUBLIC POWER DISTRICT

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 4 to Facility Operating License No. DPR-40 issued to Omaha Public Power District which revised Technical Specifications for operation of the Fort Calhoun Station, Unit No. 1, located in Washington County, Nebraska. The amendment is effect as of its date of issuance.

The amendment permits a 2° F. increase in cooling water discharge and a 2° F. increase in cooling water differential temperature.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

For further details with respect to this action, see (1) the application for amendment dated July 26, 1974, (2) Amendment No. 4 to License No. DPR-40, with any attachments, and (3) the Commission's related Negative Declaration. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW, Washington, D.C. and at the Blair Public Library, 1665 Lincoln Street, Blair, Nebraska 68008.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing, Office of Nuclear Reactor Regulation.

Dated at Bethesda, Maryland, this 4th day of February 1975.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch 3, Division of Reactor Licensing.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR SCIENCE EDUCATION PROJECTS

NATO Postdoctoral Fellowship Subpanel Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the NATO Postdoctoral Fellowship Subpanel to be held at 9 a.m. on February 27-28, 1975, in room 651, 5225 Wisconsin Avenue, NW., Washington, D.C.

The purpose of this Subpanel is to provide advice and recommendations concerning the merit of specific applications submitted for consideration by the NATO Postdoctoral Fellowship Program.

This meeting will not be open to the public because the Subpanel will be reviewing, discussing, and evaluating individual applications for NATO fellowships. Also, these proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning the applicants. These matters are within the exemptions of 5 U.S.C. 522(b) (4), (5) and (6). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of Pub. L. 92-463.

For further information about this Subpanel, please contact Dr. Hall Taylor, Program Manager, Fellowships and Traineeships Section, Rm. W-476, National Science Foundation, Washington, D.C. 20550, telephone 202-282-7595.

FRED K. MURAKAMI,
Committee Management Officer.

FEBRUARY 7, 1975.

NATIONAL TECHNICAL INFORMATION SERVICE

GOVERNMENT-OWNED INVENTIONS

Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for licensing in accordance with the licensing policy of each Agency-sponsor.

Copies of patents are available from the Commissioner of Patents, Washington, D.C. 20231, at $0.50 each. Requests for copies of patents must include the patent number.

Copies of patent applications, either paper copy (PC) or microfiche (MF), can be purchased from the National Technical Information Service (NTIS), Springfield, Virginia 22161, at the prices cited. Requests for copies of patent applications must include the PAT-APPL-number. Claims are deleted from patent application copies sold to the public to avoid premature disclosure in the event of an interference before the Patent Office. Claims and other technical data can usually be made available to serious prospective licensees by the agency which filed the case.

Requests for licensing information should be directed to the address cited below for each agency.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION, Assistant General Counsel for Patents, Washington, D.C. 20545.

Patent 3,783,189: Television System for Precisely Measuring Distances; filed 1 June 1972; patented 1 January 1974; not available NTIS.

Patent 3,800,258: Energy Storage and Switching with Superconductors; filed 24 April 1973; patented 26 March 1974; not available NTIS.

Patent 3,801,445: Thermionic Reactor Electrical Control System; filed 28 September 1972; patented 2 April 1974; not available NTIS.

Patent 3,803,416: Slotted Coaxial Germanium Gamma-Ray Camera; filed 28 November 1972; patented 9 April 1974; not available NTIS.

Patent 3,805,119: Superconductor; filed 12 July 1972; patented 16 April 1974; not available NTIS.

Patent 3,816,771: Plasma Energy to Electrical Energy Converter; filed 9 February 1973; patented 11 June 1974; not available NTIS.

Patent 3,817,746: Ductile Superconducting Alloys; filed 14 November 1972; patented 18 June 1974; not available NTIS.

DEPARTMENT OF TRANSPORTATION, Patent Counsel, 400 7th Street, SW., Washington, D.C. 20590.

Patent application 516,448: Signal Conditioner Front-End; filed 21 October 1974; PC $3.25/MF $2.25.

ENVIRONMENTAL PROTECTION AGENCY, Room W513, 401 M Street, SW., Washington, D.C. 20460.

Patent 3,635,034: Method of Plugging Mine Passages, Having Water Emanating Therefrom; filed 9 July 1969; patented 18 January 1972; not available NTIS.

Patent 3,672,173: Forming Self-Supporting Barriers in Mine Passages and the Like; filed 13 May 1969; patented 27 June 1972; not available NTIS.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION, Assistant General Counsel for Patent Matters, NASA Code GP-2, Washington, D.C. 20546.

Patent application 508,784: Process for Fabricating Sic Semiconductor Devices; filed 24 September 1974; PC $3.25/MF $2.25.

Patent application 483,850: An Externally Supported Internally Stabilized Flexible Duct Joint; filed 27 June 1974; PC $3.25/MF $2.25.

Patent application 483,857: Rapid Activation and Checkout Device for Batteries; filed 27 June 1974; PC $3.25/MF $2.25.

Patent application 505,880: Improved Structure and Method of Producing Composite of Gapped and Ungapped Cores; filed 13 September 1974; PC $3.25/MF $2.25.

Patent application 510,677: Solar Cell Assembly; filed 30 September 1974; PC $3.25/MF $2.25.

Patent application 510,678: Method of Manufacturing Composite Superconductors; filed 30 September 1974; PC $3.25/MF $2.25.

Patent application 511,346: An Attitude Control System; filed 2 October 1974; PC $3.25/MF $2.25.

Patent application 511,894: Aircraft Mounted Crash Activated Transmitter Device; filed 3 October 1974; PC $3.25/MF $2.25.

Patent application 513,612: Hingeless Helicopter Rotor with Improved Stability; filed 10 October 1974; PC $3.25/MF $2.25.

Patent application 513,689: Miniature Hydraulic Actuator; filed 10 October 1974; PC $3.25/MF $2.25.

Patent 3,837,285: Open Tube Guideway for High Speed Air Cushioned Vehicles; patented 24 September 1974; not available NTIS.

Patent 3,840,829: Integrated n-Channel MOS Gyrator; patented 8 October 1974; not available NTIS.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION, Assistant General Counsel for Patents, Washington. D.C. 20545.

Patent application 476,500: Method of Preparing Gas Tags for Identification of Single and Multiple Failures of Nuclear Reactor Fuel Assemblies; filed 5 June 1974; PC $3.75/MF $2.25.

Patent application 481,262: Fast-Neutron Solid-State Dosimeter; filed 20 June 1974; PC $3.25/MF $2.25.

Patent application 484,740: Phase Control in High Resolution Electron Microscopy; filed 1 July 1974; PC $3.25/MF $2.25.

Patent application 486,924: Pipe Gripper; filed 9 July 1974; PC $3.25/MF $2.25.

Patent application 87,323: Thermochemical Production of Hydrogen; filed 10 July 1974; PC $3.25/MF $2.25.

Patent application 487,326: Failure Limiting Pipe Expansion Joint; filed 10 July 1974; PC $3.25/MF $2.25.

Patent application 489,215: Method of Apparatus for Fabricating a Composite Structure Consisting of a Filamentary Material in a Metal Matrix; filed 17 June 1974; PC $3.25/MF $2.25.

Patent application 489,305: Whole Blood Analysis Rotor for a Multistation Dynamic Photometer; filed 17 July 1974; PC $3.25/MF $2.25.

Patent application 490,446: Displaced Electrode Process for Welding; filed 22 July 1974; PC $3.25/MF $2.25.

Patent application 491,082: A Combined Coal Fired Process for Production of Power and Liquid Fuel; filed 23 July 1974; PC $3.25/MF $2.25.

Patent application 491,095: Variable Thickness Double-Refracting Plate; filed 23 July 1974; PC $3.25/MF $2.25.

Patent 3,797,804: Atmospheric Closure Mechanism; filed 6 February 1973; patented 19 March 1974; not available NTIS.

Patent 3,801,446: Radioisotope Fueled Heat Transfer System; filed 5 June 1968; patented 2 April 1974; not available NTIS.

Patent 3,806,625: High-Voltage Feedthrough Assembly; filed 16 March 1973; patented 23 April 1974; not available NTIS.

Patent application 474,547: Controlled Porosity Filter and Uniform Structure Composites; filed 30 May 1974; PC $4.00/MF $2.25.

Patent 3,801,446: Radioisotope Fueled Heat Transfer System; filed 5 June 1968; patented 2 April 1974; not available NTIS.

Patent 3,805,552: Radial Spline Guide Bearing Assembly; filed 17 October 1972; patented 23 April 1974; not available NTIS.

Patent 3,805,890: Helical Coil Heat Exchanger; filed 12 December 1972; patented 23 April 1974; not available NTIS.

Patent 3,807,257: Apparatus and Method for Delivering Vibratory Energy; filed 17 November 1972; patented 30 April 1974; not available NTIS.

Patent 3,821,747: Recording System Having Piezoelectric Stylus Drive Means; filed 23 April 1973; patented 28 June 1974; not available NTIS.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, National Institutes of Health, Chief, Patent Branch, Westwood Bldg., Bethesda, Maryland, 20014.

Patent application 368,578: Enzyme Electrode; filed 11 June 1973; PC $3.25.

Patent 3,843,974: Intimal Lining and Pump with Vertically Drafted Webs; filed 5 January 1972; patented 29 October 1974; not available NTIS.

Patent 3,846,353: Nonthrombogenic Plastic Material and Method for Making the Same; filed 8 June 1970; patented 5 November 1974; not available NTIS.

DEPARTMENT OF THE NAVY, Assistant Chief for Patents, Office of Naval Research, Code 302, Arlington, Virginia.

Patent 3,757,256: Surface Wave Transducers with Cancellation of Secondary Response; filed 2 August 1971; patented 4 September 1973; not available NTIS.

Patent 3,757,287: Sea Bottom Classifier; filed 6 April 1972; patented 4 September 1973; not available NTIS.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on February 7, 1975 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (X) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202-395-4529), or from the reviewer listed.

NEW FORMS

VETERANS ADMINISTRATION

VA cooperative study of aspirin therapy in unstable angina, 10-7993 A-K, on occasion, patients in VA hospitals, Hall, George, 395-4697.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration:

Laboratory personnel qualification appraisal for technologists, cytotechnologists, technicians and trainees, SSA-3082, on occasion, individuals, Caywood, D. P., 395-3443.

Laboratory personnel qualifications appraisal for directors and supervisors, SSA-3083, on occasion, individuals, Caywood, D. P., 395-3443.

Health Resources Administration, emergency medical technician performance evaluation, New Haven, HRABH1120, on occasion, ambulance companies and hospitals, Human Resources Division, 395-3532.

Food and Drug Administration, survey on use of antibiotics in clinical practice, FDABD 0114, single-time, physicians, Hall, George, 395-4697.

DEPARTMENT OF LABOR

Manpower Administration, process evaluation of decentralized CETA programs, MT-1062, single-time, CETA prime sponsor staff, Human Resources Division, 395-3532.

REVISIONS

VETERANS ADMINISTRATION

Application for automobile or other conveyance and adaptive equipment, 21-4502, on occasion, veterans and service persons, Caywood, D. P., 395-3443.

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service, survey to develop school feeding participant's profile, single-time, school principals, Human Resources Division, 395-3532.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Center for Disease Control, joint program for the study of abortion—CDC, CDC 4.316A, CDC 4.316B, and CDC 4.316C, on occasion, medical care facilities, Human Resources Division, 395-3532.

EXTENSIONS

RAILROAD RETIREMENT BOARD

Unemployment insurance claimants referral report, ES-20A, on occasion, Evinger, S. K., 395-3648.

Employment relation questionnaire (employment service for retirement credit), ERR-8, on occasion, Evinger, S. K., 395-3648.

Referral card—report on placement or refusal of referral of job offer to RRB, ES-21, on occassion, Evinger, S. K., 395-3648.

PHILLIP D. LARSEN,
Budget and Management Officer.

SECURITIES AND EXCHANGE COMMISSION

[File No. 3-4608; File No. (81-175)]

BI LIQUIDATING CORP.

Notice of Application and Opportunity for Hearing

FEBRUARY 4, 1975.

Notice is hereby given that BI Liquidating Corporation ("BI") has filed an application pursuant to section 12(h) of the Securities Exchange Act of 1934 (the "Act"), that BI be granted an exemption from the provisions of section 13 of the Act.

Section 12(g) of the Act requires the registration of the equity securities of every issuer which is engaged in a business affecting interstate commerce, or whose securities are traded by use of the mails or any means or instrumentality of interstate commerce, and on the last day of the fiscal year has total assets exceeding $1 million and a class of equity securities held of record by 500 or more persons. Registration is terminated 90 days after the issuer files a certification with the Commission that the number of holders of the registered class of securities is fewer than 300 persons.

Section 12(h) of the Act empowers the Commission to exempt, in whole or in part, any issuer or class of issuers from the registration, periodic reporting and proxy solicitation provisions under sections 12, 13 and 14 of the 1934 Act and to grant exemptions from the insider reporting and trading provisions of section 16 of the Act, if the Commission finds, by reason of the number of public investors, amount of trading interest in the securities, the nature and extent of the activities of the issuer or otherwise, that such exemption is not inconsistent with the public interest or the protection of investors.

The Application states, in part: BI, a Delaware corporation, had been prior to September 30, 1974 primarily engaged in the importation, designing, manufacture and sale of men's and boys' sport shirts. BI was formed in 1961 as Walter J. Schneider Corporation and changed its name to Barrington Industries, Inc. in 1963 and to its present name on October 8, 1974.

BI has outstanding common stock, $.10 par value, which is registered pursuant to section 12(g) of the Act. On September 30, 1974 BI sold all of its assets to a subsidiary of Wilson Brothers, an Illinois corporation. Wilson's subsidiary assumed BI's liabilities and issued 123,463 shares of Wilson's common stock to BI pursuant to a Form S-14 registration statement. The Wilson common stock is registered under section 12(b) of the Act and is traded on the American Stock Exchange. BI's two classes of subordinated convertible debentures outstanding are convertible into Wilson stock. In addition to the sale of assets, BI's shareholders approved a plan of liquidation and disolution. BI is currently distributing in liquidation its only asset (Wilson stock) to its shareholders upon surrender by such holders of their shares of BI stock. As of January 21, 1975 there were approximately 929 shareholders who had not surrendered their BI stock. Therefore, in the absence of an exemption, BI is subject to the reporting requirements of section 13.

BI contends in part that since September 30, 1974 there has been virtually no market activity in its stock and that the company has been performing the sole function of liquidating its asset pursuant to the plan adopted by its shareholders and its contract with Wilson. BI also contends that the Wilson stock to be received by its shareholders is registered under section 12 of the Act and that Wilson files reports with the Commission pursuant to section 13.

Therefore, BI claims that exemption from the requirements of section 13(a) would not be inconsistent with the public interest or protection of investors.

For a more detailed statement of information presented, all persons are referred to said application which is on file in the offices of the Commission at 500 North Capitol Street, Washington, D.C. 20549.

Notice is further given that any interested person not later than March 3, 1975 may submit to the Commission in writing his views or any substantial facts bearing on this application or the desirability of a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 500 North Capitol Street NW., Washington, D.C. 20549, and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for such request, and the issues of fact and law raised by the application which he desires to controvert. At any time after said date, an order granting the application may be issued upon request or upon the Commission's own motion.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

BIO-MEDICAL SCIENCES, INC.

Suspension of Trading

FEBRUARY 5, 1975.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of Bio-Medical Sciences, Inc., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from 12:01 a.m. (e.s.t.), February 6, 1975, through midnight (e.s.t.) on February 15, 1975.

By the Commission.

[Rel. No. 18799; 70-5614]

CONNECTICUT YANKEE ATOMIC POWER CO.

Proposed Issue and Sale of Notes to Banks and to a Dealer in Commercial Paper and Exception from Competitive Bidding

FEBRUARY 3, 1975.

Notice is hereby given that Connecticut Yankee Atomic Power Company ("Connecticut Yankee"), P.O. Box 270, Hartford, Connecticut 06101, an electric utility subsidiary company of Northeast Utilities "Northeast") and of New England Electric System ("New England") both of which are registered holding companies, has filed a declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 and 7 of the Act and Rule 50(a)(5) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Connecticut Yankee proposes to issue and sell, from time to time on or before March 1, 1976, short-term securities in an aggregate principal amount not to exceed $30,000,000 outstanding at any one time. Such securities will be in the form of short-term notes issued to banks or commercial paper issued to a dealer in such securities.

The proposed bank notes will each be dated as of the date of issue, will have maximum maturity dates of nine months, will bear interest at a rate per annum not in excess of one percent (1%) above the prime rate in effect at the lending bank on the date of issue, and will be subject to prepayment at any time at Connecticut Yankee's option without premium. The banks which will participate in Connecticut Yankee's short-term borrowing program and the maximum commitment of each bank is as follows:

The Chase Manhattan Bank, New York, N.Y.	$18,000,000
The Connecticut Bank & Trust Co., Hartford, Conn.	6,000,000
Total	24,000,000

The lines of credit are to be secured by a deposit of 10 percent of the amount of the line at the time it is committed. In addition, at the time of the first borrowing pursuant to the line of credit, Connecticut Yankee will make an additional deposit (compensating balance) of 10 percent of the entire committed line. Assuming a full 20 percent compensating balance and borrowings at one percent (1%) above the prime rate, the effective cost of borrowing would be approximately 13.1 percent, based on an assumed prime interest rate of 9½ percent.

The proposed commercial paper notes will be issued in denominations of not less than $50,000 and not more than $1,000,000, will have a maturity of not more than 270 days, will not be repayable prior to maturity, and will be sold by Connecticut Yankee directly to Lehman Commercial Paper, Incorporated, a dealer in commercial paper, at the discount rate per annum prevailing at the date of issuance for commercial paper of comparable quality and of the particular maturity sold by public-utility issuers to commercial paper dealers. No commercial paper notes having a maturity of more than 90 days will be issued at an effective interest cost which exceeds the effective interest cost at which Connecticut Yankee could borrow from banks in

XUM V40130 FEB 12 75 XUM

an amount at least equal to the principal amount of such commercial paper. No commission or fee will be payable in connection with the issuance and sale of the commercial paper. The commercial paper dealer, as principal, will reoffer the commercial paper to institutional investors at a discount of no more than ⅛ of 1 percent per annum less than the prevailing discount rate to Connecticut Yankee in such manner as not to constitute a public offering. The commercial paper will be reoffered to not more than 200 identified and designated customers in a list (nonpublic) prepared in advance by the dealer. It is anticipated that the commercial paper will be held by customers to maturity, but if such customers desire to resell prior to maturity, the dealer, pursuant to a verbal repurchase agreement, will repurchase the commercial paper and reoffer the same to others in the group of 200 customers.

The funds to be derived from the issuance and sale of bank notes and commercial paper will be applied by the company (i) to repay $30,000,000 of existing bank notes and commercial paper presently outstanding pursuant to an order of the Commission dated September 14, 1973 (HCAR No. 18096), (ii) to provide funds for capital expenditures consisting principally of replacement turbine rotors, high energy pipe brake modification, the construction of a warehouse, and for the purchase of additional nuclear fuel. It is contemplated that the bank notes and commercial paper will be repaid in large part from the proceeds of a leverage lease nuclear fuel transaction in May or June of 1975 and with a mortgage bond issue later in 1975. It is represented that a small quantity of commercial paper will remain outstanding as a continuing component of the fuel financing program.

It is stated that no fees or commissions (including counsel fees) will be paid or incurred, directly or indirectly, in connection with the proposed transactions and that incidental services, valued at an estimated $500, will be performed at cost by Northeast Utilities Service Company, an affiliated service company. It is further stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Connecticut Yankee requests that the issue and sale of its commercial paper notes be excepted from the competitive bidding requirements of Rule 50 pursuant to subparagraph (a)(5) thereof in view of the fact that current rates for commercial paper for prime borrowers such as Connecticut Yankee are readily ascertainable by reference to daily financial publications and that it is not practicable to invite competitive bids for commercial paper. Connecticut Yankee further requests that the certificates under Rule 24 be filed on a quarterly basis with respect to the commercial paper.

Notice is further given that any interested person may, not later than February 27, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be permitted to become effective as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[File No. 500-1]

EQUITY FUNDING CORPORATION OF AMERICA

Suspension of Trading

FEBRUARY 5, 1975.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, warrants to purchase the stock, 9½ percent debentures due 1990, 5½ percent convertible subordinated debentures due 1991, and all other securities of Equity Funding Corporation of America being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended for the period from February 6, 1975 through February 15, 1975.

By the Commission.

[Rel. No. 18802; 70-5613]

THE SOUTHERN CO.

Proposed Charter Amendment Regarding Increase in Authorized Number of Shares of Common Stock and Solicitation of Proxies in Connection Therewith

FEBRUARY 4, 1975.

Notice is hereby given that The Southern Company ("Southern") 64 Perimeter Center East, P.O. Box 720071, Atlanta, Georgia 30346, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act") designating sections 6(a), 7 and 12(e) of the Act and rule 62 promulgated thereunder as applicable to the following proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Southern's Certificate of Incorporation ("Certificate") presently authorizes 110,000,000 shares of common stock, par value $5 per share, of which 98,749,500 shares are issued and outstanding. Southern proposes to amend its Certificate so as to increase the authorized number of shares of common stock from 110,000,000 to 150,000,000, par value $5.00 per share.

Southern has traditionally provided its subsidiary companies with the common equity portion of the capital needed to finance their construction programs. To that end, Southern issued and sold 36,300,000 shares of common stock during the 3 year period 1972 through 1974. It is contemplated that the common stock capital requirements of the subsidiary companies will continue and that in 1975 Southern will be required for such purposes to sell additional shares of its common stock approaching, if not exceeding, the number of its presently authorized but unissued shares. The proposed amendment to the Certificate is designed to provide Southern with a reasonable amount of authorized but unissued shares of common stock for financing such additional common equity capital requirements and for general corporate purposes, including possible use in a dividend reinvestment and stock purchase plan for Southern's stockholders. Any actual issuance and sale of common stock would be subject to approval pursuant to the applicable provisions of the Act and rules thereunder.

The proposed amendment to the Certificate will require the affirmative vote of the holders of a majority of the shares of outstanding common stock. By means of a proxy and proxy-statement, the proposed amendment will be submitted to the stockholders at Southern's 1975 annual meeting to be held on or about May 28, 1975. It is stated that the proposed amendment has been proposed and declared advisable by Southern's Board of Directors.

A statement of the fees and expenses to be incurred in connection with the proposed transaction will be supplied by amendment. It is stated that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than February 28, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 8661; 811-2036]

SUMMIT CAPITAL INVESTMENT PLANS

Notice of Proposal To Terminate Registration

FEBRUARY 5, 1975.

Notice is hereby given that the Commission proposes, pursuant to section 8(f) of the Investment Company Act of 1940 ("Act"), to declare by order on its own motion that Summit Capital Investment Plans ("Summit"), c/o Lawrence A. Fox, Wilkie, Farr & Gallagher, 1 Chase Manhattan Plaza, New York, New York 10005, registered under the Act as a unit investment trust, has ceased to be an investment company as defined by the Act.

On March 2, 1970, Summit registered under the Act by filing a Form N-8A Notification of Registration. On the same date, Summit filed a Form N-8B-2 Registration Statement under the Act and also filed a Form S-6 Registration Statement (2-36462) under the Securities Act of 1933 which was declared abandoned by order on July 20, 1972. Information in the Commission's files indicates that Summit has never had any assets or liabilities, has never sold any shares, and has never conducted and does not propose to conduct any business operations whatsoever.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and, upon the effectiveness of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than March 5, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to the controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following March 5, 1975, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

WATER RESOURCES COUNCIL

PROCEDURE NO. 1 FOR PLANNING WATER AND RELATED LAND RESOURCES

Notice of Amendment

On July 24, 1974, there was published in the FEDERAL REGISTER (39 FR 26952) a notice that Procedure No. 1 for Planning Water and Related Land Resources—Schedule and Application of Principles and Standards to Implementation Studies in Progress—had been established pursuant to Section 103 of the Water Resources Planning Act (Pub. L. 89-80) and the authority delegated in Section 2 of Executive Order 11747, November 7, 1973.

Notice is now given that Procedure No. 1 is hereby amended.

The amending material to Procedure No. 1 is in the form of additional material only. The full text of Procedure No. 1 for Planning Water and Related Land Resources, as hereby amended, is published as a part of this notice with the amending additional material in paragraphs C and D italicized.

The amendment to Procedure No. 1 is effective on February 12, 1975.

ROGERS C. B. MORTON, *Chairman.*

FEBRUARY 3, 1975.

PROCEDURE NO. 1 FOR PLANNING WATER AND RELATED LAND RESOURCES

SCHEDULE AND APPLICATION OF PRINCIPLES AND STANDARDS TO IMPLEMENTATION STUDIES IN PROCESS

A. Level C (implementation) plans, as defined by the Water Resources Council, July 22, 1970, which have been formulated in accordance with Senate Document No. 97, Supplement No. 1 thereto regarding recreation benefits, and the amendment of December 24, 1968, regarding discount rate, and transmitted to OMB prior to October 25, 1973, including those in this category which were transmitted to Congress for approval or authorization will remain as formulated.

B. Level C plans on which field studies, analyses, and evaluation were completed as of October 25, 1973, and which were formulated in accordance with Senate Document No. 97 as supplemented and amended, and which were transmitted to OMB, or transmitted to OMB and to Congress, for approval or authorization between October 25, 1973, and June 30, 1974, will include an addendum providing the following information.

1. Changes in Benefits and Costs: An evaluation of the plan without reformulation, using current normalized prices, current construction costs, and current recreation values.

2. Environmental Problems: A summary description of any significant environmental problems expected to be encountered or created by the plan.

3. Need for Reformulation: If the plan has unresolved environmental problems, a careful examination of the plan is to be undertaken by the responsible Federal agency, and reasons that reformulation of the plan is not needed prior to authorization will be set forth.

C. Level C (implementation) plans on which field studies analyses, and evaluation were completed as of October 25, 1973, and which were formulated in accordance with Senate Document No. 97 as supplemented and amended, and which are *either* transmitted to OMB between July 1, 1974, and June 30, 1975, *or which are in the review process on June 30, 1975, specifically designated and listed by the agencies, and transmitted to OMB between July 1, 1975, and June 30, 1976, will require supplemental analyses. A list of the plans in this review process will be filed on July 1, 1975, by the agencies with the Water Resources Council. Plans in Section C* will include an addendum providing the following information.

1. Changes in Benefits and Costs: An evaluation of the plan without reformulation, using current normalized prices, current construction costs, and current recreation values.

2. Environmental Quality Plan: An abbreviated environmental quality plan consistent with the intent of the "Principles and Standards," but which is abridged in detail.

3. Regional Development and Social Well-being: An abbreviated display of the regional development and social well-being impacts consistent with the intent of the "Principles and Standards," but which is abridged in detail.

4. Need for Reformulation: If the plan has unresolved environmental problems, a careful examination of the plan will be undertaken by the responsible Federal agency, and reasons that reformulation of a plan is not needed prior to authorization will be set forth.

D. Level C plans transmitted to OMB after June 30, 1975, *except those specifically designated and listed under the provisions of Section C above*, will be formulated in conformance with the "Principles and Standards" and applicable implementing Procedures.

E. For Level C plans which can be finally approved and carried out by an agency head pursuant to specific statutory provisions without further action by Congress, the application of the "Principles and Standards" is determined by substituting the words "approved administratively" for the words "transmitted to OMB" in Procedures A through D.

F. Agency heads responsible for applying the "Principles and Standards" may, if they desire, accelerate the schedule set out in this Procedure.

[FR Doc.75-3785 Filed 2-11-75;8:45 am]

DEPARTMENT OF LABOR

Manpower Administration

MIGRAN™ AND OTHER SEASONALLY EMPLOYED FARMWORKERS PROGRAMS

Termination of Grant Application Process and Request for Submissions

Pursuant to 29 CFR and sections 602 (a) and 303(a) of the Comprehensive Employment and Training Act of 1973 (Pub. L. 92.203, 87 Stat. 839), notice is hereby given that the regular grant planning and application process for allocable funds, described in 29 CFR 97.210-97.220 has terminated in the following States, as of this date (together with the amount of funds available for farmworker grants in those States):

Colorado—$946,800; Kentucky—$802,000; Wyoming—$42,000; Maine—$118,000; New Hampshire—$30,000; and Rhode Island—$23,000.

Because we were unable to provide grants in those States through the regular grant planning and application process for allocable funds, the funds made available for programs in those States revert to the National Contingency Account described in § 97.204(b). However, it is the intent and desire of the Manpower Administration to spend those available funds in those States for farmworker programs. For that reason, we are giving this notice of the availability of these funds for farmworker programs in those States and limiting eligibility for application for those funds to those applicants eligible under § 97.205.

The Manpower Administration will consider any proposals submitted by February 28, 1975, for a program(s) in those States. Interested persons are invited to submit proposals (four copies) to:

U.S. Department of Labor
Manpower Administration
Room 7122, Patrick Henry Building
601 D Street, NW
Washington, D.C. 20213
Attention: Chief, Migrant Division

Proposals submitted for a program(s) in those States should include the information, documentation and forms described in § 97.212 and 97.215.

Signed at Washington, D.C., this 29th day of January, 1975.

WILLIAM H. KOLBERG, *Assistant Secretary for Manpower.*

[FR Doc.75-3913 Filed 2-11-75;8:45 am]

INTERSTATE COMMERCE COMMISSION

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

FEBRUARY 6, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway-Elimination Rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before February 24, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 2633 (Sub-No. E12), filed May 12, 1974. Applicant: CROSSETT, INC., P.O. Box 946, Warren, Pennsylvania 16365. Applicant's representative: M. A. Burgett (Same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petroleum products*, in bulk, in tank trucks, from Erie, and points in Crawford Counties, Pennsylvania, to points on the U.S.-Canada International Boundary line between and including Buffalo, and Youngstown, New York. The purpose of this filing is to eliminate the gateways of Buffalo, Tonawanda, North Tonawanda; those points between Buffalo and Tonawanda which are within two miles of the Niagara River, New York.

No. MC 2633 (Sub-No. E13), filed May 12, 1974. Applicant: CROSSETT, INC., P.O. Box 946, Warren, Pennsylvania 16365. Applicant's representative: M. A. Burgett (Same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, as described in Appendix XIII to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209, from points in Clinton, Potter, and Tioga Counties, Pennsylvania to points on the International Boundary line between the U.S. and Canada which are between Buffalo and Youngstown, New York. The purpose of this filing is to eliminate the gateways of Buffalo, Tonawanda, North Tonawanda, New York, and points in New York which are between Buffalo and Tonawanda and are within two miles of the Niagara River.

No. MC 2633 (Sub-No. E15), filed May 12, 1974. Applicant: CROSSETT, INC., P.O. Box 946, Warren, Pennsylvania 16365. Applicant's representative: M. A. Burgett (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petrolcum products*, in bulk, in tank vehicles, as described in Appendix XIII to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209, except those named in Appendix XV thereof, from points in Beaver County, Pennsylvania; points in Chautauqua, Erie, and Niagara Counties, New York. The purpose of this filing is to eliminate the gateway of Freedom, Pennsylvania.

No. MC 2633 (Sub-No. E16), filed May 12, 1974. Applicant: CROSSETT, INC., P.O. Box 946, Warren, Pennsylvania 16365. Applicant's representative: M. A. Burgett (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lubricating oil*, in bulk, in tank vehicles, from points in Beaver County, Pennsylvania, to Syracuse and East Syracuse, New York. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pennsylvania.

No. MC 18088 (Sub-No. E1), filed May 13, 1974. Applicant: FLOYD & BEASLEY TRANSFER CO., INC., P.O. Drawer 8, Sycamore, Ala. 35149. Applicant's representative: Charles Ephraim, 1250 Connecticut Ave. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Textile products*, (a) from points in South Carolina (except points in Oconee County), to points in that part of Tennessee in and west of Lincoln, Moore, Coffee, Rutherford, Davidson, Cheatham, and Montgomery Counties, (b) from points in Oconee County, S.C., to points in and west of Franklin, Moore, Bedford, Marshall, Maury, Hickman, Humphreys, Houston, and Stewart Counties, Tenn., (c) from points in Cherokee, York, Union, Chester, Lancaster, Chesterfield, Marlboro, Dillon, Horry, Marion, Florence, Darlington, Lee, Sumter, Kershaw, Fairfield, and Newberry Counties, S.C., to points in Troup, Harris, Muscogee, and Chattahoochee Counties, Ga., (d) from points in Oconee, Pickens, Greenville, Spartanburg, Anderson, Laurens, Abbeville, Greenwood, Saluda, McCormick, and Edgefield Counties, S.C., to points in Harris, Muscogee, and Chattahoochee Counties, Ga., (e) from points in that part of South Carolina in and south of Aiken, Lexington, Richland, Clarendon, Williamsburg, and Georgetown Counties, to points in Troup and Harris Counties, Ga. The purpose of this filing is to eliminate the gateways of Sycamore, Pell City, and Lafayette, Ala.

No. MC 18088 (Sub-No. E2), filed May 13, 1974. Applicant: FLOYD & BEASLEY TRANSFER CO., INC., P.O. Drawer 8, Sycamore, Ala. 35149. Applicant's representative: Charles Ephraim, 1250 Connecticut Ave. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Textiles and textile products, and machinery, machinery parts, equipment, materials, and supplies* used in or in connection with the operation of textile mills and warehouses (except commodities the transportation of which, because of size or weight require the use of special equipment for the transportation thereof), restricted to the transportation of shipments originating at or destined to sites of mills or plants for the production of textiles or textile products, or of warehouses operated in connection with such mills or plants, (a) between points in South Carolina (except Oconee County) on the one hand, and, on the other, points in that part of Tennessee in and west of Giles, Lewis, Hickman, Dickson, and Montgomery Counties, (c) between points in Charleston County, S.C. on the one hand, and, on the other, points in that part of Tennessee in and west of Lincoln, Marshall, Williamson, Davidson, and Robertson Counties, (d) between points in that part of Georgia, on and east of Muscogee, Chattahoochee, Marion, Schley, Sumter, Lee, Worth, Colquitt, and Brooks Counties on the one hand, and, on the other, points in that part of Tennessee in and west of Hamilton, Meigs, Rhea, Cumberland, Fentress, and Pichett Counties, (e) between points in Union, Towns, Rabun, Lumpkin, White, Habersham, Stephens, Hall, Banks, Franklin, Hart, Jackson, Madison, Elbert, Gwinnett, Barrow, Clarke, Oglethorpe, Wilkes, Lincoln, Walton, Oconee, Morgan, Greene, Tallaferro, Putnam, Jasper, Butts, Newton, Henry, Fayette Spalding, Douglas, Carroll, and De Kalb Counties, Ga. on the one hand, and, on the other, points in that part of Tennessee in and west of Lawrence, Lewis, Hickman, Humphreys, Houston, and Stewart Counties.

(f) between points in Heard, Coweta, Troup, Meriwether, Pike, Lamar, Monroe, Harris, Talbot, Upson, Crawford, and Taylor Counties, Ga. on the one hand, and, on the other, points in that part of Tennessee in and west of Giles, Marshall, Williamson, Davidson, Cheatham, and Montgomery Counties, (g) between points in Taylor, Crawford, Peach, Houston, Macon, Pulaski, Dooly, Crisp, Wilcox, Turner, Ben Hill, Tift, Irwin, Cook, Berrien, Coffee, Atkinson, Lowndes, Lanier, Clinch, and Echols Counties, Ga. on the one hand, and, on the other, points in that part of Tennessee in and west of Bradley, McMinn, Loudon, Knox, Union, and Campbell Counties, (h) between points in Columbia, McDuffie, Warren, Hancock, Baldwin, Jones, Bibb, Twiggs, Bleckley, Dodge, Telfair, Jeff Davis, Bacon, Ware, Charlton, Camden, Glynn, Brantley, Pierce, McIntosh, Wayne, Appling, Long, Liberty, Chatham, Bryan, Effingham, Screven, Bulloch, Candler, Evans, Tattnall, Toombs, Montgomery, Wheeler, Treutlen, Laurens, Wilkinson, Washington, Glascock, Richmond, Burke, Jenkins, Johnson, Emanuel, and Jefferson Counties, Ga. on the one hand, and,

on the other, points in that part of Tennessee in and west of Lincoln, Moore, Bedford, Rutherford, Davidson, and Robertson Counties. The purpose of this filing is to eliminate the gateway of the plantsite of Vulcan Binder and Cover, Division of Ebsco Industries, Inc., at Vincent, Ala.

No. MC 18088 (Sub-No. E3), filed May 13, 1974. Applicant: FLOYD & BEASLEY TRANSFER CO., INC., P.O. Drawer 8, Sycamore, Ala. 35149. Applicant's representative: Charles Ephraim, 1250 Connecticut Ave. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, (a) from points in that part of Tennessee in and west of Hamilton, Meigs, Rhea, Cumberland, Fentress, and Pichett Counties to points in that part of Georgia in and west of Muscogee, Chattahoochee, Marion, Schley, Sumter, Lee, Worth, Colquitt, and Brooks Counties, (b) from points in that part of Tennessee in and west of Lawrence, Lewis, Hickman, Humphreys, Houston, and Stewart Counties to points in Union, Towns, Rabun, Lumpkin, White, Habersham, Stephens, Hall, Banks, Franklin, Hart, Jackson, Madison, Elbert, Gwinnett Barrow, Clarke, Oglethorpe, Wilkes, Lincoln, Walton, Oconee, Morgan, Greene, Taliaferro, Putnam, Jasper, Butts, Newton, Henry, Fayette, Spalding, Douglas, Carroll, and Dekalb Counties, Ga., (c) from points in that part of Tennessee in and west of Giles, Marshall, Williamson, Davidson, Cheatham, and Montgomery Counties to points in Heard, Coweta, Troup, Meriwether, Pike, Lamar, Monroe, Harris, Talbot, Upson, Crawford, and Taylor Counties, Ga., (d) from points in that part of Tennessee in and west of Bradley, McLinn, Loudon, Knox, Union, and Campbell Counties to points in Taylor, Crawford, Peach, Houston, Macon, Pulaski, Dooly, Crisp, Wilcox, Turner, Ben Hill, Tift, Irwin, Cook, Berrien, Coffee, Atkinson, Lowndes, Lanier, Clinch, and Echols Counties, Ga., (e) from points in that part of Tennessee in and west of Lincoln, Moore, Bedford, Rutherford, Davidson, and Robertson Counties to points in Columbia, McDuffie, Warren, Hancock, Baldwin, Jones, Bibb, Twiggs, Bleckley, Dodge, Telfair, Jeff Davis, Bacon, Ware, Charlton, Camden, Glynn, Brantley, Pierce, McIntosh, Wayne, Appling, Long, Liberty, Chatham, Bryan, Effingham, Screven, Bulloch, Candler, Evans, Tattnall, Toombs, Montgomery, Wheeler, Treutlen, Laurens, Wilkinson, Washington, Glascock, Richmond, Burke, Jenkins, Johnson, Emanuel, and Jefferson Counties, Ga., (f) from points in that part of Tennessee in and west of Giles, Maury, Hickman, Dickson, Houston, and Stewart Counties to points in South Carolina (except points in Oconee County), (g) from points in that part of Tennessee in and west of Giles, Lewis, Hickman, Dickson, and Montgomery Counties to points in Oconee County, S.C., and (h) from points in that part of Tennessee in and west of Lincoln, Marshall, Williamson, Davidson, and Robertson Counties to points in Charleston County, S.C. The purpose of this filing is to eliminate the gateway of the plant site of Vulcan Binder and Cover, Division of Ebsco Industries, Inc., at Vincent, Ala.

No. MC 31462 (Sub-No. E17), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Alabama on, south and east of a line beginning at the Alabama-Mississippi State line extending along Alabama Highway 24 to junction U.S. Highway 31, thence along U.S. Highway 31 to the Alabama-Tennessee State line, on the one hand, and, on the other, points in that part of South Dakota on and north of a line beginning at the Minnesota-South Dakota State line extending along U.S. Highway 34 to junction South Dakota Highway 45, thence along South Dakota Highway 45 to junction Interstate Highway 90, thence along Interstate Highway 90 to Rapid City, South Dakota, thence along U.S. Highway 385 to Deadwood, South Dakota, thence along U.S. Highway 85 to the South Dakota-Wyoming State line. The purpose of this filing is to eliminate the gateway of points in Georgia; points in Tennessee; Cairo, Illinois, and points within 25 miles thereof; Burlington, Iowa, and points within 50 miles thereof; and Alden, Minnesota, and points in Minnesota within 35 miles thereof.

No. MC 31462 (Sub-No. E18), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Tennessee, on the one hand, and, on the other, points in that part of Alabama bounded by a line beginning at the Georgia-Alabama State line extending along U.S. Highway 278 to junction Alabama Highway 21, thence along Alabama Highway 21 to junction Alabama County Highway 31, thence along Alabama County Highway 31 to junction Alabama Highway 9, thence along Alabama Highway 9 to junction U.S. Highway 280, thence along U.S. Highway 280 to junction County Highway 49, thence along County Highway 49 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction Alabama Highway 93, thence along Alabama Highway 231, thence along U.S. Highway 231 to the Alabama-Florida State line. The purpose of this filing is to eliminate the gateway of points in Georgia.

No. MC 31462 (Sub-No. E20), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Alabama on and east of a line beginning at the Georgia-Alabama State line at Phenix City, Alabama, extending along U.S. Highway 431 to Dothan, Alabama, thence along Alabama Highway 51 to junction Alabama Highway 53, thence along Alabama Highway 53 to junction Alabama Highway 109, thence along Alabama Highway 109 to the Alabama-Florida State line, on the one hand, and, on the other, points in Wisconsin. The purpose of this filing is to eliminate the gateway of any point in Georgia; any point in Tennessee; Cairo, Illinois, or any point within 25 miles thereof; and Burlington, Iowa, or any point within 50 miles thereof.

No. MC 31462 (Sub-No. E155), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Illinois on and south of a line beginning at the Illinois-Iowa State line extending along Interstate Highway 80 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction Illinois Highway 17, thence along Illinois Highway 17 to the Illinois-Indiana State line, on the one hand, and, on the other, points in Minnesota. The purpose of this filing is to eliminate the gateway of Burlington, Iowa, and points within 50 miles thereof.

No. MC 31462 (Sub-No. E159), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Illinois on and north of a line beginning at the Illinois-Missouri State line extending along U.S. Highway 40 to the Illinois-Indiana State line, to points in West Virginia. The purpose of this filing is to eliminate the gateway of Fort Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E161), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined, by the Commission, between points in Illinois, on the one hand, and, on the other, points in that part of Texas on, north, and west of a line beginning at Texarkana, Texas, extending along U.S. Highway 67 to junction U.S. Highway 271, thence along U.S. Highway 271 to junction U.S. Highway 69 to junction

U.S. Highway 79, thence along U.S. Highway 79 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Texas Highway 21, thence along Texas Highway 21 to junction Texas Highway 123, thence along Texas Highway 123 to junction Texas Highway 72, thence along Texas Highway 72 to junction Texas Highway 97, thence along Texas Highway 97 to junction U.S. Highway 81, thence along U.S. Highway 81 to the United States-Mexico Boundary line. The purpose of this filing is to eliminate the gateway of St. Louis, Missouri, and East St. Louis, Illinois, and points within 50 miles thereof; Cairo, Illinois, and points within 25 miles thereof; and points in Okmulgee County, Oklahoma.

No. MC 31462 (Sub-No. E164), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Illinois on the one hand, and, on the other, and points in South Dakota. The purpose of this filing is to eliminate the gateway of Alden, Minnesota, and points in Minnesota within 35 miles thereof.

No. MC 31462 (Sub-No. E165), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Illinois on the one hand, and, on the other, and points in North Dakota. The purpose of this filing is to eliminate the gateway of Alden, Minnesota, and points in Minnesota within 35 miles thereof.

No. MC 31462 (Sub-No. E166), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Illinois on the one hand, and, on the other, and points in Mississippi. The purpose of this filing is to eliminate the gateway of Cairo, Illinois, and points within 25 miles thereof.

No. MC 31462 (Sub-No. E167), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Illinois on and north of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 136 to junction U.S. Highway 150, thence along U.S. Highway 150 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Missouri-Illinois State line, on the one hand, and, on the other, points in South Carolina. The purpose of this filing is toe eliminate the gateway of Fort Wayne, Indiana, and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E244), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in South Dakota, on the one hand, and, on the other, points in Maine. The purpose of this filing is to eliminate the gateway of Burlington, Iowa, and points within 50 miles thereof; Ft. Wayne, Indiana, and points in Indiana within 50 miles thereof; Hoosick Falls, New York; and any point which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E245), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in North Dakota on the hand, and, on the other, points in Maine. The purpose of this filing is to eliminate the gateway of Burlington, Iowa, and points within 50 miles thereof; Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof; Hoosick Falls, New York; and any point which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E246), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Nebraska, on the one hand, and, on the other, points in Maine. The purpose of this filing is to eliminate the gateway of Burlington, Iowa, and points within 50 miles thereof, Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof; and Hoosick Falls, New York.

No. MC 31462 (Sub-No. E247), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Oklahoma, on the one hand, and, on the other, points in Maine. The purpose of this filing is to eliminate the gateway of Kansas City, Missouri, and points within 30 miles thereof; Ft. Wayne, Indiana, and points in Indiana within 40 miles thereof; and Hoosick Falls, New York.

No. MC 31462 (Sub-No. E335), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Montana on and east of a line beginning at the United States-Canada boundary line extending along U.S. Highway 91 to junction U.S. Highway 2, thence along U.S. Highway 2 to Browning, thence along U.S. Highway 89 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 191, thence along U.S. Highway 191 to the Montana-Idaho State line on the one hand, and, on the other, points in Vermont. The purpose of this filing is to eliminate the gateway of (1) Williston, North Dakota and points in North Dakota within 200 miles thereof; (2) Burlington, Iowa and points within 50 miles thereof; (3) Ft. Wayne, Indiana and points in Indiana within 40 miles thereof; (4) Hoosick Falls, New York and (5) any points which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E336), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Montana on and east of a line beginning at the United States-Canada Boundary line extending along U.S. Highway 91 to junction U.S. Highway 2 to Browning, thence along U.S. Highway 89 to junction U.S. Highway 89 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 10, thence along

The purpose of this filing is to eliminate the gateway of (1) Williston, North Dakota and points in North Dakota within 200 miles thereof; (2) Burlington, Iowa and points within 50 miles thereof; (3) Ft. Wayne, Indiana and points in Indiana within 40 miles thereof; and (4) any point which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E340), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Montana on and east of a line beginning at the United States-Canada Boundary line extending along U.S. Highway 91 to junction U.S. Highway 2, thence along U.S. Highway 2 to Browning, thence along U.S. Highway 89 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 191, thence along U.S. Highway 191 to the Montana-Idaho State line, on the one hand, and, on the other, points in Pennsylvania. The purpose of this filing is to eliminate the gateway of (1) Williston, North Dakota and points in North Dakota within 200 miles thereof; (2) Burlington, Iowa and points within 50 miles thereof; (3) Ft. Wayne, Indiana and points in Indiana within 40 miles thereof, and (4) any point which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E340), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Montana on and east of a line beginning at the United States-Canada Boundary line extending along U.S. Highway 91 to junction U.S. Highway 2, thence along U.S. Highway 2 to Browning, thence along U.S. Highway 89 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 191, thence along U.S. Highway 191 to the Montana-Idaho State line, on the one hand, and, on the other, points in Pennsylvania. The purpose of this filing is to eliminate the gateway of (1) Williston, North Dakota and points in North Dakota within 200 miles thereof; (2) Burlington, Iowa and points within 50 miles thereof; (3) Ft. Wayne, Indiana and points in Indiana within 40 miles thereof, and (4) any point which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E346), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Montana on and east of a line beginning at the United States-Canada Boundary line extending along U.S. Highway 91 to junction U.S. Highway 2, thence along U.S. Highway 2 to Browning, thence along U.S. Highway 89 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 191, thence along U.S. Highway 191 to the Montana-Idaho State line, on the one hand, and, on the other, points in New York. The purpose of this filing is to eliminate the gateway of (1) Williston, North Dakota and points in North Dakota within 200 miles thereof; (2) Burlington, Iowa and points within 50 miles thereof; (3) Ft. Wayne, Indiana and points in Indiana within 40 miles, and (4) any point which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E347), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster,

Texas 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Montana on and east of a line beginning at the United States-Canada Boundary line extending along U.S. Highway 91 to junction U.S. Highway 2, thence along U.S. Highway 2 to Browning, thence along U.S. Highway 89 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 191, thence along U.S. Highway 191 to the Montana-Idaho State line, on the one hand, and, on the other, points in Tennessee on and east of a line beginning at the Tennessee-Kentucky State line extending along U.S. Highway 127 to junction U.S. Highway 127 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Tennessee-Georgia State line. The purpose of this filing is to eliminate the gateway of (1) Williston, North Dakota and points in North Dakota within 200 miles thereof; (2) Burlington, Iowa and points within 50 miles thereof; (3) Ft. Wayne, Indiana and points in Indiana within 40 miles thereof; and (4) any point which is both within 35 miles of Alden, Minnesota, and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E419), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Texas, 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Oklahoma on the one hand, and, on the other, and points in Wisconsin. The purpose of this filing is to eliminate the gateway of Burlington, Iowa, and points within 50 miles thereof.

No. MC 32562 (Sub-No. E1), filed May 13, 1974. Applicant: POINT EXPRESS, INC., 4035 Roberts Road, Columbus, Ohio 42316. Applicant's representative: LOWELL T. BAYS (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Beckley, W. Va., on the one hand, and, on the other, points in Virginia within 75 miles of Bluefield, W. Va. The purpose of this filing is to eliminate the gateway of Bluefield, W. Va.

No. MC 61403 (Sub-No. E34) (Correction), filed May 31, 1974, republished in the FEDERAL REGISTER January 27, 1975. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (2) *Liquid chemicals*, in bulk, in tank vehicles, (a) from points in that part of Tennessee on and east of U.S. Highway 27 to points in that part of North Dakota on and east of U.S. Highway 85, and points in that part of South Dakota on and east of U.S. Highway 85 (Kingsport, Tenn., and Marshall, Ill.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this partial correction is to correct the territorial descriptions. The remainder of this letter-notice remains as previously published.

No. MC 95540 (Sub-No. E829) (Correction), filed December 9, 1974, published in the FEDERAL REGISTER January 2, 1975. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from St. Charles, Ill., to those points in New Mexico on and south of a line beginning at the New Mexico-Texas State line and extending along U.S. Highway 60 to its junction with U.S. Highway 84, thence along U.S. Highway 84 to its junction with U.S. Highway 85, thence along U.S. Highway 85 to its junction with U.S. Highway 66, thence along U.S. Highway 66 to the New Mexico-Arizona State line, to those points in Arizona on and south of a line beginning at the Arizona-New Mexico State line and extending along U.S. Highway 66 to its junction with U.S. Highway 93, thence along U.S. Highway 93 to the Arizona-New Mexico State line, to those points in California on and south of a line beginning at the California-Nevada State line and extending along Interstate Highway 15 to its junction with California Highway 58, thence along California Highway 58 to its junction with California Highway 140, thence along California Highway 140 to its junction with Interstate Highway 15, thence along Interstate Highway 15 to its junction with California Highway 152, thence along California Highway 152 to its junction with California Highway 1, thence along California Highway 1 to the Pacific Ocean. The purpose of this filing is to eliminate the gateway of Dyersburg, Tenn. The purpose of this correction is to include the gateway.

No. MC 95540 (Sub-No. E842) (correction), filed December 12, 1974, published in the FEDERAL REGISTER January 2, 1975. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen meat*, from Dubuque, Iowa, to points in Gordon County, Tenn., and points in Loudon County, Tenn., restricted to the transportation of shipments destined to points in the named destination counties. The purpose of this filing is to eliminate the gateway of Blytheville, Ark. The purpose of this correction is to correct a typographical error.

No. MC 106398 (Sub-No. E83) (correction), filed May 31, 1974, published in the FEDERAL REGISTER December 23, 1974. Applicant: NATIONAL TRAILER CONVOY, INC., P.O. Box 3329, Tulsa, Okla. 74101. Applicant's representative: Irvin Tull (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated buildings, complete, knocked down, or in sections and component parts, materials, supplies, and fixtures*, from points in Pennsylvania, Ohio, Indiana, Missouri, Kentucky, West Virginia, Virginia, Tennessee, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Louisiana, and Arkansas, to points in Minnesota. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa. The purpose of this correction is to clarify the origin points.

No. MC 106398 (Sub-No. E122) (correction), filed May 31, 1974, published in the FEDERAL REGISTER October 31, 1974. Applicant: NATIONAL TRAILER CONVOY, INC., P.O. Box 3329, Tulsa, Okla. 74101. Applicant's representative: Irvin Tull (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated buildings*, in sections, when transported on wheeled undercarriages equipped with hitch-ball connector, other than from origins which are points of manufacture, from Saratoga Springs, N.Y., to points in Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, Washington, West Virginia, Wisconsin, and Wyoming. The purpose of this filing is to eliminate the gateways of any point in Pennsylvania, New Jersey, or Massachusetts. The purpose of this correction is to clarify the gateway.

No. MC 106920 (Sub-No. E94), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: commodities classified as *dairy products* under B in the appendix to the report in Modification of Permits of Motor Carriers of

packinghouse products, 48 M.C.C. 628, except in bulk, in tank vehicles, and concentrated whole milk and concentrated skim milk, in containers, from points in Wisconsin south of a line beginning at the Iowa-Wisconsin State line and extending along Wisconsin Highway 60 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Wisconsin Highway 74, thence along Wisconsin Highway 74 to Lake Michigan, to points in Kentucky on and east of a line beginning at the Kentucky-Tennessee State line and extending along Kentucky Highway 163 to junction U.S. Highway 68, thence along U.S. Highway 68 to junction Kentucky Highway 55, thence along Kentucky Highway 55 to junction Kentucky Highway 555, thence along Kentucky Highway 555 to junction Kentucky Highway 62, thence along Kentucky Highway 62 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Kentucky-Indiana State line. The purpose of this filing is to eliminate the gateway of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E96), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicles, over irregular routes, transporting: Commodities classified as *dairy products* under B in the appendix to the report in modification of permits of motor contract carriers of packinghouse products, 48 M.C.C. 628, except in bulk, in tank vehicles, and concentrated whole milk and concentrated skim milk, in containers, from points in Wisconsin south of a line beginning at the Iowa-Wisconsin State line and extending along Wisconsin Highway 60 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Wisconsin Highway 74, thence along Wisconsin Highway 74 to Lake Michigan, and north of a line beginning at the Wisconsin-Iowa State line and extending along Wisconsin Highway 60 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Illinois State line, to points in Alabama bounded by a line beginning at the Alabama-Tennessee State line and extending along U.S. Highway 231 to junction Alternate U.S. Highway 72, thence along Alternate U.S. Highway 72 to junction Alabama Highway 24, thence along Alabama Highway 24 to junction Alabama Highway 33, thence along Alabama Highway 33 to junction U.S. Highway 278, thence along U.S. Highway 278 to junction Alabama Highway 195, thence along Alabama Highway 195 to junction U.S. Highway 78, thence along U.S. Highway 78 to junction Interstate Highway 59, thence along Interstate Highway 59 to the Alabama-Georgia State line, thence along the Alabama-Georgia State line to the Alabama-Tennessee State line; thence along the Alabama-Tennessee State line to the point of origin. The purpose of this filing is to eliminate the gateway of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E101), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by vehicle, over irregular routes, transporting: *Commodities* classified as *dairy products* under B in the Appendix to the report in *Modification of Permits of Motor Contract Carriers of Packinghouse Products*, 48 M.C.C. 628, from points in Missouri on and north of a line beginning at the Kansas-Missouri State line and extending along Missouri Highway 92 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Missouri Highway 10, thence along Missouri Highway 10 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Missouri Highway 154, thence along Missouri Highway 154 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Illinois-Missouri State line, to points in Florida on and south of a line beginning at the Atlantic Ocean and extending along Interstate Highway 4 to junction Interstate Highway 75, thence along Interstate Highway 75 to junction Florida Highway 688, thence along Florida Highway 688 to the Gulf of Mexico. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E102), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities classified as dairy products* under B in the Appendix to the report in *Modification of Permits* of Motor Contract Carriers of Packinghouse Products, 48 M.C.C. 628, from points in Missouri bounded by a line beginning at the Illinois-Missouri State line and extending along U.S. Highway 136 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Missouri Highway 135, thence along Missouri Highway 135 to junction Missouri Highway 5, thence along Missouri Highway 5 to junction Missouri Highway 240, thence along Missouri Highway 240 to junction Missouri Highway 3, thence along Missouri Highway 3 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Missouri Highway 154, thence along Missouri Highway 154 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Illinois-Missouri State line and extending along the Illinois-Missouri State line to the point of origin, to points in Kentucky bounded by a line beginning at the Ohio-Kentucky State line and extending along U.S. Highway 68 to junction Interstate Highway 75, thence along Interstate Highway 75 to junction Kentucky Highway 80, thence along Kentucky Highway 80 to junction U.S. Highway 23, thence along U.S. Highway 23 to the Ohio-Kentucky State line and extending along the Ohio-Kentucky State line to the point of origin. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E104), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities classified as dairy products* under B in the Appendix to the report in *Modification of Permits of Motor Contract Carriers of Packinghouse Products*, 48 M.C.C. 628, from points in Missouri south of a line beginning at the Illinois-Missouri State line and extending along U.S. Highway 136 to junction Missouri Highway 145, thence along Missouri Highway 145 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction Missouri Highway 46, thence along Missouri Highway 46 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Nebraska-Missouri State line, and north of a line beginning at the Nebraska-Missouri State line and extending along U.S. Highway 136 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Missouri Highway 48, thence along Missouri Highway 48 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Missouri Highway 22, thence along Missouri Highway 22 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Missouri-Illinois State line, to points in Tennessee north of a line beginning at the Kentucky-Tennessee State line and extending along U.S. Highway 25E to junction U.S. Highway 11E, thence along U.S. Highway 11E to the Tennessee-Virginia State line. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E106), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities classified as dairy products* under B in the Appendix to the report in *Modification of Permits of Motor Contract Carriers of Packinghouse Products*, 48 M.C.C. 628, from points in Missouri, north of a line beginning at the Virginia-West Virginia State line and extending along West Virginia Highway 39 to junction West Virginia Highway 16, thence along West Virginia Highway 16 to junction U.S. Highway 33, thence along U.S. Highway 33 to junction West Virginia Highway 2, thence along West Virginia Highway 2 to the West Virginia-Ohio State line (except points in West Virginia on and north of U.S. Highway 50). The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E108), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities classified as dairy products* under B in the Appendix to the report in *Modification of Permits of Motor Contract Carriers of Packinghouse Products*, 48 M.C.C. 628, from points in Missouri on and north of a line beginning at the Missouri-Illinois State line and extending along Missouri Highway 16 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction Missouri Highway 11, thence along Missouri Highway 11 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Kansas-Missouri State line, to points in North Carolina. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 107227 (Sub-No. E1) (Correction), filed May 15, 1974, republished in the FEDERAL REGISTER January 16, 1975. Applicant: INSURED TRANSPORTERS, INC., P.O. Box 1807, Fremont, Calif. 94538. Applicant's representative: John G. Lyons, Mills Tower, San Francisco, Calif. 94104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (6) *Trucks*, in truckaway service, from points in that part of California on and west of a line beginning at the Arizona-California State line and extending along U.S. Highway 80 to junction California Highway 86, thence along California Highway 86 to junction Interstate Highway 10, thence along Interstate Highway 10 to junction U.S. Highway 395, thence along U.S. Highway 395 to junction California Highway 58, thence along California Highway 58 to junction California Highway 99, thence along California Highway 99 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction Temporary Interstate Highway 5, thence along Temporary Interstate Highway 5 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction California Highway 29, thence along California Highway 29 to junction California Highway 128, thence along California Highway 128 to junction U.S. Highway 101, thence along U.S. Highway 101 to junction California Highway 12, thence along California Highway 12 to junction California Highway 116, thence along California Highway 116 to the Pacific Ocean to points in Washington (San Francisco and Oakland)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this partial correction is to correct a typographical error. The remainder of this letter-notice remains as previosuly published.

No. MC 107403 (Sub-No. E466) (Correction), filed May 29, 1974, published in the FEDERAL REGISTER January 8, 1975. Applicant: MATLACK, INC., 10 W. Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from points in Ohio (except points within 150 miles of Monongahela, Pa.), to points in Maryland, Pennsylvania, and West Virginia (points within 150 miles of Monongahela, Pa.). The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa. The purpose of this correction is to omit the word "except" from the destination description.

No. MC 107839 (Sub-No. E10) (Correction), filed June 4, 1974, published in the FEDERAL REGISTER July 29, 1974. Applicant: DENVER-ALBUQUERQUE MOTOR TRANSPORT, INC., P.O. Box 16106, Denver, Colo. 80216. Applicant's representative: Edward T. Lyons (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen meats*, from Coral Gables, Fla., to points in that part of Arizona on and north of a line beginning at the Arizona-New Mexico State line, thence along U.S. Highway 66 to Flagstaff, thence along Interstate Highway 17 to Phoenix, thence along Interstate Highway 10 to the California-Arizona State line, points in that part of Utah on and south and west of a line beginning at the Arizona-Utah State line, thence along U.S. Highway 6 to U.S. Highway 89, thence along U.S. Highway 89 via Salt Lake City to the Utah-Idaho State line; points in that part of Idaho on and south of U.S. Highway 12; and points in California, Nevada, Oregon, and Washington. The purpose of this filing is to eliminate the gateways of Denver, Colo., and Gallup, N. Mex. The purpose of this correction is to clarify the territorial description.

No. MC 107839 (Sub-No. E13) (Correction), filed June 4, 1974, published in the FEDERAL REGISTER July 29, 1974. Applicant: DENVER-ALBUQUERQUE MOTOR TRANSPORT, INC., P.O. Box 16106, Denver, Colo. 80216. Applicant's representative: Edward T. Lyons (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), (1) from the plant sites and warehouses of Sterling Colorado Beef Packers, at or near Sterling, Colo., to points in Robeson, Columbus, Brunswick, Pender, Bladen, Cumberland, Sampson, Duplin, Onslow, Carteret and Craven Counties, N.C., and points in South Carolina; and (2) from the plant sites and warehouses of American Beef Packers, Inc., at or near Fort Morgon, Colo., to points in North Carolina, South Carolina, and points in that part of Tennessee on and south of Interstate Highway 40. The purpose of this filing is to eliminate the gateway of Plainview, Tex. The purpose of this correction is to include origin points.

No. MC 109478 (Sub-No. E9), filed May 15, 1974. Applicant: WORSTER MOTOR LINES, INC., Gay Road, P.O. Box 110, North East, Pa. 16428. Applicant's representative: Joseph F. MacKrell, 23 West Tenth Street, Erie, Pa. 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grape juice, tomato juice, jams, jellies, and preserves*, other than frozen or in bulk, in tank vehicles, except no service may be performed under this authority from Philadelphia, Pa., to described Pennsylvania and West Virginia points, from Boston and Waban, Mass., and Philadelphia, Pa., to points in Illinois, Indiana, Michigan, Ohio, West Virginia, Pennsylvania on and west of U.S. Highway 219, and New York on, south, and west of a line beginning at Lake Ontario extending along New York Highway 13 to junction U.S. Highway 11, thence along U.S. Highway 11 to the New York-Pennsylvania State line. The purpose of this filing is to eliminate the gateways of North East, Pa., and Erie County, Pa., and points in New York on, south and west of a line beginning at Lake Ontario extending along New York Highway 13 to junction U.S. Highway 11 to the New York-Pennsylvania State line.

No. MC 111496 (Sub-No. E4), filed June 4, 1974. Applicant: TWIN CITY FREIGHT, INC., 2550 Long Lake Road, Roseville, Minn. 55113. Applicant's representative: R. E. Caturia (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General Commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, livestock, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, (1) from points in Clay County, Minn., to those points in North Dakota on and north of North Dakota Highway 5, (2) from points in Wilkin County, Minn., to those points in North Dakota on and north of North Dakota Highway 5. The purpose of this filing is to eliminate the gateways of Fargo and points in Walsh County, N. Dak.

No. MC 111496. (Sub-No. E5), filed June 4, 1974. Applicant: TWIN CITY FREIGHT, INC., 2550 Long Lake Road, Roseville, Minn. 55113. Applicant's representative: R. E. Caturia (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting:

General Commodities, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, livestock, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, from points in Becker and Otter Tail Counties, Minn., to those points in North Dakota on and north of North Dakota Highway 5. The purpose of this filing is to eliminate the gateways of points in Fargo and Walsh Counties, N. Dak.

No. MC 111496 (Sub-No. E8), filed June 4, 1974. Applicant: TWIN CITY FREIGHT, INC., 2550 Long Lake Road, Roseville, Minn. 55113. Applicant's representative: R. E. Caturia (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, livestock, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, from points in Clay and Wilken Counties, Minn., to those points in North Dakota on and west of a line beginning at the North Dakota-Montana State line, extending along North Dakota Highway 5 to its junction with U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 2, thence along U.S. Highway 2 to the North Dakota-Montana State line. The purpose of this filing is to eliminate the gateways of Fargo, and points in Cass County, N. Dak.

No. MC 111496 (Sub-No. E9), filed June 4, 1974. Applicant: TWIN CITY FREIGHT, INC., 2550 Long Lake Road, Roseville, Minn. 55113. Applicant's representative: R. E. Caturia (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, livestock, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, from points in Becker County, Minn., to those points in North Dakota on and west of a line beginning at the North Dakota-Montana State line, and extending along North Dakota Highway 5 to its junction with U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 2, thence along U.S. Highway 2 to the North Dakota-Montana State line. The purpose of this filing is to eliminate the gateways of Fargo, and points in Cass County, N. Dak.

No. MC 113843 (Sub-No. E426) (Correction), filed May 16, 1974, published in the FEDERAL REGISTER July 26, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer St., Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen meats, meat products, and meat by-products*, as defined by the Commission, from Martins Ferry, Ohio, to points in that part of Illinois on and north of a line beginning at the Indiana-Illinois State line and extending along Interstate Highway 80 to its junction with Interstate Highway 294, thence along Interstate Highway 294 to its junction with Illinois Highway 64, thence along Illinois Highway 64 to the Mississippi River. The purpose of this filing is to eliminate the gateway of Detroit, Mich. The purpose of this correction is to clarify the territorial description.

No. MC 113843 (Sub-No. E495) (Correction), filed May 31, 1974, published in the FEDERAL REGISTER July 29, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer St., Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen meats, meat products, and meat by-products* as defined by the Commission, from Piqua, Ohio, to points in that part of Pennsylvania on, east, and north of a line beginning at the New York-Pennsylvania State line and extending along U.S. Highway 219 to Bradford, thence along Pennsylvania Highway 46 to junction Pennsylvania Highway 446, thence along Pennsylvania Highway 446 to junction Pennsylvania Highway 155, thence along Pennsylvania Highway 155 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Pennsylvania Highway 309, thence along Pennsylvania Highway 309 to Wilkes-Barre, thence along Pennsylvania Highway 115 to junction Pennsylvania Turnpike Extension, thence along Pennsylvania Turnpike Extension to junction Interstate Highway 80, thence along Interstate Highway 80 to the Pennsylvania-New Jersey State line. The purpose of this filing is to eliminate the gateway of Buffalo, N.Y. The purpose of this correction is to clarify the territorial description.

No. MC 114019 (Sub-No. E408), filed May 19, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd. Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petroleum products*, in bulk, in tank vehicles, from points in Warren County, Pa., to those points in Ohio bounded by a line beginning at Lake Erie and extending along U.S. Highway 21 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Ohio-Pennsylvania State line, thence along the Ohio-Pennsylvania State line to junction Ohio Highway 165, thence along Ohio Highway 165 to junction Ohio Highway 14, thence along Ohio Highway 14 to Lake Erie. The purpose of this filing is to eliminate the gateways of points in that portion of Chautauqua County, N.Y., which are within 15 miles of Erie, Pa.

No. MC 114019 (Sub-No. E410), filed May 19, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cocoa, chocolate* and *compounds thereof, and confectionery*, between Detroit and Grand Rapids, Michigan, on the one hand, and, on the other, points in New York on and east of a line beginning at Lake Ontario and extending along New York Highway 17 to the New York-Pennsylvania State line, and points in Pennsylvania on and east of a line beginning at the New York-Pennsylvania State line and extending along U.S. Highway 220 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Pennsylvania Highway 307, thence along Pennsylvania Highway 307 to junction Interstate Highway 81, thence along Interstate Highway 81 to junction Interstate Highway 80, thence along Interstate Highway 80 to the New Jersey-Pennsylvania State line, and those points in New Jersey which are within 40 mileso f City Hall, New York, New York, and within the Philadelphia, Pennsylvania, Commercial Zone. The purpose of this filing is to eliminate the gateway of Syracuse, New York.

No. MC 114211 (Sub-No. E479), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Buildings, storage bins, grain driers, and corn cribs*, knocked down or in sections, and when shipped with said commodities, *component parts, materials, supplies, fixtures, and accessories* used in their construction and erection, *ventilators and irrigation well casings* which because of size or weight requires the use of special equipment, from points in that part of Nebraska on and west of a line beginning at the South Dakota-Nebraska State line extending along U.S. Highway 83 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction Nebraska Highway 14, thence along Nebraska Highway 14 to junction Nebraska Highway 39, thence along Nebraska Highway 39 to junction Nebraska Highway 22, thence along Nebraska Highway 22 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Nebraska-Kansas State line, to points in that part of Wisconsin on and northeast of a line beginning at the Wisconsin-Minnesota State line extending along U.S. Highway 53 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction Wisconsin Highway 25, thence along Wisconsin Highway 25 to the Wisconsin-Minnesota State line; to points in that part of Missouri on and northeast of a line beginning at the Missouri-Iowa State line

extending along Interstate Highway 35 to junction Missouri Highway 13, thence along Missouri Highway 13 to the Missouri-Arkansas State line; to points in that part of Minnesota on and northeast of a line beginning at the U.S.-Canada Boundary line extending along U.S. Highway 53, thence along U.S. Highway 53 to Lake Superior; and to points in that part of Iowa on and east of a line beginning at the Iowa-Wisconsin State line extending along Iowa Highway 9 to junction Iowa Highway 150, thence along Iowa Highway 150 to junction Iowa Highway 24, thence along Iowa Highway 24 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Iowa Highway 175, thence along Iowa Highway 175 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Interstate Highway 29, thence along Interstate Highway 29 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 169, thence along U.S. Highway 169 to the Iowa-Missouri State line and to points in Illinois, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Columbus, Nebr.

No. MC 114211 (Sub-No. E601), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts* thereof, from points in Illinois to points in South Dakota. The purpose of this filing is to eliminate the gateway of Fort Dodge, Iowa.

No. MC 114211 (Sub-No. E602), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts* thereof, (except commodities, the transportation of which, because of size or weight, requires the use of special equipment or special handling), between points in that part of Illinois on and north of a line beginning at the Illinois-Indiana State line extending along Illinois Highway 130 to junction Illinois Highway 33, thence along Illinois Highway 33 to junction Illinois Highway 128, thence along Illinois Highway 128 to junction Illinois Highway 16, thence along Illinois Highway 16 to junction Illinois Highway 29, thence along Illinois Highway 29 to junction Illinois Highway 125, thence along Illinois Highway 125 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Missouri-Illinois State line, on the one hand, and, on the other, points in Colorado, restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateways of Beatrice and Omaha, Nebr., and Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E603), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery*, from points in that part of Illinois on and north of a line beginning at the Iowa-Illinois State line extending along U.S. Highway 136, thence along U.S. Highway 136 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Illinois Highway 125, thence along Illinois Highway 125 to junction Illinois Highway 54, thence along Illinois Highway 54 to junction Interstate Highway 74, thence along Interstate Highway 74 to the Illinois-Indiana State line, to points in that part of Texas on and north of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 62 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction Texas Highway 86, thence along Texas Highway 86 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Texas-New Mexico State line, with no transportation for compensation on return except as otherwise authorized, restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateways of Nebraska City and Beatrice, Nebr., and points in Iowa.

No. MC 114211 (Sub-No. E680), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grading, paving and finishing machinery, equipment, parts, accessories, and attachments*, between Huron, South Dakota on the one hand, and, on the other, points in that part of Idaho on and west of a line beginning at the Oregon-Idaho State line extending along Interstate Highway 80, thence along Interstate Highway 80 to the Idaho-Utah State line, points in that part of Idaho on and west of a line beginning at the United States-Canada Boundary line extending along U.S. Highway 95 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Idaho-Washington State line; points in that part of Washington on and north of a line beginning at the Idaho-Washington State line extending along U.S. Highway 12 to junction Washington Highway 11, thence along Washington Highway 11 to the Washington-Oregon State line; points in that part of Colorado on and south and west of a line beginning at the Utah-Colorado State line extending along U.S. Highway 50 to junction Interstate Highway 25, thence along Interstate Highway 25 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction U.S. Highway 287, thence along U.S. Highway 287 to the Colorado-Oklahoma State line; points in that part of Kansas on and east of a line beginning at the Oklahoma-Kansas State line extending along U.S. Highway 56 to junction U.S. Highway 156, thence along U.S. Highway 156 to junction Interstate Highway 70.

Thence along Interstate Highway 70 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Kansas-Nebraska State line; points in that part of Wisconsin on and south and east of a line beginning at the Minnesota-Wisconsin State line extending along U.S. Highway 16 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Wisconsin Highway 21, thence along Wisconsin Highway 21 to junction Wisconsin Highway 173, thence along Wisconsin Highway 173 to junction Wisconsin Highway 80, thence along Wisconsin Highway 80 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction U.S. Highway 10, thence along Wisconsin Highway 10 to junction Wisconsin Highway 34, thence along Wisconsin Highway 34 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction Wisconsin Highway 17, thence along Wisconsin Highway 17 to U.S. Highway 45, thence along U.S. Highway 45 to the Wisconsin-Michigan State line; points in that part of Oregon on and south and west of a line beginning at the Washington-Oregon on and south and west of a line beginning at the Washington-Oregon State line extending along Oregon Highway 11 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Oregon-Idaho State line; points in that part of Utah on, south, and west of a line beginning at the Idaho-Utah State line extending along Interstate Highway 80 to junction U.S. Highway 30.

Thence along U.S. Highway 30 to junction U.S. Highway 191, thence along U.S. Highway 191 to junction U.S. Highway 89, thence along U.S. Highway 89 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Utah-Colorado State line; points in that part of Oklahoma on and south and east of a line beginning at the Colorado-Oklahoma State line extending along U.S. Highway 287 to junction U.S. Highway 56, thence along U.S. Highway 56 to the Oklahoma-Kansas State line; points in that part of Nebraska on and east of a line beginning at the Kansas-Nebraska State line extending along U.S. Highway 81 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Nebraska-Iowa State line; points in that part of Michigan on, east, and south of a line beginning at the Wisconsin-Michigan State line extending along U.S. Highway 45 to Ontonagon, Michigan; and points in Cali-

fornia, Nevada, Arizona, New Mexico, Texas, Missouri, Arkansas, Louisiana, Illinois, Indiana, Tennessee, Kentucky, Mississippi, Georgia, Alabama, Florida, Ohio, West Virginia, Virginia, North Carolina, South Carolina, Maryland, Delaware, New Jersey, Rhode Island, Pennsylvania, New York, Connecticut, Massachusetts, Vermont, New Hampshire, and Maine. The purpose of this filing is to eliminate the gateway of Canton, South Dakota.

No. MC 114211 (Sub-No. E681), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (Same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery*, and *contractors' equipment* and supplies, from Huron, South Dakota, to points in Wisconsin, Michigan, Illinois, Louisiana, Mississippi, Alabama, Georgia, Florida, South Carolina, North Carolina, Tennessee, Kentucky, West Virginia, Ohio, Indiana, Vermont, New Hampshire, Maine, and points in that part of Texas on and east of a line beginning at the Texas-Louisiana State line extending along Texas Highway 63 to junction U.S. Highway 96, thence along U.S. Highway 96 to Port Arthur, Texas; to points in that part of Arkansas on and east of a line beginning at the Missouri-Arkansas State line extending along U.S. Highway 63 to junction U.S. Highway 167, thence along U.S. Highway 167 to junction U.S. Highway 67, thence along U.S. Highway 67 to the Arkansas-Texas State line; and points in that part of Missouri on and east of a line beginning at the Iowa-Missouri State line extending along U.S. Highway 136 to junction Missouri Highway 15, thence along Missouri Highway 15 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction U.S. Highway 63, thence along U.S. Highway 63 to the Missouri-Arkansas State line, with no transportation to points in Maine, New Hampshire, and Vermont of agricultural implements and machinery as defined in Appendix XII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, 292. The purpose of this filing is to eliminate the gateway of Minneapolis, Minnesota.

No. MC 114211 (Sub-No. E682), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grading, paving, and finishing machinery, equipment, parts, accessories* and *attachments*, between McAllen, Texas on the one hand, and, on the other, points in Minnesota, North Dakota, and points in that part of Wisconsin on and north of a line beginning at Milwaukee, Wisconsin, extending along Wisconsin Highway 15 to junction Wisconsin Highway 11, thence along Wisconsin Highway 11 to the Wisconsin-Iowa State line; points in that part of Nebraska on and north of a line beginning at the Iowa-Nebraska State line extending along Nebraska Highway 51 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Nebraska-South Dakota State line; points in that part of South Dakota on and north of a line beginning at the Nebraska-South Dakota State line extending along U.S. Highway 83 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction Highway 385, thence along U.S. Highway 385 to junction U.S. Highway 18 to junction Highway 385, thence along U.S. Highway 385 to junction U.S. Highway 16, thence along U.S. Highway 16 to the South Dakota-Wyoming State line; points in that part of Wyoming on and northwest of a line beginning at the South Dakota-Wyoming State line extending along U.S. Highway 16 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 87.

Thence along U.S. Highway 87 to the Wyoming-Montana State line; points in that part of Montana on and north of a line beginning at the Wyoming-Montana State line extending along U.S. Highway 87 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Interstate Highway 15, thence along Interstate Highway 15 to junction Montana Highway 43, thence along Montana Highway 43 to the Montana-Idaho State line; points in that part of Idaho on and north of a line beginning at the Montana-Idaho State line extending along U.S. Highway 12 to the Idaho-Washington State line; and points in that part of Washington on and north of a line beginning at the Idaho-Washington State line extending along U.S. Highway 12 to junction Washington Highway 124, thence along Washington Highway 124 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction Washington Highway 432, thence along Washington Highway 432 to junction U.S. Highway 30, thence along U.S. Highway 30 to Astoria, Washington. The purpose of this filing is to eliminate the gateway of Canton, South Dakota, and points in Kansas.

No. MC 114211 (Sub-No. E683), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery* and *contractors equipment* and *supplies*, from Huron, South Dakota, to points in New York, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of the plant site of the Stinar Corporation located at or near Minneapolis, Minnesota.

No. MC 114211 (Sub-No. E684), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery* and *contractors' equipment* and *supplies*, from Springfield, Illinois, to points in Oregon, Washington, Idaho, Montana, North Dakota, and points in that part of South Dakota on and north of a line beginning at the South Dakota-Minnesota State line extending along U.S. Highway 14, to junction South Dakota Highway 37, thence along South Dakota Highway 37, to junction U.S. Highway 16, thence along U.S. Highway 16, to junction Highway 79, thence along South Dakota Highway 79, to junction U.S. Highway 18, thence along U.S. Highway 18 to the South Dakota-Wyoming State line; points in that part of Wyoming on and north of a line beginning at the Wyoming-South Dakota State line extending along U.S. Highway 18 to junction U.S. Highway 26, thence along U.S. Highway 26, to junction U.S. Highway 89, thence along U.S. Highway 89 to the Idaho-Wyoming State line; to points in that part of Nevada on and west of a line beginning at the Idaho-Nevada State line extending along U.S. Highway 93 to junction U.S. Highway 6, thence along U.S. Highway 6 to the California-Nevada State line; and points in that part of California on and north of a line beginning at the California-Nevada State line extending along U.S. Highway 6 to junction U.S. Highway 395, thence along U.S. Highway 395, to junction California Highway 14, thence along California Highway 14, to junction Interstate Highway 5, thence along Interstate Highway 5, to junction Interstate Highway 10, thence along Interstate Highway 10 to Los Angeles, California, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minnesota, and points in Iowa.

No. MC 114301 (Sub-No. E6) (Correction), filed May 30, 1974, published in the FEDERAL REGISTER, August 27, 1974. Applicant: DELAWARE EXPRESS CO., P.O. Box 97, Elkton, Md. 21921. Applicant's representative: Walter J. Winther (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry poultry and dairy feed*, from points in Berks and Chester Counties, Pa., to points in Anne Arundel, Prince Georges, Charles, Calvert, and St. Marys Counties, Md. The purpose of this filing is to eliminate the gateways of Newark, Dela., and the plant sites of the Ralston Purina Co., at or near Wilmington, Dela. The purpose of this correction is to clarify the commodity descriptions.

No. MC 116915 (Sub-No. E7), filed May 24, 1974. Applicant: ECK MILLER TRANSPORTATION CORPORATION, P.O. Box 1279, Owensboro, Ky. 42301. Applicant's representative: William P. Sullivan, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Oil well and mine machinery, pipe and supplies* which require the use of special equipment by reason of size or weight, from points in West Virginia to points in Missouri. The purpose of this filing is to eliminate the gateway within 35 miles of Owensboro, Ky.

No. MC 116915 (Sub-No. E12), filed May 24, 1974. Applicant: ECK MILLER TRANSPORTATION CORPORATION, P.O. Box 1279, 1125 Sweeney St., Owensboro, Ky. 42301. Applicant's representative: William P. Sullivan, Federal Bar Bldg. West, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum and aluminum products and equipment, materials, and supplies* (except in bulk), used in the manufacture and processing of aluminum and aluminum products which require the use of special equipment by reason of size or weight, (1) from points in Florida to points in Ohio, Indiana, and the Lower Peninsula of Michigan, (2) from points in North Carolina to points in Illinois and Missouri, (3) from points in Connecticut, New Jersey, New York and Pennsylvania to points in Missouri and to those points in Tennessee on and west of U.S. Highway 231, and (4) from points in Arkansas and Texas to points in Ohio, Indiana, Virginia, and West Virginia. The purpose of this filing is to eliminate the gateway of shipper facility gateways at Hawesville, Ky.

No. MC 119968 (Sub-No. E17), filed May 20, 1974. Applicant: A. J. WEIGAND, INC., 3966 Pearl Rd., Cleveland, Ohio 44109. Applicant's representative: Paul F. Beery, 8 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are manufactured and sold by chemical manufacturing plants* (except petroleum products, in bulk, in tank trucks), when moving to or from warehouses or other facilities of chemical manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemical manufacturing plants, in bulk, between points in Ohio, and on and south of a line beginning at Toledo, Ohio, and extending south along U.S. Highway 23 to junction U.S. Highway 30N, thence along U.S. Highway 30N to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 250, thence along U.S. Highway 250 to the Ohio-West Virginia State line; those points in West Virginia on and west of a line beginning at the Ohio-West Virginia State line, and extending east along U.S. Highway 250 to junction West Virginia Highway 2, thence south along West Virginia Highway 2 to junction U.S. Highway 60, thence along U.S. Highway 60 to the West Virginia-Kentucky State line; those points in Kentucky on and north of a line beginning at the Kentucky-West Virginia State line and extending west along U.S. Highway 60 to intersection U.S. Highway 23, thence along U.S. Highway 23 to junction Kentucky Highway 10, thence along Kentucky Highway 8 to its termination near North Bend, Ohio, on the one hand, and, on the other, points in New York on and west of New York Highway 12 and on and east of New York Highway 15. The purpose of this filing is to eliminate the gateway of Dover, Ohio.

No. MC 119968 (Sub-No. E18), filed May 20, 1974. Applicant: A. J. WEIGAND, INC., 3966 Pearl Rd., Cleveland, Ohio 44109. Applicant's representative: Paul F. Beery, 8 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are manufactured and sold by chemical manufacturing plants* (except petroleum products, in bulk, in tank trucks), when moving to or from warehouses or other facilities of chemical manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemical manufacturing plants, in bulk, between points in Ohio on and south of a line beginning at the Indiana-Ohio State line and extending east along U.S. Highway 30 to intersection U.S. Highway 30 near Ontario, Ohio, thence along U.S. Highway 30 to U.S. Highway 250 to junction Interstate Highway 77, thence along Interstate Highway 77 to the Ohio-West Virginia State line; those points in West Virginia on and west of a line beginning at the Ohio-West Virginia State line and extending along Interstate Highway 77 to West Virginia Highway 2, thence south along West Virginia Highway 2 to junction U.S. Highway 60, thence along U.S. Highway 60 to the West Virginia-Kentucky State line; those points in Kentucky on and north of a line beginning at the Kentucky-West Virginia State line and extending west along U.S. Highway 60 to intersection U.S. Highway 23, thence along U.S. Highway 23 to junction Kentucky Highway 10, thence along Kentucky Highway 8 to its termination near North Bend, Ohio, on the one hand, and, on the other, points in New York on and west of U.S. Highway 15. The purpose of this filing is to eliminate the gateway of Dover, Ohio.

No. MC 119968 (Sub-No. E19), filed May 20, 1974. Applicant: A. J. WEIGAND, INC., 3966 Pearl Rd., Cleveland, Ohio 44109. Applicant's representative: Paul F. Beery, 8 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are manufactured and sold by chemical manufacturing plants (except petroleum products, in bulk, in tank trucks), when moving to or from warehouses or other facilities of chemical manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemical manufacturing plants, in bulk, between points in Ohio on and west of a line beginning at Lorain, Ohio, and extending south along Ohio Highway 57 to junction Ohio Highway 18, thence along Ohio Highway 18 to junction Interstate Highway 77, thence along Interstate Highway 77 to the Ohio-West Virginia State line; those points in West Virginia on and west of a line beginning at the Ohio-West Virginia State line and extending east along Interstate Highway 77 to junction West Virginia Highway 2, thence south along West Virginia Highway 2 to junction U.S. Highway 60, thence along U.S. Highway 60 to intersection U.S. Highway 23, thence along U.S. Highway 23 to junction Kentucky Highway 10, thence along Kentucky Highway 8 to its termination near North Bend, Ohio, on the one hand, and, on the other, points in that part of Connecticut on and south of a line beginning at the Connecticut-Massachusetts State line and extending along U.S. Highway 7 to junction U.S. Highway 44, thence along U.S. Highway 44 to junction Connecticut Highway 2, thence along Connecticut Highway 2 to junction Connecticut Highway 85, thence along Connecticut Highway 85 to New London, Conn.; that part of New Jersey on and north of New Jersey Highway 33; that part of New York, including Long Island, on and south of a line beginning at the New York-Pennsylvania State line and extending north along New York Highway 7 to junction New York Highway 23, thence along New York Highway 23 to the New York-Massachusetts State line. The purpose of this filing is to eliminate the gateway of Dover, Ohio.

No. MC 119968 (Sub-No. E21), filed May 20, 1974. Applicant: A. J. WEIGAND, INC., 3966 Pearl Rd., Cleveland, Ohio 44109. Applicant's representative: Paul F. Beery (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are manufactured and sold by chemical manufacturing plants* (except petroleum products, in bulk, in tank trucks), when moving to or from warehouses or other facilities of chemical manufacturing plants, that are included in machinery, equipment, materials, and supplies used by chemical manufacturing plants, in bulk, between points in Ohio on and west of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 62 to junction Interstate Highway 77, thence along Interstate Highway 77 to the Ohio-West Virginia State line, on the one hand, and, on the other, points in Indiana on and north of U.S.

[Notice No. 11]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

FEBRUARY 7, 1975.

The following publications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by the new Special Rule 1100.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable by the Commission.

MOTOR CARRIERS OF PROPERTY

MC 29079 (Sub-No. 70) (Republication), filed April 8, 1974, and published in the FEDERAL REGISTER issue of May 16, 1974, and republished this issue. Applicant: BRADA MILLER FREIGHT SYSTEM, INC., 1210 South Union St., Kokomo, Ind. 46901. Applicant's representative: Chandler L. Van Orman, 704 Southern Building, Washington, D.C. 20005. An Order of the Commission, Operating Rights Board, dated December 23, 1974, and served January 24, 1975, finds, that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, of *aluminum and steel articles* between the facilities of Roll Coata Company, at or near Kingsbury, Ind., on the one hand, and, on the other, points in Indiana, Illinois, Michigan, Ohio, Missouri, points in New York on and west of U.S. Highway 62, points in Pennsylvania on and west of U.S. Highway 219, and points in West Virginia on and north of U.S. Highway 40; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate the change of the commodity description from iron or steel, plate or sheet, flat or in coils, to aluminum and steel articles; and to indicate the correct spelling of the plantsite and warehouses, from Roll Coates Company, to Roll Coata Company. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

MC 98713 (Sub-No. 6) (Republication), filed May 9, 1974, and published in the FEDERAL REGISTER issue of June 20, 1974, and republished this issue. Applicant: ORANGE BELT STAGES, a Corporation, 525 E. Acequia Street, Visalia, Calif. 93277. Applicant's representative: F. S. Bayley, Suite 1200, 111 Sutter Street, San Francisco, Calif. 94104. An order of the Commission, Operating Rights Board, dated December 23, 1974, and served January 28, 1975, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle: (A) of *Passengers and their baggage* in the same vehicle with passengers and *express* in the same vehicle with passengers (limited to a weight of no more than 100 pounds per shipment), over regular routes: (1) Between Visalia and Bakersfield; from Visalia, over California Highway 198 to junction of unnumbered highway (Farmersville Road), thence over unnumbered highway via Farmersville to Exeter, thence over California Highway 65 to Bakersfield. (2) Between Visalia and Hanford: from Visalia, over California Highway 198 to Hanford. (3) Between Bakersfield and Paso Robles; from Bakersfield, over California Highway 99 to Formosa, thence over California Highway 46 to Paso Robles. (4) Between Bakersfield and Wasco; from Bakersfield, over Rosedale Highway to Shafter Highway to Santa Fe Way to Wasco Avenue to Poso Drive to F Street to Wasco. (5) Between Lerdo and Shafter; from Lerdo, over unnumbered highway to Shafter, to be operated as an alternate route serving no intermediate points. (6) Between Bakersfield and Barstow; from Bakersfield, over California Highway 58 to Barstow.

(7) Between the junction of California Highways 99 and 198, and the junction of 14th Avenue West and California Highway 198; from the junction of California Highways 99 and 198, over California Highway 99 to Goshen Junction, thence over 14th Avenue West to California Highway 198, and return over the same routes serving all intermediate points restricted (1) against the transportation of passenger, baggage, or express between Visalia and points west thereof, on the one hand, and Bakersfield, on the other hand, over the route via Exeter, Porterville, and Ducor, (2) against the transportation of traffic between Muroco junction and Beecher's Corner and intermediate points, (3) against the transportation of traffic between points located on California Highway 99, and (4) against the transportation of passengers between Bakersfield and Brundage Lane, and intermediate points; and (B) of *Passengers and their baggage* in the same vehicle with passengers in round-trip charter operations, beginning and ending at points in Tulare, Kings, San Luis Obispo and Kern, Counties, Calif., and at Burrel, Coalinga, Huron, Kingsburg, Lanare, Orange Cove, Parlier, Reedley, Riverdale, San Joaquin, and Selma, Calif., and extending to points in Washington, Oregon, Nevada, Utah, Arizona, and New Mexico. The purpose of this republication is to indicate the correct spelling of the county of Tulare, which was erroneously spelled Tulane; and to modify the territorial description. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this

publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

MC 109326 (Sub-No. 110) (Republication), filed July 17, 1974, and published in the FEDERAL REGISTER issue of August 15, 1974, and republished this issue. Applicant: C & D TRANSPORTATION CO., INC., P.O. Box 10506, New Orleans, La. 70121. Applicant's representative: William P. Jackson, Jr., 919 18th St. NW., Washington, D.C. 20006. An Order of the Commission, Operating Rights Board, dated December 18, 1974, and served January 24, 1975, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over *irregular routes*, of bananas, and agricultural commodities otherwise exempt from regulation under Section 203(b)(6) of the Act, when transported in mixed loads with bananas, from Mobile, Ala., to points in Texas, Oklahoma, Kansas, Nebraska, Iowa, Missouri, Arkansas, Louisiana, Illinois, Indiana, Ohio, Kentucky, North Carolina, South Carolina, Alabama, restricted against service from or to any facility of the Great Atlantic and Pacific Tea Company or Hunt Foods and Industries, Inc. and further restricted to the transportation of traffic of having an immediately prior movement by water; that applicant is fit, willing and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; the purpose of this republication is to include South Carolina as a destination State. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 124774 (Sub-No. 89) (Republication), filed April 17, 1974, and published in the FEDERAL REGISTER issue of May 8, 1974, and republished this issue. Applicant: MIDWEST REFRIGERATED EXPRESS, INC., 4440 Buckingham Avenue, P.O. Box 7344, Omaha, Nebr. 68101. Applicant's representative: Thomas D. Sutherland, P.O. Box 80028, 605 South 14th Street, Lincoln, Nebr. 68501. An Initial Decision of the Commission, Glennon, Administrative Law Judge, dated January 8, 1975, and served January 22, 1975, finds, that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, of *edible bakery supplies*, from the plantsite of Globe Products Company, Inc., located in Clifton, N.J., to points in Illinois, Indiana, Iowa, Kansas, Michigan, Missouri, Minnesota, Nebraska, Wisconsin, Ohio, Kentucky, and West Virginia restricted to traffic originating at the named plantsite; that applicant is fit, willing and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to include Missouri as a destination State. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 263 (Sub-No. 87) (Notice of filing of petition to remove restriction), filed January 27, 1975. Petitioner: GARRETT FREIGHTLINES, INC., 2055 Garrett Way, P.O. Box 4048, Pocatello, Idaho 83201. Petitioner's representative: Wayne S. Green (same address as petitioner). Petitioner holds a motor *common carrier* certificate in No. MC 263 (Sub-No. 87) issued August 21, 1959, authorizing transportation, over regular routes, of *General commodities* (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Farmington, N. Mex., and Albuquerque, N. Mex., serving all intermediate points, except Bernalillo, N. Mex., and points on U.S. Highway 85 between Bernalillo and Albuquerque, N. Mex.; from Farmington over New Mexico Highway 17 to junction New Mexico Highway 44, thence over New Mexico Highway 44 to junction U.S. Highway 85, at Bernalillo, N. Mex., and thence over U.S. Highway 85 to Albuquerque, and return over the same route. Restriction: The authority granted herein shall not be combined or joined with any other authority held by carrier for the purpose of serving Albuquerque, N. Mex., in connection with traffic originating at or destined to Ogden or Salt Lake City, Utah. By the instant petition, petitioner seeks to remove the restriction imposed on the above authority. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 76677 (Notice of filing of petition to modify commodity description), filed January 27, 1975. Petitioner: HALLAMORE MOTOR TRANSPORTATION, INC., P.O. Box 556, Brockton, Mass. 02403. Petitioner's representative: Frank J. Weiner, 15 Court Square, Boston, Mass. 02108. Petitioner holds a motor *common carrier* certificate in No. MC 76677 issued February 14, 1956, authorizing transportation, as pertinent, over irregular routes, of *Plant, office and store equipment and supplies* requiring specialized handling or rigging: (1) Between Brockton, Mass., and points in Massachusetts within 35 miles of Brockton, on the one hand, and, on the other, points in Pennsylvania, New York, Rhode Island, Connecticut, and New Hampshire; (2) between points in Massachusetts; (3) between points in Rhode Island; (4) between points in Connecticut; and (5) between points in New Hampshire. By the instant petition, petitioner seeks to modify the commodity description in the above authority so as to read: *Commodities*, the transportation of which, because of size or weight requires the use of special equipment, and *related machinery parts and related contractor's materials and supplies* when their transportation is incidental to the transportation of commodities, which by reason of size or weight require special equipment. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 111545 (Sub-No. 94) (Notice of filing of petition to modify a commodity description) filed January 23, 1975. Petitioner: HOME TRANSPORTATION COMPANY, INC., 1425 Franklin Rd., S.E., P.O. Box 6426, Station A, Marietta, Ga. 30060. Petitioner's representative: Robert E. Born (same address as petitioner). Petitioner holds a motor *common carrier* certificate in No. MC 111545 (Sub-No. 94), issued April 25, 1967, authorizing transportation, as pertinent, over irregular routes, of *Machinery and contractors' equipment*, which because of size or weight, require the use of special equipment or special handling, Between points in Illinois, Iowa, Kansas, Minnesota, Missouri, Nebraska, and Wisconsin within 300 miles of Ames, Iowa, including Ames, except road-building equipment from Peoria, Ill., to points in Iowa. By the instant petition, petitioner seeks to modify the commodity description in the above authority to read: *Commodities* which because of size or weight, require the use of special equipment or special handling. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 114789 (Sub-No. 28) (Notice of filing of petition to add a destination point), filed January 24, 1975. Petitioner: NATIONWIDE CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. 55359. Peti-

tioner's representative, Donald L. Stern: Suite 530 Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Petitioner holds a motor *contract carrier* permit in No. MC 114789 (Sub-No. 28), issued December 9, 1971, authorizing transportation, as pertinent, over irregular routes, of *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment because of size or weight), from the plant sites and other facilities of Minnesota Mining and Manufacturing Company at Bristol, Pa., Freehold and Newark, N.J., and Middleway, W. Va., to the plant sites and other facilities of Minnesota Mining and Manufacturing Company at St. Paul, Minn., and Ames Iowa, under a continuing contract, or contracts with Minnesota Mining and Manufacturing Company of St. Paul, Minn. By the instant petition, petitioner seeks to add Eagan, Minn., as a destination point in the above authority. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 115212 (Notice of filing of petition to modify territorial description), filed January 27, 1975. Petitioner: H. M. H. MOTOR SERVICE, a Corporation, Route 130, Cranbury, N.J. 08512. Petitioner's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Petitioner holds a motor *contract carrier* permit in No. MC 115212 issued May 2, 1956, authorizing transportation, over irregular routes, of *such commodities* as are dealt in by retail women's and children's ready-to-wear apparel stores, and in connection therewith, *supplies and equipment* used in the conduct of such business, between New York, N.Y., on the one hand, and, on the other, points in Virginia, North Carolina, South Carolina, Georgia, Florida, and Alabama, under special and individual contracts or agreements, with persons (as defined in section 203(a) of the Interstate Commerce Act) who operate retail stores, the business of which is the sale of women's and children's ready-to-wear apparel. By the instant petition, petitioner seeks to modify the above territorial description so as to read: Between New York, N.Y. and those points in New Jersey within 5 miles of New York, N.Y., and all of any New Jersey municipality any part of which is within 5 miles of New York, N.Y., on the one hand, and, on the other, points in Virginia, North Carolina, South Carolina, Georgia, Florida, and Alabama. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 126111 (Sub-No. 2) (Notice of filing of petition to modify a territorial description), filed January 23, 1975. Petitioner: LYLE W. SCHAETZEL, doing business as SCHAETZEL TRUCKING COMPANY, 520 Sullivan Drive, P.O. Box 1579, Fond du Lac, Wis. 54935. Petitioner's representative: Richard C. Alexander, 710 North Plankinton Avenue, Milwaukee, Wis. 53203. Petitioner holds a motor *contract carrier* permit in No. MC 126111 (Sub-No. 2), issued July 3, 1972, authorizing transportation, over irregular routes, of *Sweetened condensed milk*, in bulk, in tank vehicles, from Fond du Lac, Wis., to Philadelphia, Pa., under a continuing contract, or contracts, with Galloway-West Company, a division of the Borden Company, Inc. of Fond du Lac, Wis. By the instant petition, petitioner seeks to modify the territorial description in the above authority by the addition of Baltimore, Md. as a destination point. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 12720 (Sub-No. 2) (Notice of filing of petition to modify a license), filed January 24, 1975. Petitioner: TRAVEL & TOUR SERVICE, INC., 722 North Third Street, Milwaukee, Wis. 53203. Petitioner's representative: William C. Dineen, 710 North Plankinton Avenue, Milwaukee, Wis. 53203. Petitioner holds a license as a *broker* at Milwaukee, Wis. in No. MC 12720 (Sub-No. 2), issued March 7, 1972, to sell or offer to sell the transportation of *Passengers and their baggage*, in charter and special operations, Beginning and ending at Minneapolis and St. Paul, Minn., and extending to points in the United States (including Alaska and Hawaii). By the instant petition, petitioner seeks to substitute Minneapolis and St. Paul, Minn. for Milwaukee, Wis. as the points at which the brokerage service would be performed. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATIONS UNDER SECTIONS 5 AND 210A (B)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC-F-12104. (Amendment) (ILLINOIS-CALIFORNIA EXPRESS, INC. — Purchase (Portion) — BESTWAY FREIGHT LINES, INC.), published in the January 23, 1974, issue of the FEDERAL REGISTER on page 2653. By amendment filed January 30, 1975, THE MARMON GROUP INC. (Michigan) AND GL CORPORATION, both of 39 S. LaSalle St., Chicago, IL 60603, join in as party applicants to the proceeding.

No. MC-F-12422. Authority sought for purchase by BURTON TRUCK & TRANSFER CO., 11910 South Greenstone Ave., Santa Fe Springs, CA 90670, of the operating rights of WEST COAST WAREHOUSE CORPORATION, P.O. Box 258, Long Beach, CA 90801; and authority sought for purchase by WEST COAST WAREHOUSE CORPORATION, of the operating rights of BURTON TRUCK & TRANSFER CO., and for acquisition by MARY B. BLEMING, also of Long Beach, CA 90801, and R. F. McCURDY, JR., 7823 E. Fourth Place, Downey, CA 90241, of control of such rights through the purchase. Applicants' attorney: R. Y. Schureman, 1545 Wilshire Blvd., Los Angeles, CA 90017.* Operating rights sought to be transferred: Under certificates of registration in Docket Nos. MC 105537 (Sub-No. 5), and MC 3853 (Sub-No. 3), covering the transportation of general commodities, as common carriers, in interstate commerce, within the State of California. Vendees are authorized to operate as common carriers in California. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-12423. Authority sought for merger by UNION BUS LINES, INC., St. Charles & 12th St., Brownsville, TX 78520, of the operating rights of WINTER GARDEN BUS LINE, INC., also of Brownsville, TX 78520, and for acquisition by CONTINENTAL TRAILWAYS, INC., 315 Continental Ave., Dallas, TX 75207, and TCO INDUSTRIES, INC., 1500 Jackson St., Dallas, TX 75202, of control of such rights through the transaction. Applicants' attorney: D. Paul Stafford, 315 Continental Ave., Dallas, TX 75207. Operating rights sought to be merged: Passengers and their baggage, and express, mail, and newspapers in the same vehicle with passengers, as a common carrier over regular routes, between Eagle Pass, and Laredo, Tex., between Eagle Pass, and Dilley, Tex., between Eagle Pass, and El Indio, Tex., between Eagle Pass, and Brackettville, Tex., between junction U.S. Highway 277 and Texas Farm Road 191, and Carrizo Springs, Tex., between Eagle Pass, and Del Rio, Tex., serving all intermediate points. UNION BUS LINES, INC., doing business as CONTINENTAL TRAILWAYS, is authorized to operate as a common carrier in Texas. Application has not been filed for temporary authority under section 210a(b).

NOTE.—Pursuant to MC-F-8724, Transferee acquired control of Transferor.

No. MC-F-12424. Authority sought for purchase by MOORE TRANSPORTATION, INC., 10360 N. Vancouver Way, Portland, OR 97211, of the operating rights of GOLD COAST TRUCKING, INC., 319 W.W. Pine, Room 340, Portland, OR 97204, and for acquisition by HERB MOORE, also of Portland, OR 97211, of control of such rights through the purchase. Applicants' attorney: Philip G. Skofstad, 3076 E. Burnside St., Portland, OR 97214. Operating rights sought to be transferred: *Malt beverages*, as a *common carrier* over irregular routes, from Los Angeles and San Francisco, Calif., to points in Oregon; *wine*, from points in California north of San Luis Obispo, Kern and San Bernardino Counties, to points in Oregon. Vendee holds no authority from this Commission. However, it is affiliated with HERB MOORE AND HAZEL MOORE, doing business as H & H TRUCKING CO., 10366 N. Vancouver Way, Portland, OR 97217, which is authorized to operate as a *common carrier* in California, Oregon, and Washington. Application has been filed for temporary authority under section 210a(b).

*Applicants intend to exchange Certificates of Registration.

No. MC-F-12425. Authority sought for purchase by AL JOHNSON TRUCKING, INC., 1516 Marshall Ave., N.E., Minneapolis, MN 55413, of the operating rights and property of MALDWYN JAMES, doing business as JAMES TRANSFER, 1134 E. Hawthorne Ave., St. Paul, MN 55106, and for acquisition by ALVIN JOHNSON, also of Minneapolis, MN 55413, of control of such rights and property through the purchase. Applicants' attorney: Earl Hackling, 1700 Brighton Blvd., Minneapolis, MN 55413. Operating rights sought to be transferred: *Malt beverages*, as a *common carrier* over irregular routes, from Milwaukee, and Sheboygan, Wis., to Albert Lea, Austin, Owatonna, and Rochester, Minn.; from LaCrosse, Wis., to Albert Lea, Austin, North Mankato, Owatonna, and Rochester, Minn., from St. Paul and Minneapolis, Minn., to points in Nebraska and that part of Iowa on and west of U.S. Highway 65. Vendee is authorized to operate as a *common carrier* in Minnesota, Wisconsin, Nebraska, and Iowa. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-12426. Authority sought for purchase by SALTER'S EXPRESS COMPANY, INCORPORATED, West St., Simsbury, CT 06070, of the operating rights of R. C. GAY EXPRESS, INC., 115 York St., West Springfield, MA 01089, and for acquisition by ARTHUR M. SALTER, DOROTHY M. AMES, AND JAMES SALTER, all of Simsbury, CT 06070, of control of such rights through the purchase. Applicants' attorneys: Thomas W. Murrett, 342 N. Main St., West Hartford, CT 06117, and David M. Marshall, 135 State St., W. Springfield, MA 01103. Operating rights sought to be transferred: Under a certificate of registration, in Docket No. MC 121398 (Sub-No. 1), covering the transportation of general commodities, as a common carrier, in interstate commerce, within the State of Massachusetts. Vendee is authorized to operate as a common carrier in Massachusetts, Connecticut, New York, Rhode Island, New Hampshire, Vermont, and New Jersey. Application has been filed for temporary authority under section 210a(b).

NOTE—MC-38650 (Sub-No. 5), is a matter directly related.

No. MC-F-12427. Authority sought for merger by CLAIRMONT TRANSFER CO., 1803 7th Ave. North, Escanaba, MI 49829, of the operating rights and property of MILBURN, INC., 500 43rd St., Rock Island, IL 61201, and for acquisition by RUTH K. NORTON, also of Escanaba, MI 49829, of control of such rights and property through the transaction. Applicants' attorney: Adolph J. Bieberstein, 121 W. Doty St., Madison, WI 53703. Operating rights sought to be merged: *General commodities*, excepting among others, classes A and B explosives, household goods and commodities in bulk, as a *common carrier* over regular routes, between Davenport, Iowa, and Chicago, Ill., between Clinton, Iowa, and Fulton, Ill., serving all intermediate points; *general commodities*, excepting among others, classes A and B explosives, household goods and commodities in bulk, over irregular routes, between Bettendorf and Davenport, Iowa, Rock Island, Moline, Milan, East Moline, Carbon Cliff, and Silvis, Ill., over one alternate route for operating convenience only. CLAIRMONT TRANSFER CO. is authorized to operate as a *common carrier* in Illinois, Indiana, Iowa, Kentucky, Ohio, Michigan, and Wisconsin. Application has not been filed for temporary authority under section 210a(b).

NOTE.—Pursuant to order dated March 8, 1972, in MC-F-10634, transferee acquired control of transferor.

No. MC-F-12428. Authority sought for purchase by MONAHAN TRANSPORTATION CO., INC., 99 Colorado Ave., Warwick, RI 02888, of the operating rights of THE CONNECTICUT PAPER CORPORATION, P.O. Box 1182, Waterbury, CT 06720, and for acquisition by JOHN J. RIGNEY, and DAVID COLLINS, also of Warwick, RI 02888, of control of such rights through the purchase. Applicants' attorneys: Thomas W. Murrett, 342 N. Main St., W. Hartford, CT 06117 and Fred B. Rosnick, 49 Leavenworth St., Waterbury, CT 06720. Operating rights sought to be transferred: Under a certificate of registration, in Docket No. MC-96791 (Sub-No. 1), covering the transportation of property, as a common carrier, in interstate commerce, within the State of Connecticut. Vendee is authorized to operate as a *common carrier* in Connecticut, Massachusetts, and Rhode Island. Application has been filed for temporary authority under section 210a(b).

NOTE.—MC-60203 (Sub-No. 8), is a matter directly related.

No. MC-F-12429. Authority sought for purchase by CARRANO'S EXPRESS, INCORPORATED, Route 17, Middletown Avenue, Northford (North Branford), CT 06471, of a portion of the operating rights of F. L. CASTINE, INCORPORATED, 127 Sunderland Road, North Amherst, MA 01059, and for acquisition by ANELLO F. CARRANO, FRANK CARRANO, and ANNA CARRANO, also of Northford (North Branford), CT 06471, of control of such rights through the purchase. Applicants' attorneys: Thomas W. Murrett, 342 North Main Street, West Hartford, CT 06117 and David Marshall, 135 State Street, Suite 200, Springfield, MA 01103. Operating rights sought to be transferred: *General commodities*, with exceptions, as a *common carrier* over regular routes, between Sunderland, Mass., and Springfield, Mass., serving the intermediate point of Hadley, Mass., and the off-route points of Easthampton, Holyoke, West Springfield, Chicopee, Leverett, and Pelham, Mass. Vendee is authorized to operate a a *common carrier* in Connecticut, Massachusetts, Rhode Island, Maine, New Hampshire, Vermont, New York, New Jersey, Pennsylvania, Maryland, Delaware, Virginia, and District of Columbia. Application has not been filed for temporary authority under section 210a(b).

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

FEBRUARY 4, 1975.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that

XUM
V40130
FEB 12 75
XUM

there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 45736 (Sub-No. 48TA), filed January 29, 1975. Applicant: GUIGNARD FREIGHT LINES, INC., P.O. Box 26067, Charlotte, N.C. 28213. Applicant's representative: Edward G. Villalon, 1032 Pennsylvania Bldg., Pennsylvania Ave. & 13th St. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs and such other commodities as are dealt in by wholesale and retail chain and grocery houses, and equipment, materials, and supplies used in the conduct of such business* (except commodities in bulk), between the facilities of Savannah Foods and Industries, Inc., and its subsidiaries, including TransSales Corporation, in Chatham County, Ga. on the one hand, and, on the other, points in Alabama, Florida and Tennessee, for 180 days. Send protests to: Price, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 800 Briar Creek Road, Suite CC516, Charlotte, N.C. 28205.

No. MC 82841 (Sub-No. 152TA), filed January 27, 1975. Applicant: HUNT TRANSPORTATION, INC., 10770 "I" Street, Omaha, Nebr. 68127. Applicant's representative: Donald L. Stern, Suite 530 Univac Bldg., 7100 W. Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from the plantsite of Nucor Steel Division of Nucor Corporation, located at or near Norfolk, Nebr., to points in Kansas, Colorado, Minnesota, and South Dakota, for 180 days. Supporting shipper: Nucor Steel Division of Nucor Corporation, R. D. Bisping, Traffic Manager, P.O. Box 59, Norfolk, Nebr. 68701. Send protests to: Carroll Russel, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Suite 620 Union Pacific Plaza, 110 No. 14 St., Omaha, Nebr. 68102.

No. MC 99780 (Sub No. 50TA), filed January 27, 1975. Applicant: CHIPPER CARTAGE COMPANY, INC., 1327 N.E. Bond Street, Peoria, Ill. 61603. Applicant's representative: John R. Zang, P.O. Box 1345, Peoria, Ill. 61601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise*, as is dealt in by wholesale, retail, and chain grocery food business (except commodities in bulk), from the plantsites, storage and/or warehouse facilities of the Kroger Co., located in St. Louis and Hazelwood, Mo., to the stores and warehouse of the Kroger Co., located in Illinois, restricted to traffic originating and destined to the above named plants, for 180 days. Supporting shipper: The Kroger Co., 1014 Vine Street, Cincinnati, Ohio 45201. Send protests to: Richard K. Shullaw, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn St., Room 1086, Chicago, Ill. 60604.

No. MC 107496 (Sub-No. 987TA), filed January 24, 1975. Applicant: RUAN TRANSPORT CORPORATION, Third and Keosauqua Way, Des Moines, Iowa 50309. Applicant's representative: E. Check (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fuel oil*, in bulk, from Clearbrook, Minn. to Superior and Saxon, Wis., for 180 days. Supporting shipper(s): Lakehead Pipeline, Bemidji, Minn. 56601. Send protests to: Herbert W. Allen, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Washington, D.C. 20423.

No. MC 111170 (Sub-No. 218TA), filed January 28, 1975. Applicant: WHEELING PIPE LINE, INC., P.O. Box 1718, El Dorado, Ark. 71730. Applicant's representative: Tom E. Moore (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid pipe coating* (a coal tar derivative), in bulk, in tank vehicles, from the plant of Reilly Tar & Chemical Corporation at Lone Star, Tex., to the plant of Irish Pipe Coating Co., Inc. at Custer City, Okla., for 180 days. Supporting shipper: Irish Pipe Coating Co., Inc., 2504 Flournoy-Lucas Road, Shreveport, La. 71108. Send protests to: District Supervisor William H. Land, Jr., Interstate Commerce Commission, Bureau of Operations, 2519 Federal Office Building, 700 West Capitol, Little Rock, Ark. 72201.

No. MC 111729 (Sub-No. 508TA), filed January 28, 1975. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, N.Y. 11040. Applicant's representative: John M. Delany (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Exposed and processed film and prints, complimentary replacement film, incidental dealer handling supplies, and advertising material, moving therewith* (except motion picture film used primarily for commercial theater and television exhibition), between Chicago, Ill., on the one hand, and, on the other, Algoma and Sturgeon Bay, Wis., for 180 days. Supporting shipper: Harmann Studios, 222 Steele Street, Algoma, Wis. 54201. Send protests to: Anthony D. Giaimo, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 26 Federal Plaza, New York, N.Y. 10007.

No. MC 112520 TA, filed January 27, 1975. Applicant: McKENZIE TANK LINES, INC., P.O. Box 1200, Tallahassee, Fla. 32302. Applicant's representative: Sol H. Proctor, 1107 Blackstone Building, Jacksonville, Fla. 32202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquefied petroleum gas*, in bulk, in tank vehicles from Opelika, Ala., to points in North Carolina, for 180 days. Supporting shipper(s): Reliance Gas Corporation, P.O. Box 42, Columbus, Ga. 31902. Send protests to: G. H. Fauss, Jr., District Supervisor, Box 35008, 400 West Bay Street, Jacksonville, Fla. 32202.

No. MC 113908 (Sub-No. 333TA), filed January 28, 1975. Applicant: ERICKSON TRANSPORT CORPORATION, 2105 East Dale Street, P.O. Box 3180, Springfield, Mo. 65804. Applicant's representative: B. B. Whitehead (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Rum, distilled spirits, wine and wine products*, from Roberta, Ga., to Owensboro, Ky., for 180 days. Supporting shipper(s): Monarch Wine Company of Georgia, P.O. Box 6847, Atlanta, Ga. 30315. Send protests to: John V. Barry, District Supervisor, Interstate Commerce Commission, - BOp, 600 Federal Office Building, 911 Walnut Street, Kansas City, Mo. 64106.

No. MC 124813 (Sub-No. 124TA), filed January 27, 1975. Applicant: UMTHUN TRUCKING CO., 910 South Jackson Street, Eagle Grove, Iowa 50533. Applicant's representative: William L. Fairbank, 1980 Financial Center, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry feed*, in bulk, and in bags in mixed shipments with bulk feed, from the plantsite of Cargill, Incorporated, at Minneapolis, Minn., to points in Wisconsin in and north of Manitowoc, Calumet, Outagamie, Waupaca, Portage, Wood, Jackson, Trempealeau, and Buffalo Counties, for 180 days. Supporting shipper(s): Cargill, Inc., Nutrena Feed Division, 830-15th Avenue SE., Minneapolis, Minn. 55414. Send protests to: Herbert W. Allen, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 875 Federal Building, Des Moines, Iowa 50309.

No. MC 128944 (Sub-No. 15TA) (Amendment), filed January 14, 1975, published in the FEDERAL REGISTER issue of January 23, 1975, and republished as amended this issue. Applicant: RELIABLE TRUCK LINES, INC., 716 South 37th Street, Birmingham, Ala. 35222. Applicant's representative: James Clarence Evans, 1800 Third National Bank Bldg., Nashville, Tenn. 37219. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, household goods as defined by the Commission, commodities in bulk, dangerous explosives, and commodities requiring special equipment), between Birmingham, Ala., and Chattanooga, Tenn., over Interstate Highway 59 (and also over U.S. Highway 11), serving the intermediate points of Gadsden and Attalla, Ala., including the commercial zones of each of these four named points, for 180 days. Supporting shippers: There are approximately 30 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below.

NOTE.—Applicant presently holds permanent authority in its Docket No. MC 128944, Sub 8, between Birmingham, Alabama, and Memphis, Tennessee, over specified routes; it also holds authority (temporary) in Docket No. MC-F-11133 to operate between Florence and Sheffield, Alabama, on the one hand, and, on the other, Birmingham and points within 15 miles of Birmingham; it holds authority in Docket No. MC 128944, Sub 1, between Sheffield, Alabama, and Nashville, Tennessee; it has pending an application in its Docket No. MC 128944, Sub 12, now pending on Exceptions after a favorable Initial Decision, which includes authority between Birmingham, Alabama, on the one hand, and, on the other, points in Clay, Choctaw, Chickasaw, Itawamba, Lowndes, Monroe, Oktibbeha, Pontotoc, Union, and Webster Counties, Mississippi, and also Tupelo, Mississippi, and certain other points in Lee County, Mississippi; applicant intends to tack any authority here granted at Birmingham with any and all of these existing authorities, and the additional authority involving Mississippi, if and when granted.

Applicant also has pending in its Docket No. MC 128944, Sub 10, an application which would include authority between Chattanooga, Tennessee, on the one hand, and, on the other, Fayetteville, Tennessee, and also Memphis, Tennessee, and various points across North Alabama such as Huntsville, Sheffield, and Florence, between which and Birmingham it is already authorized to serve; this application is also pending on Exceptions after a favorable Initial Decision. Applicant would tack any temporary authority here granted at Chattanooga with that authority, if and when finally granted.

Applicant intends to interchange with other carriers at Chattanooga, Birmingham, and possibly at Gadsden, although it is not aware of any specific traffic which would be interchanged with any specific carrier at Gadsden, as of the present time. The purpose of this republication is to add the tacking statement which was previously omitted. Send protests to: Clifford W. White, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 1616, 2121 Bldg., Birmingham, Ala. 35203.

No. MC 133646 (Sub-No. 16TA), filed January 22, 1975. Applicant: YELLOWSTONE MOLASSES SERVICE, INC., P.O. Box 404, Billings, Mont. 59103. Applicant's representative: Richard P. Anderson, 502 First National Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sugar beet pellets*, in bulk, for 180 days. Supporting shipper(s): Minn-Dak Farmers Cooperative, Wahpeton, N. Dak. 58075. The Red River Valley Cooperative, Inc., Box 43, Hillsboro, N. Dak. 58045. Send protests to: District Supervisor, Paul J. Labane, Room 222, U.S. Post Office Building, Billings, Mont. 59101.

No. MC 134336 (Sub-No. 6TA), filed January 24, 1975. Applicant: TOM BOWEN, INC., 1717 Lalelle St., Box 689, Sturgis, S. Dak. 57785. Applicant's representative: J. Maurice Andren 1734 Sheridan Lake Road, Rapid City, S. Dak. 57701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and lumber products*, from Spearfish, South Dakota, to points in Nebraska, for 180 days. Supporting shipper(s): Homestake Forest Products Co., Box 472, Spearfish, S. Dak. 57783, Steward W. Reed, Sales Manager. Send protests to: District Supervisor, J. L. Hammond, Bureau of Operations, Interstate Commerce Commission, Room 369, Federal Building. Pierre, S. Dak. 57501.

No. MC 134922 (Sub-No. 111TA), filed January 28, 1975. Applicant: B. J. McADAMS, INC., Route 6, Box 15, North Little Rock, Ark. 72118. Applicant's representative: Don Garrison (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Rubber and rubber products*, from Guntersville, Ala., to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming; and (2) *Compounds, materials, and supplies* used in the manufacture of the commodities in (1) above, from points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming, to Guntersville, Ala., for 180 days. Supporting shipper: O.K. Tire & Rubber Company, Inc., East Lake Road, Guntersville, Ala. 35976. Send protests to: District Supervisor William H. Land, Jr., Interstate Commerce Commission, Bureau of Operations, 2519 Federal Office Building, 700 West Capitol, Little Rock, Ark. 72201.

No. MC 138438 (Sub-No. 12TA), filed January 27, 1975. Applicant: D. M. BOWMAN, INC., Route 9, Box 26, 15 East Oak Ridge Drive, Hagerstown, Md. 21740. Applicant's representative: Charles E. Creager, 1329 Pennsylvania Ave., P.O. Box 1417, Hagerstown, Md. 21740. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinyl siding and accessories* for the installation thereof from the plantsite and storage facilities of Certain-Teed Products Corp. from Williamsport, Md., to Connecticut, Delaware, Indiana, Kentucky, Maine, Massachusetts, New York, New Jersey, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Virginia, West Virginia, and the District of Columbia, for 180 days. Supporting shipper(s): Certain-Teed Products Corp., P.O. Box 860, Valley Forge, Pa. 19482. Send protests to: Interstate Commerce Commission, W. C. Hersman, District Supervisor, Room 317, 12th and Constitution Ave. NW., Washington, D.C. 20423.

No. MC 140549 (Sub-No. 1TA), filed January 24, 1975. Applicant: FRITZ TRUCKING, INC., Box 566, Clara City, Minn. 56222. Applicant's representative: Samuel Rubenstein, 301 N. Fifth St., Minneapolis, Minn. 55403. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Animal and poultry feeds and feed ingredients*, except in tank vehicles, From Gluek, Montevideo and Minneapolis, Minn., and its Commercial Zone to points in Iowa, North Dakota, South Dakota, and those points on and east of U.S. Highway 81 in Nebraska. From Sioux City, Iowa to Montevideo, Minn., (2) *Fertilizer and fertilizer materials*, From Minneapolis, Minn., and its Commercial Zone, Savage, Roseport, Gluek and Winona, Minn., to points in Iowa, North Dakota and South Dakota, Between Clara City, Minn., and points in Iowa, for 180 days. Supporting shipper(s): Cargill, Ind., Gluek, Minn., Murphy Products, Co., Montevideo, Minn., Clara City Co-op Fertilizer Assn., Clara City, Minn. Send protests to: A. N. Spath, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 414 Federal Building & U.S. Court House, 110 S. 4th St., Minneapolis, Minn. 55401.

No. MC 140578 (Sub-No. 1TA), filed January 27, 1975. Applicant: ROBERT E. L. SMITH AND SHIRLEY A. SMITH, doing business as SMITH TRUCKING COMPANY, 918 Ednor Road, Silver Spring, Md. 20904. Applicant's representative: Charles E. Creager, Esq., 1329 Pennsylvania Avenue, P.O. Box 1417, Hagerstown, Md. 21740. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Decomposed hardwood fine* (in bulk, in dump vehicles), from points in Fauquier, Surry, Hanover, and Hopewell Counties, Va., to Chester County, Penn., for 180 days. [Notice No. 15]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

FEBRUARY 6, 1975.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the Federal Register publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 51312 (Sub-No. 13 TA), filed January 31, 1975. Applicant: BOWLING GREEN TRANSFER, INC., 530 South Maple Street, Bowling Green, Ohio 43402. Applicant's representative: Michael Spurlock, Paul F. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Sawdust and woodchips*, between points in Idaho north of the Salmon River, for 180 days. Supporting shipper: Potlatch Corporation, P.O. Box 1016, Lewiston, Idaho 83501. Send protests to: L. D. Boone, Transportation Specialist, Bureau of Operations, Interstate Commerce Commission, 858 Federal Bldg., Seattle, Wash. 98174.

No. MC 140383 (Sub-No. 1TA), filed January 30, 1975. Applicant: FRED LEA, doing business as VICTORY MOVERS & STORAGE CO., 1046 S. Route 83, Villa Park, Ill. 60181. Applicant's representative: Michael F. Sheehan, Jr., One East Wacker Drive, Room 2530, Chicago, Ill. 60601. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *New appliances, crated and uncrated*, between points in Illinois and Indiana, for 180 days. Supporting shippers: Robert A. Sutter, Manager, The Tappan Company, 700 Rte., 53, Itasca, Ill. 60143. A. Wrobel, Shop Foreman, Amana Refrigeration of Chicago, Inc., 11441 Melrose Street, Franklin Park, Ill. Send protests to: William J. Gray, Jr., District Supervisor, Bureau of Operations, Interstate Commerce Commission, Everett McKinley Dirksen Bldg., 219 S. Dearborn St., Room 1086, Chicago, Ill. 60604.

No. MC 140544 (Sub-No. 1TA) (Correction), filed January 13, 1975, published in the FEDERAL REGISTER issue of January 23, 1975, and republished as corrected this issue. Applicant: ARLO R. MILLER AND WILLARD D. NEBEKER, doing business as M & N TRUCKING, P.O. Box 267, Afton, Wyo. 83110. Applicant's representative: Robert S. Stauffer, 3539 Boston Road, Cheyenne, Wyo. 82001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metallic and non-metallic ores*, including but not restricted to phosphate and vanadium ore, in bulk, in dump vehicles, between points in Lincoln and Sublette Counties, Wyo.; and between points in Lincoln and Sublette Counties, Wyo., on the one hand, and on the other, points in Caribou and Bear Lake Counties, Idaho, for 180 days. Supporting shipper: Chemical Distributors, P.O. Box 68, Montpelier, Idaho 83254. Send protests to: P. A. Naughton, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 1006, Federal Bldg. & Post Office, 100 East "B" Street, Casper, Wyo. 82601. The purpose of this republication is to add the territorial description which was omitted in the previous publication.

By the Commission.

[Finance Docket No. 26745]

BALTIMORE AND OHIO RAILROAD CO.

Order on Abandonment Between Coal Shaft and Beardstown in Sangamon and Cass Counties, Ill.

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available to the public upon request; and

It appearing that no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. §§ 4321, et. seq.; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Sangamon and Cass Counties, Ill., on or before February 26, 1975 and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the Federal Register.

Dated at Washington, D.C., this 31st day of January, 1975.

By the Commission, Commissioner Tuggle.

[Disaster Order No. 13]

SOUTHERN PACIFIC TRANSPORTATION CO.

Disaster Relief

FEBRUARY 7, 1975.

In the Matter of Relief under section 22 of the Interstate Commerce Act.

Upon consideration of an application filed by the Southern Pacific Transportation Company requesting the entry of an order under section 22 of the Interstate Commerce Act authorizing railroads subject to the Commission's jurisdiction participating in the transportation of property to and from stations on the Coos Bay Branch Line of the Southern Pacific Transportation Company south of Reedsport, Oregon (in which area disruption of rail transportation facilities has resulted due to a temporary break in the rail line caused by fire in Tunnel #19, located at Mile Post 745 between Reedsport and Lakeside, Oregon) to establish and maintain reduced rates to and from such stations with the object of providing relief to shippers and receivers of carload freight:

It is ordered, That carriers by railroad participating in the transportation of property, in carloads, to and from the disaster area in Oregon which is all of the rail line of the Southern Pacific Transportation Company south of Reedsport, to Myrtle Point, Oregon, be, and they are hereby, authorized under Section 22 of the Interstate Commerce Act to establish and maintain until March 10, 1975, reduced rates in the manner proposed in said application, the reduced rates to be published and filed in the manner prescribed in Section 6 of the

XUM
V40I30 FEB 12 75 XUM

Interstate Commerce Act except they may be made effective upon one day's notice after publication and filing instead of thirty.

It is further ordered, That the class of persons entitled to such reduced rates is hereby defined as persons receiving or shipping carload freight at stations south of Reedsport, Oregon on the line of the railroad named in the preceding ordering paragraph, who, because of the disruption of rail sevice caused by the fire, are required to and do assume the cost of transporting the freight by highway to or from stations on the rail line of the Southern Pacific Transportation Company south of Reedsport, to Myrtle Point, Oregon, and who ship or receive such traffic by rail at the latter points.

It is further ordered, That during the period in which any reduced rates authorized by this order are effective the carriers may, notwithstanding the provisions of Section 4 of the Interstate Commerce Act, maintain higher rates to directly intermediate points and maintain through rates in excess of the aggregate of intermediate rates over the same routes if one or more of the factors of such aggregate of intermediate rates is a reduced rate established under the authority of this order.

It is further ordered, That any tariffs or tariff provisions published under the authority of this order shall explicitly so state, making reference to this order by number and date.

And it is further ordered, That notice to the affected railroad and the general public shall be given by depositing a copy of this order in the Office of the Secretary of the Commission and by filing a copy with the Director, Office of the Federal Register; and that copies be mailed to the Chairman of the Traffic Executive Association-Eastern Railroads, New York, N.Y., the Chairman of the Southern Freight Association, Atlanta, Georgia, the Chairman of the Executive Committee, Western Railroad Traffic Association, Chicago, Illinois, and the Vice-President, Economics and Finance Department of the Association of American Railroads, Washington, D.C.

Dated at Washington, D.C., this 7th day of February, A.D., 1975.

By the Commission, Acting Chairman.

[Notice No. 694]

ASSIGNMENT OF HEARINGS

FEBRUARY 7, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after February 12, 1975.

MC 140008 Sub 1, Wellington Transportation Corporation, now being assigned March 17, 1975 (2 days) in Room 609, Federal Office Building, 911 Walnut St., Kansas City, Mo.

MC-F 12218, Grouch Bros., Inc., Control-Caddo Express, Inc., now being assigned March 24, 1975 (1 wk) in Room 609, Federal Office Building, 911 Walnut St., Kansas City, Mo.

MC 134308 Sub 8, Caddo Express, Inc., now being assigned March 24, 1974 (1 wk) in Room 609, Federal Office Building, 911 Walnut St., Kansas City, Mo.

MC 44735 Sub 13, Kissick Truck Lines, Inc., now being assigned March 19, 1975 (2 days) in Room 609, Federal Office Building, 911 Walnut St., Kansas City, Mo.

MC 139979, American Colloid Carrier Corp., now being assigned March 31, 1975 (1 day) in Room 609, Federal Office Building, 911 Walnut St., Kansas City, Mo.

MC 108121 Sub 14, Transport Storage & Distributing Co., application dismissed.

MC 124796 Sub 117, Continental Contract Carrier Corp., now assigned March 12, 1975, at Kansas City, Mo., is postponed indefinitely.

MC 29886 Sub 314, Dallas and Mavis Forwarding Co., Inc.,

MC 105045 Sub 51, R. L. Jeffries Trucking Co., Inc.,

MC 111545 Sub 201, Home Transportation Company, Inc.,

MC 112304 Sub 84, Ace Doran Hauling & Rigging Co., and

MC 124974 Sub 27, Machinery Transports, Inc., now assigned March 10, 1975 at Chicago, Ill., will be held in Room 1086A, Everett McKinley Dirksen Building, 219 S. Dearborn St.

AB 71, Baltimore and Annapolis Railroad Company Abandonment of Operations between Clifford Junction, Baltimore City and Annapolis, in Baltimore and Anne Arundel Counties, Maryland, now being assigned March 12, 1975 (3 days), at Baltimore, Maryland, in a hearing room to be designated later.

FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

FEBRUARY 7, 1975.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

Oklahoma Docket No. MC 23466 Sub-No. 5, filed January 16, 1975. Applicant: CENTRAL OKLAHOMA FREIGHT LINES, INC., 2945 North Toledo, Tulsa, Okla. 74115. Applicant's representative: Rufus H. Lawson, 2400 Northwest 23rd Street, Oklahoma City, Okla. 73107. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of General commodities, between Tulsa, Okla. and Covington, Okla.: From Tulsa, Okla. to Perry, Okla. over U.S. Highway 64, thence over Oklahoma Highway 164 to Covington, Okla., and return over the same route, serving no intermediate points. Applicant intends to tack with existing authority. Intrastate, interstate and foreign commerce authority sought.

HEARING: Assigned for hearing on the 3rd day of March 1975, at 9 o'clock a.m. before the Referee, in the Commission's Court Room, 3rd floor, Jim Thorpe Office Building, Oklahoma City, Okla. Requests for procedural information should be addressed to the Oklahoma Public Utilities Commission, Jim Thorpe Office Building, Oklahoma City, Okla. 73105 and should not be directed to the Interstate Commerce Commission.

By the Commission.

[Notice No. 5]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

FEBRUARY 7, 1975.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 CFR 1042.4(c)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(c)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

No. MC 76032 (Deviation No. 27), NAVAJO FREIGHT LINES, INC., 1205 South Platte River Drive, Denver, Colo. 80223, filed January 31, 1975. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over a deviation route as follows: From Pueblo, Colo., over U.S. Highway 50 to junction U.S. Alternate Highway 95 near Fallon, Nev., thence over U.S. Alternate Highway 95 to junction Interstate Highway 80 near Fernley, Nev., thence over Interstate Highway 80 to Sacramento, Calif., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Pueblo, Colo., over U.S. Highway 85 to Albuquerque, N. Mex., thence over U.S. Highway 66 to Barstow, Calif., thence over California Highway 58 to Bakersfield, Calif., thence over California Highway 99 to Sacramento, Calif., and return over the same route.

No. MC 59680 (Deviation No. 92), STRICKLAND TRANSPORTATION CO., INC., P.O. Box 5689, Dallas, Tex. 75222, filed January 23, 1975. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over deviation routes as follows: (1) From Cleveland, Ohio over Interstate Highway 77 to junction Interstate Highway 76 at Akron, Ohio, thence over Interstate Highway 76 to junction Interstate Highway 80, thence over Interstate Highway 80 to junction Pennsylvania Highway 26, thence over Pennsylvania Highway 26 to junction Pennsylvania Highway 144, thence over Pennsylvania Highway 144 to junction U.S. Highway 322, thence over U.S. Highway 322 to junction U.S. Highway 11 near Amity Hall, Pa., thence over U.S. Highway 11 to New Kingstown, Pa., and (2) From Cleveland, Ohio over Interstate Highway 77 to junction Interstate Highway 76 at Akron, Ohio, thence over Interstate Highway 76 to junction Interstate Highway 80, thence over Interstate Highway 80 to junction Pennsylvania Highway 26, thence over Pennsylvania Highway 26 to junction Pennsylvania Highway 144, thence over Pennsylvania Highway 144 to junction U.S. Highway 322, thence over U.S. Highway 322 to junction U.S. Highway 11 near Amity Hall, Pa., thence over U.S. Highway 11 to New Kingstown, Pa., and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Cleveland, Ohio over U.S. Highway 21 to the Ohio Turnpike, thence over the Ohio Turnpike to the Pennsylvania Turnpike, thence over the Pennsylvania Turnpike to Harrisburg, Pa., and return over the same route.

No. MC 95540 (Deviation No. 3), WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301, filed January 22, 1975. Carrier proposes to operate as a common carrier, by motor vehicle, of general commodities, with certain exceptions, over deviation routes as follows: (1) From junction U.S. Highway 280 and Georgia Highway 55, at Richland, Ga., over Georgia Highway 55 to junction U.S. Highway 82, (2) From Wildwood, Fla., over U.S. Highway 301 to junction Florida Highway 471 at Sumterville, Fla., thence over Florida Highway 471 to junction U.S. Highway 98, thence over U.S. Highway 98 to junction Interstate Highway 4, (3) From junction U.S. Highways 19 and 98 near Chassahowitzka, Fla., over U.S. Highway 98 to junction U.S. Highway 41 at Brooksville, Fla., (4) From Brooksville, Fla., over U.S. Highway 98 to junction Interstate Highway 75, (5) From Brooksville, Fla., over U.S. Highway 98 to junction Interstate Highway 4, (6) From El Centro, Calif., over California Highway 86 to junction California Highway 111, thence over California Highway 111 to junction Interstate Highway 10 at Indio, Calif., and (7) From junction U.S. Highway 395 and California Highway 14 over California Highway 14 to junction Interstate Highway 5, and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Richland, Ga., over U.S. Highway 280 to Americus, Ga., thence over U.S. Highway 19 to junction U.S. Highway 82, thence over U.S. Highway 82 to junction Georgia Highway 55, (2) From Wildwood, Fla., over Sunshine State Parkway to junction Interstate Highway 75.

Thence over Interstate Highway 75 to junction Interstate Highway 4, thence over Interstate Highway 4 to junction U.S. Highway 98, (3) From junction U.S. Highways 19 and 98 near Chassahowitzka, Fla., over U.S. Highway 19 to junction U.S. Highway 27 near Chiefland, Fla., thence over U.S. Highway 27 to junction U.S. Highway 41 near Williston, Fla., thence over U.S. Highway 41 to junction U.S. Highway 98 at Brooksville, Fla., (4) From Brooksville, Fla., over U.S. Highway 41 to junction Interstate Highway 75, thence over Interstate Highway 75 to junction U.S. Highway 98, (5) From Brooksville, Fla., over U.S. Highway 41 to junction Interstate Highway 4, thence over Interstate Highway 4 to junction U.S. Highway 98, (6) From El Centro, Calif., over U.S. Highway 80 to junction U.S. Highway 395, thence over U.S. Highway 395 to junction Interstate Highway 10, thence over Interstate Highway 10 to junction California Highway 111, and (7) From junction U.S. Highway 395 and California Highway 14 over U.S. Highway 395 to junction Interstate Highway 10, thence over Interstate Highway 10 to junction Interstate Highway 5, thence over Interstate Highway 5 to junction California Highway 14, and return over the same routes.

By the Commission.

FOURTH SECTION APPLICATIONS FOR RELIEF

FEBRUARY 7, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with rule 40 of the general rules of practice (49 CFR 100.40) and filed on or before February 27, 1975.

FSA No. 42940—*Lumber and Related Articles Between Points in Southern Territory.* Filed by Southwestern Freight Bureau, Agent, (No. B-513), for interested rail carriers. Rates on lumber and related articles, in carloads, as described in the application, between points in southern territory; also between Helena, Arkansas, on the one hand, and points in southern territory, on the other; also from West Memphis, Arkansas, to points in southern territory.

Grounds for relief—Rate relationship and short-line distance formula and grouping.

Tariffs—Supplement 81 to Southwestern Freight Bureau, Agent, tariff SW/S-2007-H, I.C.C. No. 5042, and Supplement 65 to Southern Freight Association, Agent, tariff S-2011-N, I.C.C. No. S-1112. Rates are published to become effective on March 10, 1975.

FSA No. 42941—*Joint Water-Rail Container Rates—Nippon Yusen Kaisha.* Filed by Nippon Yusen Kaisha, (No. 8), for itself and interested rail carriers. Rates on general commodities, between ports in Japan, Korea, Hong Kong, and Taiwan, and rail stations on the U.S. Atlantic and Gulf Seaboard.

Grounds for relief—Water Competition.

By the Commission.

HEALTH MAINTENANCE ORGANIZATIONS

Proposed Employees' Health Benefit Plans

XUM

V40-30 FEB 12 75 XUM

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

[42 CFR Part 110]

HEALTH MAINTENANCE ORGANIZATIONS—EMPLOYEES' HEALTH BENEFIT PLANS

Notice of Proposed Rulemaking

Section 1310 of the Public Health Service Act, enacted by section 2 of the Health Maintenance Organization Act of 1973 (Public Law 93–222), requires that employers subject to section 1310 shall "in accordance with regulations which the Secretary shall prescribe," include in any health benefits plan offered to their employees the option of membership in qualified health maintenance organizations (HMOs). Notice is hereby given that the Assistant Secretary for Health, with the approval of the Secretary, proposes to amend Part 110 of Title 42, Code of Federal Regulations, by adding thereto a new Subpart H, Employees' Health Benefits Plans. Following is a discussion of certain provisions of the proposed regulation.

The definition of the term "designee" in proposed § 110.801(d) authorizes recognition of the offer of the HMO option by trust funds, employers' associations, or similar organizations as meeting the employer's obligation under section 1310.

Neither the statute nor this regulation requires an employer to seek out or develop an HMO option for its employees. Proposed § 110.802(a) provides that an employer subject to section 1310 is not required to offer an HMO to its employees until a qualified health maintenance organization approaches him with a proposal for such an offering.

Attention is called to 42 CFR 110.602 (b) (2) (contained in the Notice of Proposed Rulemaking published at 39 FR 43044 establishing a new Subpart F) which would provide for a "phase-in" period for certain entities whose existing contracts for prepaid health services do not provide for services to members as prescribed by the law and regulations. It is important to note that such entities will be qualified only with respect to new group and individual contracts under which services will be provided in the manner prescribed and with respect to which the entity is organized and operated in the manner prescribed. With respect to existing contracts covered by a time-phased plan, the entity will not be a qualified health maintenance organization until the time-phased plan is completed and the services provided and the organization and operation of the entity comply fully with the requirements of section 1301 of the Act and Subpart A of this part. Accordingly, employers whose contracts are included in a time-phased plan under the proposed § 110.602(b) (2) (iii) will be subject to the requirements of proposed § 110.802(a) when approached by a qualified health maintenance organization pursuant to proposed § 110.802(a) (4).

Proposed § 110.802(b) describes the material an HMO must present to such an employer to make the provision effective for that employer. Proposed § 110.802(b) also requires that the HMO approach the employer at least 90 days prior to the expiration of an "existing contract" (see proposed § 110.801(i) for a definition of this term). While the Department views this 90 day period as an adequate interval for response by an employer to a proposal by a qualified health maintenance organization that it be included in that employer's health benefits plan, it is recognized that current industrial practice may dictate a different result. Accordingly, comments are invited on this question in particular; if a different interval is proposed, supporting grounds should be provided.

Proposed § 110.802(f) (1) provides that an employer subject to section 1310 need not include in its health benefits plan the option of membership in the qualified HMO which seeks such inclusion, provided that the qualified HMO (or HMOs) which the employer does include in his health benefits plan serves, at a minimum, the same areas served by the HMO that first initiated contact with that employer. If the employees are represented by an exclusive bargaining agent, such selection among competing HMOs may be made through the collective bargaining process.

Proposed § 110.803(b) describes the method for selection among copayment levels and supplemental benefits offered by a health maintenance organization. If employees of an employer are represented by a collective bargaining agent or other representative recognized under the laws of the United States or any State, such bargaining agent may make such selections on behalf of such employees.

For employees who are not represented in the manner described above, proposed § 110.803(b) (2) provides that the decision-making process employed in selecting the services and payment schedules for the existing health benefits plan applies to the selection among supplemental health services and copayment levels to be part of the HMO plan. This decision is necessary if the group is to be treated on a group rate; otherwise, employees would be required to obtain individual contracts, and there would be increased administrative costs associated with individual selections and individual premium collections.

Proposed § 110.802(c) requires that each employer subject to section 1310 include the option of membership in qualified health maintenance organizations in any health benefits plan offered to its eligible employees (defined in § 110.801(c)). This provision, as well as the provisions for selection by eligible employees of alternatives from among the options available in the health benefits plan offered to them, is intended to make clear that it is the obligation of the employer to include the HMO option in the health benefits plan actually made available to eligible employees so that they can exercise their options on an individual basis.

Special consideration, however, must be given to the situation where a collective bargaining representative has been designated for the employees of a unit in accordance with section 9(a) of the National Labor Relations Act (NLRA). Section 1310, it should be noted, does not specifically provide a role for such representative in connection with the offer of the HMO option.

A literal reading of section 1310 would indicate that the offer of the HMO option may be included in a health benefit plan by unilateral action of the employer outside the collective bargaining process. It is, of course, recognized that under the NLRA, health benefits, such as those offered by an HMO, are a condition of employment and a subject of mandatory collective bargaining between the employer and the exclusive collective bargaining representative of the employees. The literal construction of section 1310 described above would, therefore, clearly be inconsistent with the role of a labor organization under section 9 of the NLRA as the exclusive bargaining representative for the employees of a unit.

It is the view of the Department, however, that the purposes of the NLRA and the after-enacted section 1310 are best served by attempting to assure the maximum accommodation between these statutes, taking into consideration the policies that inspired the provisions here at issue. Boys Markets, Inc. v. Retail Clerks Union, Local 770, 90 S. Ct. 1583 (1970). Accordingly, the proposed regulations contemplate that as part of the collective bargaining process, the employer would offer to the collective bargaining representative of the employees a health benefits plan which included an HMO option meeting the requirements of section 1310. The representative, on behalf of the unit employees within the service area of the HMO, could select among the supplemental health services to be included and the copayment levels to be offered (§110.803(b) (1)). Similarly, the selection among competing HMOs falling within the same organizational category under section 1310(b), may be made by the collective bargaining representative (§ 110.802(f) (2)). The union could then leave to the unit employees the option of selecting or rejecting the HMO option or the union could select the HMO option on behalf of all the unit employees within the HMO service area so that all such employees would be covered by the HMO.

The union is, of course, also free to decline the plan with the HMO option offered by the employer. Section 1310, in this situation, supports the view that the employer is legally required to insist on it, so that if the parties reach a good faith impasse on the issue, the employer can then, under NLRA principles, institute his offered plan with the HMO option on the same terms and conditions as offered to the union. See Taft Broadcasting Co., WDAW AM–FMTV, 163 NLRB 475; Bi-Rite Foods, Inc., 147 NLRB 59, 63–65; N.L.R.B. v. Crompton-Highland Mills, Inc., 337 U.S. 217 (1949).

In the view of the Department, this approach is consistent with the requirement of the NLRA and achieves the purpose of section 1310 by requiring that the option of membership in a qualified HMO included in a health benefits plan be exercised by the individual employees of an employer. The Department does not believe that a different accommodation of the two statutes—namely, that an employer does not have an obligation to offer the HMO plan if the union rejects it—meets the basic purposes of section 1310. The Department requests comments on these legal and policy issues.

Proposed § 110.804 describes the provisions relating to the group open enrollment period. Attention is called to the provision that requires an affirmative written selection among the different options in the health benefits plan when the option of membership in a qualified HMO is first introduced to a group of employees. In subsequent open enrollment periods, an affirmative written selection is not required should additional HMOs be included in the health benefits plan, nor is affirmative written action required should employees elect to continue their participation in a given option. This latter provision is patterned after the Civil Service Commission's approach to handling Federal employees' health benefits.

Proposed § 110.804 requires that during such group open enrollment periods, eligible employees may enroll in any of the alternatives included in a health benefits plan without the imposition of waiting periods or exclusions or limitations based on health status as conditions of enrollment or transfer. This protection of the right to transfer from one alternative to another during the open enrollment period is necessary to assure the free exercise of the options available under the health benefits plan. The opportunity to select among different alternatives included in a health benefits plan also must be made available to new employees, employees who transfer from one geographic area to another, and employees who are enrollees of an HMO which ceases operation.

Proposed § 110.805 requires that the health maintenance organization alternative be included in the health benefits plan on terms no less favorable, insofar as the employer's monetary contribution is concerned, than those on which the other alternatives are included, and specifies the criteria and methods for determining the employer's monetary contribution to such other alternatives where the amount of the employer's contribution to the HMO is not fixed by a collective bargaining agreement.

If the offer of the health maintenance organization membership option requires that employees selecting such option contribute to the membership payment, proposed § 110.805 would require that the employer offer such employees the opportunity to participate in a payroll deduction program for payment of such charges to the HMO. Employees who choose not to participate in such a program may be charged individual (non-group) subscriber rates.

Interested persons are invited to submit written comments, suggestions, or objections, with respect to the proposed new subpart H, to the Administrator, Health Services Administration, Parklawn Building, Room 14–05, 5600 Fishers Lane, Rockville, Maryland 20852. Comments received on or before March 31, 1975, will be considered in the preparation of the final regulation, and will be available for public inspection at the above address between the hours of 8:30 a.m. and 5 p.m. Monday through Friday.

It is anticipated that this proposed subpart will be made effective upon republication in the FEDERAL REGISTER.

Dated: December 17, 1974.

CHARLES C. EDWARDS,
Assistant Secretary for Health.

Approved: February 4, 1975.

CASPAR W. WEINBERGER,
Secretary.

Subpart H—Employees' Health Benefit Plans

Sec.
110.801 Definitions.
110.802 Applicability.
110.803 Employees to whom the health maintenance organization alternative must be offered.
110.804 Offer of group enrollment period.
110.805 Employer contributions for health maintenance organization alternative.
110.806 Employee contributions for health maintenance organization alternative.
110.807 Relationship of section 1310(a) of the Health Maintenance Organization Act of 1973 to the National Labor Relations Act, as amended.

AUTHORITY: Sec. 215, 58 Stat. 690, (42 U.S.C. 216); secs. 1301–1315, 87 Stat. 914–933 (42 U.S.C. 300e–300e–14).

Subpart H—Employees' Health Benefits Plans

§ 110.801 Definitions.

In addition to the terms defined in § 110.101, as used in this subpart:

(a) "Employer" shall have the same meaning as that given such term in section 3(d) of the Fair Labor Standards Act of 1938, as amended, (29 U.S.C. 203).

(b) "Employee" means any individual employed by an employer, whether on a full- or part-time basis.

(c) "Eligible employee" means an employee who meets the terms and conditions established by an employer, or its designee, to participate in an existing health benefits plan.

(d) "Designee" means any person or entity acting on behalf of the employer to offer the option of membership in a qualified health maintenance organization to the employer's eligible employees, such as a trust fund, employers' association, or other person or entity authorized to act for the employer.

(e) "Health benefits plan" means any plan for the provision of, or payment for, any of the basic or supplemental health services described in § 110.101 (b) and (c) of this part offered to eligible employees or to such employees and their eligible dependents by or on behalf of an employer.

(f) "Qualified health maintenance organization" means an entity which has been found by the Secretary to meet the requirements of Title XIII of the Act and the applicable regulations of this part.

(g) "To offer a health benefits plan" means to make participation in a health benefits plan available to eligible employees, or to such employees and their eligible dependents, whether a financial contribution by the employer on behalf of such employees is made directly or indirectly (e.g., through payments on any basis into a health and welfare trust fund).

(h) "Group enrollment period" means the period(s) during which each eligible employee will be given the opportunity to select among the alternatives included in a health benefits plan.

(i) "Existing contract" means (1) a collective bargaining agreement, (2) a legally enforceable contract for the provision of health benefits between an employer and its employees, or (3) any legally enforceable agreement between an employer, or its designee, and a carrier, for the provision of, or payment for, health benefits or services to eligible employees. In the case where an agreement under paragraph (i) (3) of this section is subject to the terms of a collective bargaining agreement which specifically mandates maintenance of benefits and/or identifies the carriers or other entities to be contracted with for the provision of, or payment for, health benefits or services to eligible employees, such collective bargaining agreement shall be considered the existing contract.

(j) "Carrier" means a voluntary association, corporation, partnership, or other nongovernmental organization which is engaged in providing, paying for, or reimbursing all or part of the cost of health services under group insurance policies or contracts, medical or hospital service agreements, membership or subscription contracts, or similar group arrangements, in consideration of premiums or other periodic charges payable to the carrier.

§ 110.802 Applicability.

(a) The regulations of this subpart apply in each calendar year to each employer which:

(1) Was required during any calendar quarter of the previous calendar year to pay its employees the minimum wage specified by section 6 of the Fair Labor Standards Act of 1938 (or would have been required to pay its employees such wage but for section 13(a) of such Act);

(2) During such calendar quarter employed an average number of not less than 25 employees;

(3) Offers, or on whose behalf there is offered, in the calendar year beginning after such calendar quarter a health benefits plan to its eligible employees; and

(4) Has received a request for inclusion in the employer's health benefits plan from one or more qualified health maintenance organizations which operate(s) in an area in which any eligible employee resides.

(b) To be effective under paragraph (a) (4) of this section, the request shall

XUM
V40130
FEB 12 75
XUM

be received by the employer or its designee not less than 90 days in advance of the expiration date of an existing contract, unless the employer or its designee waives this time requirement, and shall:

(1) Be in writing and directed to the specific employer, or its designee;

(2) Provide evidence that the health maintenance organization has been determined to be qualified by the Secretary under Subpart F of this part;

(3) Describe the area served by the health maintenance organization, or the proposed service area, and give the dates basic and supplemental health services will be provided in such areas;

(4) Describe the location of facilities where health services are provided or will be provided, and give the dates services will be provided at such facilities;

(5) Include proposed contracts to be entered into between the health maintenance organization and the employer, or its designee;

(6) Include sample copies of marketing brochures and membership literature; and

(7) State the payment for basic and supplemental health services to be required for various categories of membership.

(c) Each such employer shall include in any health benefits plan offered to its eligible employees (or to such employees and their eligible dependents) the option of membership in qualified health maintenance organizations, subject to the provisions of paragraphs (d), (e), (f), and (g) of this section.

(d) If more than one qualified health maintenance organization which provides services in an area in which eligible employees of such an employer reside, have requested inclusion in the health benefits plan, and

(1) One or more of such organizations provides basic health services through professionals who are members of the staff of the organization or a medical group (or groups), and

(2) One or more of such organizations provides such services through an individual practice association (or associations), then, of the qualified health maintenance organizations included in a health benefits plan of such employer pursuant to this section, at least one shall be an organization which provides basic health services as described in paragraph (d)(1) of this section and at least one shall be an organization which provides basic health services as described in paragraph (d)(2) of this section.

(e) An employer subject to this subpart is required to offer the option of membership in additional qualified health maintenance organizations to its eligible employees only if such additional qualified health maintenance organizations demonstrate that their service areas include the place of residence of eligible employees (1) who do not reside in the service area of qualified health maintenance organizations already included in the employer's health benefits plans, or (2) to whom membership in qualified health maintenance organizations already included in the health benefits plan is not available because such organizations have closed their enrollment of eligible employees of such employer. In either such case, the employer is required to offer the option of membership in such additional health maintenance organizations to those eligible employees described in paragraph (e) (1) and (2) of this section.

(f)(1) An employer subject to this subpart is not required to include in the health benefits plan offered to eligible employees the option of membership in a qualified health maintenance organization which has requested inclusion in the health benefits plan but may select one or more other qualified health maintenance organizations that may not have made a request within the time limit of paragraph (b) of this section but wish to be included, provided that the latter health maintenance organization(s) serve, or will serve at a minimum, the same area individually or collectively, as the health maintenance organization which submitted a timely request.

(2) The employer may include in the health benefits plan offered to his employees the option of membership in such additional health maintenance organizations as he may decide so to include: *Provided*, That if the employer is subject to section 8 of the National Labor Relations Act (29 U.S.C. 158), the selection among competing health maintenance organizations may be made in accordance with the collective bargaining process pursuant to said Act.

(g) If an offer to eligible employees of the option of membership in a qualified health maintenance organization is inconsistent with the terms of an existing contract, such option shall be included in any health benefits plan offered to eligible employees under the terms of the existing contract, if renewed, or under the terms of a new contract or agreement. Except in the case of a contract described in the second sentence of § 110.801(i), a contract with a carrier that has no fixed term or has a term in excess of one year, shall be treated as renewable on the anniversary date of the contract. If the employer is self-insured, the fiscal year (or budget year, should that be different) shall be considered the term of the existing contract.

§ 110.803 Employees to whom the health maintenance organization alternative must be offered.

(a) Each employer subject to this subpart shall offer the option of membership in a qualified health maintenance organization to each eligible employee (or to such employee and eligible dependents of such employee) who resides within the service area of the qualified health maintenance organization or organizations being offered.

(b) Each eligible employee's election of a copayment level and of supplemental health services to be contracted for is to be made as follows:

(1) In the event that employees offered the option of membership in the qualified health maintenance organizations pursuant to this subpart are represented by a collective bargaining agent or other representative recognized under the laws of the United States or any State, such bargaining agent or representative or its designee may exercise on behalf of such employees the options of selecting among supplemental health services and copayment levels prior to such employees' exercise of the option to accept or decline membership in the qualified health maintenance organization.

(2) In the event that paragraph (b)(1) of this section is not applicable, the decision-making process that exists with respect to the existing health benefits plan relating to the selection of copayment levels or covered health benefits and services, or both, shall apply with respect to the selection of copayment levels and supplemental health services to be offered to eligible employees.

§ 110.804 Offer of group enrollment period.

(a) An employer offering the option of membership in a qualified health maintenance organization pursuant to § 110.802, as part of the health benefits plan offered to its eligible employees, shall provide for a group enrollment period, at least annually, during which eligible employees may enroll in the alternative of their choice or may transfer from one alternative to another without application of waiting periods or exclusions or limitations based on health status as conditions of enrollment or transfer. During the group enrollment period in which the alternative of membership in a qualified health maintenance organization is offered to a group of employees for the first time, the health benefits plan alternatives shall be presented to each eligible employee with the requirement that an affirmative written selection be made among the different alternatives included in the health benefits plan. In subsequent group enrollment periods a selection among such alternatives shall be available; however, such written selection is required only when the eligible employee elects to change from one alternative to another.

(b) The opportunity to select among different alternatives within a health benefits plan shall be made available to new employees, to employees who have been transferred to a new geographic location at the time such employees are eligible to participate in the health benefits plan, and to enrollees of a health maintenance organization which ceases operation. Such opportunity shall be made available to such eligible employees without waiting periods or any exclusions or limitations based on health status as conditions of enrollment or transfer, and shall be presented to such employees with the requirement that they make an affirmative written selection among the different alternatives included in the health benefits plan.

(c) The employer shall provide each qualified health maintenance organization which is included in its health benefits plan with fair and reasonable access, not less than 30 days prior to and

during group enrollment periods, to employees referred to in § 110.803(a), for purposes of presenting and explaining its program in accordance with § 110.108(c) of this Part. This access shall include, at a minimum, the opportunity for the qualified health maintenance organization to distribute to such employees educational literature, brochures, announcements of meetings, and other relevant printed materials meeting the requirements of § 110.108(c). The employer shall be given the opportunity to review such materials before distribution. In no event shall the access to eligible employees provided to such qualified health maintenance organizations be more restricted or less favorable than that provided other offerers of alternatives included in the health benefits plan.

§ 110.805 Employer contributions for health maintenance organization alternative.

(a) The health maintenance organization alternative shall be included in the health benefits plan on terms no less favorable, in regard to an employer's monetary contribution for health benefits, than those on which the other alternatives in the health benefits plan are included, as determined under paragraphs (c) or (d) of this section. Determination of the employer's contribution shall not include administrative expenses of the employer or its designee associated with offering the health maintenance organization alternative.[1]

(b) Where the amount of the employer's contribution for health benefits is fixed by a collective bargaining agreement or by a legally enforceable contract with its employees, the amount so determined shall constitute the employer's obligation for contribution toward the health maintenance organization dues or premium on behalf of an eligible employee (including dependents of such employee).

(c) In the absence of a collective bargaining agreement or legally enforceable contract between the employer and its employees fixing the employer's contribution to the health maintenance organization, and when the existing employees' health benefits plan consists of a single contract or is divided into two or more contracts, the employer's contribution to the health maintenance organization on behalf of an eligible employee (including dependents of such employee) shall consist of the true, actuarially determined portion of such contributions for alternatives other than the qualified health maintenance organization that is applied to the comparable coverage provided by the health maintenance organization.

(d) For purposes of paragraph (c) of the section, an employer's contribution for the alternative(s) within the health benefits plan other than the qualified health maintenance organization option shall be determined in the following manner:

(1) If the present health benefit plan is contracted with a carrier on a prospective premium basis, then the prospective payment made per eligible employee by or on behalf of the employer to a carrier or other entity for the provision of health benefits or services to eligible employees (including dependents) under such alternative(s) during the prospective period of coverage shall be considered the employer's obligation for contribution for health maintenance organization dues or premiums.

(2) If the present health benefits plan is contracted with a carrier on any form of retrospective rating basis, or billing contract arrangement, the actuarially developed per-eligible-employee deposit or advance to the carrier which includes appropriate allowance for incurred claims, claims administration plus profit or retention, and premium tax, shall be considered the employer's obligation for contribution toward health maintenance organization dues.

(3) If the present health benefits plan is self-insured by either the employer or its designee, or provides services directly, then the budgeted level for expected total incurred claims or health care operating expenses, plus total claims administration expense, shall be averaged per eligible employee and such average shall be considered the employer's obligation for contribution per employee toward health maintenance organization dues or premium.

(e) For purposes of paragraph (c) of this section, an employer's contribution to the health maintenance organization option in the years following the initial offering shall be determined on the assumption that all eligible employees remained in the non-health maintenance organization alternative. However, such determination shall take into consideration such factors as (1) allowances for inflation, (2) changes in the composition and experience of the covered population actually being serviced by the non-health maintenance organization alternative attributable to the shift of enrollment to the health maintenance organization. Based on such computation, the employer or its designee shall make an equitable contribution to the health maintenance organization which is reasonably comparable to the contributions to be made on a per-eligible-employee basis, or on a per-eligible-employee-and-eligible-dependents basis, to the non-health maintenance oragnization alternative for such year.

(f) An employer or its designee shall retain for one year the data used to compute its level of contribution to the alternatives included in the health benefits plan. Such data may be reviewed by the Secretary either on his own initiative or at the request of a qualified health maintenance organization which sets forth reasonable grounds supporting such a request, to determine whether the level of contributions determined by the employer complies with this subpart.

§ 110.806 Employee contributions for health maintenance organization alternative.

(a) When the offer of the health maintenance organization option required by § 110.802 requires a payment to the health maintenance organization that exceeds the contribution made by or on behalf of the employer as required by § 110.805, the employer or its designee shall offer the eligible employees electing the health maintenance organization alternative the opportunity to combine the eligible employee's contribution through a payroll deduction or allotment program with the employer's contribution for payment to the health maintenance organization, should the eligible employee so elect.

(b) In the event that an employee elects not to participate in such a payroll deduction or allotment plan, the qualified health maintenance organization may establish its rates for those eligible employees electing not to participate in the group consolidated payment arrangement, on the basis of its rates for individual (non-group) subscribers described in § 110.101(2)(1)(i) of this Part.

§ 110.807 Relationship of section 1310(a) of the Health Maintenance Organization Act of 1973 to the National Labor Relations Act, as amended.

The obligation of an employer subject to this subpart to include the option of membership in a qualified health maintenance organization in any health benefits plan offered to its eligible employees shall be carried out consistently with the obligations imposed on such employer under the National Labor Relations Act, provided that compliance with such Act shall not relieve the employer of the obligation to include the alternative of membership in a qualified health maintenance organization in a health benefits plan as required by this subpart.

[FR Doc. 75-3805 Filed 2-11-75;8:45 am]

[1] These costs should, however, be identified and segregated, since under Section 1314(b) of the Act they are the subject of a separate inquiry by the General Accounting Office.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR, Part 58]

GRADING AND INSPECTION, GENERAL SPECIFICATIONS FOR APPROVED DAIRY PLANTS AND STANDARDS FOR GRADES OF DAIRY PRODUCTS

Notice of Proposed Rule Making

Notice is hereby given that the United States Department of Agriculture is considering the issuance as hereinafter provided, a revision of the General Specifications for Dairy Plants Approved for USDA Inspection and Grading Service, pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621). Official inspection and grading service is provided under this Act upon request of the applicant and fees are charged to cover the cost of the service.

Statement of consideration. The General Specifications for Dairy Plants Approved for USDA Inspection and Grading Service, hereinafter referred to as General Specifications originally became effective May 16, 1967, to provide the dairy industry with a basis for a voluntary plant survey program applicable to processed or manufactured dairy products.

This revision of the General Specifications reflects an updating and upgrading of the various requirements due to technological changes that have occurred in equipment, facilities, and manufacturing operations since 1967. The revision will establish requirements that will more adequately assist in determining the approval of dairy plants for inspection and grading service.

Preparation of this revision of the General Specifications is based on USDA experience in the plant survey program and upon recommendations and comments received from the following organizations which were provided drafts for study:

American Butter Institute.
American Dry Milk Institute.
American Producers of Italian Type Cheese Association.
Dairy, Food and Drug Committee, National Association of State Departments of Agriculture.
Evaporated Milk Association.
International Association of Ice Cream Manufacturers.
Milk Industry Foundation.
National Cheese Institute.
National Ice Cream Mix Association, Inc.
National Milk Producers Federation.
State Departments of Agriculture.
Whey Products Institute.

In general the changes in the requirements contained in this revision may be summarized as follows:

1. Requirements were updated to reflect new developments in all segments of the dairy manufacturing industry.

2. Specifications for abnormal milk have been added and the bacterial estimate classification system has been updated to agree with the USDA Standards for Milk for Manufacturing Purposes Recommended for State Adoption.

3. The Supplemental Specifications for Plants Manufacturing, Processing and Packaging Milk or Milk Products have been deleted since the responsibility for these products at the Federal level rests with the Food and Drug Administration.

4. Due to the importance of the developing industry for whey and whey products, new Supplemental Specifications for Plants Manufacturing, Processing and Packaging Whey, Whey Products and Lactose have been included.

All persons who desire to submit written data, views or arguments in connection with this proposal should file the same in duplicate with the Hearing Clerk, Room 112-A, Administration Building, Washington, D.C. 20250, not later than July 1, 1975. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Hearing Clerk during regular business hours (7 CFR 1.276).

The proposed revision of the General Specifications is as follows:

SUBPART B—GENERAL SPECIFICATIONS FOR DAIRY PLANTS APPROVED FOR USDA INSPECTION AND GRADING SERVICE [1]

DEFINITIONS

Sec.
58.101 Meaning of words.

PURPOSE

58.122 Approved plants under USDA inspection and grading service.

APPROVED PLANTS

58.123 Survey and approval.
58.124 Denial or suspension of plant approval.

PREMISES, BUILDINGS, FACILITIES, EQUIPMENT AND UTENSILS

58.125 Premises.
58.126 Buildings.
58.127 Facilities.
58.128 Equipment and utensils.

PERSONNEL, CLEANLINESS AND HEALTH

58.129 Cleanliness.
58.130 Health.

PROTECTION AND TRANSPORT OF RAW MILK AND CREAM

58.131 Equipment and facilities.

QUALITY SPECIFICATIONS FOR RAW MILK

58.132 Basis for classification.
58.133 Methods for quality and wholesomeness determination.
58.134 Sediment content.
58.135 Bacterial estimate.
58.136 Rejected milk.
58.137 Excluded milk.
58.138 Quality testing of milk from new producers.
58.139 Record of tests.
58.140 Field service.
58.141 Alternate quality control program.

OPERATIONS AND OPERATING PROCEDURES

58.142 Product quality and stability.
58.143 Raw product storage.
58.144 Pasteurization or Ultra-Pasteurization.
58.145 Composition and wholesomeness.
58.146 Cleaning and sanitizing treatment.
58.147 Insect and rodent control program.
58.148 Plant records.
58.149 Alternate quality control programs for dairy products.

PACKAGING AND GENERAL IDENTIFICATION

58.150 Containers.
58.151 Packaging and repackaging.
58.152 General identification.

STORAGE OF FINISHED PRODUCT

58.153 Dry storage.
58.154 Refrigerated storage.

INSPECTION, GRADING AND OFFICIAL IDENTIFICATION

58.155 Grading.
58.156 Inspection.
58.157 Inspection or grading certificates.
58.158 Official identification.

EXPLANATION OF TERMS

58.159 Terms.

SUPPLEMENTAL SPECIFICATIONS FOR PLANTS MANUFACTURING, PROCESSING AND PACKAGING NONFAT DRY MILK, INSTANT NONFAT DRY MILK, DRY WHOLE MILK, AND DRY BUTTERMILK

DEFINITIONS

58.205 Meaning of words.

ROOMS AND COMPARTMENTS

58.210 Dry storage of product.
58.211 Packaging room for bulk products.
58.212 Hopper or dump room.
58.213 Repackaging room.

EQUIPMENT AND UTENSILS

28.214 General construction, repair and installation.
58.215 Pre-heaters.
58.216 Hotwells.
58.217 Evaporators and/or vacuum pans.
58.218 Surge tanks.
58.219 High pressure pumps and lines.
58.220 Drying systems.
58.221 Collectors and conveyors.
58.222 Dry dairy product cooling equipment.
58.223 Special treatment equipment.
58.224 Sifters.
58.225 Clothing and shoe covers.
58.226 Portable and stationary bulk bins.
58.227 Sampling device.
58.228 Dump-hoppers, screens, mixers and conveyors.
58.229 Filler and packaging equipment.
58.230 Heavy duty vacuum cleaners.

QUALITY SPECIFICATIONS FOR RAW MATERIALS

58.231 General.
58.232 Milk.
58.233 Skim milk.
58.234 Buttermilk.
58.235 Modified dry milk products.

OPERATIONS AND OPERATING PROCEDURES

58.236 Pasteurization and heat treatment.
58.237 Condensed surge supply.
58.238 Condensed storage tanks.
58.239 Drying.
58.240 Cooling dry products.
58.241 Packaging, repackaging and storage.
58.242 Product adulteration.
58.243 Checking quality.
58.244 Number of samples.
58.245 Method of official sample analysis.
58.246 Cleaning of dryers, collectors, conveyor ducts, sifters and storage bins.
58.247 Insect and rodent control program.

REQUIREMENTS FOR FINISHED PRODUCTS BEARING USDA OFFICIAL IDENTIFICATION

58.248 Nonfat dry milk.
58.249 Instant nonfat dry milk.
58.250 Dry whole milk.
58.251 Dry buttermilk.

[1] Compliance with these standards does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, Environmental Protection Act, or applicable laws and regulations of any State or Municipality.

SUPPLEMENTAL SPECIFICATIONS FOR PLANTS MANUFACTURING, PROCESSING AND PACKAGING BUTTER AND RELATED PRODUCTS

DEFINITIONS

Sec.
58.305 Meaning of words.

ROOMS AND COMPARTMENTS

58.311 Coolers and freezers.
58.312 Churn rooms.
58.313 Print and bulk packaging rooms.

EQUIPMENT AND UTENSILS

58.314 General construction, repair, and installation.
58.315 Continuous churns.
58.316 Conventional churns.
58.317 Bulk butter trucks, boats, texturizers, and packers.
58.318 Butter, frozen or plastic cream melting machines.
58.319 Printing equipment.
58.320 Brine tanks.
58.321 Cream storage tanks.

QUALITY SPECIFICATIONS FOR RAW MATERIAL

58.322 Cream.
58.323 Whipped butter.
58.324 Butteroil.
58.325 Anhydrous milkfat.
58.326 Plastic cream.

58.937 Physical requirements and microbiological limits for sweetened condensed milk.

DEFINITIONS

§ 58.101 Meaning of words.

For the purpose of the regulations of this subpart, words in the singular form shall be deemed to impart the plural and vice versa, as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning:

(a) *Act.* The applicable provisions of the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; (7 U.S.C. 1621–1627)), or any other Act of Congress conferring like authority.

(b) *Administrator.* The Administrator of the Agricultural Marketing Service or any other officer or employee of the Agricultural Marketing Service of the Department to whom there has heretofore been delegated, or to whom there may hereafter be delegated the authority to act in his stead.

(c) *Approved laboratory.* A laboratory in which the facilities and equipment used for official testing have been approved by the Administrator as being adequate to perform the necessary official tests in accordance with this part, and operates under a USDA surveillance program as set forth by the Administrator.

(d) *Approved plant.* One or more adjacent buildings, or parts thereof, comprising a single plant at one location in which the facilities and methods of operation therein have been surveyed and approved by the Administrator as suitable and adequate for inspection or grading service in accordance with the following:

(1) Shall satisfactorily meet the specifications of this subpart as determined by the Administrator.

(2) Only receive dairy products from plants, transfer stations, receiving stations and cream buying stations which satisfactorily comply with the applicable requirements of this subpart as determined by the Administrator. (Occasional shipments may be received from non-approved plants provided the product is tested and meets the quality requirements for No. 2 milk.)

(e) *Sanitizing treatment.* Subjection of a clean product contact surface to steam, hot water, hot air, or an acceptable sanitizing solution of sufficient strength, and for a duration of time to effectively destroy microorganisms. Sanitizing solutions shall comply with 21 CFR 121.2547.

(f) *Resident service.* Inspection or grading service performed at a dairy manufacturing plant or grading station by an inspector or grader assigned to the plant or station on a continuous basis.

(g) *Dairy products.* Butter, cheese (whether natural or processed), skim milk, cream, whey, or buttermilk (whether dry, evaporated, stabilized or condensed), frozen desserts and any other food product which is prepared or manufactured in whole or in part from any of the aforesaid products, as the Administrator may hereafter designate.

(h) *Grader.* Any employee of the Department authorized by the Administrator or any other person to whom a license has been issued by the Administrator to investigate and certify, in accordance with the Act and this part, to shippers of products and other interested parties, the class, qualify, quantity, and condition of such products.

(i) *Inspector.* Any employee of the Department authorized by the Administrator or any other person to whom a license has been issued by the Administrator to inspect and certify quality, quantity and condition of products, observe the manufacturing, processing, packaging and handling of diary products, and to perform dairy plant surveys in accordance with the regulations of this part.

(j) *Inspection or grading service.* Means in accordance with this part, the act of (1) drawing samples of any product; (2) determining the class, grade, quality, composition, size, quantity, condition, or wholesomeness of any product by examining each unit or representative samples; (3) determining condition of product containers; (4) identifying any product or packaging material by means of official identification; (5) regrading or appeal grading of a previously graded product; (6) inspecting dairy plant facilities, equipment, and operations; such as, processing, manufacturing, packaging, repackaging, and quality control; (7) supervision of packaging inspected or graded product; (8) reinspection or appeal inspection; and (9) issuing an inspection or grading certificate or sampling, inspection, or other report related to any of the foregoing.

(k) *Milk.* The whole lacteal secretion, practically free from colostrum, obtained by the complete milking of one or more healthy cows located in modified accredited areas and modified certified areas or from cows in herds fully accredited as tuberculosis-free and certified brucellosis-free by the United States Department of Agriculture or in the process of being accredited.

(l) *Official identification.* Official identification is provided for use on product packed under USDA inspection. Any package label or packaging material which bears any official identification shall be used only in such manner as the Administrator may prescribe, and such official identification shall be of such form and contain such information as the Administrator may require.

(m) *Official methods.* Official Methods of Analysis of the Association of Official Analytical Chemists, a publication of the Association of Official Analytical Chemists, Box 540, Benjamin Franklin Station, Washington, D.C. 20044.

(n) *Pasteurization (Pasteurized).* Pasteurization shall mean that every particle of product shall have been heated in properly operated equipment to one of the temperatures specified in the table and held continuously at or above that temperature for the specified time (or other time/temperature relationship equivalent thereto in microbial destruction):

FLUID PRODUCTS

Temperature:	Time
145° F (vat pasteurization).	30 minutes.
161° F (high temperature short time pasteurization).	15 seconds.
191° F (high heat short time pasteurization).	1.0 seconds.
204° F (high heat short time pasteurization).	.05 seconds.
212° F (high heat short time pasteurization).	.01 seconds.

PRODUCTS HAVING HIGHER MILKFAT THAN MILK (10 PERCENT OR MORE) AND/OR CONTAIN ADDED SWEETENERS

150° F	30 minutes.
166° F	15 seconds.

FROZEN DESSERT MIX

155° F	30 minutes.
175° F	25 seconds.

CONDENSED MILK TO BE REPASTEURIZED

166° F	15 seconds.

(o) *Plant survey.* An appraisal of a plant to determine the extent to which facilities, equipment, method of operation, and raw material being received are in accordance with the provisions of this part. The survey shall be used to determine suitability of the plant for USDA inspection or grading service.

(p) *Plant status.* The extent to which a plant complies with this subpart shall be determined under procedures as set forth by the Administrator.

(q) *Producer.* The person or persons who exercise control over the production of the milk delivered to a processing plant or receiving station and who receive payment for this product.

(r) *Quality control.* The inspection of the quality of the raw material and the conditions relative to the preparation of the product from its raw state through each step in the entire process. It includes the inspection of conditions under which the product is prepared, processed, manufactured, packed and stored. In addition, assistance and guidance is offered to improve the raw milk quality, processing methods, quality, stability, and packaging and handling of the finished product.

(s) *Regulations.* The term "regulations" means the provisions contained in this part.

(t) *Administrator.* The Administrator of the Agricultural Marketing Service or any other officer or employee of the Department to whom there has heretofore been delegated, or to whom there may hereafter be delegated, the authority to act in his stead.

(u) *Shall.* Expresses a provision that is mandatory.

(v) *Should.* Expresses recommended nonmandatory provisions which when followed would significantly aid in a quality improvement program.

(w) *Standard methods.* Standard Methods for the Examination of Dairy Products, a publication of the American Public Health Association, 1790 Broadway, New York, New York.

(x) *3–A Sanitary Standards and Accepted Practice.* The latest standards for dairy equipment and accepted practices formulated by the 3–A Sanitary Standards Committees representing the International Association of Milk, Food and Environmental Sanitarians, the Food and Drug Administration and the Dairy Industry Committee. Published by the International Association of Milk, Food and Environmental Sanitarians, Box 701, Ames, Iowa.

(y) *"USDA" or "Department".* Means the United States Department of Agriculture.

(z) *Receiving Station.* Any place, premise, or establishment where milk or dairy products are received, collected or handled for transfer to a processing or manufacturing plant.

(aa) *Transfer station.* Any place, premise, or establishment where milk or dairy products are transferred directly from one transport tank to another.

(bb) *Corrosion-resistant.* Those materials that maintain their original surface characteristics under prolonged influence of the product to be contacted, cleaning compounds and sanitizing solutions, and other conditions of the environment in which used.

PURPOSE

§ 58.122 Approved Plants under USDA inspection and grading service.

(a) Adoption of certain sound practices at dairy plants will significantly aid the operators to manufacture more consistently, uniform high-quality stable dairy products. Only dairy products manufactured, processed and packaged in an approved plant may be graded or inspected and identified with official identification. The specifications established herein provide the basis for a quality maintenance program which may be effectively carried forward through official inspection, grading, and quality control service.

(b) USDA inspection and grading service is provided to dairy product manufacturing plants on a voluntary basis. The operator of any dairy plant desiring to have such a plant qualified as an approved plant under USDA inspection and grading service may request surveys of such plant, premises, equipment, facilities, methods of operation, and raw material to determine whether they are adequate to permit inspection and grading service. The cost of this survey shall be borne by the applicant.

APPROVED PLANTS

§ 58.123 Survey and approval.

Prior to the approval of a plant, a designated representative of the Administrator shall make a survey of the plant, premises, storage facilities, equipment and raw material, volume of raw material processed daily, and facilities for handling the products at the plant. The survey shall be made at least twice a year to determine whether the facilities, equipment, method of operation, and raw material being received are adequate and suitable for USDA inspection and grading service in accordance with the provisions of this part. To be eligible for approval a plant shall satisfactorily meet the specification of this subpart as determined by the Administrator.

§ 58.124 Denial or suspension of plant approval.

Plant approval may be denied or suspended if a determination is made by a designated representative of the Administrator that the plant is not performing satisfactorily in regard to; (a) the classification of milk, (b) proper segregation and disposal of unwholesome raw materials or finished product, (c) adequate facilities and condition of processing equipment, (d) sanitary conditions of plant and equipment, (e) control of insects, rodents and other vermin, (f) use of non-toxic product contact surfaces and prevention of adulteration of raw materials and products with chemicals or other foreign material, (g) proper operating procedures, (h) the maintenance of legal composition of finished products, (i) the manufacture of stable dairy products, of desirable keeping quality characteristics, (j) proper storage conditions for ingredients and dairy products, or (k) suitable and effective packaging methods and material.

PREMISES, BUILDINGS, FACILITIES, EQUIPMENT AND UTENSILS

§ 58.125 Premises.

(a) The premises shall be kept in a clean and orderly condition, and shall be free from strong or foul odors, smoke, or excessive air pollution. Construction and maintenance of driveways and adjacent plant traffic areas should be of cement, asphalt, or similar material to keep dust and mud to a minimum.

(b) *Surroundings.* The immediate surroundings shall be free from refuse, rubbish, overgrown vegetation, and waste materials to prevent harborage of rodents, insects and other vermin.

(c) *Drainage.* A suitable drainage system shall be provided which will allow rapid drainage of all water from plant buildings and driveways, including surface water around the plant and on the premises, and all such water shall be disposed of in such a manner as to prevent an environmental or health hazard.

§ 58.126 Buildings.

The building or buildings shall be of sound construction and shall be kept in good repair to prevent the entrance or harboring of rodents, birds, insects, vermin, dogs, and cats. All service pipe openings through outside walls shall be effectively sealed around the opening or provided with tight metal collars.

(a) *Outside doors, windows, openings, etc.* All openings to the outer air including doors, windows, skylights and transoms shall be effectively protected or screened against the entrance of flies and other insects, rodents, birds, dust and dirt. All outside doors opening into processing rooms shall be in good condition and fit properly. All hinged, outside screen doors shall open outward. All doors and windows should be kept clean

XUM
V 40 30 FEB 12 75 XUM

and in good repair. Outside conveyor openings and other special-type outside openings shall be effectively protected to prevent the entrance of flies and rodents, by the use of doors, screens, flaps, fans or tunnels. Outside openings for sanitary pipelines shall be covered when not in use. On new construction window sills should be slanted downward at approximately a 45° angle.

(b) *Walls, ceilings, partitions and posts.* The walls, ceilings, partitions, and posts of rooms in which milk, or dairy products are processed, manufactured, handled, packaged or stored (except dry storage of packaged finished products and supplies) or in which utensils are washed and stored, shall be smoothly finished with a suitable material of light color, which is substantially impervious to moisture and kept clean. They shall be refinished as often as necessary to maintain a neat, clean surface. For easier cleaning new construction should have rounded cove at the juncture of the wall and floor in all receiving, pasteurizing, manufacturing, packaging and storage rooms.

(c) *Floors.* The floors of all rooms in which milk, or dairy products are processed, manufactured, packaged or stored or in which utensils are washed shall be constructed of tile properly laid with impervious joint material, concrete, or other equally impervious material. The floors shall be smooth, kept in good repair, graded so that there will be no pools of standing water or milk products after flushing, and all openings to the drains shall be equipped with traps properly constructed and kept in good repair. On new construction, bell and standpipe type traps shall not be used. The plumbing shall be so installed as to prevent the back-up of sewage into the drain lines and to the floor of the plant. Cold storage rooms used for storage of product need not be provided with floor drains if the floor is sloped to drain to an exit.

Sound, smooth, wood floors which can be kept clean, may be used in rooms where new containers and supplies and certain packaged finished products are stored.

(d) *Lighting and ventilation.* (1) Light shall be ample, natural or artificial, or both, of good quality and well distributed. All rooms in which dairy products are manufactured or packaged or where utensils are washed shall have at least 30 foot-candles of light intensity on all working surfaces. Rooms where dairy products are graded or examined for condition and quality shall have at least 50 foot-candles of light intensity on the working surface. Restrooms and locker rooms should have at least 30 foot-candles of light intensity. In all other rooms there shall be provided at least 5 foot-candles of light intensity when measured at a distance of 30 inches from the floor. Where contamination of product by broken glass is possible, light bulbs and fluorescent tubes shall be protected against breakage.

(2) There shall be adequate heating, ventilation or air conditioning for all rooms and compartments to permit maintenance of sanitary conditions. Exhaust or inlet fans, vents, hoods or temperature and humidity control equipment shall be provided where and when needed, to minimize or control room temperatures, eliminate objectionable odors, and aid in prevention of moisture condensation and mold. Inlet fans should be provided with an adequate air filtering device to eliminate dirt and dust from the incoming air. Ventilation systems shall be cleaned periodically as needed and maintained in good repair. Exhaust outlets shall be screened or provided with self closing louvers to prevent the entrance of insects when not in use.

(e) *Rooms and compartments.* Rooms and compartments in which any raw material, packaging, ingredient supplies or dairy products are handled, manufactured, packaged or stored shall be so designed, constructed and maintained as to assure desirable room temperatures and clean and orderly operating conditions free from objectionable odors and vapors. Enclosed bulk milk receiving rooms, when present, shall be separated from the processing rooms by a wall. Rooms for receiving can milk shall be separated from the processing rooms by a partition or by suitable arrangement of equipment. Processing rooms shall be kept free from equipment and materials not regularly used.

(1) *Coolers and freezers.* Coolers and freezers where dairy products are stored shall be clean, reasonably dry and maintained at the proper uniform temperature and humidity to adequately protect the product, and minimize the growth of mold. Adequate circulation of air shall be maintained at all times. They shall be free from rodents, insects, and pests. Shelves shall be kept clean and dry. Refrigeration units shall have provisions for collecting and disposing of condensate.

(2) *Supply room.* The supply rooms or areas used for the storing of packaging materials; containers, and miscellaneous ingredients shall be kept clean, dry, orderly, free from insects, rodents, and mold, and maintained in good repair. Such items stored therein shall be adequately protected from dust, dirt, or other extraneous material and so arranged on racks, shelves or pallets to permit access to the supplies and cleaning and inspection of the room. Insecticides, rodenticides, cleaning compounds and other nonfood products shall be properly labeled and segregated, and stored in a separate room or cabinet away from milk, dairy products, ingredients or packaging supplies.

(3) *Boiler rooms, shop rooms and shop areas.* The boiler, and shop rooms shall be separated from other rooms where milk, and dairy products are processed, manufactured, packaged, handled or stored. Shop rooms or areas should be kept orderly and reasonably free from dust and dirt.

(4) *Toilet and dressing rooms.* Adequate toilet and dressing room facilities shall be conveniently located.—(a) Toilet rooms shall not open directly into any room in which milk or dairy products are processed, manufactured, packaged or stored; doors shall be self closing; ventilation shall be provided by mechanical means or screened openings to the outer air; fixtures shall be kept clean and in good repair. (b) All employees shall be furnished with a locker or other suitable facility and the lockers and dressing rooms shall be kept clean and orderly. Adequate hand-washing facilities shall be provided. Legible signs shall be posted conspicuously in each toilet or dressing room directing employees to wash their hands before returning to work.

(5) *Laboratory.* (i) Consistent with the size and type of plant and the volume of dairy products manufactured, an adequately equipped laboratory shall be maintained and properly staffed with qualified and trained personnel for quality control and analytical testing. The laboratory should be located reasonably close to the processing activity and be of sufficient size to perform tests necessary in evaluating the quality of raw and finished products.

(ii) Approved laboratories shall be supervised by the USDA resident inspector in all aspects of official testing and reporting results. Plant laboratory personnel in such plants may be licensed by the USDA to perform official duties. An approved central control laboratory serving more than one plant may be acceptable, if conveniently located to the dairy plants, and if samples and results can be transmitted without undue delay.

(6) *Starter facilities.* Adequate facilities shall be provided for the handling of starter cultures. The facilities shall not be located near areas where contamination is likely to occur.

(7) *Grading and inspection room.* When grading or inspection of product is performed the plants shall furnish a room or designated area specifically for this purpose. The room or area shall be suitably located, sufficient in size, well lighted (see 58.126d), ventilated and the temperature shall be not less than 60° F. It shall be kept clean and dry, free from foreign odors and reasonably free from disturbing elements which would interfere with proper concentration by the grader or inspector. The grading or inspection room or area shall be equipped with a table or desk and convenient facilities for washing hands.

(8) *Resident inspector's facilities.* In resident plants, an office or space shall be provided for official purposes. The room or space should be conveniently located in or near the approved laboratory, adequate in size, and equipped with desk and a lockable storage supply cabinet, and clothes locker. It shall be well lighted, ventilated or air conditioned, and heated. Custodial service shall be furnished on a regular basis.

§ 58.127 Facilities.

(a) *Water supply.* There shall be an ample supply of both hot and cold water of safe and sanitary quality, with adequate facilities for its proper distribution throughout the plant, and protected against contamination and pollution. Water from other facilities, when officially approved, may be used for boiler feed water and condenser water provided

that such water lines are completely separated from the water lines carrying the sanitary water supply, and the equipment is so constructed and controlled as to preclude contamination of product contact surfaces. There shall be no cross connection between potable water lines and non-potable water lines or between public and private water supplies. Bacteriological examinations shall be made of the plant's sanitary water supply taken at the plant at least twice a year, or as often as necessary to determine purity and suitability for use in manufacturing dairy products as related to keeping quality. Such tests shall be made by a USDA or State agency laboratory except for supplies that are regularly tested for purity and bacteriological quality, and approved by the local health officer. The results of all water tests shall be kept on file at the plant for which the test was performed.

The location, construction, and operation of any well shall comply with regulations of the appropriate agency.

(b) *Drinking-water facilities.* Drinking-water facilities of a sanitary type shall be provided in the plant and should be conveniently located.

(c) *Hand-washing facilities.* Convenient hand-washing facilities shall be provided, including hot and cold running water, soap or other detergents, and sanitary single service towels or air driers. Such accommodations shall be located in or adjacent to toilet and dressing rooms and also at such other places in the plant as may be essential to the cleanliness of all personnel handling products. Vats for washing equipment or utensils shall not be used as hand-washing facilities. Containers shall be provided for used towels and other wastes. The containers may be metal or plastic, disposable or reuseable and should have self-closing covers.

(d) *Steam.* Steam shall be supplied in sufficient volume and pressure for satisfactory operation of each applicable piece of equipment. Culinary steam used in direct contact with milk or dairy products shall be free from harmful substances or extraneous material and only those boiler water additives which meet the requirements of 21 CFR 121.1088 shall be used, or a secondary steam generator shall be used in which soft water is converted to steam and no boiler compounds are used. Steam traps, strainers and condensate traps shall be used wherever applicable to insure a satisfactory and safe steam supply. Culinary steam shall comply with the recommended practices for "Producing Culinary Steam for Processing Milk and Milk Products" as published by the National Association of Food and Dairy Equipment Manufacturers, Washington, D.C., April 1963 or latest revision thereof.

(e) *Air under pressure.* The method for supplying air under pressure, which comes in contact with milk or dairy products or any product contact surface shall comply with the 3–A Accepted Practices for Supplying Air Under Pressure.

(f) *Disposal of wastes.* Dairy wastes shall be properly disposed of from the plant and premises. The sewer system shall have sufficient slope and capacity to readily remove all waste from the various processing operations. Where a public sewer is not available, all wastes shall be properly disposed of so as not to contaminate milk equipment or to create a nuisance or public health hazard. Containers used for the collection and holding of wastes shall be constructed of metal, plastic, or other equally impervious material and kept covered with tight fitting lids. Waste shall be stored in an area or room in a manner to protect it from flies and vermin. Solid wastes shall be disposed of regularly and the containers cleaned before re-use. Accumulation of dry waste paper and cardboard shall be kept to a minimum and disposed of in a manner that is environmentally acceptable.

§ 58.128 Equipment and utensils.

(a) General construction, repair and installation.—The equipment and utensils used for the processing of milk and manufacture of dairy products shall be constructed to be readily demountable where necessary for cleaning and sanitizing. The product contact surfaces of all utensils and equipment such as holding tanks, pasteurizers, coolers, vats, agitators, pumps, sanitary piping and fittings or any specialized equipment shall be constructed of stainless steel, or other materials which under conditions of intended use are as equally corrosion resistant. Non-metallic parts other than glass having product contact surfaces shall comply with 3–A Sanitary Standards for Plastic or Rubber and Rubber-Like Materials. Equipment and utensils used for cleaning shall be in an acceptable condition, such as not rusty, pitted or corroded. All equipment and piping shall be designed and installed so as to be easily accessible for cleaning, and shall be kept in good repair, free from cracks and corroded surfaces. New or rearranged equipment, shall be set away from any wall or spaced in such a manner as to facilitate proper cleaning and to maintain good housekeeping. All parts or interior surfaces of equipment, pipes (except certain piping cleaned-in-place) or fittings, including valves and connections shall be accessible for inspection. Milk and dairy product pumps shall be of a sanitary type and easily dismantled for cleaning or shall be of specially approved construction to allow effective cleaning in place.

All C.I.P. systems shall comply with the 3–A Accepted Practices for Permanently Installed Sanitary Product, Pipelines and Cleaning Systems.

(b) *Weigh cans and receiving tanks.* Weigh cans and receiving tanks shall comply with the 3–A Sanitary Standards for Weigh Cans and Receiving Tanks for Raw Milk and shall be easily accessible for cleaning both inside and outside and shall be elevated above the floor and protected sufficiently with the necessary covers or baffles to prevent contamination from splash, condensate and drip-page. Where necessary to provide easy access for cleaning of floors and adjacent wall areas, the receiving tank shall be equipped with wheels or casters to allow easy removal.

(c) *Can washers.* Can washers shall have sufficient capacity and ability to discharge a clean dry can and cover and shall be kept properly timed in accordance with the instructions of the manufacturer. They should be equipped with proper temperature controls on the wash and rinse tanks and the following additional devices: prerinse jet, wash tank solution feeder, can sanitizing attachment, forced air vapor exhaust, and removable air filter on drying chamber. The water and steam lines supplying the washer shall maintain a reasonably uniform pressure and if necessary be equipped with pressure regulating valves. The steam pressure to the can washer should be not less than 80 pounds, and the temperature of the wash and final rinse solution should be automatically controlled and not exceed 140° F.

(d) *Product storage tanks or vats.* Storage tanks or vats shall be fully enclosed or tightly covered and well insulated. The entire interior surface, agitator and all appurtenances shall be accessible for thorough cleaning and inspection. Any opening at the top of the tank or vat including the entrance of the shaft shall be suitably protected against the entrance of dust, moisture, insects, oil or grease. The sight glasses, if used, shall be sound, clear, and in good repair. Vats which have hinged covers shall be easily cleaned and shall be so designed that moisture, or dust on the surface cannot enter the vat when the covers are raised. If the storage tanks or vats are equipped with air agitation, the system shall be of an approved type and properly installed in accordance with the 3–A Accepted Practices for Supplying Air Under Pressure. Storage tanks or vats intended to hold product for longer than approximately 8 hours shall be equipped with adequate refrigeration and/or have adequate insulation. New or replacement storage tanks or vats shall comply with the appropriate 3–A Sanitary Standards for Storage Tanks of Milk and Milk Products or Sanitary Standards for Silo-Type Storage Tanks for Milk and Milk Products and shall be equipped with thermometers in good operating order.

(e) *Separators.* All product contact surfaces of separators shall be free from rust and pits and insofar as practicable shall be of stainless steel or other equally noncorrosive metals.

(f) *Coil or dome type batch pasteurizers.* Coil or dome type batch pasteurizers shall be stainless steel lined and if the coil is not stainless steel or other equally noncorrosive metal it shall be properly tinned over the entire surface. Sanitary seal assemblies at the shaft ends of coil vats shall be of the removable type, except that existing equipment not provided with this type gland will be acceptable if the packing glands are maintained and operated without adverse effects. New or replacement units shall be provided with removable pack-

XUM
V 40 30 FEB 12 75 F
XUM

ing glands. Dome type pasteurizer agitators shall be stainless steel except that any non-metallic parts shall comply with 3–A Sanitary Standards for Plastic or Rubber and Rubberlike Materials, as applicable. Each pasteurizer used for heating product at a temperature of 5° F. or more above the minimum pasteurization temperature need not have . .e air-space heater. It shall be equipped with an air-space thermometer to insure a temperature at least 5° F. above that required for pasteurization of the product. There shall be adequate means of controlling the temperature of the heating medium. Batch pasteurizers shall have temperature indicating and recording devices.

(g) *Short time pasteurizing systems.* When pasteurization is intended or required, an approved timing pump or device, recorder-controller, automatic flow diversion valve and holding tube or its equivalent, if not a part of the existing equipment, shall be installed on all such equipment used for pasteurizat.on, to assure complete pasteurization. The entire facility shall comply with the 3–A Accepted Practices for the Sanitary Construction, Installation, Testing and Operation of High Temperature Short Time Pasteurizers. After the unit has been tested according to the 3–A Accepted Practices, the timing pump or device and the recorder controller shall be sealed at the correct setting to assure pasteurization. The system should be rechecked semi-annually to assure continued compliance with the 3–A Accepted Practices. Sealing and rechecking of the unit shall be performed by the control authority having jurisdiction. When direct steam pasteurizers are used, the steam, prior to entering the product, shall be conducted through a steam strainer and a steam purifier equipped with a steam trap and only steam meeting the requirements for culinary steam shall be used.

(h) *Thermometers and recorders.* (1) *Indicating thermometers.* (i) Long stem indicating thermometers which are accurate within 0.5° F., plus or minus, for the applicable temperature range, shall be provided for checking the temperature of pasteurization and cooling of products in vats and checking the accuracy of recording thermometers.

(ii) Short stem indicating thermometers, which are accurate within 0.5° F., plus or minus, for the applicable temperature range, shall be installed in the proper stationary position in all pasteurizers. Storage tanks where temperature readings are required shall have thermometers which are accurate within 2.0° F., plus or minus.

(iii) Air space indicating thermometers, where applicable, which are accurate within 1.0° F., plus or minus, for the proper temperature range shall also be installed above the surface of the products pasteurized in vats, to make certain that the temperature of the foam and/or air above the products pasteurized also received the required minimum temperature treatment.

(2) *Recording thermometers.* (i) Recording thermometers that are accurate within 1° F., plus or minus, for the applicable temperature range, shall be used on each heat treating, pasteurizing or thermal processing unit to record the heating process.

(ii) Additional use of recording thermometers accurate within 2° F., plus or minus may be required where a record of temperature or time of cooling and holding is of significant importance.

(iii) Recorder charts shall be marked to show date and plant identification, reading of the indicating thermometer at a particular referenced reading point on the recording chart, amount and name of product, product temperature at which the "cut-in" and "cut-out" function, record of the period in which flow diversion valve is in forward-flow position, signature or initials of operator.

(i) *Surface coolers.* Surface coolers shall be equipped with hinged or removable covers for the protection of the product. The edges of the fins shall be so designed as to divert condensate on non-product contact surfaces away from product contact surfaces. All gaskets or swivel connections shall be leak proof.

(j) *Plate type heat exchangers.* Plate type heat exchanger shall comply with the 3–A Sanitary Standards Plate Type Heat Exchangers for Milk and Milk Products. All gaskets shall be tight and kept in good operating order. Plates shall be opened for inspection by the operator at sufficiently frequent intervals to determine if the equipment is clean and in satisfactory condition. A cleaning regimen should be posted to insure proper cleaning procedures between inspection periods.

(k) *Internal return tubular heat exchangers.* Internal return tubular heat exchangers shall comply with the 3–A Sanitary Standards for Internal Return Tubular Heat Exchangers for Use with Milk and Milk Products.

(l) *Pumps.* Pumps used for milk, and dairy products shall be of the sanitary type and constructed to comply with 3–A Sanitary Standards for Pumps for Milk and Milk Products. Unless pumps are specifically designed for effective cleaning-in-place they shall be disassembled and thoroughly cleaned after use.

(m) *Scales.* All scales shall comply with National Bureau of Standards Handbook 44. (Latest revision).

(1) Small capacity scales shall be capable of the following accuracy, and shall be graduated in no higher than one ounce graduations. (This table taken from the presently effective 1973 revision.)

	Minimum tolerance	
	Ounces	Pounds
Load in pounds:		
0 to 4 inclusive	1/32	0.002
5 to 10 inclusive	1/16	.004
11 to 20 inclusive	1/8	.008
21 to 30 inclusive	3/16	.012
31 to 50 inclusive	1/4	.031
51 to 500 inclusive	3/4	.047

(2) Large capacity scales shall be capable of the following accuracy, and shall be graduated in no higher than ¼ pound graduations for scales of capacity of up to 250 pounds; ½ pound graduations for scales above 250 pounds capacity.

(This table taken from the presently effective 1973 revision.)

	Minimum tolerance	
	Ounces	Pounds
Load in pounds:		
101 to 150 inclusive	1¼	0.078
151 to 250 inclusive	2	.125
251 to 500 inclusive	4	.250
501 to 1000 inclusive	8	.500
1001 to 2500 inclusive		1.0

Compliance shall be determined by the appropriate regulatory authority.

(n) *Homogenizers.* Homogenizers and high pressure pumps of the plunger type shall comply with the 3–A Sanitary Standards for Homogenizers and Pumps of the Plunger Type and shall be disassembled and thoroughly cleaned after use.

(o) *New equipment and replacements.* New equipment and replacements, including all plastic parts and rubber and rubberlike materials for parts and gaskets having product contact surfaces, shall comply with the then current 3–A Sanitary Standards. If 3–A Sanitary Standards are not available, such equipment and replacements shall meet the general requirements of this section. Only material that is sanitary, readily cleanable and non-toxic shall be used for product contact surfaces, parts and gaskets.

(p) *Vacuumizing equipment.* The vacuum chamber, as used for flavor control, shall be made of stainless steel or other equally corrosion resistant metal. The unit shall be constructed to facilitate cleaning and all product contact surfaces shall be accessible for inspection. Vacuum chambers located on the pasteurized side of the unit shall be isolated by means of a vacuum breaker and a positive activated check valve on the product inlet side and a vacuum breaker and a positive activated check valve on the discharge side. If direct steam is used, it should also be equipped with a ratio controller to regulate the composition when applicable to the finished product. Only steam which meets the requirements for culinary steam shall be used. The incoming steam supply shall be regulated by an automatic solenoid valve which will cut off the steam supply in the event the flow diversion valve of the pasteurizer is not in the forward flow position. Condensers when used shall be equipped with a water level control and an automatic safety shutoff valve.

§ 58.129 Cleanliness.

All employees shall wash their hands before beginning work and upon returning to work after using toilet facilities, eating, smoking or otherwise soiling their hands. They shall keep their hands clean

and follow good hygienic practices while on duty. Expectorating or use of tobacco in any form shall be prohibited in each room and compartment where any milk, dairy products, or supplies are prepared, stored or otherwise handled. Clean white or light-colored washable or disposable outer garments and caps (paper caps, hard hats, or hair nets acceptable) shall be worn to completely enclose the hair and beards when grown by all persons engaged in receiving, testing, processing milk, manufacturing, packaging or handling dairy products.

§ 58.130 Health.

No person afflicted with a communicable disease shall be permitted in any room or compartment where milk and dairy products are prepared, manufactured or otherwise handled. No person who has a discharging or infected wound, sore or lesion on hands, arms or other exposed portion of the body shall work in any dairy processing rooms or in any capacity resulting in contact with milk, or dairy products. Each employee whose work brings him in contact with the processing or handling of dairy products, containers or equipment should have a medical and physical examination by a registered physician or by the local department of health at the time of employment. An employee returning to work following illness from a communicable disease shall have a certificate from the attending physician to establish proof of complete recovery.

PROTECTION AND TRANSPORT OF RAW MILK AND CREAM

§ 58.131 Equipment and facilities.

(a) (1) *Milk cans.* Cans used in transporting milk from dairy farm to plant shall be of such construction (preferably seamless with umbrella lids) as to be easily cleaned, and shall be inspected, repaired, and replaced as necessary to exclude substantially the use of cans and lids with open seams, cracks, rust, milkstone, or any unsanitary condition. Adequate provisions should be made so that milk in cans will be cooled immediately after milking to 50° F. or lower unless delivered to the plant within two hours after milking.

(2) *Farm bulk tanks.* Farm bulk tanks shall comply with 3–A Sanitary Farm Cooling and Holding Tanks or 3–A Sanitary Standards for Farm Cooling and Holding Tanks or 3–A Sanitary Standards for Farm Milk Storage Tanks as applicable. They shall be installed in a milk house in accordance with the requirements of the regulatory agency in jurisdiction. The bulk cooling tanks shall be designed and equipped with refrigeration to permit the cooling of the milk to 40° F. or lower within two hours after milking, and maintain it at 45° F. or below until picked up.

(b) (1) *Receiving stations.* Receiving stations shall comply with the applicable sections of this subpart covering premises, buildings, facilities, equipment, utensils, personnel, cleanliness and health.

(2) *Transfer stations.* Transfer stations shall comply with the applicable sections of this subpart covering premises, floors, lighting, water supply, hand-washing facilities, disposal of wastes, general construction, repair and installation of equipment, piping and utensils and personnel—cleanliness and health. As climatic and operating conditions require the transfer station shall comply with the applicable sections for walls ceilings, doors and windows.

(3) *Cream stations.* Cream stations shall provide adequate protection and facilities for the handling, transferring and cooling of farm separated cream. The area shall be large enough to avoid undue crowding with a normal volume of business and shall be separated from other areas and the outside by self closing, tight fitting doors. All openings shall be screened during fly season. The floor, walls and ceiling shall be of satisfactory construction, in good repair and kept clean. Lighting and ventilation shall meet the requirements of section 58.126 (d). Cooling facilities shall be provided to cool the cream to 50° F. or lower unless shipped within 8 hours after receipt. Facilities shall be provided to wash, sanitize and store cans and equipment used in the operation. The cream should not be more than four days old when picked up for delivery to the processing plant.

(c) (1) *Transporting milk or cream.* Vehicles used for the transportation of can milk or cream shall be of the enclosed type, constructed and operated to protect the product from extreme temperature, dust, or other adverse conditions and they shall be kept clean. Decking boards or racks shall be provided where more than one tier of cans is carried. Cans or vehicles used for the transportation of milk from the farm to the plant shall not be used for transporting skim milk, buttermilk, or whey to producers.

(2) *Transport tanks.* The exterior shell shall be clean and free from open seams or cracks which would permit liquid to enter the jacket. The interior shell shall be stainless steel and so constructed that it will not buckle, sag or prevent complete drainage. All product contact surfaces shall be smooth, easily cleaned and maintained in good repair. The pump and hose cabinet shall be fully enclosed with tight fitting doors and the inlet and outlet shall be provided with dust covers to give adequate protection from road dust. Tank manholes should be equipped with an adequate filtering system during loading and unloading. New and replacement transport tanks shall comply with 3–A Sanitary Standards for Stainless Steel Automotive Milk and Milk Products Transportation Tanks for Bulk Delivery and/or Farm Pick-up Service.

(3) *Facilities for cleaning and sanitizing.* Enclosed or covered facilities (as climatic conditions require) shall be available for washing and sanitizing of transport tanks, piping, and accessories, at central locations or at all plants that receive or ship milk or milk products in transport tanks.

(d) *Transfer of milk to transport tank.* Milk shall be transferred under sanitary conditions from farm bulk tanks through stainless steel piping or approved tubing. The sanitary piping and tubing shall be capped when not in use.

QUALITY SPECIFICATIONS FOR RAW MILK

§ 58.132 Basis for classification.

Raw milk for manufacturing purposes, from all individual producers, shall be based on the following: organoleptic examination (appearance and odor), quality control tests for sediment content, and bacterial estimate. In addition, milk from cows treated with antibiotics shall be excluded for such period of time as is necessary to have the milk free from antibiotics. All milk received from producers shall not exceed Federal Food and Drug Administration's established limits for pesticide residues. Producers shall be promptly notified of any shipment or portion thereof of their milk that fails to meet any of these quality specifications.

§ 58.133 Methods for quality and wholesomeness determination.

(a) *Appearance and odor.* The appearance and odor of acceptable raw milk shall be normal, fresh and sweet. The milk shall be free from objectionable feed and other off-odors that would adversely affect the finished product, and it shall not show any abnormal condition (including, but not limited to curdled, ropy, bloody, or mastitic condition), as indicated by sight, odor, or other test procedures.

(b) *Abnormal milk.* (1) A laboratory examination for the presence of unwholesome mammary secretions—whether of an inflammatory, infectious, physiological, or environmental origin—shall be made on all patrons milk at least 4 times in each 6 month period at irregular intervals.

(2) When a herd milk sample exceeds any of the following screening test results:

(i) California Mastitis Test—Weak Positive (CMT 1+).

(ii) Modified Whiteside Test—Positive (1+).

(iii) Wisconsin Mastitis Test—WMT value of 21 mm.

A somatic cell count using the Direct Microscopic Count Method or equivalent, or the Electronic Method shall be made on that sample and the results of the somatic cell direct count shall be the official result.

(3) Whenever the somatic cell count indicates the presence of more than 1,500,000 somatic cells per ml., the following procedures shall be applied:

(i) A notice shall be sent to the producer warning him of the excessive somatic cell count.

(ii) Whenever two of the last four consecutive somatic cell counts exceed 1,500,000 cells per ml. the appropriate regulatory authority shall be notified and a written notice given to the producer. This notice shall be in effect so long as two of the last four consecutive samples exceed 1,500,000 cells per ml. In addition to the written notice an inspection shall be made of the farm facility.

(4) A third milk sample shall be taken after a lapse of 3 days and within 14

XUM
V40130
FEB 12 75
XUM

days of the inspection required under (2) above. If this sample also indicates a high somatic cell count, the patron's milk shall be rejected until satisfactory compliance is obtained.

(c) *Antibiotics.* At least 4 times in 6 months, at irregular intervals, a separate or commingled sample of each producer's milk shall be tested for antibiotic residues. When a producer's milk shows a positive test the milk shall be immediately rejected from all markets and shall not be accepted until a subsequent test is negative.

§ 58.134 Sediment content.

(a) *Method of testing.* Methods for determining sediment content of milk shall be those described in the latest edition of Standard Methods for the Examination of Dairy Products. For the testing of milk in cans, the off-the-bottom method shall be used. For testing bulk milk, a mixed one-pint sample shall be tested. Sediment content shall be based on comparison with applicable charts of Sediment Standards described in Subpart T 58.2728 through 58.2731 of this part.

(b) *Sediment content classification of discs.* Milk in cans and in farm bulk tanks shall be classified for sediment content as follows:

(1) Sediment (off - the - bottom method): (1⅛ inch diameter disc).

No. 1—USDA Sediment Standard (not to exceed) 0.50 mg. (Acceptable).
No. 2—USDA Sediment Standard (not to exceed) 1.50 mg. (Acceptable).
No. 3—USDA Sediment Standard (not to exceed) 2.50 mg. (Probational) not over 10 days.
No. 4—USDA Sediment Standard (over 2.50 mg.) (Reject).

(2) Sediment (mixed sample): (0.40 inch diameter disc).

No. 1—USDA Sediment Standard (not to exceed) 0.0625 mg. (0.50 mg. equiv.) (Acceptable).
No. 2—USDA Sediment Standard (not to exceed) 0.1875 mg. (1.50 mg. equiv.) (Acceptable).
No. 3—USDA Sediment Standard (not to exceed) 0.3125 mg. (2.50 mg. equiv.) (Probational) not over 10 days.
No. 4—USDA Sediment Standard (over) 0.3125 mg. (2.5 mg. equiv.) (Reject).

(c) *Frequency of tests.* At least once each month, at irregular intervals, the milk from each producer shall be tested as follows:

(1) *Milk in cans.* One or more cans of milk selected at random from each producer.

(2) *Milk in farm bulk tanks.* A sample shall be taken from each farm bulk tank.

(d) *Acceptance or rejection of milk.* If the sediment disc is classified as No. 1, No. 2, or No. 3 the producer's milk may be accepted. If the sediment disc is classified No. 4 the milk shall be rejected: *Provided that* if the shipment of milk is commingled with other milk in a transport tank the next shipment shall not be accepted until its quality has been determined before being picked up; however, if the person making the test is unable to get to the farm before the next shipment it may be accepted but no further shipments shall be accepted unless the milk meets the requirements of No. 3 or better. In the case of milk classified as No. 3 or No. 4, if in cans, all cans shall be tested. Producers of No. 3 or No. 4 milk (cans or bulk) shall be notified immediately and shall be furnished applicable sediment discs and the next shipment shall be tested.

(e) *Retests.* On test of the next shipment (if in cans, all cans shall be tested) milk classified as No. 1, No. 2, or No. 3 may be accepted, but No. 4 milk shall be rejected. Retests of bulk milk classified as No. 4 shall be made before pickup. The producers of No. 3 or No. 4 milk shall be notified immediately, furnished applicable sediment discs and the next shipment tested.

This procedure of retesting successive shipments and accepting probational (No. 3) milk and rejecting No. 4 milk may be continued for not more than 10 calendar days. If at the end of this time all of the producer's milk does not meet the acceptable sediment content classification (No. 1 or No. 2), it shall be rejected.

§ 58.135 Bacterial estimate.

(a) *Method of testing.* Methods for determining the bacterial estimate of milk shall be those described in the latest edition of Standard Methods for the Examination of Dairy Products.

(b) *Bacterial estimate classification.* Milk shall be classified for bacterial estimate by one of the following methods:

Bacterial estimate classification	Direct microscopic count, standard plate count or plate loop count	Resazurin reduction time to Munsell color standard 5 P 7/4
No. 1:		
Can	Not over 500,000 per milliliter.	Not less than 2¼ hours.
Bulk	do	Not less than 3¼ hours.
No. 2:		
Can	Not over 3,000,000.	Not less than 1½ hours.
Bulk	do	Not less than 2½ hours.
Undergrade:		
Can	Over 3,000,000	Less than 1½ hours.
Bulk	do	Less than 2½ hours.

(c) *Frequency of tests.* At least once each month, at irregular intervals, a mixed sample of each producer's milk shall be tested.

(d) *Acceptance of milk.* If the sample of milk is classified as No. 1 or No. 2 the producer's milk may be accepted without qualification. If the sample is classified as "Undergrade" (probational) the producer's milk may be accepted for a temporary period of four weeks. The producer of "Undergrade" milk shall be notified immediately.

(e) *Retests.* Additional samples shall be tested and classified at least weekly and the producer notified immediately of the results. This procedure of testing at least weekly and accepting "Undergrade" milk may be continued for a time period not exceeding four weeks. If at the end of this time the producer's milk does not meet the acceptable bacterial estimate requirements (No. 1 or No. 2), it shall be rejected.

§ 58.136 Rejected milk.

A plant shall reject specific milk from a producer if it fails to meet the requirements for sight and odor (section 58.133) or if it is classified No. 4 for sediment content (section 58.135). Such milk shall be identified with a reject tag.

§ 58.137 Excluded milk.

A plant shall not accept milk from a producer for use in products:

(a) If a new producer's milk does not meet the requirements for acceptable milk (sections 58.134 and 58.135); or

(b) If the milk has been in a probational (No. 3) sediment content classification for more than ten calendar days (section 58.134); or

(c) If the milk has been classified "Undergrade" for bacterial estimate for more than four successive weeks (section 58.135).

§ 58.138 Quality testing of milk from new producers.

An examination shall be made on the first shipment of milk from producers shipping milk to a plant for the first time or after a period of nonshipment. The milk shall meet the requirements for "acceptable milk" (sections 58.134 and 58.135). Thereafter, the milk shall be tested in accordance with the procedure established for regular shippers.

§ 58.139 Record of tests.

Accurate records, listing the results of quality tests of each producer, shall be kept on file at the receiving plant where performed and shall be available for examination by the inspector.

§ 58.140 Field service.

A representative of the plant should arrange to promptly visit each producer shipping milk which does not meet the requirements for acceptable milk, for the purpose of inspecting the equipment, utensils and facilities at the farm and to offer constructive assistance for improvement in the quality of the milk. A representative of the plant should visit each producer as often as practicable to assist in and encourage the production of high quality milk.

§ 58.141 Alternate quality control program.

When a plant has in operation an acceptable quality program, at the producer level, which is approved by the Administrator as being effective in obtaining results comparable to or higher than the quality program as outlined above for milk or cream, then such a program may be accepted in lieu of the program herein prescribed.

OPERATIONS AND OPERATING PROCEDURES

§ 58.142 Product quality and stability.

The receiving, holding and processing of milk and cream and the manufacturing, handling, packaging, storing and delivery of dairy products shall be in accordance with clean and sanitary methods, consistent with good commercial practices to promote the production of the highest quality of finished product and improve product stability. Milk should not be more than two days old when delivered to the plant.

§ 58.143 Raw product storage.

All milk shall be held and processed under conditions and at temperatures that will avoid contamination and rapid deterioration. Drip milk from can washers and any other source shall not be used for the manufacture of dairy products. Bulk milk in storage tanks within the dairy plant shall be handled in such a manner as to minimize bacterial increase and shall be maintained at 45° F. or lower until processing begins. This does not preclude holding milk at higher temperatures for a period of time, where applicable to particular manufacturing or processing practices.

The bacteriological quality of commingled milk in storage tanks shall not exceed 3,000,000/ml.

§ 58.144 Pasteurization or ultra-pasteurization.

When pasteurization or ultra-pasteurization is intended or required, or when a product is designated "pasteurized" or "ultra-pasteurized" every particle of the product shall be subjected to such temperatures and holding periods in approved systems as will assure proper pasteurization or ultra-pasteurization of the product. The heat treatment by either process shall be sufficient to insure public health safety and to assure adequate keeping quality, yet retaining the most desirable flavor and body characteristics of the finished product.

§ 58.145 Composition and wholesomeness.

All necessary precautions shall be taken to prevent contamination or adulteration of the milk or dairy products during manufacturing. All substances and ingredients used in the processing or manufacturing of any dairy product shall be subject to inspection and shall be wholesome and practically free from impurities. The finished products shall comply with the requirements of the Federal Food, Drug, and Cosmetic Act as to their composition and wholesomeness.

§ 58.146 Cleaning and sanitizing treatment.

(a) *Equipment and utensils.* The equipment, sanitary piping and utensils used in receiving and processing of the milk, and manufacturing and handling of the product shall be maintained in a sanitary condition. Sanitary seal assemblies shall be removable on all agitators, pumps, and vats and shall be inspected at regular intervals and kept clean. Unless other provisions are recommended in the following supplement sections, all equipment not designed for C. I. P. cleaning or mechanical cleaning shall be disassembled after each day's use for thorough cleaning. Dairy cleaners, detergents, wetting agents or sanitizing agents, or other similar materials which will not contaminate or adversely affect the products may be used. Steel wool or metal sponges shall not be used in the cleaning of any dairy equipment or utensils.

Product contact surfaces shall be subjected to an effective sanitizing treatment prior to use, except where dry cleaning is permitted. Utensils and portable equipment used in processing and manufacturing operations shall be stored above the floor in clean, dry locations and in a self draining position on racks constructed of impervious corrosion-resistant material.

C.I.P. cleaning or mechanical cleaning systems shall be used only on equipment and pipeline systems which have been designed, engineered and installed for that purpose. When such cleaning is used, careful attention shall be given to the proper procedures to assure satisfactory cleaning. All C.I.P. installations and cleaning procedures shall be in accordance with 3–A Suggested Method for the Installation and Cleaning of Cleaned-In-Place Sanitary Milk Pipelines for Milk and Milk Products Plants. Because of the possibilities of corrosion, the recommendations of the cleaning compound manufacturer should be followed with respect to time, temperature and concentration of specific acid or alkaline solutions and bactericides. Such cleaning operation should be preceded by a thorough rinse at approximately 110–115° F. continuously discarding the water. Following the circulation of the cleaning solution the equipment and lines shall be thoroughly rinsed with lukewarm water and checks should be made for effectiveness of cleaning. All caps, plugs, special fittings, valve seats, cross ends, pumps, and tee ends shall be opened or removed and brushed clean. All non-pasteurized product contact surfaces should be sanitized. Immediately prior to starting the product flow, the pasteurized product contact surfaces shall be given sanitizing treatment.

(b) *Milk cans and can washers.* Milk cans and lids shall be cleaned, sanitized and dried before returning to producers. Inspection, repair or replacement of cans and lids shall be adequate to substantially exclude from use cans and lids showing open seams, cracks, rust condition, milkstone or any unsanitary condition.

Washers shall be maintained in a clean and satisfactory operating condition and kept free from accumulation of scale or debris which will adversely affect the efficiency of the washer. Only washing compounds which are compatible with the water for effective cleaning, should be used. The can washer should be checked regularly during the run for proper operation. At the end of the day, the wash and rinse tanks should be drained and cleaned, jets and strainers cleaned, air filters checked and changed or cleaned if needed, and checks should be made for proper adjustment and condition of mechanical parts.

(c) *Milk transport tanks.* A covered or enclosed wash dock and cleaning and sanitizing facilities shall be available to all plants that receive or ship milk in tanks. Milk transport tanks, sanitary piping, fittings, and pumps shall be cleaned and sanitized at least once each day after use; provided that, if they are not to be used immediately after emptying a load of milk, they shall be washed promptly after use and given bactericidal treatment immediately before use. After being washed and sanitized, each tank should be identified by a tag attached to the outlet valve, bearing the following information: plant and specific location where cleaned, date and time of day of washing and sanitizing, and name of person who washed and name of person who sanitized the tank. The tag shall not be removed until the tank is again washed and sanitized.

(d) *Building.* All windows, glass, partitions, and skylights should be washed as often as necessary to keep them clean. Cracked or broken glass shall be replaced promptly. The walls, ceilings and doors should be washed periodically and kept free from soil and unsightly conditions. The shelves and ledges should be wiped or vacuumed as often as necessary to keep them free from dust and debris. The material picked up by the vacuum cleaners shall be disposed of in sealed containers which will prevent contamination or insect infestation from the waste material.

§ 58.147 Insect and rodent control program.

In addition to any commercial pest control service, if one is utilized, a specially designated employee should be made responsible for the performance of a regularly scheduled insect and rodent control program. Poisonous substances, insecticides and rodenticides shall be properly labeled, and shall be handled, stored and used in such a manner as considered satisfactory by the Environmental Protection Agency.

§ 58.148 Plant records.

Adequate plant records shall be maintained of all required tests and analyses performed in the laboratory or throughout the plant during processing and manufacturing, on all raw milk receipts and dairy products. Such records shall be available for examination at all reasonable times by the inspector. The following are the records which shall be maintained for examination at the plant or receiving station where performed.

(a) Sediment and bacterial test results on raw milk from each producer. Retain for 12 months.

(1) Routine tests and monthly summary of all producers showing number and percent of total in each class.

(2) Retests, if initial test places milk in probationary status.

(3) Rejections of raw milk over No. 3 in quality.

(b) Pasteurization recorder charts. Retain for 3 months.

(c) Water supply test certificate. Retain current copy for 6 months.

§ 58.149 Alternate quality control programs for dairy products.

(a) When a plant has in operation an acceptable quality control program which is approved by the Administrator as be-

XUM
V40I30 FEB 1275 XUM

ing effective in obtaining results comparable to or higher than the quality control program as outlined in this subpart, then such a program may be accepted in lieu of the program herein prescribed.

(b) Where a minimum number of samples per batch of product, or per unit of time on continuous production runs are not specified, the phrase "as many samples shall be taken as is necessary to assure compliance to specific quality requirements" is used. Acceptable performance of this would be any method approved by the Administrator as meeting sound statistical methods of selecting samples and determining the number of samples to be taken.

PACKAGING AND GENERAL IDENTIFICATION

§ 58.150 Containers.

The size, style, and type of packaging used for dairy products shall be commercially acceptable containers and packaging materials which will satisfactorily cover and protect the quality of the contents during storage and regular channels of trade and under normal conditions of handling.

Packaging materials for dairy products shall be selected which will provide sufficiently low permeability to air and vapor to prevent the formation of mold growth and surface oxidation. In addition, the wrapper should be resistant to puncturing, tearing, cracking or breaking under normal conditions of handling, shipping and storage. When special type packaging is used, the instructions of the manufacturer shall be followed closely as to its application and methods of closure.

§ 58.151 Packaging and repackaging.

Packaging dairy products or cutting and repackaging all styles of dairy products shall be conducted under rigid sanitary conditions. The atmosphere of the packaging rooms, the equipment and packaging materials shall be practically free from mold and bacterial contamination. Methods for checking the level of contamination shall be as prescribed by the latest edition of Standard Methods or by other satisfactory methods approved by the Administrator.

When officially graded bulk dairy products are to be repackaged into consumer type packages with official grade labels or other official identification, a supervisor of packaging shall be required, see Subpart A of this part. (Title 7, Ch. I, Pt. 58, sec. 58.2 and 58.53 of the Code of Federal Regulations). If the packaging or repackaging is done in a plant other than the one in which the dairy product is manufactured, the plant, equipment, facilities and personnel shall meet the same requirements as outlined in this subpart.

§ 58.152 General identification.

All commercial bulk packages or consumer packaged product containing dairy products manufactured under the provisions of this subpart shall comply with the Food and Drug Administration's Fair Packaging and Labeling Act.

STORAGE OF FINISHED PRODUCT

§ 58.153 Dry storage.

The product should be stored at least 18 inches from the wall in aisles, rows, or sections and lots, in such a manner as to be orderly and easily accessible for inspection. Rooms should be cleaned regularly. It is recommended that dunnage or pallets be used when practical. Care shall be taken in the storage of any other product foreign to dairy products in the same room, in order to prevent impairment or damage to the dairy product from mold, absorbed odors, or vermin or insect infestation. Control of humidity and temperature shall be maintained at all times, consistent with good commercial practices, to prevent conditions detrimental to the product and container.

§ 58.154 Refrigerated storage.

Finished product in containers subject to such conditions that will affect its useability shall be placed on shelves, dunnage or pallets and properly identified. It shall be stored under temperatures that will best maintain the initial quality. The product shall not be exposed to anything from which it might absorb any foreign odors or be contaminated by drippage or condensation.

INSPECTION, GRADING AND OFFICIAL IDENTIFICATION

§ 58.155 Grading.

Dairy products which have been processed or manufactured in accordance with the provisions of this subpart may be graded by the grader in accordance with the U.S. Standards for Grades. Laboratory analyses, when required in determining the final grade shall be conducted in an approved laboratory.

§ 58.156 Inspection.

Dairy products, which have been processed or manufactured in an approved plant, and for which there are no official U.S. Standards for Grades, shall be inspected for quality by the inspector in accordance with contract requirements or product specifications established by the U.S. Department of Agriculture or other Federal agency or buyer and seller. Laboratory analysis when required shall be conducted in an approved laboratory.

§ 58.157 Inspection or grading certificates.

All dairy products which have been processed or manufactured, packaged and inspected or graded in accordance with the provision of this part may be covered by an inspection or grading certificate issued by the inspector or grader.

§ 58.158 Official identification.

(a) Application for authority to apply official identification to packaging material or containers shall be made in accordance with the provisions of Subpart A of this part. (Title 7, Ch. I, Pt. 58, secs. 58.49–58.57 of the Code of Federal Regulations.)

(b) Only dairy products received, processed, or manufactured in accordance with the specifications contained in this subpart and inspected and/or graded in accordance with the provisions of this part may be identified with official identification.

EXPLANATION OF TERMS

§ 58.159 Terms.

(a) *Fresh and sweet.* Free from "old milk" flavor of developed acidity or other off-flavors.

(b) *Normal feed.* Regional feed flavors, such as alfalfa, clover, silage, or similar feeds or grasses (weed flavors, such as peppergrass, French weed, onion, garlic, or other obnoxious weeds, excluded).

(c) *Off-flavors.* Tastes or odors, such as utensil, bitter, barny, or other associated defects when present to a degree readily detectable.

(d) *Developed acidity.* An apparent increase from the normal acidity of the milk to a degree of taste and odor which is detectable.

(e) *Extraneous matter.* Foreign substances, such as filth, hair, insects and fragments thereof, and rodents, and materials, such as metal, fiber, wood and glass.

(f) *Sediment.* Fine particles of material other than the foreign substances and materials defined in paragraph (e) of this section.

(g) *C.I.P.* The abbreviation of an approved system of cleaning equipment or pipelines called "Cleaned-in-Place."

(h) *Mechanical cleaning.* Denotes cleaning solely by circulation and/or flowing chemical detergent solution and water rinses onto and over the surfaces to be cleaned, by mechanical means.

SUPPLEMENTAL SPECIFICATIONS FOR PLANTS MANUFACTURING, PROCESSING AND PACKAGING NONFAT DRY MILK, INSTANT NONFAT DRY MILK, DRY WHOLE MILK, AND DRY BUTTERMILK

DEFINITIONS

§ 58.205 Meaning of words.

For the purpose of the regulations in this subpart, words in the singular form shall be deemed to import the plural and vice versa, as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning:

(a) *Nonfat dry milk.* The pasteurized product resulting from the removal of fat and water from milk, and contains the lactose, milk proteins, and milk minerals in the same relative proportions as in the fresh milk from which made. It shall not contain buttermilk, or any added preservative, neutralizing agent or other chemical.

(b) *Instant nonfat dry milk.* Nonfat dry milk which has been produced in such a manner as to substantially improve its dispersing and reliquification characteristics over that produced by the conventional process.

(c) *Dry whole milk.* The pasteurized product resulting from the removal of water from milk and contains the lactose, milk proteins, milk fat, and milk minerals in the same relative proportions as in the fresh milk from which made. The milk

may be standardized but shall not contain buttermilk, or any added preservative, neutralizing agent or other chemicals.

(d) *Dry buttermilk.* The product resulting from drying liquid buttermilk, derived from the manufacture of sweet cream butter, which has been pasteurized either before or during the process of manufacture, with or without the addition of lactic culture and to which no alkali or other chemical preservatives has been added.

ROOMS AND COMPARTMENTS

§ 58.210 Dry storage of product.

Storage rooms for the dry storage of product shall be adequate in size, kept clean, orderly, free from rodents, insects, and mold, and maintained in good repair. They shall be adequately lighted and ventilated. The ceilings, walls, beams and floors should be free from structural defects and inaccessible false areas which may harbor insects.

§ 58.211 Packaging room for bulk products.

A separate room or area shall be provided for filling bulk containers, and shall be constructed in accordance with section 58.126. The number of control panels and switch boxes in this area should be kept to a minimum. Control panels shall be mounted a sufficient distance from the walls to facilitate cleaning or satisfactorily sealed to the wall, or shall be mounted in the wall and provided with tight fitting removable doors to facilitate cleaning. An adequate exhaust system shall be provided to minimize the accumulation of product dust within the packaging room and where needed, a dust collector shall be provided and properly maintained to keep roofs and outside areas free of dry product. Only packaging materials that are used within a day's operation may be kept in the packaging area. These materials shall be kept on metal racks or tables at least six inches off the floor. Unnecessary fixtures, equipment, or false areas which may collect dust and harbor insects, should not be allowed in the packaging room.

§ 58.212 Hopper or dump room.

A separate room shall be provided for the transfer of bulk dry dairy products to the hoppers and conveyors which lead to the fillers. This room shall meet the same requirements for construction and facilities as the bulk packaging operation. Areas and facilities provided for the transfer of dry dairy products from portable bulk bins will be accepted if gasketed surfaces or direct connections are used that appreciably eliminate the escape of product into the area.

§ 58.213 Repackaging room.

A separate room shall be provided for the filling of small packages and shall meet the same requirements for construction and facilities as the bulk packaging operation.

EQUIPMENT AND UTENSILS

§ 58.214 General construction, repair and installation.

All equipment and utensils necessary to the manufacture of dry milk products, including pasteurizer, timing-pump or device, flow diversion valve and recorder controller, shall meet the same general requirements as outlined in section 58.128 of this Subpart. In addition, for certain other equipment the following requirements shall be met.

§ 58.215 Pre-heaters.

The pre-heaters shall be of stainless steel or other equally corrosion resistant material, cleanable, accessible for inspection and shall be equipped with suitable automatic temperature controls.

§ 58.216 Hotwells.

The hotwells shall be enclosed or covered and should be equipped with indicating thermometers either in the hotwell or in the hot milk inlet line to the hotwell. If used for holding high heat products, they should also have recorders.

§ 58.217 Evaporators and/or vacuum pans.

Open type evaporators and/or vacuum pans shall be equipped with an automatic condenser water level control, barometric leg, or so constructed so as to prevent water from entering the product. New or replacement units shall comply with the 3–A Sanitary Standards for Milk and Milk Products Evaporators and Vacuum Pans. When enclosed type condensers are used, no special controls are needed to prevent water from entering the product. Water collected from the condensing of product (cow water) in this equipment may be utilized for prerinsing and cleaning solution make-up; provided it is equipped with proper controls that will automatically divert any water with entrained solids to the waste water system. "Cow water" shall not be used for acidified or final equipment rinse.

§ 58.218 Surge tanks.

If surge tanks are used for hot milk, and temperatures of product including foam being held in the surge tank during processing, is not maintained at a minimum of 150° F, then two or more surge tanks shall be installed with cross connections to permit flushing and cleaning during operation. Covers easily removable for cleaning shall be provided and used at all times.

§ 58.219 High pressure pumps and lines.

High pressure lines may be cleaned-in-place and shall be of such construction that dead ends, valves and the high pressure pumps can be disassembled for hand cleaning. The high pressure pump shall comply with the 3–A Sanitary Standard for Homogenizers and Pumps of the Plunger Type.

(a) *Spray dryers.* Spray dryers shall be of a continuous discharge type and all product contact surfaces shall be of stainless steel or other equally corrosion resistant material. All joints and seams in the product contact surfaces shall be welded and ground smooth. All dryers shall be constructed so as to facilitate ease in cleaning and inspection. Sight glasses or ports of sufficient size shall be located at strategic positions. Dryers shall be equipped with suitable air intake filters. The filter system shall comply with the applicable requirements of the 3–A Accepted Practices for Milk and Milk Products Spray Drying Systems. The filtering system shall be cleaned or component parts replaced as often as necessary to maintain a clean and adequate air supply. In gas fired dryers, precautions should be taken to assure complete combustion. Air shall be drawn into the dryer from sources free from objectionable odors and smoke, dust or dirt. New systems, replacement systems, or portions of systems replaced shall comply with the requirements of the 3–A Accepted Practices for Milk and Milk Products Spray Drying Systems.

(b) *Roller dryers.* (1) The drums of a roller dryer shall be smooth, readily cleanable and free of pits and rust. The knives shall be maintained in such condition so as not to cause scoring of the drums.

(2) The end boards shall have an impervious surface and be readily cleanable. They shall be provided with a means of adjustment to prevent leakage and accumulation of milk solids. The stack, hood, the drip pan inside of the hood and related shields shall be constructed of stainless steel and be readily cleanable. The lower edge of the hood shall be constructed so as to prevent condensate from entering the product zone. The hood shall be properly located and the stack of adequate capacity to remove the vapors. The stack shall be closed when the dryer is not in operation. The augers shall be stainless steel or properly plated, and readily cleanable. The auger troughs and related shields shall be of stainless steel and be readily cleanable. All air entering the dryer room shall be filtered to eliminate dust and dirt. The filter system shall consist of filtering media or device that will effectively, and in accordance with good commercial practices, prevent the entrance of foreign substances into the drying room. The filtering system shall be cleaned or component parts replaced as often as necessary to maintain a clean and adequate air supply. All dryer adjustments shall be made and the dryer operating normally before food grade product is collected from the dryer.

(c) *Other drying systems.* These systems shall be constructed following the applicable principles of the 3–A Accepted Practices for Milk and Milk Products Spray Drying Systems.

§ 58.221 Collectors and conveyors.

Collectors shall be made of stainless steel or equally noncorrosive material and should be constructed to facilitate cleaning and inspection. Filter sack collectors, if used, shall be in good condition

XUM
V40130
FEB 12 75
XUM

and the system shall be of such construction that all parts are accessible for cleaning and inspection. Conveyors shall be of stainless steel or equally corrosion resistant material and should be constructed to facilitate thorough cleaning and inspection.

§ 58.222 Dry dairy product cooling equipment.

Cooling equipment shall be provided with sufficient capacity to cool the product as specified in 58.240. A suitable dry air supply with an effective filtering system meeting the requirements of 58.220(a) shall be provided where air cooling and conveying is used.

§ 58.223 Special treatment equipment.

Any special equipment (instantizers, hammer mills, etc.) used to treat dry milk products shall be of sanitary construction and all parts shall be accessible for cleaning and inspection. New or replacement instantizing systems shall comply with the 3-A Accepted Practices for Instantizing Systems for Dry Milk and Dry Milk Products.

§ 58.224 Sifters.

All newly installed sifters used for dry milk and dry milk products shall comply with the 3-A Sanitary Standards for Sifters for Dry Milk and Dry Milk Products. All other sifters shall be constructed of stainless steel or other equally noncorrosive material and shall be of sanitary construction and accessible for cleaning and inspection. The mesh size of sifter screen used for various dry dairy products shall be those recommended in the appendix of the 3-A Standard for sifters.

§ 58.225 Clothing and shoe covers.

Clean clothing and shoe covers shall be provided exclusively for the purpose of cleaning the interior of the dryer when it is necessary to enter the dryer to perform the cleaning operation.

§ 58.226 Portable and stationary bulk bins.

Bulk bins shall be constructed of stainless steel, aluminum or other equally corrosion resistant materials, free from cracks, seams and must have an interior surface that is relatively smooth and easily cleanable. All product contact surfaces shall be easily accessible for cleaning. The capacity of each bulk bin shall be limited as directed by the Administrator.

§ 58.227 Sampling device.

If automatic sampling devices are used, they shall be constructed in such a manner as to prevent contamination of the product, and all parts must be readily accessible for cleaning. The type of sampler and the sampling procedure shall be as approved by the Administrator.

§ 58.228 Dump hoppers, screens, mixers and conveyors.

The product contact surfaces of dump hoppers, screens, mixers and conveyors which are used in the process of transferring dry products from bulk containers to fillers for small packages or containers, shall be of stainless or equally corrosion resistant material and designed to prevent contamination. All parts should be accessible for cleaning. The dump hoppers shall be of such height above floor level as to prevent foreign material or spilled product from entering the hopper.

§ 58.229 Filler and packaging equipment.

All filling and packaging equipment shall be of sanitary construction and all parts, including valves and filler heads accessible for cleaning.

§ 58.230 Heavy duty vacuum cleaners.

Each plant handling dry milk products shall be equipped with a heavy duty industrial vacuum cleaner. Regular scheduling shall be established for its use in vacuuming applicable areas.

QUALITY SPECIFICATIONS FOR RAW MATERIALS

§ 58.231 General.

All raw materials received at the drying plant shall meet the following quality specifications.

§ 58.232 Milk.

Raw milk shall meet the requirements as outlined in section 58.132 thru 58.138 and, unless processed within two hours after being received, it shall be cooled to and held at a temperature of 45° F. or lower until processed.

§ 58.233 Skim milk.

The skim milk shall be separated from whole milk meeting the requirements as outlined in section 58.132 thru 58.138, and unless processed immediately, it shall be cooled to and maintained at a temperature of 45° F. or lower from the time of separating until the time of processing.

§ 58.234 Buttermilk.

Buttermilk for drying shall be fresh, sweet, and from the churning of sweet cream butter, with or without the addition of harmless lactic culture. No neutralizing agent or chemical preservative may be added. Fluid buttermilk, unless cultured, shall be held at 45° F. or lower unless processed within 2 hours.

§ 58.235 Modified dry milk products.

Dry milk products to which approved neutralizing agents or chemicals have been added or constituents removed to alter their original characteristics for processing or usage shall come from products meeting the requirements of 58.232, 58.233, or 58.234. These products shall meet the applicable labeling requirements.

OPERATIONS AND OPERATING PROCEDURES

§ 58.236 Pasteurization and heat treatment.

All milk and buttermilk used in the manufacture of dry milk products and modified dry milk products shall be pasteurized at the plant where dried, except that acidified buttermilk containing 40 percent or more solids may be transported to another plant for drying without repasteurization. Provided the condensed product is handled according to sanitary conditions approved by the Administrator.

(a) Pasteurization. (1) All milk or skim milk to be used in the manufacture of nonfat dry milk shall be pasteurized prior to condensing at a minimum temperature of 161° F. for at least 15 seconds or its equivalent in bacterial destruction. Condensed milk products made from pasteurized milk may be transported to a drying plant, provided that it shall be effectively repasteurized at the drying plant, prior to drying, at least 166° F. for 15 seconds or its equivalent in bacterial destruction.

(2) All buttermilk shall be pasteurized prior to condensing at a temperature of 161° F. for 15 seconds or its equivalent in bacterial destruction.

(b) *Heat treatment.*

(1) *High-heat.* The finished product shall not exceed 1.5 mg. undenatured whey protein nitrogen per gram of nonfat dry milk. All skim milk to be used in the manufacture of nonfat dry milk where high heat treatment is desirable shall be heated to such a temperature as will produce a finished product meeting the U.S. High Heat classification in the U.S. Standards for Grades of Nonfat Dry Milk (Spray Process).

(2) *Medium-heat.* The finished product shall show undenatured whey protein nitrogen between the levels of "high-heat" and "low-heat" (1.51 to 5.99 mg.).

(3) *Low-heat.* The finished product shall show not less than 6.0 undenatured whey protein nitrogen per gram of nonfat dry milk. All skim milk to be used in the manufacture of nonfat dry milk where low heat treatment is desirable shall be heated to such a treatment as will produce a finished product meeting the U.S. Low Heat classification in the U.S. Standards for Grades of Nonfat Dry Milk (Spray Process).

§ 58.237 Condensed surge supply.

Surge tanks or balance tanks if used between the evaporators and dryer shall be used to hold only the minimum amount of condensed product necessary for a uniform flow to the dryers. Such tanks holding product at temperatures below 150° F. shall be completely emptied and washed after each 4 hours of operation or less. Alternate tanks shall be provided to permit continuous operation during washing of tanks.

§ 58.238 Condensed storage tanks.

Excess production of condensed product over that which the dryer will take continuously from the pans should be bypassed through a cooler into a storage tank at 50° F. or lower and held at this temperature until used.

Product cut-off points shall be made at least every 24 hours and the tank completely emptied, washed, and sanitized before reuse.

§ 58.239 Drying.

Each dryer should be operated at not more than the manufacturer's rated capacity for the highest quality dry product consistent with the most efficient operation. This does not preclude the remodeling or redesigning of dryers after installation when properly engineered and designed. The dry products shall be removed from the drying chamber continuously during the drying process.

§ 58.240 Cooling dry products.

Prior to packaging and immediately following removal from the drying chamber the dry product shall be cooled to a temperature not exceeding 110° F, however, if the product is to be held in a bulk bin the temperature should be reduced to approximately 90° F but shall be not more than 110° F.

§ 58.241 Packaging, repackaging and storage.

(a) *Containers.* Packages or containers used for the packaging of nonfat dry milk or other dry milk products shall be any clean, sound commercially accepted container or packaging material which will satisfactorily protect the contents through the regular channels of trade, without significant impairment of quality with respect to flavor, wholesomeness or moisture content under the normal conditions of handling. In no instance will containers which have previously been used for nonfood items, or food items which would be deleterious to the dairy product be allowed to be used for the bulk handling of dairy products.

(b) *Filling.* Empty containers shall be protected at all times from possible contamination and containers which are to be lined shall not be prepared more than one hour in advance of filling. Every precaution shall be taken during the filling operation to minimize product dust and spillage. When necessary a mechanical shaker shall be provided; the tapping or pounding of containers should be prohibited. The containers shall be closed immediately after filling and the exteriors shall be vacuumed or brushed when necessary to render them practically free of residual product before being transferred from the filling room to the palletting or dry storage areas.

(c) *Repackaging.* The entire repackaging operation shall be conducted in a sanitary manner with all precautions taken to prevent contamination and to minimize dust. All exterior surfaces of individual containers shall be practically free of product before overwrapping or packing in shipping containers. The room shall be kept free of dust accumulation, waste, cartons, liners, or other refuse. Conveyors, packaging and carton making equipment shall be vacuumed frequently during the operating day to prevent the accumulation of dust. No bottles or glass materials of any kind shall be permitted in the repackaging or hopper room. The inlet openings of all hoppers and bins shall be of minimum size, screened and placed well above the floor level. The room and all packaging equipment shall be cleaned as often as necessary to maintain a sanitary operation. Close attention shall be given to cleaning equipment where residues of the dry product may accumulate. A thorough clean-up including windows, doors, walls, light fixtures and ledges, should be performed as frequently as is necessary to maintain a high standard of cleanliness and sanitation. All waste dry dairy products including dribble product at the fillers, shall be properly identified and disposed of as animal feed.

(d) *Storage.* (1) *Product.* The packaged dry milk product shall be stored or so arranged in aisles, rows, or sections and lots at least 18 inches from any wall and in such a manner as to be orderly, easily accessible for inspection or for cleaning of the room. All bags and small containers of products shall be placed on pallets elevated from the floor. Product in small containers may be stored by methods preventing direct contact with the floor when the condition of the container is satisfactorily maintained. The storage room shall be kept clean and dry and all openings protected against entrance of insects and rodents.

(2) *Supplies.* All supplies shall be placed on dunnage or pallets and arranged in an orderly manner for accessibility and cleaning of the room. It is preferable that supplies be stored in an area separate from that used for storing the dry products. Supplies shall be kept enclosed in their original wrapping material until used. After removal of supplies from their original containers, they shall be kept in an enclosed metal cabinet, bins or on shelving and if not enclosed shall be protected from powder, and dust or other contamination. The room should be vacuumed as often as necessary and kept clean and orderly.

§ 58.242 Product adulteration.

All necessary precautions shall be taken through the entire operation to prevent the adulteration of one product with another. The commingling of one type of liquid or dry product with another shall be considered as an adulteration of that product. This does not prohibit the normal standardization of like products in accordance with good commercial practices or the production of specific products for special uses, provided applicable labeling requirements are met.

§ 58.243 Checking quality.

All milk, milk products and dry milk products shall be subject to inspection and analysis by the dairy plant for quality and condition throughout each processing operation. Periodically samples of product and environmental material shall be tested for salmonella. Test results shall be negative when representatives samples are tested for salmonella. Line samples should be taken periodically as an aid to quality control in addition to the regular routine analysis made on the finished products.

§ 58.244 Number of samples.

As many samples shall be taken from each dryer production lot as is necessary to assure proper composition and quality control. A sufficient number of representative samples from the lot shall be taken to assure compliance with the stated net weight on the container.

§ 58.245 Method of official sample analysis.

Samples shall be tested according to the applicable methods of laboratory analysis contained in DA Instruction 918-103, 918-109-1 and 918-109-3 as issued by the USDA, Agricultural Marketing Service, Dairy Division.

§ 58.246 Cleaning of dryers, collectors, conveyors, ducts, sifters and storage bins.

This equipment shall be cleaned as often as is necessary to maintain such equipment in a clean and sanitary condition. The kind of cleaning procedure either wet or dry and the frequency of cleaning shall be based upon observation of actual operating results and conditions.

§ 58.247 Insect and rodent control program.

In addition to any commercial pest control service, if one is utilized, a specially designated employee shall be made responsible for the performance of a regularly scheduled insect and rodent control program as outlined in University of Wisconsin Extension Bulletin A2518 or subsequent revisions thereof.

REQUIREMENTS FOR FINISHED PRODUCTS BEARING USDA OFFICIAL IDENTIFICATION

§ 58.248 Nonfat dry milk.

Nonfat dry milk in commercial bulk containers bearing an official identification shall meet the requirements of U.S. Extra Grade or U.S. Standard Grade.

Regular nonfat dry milk in consumer size packages which bears an official identification shall meet the requirements of U.S. Extra Grade. In addition, the nonfat dry milk shall meet the following specifications when sampled and tested in accordance with sections 58.244 and 58.245.

§ 58.249 Instant nonfat dry milk.

Instant nonfat dry milk shall meet the applicable standard for U.S. Extra Grade.

§ 58.250 Dry whole milk.

Dry whole milk in commercial bulk containers which bears an official identification shall meet the requirements for the U.S. Standards for Grades of Dry Whole Milk. Quality requirements for dry whole milk in consumer packages shall be for U.S. Extra Grade and shall be gas packed with an oxygen content of not more than 2.0 percent.

§ 58.251 Dry buttermilk.

The quality requirements for all dry buttermilk bearing official identification shall be in accordance with U.S. Standards for Grades of Dry Buttermilk. Dry cultured buttermilk shall meet the same requirements as listed above except that allowances shall be made for increased acidity due to the culture process.

XUM
V40-30 FEB 12 75 XUM

SUPPLEMENTAL SPECIFICATIONS FOR PLANTS MANUFACTURING, PROCESSING AND PACKAGING BUTTER AND RELATED PRODUCTS

DEFINITIONS

§ 58.305 Meaning of words.

For the purpose of the regulations in this subpart, words in the singular form shall be deemed to impart the plural and vice versa, as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning.

(a) *Butter.* The food product usually known as butter, and which is made exclusively from milk or cream, or both, with or without common salt, with or without additional coloring matter, and containing not less than 80 percent by weight of milkfat, all tolerances having been allowed for.

(b) *Butteroil.* The food product resulting from the removal of practically all of the moisture and solids-not-fat from butter. It contains not less than 99.6 percent fat, and not more than 0.3 percent moisture; and not more than 0.1 percent other butter constituents, of which the salt shall be not more than 0.05 percent.

(c) *Anhydrous milkfat.* The food product resulting from the removal of practically all of the moisture and the solids-not-fat from pasteurized cream. It contains not less than 99.8 percent fat, and not more than 0.15 percent moisture.

(d) *Frozen cream.* Sweet cream which has been pasteurized and frozen. It contains approximately 40 percent milkfat.

(e) *Plastic cream.* Sweet cream which has been pasteurized and contains approximately 80 percent milkfat.

(f) *Whipped butter.* Butter which has been stirred or whipped to incorporate air or inert gas, until its volume has been increased up to a range of from 50 to 100 percent. It contains not less than 80.0 percent fat by weight.

ROOMS AND COMPARTMENTS

§ 58.311 Coolers and freezers.

The coolers and freezers shall be equipped with facilities for maintaining proper temperature and humidity conditions, consistent with good commercial practices for the applicable product, to protect the quality and condition of the products during storage or during tempering prior to further processing. Coolers and freezers shall be kept clean, orderly, free from insects, rodents, and mold, and maintained in good repair. They shall be adequately lighted and proper circulation of air shall be maintained at all times. The floors, walls, and ceilings shall be of such construction as to permit thorough cleaning.

§ 58.312 Churn rooms.

Churn rooms in addition to proper construction and sanitation shall be so equipped that the air is kept free from objectionable odors and vapors and extreme temperatures by means of adequate ventilation and exhaust systems or air conditioning and heating facilities.

§ 58.313 Print and bulk packaging rooms.

Rooms used for packaging print or bulk butter and related products should, in addition to proper construction and sanitation, provide an atmosphere relatively free from mold (not more than 15 colonies per plate during a 15 min. exposure), dust, or other air-borne contamination and maintain a reasonable room temperature in accordance with good commercial practices.

EQUIPMENT AND UTENSILS

§ 58.314 General construction, repair and installation.

All equipment and utensils necessary to the manufacture of butter and related products shall meet the same general requirements as outlined in section 58.128. In addition for certain other equipment, the following requirements shall be met.

§ 58.315 Continuous churns.

All product contact surfaces of the churn and related equipment shall be of noncorrosive material. All non-metallic product contact surfaces shall comply with 3-A Standards for Plastic, Rubber, and Rubber-Like Materials. All product contact surfaces of the churn and related equipment shall be readily accessible for cleaning and inspection. Construction shall follow the applicable principles of the 3-A Sanitary Standards.

§ 58.316 Conventional churns.

Churns shall be constructed of aluminum, stainless steel or equally corrosion resistant metal, free from cracks, and in good repair. All gasket material shall be fat resistant, nontoxic and reasonably durable. Seals around the doors shall be tight.

§ 58.317 Bulk butter trucks, boats, texturizers, and packers.

Bulk butter trucks, boats, texturizers, and packers shall be constructed of aluminum, stainless steel, or equally corrosion resistant metal free from cracks, seams and must have a surface that is relatively smooth and easily cleanable. All non-metallic product surfaces shall comply with 3-A Standards for Plastic, Rubber, and Rubber-Like Material.

§ 58.318 Butter, frozen or plastic cream melting machines.

Shavers, shredders or melting machines used for rapid melting of butter, frozen or plastic cream shall be of stainless steel or equally corrosion resistant metal, free from cracks and of sanitary construction, and readily cleanable.

§ 58.319 Printing equipment.

All printing equipment shall be designed so as to adequately protect the product and be readily demountable for cleaning of product contact surfaces. All product contact surfaces shall be aluminum, stainless steel or equally corrosion resistant metal, or plastic, rubber and rubber like material which comply with 3-A standards, except that conveyors may be constructed of material which can be properly cleaned and maintained in a satisfactory manner.

§ 58.320 Brine tanks.

Brine tanks used for the treating of parchment liners shall be constructed of noncorrosive material and have an adequate and safe means of heating the salt solution for the treatment of the liners. The tank should also be provided with a satisfactory drainage outlet.

§ 58.321 Cream storage tanks.

Cream storage tanks shall meet the requirements of section 58.128(d). Cream storage tanks for continuous churns should be equipped with effective temperature controls and recording devices.

QUALITY SPECIFICATIONS FOR RAW MATERIAL

§ 58.322 Cream.

Cream separated at an approved plant and used for the manufacture of butter shall have been derived from raw material meeting the requirements as listed under section 58.132 thru 58.138 of this subpart.

The inspection of farm-separated cream to be used for manufacturing or processing into dairy products under this part shall be based on organoleptic examination and quality control tests to determine suitability of cream at the time of delivery thereof at the receiving plant or substation.

(a) *Organoleptic examination.* Cream received at an approved receiving plant, or substation shall be identified as to the producer, seller, or shipper from whom received. Each can of cream in each shipment shall be examined for physical characteristics, off-taste and odors including those associated with developed acidity. The condition of the cream shall be wholesome and characteristic of normal cream. The organoleptic examination and segregation of the cream which is used in the manufacturing or processing into butter, shall be consistent with the applicable flavor classification of butter set forth in the U.S. Standards for Grades of Butter. Any cream having pronounced or offensive off-taste or odors, or which is in an abnormal condition (including, but not being limited to surface mold, foamy, yeasty, fruity, or containing extraneous matter), or which is otherwise unwholesome, shall be rejected to the producer, seller, or shipper and shall not be used in the processing or manufacturing of dairy products.

(b) *Sediment content classification.* (1) For the purpose of quality control and establishing a rejection level of cream to the producer, seller, or shipper, the following classifications of cream for sediment shall be applicable using USDA Sediment Chart (7 CFR 58.2726) as the basis for classification.

(i) Sediment (off-the-bottom method):

No. 1—USDA Sediment Standard (not to exceed) 0.50 mg.
No. 2—USDA Sediment Standard (not to exceed) 1.00 mg.
No. 3—USDA Sediment Standard (not to exceed) 2.50 mg.

(ii) Sediment (mixed-can method):

No. 1—USDA Sediment Standard (not to exceed) 0.20 mg.
No. 2—USDA Sediment Standard (not to exceed) 0.30 mg.
No. 3—USDA Sediment Standard (not to exceed) 1.00 mg.

(2) At least twice each month one can of cream from each producer, seller, or shipper of farm separated cream shall be selected at random and tested by using the "off-the-bottom" method or the "mixed-can" method in accordance with acceptable and approved procedures.

(3) As a supplement to the regular sediment testing procedure it is recommended that whole-can filtering facilities be utilized for each can of each shipment of cream from the producer for coarse sediment or extraneous matter and rejections be made in accordance with State or Federal Food and Drug Administration practices.

(c) *Acceptable cream.* Cream acceptable pursuant to the requirements of paragraph (a) of this section for organoleptic examination and complying with No. 1 or No. 2 for sediment content may be used in the processing or manufacturing of dairy products.

(d) *Probational cream.* Cream acceptable pursuant to the requirements of paragraph (a) of this section for organoleptic examination but classified No. 3 for sediment content may be accepted for processing in an approved plant for three successive deliveries. Thereafter each successive delivery shall be tested for sediment content prior to acceptance. If the sediment content is in excess of No. 2 such cream shall be rejected to the producer, seller, or shipper, and successive deliveries shall continue to be rejected until the sediment content is No. 2, or better. As soon as any shipment of cream is classified as probationary a representative of the plant, receiving plant, or substation should contact the producer, seller, or shipper involved in the production of probational cream and if necessary arrange to inspect the equipment, utensils, and facilities at the farm, receiving plant or substation and to offer constructive assistance for improvement in the quality of the cream.

(e) *Rejected cream.* (1) The cream from a producer, seller or shipper who has failed to improve the quality of his cream during the probationary period so as to meet the requirements of No. 2, or better, for sediment shall be rejected cream. Any further acceptance of cream from such a producer, seller, or shipper shall be on the basis of testing each shipment for sediment content, prior to acceptance to determine if the cream is No. 2, or better. If all cans of cream of the subsequent shipment meet No. 2, or better, such cream shall be classified as probational cream. When three successive shipments indicate cream of No. 2, or better, the cream may again be accepted, subject to regular periodic testing and quality control measures.

(2) If the initial new shipment fails to meet the requirements of No. 2 cream, or better, the plant shall not accept such cream until a representative of the plant again contacts the producer, seller, or shipper for the purpose of offering constructive assistance in correcting the unsatisfactory condition.

(f) *Field service.* A representative of the plant should arrange to promptly contact each producer, seller, or shipper involved in the production of probational or reject cream for the purpose of offering constructive assistance for the improvement in the quality of the cream. If necessary, he should arrange to inspect the equipment, utensils, and facilities at the farm, receiving plant, or substation. A representative of the plant should visit each producer, seller, or shipper as often as is practicable to assist in and encourage the production of high quality cream.

(g) *Records.* Accurate plant records listing the results of quality tests made on raw cream shall be maintained on cream from each producer, seller, or shipper. Each producer, seller, or shipper, shipping probational or rejected cream, shall be informed immediately of the results of such quality tests. Producers, sellers, or shippers, shipping No. 1 and No. 2 cream should receive such information at the time of regular remittances. Such records shall be available for examination by the inspector and kept on file for at least one year.

(h) *Alternate quality program.* When a processor has in operation an acceptable quality program, at the producer level, which is approved by the Administrator as being effective in obtaining results comparable to or higher than the quality program as outlined above for cream, then such a program may be accepted in lieu of the program herein prescribed.

§ 58.323 Whipped butter.

Whipped butter to be eligible for official certification with a U.S. Grade shield shall be graded prior to whipping and shall have originated from an approved plant. If made from cream in a continuous churning and whipping process, the quality of the cream used shall meet the requirements of cream for butter of comparable U.S. Grade.

§ 58.324 Butteroil made from butter.

To produce butteroil eligible for official certification, the butter used shall conform to the flavor requirements of U.S. Grade AA, U.S. Grade A, or U.S. Grade B, and shall have been manufactured in an approved plant.

§ 58.325 Anhydrous milkfat.

Made by a continuous separation process directly from milk or cream. To produce anhydrous milkfat eligible for official certification, the cream used shall be comparable to the flavor quality specified above for U.S. Grade AA or U.S. Grade A butter. Appearance should be fairly smooth and uniform in consistency. The cream shall be pasteurized in accordance with the procedure for cream for butter making (58.334a).

§ 58.326 Plastic cream.

To produce plastic cream eligible for official certification, the quality of the cream used shall meet the requirements of cream acceptable for the manufacture of U.S. Grade AA or U.S. Grade A butter.

§ 58.327 Frozen cream.

To produce frozen cream eligible for official certification, the quality of the cream used shall meet the requirements of cream acceptable for the manufacture of U.S. Grade AA or U.S. Grade A butter.

§ 58.328 Salt.

The salt shall be free-flowing, white refined sodium chloride and shall meet the requirements of The Food Chemical Codex.

§ 58.329 Color.

Coloring, when used shall be Annatto or any color which is approved by the U.S. Food and Drug Administration.

§ 58.330 Butter starter cultures.

Harmless bacterial cultures when used in the development of flavor components in butter and related products shall have a pleasing and desirable flavor and shall have the ability to transmit these qualities to the finished product.

§ 58.331 Starter distillate.

The refined flavor components when used to flavor butter and related products. It shall be of food grade quality, free of extraneous material and prepared in accordance with good commercial practice.

OPERATIONS AND OPERATING PROCEDURES

§ 58.332 Segregation of raw material.

The milk and cream received at the dairy plant shall meet the quality specifications as indicated under section 58.322. The milk and cream should be segregated by quality and processed separately in such a manner that the finished product will fully meet the requirements of a particular U.S. Grade or other specification, whichever is applicable.

§ 58.334 Pasteurization.

The milk or cream shall be pasteurized at the plant where the milk or cream is processed into the finished product or by procedures as set forth by the Administrator.

(a) *Cream for butter making.* The cream for butter making shall be pasteurized at a temperature of not less than 165° F. and held continuously in a vat at such temperature for not less than 30 minutes; or pasteurized by HTST method at a minimum temperature of not less than 185° F. for not less than 15 seconds; or it shall be pasteurized by any other equivalent temperature and holding time which will assure adequate pasteurization. Additional heat treatment above the minimum pasteurization requirement is advisable to insure improved keeping-quality characteristics.

Adequate pasteurization control shall be used and the diversion valve shall be set to divert at no less than 185° F. with a 15 second holding time or its equivalent in time and temperature to assure pasteurization. If the vat or holding method of pasteurization is used, vat covers shall be closed prior to holding period to assure temperature of air space reach-

XUM
V40I30
FEB 12 75
XUM

ing 5° F. higher than the minimum temperature during the holding time. Covers shall also be kept closed during the holding and cooling period.

(b) *Cream for plastic or frozen cream.* The pasteurization of cream for plastic or frozen cream shall be accomplished in the same manner as in (a) above, except that the temperature for the vat method shall be not less than 170° F. for not less than 30 minutes, or not less than 190° F. for not less than 15 seconds or by any other temperature and holding time which will assure adequate pasteurization and comparable keeping-quality characteristics.

§ 58.335 Quality control tests.

All milk, cream and related products are subject to inspection for quality and condition throughout each processing operation. Quality control tests shall be made on flow samples as often as necessary to check the effectiveness of processing and manufacturing and as an aid in correcting deficiencies in processing and manufacturing. Routine analysis shall be made on raw materials and finished products to assure adequate microbiological, composition and chemical control.

§ 58.336 Frequency of sampling for quality control of cream, butter and related products.

(a) *Microbiological.* Samples shall be taken from churnings or batches and should be taken as often as is necessary to insure microbiological control.

(b) *Composition.* Sampling and testing for product composition shall be made on churns or batches as often as is necessary to insure adequate composition control. For in-plant control, the Kohman or modified Kohman test may be used.

(c) *Chemical.* (1) *Acid degree value.* This test should be made on churnings or batches from samples taken from the cream as often as is necessary to aid in the control of lipase activity.

(2) *Free fatty acid.* This test should be made on churnings or batches from samples taken from the butter as often as is necessary to aid in the control of lipase activity.

(d) *Other analysis.* Other chemical analysis or physical measurements shall be performed as often as is necessary to insure meeting grade standards and contract specifications.

(e) *Weight or volume control.* Representative samples of the packaged product shall be checked using procedures prescribed by the Administrator during the packaging operation to assure compliance with the stated net weight or volume on the container.

(f) *Keeping quality and stability.* Samples from churnings shall be subjected to a seven day keeping quality test at a temperature of 72° F. to establish and maintain a satisfactory keeping quality history. Optionally 98° F. for 48 hours may be used, however, in case of a dispute, the results of the seven days at 72° F. will prevail.

§ 58.337 Official test methods.

(a) *Chemical.* Chemical analyses except where otherwise prescribed herein, shall be made in accordance with the methods described in the latest edition of Official Methods of Analysis of the Association of Official Analytical Chemists, published by the Association of Official Analytical Chemists, The Official and Tentative Methods of the American Oil Chemists Society or any other methods giving equivalent results.

(b) *Microbiological.* Microbiological determinations shall be made in accordance with the methods described or suggested in the latest edition of Standard Methods for the Examination of Dairy Products, published by the American Public Health Association.

§ 58.338 Composition and wholesomeness.

All ingredients used in the manufacture of butter and related products shall be subject to inspection and shall be wholesome and practically free from impurities. Chlorinating facilities shall be provided for butter wash water if needed and all other necessary precautions shall be taken to prevent contamination of products. All finished products shall comply with the requirements of the Federal Food, Drug and Cosmetic Act, as to composition and wholesomeness.

§ 58.339 Containers.

(a) Containers used for the packaging of butter and related products shall be commercially acceptable containers or packaging material that will satisfactorily protect the quality of the contents in regular channels of trade. Caps or covers which extend over the lip of the container shall be used on all cups or tubs containing two pounds or less, to protect the product from contamination during subsequent handling.

(b) *Liners and wrappers.* Supplies of parchment liners, wrappers and other packaging material shall be protected against dust, mold and other possible contamination.

Prior to use, parchment liners for bulk butter packages shall be completely immersed in a boiling salt solution in a suitable container constructed of stainless steel or other equally non-corrosive material. The liners shall be maintained in the solution for not less than 30 minutes. The liners shall be effectively treated with a solution consisting of at least 15 pounds of salt for every 85 pounds of water and shall be strengthened or changed as frequently as necessary to keep the solution full strength and in good condition.

Other liners such as polyethylene shall be treated or handled in such a manner as to prevent contamination of the liner prior to filling.

(c) *Filling bulk butter containers.* The lined butter containers shall be protected from possible contamination prior to filling. Use of parchment liners may be accomplished by alternately inverting one container over the other or stacking the lined boxes on their sides in a rack, until ready for use. When using polyethylene liners the boxes should be lined immediately prior to use. When packing butter into the bulk containers, care shall be taken to fill the corners leaving as few holes or openings as possible. The surface of the butter as well as the covering liner shall be smoothed evenly over the top surface before closing and sealing the container. Containers should be stacked only as high as the firmness of the product will support weight, so as not to crush or distort the container.

§ 58.340 Printing and packaging.

Printing and packaging of consumer size containers of butter shall be conducted under sanitary conditions. Separate rooms equipped with automatic filling and packaging equipment should be provided. The outside cartons should be removed from bulk butter in a room outside of the printing operation but the parchment removal and cutting of the butter may be done in the print room.

§ 58.341 Repackaging.

When officially graded or inspected bulk product is to be repackaged into consumer type packages for official grade labeling or other official identification, a supervisor of packaging shall be required and the plant, equipment, facilities and personnel shall meet the same specifications as outlined in this part, including such markings or identification as may be required.

§ 58.342 General identification.

Commercial bulk shipping containers shall be legibly marked with the name of the product, net weight, name and address of manufacturer, processor or distributor or other assigned plant identification (manufacturer's lot number, churn number, etc.) and any other identification that may be required. Packages of plastic or frozen cream shall be marked with the percent of milkfat.

§ 58.343 Storage of finished product in coolers.

All products shall be kept under refrigeration at temperatures of 40° F. or lower after packaging and until ready for distribution or shipment. The products shall not be placed directly on floors or exposed to foreign odors or conditions such as drippage due to condensation which might cause package or product damage.

§ 58.344 Storage of finished product in freezer.

(a) *Sharp freezers.* Plastic cream or frozen cream intended for storage shall be placed in quick freezer rooms immediately after packaging, for rapid and complete freezing within 24 hours. The packages shall be piled or spaced in such a manner that air can freely circulate between and around the packages. The rooms shall be maintained at −10° F. or lower and shall be equipped to provide sufficient high velocity, air circulation for rapid freezing. After the products have been completely frozen, they may be transferred to a freezer storage room for continued storage.

(b) *Freezer storage.* The room shall be maintained at a temperature of 0° F. or lower. Adequate air circulation is desirable.

Butter intended to be held more than 30 days shall be placed in a freezer room as soon as possible after packaging. If not frozen before being placed in the freezer, the packages shall be spaced in such a manner as to permit rapid freezing and repiled, if necessary, at a later time.

REQUIREMENTS FOR FINISHED PRODUCTS BEARING USDA OFFICIAL IDENTIFICATION

§ 58.345 Butter.

The quality requirements for butter shall be in accordance with the U.S. Standards for Grades of Butter for U.S. Grade AA, U.S. Grade A, or U.S. Grade B, respectively.

In addition, the butter is subject to the following specifications when sampled and tested in accordance with sections 58.336 and 58.337.

Proteolytic count, not more than 100 per gram; yeast and mold count, not more than 20 per gram; coliform count, not more than 10 per gram.

Optional except when required or requested: Copper content, not more than 0.3 ppm; iron content, not more than 1.0 ppm; enterococci, not more than 10 per gram.

§ 58.346 Whipped butter.

The flavor requirements as applicable for Whipped Butter shall be in accordance with the U.S. Standards for Grades of Butter, U.S. Grade AA, U.S. Grade A, or U.S. Grade B respectively.

In addition, the whipped butter is subject to the following specifications when sampled and tested in accordance with section 58.336 and 58.337.

Proteolytic count, not more than 100 per gram; yeast and mold count, not more than 20 per gram; coliform count, not more than 10 per gram.

Optional except when required or requested: Copper content, not more than 0.3 ppm; iron content, not more than 1.0 ppm; enterococci, not more than 10 per gram.

§ 58.347 Butteroil or anhydrous milkfat.

The flavor shall be bland, free from rancid, oxidized or other objectionable flavors.

In addition, the finished products shall meet the following specifications when sampled and tested in accordance with sections 58.336 and 58.337.

Butteroil		Anhydrous milk fat
Not less than 99.6 percent.	Milkfat	Not less than 99.8 percent.
Not more than 0.3 percent.	Moisture	Not more than 0.15 percent.
Not more than 0.1 percent.	Other butter constituents including salt.	
Not more than 0.05 percent.	Salt	
Not more than 0.5 percent (calculated as oleic acid).	Free fatty acids	Not more than 0.3 percent (calculated as oleic acid).
Not more than 0.1 milli equivalents per kilogram of fat.	Peroxide value	Not more than 0.1 milli equivalents per kilogram of fat.
Not more than 0.10 ppm.	Copper content	Not more than 0.10 ppm.

§ 58.348 Plastic cream.

The flavor shall be sweet, pleasing and desirable but may possess the following flavors to a slight degree; aged, bitter, flat, smothered and storage; and cooked and feed flavors to a definite degree. It shall be free from rancid, oxidized or other objectionable flavors.

In addition, the finished product shall meet the following specifications when sampled and tested in accordance with sections 58.336 and 58.337.

Standard plate count, not more than 30,000 per gram; coliform count, not more than 10 per gram; yeast and mold, not more than 20 per gram; copper content, not more than 0.3 ppm.; iron content, not more than 1.0 ppm.

§ 58.349 Frozen cream.

The flavor shall be sweet, pleasing and desirable, but may possess the following flavors to a slight degree: aged, bitter, flat, smothered, storage; and cooked and feed flavors to a definite degree. It shall be free from rancid, oxidized or other objectionable flavors.

In addition, the product shall meet the following specifications when sampled and tested in accordance with sections 58.336 and 58.337. Samples for analysis should be taken prior to freezing of the product.

Standard plate count, not more than 30,000 per ml.; coliform count, not more than 10 per ml.; yeast and mold, not more than 20 per ml.

SUPPLEMENTAL SPECIFICATIONS FOR PLANTS MANUFACTURING AND PACKAGING CHEESE

DEFINITIONS

§ 58.405 Meaning of words.

For the purpose of the regulations in this subpart, words in the singular form shall be deemed to impart the plural and vice versa as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning:

(a) *Cheese.* The fresh or matured product obtained by draining after coagulation of milk, cream, skimmed or partly skimmed milk or a combination of some or all of these products and including any cheese that conforms to the provisions of 21 CFR 19.500 up to 19.750, "Definitions and Standards of Identity for Cheese and Cheese Products," Food and Drug Administration.

(b) *Milkfat from whey.* The fat obtained from the separation of cheese whey.

ROOMS AND COMPARTMENTS

§ 58.406 Starter facility.

A separate starter room or properly designed starter tanks and satisfactory air movement techniques shall be provided for the propagation and handling of starter cultures. All necessary precaution shall be taken to prevent contamination of the facility, equipment and the air therein. A filtered air supply with a minimum average efficiency of 90% when tested in accordance with the ASHRAE Synthetic Dust Arrestance Test should be provided so as to obtain outward movement of air from the room to minimize contamination.

§ 58.407 Make room.

The rooms in which the cheese is manufactured shall be of adequate size, and the equipment adequately spaced to permit movement around the equipment for proper cleaning and satisfactory working conditions. Adequate filtered air ventilation shall be provided. When applicable, the mold count should be not more than 15 colonies per plate during a 15 minute exposure.

§ 58.408 Brine room.

A brine room, when applicable, should be a separate room constructed so it can be readily cleanable. The brine room equipment shall be maintained in good repair and corrosion kept at a minimum.

§ 58.409 Drying room.

When applicable, a drying room of adequate size shall be provided to accommodate the maximum production of cheese during the flush period. Adequate shelving and air circulation shall be provided for proper drying. Temperature and humidity control facilities should be provided which will promote the development of a sound, dry surface of the cheese.

§ 58.410 Paraffining room.

When applicable for rind cheese, a separate room or compartment should be provided for parliffining and boxing the cheese. The room shall be of adequate size and the temperature maintained near the temperature of the drying room to avoid sweating of the cheese prior to paraffining.

§ 58.411 Rindless cheese wrapping area.

For rindless cheese a suitable space shall be provided for proper wrapping and boxing of the cheese. The area shall be free from dust, condensation, mold or other conditions which may contaminate the surface of the cheese or contribute to unsatisfactory packaging of the cheese.

§ 58.412 Coolers or curing rooms.

Coolers or curing rooms where cheese is held for curing or storage shall be clean and maintained at the proper uni-

XUM
V40-30
FEB 12 75
XUM

form temperature and humidity to adequately protect the cheese, and minimize the undesirable growth of mold. Proper circulation of air shall be maintained at all times. The shelves shall be kept clean and dry. This does not preclude the maintenance of suitable conditions for the curing of mold and surface ripened varieties.

§ 58.413 Cutting and packaging rooms.

When small packages of cheese are cut and wrapped, separate rooms shall be provided for the cleaning and preparation of the bulk cheese and for the cutting and wrapping operation. The rooms shall be well lighted, ventilated and provided with filtered air. Air movement shall be outward to minimize the entrance of unfiltered air into the cutting and packaging room. The waste materials and waste cheese shall be disposed of in an environmentally and/or sanitary approved manner.

EQUIPMENT AND UTENSILS

§ 58.414 General construction, repair and installation.

All equipment and utensils necessary to the manufacture of cheese and related products shall meet the same general requirements as outlined in section 58.128. In addition, for certain other equipment the following requirements shall be met.

§ 58.415 Starter vats.

Bulk starter vats shall be of stainless steel or equally corrosion resistant metal and should be constructed according to the applicable 3–A Sanitary Standards. New or replacement vats shall be constructed according to the applicable 3–A Sanitary Standards. The vats shall be in good repair, equipped with tight fitting lids and have adequate temperature controls such as valves, indicating and/or recording thermometers.

§ 58.416 Cheese vats, tanks and drain tables.

The vats, tanks and drain tables used for making cheese should be of metal construction with adequate jacket capacity for uniform heating. The inner liner shall be minimum 16 gauge stainless steel or other equally corrosion resistant metal, properly pitched from side to center and from rear to front for adequate drainage. The liner shall be smooth, free from excessive dents or creases and shall extend over the edge of the outer jacket. The outer jacket shall be constructed of stainless steel or other metal which can be kept clean and sanitary. The junction of the liner and outer jacket shall be constructed so as to prevent milk or cheese from entering the inner jacket.

The vat, tank and/or drain table shall be equipped with a suitable sanitary outlet valve. Effective valves shall be provided and properly maintained to control the application of heat to this equipment. If this equipment is provided with removable cloth covers, they shall be clean.

§ 58.417 Mechanical agitators.

The mechanical agitators shall be of sanitary construction. The carriages shall be of the enclosed type and all product contact surfaces, shields, shafts, and hubs shall be constructed of stainless steel or other equally corrosion resistant metal. Metal blades, forks, or stirrers shall be constructed of stainless steel and of material approved in the 3–A Sanitary Standards for Plastic, and Rubber and Rubber-like Materials and shall be free from rough or sharp edges which might scratch the equipment or remove metal particles.

§ 58.418 Automatic cheese making equipment.

(a) *Automatic Curd Maker.* The automatic curd making system shall be constructed of stainless steel or of material approved in the 3–A Sanitary Standards for Plastic, and Rubber and Rubber-Like Material. All areas shall be free from cracks and rough surfaces and constructed so that they can be easily cleaned.

(b) *Curd conveying systems.* The curd conveying system, conveying lines and cyclone separator shall be constructed of stainless steel or other equally corrosion resistant metal and so that it can be satisfactorily cleaned. The system shall be of sufficient size to handle the volume of curd and be provided with filtered air of the quality satisfactory for the intended use. Air compressors or vacuum pumps shall not be located in the processing or packaging areas.

(c) *Automatic salter.* The automatic salter shall be constructed of stainless steel or other equally corrosion resistant metal. This equipment shall be constructed to equally distribute the salt throughout the curd. It shall be designed to accurately weigh the amount of salt added. The automatic salter shall be constructed so that it can be satisfactorily cleaned. The salting system shall provide for adequate absorption of the salt in the curd. Water and steam used to moisten the curd prior to salting shall be potable water or culinary steam.

(d) *Automatic curd filler.* The automatic curd filler shall be constructed of stainless steel or other equally corrosion resistant metal. This equipment shall be of sufficient size to handle the volume of curd and constructed and controlled so as to accurately weigh the amount of curd as it fills. The curd filler shall be constructed so that it can be satisfactorily cleaned.

(e) *Hoop and barrel washer.* The washer shall be constructed so that it can be satisfactorily cleaned. It shall also be equipped with temperature and pressure controls to insure satisfactorily cleaning of the hoops or barrels. It should be adequately vented to the outside.

§ 58.419 Curd mill and miscellaneous equipment.

Knives, hand rakes, shovels, scoops, paddles, strainers, and miscellaneous equipment shall be stainless steel or of material approved in the 3–A Sanitary Standards for Plastic and Rubber-like Material. The product contact surfaces of the curd mill should be of stainless steel. All pieces of equipment shall be so constructed that they can be kept clean and free from rough or sharp edges which might scratch the equipment or remove metal particles. The wires in the curd knives shall be stainless steel, kept tight and replaced when necessary.

§ 58.420 Hoops, forms and followers.

The hoops, forms, and followers shall be constructed of stainless steel, heavy tinned steel or other approved materials. If tinned, they shall be kept tinned and free from rust. All hoops, forms, and followers shall be kept in good repair. Drums or other speical forms used to press and store cheese shall be clean and sanitary.

§ 58.421 Press.

The cheese press should be constructed of stainless steel and all joints welded and all surfaces, seams and openings readily cleanable. The pressure device shall be the continuous type. Press clothes shall be maintained in good repair and in a sanitary condition. Single service press clothes shall be used only once.

§ 58.422 Brine tank.

The brine tank shall be constructed of suitable non-toxic material and should be resistant to corrosion, pitting or flaking. The brine tank shall be operated so as to assure the brine is clean, well circulated, and of the proper strength and temperature for the variety of cheese being made.

§ 58.423 Cheese vacuumizing chamber.

The vacuum chamber shall be satisfactorily constructed and maintained so that the product is not contaminated with rust or flaking paint. An inner liner of stainless steel or other corrosion resistant material should be provided.

§ 58.424 Monorail.

The monorail shall be constructed so as to prevent foreign material from falling on the cheese or cheese containers.

§ 58.425 Conveyor for moving and draining block or barrel cheese.

The conveyor shall be constructed so that it will not contaminate the cheese and be easily cleaned. It shall be installed so that the press drippings will not cause an environmental problem.

§ 58.426 Rindless cheese wrapping equipment.

The equipment used to heat seal the wrapper applied to rindless cheese shall have square interior corners, reasonably smooth interior surface and have controls that shall provide uniform pressure and heat equally to all surfaces. The equipment used to apply shrinkable wrapping material to rindless cheese shall operate to maintain relatively square corners, reasonably smooth surfaces on the cheese and adhere tightly to the surface of the cheese.

§ 58.427 Paraffin tanks.

The metal tank should be adequate in size, have wood rather than metal racks to support the cheese, have heat controls and an indicating thermometer. The cheese wax shall be kept clean.

§ 58.428 Speciality equipment.

All product contact areas of speciality equipment shall be constructed of stainless steel or of material approved in the 3–A Sanitary Standards for Plastic and Rubber and Rubber-Like Material, and constructed following 3–A Sanitary Standards principles.

§ 58.429 Washing machine.

When used, the washing machine for cheese clothes and bandages shall be of commercial quality and size; or of sufficient size to handle the applicable load. It should be equipped with temperature and water level controls.

QUALITY SPECIFICATIONS FOR RAW MATERIAL

§ 58.430 Milk.

The milk shall be fresh, sweet, pleasing and desirable in flavor and shall meet the requirements as outlined under section 58.132 thru 58.138. The milk may be adjusted by separating part of the fat from the milk or by adding one or more of the following dairy products: Cream, skim milk, concentrated skim milk, nonfat dry milk, and water in a quantity sufficient to reconstitute any concentrated or dry milk used. Such dairy products shall have originated from raw milk meeting the same requirements as outlined under section 58.132 thru 58.138.

§ 58.431 Hydrogen peroxide.

The solution shall comply with the specification of the U.S. Pharmacopeia, except that it may exceed the concentration specified therein and it does not contain added preservative. Application and usage shall be as specified in the "Definitions and Standards of Identity for Cheese and Cheese Products", Food and Drug Administration.

§ 58.432 Catalase.

The catalase preparation shall be a stable, buffered solution, neutral in pH, having a potency of not less than 100 Kell units per milliliter. The source of the catalase, its application and usage shall be as specified in the "Definitions and Standards of Identity for Cheese and Cheese Products," Food and Drug Administration.

§ 58.433 Cheese cultures.

Harmless microbial cultures used in the development of acid and flavor components in cheese shall have a pleasing and desirable taste and odor and shall have the ability to actively produce the desired results in the cheese during the manufacturing process.

§ 58.434 Calcium chloride.

Calcium chloride, when used, shall meet the requirements of the Food Chemical Codex.

§ 58.435 Color.

Coloring when used, shall be Annatto or any cheese or butter color which meet the requirements of the Food and Drug Administration.

§ 58.436 Rennet, pepsin, other milk clotting enzymes and flavor enzymes.

Enzyme preparations used in the manufacture of cheese shall be safe and suitable.

§ 58.437 Salt.

The salt shall be free-flowing, white refined sodium chloride and shall meet the requirements of the Food Chemical Codex.

OPERATIONS AND OPERATING PROCEDURES

§ 58.438 Cheese from pasteurized milk.

If the cheese is labeled as pasteurized, the milk shall be pasteurized by subjecting every particle of milk to a minimum temperature of 161° F. for not less than 15 seconds or by any other acceptable combination of temperature and time treatment approved by the Administrator. HTST pasteurization units shall be equipped with the proper controls and equipment to assure pasteurization. If the milk is held more than 2 hours between the time of pasteurization and setting, it shall be cooled to 45° F. or lower until time of setting.

§ 58.439 Cheese from unpasteurized milk.

If the cheese is labeled as "heat treated", "unpasteurized," "raw milk", or "for manufacturing" the milk may be raw or heated at temperatures below pasteurization. Cheese made from unpasteurized milk shall be cured for a period of 60 days at a temperature not less than 35° F. If the milk is held more than 2 hours between time of receipt or heat treatment and setting, it shall be cooled to 45° F. or lower until time of setting.

§ 58.440 Time schedule.

A uniform schedule should be established and followed as closely as possible for the various steps of setting, cutting, cooking, draining the whey and milling the curd, to promote a uniform quality of cheese.

§ 58.441 Records.

Starter and make records should be kept at least six months.

§ 58.442 Laboratory and quality control tests.

(a) *Chemical analyses.* (1) *Milkfat and moisture.* One sample shall be tested from each vat of the finished cheese to assure compliance with composition requirements.

(2) *Test method.* Chemical analysis shall be made in accordance with the methods described in Official Methods of Analysis of the Association of Official Analytical Chemists as specified in the appropriate standards of identity, the latest edition of Standard Methods or by other methods giving equivalent results.

(b) *Weight or volume control.* Representative samples of the finished product shall be checked during the packaging operation to assure compliance with the stated net weight on the container of consumer size packages.

§ 58.443 Whey handling.

(a) Adequate sanitary facilities shall be provided for the handling of whey. If outside, necessary precautions shall be taken to minimize flies, insects and development of objectionable odors.

(b) Whey or whey products intended for human food shall at all times be handled in a sanitary manner in accordance with the procedures of this subpart as specified for handling milk and dairy products.

(c) Milkfat from whey should not be more than four days old when shipped.

§ 58.444 Packaging and repackaging.

Packaging rindless cheese or cutting and repackaging all styles of bulk cheese shall be conducted under rigid sanitary conditions. The atmosphere of the packaging rooms, the equipment and the packaging material shall be practically free from mold and bacterial contamination.

When officially graded bulk cheese is to be repackaged into consumer type packages with official grade labels or other official identification, a supervisor of packaging shall be required. If the repackaging is performed in a plant other than the one in which the cheese is manufactured and the product is officially identified, the plant, equipment, facilities and personnel shall meet the same requirements as outlined in this part.

§ 58.445 General identification.

Bulk cheese for cutting and the container for cheese for manufacturing shall be legibly marked with the name of the product, code or date of manufacture, vat number, officially designated code number or name and address of manufacturer. Each consumer sized container shall meet the requirements of the Food and Drug Administration's "Fair Packaging and Labeling Act".

REQUIREMENTS FOR FINISHED PRODUCTS BEARING USDA OFFICIAL IDENTIFICATION

§ 58.446 Quality requirements.

(a) *Cheddar cheese.* The quality requirements for Cheddar cheese shall be in accordance with the U.S. Standards for Grades of Cheddar Cheese.

(b) *Colby cheese.* The quality requirements for Colby cheese shall be in accordance with the U.S. Standards for Grades of Colby Cheese.

(c) *Monterey (Monterey Jack) cheese.* The quality requirements for Monterey (Monterey Jack) cheese shall be in accordance with the U.S. Standards for Grades of Monterey (Monterey Jack) Cheese.

(d) *Swiss cheese, Emmentaler cheese.* The quality requirements for Swiss cheese, Emmentaler cheese shall be in accordance with the U.S. Standards for Grades for Swiss Cheese, Emmentaler Cheese.

(e) *Bulk American cheese for manufacturing.* The quality requirements for

XUM
V40130 FEB 1275 XUM

bulk American cheese for manufacturing shall be in accordance with the U.S. Standards for Grades of Bulk American Cheese for Manufacturing.

SUPPLEMENTAL SPECIFICATIONS FOR PLANTS MANUFACTURING AND PACKAGING COTTAGE CHEESE

DEFINITIONS

§ 58.505 Meaning of words.

For the purpose of the regulations in this subpart, words in the singular form shall be deemed to impart the plural and vice versa, as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning:

(a) *Condensed skim.* Skim milk which has been condensed to approximately one-third the original volume in accordance with standard commercial practice.

(b) *Cottage cheese.* (1) *Cottage cheese dry curd.* The soft uncured cheese meeting the requirements of 21 CFR 19.525 Food and Drug Administration.

(2) *Cottage cheese.* The soft uncured cheese meeting the requirements of 21 CFR 19.530, Food and Drug Administration.

(3) *Lowfat Cottage cheese.* The soft uncured cheese meeting the requirements of 21 CFR 19.531, Food and Drug Administration.

(c) *Direct acidification.* The production of cottage cheese, without the use of bacterial starter cultures, through the use of approved food grade acids. This product shall be labeled according to the requirements of 21 CFR 19.530(d), Food and Drug Administration.

(d) *Cottage cheese with fruits, nuts, chives, or other vegetables.* Shall consist of cottage cheese to which has been added fruits, nuts, chives or other vegetables. The finished cheese shall contain not more than 80.0 percent of moisture nor less than 4.0 percent milkfat by weight prior to the addition of such ingredients.

(e) *Cream.* The milkfat portion of milk which rises to the surface of milk on standing or is separated from it by centrifugal force and contains not less than 18.0 percent of milkfat.

(f) *Creaming mixture.* The creaming mixture consists of cream or a mixture of cream with milk or skim milk or both. To adjust the solids content, nonfat dry milk or concentrated skim milk may be added but not to exceed 3.0 percent by weight of the creaming mixture. It may or may not contain a culture of harmless lactic acid and flavor producing bacteria, food grade acid, salt, and stabilizers with or without carriers. The creaming mixture in its final form may or may not be homogenized and shall conform to the provisions of 21 CFR 19.530(b), Food and Drug Administration.

ROOMS AND COMPARTMENTS

§ 58.510 Rooms and compartments.

(a) Processing operations with open cheese vats should be separated from other rooms or areas. Excessive personnel traffic or other possible contaminating conditions should be avoided. Rooms, compartments, coolers, and dry storage space in which any raw material, packaging or ingredients supplies or finished products are handled, processed, packaged or stored shall be designed and constructed to assure clean and orderly operations.

(b) *Ventilation.* Processing and packaging rooms or compartments shall be ventilated to maintain sanitary conditions, preclude the growth of mold and air borne bacterial contaminants, prevent undue condensation of water vapor and minimize or eliminate objectionable odors. To minimize air borne contamination in processing and packaging rooms a filtered air supply meeting the requirements of section 58.510(a) shall oe provided. The incoming air shall exert an outward pressure so that the movement of air will be outward and prevent the movement of unfiltered air inward.

(c) *Starter facility.* A separate starter room or properly designed starter tanks and satisfactory air movement techniques shall be provided for the propagation and handling of starter cultures. All necessary precautions shall be taken to prevent contamination of the room, equipment and the air therein. A filtered air supply with a minimum average efficiency of 90% when tested in accordance with the ASHRAE Synthetic Dust Arrestance Test should be provided so as to obtain an outward movement of air from the room to minimize contamination.

(d) *Coolers.* Coolers shall be equipped with facilities for maintaining proper temperature and humidity conditions, consistent with good commercial practices for the applicable product, to protect the quality and condition of the products. Coolers shall be kept clean, orderly and free from mold, and maintained in good repair. They shall be adequately lighted and proper circulation of air shall be maintained at all times. The floors, walls, and ceilings shall be of such construction as to permit thorough cleaning.

EQUIPMENT AND UTENSILS

§ 58.511 General construction, repair and installation.

The equipment and utensils used for the manufacture and handling of cottage cheese shall be as specified in section 58.128. In addition for certain other equipment the following requirements shall be met.

§ 58.512 Cheese vats or tanks.

Cheese vats or tanks shall meet the requirements of section 58.416. When direct steam injection is used for heating the milk, the vat or tank may be of single shell construction. The steam shall be culinary steam.

Vats shall be equipped with valves to control the heating and cooling medium and a suitable sanitary outlet valve. Also the vats should be equipped with removable stainless steel or other suitable metal covers, cloth covers which can be regularly and suitably laundered, or with single service paper covers. Vats used for creaming curd should be equipped with a refrigerated cooling medium. A circulating pump for the heating and cooling medium is recommended.

§ 58.513 Agitators.

Mechanical agitators shall meet the requirements of section 58.417.

§ 58.514 Container fillers.

Shall conform to the 3-A Sanitary Standards for Equipment for Packaging Frozen Desserts and Cottage Cheese.

§ 58.515 Mixers.

Only mixers shall be used which will mix the cheese carefully and keep shattering of the curd particles to a minimum. They shall be constructed in such a manner as to be readily cleanable. If shafts extend through the wall of the tank below the level of product, they shall be equipped with proper seals which are readily removable for cleaning and sanitizing. The mixer shall be enclosed or equipped with tight fitting covers.

§ 58.516 Starter vats.

Bulk starter vats shall meet the requirements of section 58.415.

QUALITY SPECIFICATIONS FOR RAW MATERIAL

§ 58.517 General.

Raw materials used for manufacturing cottage cheese shall meet the following quality specifications.

§ 58.518 Milk.

The selection of raw milk for cottage cheese shall be in accordance with sections 58.132 thru 58.138.

§ 58.519 Dairy products.

(a) *Raw skim milk.* All raw skim milk obtained from a secondary source shall be separated from milk meeting the same quality requirements for milk as outlined in section 58.518 above. Skim milk after being pasteurized and separated shall be cooled to 45°F or lower unless the skim milk is to be set for cheese within two hours after pasteurizing. The skim milk should not be more than 24 hours old from the time the milk was received at the plant and the skim milk is set for cheese.

(b) *Nonfat dry milk.* Nonfat dry milk, when used in cottage cheese bearing official identification, shall meet the requirements for U.S. Extra Grade (Spray Process), at time of use, and should be of U.S. Low Heat Classification (not less than 6.0 mg. undenatured whey protein nitrogen per gram of nonfat dry milk). In addition, the nonfat dry milk shall have a direct microscopic count not exceeding 75 million per gram. The age of the nonfat dry milk shall be covered by a USDA grading certificate, evidencing compliance with quality requirements, dated not more than 6 months prior to use of the dry milk. In the interim between manufacture and use, the nonfat dry milk shall be stored in a clean, dry, vermin-free space. In any case, if the nonfat dry milk is more than 120 days old, at time of use, it shall be examined

for flavor to make certain that it meets that requirement for U.S. Extra Grade.

(c) *Condensed skim milk.* Condensed skim milk, if used, shall be prepared from raw milk or skim milk that meets the same quality requirements outlined above for raw milk or skim milk. The concentrated skim milk should meet the requirement for U.S. Low Heat Classification for Nonfat Dry Milk (Spray Process) as indicated in the U.S. Grade Standards for Nonfat Dry Milk. It shall be cooled promptly after drawing from the vacuum pan or evaporator and shall have been pasteurized before concentrating or during the manufacture. The standard plate count of the concentrated milk shall not exceed 30,000 per ml. at time of use.

(d) *Cream.* Any cream used for preparing the dressing for creamed cottage cheese shall be separated from milk meeting at least the same quality requirements as the skim milk used for making the curd. The flavor of the cream shall be fresh and sweet. Cream obtained from a secondary source shall meet the same requirements. The creaming mixture prepared from this cream, after pasteurization, shall have a standard plate count of no more than 30,000 per ml.

§ 58.520 Nondairy ingredients.

(a) *Calcium chloride.* Calcium chloride, when used, shall be of food grade quality and free from extraneous material.

(b) *Salt.* Salt shall be free flowing, white refined sodium chloride and shall meet the requirements of The Food Chemical Codex.

(c) *Other ingredients.* Other ingredients such as fruits, nuts, chives or other vegetables used or blended with cottage cheese shall be reasonably free of bacteria so as not to appreciably increase the bacterial count of the finished product. The various ingredients in kind shall be consistent in size and color so as to produce the desired appearance and appeal of the finished product. The flavor of the ingredients used shall be natural and represent the intended flavor and intensity desired in the finished product. Such ingredients shall be clean, wholesome, of uniformly good quality, free from mold, rancid or decomposed particles. Vegetables used in cottage cheese may first be soaked for 15 to 20 minutes in a cold 25 to 50 ppm chlorine solution to appreciably reduce the bacterial population. After soaking, the vegetables shall be drained and used soon thereafter.

OPERATIONS AND OPERATING PROCEDURES

§ 58.521 Pasteurization and product flow.

(a) The skim milk used for the manufacture of cottage cheese shall be pasteurized not more than 24 hours prior to the time of setting by heating every particle of skim milk to a temperature of 161° F. for not less than 15 seconds or by any other combination of temperature and time giving equivalent results. All skim milk must be cooled promptly to setting temperature. If held more than two hours between pasteurization and time of setting, the skim milk shall be cooled and held at 45° F. or lower until set.

(b) Cream or cheese dressing shall be pasteurized at not less than 150° F. for not less than 30 minutes or at not less than 166° F. for not less than 15 seconds or by any other combination of temperature and time treatment giving equivalent results. Cream and cheese dressing shall be cooled promptly to 40° F. or lower after pasteurization to aid in further cooling of cottage cheese curd for improved keeping quality.

(c) Reconstituted nonfat dry milk for cottage cheese manufacture need not be re-pasteurized provided it is reconstituted within two hours prior to the time of setting. Skim milk separated from pasteurized whole milk need not be re-pasteurized provided it is separated in equipment from which all traces of raw milk from previous operations have been removed by proper cleaning and sanitizing.

§ 58.522 Reconstituting nonfat dry milk.

Nonfat dry milk shall be reconstituted in a sanitary manner, preferably by the use of a centrifugal pump and funnel arrangement. It shall be reconstituted within two hours of the time of setting, using water which is free from viable pathogenic or otherwise harmful microorganisms as well as microorganisms which may cause spoilage of cottage cheese.

§ 58.523 Laboratory and quality control tests.

(a) Quality control tests shall be made on flow samples as often as necessary to check the effectiveness of processing and manufacturing as an aid in correcting deficiencies. Routine analyses shall be made on raw materials and finished products to assure adequate composition control. Keeping quality tests shall be made on each vat of finished cottage cheese to determine shelf-life and stability of the finished product.

(c) *Frequency of sampling.* (1) *Microbiological.* Samples of raw milk for testing shall be taken as prescribed in section 58.135. One sample shall be taken for each vat of finished cottage cheese and from each lot, tank or batch of product used as ingredient. For keeping quality tests one or more samples shall be taken from each vat of finished cottage cheese.

(2) *Chemical.* (i) *Milkfat and moisture.* One sample shall be taken from each vat of creamed cheese; dry cottage cheese shall be tested for moisture only.

(ii) *pH.* One sample shall be taken from each vat of finished cottage cheese.

(c) *Test methods.* (1) *Microbiological.* Microbiological determinations shall be made for coliform, psychrophiles and yeasts and molds. These tests shall be made in accordance with the methods described in the latest edition of Standard Methods for the Examination of Dairy Products, published by the American Public Health Association.

(2) *Chemical.* Chemical analysis shall be made in accordance with the methods described in the latest edition of Official Methods of Analysis of the Association of Official Analytical Chemists, published by the Association of Official Analytical Chemists, the latest edition of Standard Methods for the Examination of Dairy Products, or by other methods giving equivalent results.

§ 58.524 Packaging and general identification.

(a) *Containers.* Containers used for packaging cottage cheese shall be any commercially acceptable multiple use or single service container or packaging material which will satisfactorily protect the contents through the regular channels of trade without significant impairment of quality with respect to flavor, or contamination under normal conditions of handling. Caps or covers which extend over the lip of the container shall be used on all cups or tubs containing two pounds or less, to protect the product from contamination during subsequent handling.

(b) *Packaging.* The cheese shall be packaged in a sanitary manner and automatic filling and capping equipment shall be used on all small sizes. The containers shall be checked weighed during the filling operation to assure they are filled uniformly to not less than the stated net weight on the container. Also care shall be taken that the cottage cheese be of uniform consistency at the time of packaging to assure legal composition in all packages.

(c) *General identification.* Bulk packages containing cottage cheese shall be adequately and legibly marked with the name of the product, net weight, name and address of the manufacturer, lot number, code or date of packaging and any other identification as may be required. Consumer size packaged products shall meet the requirements of the Food and Drug Administration's "Fair Packaging and Labeling Act."

§ 58.525 Storage of finished product.

Cottage cheese after packaging shall be promptly stored at a temperature of 45° F. or lower to maintain quality and condition until loaded for distribution. During distribution and storage prior to sale the product should be maintained at a temperature of 45° F. or lower. The product shall not be exposed to foreign odors or conditions such as drippage or condensation that might cause package or product damage. Packaged cottage cheese shall not be placed directly on floors.

REQUIREMENTS FOR COTTAGE CHEESE BEARING USDA OFFICIAL IDENTIFICATION

§ 58.526 Physical requirements.

(a) *Flavor.* The cottage cheese shall possess a mild pleasing flavor, similar to fresh whole milk or light cream and may possess the delicate flavor and aroma of a good lactic starter. The product may possess to a slight degree a feed, acid, or salty flavor but shall be free from chalky, bitter, utensil, fruity, yeasty, or other objectionable flavors.

(b) *Body and texture.* The curd particles shall have a meaty texture, but

XUM
V40-30 FEB 12 75 XUM

sufficiently tender to permit proper absorption of cream or cheese dressing. The texture shall be smooth and velvety and shall not be mealy, crumbly, pasty, sticky, mushy, watery, rubbery or slimy or possess any other objectionable characteristics of body and texture. Small curd style (cut with ¾ inch knives) shall have curd particles approximately ¼ inch or less in size. Large curd style (cut with knives over ¼ inch) shall have curd particles approximately ⅜ inch or more in size.

(c) *Color and appearance.* The finished cottage cheese, creamed or plain curd, shall have an attractive natural color and appearance with curd particles of reasonably uniform size. The creamed cottage cheese shall be uniformly mixed with the cream or dressing properly absorbed or adhering to the curd so as to prevent excessive drainage.

§ 58.527 Microbiological requirements at time of packaging in 3 out of 5 consecutive samples.

(a) *Coliform.* Not more than 10 per gram.

(b) *Psychrophiles.* Not more than 100 per gram.

(c) *Yeasts and molds.* Not more than 10 per gram.

§ 58.528 Chemical requirements.

(a) *Moisture.* Not more than 80.0 percent.

(b) *Milkfat.* Not less than 4.0 percent (no requirement for dry curd cottage cheese).

(c) *pH.* Not higher than 5.2.

(d) *Phosphatase.* Not more than 4 micrograms of phenol equivalent per gram of cheese.

§ 58.529 Keeping quality requirements.

Keeping quality samples taken from the packaging line shall be held at 50° F. for 10 days. At the end of the 10 day period the samples shall possess a satisfactory flavor and appearance, and shall be free from bitter, sour, fruity, or other objectionable tastes and odors. The surface shall not be discolored, translucent, slimy or show any other objectionable condition.

SUPPLEMENTAL SPECIFICATIONS FOR PLANTS MANUFACTURING, PROCESSING AND PACKAGING FROZEN DESSERTS

DEFINITIONS

§ 58.605 Meaning of words.

For the purpose of the regulations in this subpart, words in the singular form shall be deemed to imparl the plural and vice versa, as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning as applied to frozen desserts meeting FDA requirements and briefly defined as follows:

(a) *Ice cream.* The product conforming to the requirements of section 20.2 "Definitions and Standards of Identity for Frozen Desserts," U.S. Food and Drug Administration (21 CFR 20.2).

(b) *Frozen custard.* The product conforming to the requirements of section 20.2 "Definitions and Standards of Identity for Frozen Desserts," U.S. Food and Drug Administration (21 CFR 20.2).

(c) *Ice milk.* The product conforming to the requirements of section 20.3 "Definitions and Standards of Identity for Frozen Desserts," U.S. Food and Drug Administration (21 CFR 20.3).

(d) *Sherbet.* The product conforming to the requirements of section 20.4 "Definitions and Standards of Identity for Frozen Desserts," U.S. Food and Drug Administration (21 CFR 20.4).

(e) *Mellorine.* The product conforming to the requirements of section 20.8 "Definitions and Standards of Identity for Frozen Desserts," U.S. Food and Drug Administration (21 CFR 20.8).

(f) *Overrun.* The trade expression used to reference the increase in volume of the frozen product over the volume of the mix. This increase in volume is due to air being whipped into the product during the freezing process. It is expressed as percent of the volume of the mix.

(g) *Mix.* The trade name for the combined and processed ingredients which after freezing become a frozen dessert.

ROOMS AND COMPARTMENTS

§ 58.619 Mix processing room.

The rooms used for combining mix ingredients and processing the mix shall meet the applicable requirements for rooms specified in section 58.126. The room shall be ventilated to remove moisture and prevent condensation from forming on walls and ceiling. The room shall be well lighted.

§ 58.620 Freezing and packaging rooms.

The rooms used for freezing and packaging frozen desserts shall be adequate in size to permit satisfactory air circulation and maintained in a clean and sanitary condition. The rooms shall be constructed in the same manner as prescribed above for mix rooms.

§ 58.621 Freezing tunnels.

Freezing tunnels for quick freezing at extremely low temperatures shall be designed and constructed as to insure ease in cleaning and satisfactory conditions of operation.

§ 58.622 Hardening and storage rooms.

Hardening and storage rooms for frozen desserts shall be constructed of satisfactory material for this purpose. The rooms shall be maintained in a clean and orderly manner. Adequate shelves, bins, or pallets shall be provided to keep the packages of finished products off the floor and to prevent damage to the containers. Sufficient refrigeration should be provided to insure adequate storage temperature (-10° or lower). Air shall be circulated to maintain uniform temperature throughout the rooms. A vestibule or double entry way should be provided to minimize heat shock of the frozen products.

EQUIPMENT AND UTENSILS

§ 58.623 Homogenizer.

Homogenizer shall comply with 3–A Sanitary Standards.

§ 58.624 Freezers.

Product contact surfaces of freezers used to lower the temperature of the liquid mix to a semi-frozen mass by a stirring action shall be constructed of a stainless steel or equally corrosion resistant metal and all parts easily accessible for cleaning and sanitizing. Batch and continuous freezers should comply with the applicable 3–A Standards.

§ 58.625 Fruit or syrup feeders.

Fruit or syrup feeders inject flavoring material into the semi-frozen product. Product contact surfaces shall be constructed of stainless steel or equally corrosion resistant metal and all pumps shall be in accordance to 3–A Sanitary Standards for dairy equipment. The feeder shall be constructed to enable complete disassembly for cleaning and sanitizing.

§ 58.626 Packaging equipment.

Packaging equipment designed to mechanically fill and close single service containers with frozen desserts shall be constructed so that all product contact surfaces shall be of stainless steel or equally corrosion-resistant metal. Wherever applicable, the principles of 3–A Standards covering material, design and fabrication shall be adhered to. All product contact surfaces shall be easily accessible for cleaning. The design and operation of the machine shall in no way contaminate the container of the finished product placed therein.

QUALITY SPECIFICATIONS FOR RAW MATERIAL

§ 58.627 Milk and dairy products.

(a) To produce ice cream and related products the raw milk and cream shall meet the quality requirements as prescribed in section 58.132, except that only commingled milk and cream meeting the bacteriological requirements of No. 1 shall be used.

(b) *USDA graded products.* Dairy products used in the manufacture of frozen desserts for which there is a U.S. grade established, (nonfat dry milk, whole milk, buttermilk and whey) shall be U.S. Extra Grade or better, and in the case of unsalted butter, shall be no lower than U.S. Grade A. Dairy products for which there is no USDA grade shall meet the applicable requirements of this part which permit such product to bear the USDA Quality Approved Inspection Shield.

§ 58.628 Sweetening agents.

Sweetening agents shall be clean and wholesome and consist of one or more of the approved sweeteners listed in section 58.605.

§ 58.629 Flavoring agents.

Flavoring agents either natural or artificial shall be wholesome and free from undesirable flavors. They must impart the desired characteristic to the finished product. Flavoring agents shall be one or more of those approved in section 58.605.

§ 58.630 Stabilizers.

Stabilizers shall be clean and wholesome and consist of one or more of those approved in section 58.605.

§ 58.631 Emulsifiers.

Emulsifiers shall be clean and wholesome and consist of one or more of those approved in section 58.605.

§ 58.632 Acid.

Acids used in sherbet shall be wholesome and of food grade quality and consist of one or more of those approved in section 58.605.

§ 58.633 Color.

Coloring used for ice cream and related products shall be those certified by the U.S. Food and Drug Administration as safe for human consumption.

OPERATIONS AND OPERATING PROCEDURES

§ 58.634 Assembling and combining mix ingredients.

The assembling and combining of mix ingredients for processing shall be in accordance with clean and sanitary methods and shall be consistent with good commercial practices. All raw materials shall be subjected to inspection for quality and condition prior to being combined and processed into the finished mix. All necessary precautions shall be taken to prevent the contamination of any raw material or the finished mix with any foreign substance.

§ 58.635 Pasteurization of the mix.

Every particle of the mix, except added flavoring ingredients, shall be pasteurized at not less than 155° F. and held at that temperature for 30 minutes or for 175° F. for 25 seconds; or it may be pasteurized by any other equivalent temperature and holding time which will assure adequate pasteurization.

§ 58.636 Homogenization.

Homogenization of the pasteurized mix shall be accomplished to effectively reduce the size of the milkfat globules and evenly disperse them throughout the mix.

§ 58.637 Cooling the mix.

The mix shall be immediately cooled to a temperature of 45° F or lower, and stored at this temperature until further processing begins.

§ 58.638 Freezing the mix.

After the mix enters the freezer, it shall be frozen as rapidly as possible to assure the formation of minute crystals. Proper adjustment of rate of flow, refrigerant and air pressure controls shall be achieved to assure correct overrun and consistency of the product for packaging and further freezing.

§ 58.639 Addition of flavor.

The addition of flavoring ingredients to semi-frozen mix just prior to packaging shall be performed in a clean and sanitary manner. Care shall be taken to insure the flavor injection equipment has been properly cleaned and sanitized prior to use and that the flavor ingredients are of good quality and wholesome.

§ 58.640 Packaging.

The packaging of the semifrozen product shall be done by means which will in no way contaminate the container or the product. When single service containers and lids are used, they shall be of good construction and protect the finished product. Containers used for frozen products shall be stored and handled in a sanitary manner so as to protect them from dust and bacterial contamination.

§ 58.641 Hardening and storage.

Immediately after the semifrozen product is placed in its intended container it shall be placed in a hardening tunnel or hardening room to continue the freezing process. Rapid freezing to 0° to —15° F is desirable to produce a good textured product.

§ 58.642 Quality control tests.

All mix ingredients shall be subject to inspection for quality and condition throughout each processing operation. Quality control tests shall be made on flow line samples as often as necessary to check the effectiveness of processing and sanitation and as an aid in correcting deficiencies. Routine analysis shall be made on raw materials and finished products to assure adequate composition, weight or volume control.

§ 58.643 Frequency of sampling.

(a) *Microbiological.* Representative samples shall be taken from each batch of mix, and for the finished frozen product one sample from each flavor made.

(b) *Composition.* Representative samples shall be tested for fat and solids-not-fat on each batch of mix manufactured. Spot checks shall be made on the finished products as often as is necessary to assure compliance with composition standards.

(c) *Weight or volume control.* Representative samples of the packaged products shall be checked during the packaging operation to assure compliance with the stated volume on the container as well as weight and overrun requirements.

§ 58.644 Test methods.

(a) *Microbiological.* Microbiological determinations shall be made in accordance with the methods described in the latest edition of Standard Methods for the Examination of Dairy Products.

(b) *Chemical.* Chemical analysis shall be made in accordance with the methods described in the latest edition of Official Methods of Analysis of the Association of Official Analytical Chemists, the latest edition of Standard Methods, or by other methods giving equivalent results.

§ 58.645 General identification.

The various types of frozen desserts shall be packaged and labeled in accordance with the requirements of the Food and Drug Administration's Fair Packaging and Labeling Act.

§ 58.646 Official identification.

Only ice cream and related products manufactured in accordance with the requirements of this part and with the applicable requirements in Subpart A of this part which have been officially inspected in process and found to be in compliance with these requirements may be identified with the official USDA Quality Approved Inspection Shield.

REQUIREMENTS FOR FINISHED PRODUCTS BEARING USDA OFFICIAL IDENTIFICATION

§ 58.647 Composition requirements for ice cream.

(a) *Milk fat.* Not less than 10 percent by weight, or when fruits, nuts and other such ingredients are used for flavoring, not less than 8 percent by weight.

(b) *Total milk solids, not fat.* Not less than 20 percent by weight, or when fruit, nuts, and other such ingredients are used for flavoring, not less than 16 percent by weight.

(c) *Stabilizers.* Kinds and amounts may be used as specified by the Food and Drug Administration.

(d) *Emulsifiers.* Kinds and amounts may be used as specified by the Food and Drug Administration.

(e) *Food solids per gallon.* The minimum total food solids weight per gallon must by 1.6 pounds per galon.

(f) *Weight per gallon.* For the finished product the weight per gallon must be 4.5 pounds or more.

§ 58.648 Microbiological requirements for ice cream.

The finished product shall contain not more than 50,000 bacteria per gram as determined by the standard plate count, and shall contain not more than 10 coliform organisms per gram for plain and not more than 20 coliform per gram in chocolate, fruit, nut or other flavors in in three out of five samples.

§ 58.649 Physical requirements for ice cream.

(a) *Flavor.* The flavor of the finished ice cream shall be pleasing and desirable, and characteristic of the fresh milk and cream and the particular flavoring used.

(b) *Body and texture.* The body shall be firm, have substance and readily melt to a creamy consistency when exposed to room temperatures; the texture shall be fine, smooth, and have the appearance of creaminess throughout.

(c) *Color.* The color shall be attractive, pleasing, uniform and characteristic of the flavor represented.

§ 58.650 Requirements for frozen custard.

The same requirements apply as for ice cream except plain frozen custard shall have a minimum egg yolk solids content of 1.4 percent, and 1.12 percent when fruits, nuts and other such ingredients are used for flavoring.

§ 58.651 Requirements for ice milk.

The requirements are the same as for ice cream except: (a) the minimum milk fat content shall be 2 percent by weight and the maximum milk fat content 7

XUM
V40-30 FEB 12 75 XUM

percent by weight, (b) the total milk solids content shall be no less than 11 percent by weight, (c) the minimum total food solids weight per gallon shall be 1.3 pounds, (d) no reduction in the standards are permitted when fruits, nuts and other such ingredients are used for flavoring.

§ 58.652 Composition requirements for sherbet.

(a) *Milk fat.* Shall contain a minimum of 1 percent by weight of the finished product, and shall contain no more than 2 percent by weight.

(b) *Milk solids.* The total milk solids minimum shall be 2 percent by weight and shall be no more than 5 percent by weight of the finished product.

(c) *Stabilizer.* Kinds and amounts may be used as specified by the Food and Drug Administration.

(d) *Emulsifiers.* Kinds and amounts may be used as specified by the Food and Drug Administration.

(e) *Amounts of flavor ingredients.* (1) *Citrus sherbets.* Citrus sherbets shall contain a minimum of 2 percent fruit.

(2) *Berry sherbets.* Berry sherbets shall contain a minimum of 6 percent fruit.

(3) *Other sherbets.* Other fruit sherbets shall contain a minimum of 10 percent fruit by weight of the finished product.

(f) *Acidity.* The minimum acidity shall be no lower than 0.35 percent by weight of the finished product, figured as lactic acid.

(g) *Total food solids.* No minimum amount required.

(h) *Weight per gallon.* For sherbet, the minimum weight per gallon shall be 6.0 pounds.

§ 58.653 Microbiological requirements for sherbet.

The finished product shall contain not more than 50,000 bacteria per gram as determined by the standard plate count and shall contain not more than 10 coliform organisms per gram in three out of five samples.

§ 58.654 Physical requirements for sherbet.

(a) *Flavor.* The flavor of the finished product shall contain not more than sherbet shall be pleasing and desirable and characteristic of the particular flavoring used and shall impart a sweet yet tart sensation.

(b) *Body and texture.* The body shall be firm, compact, somewhat chewy and readily melt to an even syrupy consistency at room temperatures; the texture shall be smooth but not as fine as in ice cream and shall be even throughout.

(c) *Color.* The color shall be attractive, pleasing, uniform and characteristic of the flavor represented.

SUPPLEMENTAL SPECIFICATIONS FOR PLANTS MANUFACTURING, PROCESSING AND PACKAGING PASTEURIZED PROCESS CHEESE AND RELATED PRODUCTS

DEFINITIONS

§ 58.705 Pasteurized process cheese and related products.

Pasteurized process cheese and related products are the foods which conform to the applicable provisions of Part 19, Title 21, sections 19.750 to 19.790, "Definitions and Standards of Identity for Cheese and Cheese Products," Food and Drug Administration.

EQUIPMENT AND UTENSILS

§ 58.706 General construction repair and installation.

The equipment and utensils used for the handling and processing of cheese products shall be as specified in section 58.128 of this subpart. In addition, for certain other equipment the following requirements shall be met.

§ 58.707 Conveyors.

Conveyors shall be constructed of material which can be properly cleaned, will not rust, or otherwise contaminate the cheese, and shall be maintained in good repair.

§ 58.708 Grinders or shredders.

The grinders or shredders used in the preparation of the trimmed and cleaned cheese shall be of corrosion-resistant material, and of such construction as to prevent contamination of the cheese and to allow thorough cleaning of all parts and product contact surfaces.

§ 58.709 Cookers.

The cookers shall be the steam jacketed or direct steam type. They shall be constructed of stainless steel or other equally corrosion-resistant material. All product contact surfaces shall be readily accessible for cleaning. Each cooker shall be equipped with an indicating thermometer, and shall be equipped with a temperature recording device. The recording thermometer stem may be placed in the cooker if satisfactory time charts are used, if not, the stem shall be placed in the hotwell or filler hopper. Steam check valves on direct steam type cookers shall be mounted flush with cooker wall, be constructed of stainless steel and designed to prevent the backup of product into the steam line, or the steam line shall be constructed of stainless steel pipes and fittings which can be readily cleaned. If direct steam is applied to the product only culinary steam shall be used (see section 58.127(d)).

§ 58.710 Fillers.

The hoppers of all fillers shall be covered but the cover may have sight ports. If necessary, the hopper may have an agitator to prevent buildup on side wall. The filler valves and head shall be kept in good repair and capable of accurate measurements. Product contact surfaces shall be of stainless steel or other corrosion resistant material.

QUALITY SPECIFICATIONS FOR RAW MATERIAL

§ 58.711 Cheddar, colby, washed or soaked curd, granular or stirred curd cheese.

Cheese, used in the manufacture of pasteurized process cheese products which are identified with the USDA official identification shall possess a pleasing and desirable taste and odor consistent with the age of the cheese; shall have body and texture characteristics which will impart the desired body and texture characteristics in the finished product; and shall possess finish and appearance characteristics which will permit removal of all packaging material and surface defects. The cheese shall at least meet the requirements of U.S. Standard Grade for Bulk American Cheese for Manufacturing provided the quantity of the cheese with any one defect as listed for U.S. Standard Grade is limited, to assure compliance with the specifications of the finished product.

§ 58.712 Swiss.

Swiss cheese used in the manufacture of pasteurized process cheese and related products bearing official identification shall be U.S. Grade B or better, except that the cheese may be blind or possess finish characteristics which do not impair the interior quality.

§ 58.713 Gruyere.

Gruyere cheese used in the manufacture of process cheese and related products shall be of good wholesome quality and except for smaller eyes and sharper flavor shall meet the same requirements as for Swiss cheese.

§ 58.714 Cream cheese, Neufchatel cheese.

Mixed with other foods, or used for spreads and dips shall possess a fresh, pleasing and desirable flavor.

§ 58.715 Cream, plastic cream and anhydrous milkfat.

These food products shall be pasteurized, sweet, have a pleasing and desirable flavor and be free from objectionable flavors, and shall be obtained from milk which complies with the quality requirements as specified in section 58.132 of this Subpart.

§ 58.716 Nonfat dry milk.

Nonfat dry milk used in officially identified cheese products shall meet the requirements of U.S. Extra Grade except that the moisture content may be in excess of that specified for the particular grade.

§ 58.717 Whey.

Condensed or dry whey used in officially identified cheese products shall meet the requirements for USDA Extra Grade except that the moisture requirement for dry whey may be waived.

§ 58.718 Flavor ingredients.

Flavor ingredients used in process cheese and related products shall be those permitted by the Food and Drug Standards of Identity, and in no way deleterious to the quality or flavor of the finished product. In the case of bulky flavoring ingredients such as pimento, the particles shall be, to at least a reasonable degree, uniform in size, shape and consistency. The individual types of flavoring materials shall be uniform in color and shall impart the characteristic flavor desired in the finished product.

§ 58.719 Coloring.

Coloring shall be Annatto or any other cheese or butter color which is approved by the Food and Drug Administration.

§ 58.720 Acidifying agents.

Acidifying agents if used shall be those permitted by the Food and Drug Administration for the specific pasteurized process cheese product.

§ 58.721 Salt.

Salt shall be free flowing, white refined sodium chloride and shall meet the requirements of The Food Chemical Codex.

§ 58.722 Emulsifying agents.

Emulsifying agents shall be those permitted by the Food and Drug Administration for the specific pasteurized process cheese product, and shall be free from extraneous material.

OPERATIONS AND OPERATION PROCEDURES

§ 58.723 Basis for selecting cheese for processing.

A representative sample shall have been examined to determine fat and moisture content. One sample unit from each vat of cheese shall have been examined to determine the suitability of the vat for use in process cheese products in accordance with the flavor, body and texture characteristics permitted in sections 58.711 through 58.714 as applicable, and to determine the characteristics it will contribute to the finished product when blended with other cheese. The cheese included in each blend shall be selected on the basis of the desirable qualities which will result in the desired finished product. Recook from equivalent blends may be used in an amount that will not adversely affect the finished product. Hot cheese from the filler may be added to the cooker in amounts which will not adversely affect the finished product.

§ 58.724 Blending.

To as great an extent as is practical, each vat of cheese should be divided and distributed throughout numerous cooker batches. The purpose being to minimize the preponderance and consequent influence of any one vat on the characteristics of the finished product, and to promote as much uniformity as is practical. In blending also consider the final composition requirements for fat and moisture. Quantities of salt, color, emulsifier and other allowable ingredients to be added shall be calculated and predetermined for each cooker batch.

§ 58.725 Trimming and cleaning.

The natural cheese shall be cleaned free of all non-edible portions. Paraffin and bandages as well as rind surface, mold or unclean areas or any other part which is unwholesome or unappetizing shall be removed.

§ 58.726 Cutting and grinding.

The trimmed and cleaned cheese should be cut into sections of convenient size to be handled by the grinder or shredder. The grinding and mixing of the blended lots of cheese should be done in such a manner as to insure a homogeneous mixture throughout the batch.

§ 58.727 Adding optional ingredients.

As each batch is added to the cooker, the predetermined amounts of salt, emulsifiers, color, or other allowable optional ingredients shall be added. However, a special blending vat may be used to mix the ground cheese and other ingredients before they enter the cooker, to provide composition control.

§ 58.728 Cooking the batch.

Each batch of cheese within the cooker, including the optional ingredients, shall be thoroughly commingled and the contents pasteurized at a temperature of at least 158° F. and held at that temperature for not less than 30 seconds or any other equally effective combination of time and temperature approved by the Administrator. Care shall be taken to prevent the entrance of cheese particles or ingredients after the cooker batch of cheese has reached the final heating temperature. After holding for the required period of time, the hot cheese shall be emptied from the cooker as quickly as possible.

§ 58.729 Forming containers.

Containers either lined or unlined shall be assembled and stored in a sanitary manner to prevent contamination. The handling of containers by filler crews should be done with extreme care and observance of personal cleanliness. Preforming and assembling of pouch liners and containers shall be kept to a minimum and the supply rotated to limit the length of time exposed to possible contamination prior to filling.

§ 58.730 Filling containers.

Hot fluid cheese from the cookers may be held in hotwells or hoppers to assure a constant and even supply of processed cheese to the filler or slice former. Filler valves shall effectively measure the desired amount of product into the pouch or container in a sanitary manner and shall cut off sharply without drip or drag of cheese across the opening. An effective system shall be used to maintain accurate and precise weight control. Damaged or unsatisfactory packages shall be removed from production, and the cheese may be salvaged into sanitary containers, and added back to cookers.

§ 58.731 Closing and sealing containers.

Pouches, liners, or containers having product contact surfaces, after filling shall be folded or closed and sealed in a sanitary manner, preferably by mechanical means, so as to assure against contamination. Each container in addition to other required labeling shall be coded in such a manner as to be easily identified as to date of manufacture by lot or sublot number.

§ 58.732 Cooling the packaged cheese.

After the containers are filled they shall be stacked, or cased and stacked in such a manner as to prevent breaking of seals due to excessive bulging and to allow immediate progressive cooling of the individual containers of cheese. As a minimum the cheese should be cooled to a temperature of 100° F. or lower within 24 hours after filling. The temperature of the cheese should be reduced further, before being shipped or if storage is intended.

§ 58.733 Quality control tests.

(a) *Chemical analyses.* The following chemical analyses shall be performed in accordance with the appropriate edition of the Official Methods of Analysis of the AOAC as specified in the appropriate Standards of Identity or in accordance with methods that give equivalent results.

(1) *Cheese.* A representative sample of cheese used in the manufacture of pasteurized process cheese products shall have been tested prior to usage to determine its moisture and fat content.

(2) *Pasteurized process cheese products.* As many samples shall be taken of the finished product direct from the cooker, hopper or filler as is necessary to assure compliance with composition requirements. Spot checks should be made on samples from the cooker as frequently as is necessary to indicate pasteurization by means of the phosphatase test, as well as any other tests necessary to assure good quality control.

(b) *Examination of physical characteristics.* As many samples shall be taken as is necessary to assure meeting the required physical characteristics of the products. Representative samples shall be taken from production for examination of physical characteristics. The samples shall be examined at approximately 70° F. the first day of operation after the date of processing for the following characteristics. (1) Finish and appearance, (2) flavor, (3) color, (4) body and texture, and (5) slicing or spreading properties.

(c) *Keeping quality.* During processing or preferably from the cooled stock select sufficient samples at random from the production run. The samples should be stored at approximately 50° F. for 3 months for evaluation of physical characteristics as in (b) above. Additional samples may be selected and held at different temperatures or time.

(d) *Weight control.* During the filling operation as many samples shall be randomly selected and weighed from each production run as is necessary to assure

XUM
V40-30 FEB 12 75 XUM

accuracy of the net weight established for the finished products.

REQUIREMENTS FOR PROCESSED CHEESE PRODUCTS BEARING USDA OFFICIAL IDENTIFICATION

§ 58.734 Pasteurized process cheese.

Shall conform to the provisions of the Definitions and Standards of Identity for Pasteurized Process Cheese and Related Products, Food and Drug Administration. The average age of the cheese in the blend shall be such that the desired flavor, body and texture will be achieved in the finished product. The quality of pasteurized process cheese shall be determined on the basis of flavor, body and texture, color, and finish and appearance.

(a) *Flavor.* Has a pleasing and desirable mild cheese taste and odor characteristic of the variety or varieties of cheese ingredients used. If additional optional ingredients are used they shall be incorporated in accordance with good commercial practices and the flavor imparted shall be pleasing and desirable. May have a slight cooked or very slight acid or emulsifier flavor; is free from any undesirable tastes and odors.

(b) *Body and texture.* Shall have a medium-firm, smooth and velvety body free from uncooked cheese particles. Is resilient and not tough, brittle, short, weak, or sticky. It shall be free from pin holes or openings except those caused by trapped steam. The cheese shall slice freely, and shall not stick to the knife or break when cut into approximately ⅛ inch slices. If in sliced form, the slices shall separate readily.

(c) *Color.* May be colored or uncolored but shall be uniform throughout. If colored it shall be bright and not be dull or faded. To promote uniformity and a common reference to describe color use the color designations as depicted by the National Cheese Institute standard color guide for cheese.

(d) *Finish and appearance.* The wrapper may be slightly wrinkled but shall envelop the cheese, adhere closely to the surface, and be completely sealed and not broken or soiled.

§ 58.735 Pasteurized process cheese food.

Shall conform to the provisions of the Definitions and Standards of Identity for Pasteurized Process Cheese Food and Related Products, Food and Drug Administration. The average age of the cheese in the blend shall be such that the desired flavor, body and texture will be achieved in the finished product. The quality of pasteurized process cheese food shall be determined on the basis of flavor, body and texture, color, and finish and appearance.

(a) *Flavor.* Has a pleasing and desirable mild cheese taste and odor characteristic of the variety or varieties of cheese ingredients used. If additional optional ingredients are used they shall be incorporated in accordance with good commercial practices and the flavor imparted shall be pleasing and desirable. May have a slight cooked or very slight acid or emulsifier flavors; is free from any undesirable tastes and odors.

(b) *Body and texture.* Shall have a reasonably medium-firm smooth and velvety body and free from uncooked cheese particles. Is resilient and not tough, brittle, short or sticky. It shall be free from pin holes or openings except those caused by trapped steam. The product shall slice freely with only a slight amount of sticking and shall not break when cut into approximately ⅛ inch slices. If in sliced form, the slices shall separate readily.

(c) *Color.* May be colored or uncolored but shall be uniform throughout. If colored it shall be bright and not be dull or faded. To promote uniformity and a common reference to describe color use the color designations as depicted by the National Cheese Institute standard color guide for cheese.

(d) *Finish and appearance.* The wrapper may be slightly wrinkled but shall envelop the cheese, adhere closely to the surface, and be completely sealed and not broken or soiled.

§ 58.736 Pasteurized process cheese spread and related products.

Shall conform to the applicable provisions of the Definitions and Standards of Identity for Pasteurized Process Cheese Spreads, Food and Drug Administration. The pH of pasteurized process cheese spreads shall not be below 4.0.

The quality of pasteurized process cheese spreads shall be determined on the basis of flavor, body and texture, color, and finish and appearance.

(a) *Flavor.* Has a pleasing and desirable cheese taste and odor characteristic of the variety or varieties of cheese ingredients used. If additional optional ingredients are used they shall be incorporated in accordance with good commercial practices and the flavor imparted shall be pleasing and desirable. May have a slight cooked, acid, or emulsifier flavor; is free from any undesirable tastes and odors.

(b) *Body and texture.* Shall have a smooth body free from uncooked cheese particles and when packaged shall form into a homogeneous plastic mass, and be free from pin holes or openings except those caused by trapped steam. Product made for slicing shall slice freely when cut into approximately ⅛ inch slices with only a slight amount of sticking. Product made for spreading shall be spreadable at approximately 70° F.

(c) *Color.* May be colored or uncolored but shall be uniform throughout. If colored it shall be bright and not be dull or faded. To promote uniformity and a common reference to describe color the color designations as depicted by the National Cheese Institute standard color guide for cheese may be used.

(d) *Finish and appearance.* Wrappers, if used, may be slightly wrinkled but shall envelop the cheese, adhere closely to the surface, and be completely sealed and not broken or soiled. Other containers made of suitable materials shall be completely filled, sealed and not broken or soiled.

§ 58.737 Explanation of terms. Blend set up.

(a) The trade term for a particular group of vat lots of cheese selected to form a blend based upon their combined ability to impart the desired characteristics to a pasteurized process cheese product.

(b) *Cooker batch.* The amount of cheese and added optional ingredients placed into a cooker at one time, heated to pasteurization temperature, and held for the required length of time.

SUPPLEMENTAL SPECIFICATIONS FOR PLANTS MANUFACTURING, PROCESSING, AND PACKAGING WHEY, WHEY PRODUCTS AND LACTOSE

DEFINITIONS

§ 58.805 Meaning of words.

For the purpose of the regulations in this subpart, words in the singular form shall be deemed to impart the plural and vice versa, as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning:

(a) *Whey.* The product conforming to the applicable Standards of Identity, Food and Drug Administration.

(b) *Sweet whey.* Whey not having more than 0.16 percent titratable acidity.

(c) *Medium acid whey.* Whey having more than 0.16 percent, but less than 0.40 percent titratable acidity.

(d) *Acid whey.* Whey having more than 0.40 percent titratable acidity.

(e) *Dry whey.* The product resulting from spray drying fresh whey which has been pasteurized either before or during the process of manufacture and to which no alkali or other chemicals have been added for the purpose of a preservative or altering the natural acidity. It contains all constituents, except moisture, in the same relative proportions as in the whey.

(f) *Partially demineralized whey.* The product conforming to the applicable Standards of Identity, Food and Drug Administration.

(g) *Partially delactosed whey.* The product conforming to the applicable Standards of Identity, Food and Drug Administration.

(h) *Demineralized whey.* The product conforming to the applicable Standards of Identity, Food and Drug Administration.

(i) *Whey protein concentrate.* The product conforming to the applicable Standards of Identity, Food and Drug Administration.

(j) *Lactose.* The product conforming to the applicable Standards of Identity, Food and Drug Administration.

ROOMS AND COMPARTMENTS

§ 58.806 General.

Dry storage of product, packaging room for bulk product, and hopper or dump room shall meet the requirements of sections 58.210 through 58.212 as applicable.

EQUIPMENT AND UTENSILS

§ 58.807 General construction, repair and installation.

All equipment and utensils necessary to the manufacture of dry whey, dry whey products and lactose; including pasteurizer, timing-pump or device, flow diversion valve and recorder controller, shall meet the same general requirements as outlined in section 58.128. In addition, pre-heaters, hotwells, evaporators and/or vacuum pans, surge tanks, high pressure pumps and lines, spray dryers, other drying systems (except roller dryers), collectors and conveyors, dry product cooling equipment, special treatment equipment, sifters, and portable and stationary bins shall meet the requirements of sections 58.215 through section 58.224 and 58.226 as applicable.

§ 58.808 Mineral, protein and lactose removal and/or concentration equipment.

Shall include, but not be limited to ultrafiltration, reverse osmosis, gel filtration, electrodialysis, basket centrifuges, and decanting equipment. The equipment shall be of sanitary construction and readily cleanable. All parts shall be accessible for inspection, and shall be constructed following the applicable principles of the 3-A Sanitary Standards except where necessary for engineering reasons.

§ 58.809 Clothing and shoe covers.

Shall meet the requirements of section 58.225.

§ 58.810 Crystallizing tanks and/or vats.

Shall meet the requirements of section 58.128 (d).

QUALITY SPECIFICATIONS FOR RAW MATERIAL

§ 58.811 Whey.

Whey for drying shall be fresh and originate from the processing of products made from milk meeting the requirements as outlined in section 58.132 through 58.138. The whey for further processing shall contain no neutralizing agent or other chemicals except when such use is approved by the Food and Drug Administration. Sweet or medium acid whey unless processed within 2 hours shall be held at 45° F. or lower, or at temperatures of 145° F. or above until processed, except that higher temperatures may be used when necessary for the technology of the process.

§ 58.812 Pasteurization.

All whey used in the manufacturing of whey, whey products and lactose shall be pasteurized as soon as possible after drawing from the vat to destroy any microorganisms which may adversely affect the wholesomeness and quality of the product. The fluid or condensed product shall be handled under sanitary conditions. If transferred to another plant for further processing, or if during the processing procedure ingredients are added or processing procedures permit contamination, the product shall again be pasteurized as close to the final drying operation as is practical, However, condensed whey containing 40 percent or more solids may be transported to another plant and dried without repasteurization. At a plant where both the condensing and drying operations take place, with a minimum of time delay, the pasteurization operation may be located at a point which shall protect the finished product and not adversely affect the processing procedure. Pasteurization shall be at a temperature of 161° F. for 15 seconds or other time/temperature relationships which have been demonstrated to be equivalent thereto, in microbial destruction.

§ 58.813 General.

The operating procedures as contained in sections 58.237 through 58.244, 58.246, 58.247, and 58.443(a)(b) shall be followed as applicable.

§ 58.814 Methods of official sample analysis.

Samples shall be tested according to the applicable methods of laboratory analysis contained in DA Instruction 918-109-2 and 918-109-3 as issued by the USDA, Agricultural Marketing Service, Dairy Division.

REQUIREMENTS FOR FINISHED PRODUCTS BEARING USDA OFFICIAL IDENTIFICATION

§ 58.815 Dry whey.

The quality requirements for all dry whey shall be in accordance with the U.S. Standards for Dry Whey.

SUPPLEMENTAL SPECIFICATIONS FOR PLANTS MANUFACTURING, PROCESSING, AND PACKAGING EVAPORATED, AND CONDENSED MILK OR ULTRA PASTEURIZED PRODUCTS

DEFINITIONS

§ 58.905 Meaning of words.

For the purpose of the regulations in this subpart, words in the singular form shall be deemed to impart the plural and vice versa as the case may demand. Unless the context otherwise requires, the following terms shall have the following meaning:

(a) *Evaporated milk.* The liquid food made by evaporating sweet milk to such point that it contains not less than 7.5 percent of milkfat and not less than 25.5 percent of the total milk solids. The finished product shall conform to the requirements of section 18.520 "Definitions and Standards of Identity for Milk and Cream," Food and Drug Administration (21 CFR 18.520).

(b) *Concentrated milk, plain condensed milk.* The product which conforms to the standard of identity for evaporated milk except that it is not processed by heat to prevent spoilage. The container may be unsealed, and stabilizing ingredients are not used. The finished product shall conform to the requirements of section 18.525 "Definitions and Standards of Identity for Milk and Cream," Food and Drug Administration (21 CFR 18.525).

(c) *Sweetened condensed milk.* The liquid or semi-liquid food made by evaporating a mixture of sweet milk and refined sugar (sucrose) or any combination of refined sugar (sucrose) and refined corn sugar (dextrose) to such point that the finished sweetened condensed milk contains not less than 28.0 percent of total milk solids and not less than 8.5 percent of milkfat. The quantity of sugar used is sufficient to prevent spoilage. The finished product shall conform to the requirements of section 18.530 or 18.535, respectively, "Definitions and Standards of Identity for Milk and Cream," Food and Drug Administration (21 CFR 18.530 and 18.535).

(d) *Ultra-pasteurized.* The product shall have been thermally processed at or above 280° F. for at least 2 seconds, either before or after packaging, so as to produce a product which has an extended shelf life under refrigerated conditions.

EQUIPMENT AND UTENSILS

§ 58.912 General construction, repair and installation.

The equipment and utensils used for processing and packaging evaporated, condensed or ultra pasteurized dairy products shall be as specified in section 58.128. In addition for certain other equipment, the following requirements shall be met.

§ 58.913 Evaporators and vacuum pans.

All equipment used in the removal of moisture from milk or milk products for the purpose of concentrating the solids should comply with the requirements of the 3-A Sanitary Standards for Milk and Milk Products Evaporators and Vacuum Pans.

§ 58.914 Fillers.

Both gravity and vacuum type fillers shall be of sanitary design and all product contact surfaces, if metal, shall be made of stainless steel or equally corrosion-resistant material; except that, certain evaporated milk fillers having brass parts may be approved if free from corroded surfaces and kept in good repair. Nonmetallic product contact surfaces shall comply with the requirements for 3-A Sanitary Standards for Plastic, and Rubber and Rubber-Like Materials. Fillers shall be designed so that they in no way will contaminate or detract from the quality of the product being packaged.

§ 58.915 Batch or continuous in-container thermal processing equipment.

Shall comply with Title 21, Chapter 1, Subpart 128b—"Thermally Processed Low-Acid Foods Packaged in Hermetically Sealed Containers." The equipment shall be maintained in such a manner as to assure control of the length of time of processing, and to minimize the number of damaged containers.

§ 58.916 Homogenizer.

Homogenizers where applicable shall be used to reduce the size of the fat particles and to evenly disperse them in the

XUM V40-130 FEB 12 75 XUM

product. Homogenizers shall comply with the applicable 3–A Sanitary Standards.

OPERATIONS AND OPERATING PROCEDURES

§ 58.917 General.

There are many operations and procedures used in the preparation of evaporated, condensed and ultra pasteurized dairy products that are similar, therefore, the following general requirements will apply when such operations or procedures are used.

§ 58.918 Standardization.

The standardization of the product to obtain a finished product of a given composition shall be accomplished by the addition or removal of milkfat, milk solids-not-fat and/or water. The ingredients added to accomplish the desired composition shall be of the same hygenic quality as the product being standardized.

§ 58.919 Pre-heat, pasteurization.

When pasteurization is intended or required by either the vat method, HTST method, or by the HHST method it shall be accomplished by systems and equipment meeting the requirements outlined in section 58.128. Pre-heat temperatures prior to ultra pasteurization will be those that have the most favorable effect on the finished product.

§ 58.920 Homogenization.

Where applicable concentrated products shall be homogenized for the purpose of dispersing the fat throughout the product. The temperature of the product at time of homogenization and the pressure at which homogenization is accomplished will be that which accomplishes the most desired results in the finished products.

§ 58.921 Concentration.

Concentrating by evaporation shall be accomplished with a minimum of chemical change in the product. The equipment and systems used shall in no way contaminate or adversely affect the desirability of the finished product.

§ 58.922 Thermal processing.

The destruction of living organisms shall be performed in one of the following methods. (a) The complete in-container method, by heating the container and contents to a range of 212° F. to 280° F. for a sufficient time; (b) by a continuous flow process at or above 280° F. for at least 2 seconds, then packaged aseptically; (c) the product is first processed according to methods as in (b), then packaged and given further heat treatment to complete the process.

§ 58.923 Filling containers.

(a) The filling of small containers with product shall be done in a sanitary manner. The containers shall not contaminate or detract from the quality of the product in any way. After filling, the container shall be hermetically sealed.

(b) Bulk containers for the product shall be suitable and adequate to protect the product in storage or transit. The bulk container (including bulk tankers) shall be cleaned and sanitized before filling, and filled and closed in a sanitary manner.

§ 58.924 Aseptic filling.

A previously ultra pasteurized product shall be filled under conditions which prevent contamination of the product by living organisms or spores. The containers prior to being filled shall be sterilized and maintained, in a sterile condition. The containers shall be sealed in a manner that prevents contamination of the product.

§ 58.925 Sweetened condensed.

After condensing, the sweetened condensed product should be cooled rapidly to about 85° F. to induce crystallization of the oversaturated lactose. When the desired crystallization is reached further cooling is resumed to 68°–70° F.

§ 58.926 Heat stability.

Prior to thermal processing of concentrated products and where stabilizers are allowed, tests should be made on the heat stability of the product to determine necessity for, and the amount of stabilizer needed. Based on the stability tests, safe and suitable stabilizers and emulsifiers may be added.

§ 58.927 Storage.

Finished products which are to be held more than 30 days should be stored at temperatures below 72° F. Precautions shall be taken to prevent freezing of the product.

§ 58.928 Quality control tests.

All dairy products and other ingredients shall be subject to inspection for quality and condition throughout each processing operation. Quality control tests shall be made on flow samples as often as is necessary to check the effectiveness of processing and manufacturing and as an aid in correcting deficiencies. Routine analyses shall be made on raw materials and finished products to assure adequate composition control. For each batch or production run a keeping quality test shall be made to determine product stability.

§ 58.929 Frequency of sampling for quality control. Evaporated and condensed milk and ultra pasteurized dairy products.

(a) *Composition.* Sampling and testing for composition shall be made on batches of product as often as is necessary to control composition. On continuous production runs, enough samples shall be taken throughout the run to adequately assure composition requirements.

(b) *Other chemical analysis or physical analysis.* Such tests shall be performed as often as is necessary to assure compliance with standards, specifications or contract requirements.

(c) *Weight or volume control.* Representative samples of the packaged products shall be checked during the filling operation to assure compliance with the stated net weight or volume on the container.

(d) *Keeping quality and stability.* A minimum of one sample from each batch of product or one representative sample per hour from a continuous production run shall be taken. For continuous runs, samples shall be taken at the start, each hour, and at the end of the run. Samples should also be taken after resumption of processing following an interruption in continuous operation. Each sample shall be incubated at 90° F. to 100° F. for seven days.

§ 58.930 Official test methods.

(a) *Chemical.* Chemical analysis, except where otherwise prescribed herein, shall be made in accordance with the methods described in the latest edition of Official Methods of Analysis of the AOAC; by the latest edition of Standard Methods for the Examination of Dairy Products.

(b) *Microbiological.* Microbiological determinations shall be made in accordance with the methods described in the latest edition of Standard Methods for the Examination of Dairy Products.

§ 58.931 General identification.

Bulk shipping containers shall be legibly marked with the name of the product, net weight, name and address of manufacturer, processor or distributor, a lot number and coded date of manufacture. Consumer sized containers shall meet the requirements of Food and Drug's Fair Packaging and Labeling Act.

QUALITY SPECIFICATIONS FOR RAW MATERIALS

§ 58.932 Milk.

To process and package evaporated and condensed milk or ultra pasteurized dairy products eligible for official identification with the USDA Quality Approved Inspection Shield the raw incoming milk shall meet the requirements as outlined in sections 58.132 through 58.136. Unless processed within two hours after being received, it shall be cooled to, and held at a temperature of 45° F. or lower until processed.

§ 58.933 Stabilizers.

Shall be those permitted by the Food and Drug Administration's "Standards of Identity" as optional ingredients for specific products. Stabilizers shall be free from extraneous material, be of food grade quality and not be in violation of the Federal Food, Drug and Cosmetic Act.

§ 58.934 Sugars.

Sucrose or dextrose used in the manufacture of sweetened condensed or sterilized milk products shall be refined, and of food grade quality.

§ 58.935 Chocolate and cocoa.

Such products used as flavor ingredients shall meet the requirements of the Food and Drug Administration, "Definitions and Standards of Identity for Cocoa Products."

REQUIREMENTS FOR FINISHED PRODUCTS BEARING USDA OFFICIAL IDENTIFICATION

§ 58.936 Physical requirements for evaporated milk.

(a) *Flavor.* The product shall possess a sweet, pleasing and desirable flavor with not more than a definite cooked flavor. It shall be free from scorched, oxidized or other objectionable tastes and odors.

(b) *Body and texture.* The product shall be of uniform consistency and appearance. It shall be smooth and free from fat separation, lumps, clots, gel formation, coarse milk solids precipitate or sedimentation and extraneous material.

(c) *Color.* The color shall be of a natural white or light cream.

(d) *Degree of burn-on.* The interior walls of the container shall not show excessive burn-on of product (product fused to more than 75 percent of the inner surface of the can).

(e) *Keeping quality.* Samples incubated at 90–100° F shall show no sensory, chemical or microbiological deterioration after seven days.

§ 58.937 Physical requirements and microbiological limits for sweetened condensed milk.

(a) *Flavor.*—Shall be sweet, clean, and free from rancid, oxidized, scorched, fermented, stale or other objectionable tastes and odors.

(b) *Color.* Shall be white to light cream.

(c) *Texture.* Shall be smooth and uniform, free from lumps or coarse graininess. There shall not be sufficient settling of the lactose to cause a deposit on the bottom of the container.

(d) *Body.* Shall be sufficiently viscous so that the product upon being poured at room temperature piles up above the surface of that previously poured, but does not retain a definite form.

(e) *Microbiological limits.*

(1) Coliforms, less than 10 per gram; (2) yeasts, less than 5 per gram; (3) molds, less than 5 per gram; (4) total plate count, less than 1,000 per gram.

(f) *Keeping quality.* Samples incubated at 90–100° F shall show no physical evidence of deterioration after seven days.

(g) *Composition.* Shall meet the minimum requirements as set forth in the "Standards of Identity for Milk and Cream," Food and Drug Administration (21 CFR 18.530 and 18.535). In addition, the quantity of refined sugar used shall be sufficient to give a sugar-in-water ratio of not less than 61.5 percent.

(h) *Sediment.* The amount of sediment retained on a lintine disc after a sample composed of 225 grams of product dissolved in 500 ml. of 140° F. water has passed through it, shall not exceed 0.10 mg. as indicated by the USDA Sediment Standard for Milk and Milk Products, (7 CFR 58.2726).

The reporting and/or record-keeping requirements contained herein have been approved by the Bureau of the Budget in acordance with the Federal Reports Act of 1942.

Done at Washington, D.C. this 6th day of February, 1975.

E. L. PETERSON,
Administrator.

NOTICE TO FEDERAL REGISTER READERS

As part of its continuing program to improve the quality of the daily FEDERAL REGISTER and CODE OF FEDERAL REGULATIONS, the Office of the Federal Register is soliciting the views of interested persons on the effectiveness of individual Federal Register documents and on regulations contained in the CODE OF FEDERAL REGULATIONS.

Our goal is twofold:

First—to make each document published in the FEDERAL REGISTER easily understandable, thus making compliance easier, more efficient, and less costly; and

Second—to identify and correct any existing Federal regulations which are obsolete, unnecessarily wordy, or unclearly stated.

We believe this effort is consistent with the objectives stated by President Ford in his October 8th speech on the economy in which he announced "a joint effort by the Congress, the executive branch and the private sector to identify and eliminate existing Federal rules and regulations that increase costs to the consumer without any good reason in today's economic climate."

The Office of the Federal Register welcomes your comments and suggestions. The survey blank below is provided for that purpose. All comments received will be maintained in a public docket and will be available for inspection in the Office of the Federal Register to any interested persons or agencies. Comments which point out the need for substantive changes in existing regulations also will be forwarded to the responsible agency.

I. For the following reasons I found it difficult to understand the document from _____ (agency) in column _____, page _____ of the _____ (date) issue of the FEDERAL REGISTER:

☐ only technical language was used; ☐ document contained long and difficult sentences;
☐ preamble did not contain a clear and concise explanation of the document's purpose;
☐ other (explain) _____

_____

_____

II. I believe that the requirement(s) contained in:

A. The document from _____ (agency) in column _____, page _____ of the _____ (date) issue of the FEDERAL REGISTER, or

B. Section(s) _____ of Title _____ of the CODE OF FEDERAL REGULATIONS

impose(s) an: ☐ unnecessary; ☐ unreasonable; ☐ impractical; or ☐ obsolete requirement on those persons subject to that regulation.

My reasons are: _____

_____

_____

III. (Optional) I suggest that the provision(s) mentioned above be rewritten as follows:

_____

_____

_____

Please mail to:

Office of the Federal Register
National Archives and Records Service
General Services Administration
Washington, D.C. 20408

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

TROUBLED WATERS—Commerce/MA ends marital restrictions for Merchant Marine Cadets; effective 2–13–75 6655

PENSION BENEFITS—VA proposal raising compensation levels, and liberalizing definition of "Veteran"; comments by 3–17–75 6688

INTEREST RATES—HUD issues interim ruling on maximum applicable to Mortgage increases; effective 2–13–75; comments by 4–14–75 6647

INVESTMENT CONTRACTS—SEC exempts specified residential real property pacts from credit regulation; effective 3–3–75 6644

MEDICAL EDUCATION—HEW/PHS announces it is now accepting applications for Public Health and Allied Health Professions Grant Programs 6696

DOMESTIC AIR FARES—CAB establishes evaluation guidelines; effective 2–7–75 6642

MEETINGS—

Administrative Conference of the U.S.: Committee on Compliance and Enforcement Proceedings, 3–12–75 6703

Committee on Licenses and Authorizations, 3–13–75 6703

DOT/NHTSA: Youth Highway Safety Advisory Committee, 3–1 and 3–2–75 6703

Interior: National Petroleum Council, 3–4–75 6694

National Science Foundation: Federal Committee on Ecological Reserves, 2–18–75 6725

State/AID: Research Advisory Committee, 3–20 and 3–21–75 6691

NRC: Advisory Committee on Reactor Safeguards, 2–28–75 6724

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

DOT/FAA—IFR altitudes; exception to Western United States mountainous area 2577; 1–14–75

DOT/FAA—Standard Instrument approach procedures 3576; 1–23–75

Daily List of Public Laws

This is a listing of public bills enacted by Congress and approved by the President, together with the law number, the date of approval, and the U.S. Statute citation. Subsequent lists appear each day in the FEDERAL REGISTER, and copies of the laws may be obtained from the U.S. Government Printing Office.

S. 3418 ..... Pub. Law 91–696
To amend the Public Health Service Act to provide for grants to medical schools and hospitals in the field of family medicine; to provide for a study relating to causes and treatment of malnutrition
(Upon the expiration of the 10-day period prescribed by the U.S. Constitution, S. 3418 became law on Dec. 25, 1970, without the President's approval, in accordance with the decision of the U.S. Court of Appeals for the District of Columbia Circuit, Kennedy v. Sampson, et al., Nos. 73–2121 and 2122 (D.C. Cir., Aug. 14, 1974) 84 Stat. 2080–1)

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5282. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 339]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period February 14-20, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

§ 907.639 Navel Orange Regulation 339.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges continues very good. Prices f.o.b. averaged $3.65 per carton on a reported sales volume of 1,374 carlots last week, compared with an average f.o.b. price of $3.69 per carton and sales of 1,278 carlots a week earlier. Track and rolling supplies at 674 cars were up 138 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 11, 1975.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period February 14, 1975, through February 20, 1975, are hereby fixed as follows:

(i) District 1: 1,435,000 cartons;

(ii) District 2: 215,000 cartons;

(iii) District 3: Unlimited movement."

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: February 12, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

[AL 965 (465)]

PART 1890e—REAL ESTATE SECURITY-EO LOANS

Deletion of Part

Correction

In FR Doc. 75-3525 appearing on page 5763 in the issue of Friday, February 7, 1975 in the first line of the document the reference to "part 1890s" should read "1890e".

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 78—BRUCELLOSIS

Subpart D—Designation of Modified Certified Brucellosis Areas, Specifically Approved Stockyards, and Slaughtering Establishments

This amendment deletes the following areas from the list of areas designated as Modified Certified Brucellosis Areas in 9 CFR 78.13 because it has been determined that these areas no longer come within the definition of § 78.1(d): Jefferson Davis and Rankin Counties in Mississippi; Cherokee County in Oklahoma; and Anderson, Hill, Tarrant and Wise Counties in Texas.

The following counties were deleted from the list of Modified Certified Brucellosis Areas in 9 CFR 78.13 on the specified dates: Dewey County in Oklahoma on July 29, 1974; Latimer and Seminole Counties in Oklahoma on October 29, 1974; and Atascosa, Bastrop, Ellis, Falls, Hood, Houston, Jefferson, Live Oak, McLennan, Nacogdoches, Titus and Travis Counties in Texas on January 10, 1975. Since said dates, it has been determined that these counties again come within

XUM
V40-31 FEB 13 75 F
XUM

the definition of § 78.1(l); and, therefore, they have been redesignated as Modified Certified Brucellosis Areas.

Accordingly, § 78.13 of said regulations designating Modified Certified Brucellosis Areas is hereby revised to read as follows:

§ 78.13 Modified Certified Brucellosis Areas.

(a) All States of the United States are hereby designated as Modified Certified Brucellosis Areas except Mississippi, Oklahoma, and Texas.

(b) The following States are hereby designated as Modified Certified Brucellosis Areas except for the counties named:

(1) Mississippi except Jefferson Davis and Rankin Counties.

(2) Oklahoma except Adair, Canadian, Cherokee, Haskell, Le Flore, Okfuskee, and Pottawatomie Counties.

(3) Texas except Anderson, Dallas, Freestone, Hill, Jim Wells, Kaufman, Limestone, Navarro, Orange, Smith, Tarrant, and Wise Counties.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; sec. 3, 33 Stat. 1265, as amended; sec. 2, 65 Stat. 693; and secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 114a–1, 115, 117, 120, 121, 125, 134b, 134f; 37 F.R. 28464, 28477, 38 F.R. 19141, 9 CFR 78.16).

Effective date. The foregoing amendment shall become effective on February 13, 1975.

The amendment imposes certain restrictions necessary to prevent the spread of brucellosis in cattle and relieves certain restrictions presently imposed. It should be made effective promptly in order to accomplish its purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 7th day of February, 1975.

J. M. HEJL,
Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.75-4050 Filed 2-12-75;8:45 am]

Title 13—Business Credit and Assistance

CHAPTER I—SMALL BUSINESS ADMINISTRATION

[Rev. 2, Amdt. 1]

PART 114—ADMINISTRATIVE CLAIMS UNDER FEDERAL TORT CLAIMS ACT

Regional Board of Survey Membership

This amendment requires that a "delegatee" of the Assistant Regional Director for Administration shall be a member of the Regional Board of Survey rather than the Assistant Regional Director for Administration himself.

Therefore, § 114.100(b) is revised to read:

Sec. 114.100 Definitions.

* * * * *

(b) "Regional Board of Survey" means a three-member board composed of the Regional Counsel and the Assistant Regional Director for Finance and Investment; and *the delegatee* of the Assistant Regional Director for Administration. The Regional Counsel shall be chairman.

* * * * *

Effective date: February 13, 1975.

THOMAS S. KLEPPE,
Administrator.

[FR Doc.75-4034 Filed 2-12-75;8:45 am]

CHAPTER III—ECONOMIC DEVELOPMENT ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 303—ECONOMIC DEVELOPMENT DISTRICTS

Grant and Loan Program

Part 303 of Chapter III of Title 13 of the Code of Federal Regulations is hereby amended.

In that the material contained herein is a matter relating to the grant and loan program of the Economic Development Administration and because a delay in implementing these regulations would be contrary to the public interest, the relevant provisions of the Administrative Procedure Act (5 U.S.C. 533) requiring notice of proposed rulemaking, opportunity for public participation and delay in effective date are inapplicable.

The purpose of this amendment is to make a technical change in the standards for designation of economic development centers.

§ 303.10 [Amended]

1. Section 303.10 is amended by deleting paragraph (h).

(Sec. 701, Pub. L. 89–136 (August 26, 1965); 42 U.S.C. 3211; 79 Stat. 570 and Department of Commerce Organization Order 10–4, April 1, 1970 (35 FR 5970))

Effective date. This regulation becomes effective on February 13, 1975.

Dated: February 5, 1975.

D. JEFF CAHILL,
Acting Assistant Secretary for Economic Development.

[FR Doc.75-4045 Filed 2-12-75;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 74-CE-1-AD; Amdt. 39-1777]

PART 39—AIRWORTHINESS DIRECTIVES

Beech Models 33, 35, 36, 55, 58 and 95 Series Airplanes; Correction

In FR Doc. 74-2499 appearing on pages 3928 and 3929 in the FEDERAL REGISTER issue of Thursday, January 31, 1974, lines 11 and 12 of the applicability statement should read as follows: "E55A (Serial Numbers TE-914 through TE-940, except TE-919, TE-920 and TE-".

Issued in Kansas City, Missouri, on February 4, 1975.

GEORGE R. LACAILLE,
Acting Director, Central Region.

[FR Doc.75-4036 Filed 2-12-75;8:45 am]

[Airworthiness Docket No. 75-WE-10-AD; Amdt. 39-2090]

PART 39—AIRWORTHINESS DIRECTIVES

Lockheed Model L-1011-385-1 Series Airplanes

The agency has received a report of a fire which originated in the lower fuselage space of a L-1011-385-1 airplane, below the C-3 cargo compartment drain sump. The fire was ignited by the sump-drain heater. The fire damage was confined to the area below the cargo floor which surrounds the drain heater. The insulating blanket casing, insulating blanket tape, drain ball, drain tube, wire insulation (four inches per wire) and heat shrinkable tubing over the drain heater were burned. Structural damage to the floor support beam at FS 1665 was sustained.

Two additional drain heaters have failed with overheat conditions confined to the drain heater under the C-1 and C-2 cargo drain sumps. These reported failures did not result in structural damage.

Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive (AD) is being issued to require deactivation of the C-1, C-2, and C-3 cargo compartment sump drain heaters, until FAA-approved modifications can be incorporated.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

LOCKHEED. Applies to L-1011-385-1 airplanes certificated in all categories.

Compliance required within 10 calendar days after the effective date of this AD, unless already accomplished.

To prevent heater blanket overheat conditions and possible fires caused by a malfunctioning cargo sump drain heater, Electrofilm P/N 111202-101 (LAC Control No. 672726-101), accomplish (a) or (b) below:

(a) Disconnect the C-1, C-2, and C-3 cargo compartment drain heaters per Lockheed Alert Service Bulletin 093-30-A032, dated January 23, 1975, or later FAA-approved revisions, or;

(b) Equivalent deactivation modifications approved by the Chief, Aircraft Engineering Division, FAA Western Region.

(c) An airplane may be flown to a base for the performance of the work required by this AD per FAR's 21.197 and 21.199.

(d) The C-1, C-2, and C-3 cargo compartment drain heaters may be reactivated in accordance with modifications or instructions approved by the Chief, Aircraft Engineering Division, FAA Western Region. The approved data must reference this AD, and the FAA-approval date.

This amendment becomes effective February 19, 1975.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, California on February 4, 1975.

LYNN L. HINK,
Acting Director, FAA Western Region.

[FR Doc.75-4037 Filed 2-12-75;8:45 am]

[Airworthiness Docket No. 75-SW-6; Amdt. 39-2091]

PART 39—AIRWORTHINESS DIRECTIVES

Mooney Models M20C, M20E and M20F Airplanes

There has been one case of a failure of the ITT P/N LA11C2110 Landing gear actuator wherein the threaded stud end of the actuator separated from the tube assembly which is attached to the ball drive and resulted in collapse of the landing gear during takeoff.

Since this condition is likely to develop in other airplanes of the same type design, an airworthiness directive is being issued to require replacement of the ITT P/N LA11C2110 actuator on Models M20C, M20E, and M20F airplanes having this part installed.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator, 31 FR 13697, § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

MOONEY. Applies to Models M20C, M20E, and M20F airplanes equipped with the ITT landing gear actuator P/N LA11C2110, with Serial Numbers as follows:

Model M20C: 20–0037, 0038, 0039, 0040, 0041, 0042, 0043, 0044, 0045, and 0046;

Model M20E: 21–0050, 0051, 0052, 0053, 0054, 0055, 0056, 0057, 0058, 0059, and 0060;

Model M20F: 22–0065, 0066, 0067, 0068, 0069, 0070, 0071, 0072, 0073, 0074, 0075, 0076, 0077, and 0078.

Compliance is required prior to further flight except that airplanes may be flown to a facility for actuator replacement after fixing the lapding gear in the extended position in accordance with instructions included in Mooney Aircraft Corporation Service Bulletin M20–191, dated January 28, 1975, or later FAA approved revision, or an FAA approved equivalent procedure.

To prevent further failures of the ITT P/N LA11C2110 actuator it should be replaced with a Mooney P/N 950227–501 actuator in accordance with Mooney Aircraft Corporation Service Bulletin M20–191, dated January 28, 1975, or later FAA approved revision, or by an equivalent procedure approved by the Chief, Engineering and Manufacturing Branch, Southwest Region, Federal Aviation Administration, Fort Worth, Texas.

This amendment becomes effective on February 20, 1975.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, Texas on February 5, 1975.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.75-4038 Filed 2-12-75;8:45 am]

[Airspace Docket No. 74-RM-20]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On December 16, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER, 39 FR 43556, stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate a transition area at Steamboat Springs, Colorado.

Interested persons were given an opportunity to submit written comments, suggestions or objections regarding the proposed amendment.

An objection was received based on the contention that the establishment of the transition area would be for the benefit of Rocky Mountain Airways only and this action would restrict the operations of other aircraft to/from the Steamboat Springs and Echo Valley Airports when weather conditions are below the established VFR minimums for operation in controlled airspace. The objector advised there would be no objection to the establishment of the proposed controlled airspace if instrument procedures were established in order that all users could use the airspace in weather conditions below VFR minimums.

The agency plans to install a VOR and a remote communications outlet in the Steamboat Springs/Hayden, Colorado area in the spring of 1976 for the purpose of providing public instrument procedures to serve the Steamboat Springs and Hayden Airports.

It is agency policy to designate controlled airspace to accommodate special instrument procedures when within the public interest. Inasmuch as Rocky Mountain Airways is an air taxi commercial operator carrying passengers for hire on a scheduled basis, it is deemed within the public interest to establish controlled airspace to protect their procedures; therefore, the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective 0901 G.m.t., April 17, 1975.

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Aurora, Colorado on February 12, 1975.

M. M. MARTIN,
Director, Rocky Mountain Region.

In § 71.181 (39 FR 440) designate a transition area for Steamboat Springs, Colorado to read:

STEAMBOAT SPRINGS, COLO.

That airspace extending upward from 700 feet above the surface within 5 miles east and 7.5 miles west of the 153° and 333° bearings from the Rocky Mountain Airways NDB (latitude 40°28'13" N., longitude 106°49'46" W.) extending from 6.5 miles northwest of the NDB to 12.5 miles southeast of the NDB; that airspace extending upward from 1,200 feet above the surface within an area bounded by a line beginning at latitude 40°04'30" N., longitude 106°30'00" W.; to latitude 40°05'40" N., longitude 107°00'00" W.; to latitude 40°35'00" N., longitude 107°00'00" W.; to latitude 40°35'00" N., longitude 106°30'00" W.; to point of beginning.

That airspace extending upward from 13,300' MSL within an area bounded by a line beginning at latitude 40°04'15" N., longitude 106°30'00" W.; to latitude 40°25'00" N., longitude 106°30'00" W.; to latitude 40°08'-00" N.; longitude 105°52'00" W.; thence along the north edge of V220 to the point of beginning.

[FR Doc.75-4040 Filed 2-12-75;8:45 a.m.]

[Docket No. 14303; Amdt. No. 955]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260–3, 8260–4, or 8260–5 and made a part of the public rulemaking dockets of the FAA in accordance with the procedures set forth in Amendment No. 97–696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ–405, 800 Independence Avenue SW., Washington, D.C. 20591, or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150 per annum from the Superintendent of Documents,

V40-31 FEB 13 75 XUM

U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR–VOR/DME SIAPs, *effective March 27, 1975:*

Carthage, Tex.—Panola County Arpt., VOR/DME–A, Orig.
Charlotte, N.C.—Douglas Municipal Arpt., VOR Rwy 5, Amdt. 6.

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER–899; Special Economic Reg.]

PART 288—EXEMPTION OF AIR CARRIERS FOR MILITARY TRANSPORTATION

Average Commercial and Military Fuel Prices

Correction

In FR Doc. 75-3467, appearing on page 5758 in the issue for Friday, February 7, 1975 make the following changes:

In the chart on the top of page 5759, column (10) the eighth, ninth, and tenth "Adjusted average price (cents)" reading 44.75, 49.40, and 31.96, should read 44.76, 49.45, and 31.90.

SUBCHAPTER F—POLICY STATEMENTS

[Regulation PS–63, Amdt. 42]

PART 399—STATEMENTS OF GENERAL POLICY

Codification of Standards and Policies Adopted in the Domestic Passenger-Fare Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. February 7, 1975.

The Domestic Passenger-Fare Investigation (DPFI), Docket 21866, in which the Board investigated the fares charged for transportation within the 48 states and the District of Columbia, has recently been completed.[1] Section 399.2 of the Board's policy statements (14 CFR 399.2), inter alia, presently excludes from Part 399 those policies which are fully expressed in Board opinions in order to obviate the need for a lengthy compendium of policies which have already been published. However, the Board finds it's appropriate to amend Part 399 to include therein the basic standards and policies which we adopted in the various hearing phases of the DPFI.[2] One of the primary aims of that investigation was to develop standards and policies to guide the Board in the future, and the policies we are codifying herein are of fundamental importance in evaluating domestic fares, one of the Board's chief regulatory functions. In addition, codification of these interrelated policies, which now appear in numerous separate opinions issued in the various phases of the DPFI, should result in a more convenient reference for interested members of the public. For these reasons, we believe that an exception to § 399.2 is warranted, and we are hereby amending § 399.2 so as to permit this exception.

Among the standards and policies developed in the *DPFI* is the concept that the fare level should be based on current cost levels adjusted to reflect long-run ratemaking standards (particularly the load-factor and seating-configuration standards). This approach to determining the fare level renders the Board's prior policy of basing rate levels on cyclical needs outmoded, and, accordingly, we will take this opportunity to delete the present § 399.31 which embodies that policy. In addition, various provisions of

[1] See Orders 74–12–108 and 74–12–109, Sec. also, Order 74–3–82, Opinion, pp. 1–2 for citations to the Board's opinions in the other phases of that investigation.

[2] It may be noted that three phases of the investigation, those dealing with flight equipment depreciation, treatment of leased aircraft, and treatment of deferred income taxes, were conducted as rulemaking proceedings and the policies adopted therein are shown in §§ 399.42, 399.43 and 399.44, respectively, of our Statements of General Policy.

§ 399.33, entitled "Domestic Coach Policy," have long since been obsolete as coach service has grown to become the basic class of service offered by the domestic trunkline carriers, and, accordingly, we will also delete the section from the Policy Statements.[3]

The amendments adopted herein, by their terms, reflect the Board's policies as to domestic passenger fares for markets within the 48 states and the District of Columbia, which, as noted previously, constituted the geographical scope of the investigation in Docket 21866. Nonetheless, this restriction in our policy statements is not intended to imply that the standards and policies developed in the *DPFI* have no relevance to the Board's other ratemaking activities. The precise extent to which the various policies and standards are applicable to other rates and other ratemaking entities, however, must necessarily be decided on a case-by-case basis.

Each of the standards and policies codified herein was adopted only after notice and full public hearing. Moreover, since these amendments constitute statements of general policy, separate notice and public procedure on the codification of these policies in our Statements of General Policy are unnecessary, and the amendments may be made effective immediately. Accordingly, in light of the foregoing, the Board hereby amends Part 399 of the Statements of General Policy (14 CFR Part 399), effective February 7, 1975, as follows:

1. Amend the Table of Contents by changing the titles of §§ 399.31 and 399.33, the amended table to read in pertinent part as follows:

Sec.

• • • • •

399.31 Domestic passenger-fare level policies.

• • • • •

399.33 Domestic passenger-fare structure policies.

2. Amend § 399.2 to read as follows:

§ 399.2 Exclusions.

The following types of policies are generally not included in this part:

(a) • • •

• • • • •

3. Amend § 399.31 by replacing the existing section with a new section to read as follows:

[3] For example, § 399.33 contemplated that coach fares could be charged for services conducted with first-class equipment at off-peak hours. However, as coach service replaced first-class service as the basic class of service, the carriers have long since offered night coach service at a discount from *day coach* fares. Nonetheless, it may be noted that the basic concept therein of what constitutes an "off-peak" service has continued to be of use to the Board in passing upon night coach fare proposals, and revocation of this policy statement does not imply any change in the Board's present policy with respect to night coach service. In this connection, we further note that night coach services are the subject of a pending investigation in Docket 26510.

§ 399.31 Domestic passenger-fare level policies.

It is the policy of the Board that the basic test of the reasonableness of the overall level of passenger fares for scheduled services by trunk and local service carriers in markets within the 48 contiguous states and the District of Columbia is that it produce revenues sufficient to meet the costs, including a fair return on investment, of the operations of the domestic trunkline industry as a whole (as long as the bulk of the carriers fall within a reasonable range of the standard rate of return and industry data are not distorted by the results of unrepresentative carriers). The revenues, costs, and investment used to determine the reasonableness of the fare level shall reflect the following policies and standards:

(a) A long-term passenger load-factor standard of 55.0 percent should be used for the trunklines;

(b) The seating-configuration standards to be employed are as follows:

(1) Coach Service

(i) for narrow-bodied aircraft, six seats abreast in aircraft capable of accommodating such a configuration and five seats abreast in jet aircraft not capable of accommodating six seats abreast with a maximum average and nominal seat pitch of 36 inches. Up to a 20 percent deviation from the nominal pitch will be recognized for safety or structural reasons; and

(ii) for wide-bodied aircraft, ten (B–747) and nine (DC–10 and L–1011) seats abreast with a pitch as described in clause (b) (1) (i), above;

(2) First-Class Service—(i) for narrow-bodied aircraft, no less than four seats abreast with a maximum average and nominal pitch of 40 inches. Up to a 10 percent deviation from the nominal pitch will be recognized for safety or structural reasons; and

(ii) for wide-bodied aircraft, no less than six seats abreast (where body shape permits) with pitch as prescribed in clause (b) (2) (i), above;

(c) Pending completion of the investigations in Dockets 22859, 22387, and 23080, the costs of cargo carried on combination aircraft are assumed to equal the revenues derived therefrom;

(d) The fair and reasonable rates of return on investment for the trunkline and local service carriers are 12.00 percent and 12.35 percent, respectively; and

(e) The fare level will be computed on a hypothetical full normal-fare basis, *i.e.*, as if discount fares not based on cost savings are not a part of the fare structure.

4. Amend § 399.32 by adding a new sentence, the amended section to read as follows:

§ 399.32 Rate policy applicable to subsidized carriers.

It is the policy of the Board to permit subsidized carriers maximum freedom to experiment, in interstate and overseas air transportation, with commercial rate changes for the purpose of maximizing revenues and thereby minimizing subsidy requirements, provided the resulting rates are not otherwise unreasonable. In furtherance of this policy, the local service carriers, in markets within the 48 contiguous states and the District of Columbia, may file tariffs proposing coach, standard, or jet custom fares which range from 100 to 130 percent of the applicable trunk coach formula fare.

5. Amend § 399.33 by replacing the existing section with a new section to read as follows:

§ 399.33 Domestic passenger-fare structure policies.

With regard to the structure of passenger fares for scheduled services by trunk and local service carriers in markets within the 48 states and the District of Columbia, it is the policy of the Board that:

(a) The trunk coach fares[1] for trips of any given distance should be reasonably related to the trunkline average costs of operations at that distance, with the ultimate goal of basing coach fares on such costs so that the coach-fare structure will fully reflect the decline in unit costs which occurs as distance increases;

(b) Any carrier operating at six-abreast in markets competitive with narrow-bodied five-abreast aircraft capable of accommodating six seats abreast, or wide-bodied 9/8-abreast aircraft, upon a showing of an adverse competitive impact, may lower its fares to a level necessary to meet such competition, and the operator of the less dense configuration will be permitted to match the lower fares only on a showing of special or unusual circumstances;

(c) Any carrier who installs 10/9 seating in wide-bodied aircraft may do so at a lower fare which is reasonably related to cost savings, and which may be matched by an operator of five-abreast aircraft capable of accommodating six seats abreast or a 9/8-abreast carrier only upon a showing of special or unusual circumstances;

(d) any carrier who operates a coach lounge may continue to do so at the normal coach fare: *Provided, however,* That: (1) Upon a showing of adverse competitive impact, a carrier which operates coach service in a nonlounge configuration may establish a lower fare at the level necessary to meet the competition of such a carrier, and which may not be matched by a lounge operator except upon a showing of special or unusual circumstances; and (2) any such carrier who converts from a lounge to a nonlounge service may do so at a lower fare which is reasonably related to the cost savings where it appears that the risk of adverse competitive impact would otherwise inhibit such conversion, and such lower fare may be matched by a lounge operator only upon a showing of special or unusual circumstances;

[1] The Board's policy with regard to the coach, regional or jet custom fares of the local service carriers appears in § 399.32 of this Part.

XUM
V40-31 FEB 13 75 XUM

(e) The ratio of first-class fares to coach fares should bear a reasonable relationship to the ratio of fully allocated first-class costs to coach costs and, effective April 1, 1977, the differential between first-class and coach fares should reflect the fully allocated cost differentials;

(f) With respect to discount fares not based on cost savings:[2]

(1) carriers should be free to utilize discount fares within their managerial discretion, subject to the conditions that such fares are not unjustly discriminatory and meet the profit-impact test (i.e., that they generate sufficient traffic to more than offset the diversion of full fare traffic and the added noncapacity costs associated with the generated traffic, less any savings in cost attributable to the nature of the service provided to the discount traffic); and

(2) Promotional-fare tariffs should contain expiration dates not to exceed 18 months from the effective date; and

(g) There should be joint fares in all markets over all routings at a level not to exceed the sum of the local fares minus one tax-rounded coach terminal charge for each interline connection, and all joint fares should be divided according to the relative costs of the mileage flown by each carrier participating in the interline movement.

(Secs. 204, 403, 404 and 1002 of the Federal Aviation Act of 1958, as amended; 72 Stat. 743, 758, 760 and 788, as amended; 49 U.S.C. 1324, 1373, 1374 and 1482; and 5 U.S.C. 553.)

Effective: February 7, 1975.

Adopted: February 7, 1975.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND, *Secretary.*

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-11220, File No. S-526]

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

Exempting Specified Residential Real Property Investment Contracts from Credit Regulation and Certain Disclosure and Suitability Requirements for Broker-Dealers

The Securities and Exchange Commission announced on January 31, 1975, the adoption of Rule 3a12-5 (17 CFR 240.3a12-5) under the Securities Exchange Act of 1934 (the "Act") which will exempt certain investment contract securities involving the direct ownership of specified residential real property offered by broker-dealers from sections 7(c) (15 U.S.C. 78(g)(c)) and 11(d)(1) (15 U.S.C. 78k(d)(1)) of the Act, subject to certain conditions. The Commission also announced the adoption of amendments to Rule 15c2-5 (17 CFR 240.15c2-5) under the Act which have the effect of liberalizing certain disclosure and suitability requirements for broker-dealers in connection with the offer or sale of a security involving an extension or arrangement of credit not subject to Regulation T (12 CFR 220). Rule 3a12-5 and the amendments to Rule 15c2-5 are being adopted pursuant to sections 3(a)(12) (15 U.S.C. 78c(a)(12)), 7(c), 11(d)(1), 15(c), (15 U.S.C. 78o(c)), and 23(a) (15 U.S.C. 78w(a)) of the Act. The effective date for Rule 3a12-5 and the amendments to Rule 15c2-5 is March 3, 1975.

On June 7, 1974, in Securities Exchange Act Release No. 10845, and in the FEDERAL REGISTER for June 20, 1974, at 39 FR 22162, the Commission published its proposal to adopt Rule 3a12-5. It has considered the comments and views of all interested persons concerning this proposal and now adopts Rule 3a12-5, and amends Rule 15c2-5, in the form set forth below.

Background. The rationale behind the adoption of section 7 of the Act was to limit the amount of credit which might be devoted to speculation in the securities markets,[1] to maintain the availability of credit for financing local commerce and industry,[2] to prevent undue market volatility by exerting a positive, stabilizing effect on the market,[3] and to protect investors from purchasing on too thin a margin.[4]

Section 11(d)(1) was enacted by Congress to prevent "one of the greatest potential evils attributable to the combination of the broker and dealer functions in the same person"—the extension of credit on new issues by underwriter-brokers.[5] This potential conflict of interest so troubled Congress that it was "deemed advisable to include a statutory prohibition"[6] even prior to the completion of a Commission study on the advisability and feasibility of segregating the functions of the broker and dealer.[7]

In response to requests from interested parties, the Commission reviewed the impact of sections 7(c) and 11(d)(1) on the sale of certain investment contracts involving residential real property, such as investment contracts involving the sale of a condominium,[8] in light of the statutory purposes of those sections. Upon completion of its review, the Commission published for comment proposed Rule 3a12-5 under the Act. After reviewing the comments received from interested parties, it is the view of the Commission that the unique characteristics of investment contract securities involving the direct ownership of specified residential real property (particularly in light of the traditional modes of financing such real property and the lack of the secondary trading market therefor) make the existence of the concerns addressed by sections 7(c) and 11(d)(1) of the Act unlikely. The Commission has determined, therefore, to adopt an exemption from the provisions of sections 7(c) and 11(d)(1) of the Act for the arranging of credit by broker-dealers offering such securities, subject to certain conditions.

Based upon its experience and the letters of comment received in response to Securities Exchange Act Release No. 10845, the Commission has made certain changes in Rule 3a12-5 as adopted. Additionally, amendments to Rule 15c2-5 (which is applicable to brokers and dealers offering, inter alia, investment contract securities on which they, directly or indirectly, arrange for the extension of credit not subject to Regulation T) are being adopted today.

Policy Questions. The Commission specifically requested comment on two policy questions in the context of the offering of residential real property investment contract securities:

(1) Does the lack of a secondary trading market for such investment contracts outweigh the prohibition which Congress established for the extension or arranging of credit by broker-dealers for "purpose loans" against other than "approved collateral"?

(2) Would permitting the extension or arranging of credit by broker-dealers for such investment contracts tend to encourage investment in such securities rather than other types of securities and therefore be less likely to ensure a rational allocation of capital?

After carefully reviewing the comments received with respect to these two questions, the Commission has concluded that the lack of a secondary trading market is a significant factor in support of the proposed exemption and that permitting extensions of credit pursuant to the terms of the exemption is in the public interest and for the protection of investors.

Direct Interest. Some commentators questioned whether the conveyance of less than a fee simple interest in real property to the purchaser constituted a direct interest in real property within the coverage of the rule. Specific reference was made to long term leasehold interests and interests in trusts which are offered to purchasers in lieu of a fee simple interest, whether because of restrictions under foreign or domestic law regarding the conveyance of real property or otherwise.

The Commission has carefully reviewed the question of the application of Rule 3a12-5 to investment contracts involving an interest in the real property which is less than a fee. The ability of an owner to transfer such an interest, the right to receive the proceeds of sale, the incidents of ownership, and, most significantly, the willingness of lenders to extend mortgage or similar financing, all support a conclusion that certain leasehold interests and beneficial interests in a trust should be treated comparably to a fee. Therefore, for purposes of Rule 3a12-5, the term "direct interest" has been defined in subparagraph (b)(2) to include a fee, leasehold interest, and/or a beneficial interest in a trust which, under applicable local law, is financed by a loan secured by a mortgage, deed of trust, or other similar security interest in real property.

The Commission has also concluded that indirect interests in real property, such as limited partnership interests and interests in real estate investment trusts, should not be included within the coverage of Rule 3a12-5. These securities possess characteristics essentially similar to equity securities and can be marketed in small denominations.

Other Investment Contracts. In Securities Exchange Act Release No. 10845, the Commission also solicited comment on the question of whether the coverage of proposed Rule 3a12-5 should be extended to investment contract securities that include a direct interest in real property other than residential real property.

After reviewing the comments the Commission has concluded that Rule 3a12-5 should be limited to investment contracts consisting of a direct ownership interest in specified residential real property as defined. Adoption of Rule 3a12-5 will permit the continuation of traditional real estate financing practices for purchasers of residential real property. For purposes of the rule, the term "residential real property" is defined in subparagraph (b)(1) as real property containing living accommodations, whether used on a permanent or transient basis. This definition is not intended to impose a requirement upon the purchaser of the investment contract that he occupy the premises.

While the Commission believes that the need for relief from the credit restrictions of sections 7(c) and 11(d)(1) of the Act has been demonstrated for residential real property investment contracts, no similar need has been presented at this time for extending the coverage of the rule to other types of investment contracts involving interests in non-residential real property and personal property.

Issuers of non-residential real property and personal property investment contracts and broker-dealers offering such contracts for sale to the public are reminded of the adoption by the Board of Governors of the Federal Reserve System of an amendment to § 220.6(l) of Regulation T, in the FEDERAL REGISTER for December 27, 1974, at 39 FR 44739, which becomes effective on March 3, 1975. This amendment will have the effect of treating the extension of credit on any part of an investment contract security as credit on the entire security and would prohibit broker-dealers from arranging for such credit unless collateralized in compliance with the requirements of Regulation T.

Credit Terms. Subparagraph (a)(3) of proposed Rule 3a12-5 requires that the credit be extended by a lender unaffiliated with the issuer or the broker-dealer offering these securities. The Commission believes that the lack of affiliation of the lender is a necessary requirement to assure that the financing is based upon an independent appraisal of the property and the credit worthiness of the borrower. Therefore, the requirement that the lender not be in a control relationship with the issuer or the selling broker-dealer, or affiliates thereof, has been retained in the final version of the rule. This is not designed to prohibit an ownership interest in a developer/issuer by a lender, or vice versa, so long as such interest does not constitute control. Because the existence of a control relationship can only be made in light of the specific facts of a particular case, such a determination must be made by the issuer, the lender, and their counsel. The Commission also believes that the unaffiliated lender provision makes unnecessary the requirement in subparagraph (a)(2) of the proposed rule that the credit must be reasonably related to the current market value of the real property. Accordingly, that subparagraph has been deleted.

The Commission takes the view that traditional real estate lending practice—in which the lender assesses and relies on the credit worthiness of the purchaser and the security value of the underlying real property—should result in prudent loans. However, in recognition of the business practice of the resort and second-home industry, Rule 3a12-5 will permit the lender's security interest to extend to common areas and recreational facilities incidental to the residential real property investment contract and to uniform furniture packages and fixtures if required by the issuer or subject to his approval. In addition, a lender will not be precluded from protecting his security interest by requiring an assignment of rents contingent on default or requiring a guarantor or co-signer on the debt obligation provided that the issuer, its affiliates, or the broker or dealer offering the securities does not guarantee or co-sign the purchaser's debt obligation.

Subparagraph (a)(2) of the rule has been revised to avoid a possible ambiguity resulting from the requirement that the credit be repaid by "regular" payments of principal and interest. It was not intended that each payment consist of equal amounts of principal and interest; this provision has been revised, therefore, to refer to "periodic" payments of principal and interest pursuant to a schedule of amortization established by the governing instruments. So-called "balloon financing," if extended by an unaffiliated lender and in compliance with the terms and conditions of Rule 3a12-5, will nevertheless be specifically permissible.

Disclosure and Suitability. Subparagraphs (b)(1) and (2) of proposed Rule 3a12-5 would have imposed disclosure and suitability obligations upon the person offering these investment contract securities. The Commission views disclosure and suitability as a necessary and fundamental condition of the exemption for the protection of investors. The disclosure and suitability standards originally contained in subparagraphs (b)(1) and (2) of proposed Rule 3a12-5 have been deleted, however, in reliance on the existing obligations of broker-dealers under Rule 15c2-5 of the Act, specifically subparagraphs (a)(1) and (2) thereunder, to make complete disclosure to, and a determination of suitability for, prospective customers to whom the broker-dealers offer securities on which they, directly or indirectly, arrange for the extension of credit not subject to Regulation T. Subparagraph (a)(1) of Rule 15c2-5 has been amended by the addition of a proviso to permit the delivery of the information required by that subparagraph in another document, *e.g.*, a prospectus, to satisfy the disclosure requirements of that subparagraph. Subparagraph (a)(2) of Rule 15c2-5 has been amended to permit the broker-dealer to retain in his files the written basis for his suitability determination, rather than delivering this statement to a customer. However, subparagraph (a)(2) of Rule 15c2-5 has been amended to make clear that a copy of the written basis for the suitability determination made by the broker-dealer must be made available to the customer on request.

In order to make clear that, for purposes of Rule 15c2-5, credit extended in reliance upon the exemption from section 7(c) provided by Rule 3a12-5 is not credit "in compliance with the requirements of" Regulation T, the proviso to subparagraph (b) of Rule 15c2-5 has been amended.

The Commission wishes to emphasize that Rule 3a12-5 is in the nature of an experiment and that the activities of persons seeking to avail themselves of the exemption afforded by the rule will be carefully scrutinized to assure that such activities are not inconsistent with the public interest and provide for the protection of investors. Inasmuch as Rule 3a12-5 is premised, in part, upon the lack of a secondary trading market for investment contract securities involving the direct ownership of specified residential real property, the Commission would reconsider the appropriateness of the rule adopted today if secondary trading markets develop for these investment contract securities.

Commission action. The Securities and Exchange Commission, acting pursuant to sections 3(a)(12), 7(c), 11(d)(1), 15(c), and 23(a) of the Securities Exchange Act of 1934, as amended,

---

[2] The Board's policy as to the treatment of such discount fares for fare level purposes appears in § 399.31 of this Part.

[7] Pursuant to Section 11(e) of the Securities Exchange Act (15 U.S.C. 78k(e)), the Commission conducted a study of the abuses connected with, among other things, the combination of underwriter-broker and participating broker-dealer functions but did not recommend the segregation of such functions. Securities and Exchange Commission, *Study of the Feasibility and Advisability of the Complete Segregation of the Functions of Dealer and Brokers*, 43-45, 109 (1936).

[8] See Securities Act Release No. 5347 (Jan. 4, 1973); 38 FR 1735.

XUM V40-31 FEB 13 75 XUM

hereby adopts § 240.3a12–5 and amends § 240.15c2–5 under Part 240 of Chapter II of Title 17 of the Code of Federal Regulations. The Commission has determined that because: (1) the proposal to adopt § 240.3a12–5 has been exposed for public comment since June 7, 1974; and (2) the amendments to § 240.15c2–5 relieve a restriction within the meaning of the Administrative Procedure Act, 5 U.S.C. 553(d), additional public comment is not necessary and there is good cause to, and the Commission hereby does, declare § 240.3a12–5 and the amendments to § 240.15c2–5 effective on March 3, 1975. The full text of § 240.3a12–5 and § 240.15c2–5 is attached hereto:

§ 240.3a12–5 Exemption of certain investment contract securities from Sections 7(c) and 11(d)(1).

(a) An investment contract security involving the direct ownership of specified residential real property shall be exempted from the provisions of sections 7(c) and 11(d)(1) of the Act with respect to any transaction by a broker or dealer who, directly or indirectly, arranges for the extension or maintenance of credit on the security to or from a customer, if the credit:

(1) Is secured by a lien, mortgage, deed of trust, or any other similar security interest related only to real property; *Provided, however,* That this provision shall not prevent a lender from requiring (i) a security interest in the common areas and recreational facilities or furniture and fixtures incidental to the investment contract if the purchase of such furniture and fixtures is required by, or subject to the approval of, the issuer, as a condition of purchase; or (ii) an assignment of future rentals in the event of default by the purchaser or a co-signer or guarantor on the debt obligation other than the issuer, its affiliates, or any broker or dealer offering such securities;

(2) Is to be repaid by periodic payments of principal and interest pursuant to an amortization schedule established by the governing instruments; *Provided, however,* That this provision shall not prevent the extension of credit on terms which require the payment of interest only, if extended in compliance with the other provisions of this rule; and

(3) Is extended by a lender which is not, directly or indirectly controlling, controlled by, or under common control with the broker or dealer or the issuer of the securities or affiliates thereof.

(b) For purposes of this rule: (1) "Residential real property" shall mean real property containing living accommodations, whether used on a permanent or transient basis, and may include furniture or fixtures if required as a condition of purchase of the investment contract or if subject to the approval of the issuer.

(2) "Direct ownership" shall mean ownership of a fee or leasehold estate or a beneficial interest in a trust the purchase of which, under applicable local law, is financed and secured by a security interest therein similar to a mortgage or deed of trust, but it shall not include an interest in a real estate investment trust, an interest in a general or limited partnership, or similar indirect interest in the ownership of real property.

§ 240.15c2–5 Disclosure and other requirements when extending or arranging credit in certain transactions.

(a) It shall constitute a "fraudulent, deceptive, or manipulative act or practice" as used in section 15(c)(2) of the Act for any broker or dealer to offer or sell any security to, or to attempt to induce the purchase of any security by, any person, in connection with which such broker or dealer directly or indirectly offers to extend any credit to or to arrange any loan for such person, or extends to or participates in arranging any loan for such person, unless such broker or dealer, before any purchase, loan or other related element of the transaction is entered into:

(1) Delivers to such person a written statement setting forth the exact nature and extent of (i) such person's obligations under the particular loan arrangement, including among other things, the specific charges which such person will incur under such loan in each period during which the loan may continue or be extended, (ii) the risks and disadvantages which such person will incur in the entire transaction, including the loan arrangement, (iii) all commissions, discounts, and other remuneration received and to be received in connection with the entire transaction including the loan arrangement, by the broker or dealer, by any person controlling, controlled by, or under common control with the broker or dealer, and by any other person participating in the transaction; *Provided, however,* That the broker or dealer shall be deemed to be in compliance with this paragraph if the customer, before any purchase, loan, or other related element of the transaction is entered into in a manner legally binding upon the customer, receives a statement from the lender, or receives a prospectus or offering circular from the broker or dealer, which statement, prospectus or offering circular contains the information required by this paragraph; and

(2) Obtains from such person information concerning his financial situation and needs, reasonably determines that the entire transaction, including the loan arrangement, is suitable for such person, and retains in his files a written statement setting forth the basis upon which the broker or dealer made such determination; *Provided, however,* That the written statement referred to in this paragraph must be made available to the customer on request.

(b) This section shall not apply to any credit extended or any loan arranged by any broker or dealer subject to the provisions of Regulation T (12 CFR 220) if such credit is extended or such loan is arranged, in compliance with the requirements of such regulation, only for the purpose of purchasing or carrying the security offered or sold: *Provided, however,* That notwithstanding this paragraph, the provisions of paragraph (a) shall apply in full force with respect to any transaction involving the extension of or arrangement for credit by a broker or dealer (i) in a special insurance premium funding account within the meaning of section 4(k) of Regulation T (12 CFR 220.4(k)) or (ii) in compliance with the terms of § 240.3a12–5 of this Chapter.

(Sec. 3(a)(12), 48 Stat. 882, as amended 84 Stat. 718, 1435, 1499 (15 U.S.C. 78c(12)); Sec. 7(c), 48 Stat. 886, as amended 82 Stat. 452 (15 U.S.C. 78g(c)); Sec. 11(d)(1), 48 Stat. 891 as amended 68 Stat. 686 (15 U.S.C. 78k(d)(1)); Sec. 15(c), 48 Stat. 895, as amended 52 Stat. 1075, 84 Stat. 1653 (15 U.S.C. 78o(c)); Sec. 23(a), 48 Stat. 901, as amended 49 Stat. 704, 1379 (15 U.S.C. 78w(a)))

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

JANUARY 31, 1975.

[FR Doc.75–4078 Filed 2–12–75; 8:45 am]

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOM SERVICE

[T.D. 75–41]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

Return of Certain Articles Previously Taken Under Cover of a Carnet

Section 10.68 of the Customs Regulations (19 CFR 10.68) provides for the return to the United States of theatrical scenery, properties, and effects, motion-picture films, and commercial travelers' samples without formal entry and without payment of duty if, before their exportation, an export voucher from an A.T.A. (Admission Temporaire-Temporary Admission) carnet or an application on Customs Form 4455 is filed with Customs officers. A determination has been made to amend § 10.68 of the Customs Regulations, and the centerhead immediately preceding it, to include professional books, implements, instruments, and tools of trade, occupation or employment, among the types of articles which are permitted to be returned after having been temporarily taken abroad under cover of an A.T.A. carnet, without entry or payment of duty. This amendment facilitates the return to the United States of these articles.

Accordingly, the first sentence of paragraph (a) of § 10.68 of the Customs Regulations (19 CFR 10.68a)), and the centerhead which immediately precedes this section, are amended to read as follows:

THEATRICAL EFFECTS, MOTION-PICTURE FILMS, COMMERCIAL TRAVELERS' SAMPLES, AND TOOLS OF TRADE

§ 10.68 **Procedure.**

(a) Theatrical scenery, properties, and effects, motion-picture films (including motion-picture films taken aboard a vessel for exhibition only during an outward voyage and returned for the same purpose during an inward voyage on the same or another vessel), commercial travelers' samples, and professional books, implements, instruments, and tools of trade, occupation, or employment (see § 148.53 of this chapter), of domestic or foreign origin, taken abroad may be returned without entry and without payment of duty: Provided, That prior to exportation of such articles an exportation voucher from a carnet, when applicable, or an application on Customs Form 4455 was filed and the merchandise was identified as set forth in § 10.8, governing the exportation of articles sent abroad for repairs. • • •

• • • • • •

(R.S. 251, as amended, sec. 624, 46 Stat. 759, 77A Stat. 14 (19 U.S.C. 66, 1202 (General Headnote 11, Tariff Schedules of the United States) 1624))

Inasmuch as this amendment relaxes requirements heretofore imposed upon the public, notice and public procedure thereon are found to be unnecessary and good cause exists for dispensing with a delayed effective date under the provisions of 5 U.S.C. 553.

Effective date. This amendment will become effective February 13, 1975.

[SEAL] VERNON D. ACREE, *Commissioner of Customs.*

Approved: February 5, 1975.

DAVID R. MACDONALD, *Assistant Secretary of the Treasury.*

[T.D. 75–42]

PART 141—ENTRY OF MERCHANDISE

Information for Certain Classes of Merchandise

On August 8, 1974, there was published in the FEDERAL REGISTER (39 FR 28534), a notice of a proposed amendment to § 141.89 of the Customs Regulations (19 CFR 141.89), which would require that invoices of imported colored woven fabric of man-made fibers contain certain additional information to permit the classification of such merchandise under the proper statistical reporting numbers in the Tariff Schedules of the United States Annotated. No comments were received in response to this notice.

Accordingly, § 141.89 of the Customs Regulations (19 CFR 141.89) is amended by adding a new paragraph, in alphabetical sequence, to read as follows:

§ 141.89 Additional information for certain classes of merchandise.

• • • • • •

Woven fabrics of man-made fibers, colored, classifiable under item 338.30, Tariff Schedules of the United States (19 U.S.C. 1202): (1) Whether the merchandise is yarn dyed, and (2) The thread count per inch (treating ply yarns as single threads) in the warp and in the filling.

(R.S. 251, as amended, secs. 481, 484, 624, 46 Stat. 719, 722, as amended, 759 (19 U.S.C. 66, 1481, 1484, 1624))

Effective date. This amendment shall become effective March 17, 1975.

[SEAL] VERNON D. ACREE, *Commissioner of Customs.*

Approved: February 5, 1975.

DAVID R. MACDONALD, *Assistant Secretary of the Treasury.*

[FR Doc.75–4106 Filed 2–12–75; 8:45 am]

[T.D. 75–40]

PART 153—ANTIDUMPING

Television Receiving Sets, Monochrome and Color, from Japan

On August 15, 1974, there was published in the FEDERAL REGISTER (39 FR 29391) a "Notice of Tentative Determination to Modify or Revoke Dumping Finding" with respect to television receiving sets, monochrome and color, from Japan produced by Sony Corporation of Japan. A finding of dumping applicable to this merchandise was published as T.D. 71–76, in the FEDERAL REGISTER of March 10, 1971 (36 FR 4597).

Reasons for the tentative determination were published in the above-mentioned notice, and interested persons were afforded an opportunity to make written submissions or request the opportunity to present oral views in connection therewith.

No written submissions or requests to present oral views having been received, I hereby determine that, for the reasons stated in the "Notice of Tentative Determination to Modify or Revoke Dumping Finding", television receiving sets, monochrome and color, from Japan are no longer being, nor are likely to be sold in the United States at less than fair value by Sony Corporation of Japan, and the finding of dumping with respect to such merchandise is hereby modified to exclude television receiving sets produced and sold by that company.

Accordingly, § 153.43 of the Customs Regulations is amended to show the exclusion of television sets produced and sold by Sony Corporation of Japan from the finding of dumping.

Merchandise	Country	T.D.	Modified by—
Television receiving sets, monochrome and color, except sets produced and sold by Sony Corp. of Japan.	Japan	71–76	75

(Secs. 201, 407, Stat. 11, as amended, 18; 19 U.S.C. 160, 173.)

[SEAL] DAVID R. MACDONALD, *Assistant Secretary of the Treasury.*

Title 24—Housing and Urban Development

CHAPTER II—OFFICE OF ASSISTANT SECRETARY FOR HOUSING PRODUCTION AND MORTGAGE CREDIT—FEDERAL HOUSING COMMISSIONER (FEDERAL HOUSING ADMINISTRATION)

SUBCHAPTER B—MORTGAGE AND LOAN INSURANCE PROGRAMS UNDER NATIONAL HOUSING ACT

[Docket No. R–75–316]

Interest Rates Applicable to Mortgage Increases Between Initial and Final Endorsement

Parts 205, 207, 213, 220, 221, 232, 235, 236, 242, and 244 of Title 24 of the Code of Federal Regulations are being amended to provide that the interest rate on an increase in a mortgage, over and above the amount which the Secretary committed to insure at initial endorsement, may be at the maximum interest rate allowable at the time of the Secretary's approval of the increase. Parts 227, 231 and 234 are similarly amended through incorporation by reference of Part 207.

These amendments in the regulations are necessary because of the reluctance of mortgagees to fund mortgage increases, other than those to which they are contractually committed, at interest rates lower than those prevailing in the mortgage market at the time of providing the additional funding.

In light of the immediate need for implementation of these regulations to permit increases in mortgage amounts for several projects which require mortgage increases to complete construction or permanent financing arrangements, these amendments are being published as an interim rule, effective upon publication. A 60 day comment period is provided for public comment before the final regulations will be published. All relevant material received on or before April 14, 1975, will be considered by the Department before a final rule is adopted. Filings should refer to the above Docket number and should be filed in triplicate with the Rules Docket Clerk, Office of General Counsel, Department of Housing and Urban Development, Room 10245, 451 Seventh Street SW., Washington, D.C. 20410. Copies of comments submitted will be available during business hours at the above address for examination by interested persons.

PART 205—MORTGAGE INSURANCE FOR LAND DEVELOPMENT

Subpart A—Eligibility Requirements

A new paragraph is added to the end of section 205.50 to read as follows:

§ 205.50 **Maximum interest rate.**

• • • • • •

The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement shall bear interest at the rate agreed upon by the mortgagor and the mortgagee, which rate

XUM
V40I31

XUM

shall not exceed the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 207—MULTIFAMILY HOUSING MORTGAGE INSURANCE

Subpart A—Eligibility Requirements

A new paragraph (c) is added to § 207.7 to read as follows:

§ 207.7 Maximum interest rate.

(a) • • •
(b) • • •
(c) The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement, shall bear interest at the rate agreed upon by the mortgagor and the mortgagee, which rate shall not exceed the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 213—COOPERATIVE HOUSING MORTGAGE INSURANCE

Subpart A—Eligibility Requirements—Projects

A new paragraph (c) is added to § 213.10 to read as follows:

§ 213.10 Maximum interest rate.

(a) • • •
(b) • • •
(c) The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement shall bear interest at the rate agreed upon by the mortgagor and the mortgagee, which rate shall not exceed the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 220—URBAN RENEWAL MORTGAGE INSURANCE AND INSURED IMPROVEMENT LOANS

Subpart C—Eligibility Requirements—Projects

A new paragraph (c) is added to § 220.576 to read as follows:

§ 220.576 Maximum interest rate.

(a) • • •
(b) • • •
(c) The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement shall bear interest at the rate agreed upon by the mortgagor and the mortgagee, which rate shall not exceed the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 221—LOW COST AND MODERATE INCOME MORTGAGE INSURANCE

Subpart C—Eligibility Requirements—Moderate Income Projects

A new paragraph (c) is added to § 221.518 to read as follows:

§ 221.518 Maximum interest rate.

(a) • • •
(b) • • •
(c) The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement shall bear interest at the rate agreed upon by the mortgagor and the mortgagee, which rate shall not exceed the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 232—NURSING HOMES AND INTERMEDIATE CARE FACILITIES MORTGAGE INSURANCE

Subpart A—Eligibility Requirements

A new paragraph (c) is added to § 232.29 to read as follows:

§ 232.29 Maximum interest rate.

(a) • • •
(b) • • •
(c) The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement shall bear interest at the rate agreed upon by the mortgagor and the mortgagee, which rate shall not exceed the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 235—MORTGAGE INSURANCE AND ASSISTANCE PAYMENTS FOR HOME OWNERSHIP AND PROJECT REHABILITATION

Subpart D—Eligibility Requirements—Rehabilitation Sales Projects

A new paragraph is added to the end of § 235.540 to read as follows:

§ 235.540 Maximum interest rate.

• • • • • •

The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement shall bear interest at the rate agreed upon by the mortgagor and the mortgagee, which rate shall not exceed the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 236—MORTGAGE INSURANCE AND INTEREST REDUCTION PAYMENTS FOR RENTAL PROJECTS

Subpart A—Eligibility Requirements for Mortgage Insurance

A new paragraph is added at the end of § 263.15 to read as follows:

§ 236.15 Maximum interest rate.

• • • • • •

The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement shall bear interest at the rate agreed upon by the mortgagor and the mortgagee, which rate shall not exceed the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 242—MORTGAGE INSURANCE FOR HOSPITALS

Subpart A—Eligibility Requirements

A new paragraph is added to the end of § 242.33 to read as follows:

§ 242.33 Maximum interest rate.

• • • • • •

The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement shall bear interest at the rate agreed upon by the mortgagor and the mortgagee, which rate shall not exceed the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 244—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES

Subpart A—Eligibility Requirements

A new paragraph (c) is added to § 244.45 to read as follows:

§ 244.45 Maximum interest rate.

(a) • • •
(b) • • •
(c) The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement shall bear interest at the rate agreed upon by the mortgagor and the mortgagee, which rate shall not exceed the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

(Sec. 7(d) Department of Housing and Urban Development Act (42 U.S.C. 3535(d))

Effective date. These amendments are effective February 13, 1975.

DAVID M. DEWILDE,
Acting Assistant Secretary for Housing Production and Mortgage Credit-Federal Housing Commissioner.

Title 29—Labor

CHAPTER XX—OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION

PART 2100—ETHICS AND CONDUCT OF OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION EMPLOYEES

Standards of Conduct

The Occupational Safety and Health Review Commission is hereby giving notice of the implementation of the provisions of Executive Order 11222 of May 8, 1965, "Prescribing Standards of Ethical Conduct for Government Officials and Employees," and 5 CFR 735.101 et seq.

Since notice and public procedure are not required under 5 U.S.C. 553 with respect to rules of agency organization, procedure or practice public comments are not being solicited regarding the implementation of the hereinafter rules.

These provisions are intended to prescribe the conduct of certain Occupational Safety and Health Review Commission employees in situations related to conflict of interest matters in the areas of outside employment, private business, professional activities, and financial interests. It further covers the basic principles of the relationship between OSAHRC employees and the OSAHRC as their employer.

The herinafter rules shall become effective on April 1, 1975.

Sections 2100.1 through 2100.27 would read as follows:

Subpart A—General

Sec.
2100.1 Purpose and scope.
2100.2 Counseling service.
2100.3 General.

Subpart B—Conduct

2100.4 General.
2100.5 Nondiscrimination.
2100.6 Indebtedness.
2100.7 Gambling, betting, and lotteries.
2100.8 Misuse of official information.
2100.9 Misuse of Federal property.
2100.10 Partisan political activities.

Subpart C—Outside Interests, Employment, Business and Professional Activities

2100.11 General.
2100.12 Conflict-of-interest.
2100.13 Clearance.

Subpart D—Gifts, Fees, Entertainment, Favors

2100.14 Acceptance of gratuities generally.
2100.15 Payments, expenses, reimbursements, entertainments, etc., from non-Government sources.
2100.16 Contributions and gifts to superiors.
2100.17 Permissible gifts.

Subpart E—Statements of Employment and Financial Interests

2100.18 Regular employees required to submit statements.
2100.19 Supplemetary statements, regular employees.
2100.20 Special Government employees required to submit statements.
2100.21 Review procedures.
2100.22 Confidentiality.
2100.23 Review of files.
2100.24 Interests of employees' relatives.
2100.25 Information not known by employees.
2100.26 Information not required.
2100.27 Effect of employees' statements on other requirements.

Appendix A.

AUTHORITY: Sec. 12(g), Pub. L. 91-596, 84 Stat. 1604 (29 U.S.C. 661(f)); E.O. 11222; 2 CFR 1964-65 Comp. p. 306; 5 CFR 735.104; 18 U.S.C. 201 through 209.

Subpart A—General

§ 2100.1 Purpose and scope.

(a) This part is designed to implement provisions of Executive Order 11222 of May 8, 1965, "Prescribing Standards of Ethical Conduct for Government Officials and Employees," and 5 CFR 735.101 et seq. It prescribes standards of conduct for employees of the Occupational Safety and Health Review Commission (hereinafter OSAHRC) relating to conflicts of interest arising out of outside employment, private business and professional activities, and financial interests. It sets forth requirements for the disclosure of such interests by OSAHRC employees. In addition, it states basic principles regarding employees' conduct on the job and the ethics of their relationship to OSAHRC as their employer. The head of any OSAHRC office may with the approval of the Chairman, adopt additional standards and procedures, not inconsistent with this part. Any such additional standards and procedures shall be furnished in writing to the employees affected. This part applies to all regular and special Government employees except to the extent otherwise indicated herein. For the purpose of this part:

(1) "Regular employee" means an official or employee of OSAHRC, but does not include a special Government employee.

(2) "Special Government employee" means an official or employee of OSAHRC who is retained, designated, appointed, or employed to perform, with or without compensation, for not to exceed 130 days during any period of 365 consecutive days, temporary duties either on a full-time or intermittent basis.

(3) "Employee" means a regular and a special Government employee.

(4) The term "office", except where otherwise indicated, means an office which is not a part of a larger administrative subdivision of the Commission.

(5) Whenever this part requires the Executive Director to make any report about his own interests which would otherwise be made to the Executive Director, the Executive Director shall report directly to the OSAHRC Chairman.

(b) This part, among other things, reflects prohibitions and requirements imposed by the criminal and civil laws of the United States. However, the paraphrased restatements of criminal and civil statutes in no way constitute an interpretation or construction thereof that is binding upon the Federal Government. Moreover, this part does not purport to paraphrase or enumerate all restrictions or otherwise upon Federal employees. The omission of a reference to any such restriction or requirement in no way alters the legal effect of that restriction or requirement.

§ 2100.2 Counseling service.

(a) The Executive Director has been designated OSAHRC counselor in matters within the scope of the regulations in this part. Employees are expected to familiarize themselves with the regulations in this part, the laws and regulations on which they are based, and the supplementary instructions issued by the administrations, bureaus, and offices in which they work. Attention of all employees is hereby directed to the statutes set forth in 5 CFR 735.210 (see Appendix A to this part). Employees who need clarification of the standards of conduct, and related laws, rules, and regulations should consult the Executive Director.

(b) Each head of an office is responsible for application of the standards of conduct to employees under his jurisdiction. He is responsible for assuring that his employees are furnished copies of the regulations in this part not later than 90 days after their approval by the Civil Service Commission. Each new employee shall be furnished such a copy no later than the time of his entrance on duty. The heads of offices shall assure that employees are advised of the times and places where counseling services are available. They shall assure that the regulations in this part are brought to the attention of each employee at least annually and at such other times as circumstances warrant.

§ 2100.3 General.

(a) Failure of an employee to comply with any of the standards of conduct set forth in this part shall be a basis for such disciplinary or other remedial action as may be appropriate to the particular case. Such remedial action may include, but is not limited to:

(1) Changes in assigned duties;

(2) Divestment by the employee of his conflicting interest;

(3) Disciplinary action; or

(4) Disqualification for a particular assignment.

(b) Remedial action, whether disciplinary or otherwise, shall be effected in accordance with any applicable laws, executive orders and regulations.

Subpart B—Conduct

§ 2100.4 General.

(a) The effectiveness of OSAHRC in fulfilling its statutory responsibilities depends upon the extent to which its officials and employees hold the public confidence. Employees are therefore required not only to observe the requirements of Federal laws, policies, orders and regulations governing official conduct, they must also avoid any apparent conflict with these requirements. Each employee shall avoid situations in which his private interests conflict or raise a reasonable question of conflict with his public duties and responsibility. An employee shall avoid any action, whether or not specifically prohibited, which might result in or create the appearance of using

XUM
V 40 31
FEB 13 75
XUM

public office for private gain, giving preferential treatment to any person, impeding Government efficiency or economy, losing complete independence or impartiality, making a Government decision outside of official channels, or affecting adversely the confidence of the public in the integrity of the Government.

(b) Employees must conduct themselves in such manner that OSAHRC's work is effectively accomplished. They must observe the requirements of courtesy, consideration and promptness in dealing with or serving the public and all those interested in OSAHRC. Although it is the policy of this agency not to restrict or interfere with the private lives of its employees, each employee is expected to conduct himself at all times so that his actions will not bring discredit upon himself or upon OSAHRC or the Federal service.

§ 2100.5 Nondiscrimination.

No employee in this Commission while in the performance of his duty may discriminate against any other employee or applicant for employment because of race, color, religion, national origin, sex, or age.

§ 2100.6 Indebtedness.

Indebtedness of employees is essentially a matter of their own concern. OSAHRC will not be placed in the position of acting as a collection agency or of determining the validity or amount of contested debts. Nevertheless, failure on the part of an employee without good reason and in a proper and timely manner to honor his just financial obligations; that is, debts acknowledged by him to be valid or reduced to judgment by a court or to make or to adhere to satisfactory arrangements for the settlement thereof may be the cause for disciplinary action. In this connection each employee has a special obligation to meet his responsibilities for payment of Federal, State, and local taxes.

§ 2100.7 Gambling, betting, and lotteries.

An employee shall not participate, while on Government owned or leased property or while on duty for the Government, in any gambling activity, including the operation of a gambling device, in conducting a lottery or pool in a game for money or property, or in selling or purchasing a numbers slip or ticket.

§ 2100.8 Misuse of official information.

Employees may not, except with specific permission or as provided in 2100.11 in regard to teaching, lecturing, or writing, directly or indirectly use or allow the use of official information for private purposes or to further a private interest when such information is not available to the general public; nor may employees disclose official information in violation of any applicable law, policy, Executive order, or regulation.

§ 2100.9 Misuse of Federal property.

An employee shall not directly or indirectly use or allow the use of Government property, including property leased to the Government, for other than officially approved activities. An employee has a positive duty to protect and conserve such property and shall obey all rules and regulations.

§ 2100.10 Partisan political activities.

Employees are expected to observe the prohibitions on political activities set forth in subchapter III of chapter 73 of title 5, United States Code; 18 U.S.C. 602, 603, 607, and 608; and Civil Service Rule IV, Title 5 Code of Federal Regulations section 4.1. Explanations of the restrictions are set forth in the Employee Handbook, U.S. Civil Service Commission Pamphlet No. 20, and in the Federal Personnel Manual.

Subpart C—Outside Interests, Employment, Business and Professional Activities

§ 2100.11 General.

(a) In the absence of restrictions made necessary by an employee's public responsibilities, he is entitled to the same rights and privileges as all other citizens. There is therefore no general prohibition against Commission employees holding jobs, financial interests, or engaging in outside business or professional activities. Indeed, such outside activities as teaching, lecturing, and writing are generally to be encouraged since they frequently serve to enhance an employee's value to the Government as well as to increase the spread of knowledge in our society. The employing office may, however, impose reasonable restrictions upon such activities where appropriate and in accordance with § 2100.1. In addition, an employee may not, whether for or without compensation, engage in teaching, lecturing, or writing, including teaching, lecturing, or writing for the purpose of the special preparation of a person or class of persons for an examination of the Civil Service Commission or Board of Examiners for the Foreign Service, that is dependent on information obtained as a result of his Government employment, except when that information has been made available to the general public or will be made available on request or when the head of his employing office gives written authorization for the use of nonpublic information on the basis that its use is in the public interest. In addition, an employee who is a Presidential appointee covered by section 401 of Executive Order 11222 of May 8, 1965, shall not receive compensation or anything of monetary value for any consultation, lecture, discussion, writing, or appearance, the subject matter of which is devoted substantially to the responsibilities, programs, or operations of his agency, or which draws substantially on official data or ideas which have not become a part of the body of public information.

(b) No OSAHRC employee may accept any outside employment, engage in any outside business, professional, or other activity, or have financial interests if such employment, activity, or interests would be or appear to be in substantial conflict with OSAHRC responsibilities or the interests of the Government, would interfere with the performance of official duties, would prevent a regular employee from rendering full-time service to OSAHRC or require so much time that his efficiency is impaired, or if such employment, activity, or interest would bring discredit on OSAHRC or the Government. In addition, no employee may engage, directly or indirectly, in a financial transaction as a result of, or relying primarily on, information obtained through his Government employment.

(c) No employee may use or appear to use his Government employment to coerce any person, enterprise, company, association, partnership, society, or other organization or instrumentality to provide financial benefit to himself or another person.

§ 2100.12 Conflict-of-interest laws.

Sections 201 through 209 of title 18, United States Code, prohibit and provide criminal penalties for certain acts by Government employees involving conflict of-interest situations, including limited exceptions for special Governments employees. These provisions include the following prohibitions:

(a) Section 203, in general, prohibits a Federal employee from soliciting, receiving, or agreeing to receive compensation for services rendered on behalf of another before a Government department or agency in relation to any particular matter in which the United States is a party or has a direct and substantial interest.

(b) Section 205, in general, prohibits a Federal employee from acting as agent or attorney for prosecuting any claim against the United States or acting as agent or attorney for anyone before any Federal courts or agencies in connection with any particular matters in which the United States is a party or has a direct and substantial interest. It also prohibits him from receiving any gratuity, or any share of or interest in any claim against the United States in consideration of assistance in the prosecution of such claim.

(c) Section 208, in general, prohibits a Government employee in his official capacity from participating personally and substantially through decision, approval, disapproval, recommendation, the rendering of advice, or otherwise in any particular matter in which, to his knowledge, he, his spouse, minor child, partner, organization in which he is serving as officer, director, trustee, partner, or employee or any person or organization with whom he is negotiating or has any arrangement concerning prospective employment has a financial interest. In accordance with the provisions of section 208(b)(2), the financial interests described below are hereby exempted from the prohibition of 18 U.S.C. 208 as being too remote or too inconsequential to affect the integrity of an employee's services in a matter: the policy holdings in an insurance company and the stock or bond holdings in a mutual fund, investment company, or bank which owns an interest in an entity involved in the matter: Provided, that in the case of a mutual fund, investment company, or bank the fair value of such stock or bond holding does not exceed 1 percent of the value of the reported assets of the mutual fund, investment company, or bank. In addition, the prohibitions of section 208(a) shall not apply if the employee obtains advance clearance in accordance with the requirements of section 208.

(d) Section 209, in general, prohibits regular Government employees from receiving salary or supplementation of salary as compensation for their Government service from any source other than the United States. The statutory provisions described in this section are intended to call each employee's attention to problem areas and are not intended as a comprehensive description or interpretation of statutory prohibitions or the exceptions thereto. Employees who need guidance concerning the scope and application of the conflict-of-interest laws and their execution should consult the Executive Director.

§ 2100.13 Clearance.

(a) Any employee who is engaged or is planning to engage in outside employment, business, professional, or other such activities has a positive obligation to inform himself fully concerning the requirements of this subpart and any laws, orders, regulations, or standards applicable to such activities. An employee shall request clearance from the Executive Director as to whether such planned or current activities are prohibited:

(1) When such activities raise a substantial question of conflict with this subpart or any applicable laws, orders, regulations, or standards;

(2) When applicable laws, orders, regulations, or standards require clearance of such activities; or

(3) When the employee is specifically so required by the individual responsible for clearance in order to avoid possible conflict with applicable laws, orders, regulations, or standards.

The clearance request shall be in writing and shall include, at a minimum, the identity of the employee, a statement of the nature of the employment or activity, and the amount of time to be devoted to the employment or activity. The Executive Director may require the employee to furnish such other information as may be appropriate in considering the clearance request. He may grant clearance only when he believes such activities would be consistent with applicable laws, orders, regulations, and standards. If clearance is not granted, the employee shall not commence or continue the outside employment or activity.

(b) The requirements set forth in this subpart are separate from and in addition to any provision under Subpart E of this part requiring an employee to submit a statement of employment and financial interests or any other requirements of that subpart.

Subpart D—Gifts, Fees, Entertainment, and Favors

§ 2100.14 Acceptance of gratuities generally.

No employee shall solicit, accept, or agree to accept any direct or indirect favor, gift, loan, free service, gratuity, entertainment, or other item of economic value if the donor has or is seeking to obtain contractual or other business or financial relations with OSAHRC, has interests that may be substantially affected by the performance or nonperformance of official duties, is attempting to reward or influence the employee's official actions, or if acceptance of such item could affect the employee's impartiality, or give that appearance. An employee shall not accept a gift, present, decoration, or other thing from a foreign Government unless authorized by Congress as provided by the Constitution and in 5 U.S.C. 7342. No regular Government employee may receive any salary or supplementation of salary from a private source as compensation for services to the Government.

§ 2100.15 Payments, expenses, reimbursements, entertainment, etc., from non-Government sources.

(a) In general, Decision B–128527 of the Comptroller General dated March 7, 1967, restricts receipt of reimbursement for travel, subsistence, or other expenses from private sources by an employee on official business or agency orders. This decision or other regulations in this part do not restrict acceptance of contributions, awards, travel, subsistence, and other expenses from nonprofit organizations authorized by 5 U.S.C. 4111 and regulations issued thereunder; Provided, that an employee may not, without the written permission of the Executive Director (except as allowed by § 2100.17 (a)(6)), accept from nongovernmental sources any payments, expenses, reimbursements, entertainment, or other item of economic value incident to training, attendance at meetings of any kind, or other activities, if such training, meetings, or activities are attended or performed wholly or partially within periods when he is on duty or at such time as OSAHRC pays any expenses incident thereto in whole or in part. Such authorization may not be granted where prohibited by law or Decision B–128527 of the Comptroller General and may only be granted if acceptance of the contribution, award, or payment: (1) Would not reflect unfavorably on the ability of the employee to carry out his official duties in a fair and objective manner; (2) would not compromise the honesty and integrity of the Government programs or of Government employees and their official actions or decisions; (3) would be compatible with the Code of Ethics of Government Service expressed in House Concurrent Resolution 175, 85th Congress, second session; (4) would otherwise be proper and ethical for the employee concerned under the circumstances in his particular case; and (5) if the contribution, award, or payment is not a reward for services to the organization prior to the training or meeting. Authorization shall be limited to receipt of bona fide reimbursement for actual expenses of travel and other necessary subsistence for which no Government payment or reimbursement is made. However, an employee may not be reimbursed and payment may not be made on his behalf for excessive personal living expenses, gifts, entertainment, or other personal benefits.

§ 2100.16 Contributions and gifts to superiors.

No employee may solicit contributions from another employee for a gift to an employee in a superior official position. An employee in a superior official position shall not accept a gift presented as a contribution from employees receiving less salary than himself. An employee shall not make a donation as a gift to an employee in a superior official position. This section does not prohibit voluntary gifts of nominal value or donations in a nominal amount made on a special occasion such as marriage, illness, etc.

§ 2100.17 Permissible gifts.

(a) The prohibitions in this subpart do not preclude: (1) Acceptance of unsolicited advertising or promotional material of nominal intrinsic value;

(2) Acceptance of an award for meritorious public contribution given by a charitable, religious, professional, social, fraternal, nonprofit educational, recreational, public service, or civil organization;

(3) Acceptance of gifts resulting from obvious family or personal relationships when the circumstances make clear that it is those relationships rather than the business of the persons concerned which are the motivating factor;

(4) Acceptance of loans from banks, or other financial institutions on customary terms to finance proper and usual activities;

(5) Acceptance of scholarships, fellowships, and similar forms of assistance which are incident to education or training pursued by an employee on his own time and his own initiative;

(6) Acceptance, without permission, of food, entertainment, and refreshments of nominal value on infrequent occasions in the ordinary course of a meeting, inspection tour, or training situation in which the employee is properly in attendance.

(b) Notwithstanding any reference to generally permissible gifts in this subpart, employees are expected to avoid any conflict or apparent conflict between their private interests and those of OSAHRC and to observe the other standards of conduct set forth in Subpart B of this part.

Subpart E—Statements of Employment and Financial Interests

§ 2100.18 Regular employees required to submit statements.

(a) The following regular employees are required to submit to the Executive

XUM
V40131 FEB 13 75 F
XUM

Director statements of employment and financial interests on forms approved by the Executive Director and furnished to the employees. Such forms must be completed in accordance with instructions applicable thereto. Forms shall be submitted not later than 90 days after the effective date of the regulations in this part, if employed on or before that effective date or 30 days after his entrance on duty, but not earlier than 90 days after the effective date if appointed after the effective date.

(1) Chief Legal Counsels to the Commission Members;
(2) Executive Director;
(3) Chief Judge;
(4) Executive Secretary;
(5) Chief Review Counsel;
(6) Director of Administration;
(7) Director of Systems;
(8) Director of Information and Publications;
(9) Administrative Law Judges, as defined by § 930.202(c) of the Civil Service Commission regulations (5 CFR 930.202 (c));
(10) General Counsel; and
(11) Any person designated to act in the stead of any of the above or who automatically serves in the absence of any of the above.

(b) Additions to, deletions from, and other amendments of the list of positions in this section may be made from time to time as necessary to carry out the purpose of the law, Executive Order 11222, and Part 735 of the Civil Service Commission regulations (5 CFR Part 735). Such amendments are effective upon clearance by the Executive Director and actual notification to the incumbents. The amended list shall be submitted annually for publication in the FEDERAL REGISTER.

(c) Any employee who believes that his position has been improperly included under this subpart as one requiring the submission of a statement of employment and financial interests shall have the opportunity for review of such inclusion by requesting the same by filing a written statement with the OSAHRC Chairman.

§ 2100.19 Supplementary statements, regular employees.

Changes in, or additions to the information contained in the regular employee's statement of employment and financial interests shall be reported in a supplementary statement as of September 30 each year. If there are no changes or additions, a negative report is required. Notwithstanding the filing of the annual report required by this section, each employee shall at all times avoid acquiring a financial interest that could result, or taking an action that would result, in a violation of the conflict-of-interest laws or Subpart C of this part.

§ 2100.20 Special Government employees required to submit statements.

(a) Before an individual enters on duty as a special Government employee expert or consultant he is required to submit a statement of employment and financial interests to the Executive Director on forms approved by the Executive Director and furnished to the individual. Such forms must be completed in accordance with the instructions applicable thereto. This requirement applies to all other special Government employee positions unless the Executive Director determines prior to appointment that the duties of the position are of such a nature and at such a level of responsibility that the submission of the statement is not necessary to protect the integrity of the Government. For the purpose of this section, "consultant" and "expert" shall be given the meanings given these terms by Chapter 304 of the Federal Personnel Manual.

(b) Each special Government employee shall keep his statement of employment and financial interests current throughout his OSAHRC employment by the submission of supplementary statements.

§ 2100.21 Review procedures.

(a) The Executive Director shall promptly review each initial and supplementary statement of employment and financial interests required by this part. No individual may enter on duty as a special Government employee if the Executive Director determines that employment would be in conflict with the standards set forth in this part, or other applicable regulations, laws, or orders.

(b) Before the Executive Director disapproves a statement of employment and financial interests submitted by a regular or special Government employee, such employee must be given an opportunity to explain the possible or apparent conflict of interest. The Executive Director may require the employee to furnish such additional information as may be appropriate in considering the statement of employment and financial interests. If, after adequate investigation, he disapproves an employee's statement of employment and financial interests, he shall promptly notify the employee of the disapproval and recommend appropriate remedial action pursuant to § 2100.3. If the employee is unwilling or unable to take such action, the Executive Director shall forthwith transmit the employee's statement of employment and financial interests and other pertinent information to the OSAHRC Chairman. The Chairman shall review all such forms and shall take appropriate action on such statements of employment and financial interests and shall initiate appropriate remedial action under 2100.3 and other applicable laws, orders, and regulations. Pending any final determination with regard to an employee's statement of employment and financial interests, the Executive Director shall relieve the employee of any duties which appear to conflict with a private interest or activity.

§ 2100.22 Confidentiality.

Each such statement of employment and financial interests and supplementary statements will be held in confidence. Statements shall be kept in a special file maintained by the Executive Director. No statement or copy thereof may be placed in an employee's personnel file. The Executive Director is also responsible for maintaining the statement in confidence and shall not allow an individual to examine any statement or copy thereof without the approval of the OSAHRC Chairman for good cause shown, except in fulfillment of his responsibilities under the regulations in this part. No information from a statement of employment and financial interests may be disclosed outside of the agency except as the OSAHRC Chairman or the Civil Service Commission may determine for good cause shown.

§ 2100.23 Review of files.

The OSAHRC Chairman or his designee may from time to time examine the files containing statements of employment and financial interests and supplementary statements, including those approved by the Executive Director. He shall take any appropriate corrective action.

§ 2100.24 Interests of employees' relatives.

For the purpose of the statements of employment and financial interests required by this subpart, the interest of a spouse, minor child, or other member of the employee's immediate household is considered to be an interest of the employee. For the purpose of this section, "member of an employee's immediate household" means those blood relatives who are residents of the employee's household.

§ 2100.25 Information not known by employees.

If any information required to be included on a statement of employment and financial interests or supplementary statement, including holdings placed in trust, is not known to the employee but is known to another person, the employee shall request that other person to submit information in his behalf.

§ 2100.26 Information not required.

This subpart does not require an employee to submit on a statement of employment and financial interests or supplementary statement any information relating to the policy holdings in an insurance company and the stock or bond holdings in a mutual fund, investment company, or bank; Provided, that in the case of a mutual fund, investment company, or bank, the fair value of such stock or bond holding does not exceed one percent of the value of the reported assets of the mutual fund, investment company, or bank. In addition, this subpart does not require submission of information relating to the employee's connection with, or interest in, a professional society or charitable, religious, social, fraternal, recreational, public service, civic, or political organization, or a similar organization not conducted as a business enterprise or subject to the provisions of the Occupational Safety and Health Act of 1970. For the purpose of this section, educational and other institutions doing research and development or related work involving grants of money from or contracts with the Government are deemed "business enterprises" and are required to be included in an employee's statement of employment and financial interests.

§ 2100.27 Effect of employees' statements on other requirements.

The statement of employment and financial interests and supplementary statements required of employees are in addition to, and not in substitution for, or in derogation of, any similar requirements imposed by law, order, or regulation. The submission of a statement or supplementary statement by an employee does not permit him or any other person to participate in a matter in which his or the other person's participation is prohibited by law, order, or regulation.

APPENDIX A

Attention of OSAHRC employees is hereby directed to the following statutory provisions:

(a) House Concurrent Resolution 175, 85th Congress, second session, 72A stat, B12, the "Code of Ethics for Government Service."

(b) Chapter 11 of title 18, United States Code, relating to bribery, graft, and conflicts of interest, as appropriate to the employees concerned.

(c) The prohibition against lobbying with appropriated funds (18 U.S.C. 1913).

(d) The prohibition against disloyalty and striking (5 U.S.C. 7311, 18 U.S.C. 1918).

(e) The prohibition against the employment of a member of a Communist organization (50 U.S.C. 784).

(f) The prohibitions against (1) the disclosure of classified information (18 U.S.C. 798, 50 U.S.C. 783); and (2) the disclosure of confidential information (18 U.S.C. 1905).

(g) The provision relating to the habitual use of intoxicants to excess (5 U.S.C. 7352).

(h) The prohibition against the misuse of a Government vehicle (31 U.S.C. 638a(c)).

(i) The prohibition against the misuse of the franking privilege (18 U.S.C. 1719).

(j) The prohibition against the use of deceit in an examination or personnel action in connection with Government employment (18 U.S.C. 1917).

(k) The prohibition against fraud or false statements in a Government matter (18 U.S.C. 1001).

(l) The prohibition against mutilating or destroying a public record (18 U.S.C. 2071).

(m) The prohibition against counterfeiting and forging transportation requests (18 U.S.C. 508).

(n) The prohibitions against (1) embezzlement of Government money or property (18 U.S.C. 641); (2) failing to account for public money (18 U.S.C. 643); and (3) embezzlement of the money or property of another person in the possession of an employee by reason of his employment (18 U.S.C. 654).

(o) The prohibition against unauthorized use of documents relating to claims from or by the Government (18 U.S.C. 285).

(p) The prohibition against political activities in subchapter III of chapter 73 of title 5, United States Code and 18 U.S.C. 602, 603, 607, and 608.

(q) the Prohibition against an employer acting as the agent of a foreign principal registered under the Foreign Agents Registration Act (18 U.S.C. 219).

Signed this 7th day of February 1975.

ROBERT D. MORAN,
Chairman.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 73-202]

PART 160—PORTS AND WATERWAYS SAFETY—GENERAL

Emergency or Temporary Situations

On October 24, 1974, there was published in the FEDERAL REGISTER (39 FR 37778) a notice of proposed rulemaking with a proposed amendment adding new Part 160 to Subchapter P of Title 33, Code of Federal Regulations. The amendment would implement certain portions of the Ports and Waterways Safety Act of 1972 (Pub. L. 92-340) by delegating to Coast Guard District Commanders and Captains of the Port or their authorized representative the necessary authority to issue orders and directions to handle emergency or temporary situations.

Interested parties were notified of the opportunity to participate in this rulemaking procedure by the advance notice of proposed rulemarking published in the FEDERAL REGISTER of March 1, 1974 (39 FR 7948) and by the notice of proposed rulemaking published in the FEDERAL REGISTER of October 24, 1974 (39 FR 37778). A public hearing concerning the proposed amendment was held in Washington, D.C. on December 5, 1974. Statements made at the public hearing and all written comments received with respect to the proposal have been considered. Except as discussed in the following paragraphs, the rules as proposed have been adopted without substantive change.

1. Eleven comments note an apprehension toward the nature, extent and duration of the authority being delegated. One responder is concerned that a Captain of the Port might be too inexperienced to hold such authority and wants safeguards against its abuse, suggesting that only the District Commander should be able to control vessel traffic. Three seek to eliminate the delegation to "their authorized representative." Some suggested limiting the COTP's authority to "emergencies" of less than 24 hours duration, defining as "temporary" those cases which last more than 24 hours or restricting authority to deal with them to the District Commander. Still others seek to differentiate between conditions from "emergency" through "temporary" to "permanent". One commenter recommends that conditions for termination of an emergency action be specified in the order implementing that action. Four of the eight suggest that the COTP utilize "outside consultation" of varying degrees in his decisionmaking process, while two recommend formation of advisory committees for local maritime—COTP consultation in situations that last longer than a day or two.

The delegations contained in the proposed regulation were developed to implement the Ports and Waterways Safety Act of 1972 by assigning to the field level the authority to control vessel traffic in especially hazardous areas or during hazardous circumstances and to direct the movement of a vessel whenever necessary to prevent damage to or by that vessel. Many of the apprehensions expressed by commenters were anticipated and will be addressed in intra-Coast Guard administrative instructions.

Inexperience is not considered by the Coast Guard to be a factor in officers selected to serve as Captain of the Port. Those selected for this assignment are seasoned officers, trained to adapt to new operational tasks quickly and effectively. Also, key personnel are rotated on a staggered basis to preserve continuity.

In addition, it is not intended that orders or directions should emanate from a level below that which is absolutely necessary. The "authorized representative" may be the commanding officer of a Coast Guard cutter on the scene of a marine disaster and specifically authorized by the District Commander or the COTP to issue emergency orders, or he might be an operations duty officer, trained, qualified, and specifically authorized to supervise the Captain of the Port's emergency responsibilities during hours when the COTP is not personally available. These concepts will also be subject to intra-Coast Guard instructions.

Consultation with the marine community is not feasible in an emergency situation that requires immediate response to an order or direction issued to reduce an unacceptable level of risk to safety or to the environment to an acceptable level. Consultation with all interested parties, in the case of a long range problem that requires a permanent solution through lawmaking or rulemaking, is required by the Administrative Procedure Act. Between the emergency and the long range situation exists a broad range of circumstances that cannot be solved in short term by order or direction or permanently by legislation, promulgation of regulations, etc. Consultation with the affected maritime community is but one of the valuable tools any Captain of the Port will normally use, under those circumstances, in determining a proper course of action. The Coast Guard desires to assure not only persons affected but also itself that the interests of those affected by COTP orders and directions are properly considered. As a result of the comments received and in consideration of the foregoing, the Coast Guard has added provision for appeals to the orders issued under these rules as a new section 160.45.

2. One commentator suggests increasing control of all ocean-going vessels crossing ferry slips by requiring a tug alongside when crossing ferry lanes and by restricting them from going "in or

XUM
V40-31 FEB 13 75 F
XUM

near" ferry lanes. It was also recommended that ferry schedules be published in Weekly Notice to Mariners to reduce radio use. These are not within the scope of this rulemaking action, but are applicable to regulations presently under development by a joint Coast Guard—industry advisory group for a planned vessel traffic system in the commentator's port.

3. Another comment recommended clarification of what appeared to the commenter to be coextensive authority of the District Commander and the Captain of the Port for exercise of authority under the proposed rules. The Captain of the Port serves under the general supervision and control of a District Commander. The Coast Guard does not consider it appropriate to delegate an authority for action to the Captain of the Port without also delegating the same authority to the District Commander. Additionally, extensive waters under the jurisdiction of the United States have in the past been outside the jurisdiction of a Captain of the Port; in these areas the District Commander had been assigned the responsibility and authority to act as COTP. The proposed approach of coextensive jurisdiction has been chosen by the Coast Guard as most effective. The mariner should never experience confusion because the District Commander will exercise his authority in only the most extraordinary cases, such as promulgation of an order which may affect several COTP areas of responsibility. Orders and directions will normally emanate from the Captain of the Port who is more familiar with the specific port environment as it relates to local maritime interests and needs. The commenter also proposed clarification of whether constructive knowledge or actual knowledge of an order or direction issued under the proposed regulation is intended by the regulation. The Coast Guard does not intend to deal casually with emergency situations involving risk to or by vessels or to the environment. All necessary means will always be employed to see that persons to whom orders are directed have sufficient knowledge of the order to allow compliance.

4. One comment postulated that these proposed regulations would require preparation of an inflationary impact statement under the provisions of the recently issued Executive Order 11821. Pending receipt of criteria and procedures pursuant to the order, the likely inflationary impact of this delegation has been carefully considered on its own merit. While the control of vessel traffic under hazardous circumstances or the direction to anchor, moor, or move a vessel to prevent damage to or by that vessel might impact upon the vessel being ordered to anchor, moor, or move or otherwise being controlled, the Coast Guard views this as the imposition of an absolutely minimum practicable inconvenience to avert a larger risk to safety and the environment. The general thrust of these regulations is to allow for controls that, if not applied when indicated would result in an undue hazard to substantial maritime investment or to the environment.

This amendment is made effective February 13, 1975. The 30 day requirement of the Administrative Procedure Act (5 USC 553(d)) is found unnecessary because the amendment places no additional burden upon any person.

In consideration of the foregoing, Subchapter P of Chapter I of Title 33 of the Code of Federal Regulations is amended by adding a new Part 160, to read as follows:

Subpart A—General

Sec.
160.1. Purpose.
160.11 Definitions.
160.15 Penalties.

Subpart B—Orders and Directions of the Captain of the Port and District Commander

160.31 Applicability.
160.35 Delegations.
160.39 Compliance with directions and orders.
160.45 Appeals.

AUTHORITY: Sec. 104, 86 Stat. 427 (33 U.S.C. 1224); 49 CFR 1.46(o)(4).

Subpart A—General

§ 160.1 Purpose.

This Subchapter P contains regulations implementing Title I of the Ports and Waterways Safety Act of 1972.

§ 160.11 Definitions.

For the purpose of this part:

(a) "United States" includes the fifty States, the District of Columbia, Puerto Rico, the territories and possessions of the United States, and the Trust Territory of the Pacific Islands.

(b) "Vessel" means every description of watercraft or other artificial contrivance used, or capable of being used, as a means of transportation on water.

(c) "Commandant" means the Commandant of the U.S. Coast Guard.

(d) "District Commander" means the Coast Guard officer designated by the Commandant to command a Coast Guard District described in Part 3 of this chapter.

(e) "Captain of the Port" means the Coast Guard officer, under the command of a District Commander, designated by the Commandant for the purpose of giving immediate direction to Coast Guard law enforcement activities within his assigned area as described in Part 3 of this chapter.

(f) "Person" includes an individual, firm, corporation, association, governmental entity, and a partnership.

§ 160.15 Penalties.

33 U.S.C. 1226 prescribes that whoever violates a regulation issued under Title I of the Ports and Waterways Safety Act of 1972 is liable to a civil penalty of not more than $10,000. A vessel used or employed in a violation of these regulations is liable in rem. 33 U.S.C. 1227 prescribes that whoever willfully violates a regulation issued under Title I of the Ports and Waterways Safety Act of 1972 shall be fined not less than $5,000 or more than $50,000 or imprisoned for not more that five years, or both.

Subpart B—Orders and Directions of the Captain of the Port and District Commander

§ 160.31 Applicability.

This subpart applies to all vessels on the navigable waters of the United States, except the Saint Lawrence Seaway and the Panama Canal.

§ 160.35 Delegations.

To prevent damage to, or the destruction or loss of any vessel, bridge, or other structure on or in the navigable waters of the United States, or any land structure or shore area immediately adjacent to those waters and to protect the navigable waters and the resources therein from environmental harm resulting from vessel or structure damage, destruction, or loss—

(a) Each District Commander, Captain of the Port, or their authorized representative may direct the anchoring, mooring, or movement of a vessel when necessary to prevent damage to or by that vessel or her cargo, stores, supplies, or fuel; and

(b) Each District Commander, Captain of the Port, or their authorized representative may temporarily control vessel traffic in an area which he determines to be especially hazardous, or under conditions of reduced visibility, adverse weather, vessel congestion, or other hazardous circumstances by issuing orders.

(1) Specifying times of vessel entry, movement, or departure to, from, within, or through ports, harbors, or other waters;

(2) Establishing vessel traffic routing schemes;

(3) Establishing vessel size and speed limitations and vessel operating conditions; and

(4) Restricting vessel operation, in a hazardous area or under hazardous conditions, to vessels which have particular operating characteristics and capabilities which he considers necessary for safe operation under the circumstances.

§ 160.39 Compliance with directions and orders.

Each person who has notice of the terms of an order or direction issued under § 160.35 shall comply with that order or direction.

§ 160.45 Appeals.

(a) Any person directly affected by an order or direction issued under this part may request reconsideration by the official who issued the order or direction and may appeal the order or direction through the Captain of the Port to the District Commander and then to the Commandant, whose decision shall be final.

(b) Requests for reconsideration and appeals may be written or oral, but if oral must be followed by no less than a written outline of the key points made. The Coast Guard official to whom the request or appeal is made will provide a written decision if requested.

(c) While any request or appeal is pending the order or direction remains in effect.

(Sec. 104, 86 Stat. 427 (33 U.S.C. 1224); 49 CFR 1.46(o)(4))

Effective date. This amendment shall be effective on February 13, 1975.

Dated: February 6, 1975.

O. W. SILER,
Admiral, U.S. Coast Guard,
Commandant.

[FR Doc.75-4068 Filed 2-12-75;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 5A—FEDERAL SUPPLY SERVICE, GENERAL SERVICES ADMINISTRATION

[BRAI: FSS P2800.8A CHGE 153]

PART 5A-5—SPECIAL AND DIRECTED SOURCES OF SUPPLY

Procurement of Products of the Blind and Other Severely Handicapped

This change to the General Services Administration Procurement Regulations (GSPR) is to delete § 5A-5.5004, and to add new Subpart 5A-5.8, to implement the material contained in FPR 1-5.8 concerning the Procurement of products of the blind and other severely handicapped.

The table of contents of Part 5A-5 is amended to delete § 5A-5.5004 and to add Subpart 5A-5.8 as follows:

Subpart 5A-5.8—Procurement of Products of the Blind and Other Severely Handicapped

5A-5.805 Procurement procedures.
5A-5.805-2 Allocation and orders.
5A-5.805-3 Purchase exceptions.

Subpart 5A-5.8—Procurement of Products of the Blind and Other Severely Handicapped

§ 5A-5.805 Procurement procedures.

(a) Requirements forecast shall be furnished by the National Item Management Division, FXN, to the Central Office or regional procurement division having procurement responsibility based on the procurement production plan.

(b) When requesting shop assignments, the applicable procurement division shall transmit the requirements forecast estimates to the central nonprofit agency (hereinafter referred to as CNA) designated in the Procurement List. The production plan shall allow sufficient administrative leadtime for the CNA to reply prior to the beginning of the period covered.

§ 5A-5.805-2 Allocation and orders.

(a) In addition to the requirements set forth in § 1-5.805-2, requests for allocations and orders (shop assignments) shall indicate the following:

(1) Latest applicable specification.

(2) Packaging, packing, or marking, if other than the standard as required by the specification cited in the Procurement List or as otherwise provided in the Procurement List.

(b) The CNA shall furnish the contracting officer:

(1) Direct order plan. (Issue purchase orders pursuant to § 1-5.805-2(e)).

(2) Allocated items. (Issue purchase orders pursuant to § 1-5.805-2(f)).

(c) Upon receipt of the shop assignment (direct order plan), the contracting officer shall prepare GSA Form 1584, Contract Summary, to permit use of the ADO system. The form shall be prepared in accordance with § 5A-76.201(c) with a copy to the CNA.

(1) The Contract Summary shall contain all pertinent information that is illustrated in § 5A-16.950-1584-1. The minimum entries required are blocks 1 thru 8, 11, 12, 14, 15, and 16. The latest applicable specification shall be shown in block 12(b). For items not covered by specification, give the complete purchase description or reference the latest applicable item purchase description. The shipping container weight (if fob origin) should be shown in block 12(h). Those blocks on the Contract Summary which are not applicable shall be marked N/A. The contracting officer shall obtain the necessary information from the appropriate CNA by telephone or in writing. Some of this information is contained in the Procurement List.

(2) A separate Contract Summary shall be prepared for each addressee (Block 7).

(3) Each Contract Summary shall be assigned a separate contract number in accordance with § 5A-1.352.

(4) The Contract Summary shall be amended whenever changes occur. The contracting officer shall furnish Region 10 an advance copy of all Contract Summary amendments.

(5) Each Contract Summary issued for procurement of stock items from a CNA shall be reissued on an annual basis and assigned a new contract number. The annual period covered must be reflected in the effective date block of the Contract Summary.

(d) On those items which the CNA designates as allocated items, the contracting officer shall prepare GSA Form 1584, Contract Summary, so that when requirements exist the ADO system will furnish a request for allocation to the contracting officer. The minimum entries required are blocks 2, 3, 7, 12 (a) and (b), 14, and 15. Block No. 12(b) shall include the caption ALLOCATED ITEM(S). Distribution of the Contract Summary shall be the same as set forth in § 5A-76.201(b) with a copy to the CNA. Each purchase order issued for allocated items shall include one of the following:

(1) Applicable specification.

(2) Applicable item purchase description and date.

(3) Reference to (1) or (2) when appropriate.

§ 5A-5.805-3 Purchase exceptions.

(a) Purchase from commercial sources pursuant to § 1-5.805-3 shall cite the purchase exception number issued by the CNA in the solicitation for offers and all subsequent award documents.

(b) The contract/purchase order must specify the calendar date on which shipment is required.

(Sec. 205(c), 63 Stat. 390, 40 U.S.C. 486(c)).

Effective date. These regulations are effective on the date shown below.

Dated: January 21, 1975.

M. J. TIMBERS,
Commissioner,
Federal Supply Service.

Title 46—Shipping

CHAPTER II—MARITIME ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER H—TRAINING

PART 310—MERCHANT MARINE TRAINING

Subpart A—Regulations and Minimum Standard for State Maritime Academies and Colleges

Notice is given that Subpart A of Part 310 of Title 46 of the Code of Federal Regulations is hereby amended. Currently, Subpart A provides that a candidate for admission (other than a foreign national) to a State Maritime Academy or College, other than the Great Lakes Maritime Academy, may be neither married at the time of admission nor while enrolled. Subpart A further provides that if a cadet is married at the time of admission or marries while in attendance at a State Maritime Academy or College, other than the Great Lakes Maritime Academy, such cadet shall be dismissed if he does not resign. This amendment deletes the marriage restriction and penalty from Subpart A.

Subpart A of Part 310, Title 46, Code of Federal Regulations, is amended as follows:

§ 310.6 [Amended]

1. By deleting subparagraph (a)(4) of § 310.6 and redesignating subparagraphs (a)(5) and (a)(6) of such section as (a)(4) and (a)(5), respectively.

§ 310.10 [Amended]

2. By deleting paragraph (a) of § 310.10 and redesignating paragraphs (b) and (c) of such section as (a) and (b), respectively.

Effective date: February 13, 1975.

AUTHORITY: Sec. 8 Maritime Academy Act of 1958 (46 U.S.C. 1387), Reorganization Plans No. 21 of 1950 (64 Stat. 1273) and No. 7 of 1961 (75 Stat. 840) as amended by Pub. L. 91-469 (84 Stat. 1036), Department of Commerce Organization Order 10-8 (38 FR 19707, July 23, 1973).

Catalog of Federal Domestic Assistance Program No. 11-506 State Marine Schools.

Dated: February 7, 1975.

By Order of the Assistant Secretary of Commerce for Maritime Affairs.

JAMES S. DAWSON, Jr.,
Secretary.

PART 0—COMMISSION ORGANIZATION

Amendment to Part

By the Commission: 1. The Commission has under consideration § 0.42 concerning the units of the Office of General Counsel and §§ 0.44, 0.46 and 0.47 concerning the functions of the Litigation Division, the Administrative Law and Treaties Division, and the Enforcement and Defense Division.

2. In order to promote a more efficient operation in performing the responsibilities in the Office of General Counsel, the Commission is consolidating in one division all responsibility for the judicial defense and enforcement of Commission actions, and is making several other organizational changes.

3. Accordingly, we are amending §§ 0.44, 0.46 and 0.47 of the rules concerning the functions of the Litigation Division, the Administrative Law and Treaties Division and the Enforcement and Defense Division as set forth herein. The Litigation Division is renamed the Litigation and Enforcement Division; the Enforcement and Defense Division is renamed the Administrative Rules and Procedure Division; and the Administrative Law and Treaties Division is renamed the Legal Research and Treaties Division.

4. Section 0.42 is also revised to include the five units of the Office of General Counsel.

5. The amendments herein adopted are issued pursuant to authority contained in sections 4(i), 5(b) and 303(r) of the Communications Act of 1934, as amended.

6. The amendments adopted herein pertain to Commission organization and hence the notice and effective date requirements set forth in 5 U.S.C. § 553 are inapplicable.

7. Accordingly, *it is ordered*, that §§ 0.42, 0.44, 0.46, and 0.47 are amended as set forth below effective February 4, 1975.

Adopted: January 22, 1975.

Released: February 7, 1975.

FEDERAL COMMUNICATIONS COMMISSIONS,
[SEAL] VINCENT J. MULLINS,
Secretary.

Part 0 of Chapter I of Title 47 of the Code of Federal Register is amended as follows:

1. Section 0.42 is revised to read as follows:

§ 0.42 Units in the Office.

The Office of General Counsel is divided into the following units:

(a) Immediate Office of the General Counsel.

(b) Litigation and Enforcement Division.

(c) Legislation Division.

(d) Legal Research and Treaty Division.

(e) Administrative Rules & Procedure Division.

(f) Equal Employment Opportunity Unit.

2. Section 0.44 is revised to read as follows:

§ 0.44 Litigation and Enforcement Division.

The Litigation and Enforcement Division has the following duties and responsibilities:

(a) To advise and represent the Commission in all matters of litigation to which the Commission is a party.

(b) To advise and represent the Commission and to take action usually upon recommendations submitted by the operating bureaus, as to civil and criminal proceedings to enforce the Communications Act, the rules and regulations of the Commission, and Commission orders in the courts of the United States.

(c) To advise and represent the Commission in all matters pertaining to freedom of information matters.

(d) To advise the Commission as to legal questions involved in proposed actions and policies in the light of past and pending litigation, and to conduct research in legal matters as directed by the General Counsel.

3. The headnote and text of 0.46 are revised to read as follows:

§ 0.46 Legal Research and Treaties Division.

The Legal Research and Treaties Division has the following duties and responsibilities:

(a) To conduct research in legal matters and prepare legal opinions as directed by the General Counsel.

(b) To participate in international conferences and in the implementation of international agreements, and to interpret international agreements and international regulations affecting the Commission.

(c) To coordinate rule making matters and proceedings affecting more than one Bureau.

(d) To cooperate with the Common Carrier Bureau and the Office of Chief Engineer on matters pertaining to satellite communications.

(e) To study and develop recommendations with regard to the licensing practices of patentees and assignees in communications services regulated by the Commission.

(f) To perform any additional functions assigned to it by the General Counsel.

4. In 0.47, the headnote, the intro text and paragraph (a) are revised, and paragraph (h) is added, to read as follows:

§ 0.47 Administrative Rules and Procedure Division.

The Administrative Rules and Procedure Division has the following duties and responsibilities:

(a) To prepare and coordinate recommendations concerning procedural rules of general applicability, and to maintain liaison with Government agencies and private organizations concerned with improving the Commission's procedures.

• • • • •

(h) In cooperation with the Office of Chief Engineer, to participate in general frequency allocation proceedings affecting more than one Bureau.

[FR Doc.75-4058 Filed 2-12-75;8:45 am]

PART 0—COMMISSION ORGANIZATION

Editorial Amendment of Section 0.465

By the Executive Director: This Order is issued to update the Commission's rules to specify the current contractor responsible for providing verbatim transcripts of Commission proceedings.

Authority for this amendment is contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended, and in § 0.231(d) of the Commission's rules. Since this is an editorial amendment, the prior notice and effective date provisions of the Administrative Procedure Act (5 U.S.C. 553) do not apply.

Accordingly, *it is ordered*, Effective February 19, 1975, That § 0.465(b) is amended to specify the National Reporting Co., Inc., 2009 North 14th Street, Arlington, Virginia 22001, in lieu of the C.S.A. Reporting Corporation, 300 Seventh Street, SW., Washington, D.C. 20004, which is presently listed.

Adopted: February 5, 1975.

Released: February 6, 1975.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] R. D. LICHTWARDT,
Acting Executive Director.

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 1, Amdt. 1-106]

PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

Delegation to the Federal Highway and Urban Mass Transportation Administrators

The purpose of this amendment is to delegate to the Federal Highway and Urban Mass Transportation Administrators certain functions vested in the Secretary by the National Mass Transportation Assistance Act of 1974 (Pub. L. 93-503, November 26, 1974; 88 Stat. 1565). This Act is divided into three titles, as follows:

Title I—Increased Mass Transportation Assistance.
Title II—Fare-Free Mass Transportation.
Title III—Railroad Grade Crossings.

Title I amends the Urban Mass Transportation Act of 1964 primarily by (1) increasing to $10.295 billion the amount of obligational authority available to assist States and localities in financing the construction, reconstruction, acquisition and improvement of mass transportation facilities and equipment, and (2) authorizing a new program of obligational authority to assist States and localities in financing the acquisition, construction, improvement and operation of mass transportation facilities and equipment. The Urban Mass Transportation Act of 1964, as amended, is delegated to the Urban Mass Transportation Administrator except certain sections relating to urban planning and approval of urban boundaries. These sections, and related sections of title 23, Highways, are jointly delegated to the Federal Highway and Urban Mass Transportation Administrators.

Title II authorizes a new program of demonstration projects to determine the feasibility of fare-free urban mass transportation systems. This title is delegated to the Urban Mass Transportation Administrator, except sections 204 and 205. Conduct of the study and preparation of the report to Congress required by sections 204 and 205 will be assigned to the Urban Mass Transportation Administration by internal DOT Order 1323.2C, Coordination and Transmittal of Reports to the Congress.

Title III directs the Secretary to undertake a demonstration project in Hammond, Indiana, for the relocation of railroad lines for the purpose of eliminating highway railroad grade crossings. This title is delegated to the Federal Highway Administrator.

The exercise of certain powers and duties vested in the Secretary by this Act and delegated by this document, as well as those vested by other related statutes and previously delegated, are controlled by the Department of Transportation Organization Manual, DOT Order 1100.23A. The relevant controls effected by that Order are as follows:

Powers and duties	*Controls*
1. The Federal Highway Administrator with respect to the railroad grade crossings demonstration project under Title III of the National Mass Transportation Assistance Act of 1974.	With support of the Federal Railroad Administrator.
2. The Federal Railroad Administrator with respect to the following powers and duties under the Federal Railroad Safety Act of 1970:	
(a) Issuance, modification, or revocation of proposed or final safety rules, regulations, orders, or standards.	Prior coordination with the Office of the Secretary through the General Counsel.
(b) Issuance, modification, or revocation of proposed or final safety rules, standards, or safety investigation reports affecting rapid rail transit or commuter operations.	Joint development and prior coordination with the Urban Mass Transportation Administrator with respect to rapid rail operations; prior consultation with the Urban Mass Transportation Administrator with respect to commuter rail operations.
(c) Conduct of investigations, and issuance of reports of accident investigations affecting rapid rail transit or commuter rail operations.	Prior consultation with the Urban Mass Transportation Administrator.
(d) Issuance of orders to rapid rail transit systems prohibiting further use of facilities or equipment under 45 U.S.C. 432 or imposing civil penalties under 45 U.S.C. 438.	Prior coordination with the Urban Mass Transportation Administrator.
3. The Urban Mass Transportation Administrator, with respect to the following powers and duties under the Urban Mass Transportation Act of 1964, as amended:	
(a) Requirements for alternate use of capital grants under section 3(h).	Prior coordination of regulations and guidelines with the Office of the Secretary through the Deputy Under Secretary and the General Counsel.
(b) Assistance to areas other than urbanized areas under section 4(c).	Prior coordination on regulations and guidelines specifically affecting, and prior consultation on project applications in, areas of less than 50,000 population with the Federal Highway Administrator.

XUM
V40-31
FEB 13 75
XUM

Powers and duties	Controls
(c) All regulations and guidelines promulgated under section 5.	Prior coordination with the Office of the Secretary through the Deputy Under Secretary, including the General Counsel, and with: 1. Office of the Assistant Secretary for Policy, Plans and International Affairs (TPI) with regard to subsection (d)(2); and 2. Office of the Assistant Secretary for Environment, Safety and Consumer Affairs (TES) with regard to subsections (h)(2) and (m). Prior coordination with the Federal Highway Administrator with regard to procedures for: 1. Submission of programs or projects under subsections (g)(2) and (3); 2. Issuance or revocation of certification under subsection (j); and 3. Project agreements under subsection (k) as they may be applicable to transit projects under title 23. Prior consultation with the Federal Highway Administrator under subsections (h) and (i).
(d) Requirements for urban planning under section 9.	Prior consultation with the Federal Highway Administrator on any formula allocation of planning funds. Concurrence of the Federal Highway Administrator in approval of unified work programs for the use of these planning funds.
(e) Requirements for a reporting system and uniform system of accounts under section 15.	Prior coordination of the reporting system and uniform system of accounts with the Office of the Secretary through the Assistant Secretary for Administration.
4. The Urban Mass Transportation Administrator with respect to investigation of safety hazards in urban mass transportation systems under section 107 of the National Mass Transportation Assistance Act of 1974.	Prior coordination of proposed or final safety standards and regulations for bus systems with the Federal Highway Administration (Bureau of Motor Carrier Safety). Joint development and concurrence by the Federal Railroad Administrator in proposed or final regulations and guidelines to be made applicable under section 107 and the Federal Railroad Safety Act of 1970. Prior coordination of approvals of plans for correction of unsafe conditions on fixed rail and commuter rail systems with the Federal Railroad Administrator. Prior coordination of all regulations and guidelines with the Office of the Secretary through the Deputy Under Secretary, including the General Counsel and the Assistant Secretary for Environment, Safety and Consumer Affairs. Prior coordination with the Federal Railroad Administrator of any determination to withhold further assistance from rapid rail transit or commuter rail systems.
5. The Urban Mass Transportation Administrator with respect to fare-free mass transportation demonstration projects under Title II of the National Mass Transportation Assistance Act of 1974.	Prior coordination of regulations and guidelines with the Office of the Secretary through the Deputy Under Secretary including the General Counsel and the Assistant Secretary for Environment, Safety and Consumer Affairs.
6. The Federal Highway Administrator and the Urban Mass Transportation Administrator with respect to the following powers and duties prescribed by title 23, U.S.C.:	
(a) Issuance, modification or revocation by the Federal Highway Administrator or the Urban Mass Transportation Administrator of proposed or final regulations concerning acceptance or rejection of certification of performance by the States under 23 U.S.C. 117.	Prior coordination of each Administrator with the other and with the Office of the Secretary through the Office of the General Counsel.

Powers and duties	Controls
(b) Issuance, modification, or revocation by the Federal Highway Administrator or the Urban Mass Transportation Administrator of proposed or final regulations concerning: (1) Consideration of the social, environmental, and economic effects under 23 U.S.C. 109(h); and (2) Public hearings under 23 U.S.C. 128.	Prior consultation of each Administrator with the other.
7. The Federal Highway and Urban Mass Transportation Administrators with respect to urban planning under sections 3(a)(2) and (e)(1), 4(a), and 5(g)(1) and (l) of the Urban Mass Transportation Act of 1964.	Joint development and prior coordination of regulations and guidelines with the Office of the Secretary through the Deputy Under Secretary and the General Counsel.

Since this amendment relates solely to Departmental management, procedures and practices, notice and public procedure thereon are unnecessary and it may be made effective in fewer than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, Part 1 of Title 49 of the Code of Federal Regulations is amended, as follows:

(1) In § 1.48, Delegations to the Federal Highway Administrator, subparagraph (14) of paragraph (b) is amended, and new paragraphs (r) and (s) are added, to read as follows:

§ 1.48 Delegations to the Federal Highway Administrator.

• • • • • •

(b) Administer the following sections of title 23, United States Code:

• • • • • •

(14) 117, except as it involves mass transportation projects authorized by sections 103(e)(4), 142(a)(2) or 142(c).

• • • • • •

(r) Carry out the functions vested in the Secretary by Title III of the National Mass Transportation Assistance Act of 1974 (Pub. L. 93–503).

(s) Carry out the functions vested in the Secretary by the following sections of the Urban Mass Transportation Act of 1964, as amended, with the concurrence of the Urban Mass Transportation Administrator:

(1) Sections 3(a)(2) and (e)(1), 4(a), and 5(g)(1) and (l) as they relate to urban planning (49 U.S.C. 1602(a)(2) and (e)(1), 1603(a), and 1604(g)(1) and (l)); and

(2) Section 5(a)(3) relating to approval of boundaries of urbanized areas (49 U.S.C. 1604(a)(3)).

(2) In section 1.50, Delegations to the Urban Mass Transportation Administrator, paragraph (a) and subparagraphs (2) and (3) of paragraph (f) are amended and new paragraphs (i) and (j) are added, to read as follows:

§ 1.50 Delegations to the Urban Mass Transportation Administrator.

• • • • • •

(a) The Urban Mass Transportation Act of 1964, as amended (78 Stat. 302, 49 U.S.C. 1601 et seq.), except that the following sections are to be administered with the concurrence of the Federal Highway Administrator:

(1) Sections 3(a)(2) and (e)(1), 4(a), and 5(g)(1) and (l) as they relate to urban planning (49 U.S.C. 1602(a)(2) and (e)(1), 1603(a), and 1604(g)(1) and (l)); and

(2) Section 5(a)(3) relating to approval of boundaries of urbanized areas (49 U.S.C. 1604(a)(3)).

• • • • • •

(f) The following sections of Title 23, United States Code:

• • • • • •

(2) 101(a) (as it involves approval of boundaries of urban and urbanized areas), 104(f)(4), 105(d), 106(b) (as it involves the Federal-aid urban system), 134(a) and 150 with the concurrence of the Federal Highway Administrator.

(3) 101 (b), (c), (d), and (e); 105 (a) and (g); 106 (a), (c), and (d); 108; 109 (a), (g), and (h); 110; 112; 113; 114; 116 (a) and (c); 117; 121; 122; 124; 128; 140 (a); and 145 as they involve mass transportation projects authorized by sections 103(e)(4), 142(a)(2) or 142(c).

• • • • • •

(i) Section 107 of the National Mass Transportation Assistance Act of 1974 (Pub. L. 93–503, November 26, 1974).

(j) Title II of the National Mass Transportation Assistance Act of 1974 (Pub. L. 93–503, November 26, 1974), except sections 204 and 205.

Effective date. This amendment is effective February 13, 1975.

(Sec. 9(e), Department of Transportation Act (49 U.S.C. § 1657(e))

Issued in Washington, D.C., on February 7, 1975.

JOHN W. BARNUM,
Acting Secretary of Transportation.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER C—ACCOUNTS, RECORDS, AND REPORTS

[No. 36077]

ANNUAL CARRIER REPORTS
Revision and Redesignation

At a General Session of the Interstate Commerce Commission, held at its Office in Washington, D.C. on the 3rd Day of February 1975.

This Commission, in Docket No. 34178 (Sub-No. 2) Accounting for Taxes—Interperiod Tax Allocation (Deferred Taxes), and Docket No. 35949, The Equity Method of Accounting for Certain Long-Term Investments in Common Stock, changed the regulations in various aspects of its Uniform System of Accounts. In addition, the issuance of a new system of accounts for Maritime Carriers as directed in Docket No. 30451 (Sub-No. 1), Uniform System of Accounts for Maritime Carriers, necessitates a revision of the applicable annual report. To implement these several changes, we are herein adopting and directing revisions in certain requirements as to annual reporting by carriers.

Other changes to the annual reports include redesignation of the form number and modernization of the size and format to facilitate better reporting, computer processing and analysis. The revisions, herein, also include corrections required in the Code of Federal Regulations previously issued.

None of the changes made in this order, as set forth in the appendix, are considered to be burdensome or controversial and, therefore, public proceedings under section 553 of the Administrative Procedure Act, 5 U.S.C. 553, are deemed unnecessary.

Wherefore, and for good cause appearing:

It is ordered, That the annual reports and the reporting rules and requirements therein, as shown below, be, and they are hereby, adopted.

It is further ordered, That the reporting requirements prescribed hereby shall apply to all carriers and organizations, as defined in 49 CFR 1240, 1241, 1249, 1250 and 1251 subject to section 20, Part I; section 220, Part II, section 313, Part III, and section 412, Part IV of the Interstate Commerce Act.

It is further ordered, That the reporting requirements prescribed hereby shall become effective with reports for the year ending December 31, 1974, and shall remain in effect until further order of the Commission.

It is further ordered, That Parts 1241, 1249, 1250 and 1251 to Title 49, Chapter X, Subchapter C, Code of Federal Regulations, be, and they are hereby, modified and amended to read as shown below.

And it is further ordered, That service of this order shall be made on all carriers and organizations subject to section 20, Part I; section 220, Part II, section 313, Part III; and section 412, Part IV of the Interstate Commerce Act, and upon every receiver, trustee, executor, administrator or assignee of any such carrier or organization, and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C. 20423, and by filing it with the Director, Office of the Federal Register, for publication therein.

A supply of printed forms will be furnished later.

This decision is not a major Federal action significantly affecting the quality of the human environment within the

XUM
V40-31 FEB 13 75 F
XUM

meaning of the National Environmental Policy Act of 1969.

(Secs. 12, 20, 24 Stat. 383, 386; secs. 204, 220, 49 Stat. 546, as amended, 563, as amended; secs. 201, 304, 313, as amended, 54 Stat. 933, 944, as amended; secs. 408, 412, 56 Stat. 285, 294; 49 U.S.C. 12, 20, 304, 320, 904, 913, 1003, 1013, unless otherwise noted.)

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

PART 1241—ANNUAL, SPECIAL OR PERIODIC REPORTS; CARRIERS SUBJECT TO PART I OF THE INTERSTATE COMMERCE ACT

911. The table of contents entries for §§ 1241.12 and 1241.13 are revised as follows:

* * * * *

1241.12 Annual reports of Class II railroad companies.
1241.13 Annual reports of lessors to railroad companies.

* * * * *

912. The title and text of § 1241.12 and § 1241.13 are revised to read:

§ 1241.12 Annual reports of Class II railroad companies.

Commencing with reports for the year ended December 31, 1974, and thereafter, until further order, all line-haul and switching and terminal companies of Class II, as defined in § 1240.1 of this chapter, subject to section 20, Part I of the Interstate Commerce Act, are required to file annual reports in accordance with Railroad Annual Report Form R–2. Such annual report shall be filed in duplicate in the office of the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, on or before March 31 of the year following the year which is being reported.

§ 1241.13 Annual reports of lessors to railroad companies.

Commencing with the year ended December 31, 1974, and thereafter, until further order, all lessors to railroad companies subject to the provisions of section 20, Part I, of the Interstate Commerce Act, are required to file annual reports in accordance with Railroad Lessor Annual Report Form R–4. Such annual report shall be filed in duplicate in the office of the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, on or before March 31 of the year following the year which is being reported.

3. The text of § 1241.21 is revised to read as follows:

§ 1241.21 Annual reports of electric railways.

Commencing with the year ended December 31, 1974, and thereafter, until further order, all electric railway companies as defined in § 1240.3 of this chapter, subject to section 20, Part I, of the Interstate Commerce Act, are required to file annual reports in accordance with Electric Railway Annual Report Form R–5. Such annual report shall be filed in duplicate in the office of the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, on or before March 31 of the year following the year which is being reported.

Section 1241.71 is revised to read as follows:

§ 1241.71 Annual reports of persons furnishing cars, other than refrigerator car lines owned or controlled by railroad companies.

Commencing with reports for the year ended December 31, 1974, and thereafter, until further order, all persons furnishing cars to railroad or express companis, other than refrigerator can lines owned or controlled by railroad companies, and owning or operating 10 or more cars, are required to file annual reports in accordance with Form C–1 (Annual Reports of Persons Furnishing Cars, Other than Refrigerator Car Lines Owned or Controlled by Railroad Companies). Such report shall be filed in duplicate in the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, on or before March 31 of the year following the year which is being reported.

PART 1249—REPORTS OF MOTOR CARRIERS

5. In the table of contents the entry for 1249.3 is revised to read as follows

* * * * *

1249.3 Annual reports of motor carrier holding companies.

* * * * *

6. The title and text to § 1249.3 are revised to read:

§ 1249.3 Annual report of motor carrier holding companies.

(a) Each person which is not a motor carrier, but which shall be considered a motor carrier subject to provisions of section 220 of the Interstate Commerce Act by reason of effective control over one or more motor carriers through ownership of securities issued or assumed by such controlled motor carrier or carriers, shall file a report of its financial transactions in accordance with Motor Carrier Annual Report Form M–1 as prescribed in § 1249.1. Such reports hereby required to be filed shall be complete as to all schedules, declarations, replies, attachments, and other requirements of Motor Carrier Annual Report Form M–1, other than those which relate solely to the direct ownership and operation of highway equipment, and shall be filed in duplicate in the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, on or before March 31 of the year following the year to which it relates. Such persons shall also file similar reports annually, prepared in accordance with requirements for compiling Motor Carrier Annual Report Form M–1, as those requirements are now in effect or may in the future be modified, for each succeeding calendar year, or accounting year of thirteen 4-week periods, such annual reports to be filed in duplicate with the Commission on or before March 31 of the year following the year to which the report relates.

(b) Commencing with reports for the accounting year 1974 as described in part 1207 instruction 3 of this chapter, and thereafter, until further order, each company subject to this section is hereby required to file with this Commission, in addition to said Annual Report Form M–1, a supplemental consolidated report, Form M–4, setting forth the complete financial condition of such company and its subsidiaries in the scope and form indicated in the instructions to the supplemental consolidated report Form M–4 for the accounting year 1974 and each succeeding year thereafter. Such supplemental financial reports shall be attached to and considered an integral part of Motor Carrier Annual Report Form M–1 filed by each company.

7. The text of subparts § 1249.5 and § 1249.6 are revised to read:

§ 1249.5 Annual reports of class I carriers of passengers.

Commencing with reports for the accounting year 1974, as described in part 1206 instruction 3 of this chapter, and thereafter, until further order, all class I motor carriers of passengers, as defined in § 1240.4 of this chapter, are required to file annual reports in accordance with Motor Carrier Annual Report Form MP–1 (Passenger). Such annual report shall be filed in duplicate in the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, on or before March 31 of the year following the year to which it relates.

§ 1249.6 Annual reports of carriers of passengers other than class I carrics.

Commencing with the reports for the accounting year 1974, as described in part 1206 instruction 3 of this chapter, and thereafter, until further order, all motor carriers of passengers other than class I carriers, as defined in § 1204.4 of this chapter, are required to file annual reports in accordance with Motor Carriers Annual Report Form MP–2 (Passenger). Such report shall be filed in the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, on or before April 30 of the year following the year to which it relates.

PART 1250—REPORTS OF WATER CARRIERS

8. The table of contents entry for § 1250.20 is revised to read as follows:

§ 1250.20 Annual reports of maritime carriers

* * * * *

9. The text of § 1250.10 is revised to read:

§ 1250.10 Annual reports of class A and B water carriers on inland and coastal waterways.

Commencing with the year ended December 31, 1974, and thereafter, until further order, all water carriers on inland and coastal waterways subject to the provisions of section 313, Part III of the Interstate Commerce Act, and of classes A and B, as described in § 1240.2 of this chapter, are required to file annual reports in accordance with Inland and Coastal Waterways Annual Report Form W–1 (Class A and Class B water carriers). Such annual report shall be filed in duplicate in the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, on or before March 31 of the year following the year to which it relates.

10. The title and text of § 1250.20 are revised to read:

§ 1250.20 Annual reports of maritime carriers.

Commencing with the year ended December 31, 1974, and thereafter, until further order, all maritime carriers subject to section 313, Part III of the Interstate Commerce Act, are required to file annual reports in accordance with Annual Report Form W–4 (Maritime Carriers). Such annual report shall be filed in duplicate in the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, on or before March 31 of the year following the year to which it relates.

11. The text of § 1250.30 is revised to read:

§ 1250.30 Annual reports of class C water carriers.

Commencing with reports for the year ended December 31, 1974, and thereafter, until further order, all class C water carriers, as described in § 1240.2 of this chapter, subject to the provisions of section 313, Part III of the Interstate Commerce Act, are required to file reports in accordance with Annual Report Form W–3 (Class C Water Carriers). Such annual reports shall be filed in duplicate in the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, on or before March 31 of the year following the year to which it relates.

PART 1251—REPORTS OF FREIGHT FORWARDERS

12. In the table of contents § 1251.2 is revised as follows:

* * * * *

1251.2 Annual reports of Class B freight forwarders.

* * * * *

13. The text of § 1251.1 is revised to read:

§ 1251.1 Annual reports of class A freight forwarders.

Commencing with reports for the year ended December 31, 1974, and thereafter, until further order, all Class A freight forwarders, as described in § 1240.6 of this chapter, are required to file annual reports in accordance with Annual Report Form F–1 (Class A Freight Forwarders). Such annual report shall be filed in duplicate in the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423 on or before March 31 of the year following the year to which it relates.

14. The title and text of § 1251.2 are revised to read:

§ 1251.2 Annual reports of class B freight forwarders.

Commencing with reports for the year ended December 31, 1974, and thereafter, until further order, all class B freight forwarders, as described in § 1240.6 of this chapter, within the scope of section 412, Part IV of the Interstate Commerce Act are hereby required to file annual reports in accordance with Annual Report Form F–2 (Class B Freight Forwarders). The annual report shall be filed in duplicate, in the Bureau of Accounts, Interstate Commerce Commission, Washington, D.C. 20423, on or before March 31 of the year following the year to which it relates.

[FR Doc.75-4120 Filed 2-12-75;8:45 am]

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

SUBCHAPTER B—TAKING, POSSESSION, TRANSPORTATION, SALE, PURCHASE, BARTER, EXPORTATION, AND IMPORTATION OF WILDLIFE

PART 18—MARINE MAMMALS

Waiver of Moratorium on Taking Marine Mammals

The Marine Mammal Protection Act (86 Stat. 1027, 16 U.S.C. 1361 et seq.) authorizes the Secretary to prescribe regulations and to waive the moratorium on the taking and/or importation of marine mammals and marine mammal products and, for such prescription or waiver, refers the Secretary to section 103 of the Act (16 U.S.C. section 1373). Section 103(d) requires that the waiver and implementing regulations be made on the record after opportunity for an agency hearing.

The basic format for the proposed hearing procedures to govern the section 103 hearing consists of:

(1) Publication of notice in the FEDERAL REGISTER of (i) an intent to waive moratorium and/or to prescribe regulations and (ii) a description of the subjects and issues which may be involved in the hearing;

(2) Submission in writing of requests for hearing and issues of fact and law to be determined. Such submission must be accomplished by a date specified in the notice;

(3) As soon as possible after the date specified in (2) above, the presiding officer shall convene a prehearing conference to consider simplification and clarification of the issues to be determined.

(4) The hearing shall be conducted in accordance with sections 7 and 8 of the Administrative Procedure Act, 5 U.S.C. §§ 556 and 557.

(5) After the hearing, the parties will be afforded an opportunity to submit proposed findings, conclusions, and supporting briefs.

(6) Thereafter, the presiding officer shall as soon as practicable prepare a recommended decision, and transmit said decision and record to the Director, U.S. Fish and Wildlife Service for a final determination.

Since these regulations are procedural in nature and pertain to the procedures to be followed for adoption of substantive section 103 regulations concerning the waiver of the moratorium with respect to walrus only, and do not pertain to a general waiver of the moratorium, it is determined that with respect to these procedural regulations the notice and public procedure thereon, called for by 5 U.S.C. 553(b), are impracticable and unnecessary, and these regulations shall become effective upon publication in the FEDERAL REGISTER.

Accordingly, Part 18 of Title 50, Code of Federal Regulations, Chapter I, is amended as set forth below.

Dated: February 10, 1975.

LYNN GREENWALT,
Director, Fish and Wildlife Service.

1. In the Table of sections, a new subpart G consisting of §§ 18.60 through 18.75 are added to read:

Subpart G—Notice and Hearing on Section 103 Regulations

Sec.
18.60 Basis and purpose.
18.61 Definitions.
18.62 Scope of regulations.
18.63 Notice of public rulemaking.
18.64 Notification by interested persons.
18.65 Presiding officer.
18.66 Mailing address.
18.67 Inspection and copying of documents.
18.68 Ex parte communications.
18.69 Prehearing conference.
18.70 Final agenda of the hearing.
18.71 Waiver of right to participate.
18.72 Conduct of the hearing.
18.73 Oral and written arguments.
18.74 Recommended decision and submission of exceptions to recommended decision.
18.75 Director's decision.

AUTHORITY: 86 Stat. 1027; 16 U.S.C. 1361, 1373 et seq.

2. New subpart G reads as follows:

Subpart G—Notice and Hearing on Section 103 Regulations

§ 18.60 Basis and purpose.

(a) Sections 101(a)(2), 101(a)(3)(A), and 101(b) (16 U.S.C. Sections 1371(a)(2), 1371(a)(3)(A), 1371(b) (1972)) of the Act and these regulations authorize the Director to (1) impose regulations governing the taking of marine mammals incidental to commercial fishing operations; (2) waive the moratorium and to adopt regulations with respect to the taking and importing of animals from each species of marine mammals under his jurisdiction; (3) prescribe regulations governing the taking of depleted marine mammals by any Indian, Aleut or Eskimo, respectively. In prescribing regulations to carry out the provisions of said sections, the Act refers the Director to section 103 (16 U.S.C. 1373 (1972)). In accordance with section 103(d), regulations must be made on the record after opportunity for an agency hearing on such regulations by interested persons.

XUM
V40-31 FEB 13 75 F
XUM

and, in the case of a waiver, on the determination by the Director to waive the moratorium pursuant to section 101 (a)(3)(A) (16 U.S.C. 1371(a)(3)(A) (1972)).

(b) The purpose of this subpart is to establish rules of practice and procedure for all hearings conducted pursuant to section 103(d).

§ 18.61 Definitions.

Definitions shall be the same as in subpart A of this Part except as follows:

"Party" means, for the purposes of this subpart:

(1) The Director of the U.S. Fish and Wildlife Service or his representative;

(2) A person who has notified the presiding officer by specified dates of his intent to participate in the hearing.

§ 18.62 Scope of regulations.

The procedural regulations in this subpart govern the practice and procedure in hearings held under section 103(d) of the Act. These hearings will be governed by the provisions of sections 7 and 8 of the Administrative Procedure Act, 5 U.S.C. sections 556 and 557. The regulations shall be construed to secure the just, speedy, and inexpensive determination of all issues raised with respect to any waiver or regulation proposed pursuant to section 103(d) of the Act with full protection for the rights of all persons affected thereby.

§ 18.63 Notice of public rulemaking.

(a) A notice of public rulemaking on any proposed regulations shall be published in the FEDERAL REGISTER, together with the Director's proposed determination to waive the moratorium pursuant to section 101(a)(3)(A) (16 U.S.C. 1371(a)(3)(A)), where applicable.

(b) The notice shall state:

(1) The nature of the hearing;

(2) The place and date of the hearing. The date shall not be less than 30 days after publication of notice of the hearing;

(3) The legal authority under which the hearing is to be held;

(4) The proposed regulations and waiver, where applicable, and a summary of the statements required by section 103(d) of the Act (16 U.S.C. 1373 (d));

(5) Any written advice received as the result of consultations with the Marine Mammal Commission;

(6) The place(s) where the official record will be kept for public inspection;

(7) The final date for filing with the presiding officer a notice of intent to participate in the hearing;

(8) The docket number assigned to the case which shall be used in all subsequent proceedings; and

(9) The place and date of the prehearing conference.

§ 18.64 Notification by interested persons.

Any person desiring to participate as a party shall notify the presiding officer, by certified mail, on or before the date specified in the notice.

§ 18.65 Presiding officer.

(a) Upon publication of the notice of public rulemaking pursuant to § 18.63, the Director shall appoint a presiding officer pursuant to 5 U.S.C. § 3105. No individual who has any conflict of interest, financial or otherwise, shall serve as presiding officer in such proceeding.

(b) The presiding officer, in any proceeding under this subpart, shall have power to:

(1) Change the time and place of the prehearing and hearing and adjourn the hearing;

(2) Conduct a prehearing conference to determine the issues for the hearing agenda, and publish a pretrial order.

(3) Rule upon motions, requests and admissibility of evidence;

(4) Administer oaths and affirmations, question witnesses and direct witnesses to testify;

(5) Modify or waive any rule (after notice) when determining no party will be prejudiced;

(6) Receive written testimony and hear oral arguments;

(7) Render a recommended decision; and

(8) Do all acts and take all measures, including regulation of media coverage, for the maintenance of order at and the efficient conduct of the proceeding.

(c) In case of the absence of the original presiding officer or his inability to act, the powers and duties to be performed by the original presiding officer under this part in connection with a proceeding may, without abatement of the proceeding, be assigned to any other presiding officer unless otherwise ordered by the Director.

(d) The presiding officer may upon his own motion withdraw as presiding officer in a proceeding of he deems himself to be disqualified.

§ 18.66 Mailing address.

Unless otherwise specified in the notice of hearing, all communications shall be addressed to the Presiding Officer, Office of Hearings and Appeals, U.S. Department of the Interior, 4015 Wilson Blvd., Arlington, Virginia 22203, and shall be clearly marked with the docket number of the proceeding.

§ 18.67 Inspection and copying of documents.

Any document in a file pertaining to any hearing authorized by this subpart or any document forming part of the record of such a hearing may be inspected and/or copied in the dockets section of the Office of Hearings and Appeals.

§ 18.68 Ex parte communications.

(a) After notice of a hearing is published in the FEDERAL REGISTER, all communications, whether oral or written, involving any substantive issue and directed either to the presiding officer or to the Director shall be deemed ex parte communications and are not to be considered part of the record for decision.

(b) A record of oral conversations concerning substantive matters shall be made by the above persons who are contacted. All communications shall be available for public viewing at the place(s) specified in the notice of hearing.

(c) The presiding officer shall not consult any person or party on any fact in issue or on the merits of the matter unless notice and opportunity is given for all parties to participate.

§ 18.69 Prehearing conference.

The purpose of the prehearing conference shall be to enable the presiding officer to determine the issues of fact and law to be heard, and:

(1) What facts are not in dispute;

(2) Which witnesses may appear at the hearing; and

(3) The nature of the interest of each party and which parties' interests are adverse.

(4) Only parties may participate in the prehearing conference and a party may appear in person or be represented by counsel.

(5) Parties who do not appear at the prehearing conference shall be bound by the conference's determinations.

§ 18.70 Final agenda of the hearing.

After the prehearing conference, the presiding officer shall prepare a pretrial order setting forth the issues of fact and law to be heard. A copy of the order shall be served on each party and shall govern the course and conduct of the hearing.

§ 18.71 Waiver of right to participate.

Persons who fail to notify the presiding officer pursuant to § 18.64 shall be deemed to have waived their right to participate as parties in any part of the hearing.

§ 18.72 Conduct of the hearing.

(a) The hearing shall be held at the time and place fixed in the notice of hearing, unless the presiding officer changes the time or place. If a change occurs, notice of this change shall be served on all participating parties; *Provided*, That if the change in time or place of hearing is made less than five days before the date previously fixed for the hearing, the presiding officer shall also announce, or cause to be announced, the change at the time and place previously fixed for the hearing.

(b) The hearing shall be publicly conducted and reported verbatim by an official reporter.

(c) If a party objects to the admission or rejection of any direct testimony or to any other ruling of the presiding officer during the hearing, he shall state briefly the grounds of such objection, whereupon an automatic exception will follow if the objection is overruled by the presiding officer. The transcript shall not include argument or debate thereon except as ordered by the presiding officer. The ruling of the presiding officer on any objection shall be a part of the transcript and shall be subject to review at the same time and in the same manner as

the Director's final decision. Only objections made before the presiding officer may subsequently be relied upon in the proceedings.

(d) All motions and requests shall be addressed to, and ruled on by, the presiding officer, if made prior to his certification of the transcript or by the Director if made thereafter.

§ 18.73 Oral and written arguments.

(a) The presiding officer may, in his discretion, provide for oral argument at the end of the hearing. Such argument, when permitted, may be limited by the presiding officer to the extent necessary for the expeditious disposition of the proceeding.

(b) The presiding officer shall announce at the hearing a reasonable period of time within which any participating party may file with the presiding officer any proposed findings and conclusions and supporting briefs, which are based upon the record and citing the relevant page or pages of the transcript and exhibits. If a party filing a brief desires the presiding officer to reconsider any objection made by such party to a ruling of the presiding officer, he shall specifically identify such rulings by reference to the pertinent pages of the transcript and shall state his arguments thereon as a part of the brief.

(c) Oral or written arguments shall be limited to issues arising from direct testimony on the record.

§ 18.74 Recommended decision, and submission of exceptions to recommended decision.

(a) Promptly after expiration of the period for receiving written briefs, the presiding officer shall make a recommended decision based on the record and transmit the decision to the Director. The recommended decision shall include:

(1) A statement containing a description of the history of the proceedings;

(2) Findings on the issues of fact with the reasons therefor; and

(3) Rulings on issues of law.

(b) The presiding officer shall also transmit to the Director the entire hearing record. The presiding officer shall attach to the original transcript of the hearing a certificate stating that, to the best of his knowledge and belief, the transcript is a true transcript of the testimony given at the hearing except in such particulars as are specified.

(c) Immediately after receipt of the recommended decision, the Director shall give notice thereof in the FEDERAL REGISTER, send copies of the recommended decision to all parties, and provide opportunity for the submission of exceptions. The recommended decision may be reviewed and/or copied in the office of the Director, U.S. Fish and Wildlife Service, Washington, D.C. 20240.

(d) Within 20 days after the issuance of the recommended decision any participating party may file with the Director exceptions to the recommended decision.

§ 18.75 Director's decision.

(a) Upon receipt of the recommended decision and record, and after the 20 day period for receiving written exceptions to the recommended decision has passed, the Director shall make a final decision on the proposed regulations and waiver, where applicable. The Director's decision may affirm, modify, or set aside, in whole or in part, the recommended findings, decision of the presiding officer. The Director may also remand the hearing record to the officer for a fuller development of the record.

(b) The Director's decision shall include:

(1) A statement containing a description of the history of the proceeding;

(2) Findings on the issues of fact with the reasons therefor; and

(3) Rulings on issues of law.

(c) The Director's decisions shall be published in the FEDERAL REGISTER. If the waiver is approved, the final adopted regulations shall be promulgated with the decision, to become effective upon publication.

[FR Doc.75-4047 Filed 2-10-75;10:59 am]

PART 33—SPORT FISHING

Upper Souris National Wildlife Refuge, North Dakota

The following special regulation is issued and is effective February 13, 1975.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

NORTH DAKOTA

UPPER SOURIS NATIONAL WILDLIFE REFUGE

Sport fishing on the Upper Souris National Wildlife Refuge, North Dakota, is permitted only on the areas designated by signs as open to fishing. These open areas comprise 7,000 acres and are delineated on maps available at refuge headquarters and from the office of the Area Manager, U.S. Fish and Wildlife Service, P.O. Box 1897, Bismarck, North Dakota 58501. Sport fishing shall be in accordance with all applicable State laws and regulations subject to the following special conditions:

(1) Refuge areas shall be closed to the taking of fish from March 24, 1975 thru May 2, 1975. Refuge areas shall be open to the taking of fish from May 3, 1975 thru March 21, 1976. Boat fishing shall be permitted only from May 3, 1975 thru September 30, 1975.

(2) The use of once frozen smelt, perch eyes and commercially pickled minnows is permitted.

(3) One outboard motor of not more than 10 horsepower may be attached to any boat or floating craft and is to be used for fishing purposes only. Speed limit on the Souris River above the Mouse River Park not to exceed five miles per hour.

(4) Fish houses and vehicles will not be permitted on river areas below the Lake Darling dam.

(5) Operation of snowmobiles within the refuge boundaries is prohibited.

(6) Refuge is open to public use between the hours of 5 a.m. to 10 p.m. daily.

(7) Fish houses must be removed from the refuge no later than March 7, 1976.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Part 33, and are effective through March 21, 1976.

DON R. PERKUCHIN,
Refuge Manager, Upper Souris National Wildlife Refuge, Foxholm, North Dakota.

FEBRUARY 5, 1975.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 18]

MARINE MAMMALS

Regulations To Waive Moratorium

This proposal contains regulations to implement sections 101 and 103 of the Marine Mammal Protection Act of 1972 (hereinafter referred to as "the Act"), by waiving the moratorium on the taking and importing of Pacific walrus (*Odobenis rosmarus*). A separate rulemaking at 40 FR 6661 establishes hearing procedures for an agency hearing on the substantive issues raised in this proposal.

Section 101 of the Act establishes a moratorium on the taking and importing of marine mammals. Under certain conditions, which are set out in section 101(a)(3)(A), the moratorium can be waived for any given species of marine mammal. The waiver is to be accompanied by regulations for the conservation of the species in question, issued pursuant to section 103 of the Act.

Section 109 of the Act preempts State laws and regulations relating to the taking of marine mammals within the State's jurisdiction. That section also provides for the reinstatement of State laws and regulations which provide for the conservation of marine mammals consistent with the Act and any applicable regulations.

Since the inception of the Act, neither of these provisions has been utilized. Thus, all marine mammals have been subject to strict Federal rules prohibiting all taking and importation, with the few exceptions, such as subsistence and handicrafts used by certain Indians, Aleuts and Eskimos, provided by the Act.

Based on scientific and other evidence available to it, the Fish and Wildlife Service has determined that certain marine mammals, specifically the Pacific walrus, can and should be conserved on the basis of a management regime other than a strict moratorium on taking and importation. Based on a longstanding request from the State of Alaska, and on communications with other States, the Fish and Wildlife Service has also determined that in many instances, the States have the primary interest and expertise in conserving marine mammals consistent with the Act, and the capability of implementing such conservation programs.

The regulations in this proposal are written pursuant to section 103 of the Act to provide for those situations where it is appropriate to waive the moratorium under section 101, and a State can provide a conservation program under section 109 to manage the populations in question, consistent with the Act. These regulations do not cover the circumstance where a waiver of the moratorium is appropriate, but the Federal Government alone would establish and implement the particular conservation regime. That situation would be handled with separate regulations under section 103 of the Act.

DESCRIPTION OF THE PROPOSAL

I. Regulations for a cooperative State-Federal conservation program.

The first item in the proposal would establish a new subpart F in Part 18, Title 50, Code of Federal Regulations, providing standards and procedures for Federal waivers of the moratorium to be implemented by State regulations. This is essentially a refinement of the existing regulations in § 18.4 for the approval of State laws and regulations. However, this new subpart is specifically designed for a cooperative State-Federal management system for marine mammal resources.

In §§ 18.51 through 18.53, the proposal requires two simultaneous events in order to trigger a waiver of the moratorium:

(1) A decision by the Director that a waiver of the moratorium is appropriate; and

(2) The submission of State laws and regulations constituting a proper management regime for the marine mammals in question.

When both of these conditions have been met, the approval of the State laws and regulations pursuant to section 109 of the Act activates the waiver of the moratorium.

Section 18.54 describes the procedures for both the initial and the continuing approval of State laws and regulations. It provides for FEDERAL REGISTER notice to the public of the Director's approval of State laws and regulations, a description of the management regime established by the State, and the extent of the waiver of the moratorium. It also provides for Federal adoption of approved State laws and regulations. This will provide effective management of the population in question even if the taking occurs beyond the State's jurisdictional area.

Section 18.55 provides the criteria for the approval of State laws and regulations. These criteria have been designed to assure that all appropriate biological and ecological factors have been taken into account, consistent with the basic policies and goals of the Act.

Section 18.56 establishes machinery for an annual review of the State program (or more often if necessary). Working together, this section and the preceding sections provide for State management of certain marine mammal resources, under Federal guidelines and review. This system will have the following advantages:

(1) The States will actually manage the resource; generally, the States have the interest, expertise and capability to carry out proper oonservation programs;

(2) The State conservation program must meet Federal standards;

(3) The State program will be under continual Federal review;

(4) Implementation of a State program will be preceded by a Federal waiver of the moratorium.

The Fish and Wildlife Service believes that this system provides the best combination of State and Federal capabilities, while meeting the objectives of the Act for conservation of marine mammals. It is consistent with the program for cooperative agreements with States under the Endangered Species Act of 1973, which likewise encourages State action under Federal guidelines. As stated above, this does not eliminate the possibility of a Federal management regime for certain marine mammal populations under appropriate circumstances. It simply provides for those occasions when a State desires to establish a marine mammal conservation program.

Section 18.57 establishes certain norms for enforcement, and certain Federal rules. These will assure the effectiveness of the particular approved conservation program.

For public convenience and clarity, § 18.58 will contain a list of all waivers of the moratorium, and of all States which have approved programs.

II. Consequential changes in the basic marine mammal regulations.

The second item in this proposal would make consequential changes in § 18.23, which relates to the taking of marine mammals by certain Indians, Aleuts and Eskimos. If the State laws and regulations regarding walrus become effective, certain Federal restrictions on the transfer of parts or products of walrus will no longer be necessary. This is based on the State's ability to control any illicit trade in such items as raw walrus ivory, thereby avoiding an incentive to take more walrus than appropriate.

NOTICE OF AVAILABILITY OF ALASKA'S REGULATIONS ON PACIFIC WALRUS AND SECTION 103(d) STATEMENT

The State of Alaska has proposed a conservation program for the Pacific walrus. The Director has determined that consideration of a waiver of the moratorium is appropriate under section 101(a)(3)(A) of the Act, and has made a preliminary determination that Alaska's laws and regulations meet the standards for approval under such a waiver, as set forth in this proposal.

The Alaska laws and regulations are available for inspection at the dockets section of the Office of Hearings and Appeals, U.S. Department of the Interior, 4015 Wilson Blvd., Arlington, Virginia 22203. Copies may be obtained by writing to the Director (MNB), U.S. Fish and Wildlife Service, Washington, D.C. 20240.

The statements required by section 103(d)(1)–(4) are discussed in detail in an environmental assessment which is available for inspection and copying at the above location. A summary of those four statements follows:

1. *Population status of the Pacific Walrus (Odobenus rosmarus).*

The population of the Pacific walrus, prior to the advent of American whaling, was estimated to have been 200,000 animals. Soviet and American estimates indicate a population of about 50,000 in the 1930's, and it seems unlikely that it ever went much below that level, although several investigators indicate that it may have. In 1963 the population was estimated at about 90,000 animals and at present it is about 140,000 to 160,000 animals.

Productivity (the rate of production) can be expected to decrease as the population nears its optimum sustainable level. There is evidence this is occurring at the present.

2. *Erpected impact of the proposed regulations on the optimum sustainable population of Pacific Walrus (Odobenus rosmarus).*

The effect of the proposed regulations will be to allow sport taking of walrus. This harvest will be less than fifty animals and no substantial effect upon the optimum sustainable population of Pacific walrus is expected.

3. *Evidence before the Secretary upon which he has based his regulations.*

The Secretary's evidence for such regulations is 1 and 2 summarized above, and a management plan based upon sound principles of resource management which will again allow the utilization of this resource more fully for its esthetic, recreational and economic benefits.

4. *Studies or Recommendations Made by or for the Secretary or the Marine Mammal Commission*

No known recommendations have been made by or for the Secretary or the Marine Mammal Commission. The Secretary conducted a walrus survey in late summer, 1974 to determine seasonal distribution of walrus in the Bering and Chukchi Seas. However, the vagaries of arctic weather and equipment problems did not allow the collection of sufficient data upon which to base valid population estimates. The last valid statistics from which population estimates could be projected were collected in 1972. Those data indicated a walrus population of about 140,000 animals at that time.

PROCEDURES FOR THE WAIVER AND THIS PROPOSAL

Section 103(d) of the Act requires opportunity for a hearing on the Director's determination to waive the moratorium, and on the regulations contained in this proposal. As mentioned above, regulations governing such a hearing have been published at 40 FR (6661). These regulations constitute a new Subpart G in Part 18, 50 CFR. All persons wishing to participate in the hearing procedure should read those regulations carefully, and follow the procedures set forth.

After the hearing, and following review of the recommended decision, the Director will, if appropriate, publish these regulations as final rules, make a final determination to waive the moratorium, and approve Alaska's laws and regulations pursuant to section 109 of the Act and § 18.54 of the proposal.

The notice of availability of Alaska's laws and regulations, and of the statement required by section 103(d), incorporated herein, meets the requirements of the Act and of § 18.54(c) of the proposal. Therefore, when the proposal, the waiver, and the State program are acted upon, as described in the previous paragraph, all procedural requirements will have been complied with.

NOTICE OF PROCEDURAL MATTERS

1. Notice is hereby given of intent to hold a hearing, if requested, regarding the proposed waiver and regulations. Such hearing is scheduled for March 19–22, 1975, to be held in Anchorage, Alaska at a time and place to be announced at the prehearing conference. A second phase of this hearing will be held in Washington, D.C., if deemed appropriate and necessary by the presiding officer.

2. Notice is hereby given of a prehearing conference to be held on March 3, 1975, beginning at 9:30 a.m. at the following location:

Hearing Room C, 12th Floor, 4015 Wilson Blvd., Arlington, Va. 22203.

3. The Presiding Officer is hereby designated to be:

Administrative Law Judge Joseph B. Kennedy. Address: Same as above. Telephone: 703–557–9200.

4. All communications and correspondence relating to this matter must be entitled as follows:

In re waiver of moratorium on walrus.	MMPA Docket No. Wash. 75–1.

5. All persons interested in participating in this proceeding must notify the presiding officer by February 26, 1975, of their intention to participate, their request for hearing, and must submit what issues of fact and law they deem necessary to be determined. Such notification must be by certified mail.

Dated: February 10, 1975.

LYNN GREENWALT,
Director,
Fish and Wildlife Service.

Accordingly, it is hereby proposed to amend Part 18, Subchapter B of Chapter I, Title 50 of the Code of Federal Regulations, as follows:

1. In the table of sections, a new subpart F is added, reading:

Subpart F—Waiver of the Moratorium; State Laws and Regulations

Sec.
18.51 Purpose of regulations.
18.52 Scope of regulations.
18.53 Effective waiver of the moratorium.
18.54 Approval of State laws and regulations.
18.55 Approval of State laws and regulations—criteria.
18.56 Review of approved State laws and regulations.
18.57 Enforcement.
18.58 List of species waivers and States approved species.

2. Section 18.32 is added to read as follows:

§ 18.32 Waiver of the moratorium.

"See subpart F (waiver of the moratorium; State laws and regulations) for procedures regarding waivers of the moratorium in those circumstances where a State provides an acceptable management regime for the species in question."

3. A new subpart F is added, reading as follows:

Subpart F—Waiver of the Moratorium; State Laws and Regulations

§ 18.51 Purpose of regulations.

The regulations contained in this subpart fulfill the requirements of sections 101, 103, and 109 of the Act for regulations to implement a waiver of the moratorium in those circumstances where a State provides an acceptable management regime for the species in question.

§ 18.52 Scope of regulations.

(a) The provisions in this subpart apply only when the Director has made a decision to waive the moratorium, and when a State has requested a determination from the Director, pursuant to section 109(a)(2) of the Act, that the State's laws and regulations relating to the protection and taking, within its jurisdiction, of any species or population stock of marine mammals, are consistent with the waiver of the moratorium, the Act, and the regulations in this subchapter which apply to such species or population stocks. The provisions set forth standards and criteria for such determination by the Director and for subsequently waiving appropriate sections of the Act.

(b) These regulations apply to all taking of marine mammals and to importation subsequent to such taking except taking for scientific research, for public display, and incidental to commercial fishing operations.

§ 18.53 Effective waiver of the moratorium.

(a) The Director may make such waivers of the moratorium, pursuant to the procedures established in the Act, as he deems appropriate. Such waivers shall be

XUM
V40-31 FEB 13 75 F
XUM

published as notices in the FEDERAL REGISTER.

(b) When a waiver so indicates by its terms, it shall not be effective until the Director has approved the relevant State laws and regulations pursuant § 18.54.

(c) State laws and regulations in any State where a waiver of the moratorium is in effect pursuant to paragraph (b) of this section must be reviewed annually. If they are subsequently disapproved, pursuant to § 18.56, the moratorium is deemed to be in effect until such time as the State makes the necessary changes to gain approval.

(d) In order to be lawful, all activities conducted pursuant to a waiver of the moratorium which would otherwise be prohibited by subpart B of this part must be conducted in strict accordance with such approved State laws and regulations.

§ 18.54 Approval of State laws and regulations—procedures.

(a) Any State may request a determination that its laws and regulations are consistent with the Act and the regulations in this part; and may request a waiver of the appropriate portions of the Act in order to allow such laws and regulations to take effect.

(b) The request must be submitted in accordance with § 18.4(c) of this part.

(c) The Director issues a notice of consideration of these regulations, together with a notice of availability of the substantive ecological and biological statement required by section 103(d) of the Act.

(d) The Director may approve such State laws and regulations if:

(1) They implement a waiver of the moratorium; and

(2) They meet the criteria prescribed in § 18.55 of these regulations.

(e) Upon approval, the Director shall issue a notice in the FEDERAL REGISTER stating such approval, briefly summarizing the management regime established by the State laws and regulations, stating which sections of the Act are waived in order to allow such State laws and regulations to take effect, and the date of submission of the State's annual report.

(f) Any modifications, amendments, deletions or additions to laws or regulations previously approved shall be deemed to be new laws and regulations for the purposes of these regulations and shall require review and approval by the Director pursuant to paragraphs (a) through (d) of this section before their adoption.

(g) All determinations by the Director shall be final.

(h) If the Director has approved State laws and regulations pursuant to this subpart, such State regulations shall be adopted as Federal regulations, and may be enforced concurrently by the Federal Government.

§ 18.55 Approval of State laws and regulations—criteria.

Any State which applies to the Director for approval of its laws and regulations pursuant to § 18.54 must demonstrate, to the Director's satisfaction, that such laws and regulations:

(a) Provide a comprehensive management regime for the marine mammals in question;

(b) Establish a regime which is based on the best available data on the relevant marine ecosystem and the role of the marine mammals in question in that ecosystem;

(c) Establish a regime which is consistent with the primary goal of the Act, that is to maintain the health and stability of the marine ecosystem;

(d) Establish a regime which will allow the stock of marine mammals in question to expand, to remain at, or to be reduced to the level at which it can be supported by the habitat on a sustained basis, unless the State can show that some other population level more properly maintains the health and stability of the marine ecosystem;

(e) Provide appropriate maximum quotas and seasons, whenever a taking or importation is proposed, unless the State can show that it is consistent with these criteria to have no quota or season;

(f) Establish quotas, seasons, and other allowances and restrictions in accordance with the following factors:

(1) The seasonal distribution of populations

(2) Segregation within populations by sex and age

(3) Discreteness of populations

(4) Population density

(5) Critical periods in the species life cycle

(6) Critical habitat areas

(7) Productivity of the population

(8) Species interactions

(9) Percentage of retrieval by hunters

(10) Maximization of the utilization of the species

(11) Other uses of the species, such as recreational use or incidental catch

(12) Enforceability of the limitations

(g) Contain suitable limitations on the means and methods of taking which assure that taking will be by humane means and will maximize the utilization of each animal taken;

(h) Contain provisions for significant public participation within the State in the process of making the rules in question.

(i) Meet the criteria specified in § 18.4 (d) of this part, to the extent such criteria may differ from those prescribed in this section.

§ 18.56 Review of approved State laws and regulations.

(a) All State laws and regulations which have been approved shall be reviewed annually, unless a major modification indicates that an earlier review is appropriate.

(b) In order to facilitate such a review, each State having approved laws and regulations must submit an annual report containing the following information current for each reporting period:

(1) Any changes in the State laws or regulations;

(2) Any new data on the marine mammal stocks or the marine ecosystem in question;

(3) All available harvest data;

(4) A summary of all research activity on the stocks or ecosystem in question;

(5) Any changes in the information provided with the original request for approval;

(6) A summary of all enforcement activity, including permits issued, skins sealed, reports under permits, investigations undertaken and their dispositions;

(7) Present budget and staffing level for the marine mammal activities;

(8) Any other information which the Director may request, or which the State deems necessary or advisable.

(c) Each State having approved laws and regulations shall file a special report within 30 days whenever any of the following information is available:

(1) A proposed change in a relevant State law or regulation (amendments, repealers, or new legislation or regulations); or

(2) A significant natural or man-made occurrence affecting the marine ecosystem or the stock in question; or

(3) An apparent over-harvest or other significant violation of the State management regime.

(d) On the basis of reports by the States, and any other information available to him, the Director shall, in consultation with the Marine Mammal Commission, determine whether or not the State laws and regulations continue to meet the criteria specified in § 18.55 of this subpart.

(e) If the Director tentatively disapproves any such State laws and regulation, he shall notify the State of his disapproval, along with his reasons therefor.

(f) The State shall have 90 days in which to discuss the tentative disapproval with the Director and make such changes as are agreed upon. The Director shall make the final decision at the expiration of the 90-day period. If the State laws and regulations are disapproved, the moratorium resumes in effect, and the waiver of portions of the Act is voided.

§ 18.57 Enforcement.

(a) The appropriate official in each State shall utilize such methods as he deems appropriate to assure to the maximum extent practicable that the quotas, seasons and other limitations in approved State laws and regulations are not exceeded.

These methods may include, but are not limited to, patrols, surveillance, investigation, permit records-keeping and reporting requirements, and tagging and marking requirements.

(b) The hides or skins of marine mammals taken pursuant to approved State laws and regulations, and tanned commercially, must be tanned at a tannery registered pursuant to this part. Lists of such tanneries may be obtained from agents of the Service.

(c) Any seals attached by State officials under approved State laws and regulations must remain affixed until removed for tanning.

(d) Permits granted for scientific research and public display pursuant to section 101 of the Act, shall be conditioned upon the issuance of a permit for the activity in question or concurrence by the State if such State has approved laws and regulations.

§ 18.58 List of species waivers and States approved. [Reserved]

4. Amend § 18.23 by redesignating the existing subsections (c) and (d) as subsections (d) and (e), respectively, and a new subsection (c) is added, reading as follows:

§ 18.23 Native exceptions.

• • • • •

(c) The restrictions in subsection (b) shall not apply to parts or products of the Pacific walrus (*Odobenis rosmarus*) if a waiver of the moratorium and approval of State laws and regulations regarding that species are in effect, as indicated by listing in § 18.58.

Office of the Secretary

[41 CFR Part 114]

UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES

Notice of Proposed Rulemaking

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 and section 213 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. 91-646, 84 Stat. 1894, 1900, 42 U.S.C. 4601, 4633, it is proposed to amend Chapter 114, Title 41, of the Code of Federal Regulations as set forth below.

The Department of the Interior published final regulations implementing Pub. L. 91-646 in the FEDERAL REGISTER on February 9, 1973 (38 FR 3965).

The significant amendments proposed herein will incorporate into the Department's regulations certain of the differences identified in the various Federal agency regulations and which have been agreed to by the interagency Relocation Assistance Implementation Committee Working Group organized to resolve such differences.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections regarding the proposed amendments to the Office of Management Services, Office of the Secretary, 18th and C Streets NW, Washington, D.C. 20240 on or before March 17, 1975.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

FEBRUARY 5, 1975.

Subpart 114-50.1—General

It is proposed to amend Part 114-50 as follows:

1. Section 114-50.111 is redesignated as § 114-50.112, sections 114-50.100, 114-50.101, and 114-50.107-2, are revised and a new § 114-50.111, is added as set forth below:

§ 114-50.100 Purpose.

These regulations prescribe policies and procedures to insure the fair, equitable, and uniform treatment of persons displaced by Federal and federally assisted programs. They implement the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, hereinafter referred to as the Act, and General Services Administration Guidelines. All references in these regulations to sections or subsections are references to sections or subsections of the Act.

§ 114-50.101 Adjudication of claims.

Any claims made under these regulations and the Act shall be adjudicated on the basis of the regulations in effect when the claim was filed.

§ 114-50.107-2 Forms used for filing applications for benefits.

Department of the Interior Forms DI-380 and DI-381, "Application for Reimbursement, Moving and Related Expenses Under Act of January 2, 1971," and instructions for their preparation, Forms DI-380a, and DI-381a, are prescribed for use by all Bureaus and Offices.

§ 114-50.111 Withholding from relocation payments.

To insure equitable treatment, no displaced person is to have a relocation payment withheld or amounts deducted therefrom (including closings in escrow) to satisfy claims or obligations to others, including the acquiring agency. Moving costs and relocation payments are intended to lessen the impact of the forced relocation and to permit satisfactory relocation into decent, safe, and sanitary housing. Other legal remedies are available to the displacing Bureau or Office to satisfy the displacee's credit obligations rather than withholding amounts from relocation payments.

Subpart 114-50.2—Definitions

2. In § 114-50.201, paragraphs (b), (d) (4), and (g) are revised to read as follows:

§ 114-50.201 Definition of terms.

• • • • •

(b) *Bureaus and Offices.* Means the following agencies of the Department of the Interior:

(1) Fish and Wildlife Service.
(2) Bureau of Mines.
(3) Bureau of Indian Affairs.
(4) Bureau of Land Management.
(5) Bureau of Reclamation.
(6) Bureau of Outdoor Recreation.
(7) National Park Service.
(8) Geological Survey.
(9) Bonneville Power Administration.
(10) Southeastern Power Administration.
(11) Southwestern Power Administration.
(12) Alaska Power Administration.
(13) Office of Water Research and Technology.
(14) Office of Coal Research.
(15) Mining Enforcement and Safety Administration.

• • • • •

(d) • • •

(4) Located in an area not generally less desirable than the one in which the acquired dwelling is located with respect to:

• • • • • •

(g) *Displacing agency.* A Bureau or Office in the case of a direct Federal project or a State agency, as defined in the Act, in the case of a project receiving Federal financial assistance.

• • • • •

Subpart 114-50.4—Relocation Assistance Advisory Services

3. In § 114-50,403, paragraphs (a) and (b) are revised to read as follows:

§ 114-50.403 Coordination of planned relocation activities.

• • • • •

(a) Bureaus and Offices causing displacement shall:

(1) Consult with the appropriate field office of the Department of Housing and Urban Development within the jurisdictional area concerning the availability of housing;

(2) Provide the Housing and Urban Development field office with information regarding the projects which will cause displacement; and

(3) Designate at least one representative who will meet periodically with representatives of other Interior Bureaus and other Federal agencies causing displacement in the community to review the impact of their respective programs on the community or area.

(b) A directory of the Department of Housing and Urban Development field offices is contained in Appendix I to this subpart. The Department of Housing and Urban Development will maintain this directory on a current basis and furnish updated copies upon request.

4. Existing § 114-50.407-3 is redesignated as § 114-50.407-4 and new § 114-50.407-3 is added as set forth below:

§ 114-50.407-3 Additional sources of advisory services.

The following additional sources of advisory services may be available in the project area and should be considered and utilized whenever practicable:

(a) *Veterans Administration (VA).* The Veterans Administration maintains a housing counseling service and a displaced persons priority program for providing VA owned housing to displaced persons. These services may be made available to persons displaced by Federal and federally assisted programs and the

XUM
V40-31 FEB 13 75 XUM

local VA Loan Guarantee Office should be contacted.

(b) *Small Business Administration.* The Small Business Administration provides technical and loan counseling services for small businesses. A displaced businessman should be advised of these services.

(c) *Department of Agriculture.* The Department of Agriculture provides many services through its direct action farmer assistance programs, activities in rural nonfarm communities, and also urban communities of under 10,000 population. Coordination with the Farmer's Home Administration, Department of Agriculture is recommended when a farm operation is displaced.

(d) *Local governmental organizations.* Local governmental organizations and agencies may have rent supplement, public housing, or related relocation assistance programs which may be utilized to provide housing for the occupants displaced from a project. Local programs should be utilized where they exist. The use of local non-governmental associations may also be used in helping a displaced person. Local real estate boards, apartment owners associations, home builders associations, and other organizations may provide information and services that will help obtain comparable replacement housing for displaced persons and suitable replacement sites for displaced businesses. Also, many States have veterans' organizations which offer services to veterans. The availability of such State organizations should be ascertained and utilized.

Subpart 114–50.4—Relocation Assistance Advisory Services

* * * * *

5. A revised Appendix I to Subpart 114–50.4 is provided to reflect a current listing of the Department of Housing and Urban Development filed office jurisdictions.

APPENDIX I

FIELD OFFICE JURISDICTIONS

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

REGION I

Regional Administrator, James J. Barry,
Rm. 800, John F. Kennedy Federal Building,
Boston, Massachusetts 02203,
Tel. (617) 223–4066.

AREA OFFICES

Connecticut, Hartford 06105,
999 Asylum Avenue,
Tel. (203) 244–3658,
Area Director: Lawrence L. Thompson.

Massachusetts, Boston 02114,
Bulfinch Building,
15 New Chardon Street,
Tel. (617) 223–4111,
Area Director: M. Daniel Richardson, Jr.

New Hampshire, Manchester 03101,
Davison Building,
1230 Elm Street,
Tel. (603) 669–7581,
Area Director: Crosley S. Buchanan.

Insuring Offices

Maine, Bangor 04401,
Federal Building and Post Office,
202 Harlow Street,
Post Office Box 1357,
FTS Tel. (207) 942–8271,
Commercial Number: 942–8271,
Director: Wayne M. Johnson.
Rhode Island, Providence 02903,
330 Post Office Annex,
Tel. (401) 528–4351,
Director: Charles J. McCabe.

Vermont, Burlington 05401,
Federal Building,
Elmwood Avenue,
Post Office Box 909,
FTS Tel. (802) 863–6274,
Commercial Number: 863–6501,
Director: Leslie E. Snow.

REGION II

Regional Administrator, S. William Green,
26 Federal Plaza, Room 3541,
New York, New York 10007,
Tel. (212) 264–8068.

AREA OFFICES

New Jersey, Camden 08103,
The Parkade Building,
519 Federal Street,
FTS Tel. (609) 963–2301,
Commercial Number: 963–2541,
Area Director: Philip G. Sadler.
New Jersey, Newark 07102,
Gateway 1 Building,
Raymond Plaza,
Tel. (201) 645–3010,
Area Director: James P. Sweeney.
New York, Buffalo 14202,
Grant Building,
560 Main Street,
Tel. (716) 842–3510,
Area Director: Frank D. Cerabone.
New York, New York 10007,
120 Church Street,
Tel. (212) 264–2870,
Area Director: Joseph D. Monticciolo (Acting).

Commonwealth Area Office

Puerto Rico, San Juan 00936,
255 Ponce de Leon Avenue,
Hato Rey, Puerto Rico,
Mailing Address:
G Post Office Box 3869,
San Juan, Puerto Rico.
FTS Tel. (Dial 202–967–1221—ask operator for 6220201; from Washington, D.C.—dial Code 106—ask operator for 622–0201).
Commercial Number: 809–765–0404,
Area Administrator: Jose E. Febres Silva (Acting).

Insuring Offices

New York, Albany 12206,
Westgate North,
30 Russell Road,
Tel. (518) 472–3567,
Director: Robert J. Wolf (Acting).
New York, Hempstead 11550,
175 Fulton Avenue,
Tel. (516) 485–5000,
Director: Michael Leen (Acting).

REGION III

Regional Administrator, Theodore R. Robb,
Curtis Building,
6th and Walnut Streets,
Philadelphia, Pennsylvania 19106,
Tel. (215) 597–2560.

AREA OFFICES

Subpart 114–50.5—Assurance of Adequate Replacement Housing Prior to Displacement

6. The introductory paragraph of § 114–50.500 is revised to read as follows:

§ 114–50.500 Determination of availability of replacement housing.

Bureaus and Offices shall not proceed with any phase of any project or authorize a State agency to proceed with any phase of a project which will cause the displacement of any person until it has determined, or received satisfactory assurances from the displacing State agency that, within a reasonable period of time prior to displacement, decent, safe, and sanitary housing as defined in 114–50.201(e) will be available on a basis consistent with the requirements of title VIII of the Civil Rights Act of 1968 (Pub. L. 90–284) and the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), in areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means of the families and individuals being displaced. Such dwellings are to be equal in number to the number of, and available to, persons being displaced who require dwellings and reasonably accessible to their places of employment.

• • • • •

Subpart 114–50.7—Payments in Lieu of Moving and Related Expenses

7. Sections 114–50.702, 114–50.702–1, and 114–50.703 are revised to read as follows:

§ 114–50.702 Displaced farm operation.

A person displaced from his farm operation, as defined in Section 114–50.201(k), may elect to receive a fixed payment of not less than $2,500 nor more than $10,000 in lieu of actual moving expenses in accordance with the same criteria established for a person displaced from a business in Section 114–50.703. Such a payment may be made to the displaced operator of a farm operation only if the acquiring Bureau or Office determines that the farm operator has discontinued his entire farm operation at the present location or has relocated the entire farm operation.

§ 114–50.702–1 Farms—Partial taking.

In the case of a partial taking, the operator will be considered to have been displaced from a farm operation if:

(a) The part taken met the definition of a farm operation prior to the taking and the part remaining does not; or

(b) The taking caused the operator to be displaced from the farm operation on the remaining land; or

(c) The taking caused such a substantial change in the nature of the existing farm operation as to constitute a displacement.

NOTE: If application of the above criteria obviously creates an inequity in any given case, the head of the Bureau or Office may approve the use of other criteria as determined appropriate.

§ 114–50.703 Displaced business.

(a) A person displaced from his business, as defined in Section 114–50.201(c)(1), (2), and (3), may elect to receive a fixed payment of not less than $2,500 nor more than $10,000 in lieu of actual moving and related expenses, *provided* that, the displacing Bureau or Office determines that, during the two taxable years prior to displacement, or during such other period as the head of the Bureau or Office determines to be more equitable, the business:

(1) Had average annual gross receipts of at least $2,000 in value; or

(2) Had average annual net earnings of at least $1,000 in value; or

(3) Contributed at least 33⅓ percent of the average gross annual income of the owner(s) from all sources, including welfare.

NOTE: If application of the above criteria obviously creates an inequity in any given case, the head of the Bureau or Office may approve the use of other criteria as determined appropriate.

Subpart 114–50.8—Replacement Housing Payment for Homeowners

8. In § 114–50.802–1, paragraph (d) is redesignated as paragraph (e), paragraph (c) is revised and a new paragraph (d) is added as set forth below:

§ 114–50.802–1 Differential payment for replacement housing.

• • • • • •

(c) *Alternate method.* In the event that neither the schedule or comparative methods is feasible, the displacing agency should develop criteria for computing replacement housing payments. In the case of a Federally-assisted program, any alternate method proposed by a State agency should be subject to the prior concurrence of the Bureau or Office administering such program.

(d) The method of determining the replacement housing differential payment shall be selected by the acquiring agency.

Section 114–50.802–2 is revised to read as follows:

§ 114–50.802–2 Interest payment.

Displaced persons shall be compensated for increased interest costs, if any, only if the acquired dwelling was encumbered by a bona fide mortgage. The payment for any increased interest costs including points, incurred by the displaced person, shall be determined in consideration of the following:

(a) The payment shall be equal to the excess in the aggregate interest and other debt service costs of that amount of the principal of the mortgage on the replacement dwelling which is equal to the unpaid balance of the bona fide mortgage on the acquired dwelling, at the time of acquisition, over the remaining term of the mortgage on the acquired dwelling, reduced to discounted present value.

(b) The discount rate shall be the mean annual interest rate paid on savings deposits by commercial banks in the general area in which the replacement dwelling is located.

(c) A "bona fide mortgage" is one which was a valid lien on the acquired dwelling for not less than 180 days prior to the initiation of negotiations. All bona fide mortgages on the dwelling acquired by the displacing agency will be used to compute the increased interest cost portion of the replacement housing payment.

(d) The computation of the payment for increased interest costs will be based on the actual term of the new mortgage or the remaining term of the old mortgage, whichever is the lesser, and the computation will be based on the actual amount of the new mortgage or the unpaid amount of the old mortgage, whichever is the lesser.

(1) Seller's points are not to be included in the interest computation.

(2) The actual interest rate of the new mortgage will be used in the computation.

(3) Purchaser's points and/or loan origination fees will be added to the computed interest payment.

(e) However, the interest payment shall be based on the present value of the reasonable cost of the interest differential, including points paid by the purchaser, on the amount financed not to exceed the amount of the unpaid debt on the acquired dwelling for its remaining term.

(f) The format prescribed in Appendix I to this Subpart 114–50.8 shall be used in the computation of the interest payment.

Paragraph (a) of § 114–50.802–3 is revised to read as follows:

§ 114–50.802–3 Incidental expenses.

(a) The payment for incidental expenses, i.e., the amount necessary to reimburse a displaced person for reasonable costs incurred by him incident to purchase of a replacement dwelling, shall be determined in consideration of such costs as:

• • • • • •

Section 114–50.804 is revised to read as follows:

§ 114–50.804 Advance payment in condemnation cases.

In a condemnation proceeding involving a declaration of taking an advance replacement housing payment may be made to a homeowner if determination of the acquisition price of the acquired dwelling will be delayed pending the outcome of condemnation proceedings. Inasmuch as the exact amount of the replacement housing payment cannot be ascertained until final adjudication of the condemnation suit, a provisional replacement housing payment may be determined based on the displacing agency's offer for the property acquired. No such payment may be made, however, unless the homeowner agrees, in writing, that:

(a) Upon final determination of the condemnation proceeding, the replacement housing payment will be recomputed on the basis of the acquisition price determined by the court:

(b) If the acquisition price as determined by the court is greater than the displacing agency's offer upon which the provisional replacement housing payment was based, the difference up to the extent of the replacement housing payment advanced, shall be refunded (including interest computed at the same rate as that paid by the agency on that portion of the acquisition price above the agency's offer) to the displacing agency; and

(c) If the acquisition price as determined by the court is less than the displacing agency's offer upon which the provisional replacement housing payment was based, the difference shall be paid to the homeowner.

9. A new Appendix 1 is added to subpart 114–50.8;

APPENDIX I

FORMAT

COMPUTATION OF INTEREST PAYMENT

REQUIRED INFORMATION

1. Outstanding balance of mortgage on acquired dwelling	$
2. Outstanding balance of mortgage on replacement dwelling	$
3. Lesser of Line 1 or Line 2	$
4. Number of months remaining until last payment is due for mortgage on acquired dwelling	
5. Number of months remaining until last payment is due for mortgage on replacement dwelling	
6. Lesser of Line 4 or Line 5	
7. Annual interest rate of mortgage on acquired dwelling	%
8. Annual interest rate of mortgage on replacement dwelling (or, if it is lower, the prevailing annual interest rate currently charged by mortgage lending institutions in the general area in which the replacement dwelling is located)	%
9. Prevailing annual interest rate paid on standard passbook savings accounts by commercial banks	%
10. If applicable, any debt service costs on the loan on the replacement dwelling, such as points paid by the purchaser which are not reimbursable as an incidental expense	$

DEVELOPMENT OF MONTHLY PAYMENT FIGURES

A. Monthly payment required to amortize a loan of $_____ (Line 3) in _____ (Line 6) months at an annual interest rate of _____% (Line 7) $_____

B. Monthly payment required to amortize a loan of $_____ (Line 3) in _____ (Line 6) months at an annual interest rate of _____% (Line 8) $_____

C. Monthy payment required to amortize a loan of $_____ (Line 3) in _____ (Line 6) months at an annual interest rate of _____% (Line 9) $_____

CALCULATION OF INTEREST PAYMENT

STEP 1

Subtract A from B	
Monthly payment based on rate for replacement dwelling (B)	$
Monthly payment based on rate for acquired dwelling (A)	$
Result (difference)	$

STEP 2

Divide result (difference) of Step 1 by C (Carry to 6 decimal places)	
Result (difference) from Step 1	$
Monthly payment based on savings rate (C)	$
Result (quotient)	

STEP 3

Multiply outstanding balance of mortgage on acquired dwelling by result (quotient) of Step 2	
Outstanding balance (from Line 3)	$
Result (quotient) of Step 2	×

STEP 4

Add to result (product) of Step 3 any debt service costs on the loan on the replacement dwelling	$
Result (product) of Step 3, 1st mortgage	$
[1] Result (product) of Step 3, 2nd mortgage	$
[1] Sum or difference, as applicable	$
Debt service costs on loan on replacement dwelling (Line 10)	$
Amount of interest payment	$

[1] If there is more than one outstanding mortgage on an acquired dwelling, the discounted value of each mortgage must be determined. To do this, a separate computation is made for each mortgage through Step 3. A consolidated Step 4 is then completed.

Subpart 114–50.9—Replacement Housing Payment for Tenants and Certain Others

10. Section 114–50.900 is revised to read as follows:

§ 114–50.900 Eligibility requirements.

(a) *Displaced tenant or owner-occupant of less than 180 days.* A displaced tenant (including a sleeping room occupant) or owner-occupant of a dwelling

XUM
V40-31
FEB 13 75
XUM

for less than 180 days, is eligible for a replacement housing payment if he actually occupied the dwelling as a permanent abode for not less than 90 days immediately prior to the initiation of negotiations (see § 114–50.201(p)) for acquisition of the property.

11. Section 114–50.902 is revised to read as follows:

§ 114–50.902 Replacement housing payment.

A displaced tenant or owner-occupant of less than 180 days who meets the eligibility requirements of § 114–50.900(a) is eligible for either:

(a) The differential payment necessary to enable him to lease or rent, for a period not to exceed 4 years, a decent, safe, and sanitary dwelling of standards adequate to accommodate such person in areas not generally less desirable in regard to public utilities and public and commercial facilities, and reasonably accessible to his place of employment, but not to exceed $4,000, or

(b) If he purchases and occupies replacement housing within 1 year from displacement, the amount necessary to enable him to make a downpayment, including incidental expenses, on the purchase of a decent, safe, and sanitary dwelling of standards adequate to accommodate such person in areas not generally less desirable in regard to public utilities and commercial and public facilities, but not to exceed $4,000, except that if such amount exceeds $2,000, such person must equally match any such amount in excess of $2,000, in making the downpayment.

12. Section 114–50.903 is amended by the following:

a. Revise the heading to read as follows:

§ 114–50.903 Computation of replacement housing rental differential payment for tenants and certain others.

b. In the seventh line of paragraph (a)(2), the word "shall" is changed to "may".

c. Paragraph (e) is revised to read as follows:

(e) *Limitation.* The amount of the rental replacement housing payment (within the $4,000 limitation) for tenants and owner-occupants who rent instead of purchase replacement housing, shall be computed by subtracting the economic rent of the acquired dwelling from the lesser of:

(1) The amount of rent actually paid for the replacement dwelling; or

(2) The amount determined by the displacing agency as necessary to rent a comparable replacement dwelling.

d. A new paragraph (f) is added reading as follows:

• • • • •

(f) The amount initially established and approved as the rental replacement housing payment shall not be adjusted to compensate for subsequent increases or decreases, if any, in the amount of rent actually paid by the displacee.

13. Section 114–50.904 is deleted in its entirety and the heading is revised to read as follows:

§ 114–50.904 [Reserved]

14. Section 114–50.905 is revised to read as follows:

§ 114–50.905 Computation of replacement housing payment—Purchasers.

(a) The amount of the downpayment shall be the lesser of:

(1) The amount that would be required as a downpayment for financing a conventional loan on a comparable dwelling; or

(2) The amount required as a downpayment for financing of a conventional loan on the replacement dwelling actually purchased.

To the amount determined pursuant to (a)(1) or (a)(2) of this section will be added the amount required to be paid by the purchaser as points and/or origination or loan services fee if such fees are normal to real estate transactions in the area, on the comparable dwelling or the replacement dwelling, whichever is the lesser.

15. Section 114–50.906 is revised to read as follows:

§ 114–50.906 Disbursement of rental replacement housing differential payment.

The amount of the rental replacement housing payment, determined in accordance with § 114–50.903, shall be paid in a lump sum, except that it shall be paid in installments when this method of payment is requested by the displaced person.

Subpart 114–50.10—Federally Assisted Programs

16. Section 114–50.1000 is revised to read as follows:

§ 114–50.1000 Acceptance of real property furnished by a State incident to Federal program.

Whenever real property is acquired by a State agency and furnished as a required contribution incident to a Federal program or project, the Bureau or Office administering the program or project may not accept such property unless the State agency has made all payments and provided all assistance and assurances as are required of a State agency by sections 210 and 305 of the Act. The State agency shall pay the cost of such requirements in the same manner and to the same extent as the real property acquired for such project.

17. Section 114–50.1003 is revised to read as follows:

§ 114–50.1003 Compliance with section 210.

In all cases, State agencies must comply fully with the assurances required by section 210 of the act.

18. Section 114–50.1004 is revised to read as follows:

§ 114–50.1004 Compliance with sections 301 and 302.

A State agency's assurances under section 305 shall be accompanied by a statement indicating the extent to which it can comply with the provisions of sections 301 and 302. In the event a State agency maintains that it is unable to comply fully with any of the prescribed policies, its statement shall be supported by an opinion of the chief legal officer of the State agency. State agencies shall comply with sections 301 and 302 if compliance is legally possible under State law.

19. Section 114–50.1005 is revised to read as follows:

§ 114–50.1005 Inability to provide assurances under section 305.

If a State agency's assurances are accompanied by a statement that it is unable to comply fully with the provisions of section 305, the head of the Bureau or Office administering the Federally-assisted project involved may prescribe procedures setting forth the conditions under which the project will be approved.

20. Section 114–50.1006 is revised to read as follows:

§ 114–50.1006 Assurances not required.

If the federally assisted program or project will not result in either the acquisition of real property or the displacement of persons, a grant, contract, or agreement may be executed with the State agency without regard to such State agencies' ability or inability to provide the assurances required by sections 210 and 305.

21. Section 114–50.1008 is deleted in its entirety.

§ 114–50.1008 [Deleted]

22. Section 114–50.1009 is redesignated as § 114–50.1008 and revised to read as follows:

§ 114–50.1008 Federal share of costs.

The cost to a State agency of providing the payments and assistance required by the regulations in this Part 114–50 shall be included as part of the cost of a program or project for which Federal financial assistance is available to the State agency.

(a) The State agency shall be eligible for Federal financial assistance with respect to such payments and assistance in the same manner and to the same extent as other project or program costs.

(b) No payment or assistance under section 210 or 305 shall be required or included as a program or project cost under this § 114–50.1008 if the displaced person receives a payment required by State law of eminent domain which is determined by the Bureau or Office to have substantially the same purpose and effect as would a payment under this paragraph, and to be part of the cost of the program or project for which Federal financial assistance is available.

(c) Bureaus and Offices may advance to a State agency the Federal share of the cost of any payments or assistance by the State agency pursuant to sections 206, 210, 215, and 305 of the Act, when

they determine that such action is necessary for the expeditious completion of a program or project.

23. Existing § 114–50.1010 is redesignated as § 114–50.1009 and a new § 114–50.1010 is added reading as follows:

§ 114–50.1010 Waiving of benefits.

The following policy shall be observed in connection with those Federally-assisted projects which are funded in part from the Land and Water Conservation Fund:

(a) Whenever a State agency provides that the owner of a single-family residence may, at his option, elect to retain a right of use and occupancy for not less than six months from the date of acquisition of such residence and such owner elects to retain such a right, such owner shall be deemed to have waived any benefits under sections 203, 204, 205, and 206 of the act and for the purposes of these sections, such owner shall not be considered a displaced person as defined in section 101(b) of the Act. (See sec. 2, Pub. L. 93–303, approved June 7, 1974.)

(b) The above policy applies only to those acquisitions which occurred subsequent to June 7, 1974.

(c) Retention of a residence under a use and occupancy agreement must be compatible with the intended use of the project site. Moreover, the appraisal should properly reflect the effect such a retention of use has upon the property's fair market value.

(d) In no case shall a State refuse to pay relocation payments for homeowners who were allowed temporary occupancy while waiting for replacement property.

(e) An owner of a single-family residence who elects to retain a right of use and occupancy for not less than six months from date of acquisition of such residence shall be informed that any benefits to which he may be entitled under sections 203, 204, 205, and 206 of the Act will be deemed to have been waived as a result of such use and occupancy.

24. Existing § 114–50.1012 is redesignated as § 114–50.1011.

Subpart 114–50.12—Annual Report

25. Section 114–50.1200 is revised to read as follows:

§ 114–50.1200 General.

Each Bureau and Office having responsibilities for Federal or federally assisted programs that come within the purview of Public Law 91–646 shall prepare and submit an annual report to the Assistant Secretary-Management, on its activities related to programs and policies established or authorized by the Act. This report, which is required by Section 214 of the Act, shall consist of both a narrative and statistical report.

26. In § 114–50.1200–1, paragraph (g) is redesignated as (f), paragraphs (b), (c)(4), (d), and (e) are revised, and paragraph (f) is deleted in its entirety as set forth below.

§ 114–50.1200–1 Narrative report.

• • • • •

(b) *Bureau or Office actions to achieve objectives of the Act.*

(1) Describe the actions taken by the Bureau or Office to achieve the objectives of the policies of the Congress to provide uniform and equal treatment, to the greatest extent practicable, for all persons displaced by or having real property taken for Federal or federally assisted programs.

(2) Describe the provisions adopted by the Bureau or Office for coordination with other Federal State and local displacing agencies.

(c) • • •

(4) For federally assisted programs administered by your Bureau or Office, enumerate the States not in compliance with the Act on the reporting date. If compliance by any State does not extend to any or all federally assisted programs conducted or administered by the Bureau or Office, the programs excepted should be indicated and an explanation furnished for the basis of the State's inability to comply. In all such instances, indicate the expected date for full compliance by the State.

• • • • •

(d) *Effect of Act on the public.* Describe any indicated effects of the relocation program and policies on the public, reporting conclusions obtained from surveys, special studies, and other sources relating to the effects of implementation of the Act on a neighborhood or community.

(e) *Recommendations.* Furnish your recommendations for further improvement in relocation assistance and land acquisition programs, policies, and implementing laws and regulations. Include any proposals for amendments or revisions to:

(1) General Services Administration Guidelines.

(2) Federal legislation.

(3) State legislation.

• • • • •

27. Section 114–50.1200–3 is revised to read as follows:

§ 114–50.1200–3 Submission.

The annual report shall be prepared on a fiscal year basis and submitted, in duplicate, to reach the Assistant Secretary-Management by not later than September 1 of each year.

28. Appendices 1 and 2 to Subpart 114–50.12 have been revised as follows:

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Airworthiness Docket No. 75-SW-7]

AIRWORTHINESS DIRECTIVES

Rockwell Models 500, 500A, 500B, 500U, 520, 560, 560A, 560E, 560F, 680, 680E, 680F, 680F(P), 720, and 500S Airplanes

Pursuant to a recommendation made by the National Transportation Safety Board, the Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to certain Rockwell Model 500, 600, and 700 series airplanes. The NTSB recommendation resulted from an examination of flight test data regarding the maneuvering stick force characteristics of the Rockwell 500 series airplanes. The NTSB examination concluded that unsatisfactory stick force gradients exist in all Rockwell twin-engine, short fuselage models, including certain 600 and 700 series aircraft.

There have been several fatal accidents which resulted from wing overload failure of an undetermined cause. Low stick forces are characteristic of these airplanes and could contribute to dangerously high "g" loads or high load factors in the aft center of gravity configuration. Because of the fundamental relationship between stick force gradient and load factor, the present force characteristics require improvement to minimize the potential for catastrophic failure under a variety of operating circumstances.

In the interest of safety to improve these flight characteristics and to alleviate the potential danger of inadvertent pilot induced structural failure, the proposed airworthiness directive would require the mandatory compliance with Rockwell International Service Bulletins, Numbers 128, 129, and 136.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or comments as they desire. Communications should identify the docket number and be submitted in triplicate to the Federal Aviation Administration, Regional Counsel, P.O. Box 1689, Fort Worth, Texas 76101. All communications

XUM V40-31 FEB 13 75 XUM

on or before March 17, 1975 will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available both before and after the closing date for comments at the office of the Regional Counsel, Federal Aviation Administration, Southwest Region, Fort Worth, Texas, for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

ROCKWELL. Applies to Models 500, 500A, 500B, 500S, 560U, 520, 560, 560A, 560E, 560F, 680, 680E, 680F, 680F(P), and 720 (prior to Serial Number 3156) airplanes certificated in all categories.

Compliance is required within the next 200 hours' time in service after the effective date of this AD unless already accomplished.

To prevent the potential danger of inadvertent pilot induced structural failure, install "bob weights" in accordance with Commander Aircraft Division, Rockwell International Service Bulletin No. 128, dated November 1, 1973, and Service Bulletins 129 and 136 dated March 22, 1974 (or later FAA approved revision) or an equivalent procedure approved by the Chief, Engineering and Manufacturing Branch, Southwest Region, Federal Aviation Administration, Fort Worth, Texas, unless previously accomplished in accordance with the above service bulletins.

Copies of these bulletins may be obtained by contacting the Service Manager, Commander Aircraft Division, Rockwell International, Bethany, Oklahoma 73008.

Issued in Fort Worth, Texas, on February 5, 1975.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.75-4039 Filed 2-12-75;8:45 am]

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

[29 CFR Part 1601]

706 AGENCIES

Proposed Designation

Pursuant to § 1601.12 (i), Title 29, Chapter 14 to the Code of Federal Regulations as revised and published in the FEDERAL REGISTER, 40 FR 3210M, January 20, 1975, the Equal Employment Opportunity Commission (hereinafter referred to as the Commission) proposes that the agencies listed below be designated as "706 Agencies" (§ 1601.12(c)). There are three (3) purposes for such designation: first, that the agencies receive charges deferred by the Commission pursuant to section 706 (c) and (d) of Title VII of the Civil Rights Act of 1964, as amended; second, that the Commission accord "substantial weight" to the final findings and orders of those agencies pursuant to § 1601.19B (e); and third, to commence the 15-day period within which any person or organization may file written comments as provided for under § 1601.12(i)(1). At the expiration of the 15-day period, the Commission may effect designation of each of the agencies by publishing the list of them as an amendment to § 1601.12(m). Additions to the list may be made by the Commission by similar notice and publication. The proposed "706 Agencies" are as follows:

Maine Human Rights Commission
Maryland Commission on Human Relations
Minneapolis Department of Civil Rights
Missouri Commission on Human Rights
Rhode Island Commission for Human Rights
Rockville (Maryland) Human Rights Commission.

(Sec. 713(a), 78 Stat. 265 (42 U.S.C. 2000e-12 (a)))

Written comments pursuant to this notice must be filed with the Commission on or before February 28, 1975.

Signed at Washington, D.C. this 4th day of February 1975.

JOHN H. POWELL, JR.,
Chairman.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 42]

[Docket No. 20334; FCC 75-73]

TELEGRAPH OR TELEPHONE CARRIERS

Retention of Certain Records

In the matter of amendment of § 42.9 of the Commission's rules and regulations to increase the period required for retention of certain records by telegraph or telephone carriers.

1. Notice is hereby given of proposed rulemaking in the above-entitled matter.

2. Section 415 of the Communications Act of 1934, as recently amended in Pub. L. 93-507, establishes the statute of limitations for actions by carriers for recovery of lawful charges and for action against carriers (1) for recovery of damages not based upon overcharges and (2) for recovery of overcharges at two years from the time the cause action accrues.[1] However, pursuant to § 42.9 of our rules, 47 CFR § 42.9, carriers need not retain records of messages or certain other transactions beyond six months. Therefore, there have been occasions when records have been unavailable to prove or disprove claims made more than six months after the transaction but prior to expiration of the limitation period. Accordingly, we propose that the period for retention of certain telegraph and telephone records be extended from the present six months to the statute of limitations period.

3. We are aware that this rule may impose major storage problems on the carriers, particularly in the storage of copies of telegraph messages. It is our belief, however, that most carriers will find this burden minimized by the use of microfilm and computer media for record storage. § 42.5(a) of the rules, 47 CFR § 42.5(a) permits records to be "reproduced at any time in any generally acceptable media for storage and the reproductions retained in lieu of the original records," provided certain specified safeguards are adhered to. Thus, the hard copy originals need not be retained if a company transfers the records to a reduced size or computer format. Any carrier contending that the proposed requirements will be unduly burdensome from an economic standpoint should include information as the estimated cost of complying with such requirements together with an explanation as to the basis used to develop the estimated cost.

4. Accordingly, we propose to amend certain items in § 42.9 to require the retention by telephone and telegraph carriers of certain records of operations for a period of two years rather than the present six months or one year periods, as provided in the Appendix hereto.

5. We note that certain carrier tariffs limit the liability of that carrier to claims presented within a specified period that is less than the statute of limitations.[2] If the amendments listed in the Appendix hereto are adopted, we expect such tariff notice requirements to be extended to two years, to match the limitation period in section 415 of the Act.

6. Authority for the proposed amendments is contained in sections 4(i) and 220 of the Communications Act of 1934, as amended. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, 47 CFR §1.415, interested persons may file comments on or before March 14, 1975 and reply comments on or before April 1, 1975. Relevant and timely comments will be considered by the Commission before final action in this proceeding. In reaching its decision, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

7. In accordance with the provisions of § 1.419 of the Commission's rules, 47 CFR § 1.419, an original and fourteen copies of all statements, briefs, or comments filed shall be furnished the Commission. Responses will be available for public inspection in the Commission's Public Reference Room at its headquarters in Washington, D.C.

Adopted: January 21, 1975.

Released: February 3, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

In § 42.9, the following items are amended to read as follows:

§ 42.9 List of records.

[1] The previous language of section 415 placed the limitation period at one year.

[2] For example, Western Union Telegraph Company Tariff F.C.C. No. 255, offering Pubing to the Telegraph Company within ninety 2.1.3(A)(6): The Telegraph Company will not be liable for damages or statutory penalties when the claim is not presented in writing to the Telegraph Company within ninety days after the message is filed with the Telegraph Company for transmission.

Item No.	Description of records	Period to be retained
• • •	• • •	• • •
	Operations	
63	Telegrams and other message records of telegraph carriers. (See particularly (§ 42.8.)):	
	a. Telegrams (other than ship messages) and cablegrams:	
	(1) All classes of original filed telegraph and cable messages transmitted at published tariff rates, including transcripts of messages received over telephone for transmission.	2 years.
	(2) Tissue or carbon copies made at destination offices of messages covered by item 63-a-(1).	Do.
	(3) Original filed messages transmitted for transportation carriers in compliance with terms of contracts; also tissue or carbon copies of such messages made at destination offices.	2 years.
	(4) Service messages relating to public messages, including tissue or carbon copies of such messages made at destination offices, and copy or record of advice to customer, as necessary, to complete an individual telegraphic transaction.	Optional.
	(5) Original filed messages transmitted free or at reduced rates for employees and others; also tissue or carbon copies of such messages made at destination offices.	3 years.
	(6) Relay messages, not including those made at connecting line points for transfer to other telegraph communication carriers.	Optional.
	(7) Message tape and similar media for transmitting messages:	
	(a) When used as an original message (e.g., tape from a tape-printer-connected customer).	Same period as for other original messages of similar classes.
	(b) When used as relay copy (i.e., when the original message is otherwise retained).	Optional.
	(8) Stubs of, or carbon copies of, messages received over telephone.	Do.
	b. Ship messages:	
	(1) All classes of original filed ship messages (meaning messages transmitted by maritime mobile stations), transmitted at public tariff rates; also tissue or carbon copies of such messages made at coast and ship destination stations.	2 years.
	(2) Service messages relating to public messages; also tissue or carbon copies of such messages made at coast and ship destination stations.	Do.
	(3) Original filed messages transmitted for ship owners in compliance with terms of contracts (masters' service messages); also tissue or carbon copies of such messages made at coast and ship destination stations.	Do.
	(4) Original filed messages transmitted free or at reduced rates other than those covered by item 63-b-(3); also tissue or carbon copies of such messages made at coast and ship destination stations.	3 years.
	NOTE.—The furnishing of original filed messages to the U.S. Government in support of bills and to transportation carriers in support of settlements under contract shall not be considered a violation of this part.	
	c. Telephone local and toll tickets:	
	(1) Telephone toll tickets, and statements forming basis of charges to subscribers and others.	2 years.
	(2) Uncompleted tickets, lost-call tickets, messenger-service tickets, appointment tickets, and tickets for emergency calls, official calls, and test calls.	Optional.
	(3) Records of receipt of toll tickets, toll statement stubs, toll ticket memoranda, guide cards, and reports and memoranda relative to investigations and correction of tickets.	Do.
	(4) Statements and summaries of measured service tickets and register readings.	2 years.
	(5) Measured service tickets, local message tickets, and register reading tickets or statements if summarized in records covered by item 63-c-(4).	Optional.
	a. (6) Tickets and statements for check error purposes	Do.
64	[Reserved]	
65	Telegraph franks, message passes, and reduced rate coupons (for telephone carriers, see item 78):	
	a. Copies of orders on printer; records of receipts and distribution of franks, etc., and disposition of unused stocks.	6 years.
	b. Records of franks, etc., issued and requests and copies of request therefor.	Do.
	c. Records of franks received from other companies	Do.
	d. Used franks, message passes, and coupons if complete record of issue is maintained as provided in item 65-b.	2 years.
	e. Unexpired, surrendered, or partially used franks, etc.; void, unused, and unissued franks, etc.	1 year after current year.
	f. Reports and records of franks, etc., collected or honored and of free messages handled.	3 years.
	g. Reports of reduced rate messages	Do.
66	Telegraph, cable, and wireless identification cards:	
	a. Records of identification cards issued	Do.
	b. Returned and withdrawn identification cards	1 year after current year.
	c. Unused and unissued identification cards	Do.
67	Transportation carrier passes issued to telegraph carriers:	
	a. Record of or copy of requests for transportation issued free or to reciprocal arrangements.	3 years.
	b. Record of passes received	Do.
	c. Record of pass identification forms issued	Do.
	d. Record of use made of passes	Do.
68	Telegraph carrier receipt and delivery of telegraphic communications:	
	a. Register of messages filed, picked up and delivered, and charge slip memoranda.	2 years.
	b. Messenger delivery sheets and delivery route lists	Do.

XUM
V40-31 FEB 13 75
XUM

Item No.	Description of records	Period to be retained
	c. Call box directories and record of individualized after-hour and special delivery instructions, including unpack of coded addresses.	Optional.
69	Telegraph and cable office reports:	
	a. Records and reports of receipts, expenses, and balances summarized by the offices into monthly or other periodic reports similar in character and detail:	
	(1) Utilized individually as a direct source of entry to subsidiary or general ledgers and required controls.	Permanently.
	(2) Utilized for preparation of journals and for administrative or other statistical purposes.	6 years.
	(3) When further summarized by office groups	3 years.
	b. Summaries of telegraph and cable office reports:	
	(1) Utilized as a direct source of entry to subsidiary or general ledger and required controls.	Permanently.
	(2) Utilized for preparation of journals and for administrative or other statistical purposes:	
	(a) Summaries of revenues and receipts and revenue abatements.	6 years.
	(b) Summaries of disbursements, i.e., voucher distributions.	Permanently.
	c. Schedules supporting reports showing details essential to accounting analysis and for administrative purposes.	3 years.
	d. Record of adjustments of errors with managers, agents, cashiers and other employees for revenue, expense and other items.	Do.
70	Contracts, applications, correspondence, and memoranda relative to establishing, changing, or discontinuing service to customers:	
	a. Telephone carriers:	
	(1) Contracts or agreements (with any related maps or diagrams) with customers covering specially engineered or assembled facilities and equipment or other special service arrangements for which the special charges involved are not specifically stated in tariffs, rate schedules, or other rate authorities.	2 years after completion, expiration, or cancellation of contract or agreement.
	a. (2) Contracts or agreements covering arrangements with service line companies, public telephone and toll station agents, hotel private branch exchanges, and similar contracts related to service to customers.	Do.
	(3) Contracts or agreements with customers covering standard or regular service arrangements for which charges or rates are specifically stated in tariffs or other rate authorities.	2 years after completion of resulting service order or other service authorization.
	(4) Correspondence with customers and memoranda covering customers' service requests, used as basis for service orders or other service authorizations.	Optional after significant data have been transcribed to service orders or other records.
	(5) Contracts, applications, correspondence and memoranda covering customers' service requests that have been canceled, withdrawn, or abandoned.	Optional.
	(6) Contracts or agreements covering customers' deposits	2 years after deposit is refunded, applied to customer's account or otherwise disposed of.
	(7) Contracts or agreements with customers or others for extension of lines or other construction of plant involving refundable deposits, guarantees of revenue, contributions, cost reimbursements, or special termination charges:	
	(a) Refundable deposits, guarantees of revenue, or special termination charges (not specifically stated in tariffs).	2 years after completion or termination of contract or agreement.
	(b) Contributions or cost reimbursements	6 years after retirement of the property to which they relate.
	b. Telegraph carriers: Contracts for private wires, communication systems, time service, use of equipment, stock and other market reports, and other services; also applications utilized as such.	2 years following termination.
71	Records of customers and memoranda of contacts:	
	a. Telephone carriers:	
	(1) Records of uncompleted or held service applications or service orders. (See item 44-d.)	Until service is furnished or application or order is cancelled.
	(2) Service records of customers, including application cards, or other records showing name, address, telephone number, and details of service, maintained for general reference in handling contacts with customers. (See item 76-a for customers' service and equipment records used for billing.)	Optional after record is superseded or service is discontinued.
	(3) Records used for central office information purposes and other records of customers or former customers.	Optional.
	(4) Correspondence and memoranda relative to changes in telephone numbers.	Do.
	(5) Memoranda of contacts relative to collections	As provided for item 25-b.
	(6) Correspondence and memoranda of contacts relative to customers' service requests or inquiries and miscellaneous matters.	Optional after significant data have been transcribed to service or other records.
	b. Telegraph carriers: Service records of customers showing name, address, telephone number, office call, and details of services maintained for general reference.	Optional.
72	Service orders and other billing authorizations:	
	a. Completed service orders and similar records or 3 years copies thereof (see item 44-c-(2)), notices of completion of service orders, restoral of telephone service notices, and other authorizations used as basis for billing to customers and miscellaneous debtors or for entries to records used in such billing. (See items 76-a, 76-b, 76-f and 76-o.)	
	b. Other copies of service orders and similar records	As provided for items 44-a, 44-b, and 44-c.
73	Tickets and other detailed message records of telephone carriers:	
	a. Tickets, lists, or other detailed records of individual toll calls or messages, telegrams and similar messages, and messenger service charges, used as basis for billing to customers.	2 years.
	b. Tickets or other detailed records of local message or measured service usage, including photographs or lists of message register readings:	
	(1) When summarized on other records used for billing covered by item 76-b.	Optional.
	(2) If used for billing without preparation of summary records	2 years.
	c. Tickets, lists, or other detailed records used as basis of accounting for receipts from public or semipublic telephones, covering:	Do.
	(1) Toll calls or messages, telegrams, and similar messages	Optional.
	(2) Local calls or messages	3 months.
	d. Unbillable (including unidentifiable) tickets used in accounting for operating revenues.	

Item No.	Description of records	Period to be retained
	e. Tickets for uncompleted calls and memorandum or other tickets or detailed message records used only for operating or administrative purposes; not as a basis for billing or accounting, including such records used in handling calls, service observation, testing, checking, and the transmission of the carrier's own messages (official business).	Optional.
	f. Tickets covering free or concession service	As provided for item 78-d.
	g. Automatic message accounting tapes, tabulating cards, and similar records:	
	(1) Central office tapes or other automatically produced basic detailed records of message handled.	Optional after data have been transferred to the accounting office media used in processing data.
	(2) Accounting office tapes, tabulating cards, or similar media used in sorting and assembling data from central office tapes or other basic message records and in computing, printing, or otherwise producing printed tickets, statements or other written detailed message records (see items 73-a, 73-b, and 73-c) used for billing and accounting.	Optional after data have been transferred to the media used as a basis for billing and accounting.
	(3) Tapes, tabulating cards, or similar media used only for operating or administrative purposes, not as a basis for billing or accounting.	Optional.
	b. Records of tickets or other message records transmitted to or received from other offices.	Do.
74	Tariffs, rate schedules, and other rate authorities:	
	a. Official (or general) file copy of all tariffs, rate sheets or schedules, or other rate authorities covering services or facilities furnished, together with maps, tables, charts, etc., referred to therein or made a part thereof.	6 years after expiration or cancellation. (See also item 10-a.)
	b. Copies of tariffs, rate sheets or schedules, or other rate authorities maintained at business offices, agencies, etc., for public information or reference.	Until superseded or canceled.
	c. Other copies of tariffs, rate sheets, maps, etc., used in computing or checking charges shown on service orders or other billing authorizations and tables or other records used in computing or quoting message charges, taxes, fractional monthly service charges, etc.	Optional.
	d. Requests and receipts for copies of tariffs, rate sheets, etc., inquiries and copies of replies relative to rates.	Do.
	e. Copy of each concurrence in tariffs or other rate authorities filed with regulatory bodies.	6 years after cancellation or supersedure.
	f. Working papers, rate studies, and memoranda in connection with the compilation of tariffs, rate sheets, etc., or rate proposals published or filed with regulatory authorities.	3 years after rate becomes effective or rate proposal is denied.
	g. Rate studies, cost memoranda, rate proposals and quotations relating to specially engineered or assembled facilities or services for which the special charges involved are not specifically stated in tariffs or other rate authorities.	3 years after charge becomes effective; is superseded or withdrawn, optional.
	h. Rate studies, correspondence and memoranda related thereto not covered by items 74-f and 74-g.	As provided for item 25-b.
75	Customers' deposits with telephone carriers:	
	a. Copy of contracts or agreements covering customers' deposits	As provided for item 70-a(6).
	b. Memorandum stubs, receipts or other records used to report customers' deposits.	As provided for item 77-a.
	c. Card, book, or other continuing record of customers' deposits and related interest.	6 years after deposit is refunded or service is discontinued.
	d. Receipts (including paid voucher checks and voucher drafts) for deposits refunded and for interest paid.	6 years.
76	Customers' billing and other accounts receivable records:	
	a. Record of service and equipment or other continuing record of services or facilities furnished:	
	(1) Used as a basis for billing only	For active accounts, 3 years after record is superseded; for discontinued accounts, 2 years.
	a. (2) Used as a record of location and physical characteristics of plant. (See item 39.)	For active accounts, 3 years after record is superseded; for discontinued services, 6 years after service is disconnected.
	b. Continuing records of telephone local message or measured service usage by individual customers' accounts. (See item 73-b for detailed records.)	2 years after record is superseded or retired from active file.
	c. Continuing settlement records of individual public and semipublic telephone accounts.	Do.
	d. Individual account billing instructions, including local and toll message guide cards and toll billing instruction cards and other office memoranda used in preparing and mailing telephone bills.	Optional.
	e. Records of individual accounts with customers and collectors, including ledgers or records used in lieu thereof such as accounting stubs or copies of bills or statements issued.	2 years after payment or other disposition of account or accounts covered by each stub or other individual record.
	f. Telephone carrier records of accounts with miscellaneous debtors other than customers and collectors, including bill ledgers or copies of bills. (See item 45-a-(9).)	3 years after payment or other disposition of account.
	g. Detailed records of adjustments of customers' accounts, including authorizations for refunds, adjustment vouchers, or other authorizations to correct charges due to errors, service failures, etc.:	
	(1) Telephone carriers	2 years.
	(2) Telegraph carriers	3 years.

XUM
V40-31 FEB 13 75 XUM

Item No.	Description of records	Period to be retained
	h. Uncollectible vouchers or other authorizations for writing off customers' accounts and other records and reports pertaining thereto.	6 years.
	i. Work papers used by telephone carriers in developing estimates of unbilled revenues and accounts receivable.	6 years after estimate is superseded.
	j. Record or register of bills by telegraph carriers and summaries of distribution of credits through bills:	
	(1) If posted direct to general ledger	Permanently.
	(2) If used in preparing journals	3 years.
	k. Telegraph carrier record of installment repayments and balances with individual employees related to company financed loans.	Do.
	l. Work papers used by telegraph carriers in development of estimates of uncollectible charges.	3 years after estimate is superseded.
	m. Copy of complaint incident to suing on uncollected account of telegraph carrier.	10 years after completion of proceeding.
	n. Telephone tickets, original telegrams, or other detailed records of telegraph carriers bearing charge information.	2 years.
	o. Telegraph carrier record of accounts with miscellaneous debtors other than customers, including bill ledgers or copies of bills.	2 years after payment or other disposition of account or accounts covered by each stub or other individual record.
77	Collection reports and records:	
	a. Bill or memorandum stubs representing payments by customers or others, itemized lists, collection notices, coin telephone collection stubs, and other detailed reports or records of collections of revenues, accounts receivable, and miscellaneous cash receipts (including receipts from dining rooms and vending machines):	
	(1) Used as a basis for entries to accounting records and summarized or detailed in daily or other periodic cash reports. (See item 17–a.)	2 years.
	(2) Used as a basis for administrative records or collection treatment of individual accounts.	Optional.
	b. Remittance or transmittal lists or forms (including adding machine tapes) covering records included under item 77–a–(1), used as a basis for entries to accounting records or summaries. (See items 24–c and 25–d.)	3 years.
	c. Coin telephone collection route sheets, records of coin telephone keys, locks and seals, and other records and reports relative to coin telephone collections used for administrative purposes only.	Optional.
	d. Records of individual accounts used only in administration of collections, including records of credit ratings, classifications or investigations. (See item 76–e.)	Do.
	e. Records of credit cards issued	2 years after expiration or cancellation.
	f. Statements or reports of age or status of uncollected accounts	2 years.
	g. Authorizations for payments of telephone customer's account by customer's bank.	Optional after expiration or cancellation.
	h. Correspondence and memoranda relative to collection of revenues or accounts receivable, including requests for explanation of items on bills or status of account and memoranda of investigations thereof, correspondence covering routine or special collection treatment, forwarding addresses for bills, and similar matters:	
	(1) When necessary for a proper or complete understanding of another record.	For period prescribed for the record to which it relates.
	(2) When not so necessary	Optional.
	i. Agreements covering payments of uncollected final accounts	Optional after account is paid or, if uncollectible, 3 years after account is written off.
	j. Interdepartmental notices of bank deposits. (See item 16–a for notices from depositaries).	Optional.
	k. Subsidiary cash records or cash books covering collections of revenues and accounts receivable from customers and others:	
	(1) Used to summarize reports of cash receipts (see items 17–a, 60–a–(2), 77–b, and 81–a) for preparation of journal entries.	6 years.
	(2) Used as detailed records of collections from customers or others.	As provided for item 77–a.
	l. Receipts and other records covering handling and transportation of funds collected; collection office memoranda of collections, deposits, and remittances; and miscellaneous administrative records pertaining to collection of revenues, accounts receivable and miscellaneous cash receipts; not used as a basis for entries to accounting records. (See items 16–a, 17–a, 76–e, and 77–a–(1).)	Optional.
	m. Telegraph carrier interoffice memoranda of individual items collected, together with required accounting controls.	2 years.
78	Free or partially free service by telephone carriers (for telegraph carriers, see item 65):	
	a. Records of individual authorizations, such as franks, issued for free or partially free service.	Until the end of the second calendar year following that in which issued.
	b. Franks or other individual authorizations used, collected, or honored for furnishing of free or partially free service:	
	(1) Authorizations of a continuing nature, e.g., related to monthly service rates.	3 years after expiration or cancellation.
	(2) Authorizations covering only specified messages or other specific charges.	Until the end of the 2d calendar year following that in which used, collected, or honored.

Item No.	Description of records	Period to be retained
	c. Requests for franks and void, unused, or unissued franks, and records thereof.	Optional.
	d. Tickets covering messages handled free or at reduced rates:	
	(1) When significant data (see part 41 of this chapter) thereon are shown on other records.	As provided for items 73–a, 73–b, and 73–c.
	(2) Otherwise	Until the end of the 2d calendar year following that in which prepared.
	e. Adjustment vouchers or other authorizations used to adjust accounts with individuals in accordance with authorizations covered by items 78–a and 78–b.	2 years.
	f. Summaries or reports of free or partially free service:	
	(1) Used for entries to accounts	6 years.
	(2) Used for administrative purposes only	Optional.
79	Taxes collected from customers and others:	
	a. Copies of tax returns and supporting statements filed with taxing authorities.	Such period as may be prescribed by related governmental requirements; otherwise, 6 years after settlement of tax liability.
	b. Special summaries of taxes and related data, used in compiling data for tax returns.	Do.
	c. Lists of other separate detailed records of taxes billed to or collected from individual customers or others.	Such period as may be prescribed by related governmental requirements; otherwise, optional.
	NOTE.—This item does not include message tickets, individual account records, or other records separately provided for in this list of records.	
	d. Certificates or other special records of tax exemptions	Such period as may be prescribed by related governmental requirements; otherwise, optional.
80	Division of revenues or other telephone traffic settlements with communications common carriers (for telegraph carriers, see items 86 and 87):	
	a. Contracts or agreements with other carriers for the interchange or joint handling of business and other traffic arrangements and settlements related thereto, together with associated memoranda, case files, or other records identifying business or property subject to such contracts or agreements.	6 years after expiration, cancellation, or supersedure.
	b. Copy of each concurrence in tariffs or other rate authorities filed with regulatory bodies. (See item 74–e.)	6 years after cancellation or supersedure.
	c. Separation studies of property, revenues, or expenses, including underlying summaries, reports, or work papers prepared therefor, used for divisions of revenues or other settlements.	Until completion of 2d year following study.
	d. General instructions or outlines of procedures used in division of revenues or other settlements.	6 years after cancellation or supersedure.
	e. Division or other settlement statements, including copies of summaries, studies or reports used therefor, covering settlements with other communications common carriers.	6 years.
	f. Summaries or memoranda used in computation of settlements, when results are summarized in records covered by item 80–e.	2 years.
81	Revenue accounting controlling records and summaries of telephone carriers:	
	a. Controlling records and summaries used in preparing journal entries to revenue, accounts receivable, and other accounts, including revenue, cash, transfer and other controls, proof of billing, and other summaries of data for journal entries.	6 years.
	b. Statistical summaries or reports of revenues by accounts or classes of service, geographical subdivisions, etc., used for:	
	(1) Reports to Federal and state regulatory commissions and other governmental authorities.	As provided for item 103.
	(2) Used for administrative or informational purposes and not as a basis for entries to accounts or other records required to be retained for a period specified in this section.	Optional.
82	Sales and servicing administration of telephone carriers:	
	a. Market cards and other basic records of customers or prospects involved in sales and commercial servicing activity.	Do.
	b. Memoranda used in interviews, sales, investigations of customers' service needs and other negotiations with customers, including diagrams, review forms, busy reports, recommendations, etc.	Do.
	c. Prospect lists or slips and other material used in determining prospects for sales or servicing effort.	Do.
	d. Reports, surveys, maps and other records pertaining to studies of markets, sales possibilities, new services, sales and servicing techniques, and similar matters.	Do.
83	Telephone directories:	
	a. 1 file copy of each directory issued by the company for use by customers.	3 years after supersedure or discontinuance.
	b. Special directories or lists used by traffic operating forces or other employees, not issued to customers.	Optional.
	c. Copies of service orders (see item 44–c(5)), memoranda, and other papers used as the basis for compilation of directories.	Do.
	d. Authorizations for directory listings or special treatment thereof	Until superseded or canceled.
	e. Agreements with customers or others for leasing of directories	3 months after termination.
	f. Contracts or agreements covering printing of directories, procurement of paper and other materials, sale by others of advertising in directories, delivery of directories, and sale or disposal of obsolete directories.	3 years after expiration or cancellation.
	g. Contracts or agreements with customers or other advertisers for sale of advertising in directories.	2 years after expiration or cancellation.
	h. Directory price lists, delivery records, administrative records and reports relating to lease, sale or purchase of directories and supplies therefor, and miscellaneous records incident to preparation and issuance of directories, not used as the basis for entries to accounts.	Optional.
	i. Prospect lists, memoranda, schedules of advertising rates, and other administrative records and reports pertaining to canvassing for and sale of directory advertising, not used as the basis for entries to accounts.	Do.
	j. Billing authorizations for directory advertising or directories sold	3 years.
	k. Billing and account records of charges for directory advertising	2 years after payment or other disposition of accounts.
	l. Records of prepaid directory expenses and accounting distributions of directory expenses.	6 years.
	m. Memoranda of individual directory errors	As provided for item 13–a.

XUM V40-31 FEB 13 75 XUM

Item No.	Description of records	Period to be retained
84	Advertising and information:	
	a. Copies of advertisements or other records of advertising in newspapers, magazines, and other publications, showing name of publication, nature of advertisement, etc.	3 years.
	b. Other public information material, including press releases, booklets, radio programs, films, etc.	2 years.
	c. Correspondence and memoranda related to requests from public for information material, historical and scientific data, and explanation of company's policies or practices. (See item 74–d.)	Optional.
	d. File copies and circulation records of publications issued by the company and other distribution lists for release of information material.	Do.
	e. Administrative studies or other records of material and services or advertising media used in operation of advertising and information services.	Do.
	f. Studies, surveys, analyses, correspondence, and memoranda used in developing material for advertising and information purposes.	Do.
	g. File copies of publications, films, and other information material issued to employees.	Do.
	h. Contracts and agreements in connection with advertising and information services.	6 years after expiration or cancellation.
	i. Copyright applications and certificates	As provided for items 11–c and and 11–d.
85	Administrative summaries, reports (exclusive of those covered by item 100), studies, analyses, plans, work programs, estimates, charts and similar records of results, performance, personnel and working practices or conditions, etc., used for administrative purposes only and not as a basis for entries to accounts or other records required to be retained for a period specified in this List of Records, together with related supporting and working papers not separately provided for in this section. This includes such records related to volume of business, operating leads and other work volumes, production, and quality; force requirements and adjustment, work schedules and assignments, service observation and results, employment, training, organization, working conditions, salary and wage schedules, accident prevention, and other administration of personnel and work performance; studies of new or improved methods; and departmental administrative expense reports, analyses, budgetary studies and estimates. (See items 22, 23, 47, 48, 94–k, 100 to 104, and 105–b.)	Optional.
86	Telegraph carrier settlements with other communication carriers (for telephone carriers, see item 88):	
	a. Records pertaining to settlement of revenues and other charges with other communication carriers.	6 years.
	b. Statements, summaries and memoranda pertaining to the record of messages interchanged if summarized in records covered by item 86–a.	2 years.
87	Telegraph carrier settlements with transportation carriers:	
	a. Monthly, annual or other periodical settlement with transportation companies made in accordance with contracts or agreements.	6 years.
	b. Summary reports of receipts and expenditures at offices on lines of transportation companies.	Do.
88	Errand service records	For the same periods prescribed under item 68 for comparable records pertaining to messages.
89	Telegraph carrier stock and commercial news, including ticker service:	
	a. Applications, service orders and other similar records, billing authorizations and reporting schedules as provided in items 45–a–(6), 69–e, 70, 71, 72, and 76–a.	As separately provided for in this section.
	b. Start and stop orders	2 years.
	c. Bulletins relative to special services	Optional.
	d. Tariff rate schedules and other rate authorities as provided in items 10–e and 74.	As separately provided for in this section.
	e. Contracts with commodity and other exchanges and other news sources (as provided in item 6–j).	6 years after termination.
	f. Summary statement covering settlements with news sources	6 years.
90	Time services of telegraph carriers:	
	a. Service order copies, billing authorizations and reporting schedules.	As provided for item 69–e, 71 and 72.
	b. Catalogs and other rental lists and advices	3 years.
	c. Contracts with clock manufacturer (as provided in item 6–j)	6 years after termination.
	d. Summary settlements with clock manufacturer pertaining to division of collections and expense.	6 years.
	e. Reporting schedules and other detail if summarized as provided in item 90–d.	3 years.
91	Telegraphic money orders:	
	a. Applications for transfer	Do.
	b. Draft, check, payee's receipt, or other similar evidence of completion of transaction.	Do.
	c. Money order messages, including service messages, billing memoranda, advices to sender, and copies of notices to payees.	2 years.
	d. Cipher sheets, official copies	2 years after expiration.
	e. Record of excess orders	Optional.
	f. Record of settlements with forwarding banks, other agents and foreign administrations.	3 years.
	g. Summaries and detailed records incident to and resulting from authentication of payment of individual transactions.	Do.
	h. Record of unpaid orders	Permanently.
92	Remittance orders of telegraph carriers:	
	a. Record of orders sold and of drafts or checks issued in exchange for funds deposited, and summaries or other detailed records incident to accounting analysis and controls.	Optional.
	b. Drafts or checks sold or exchanged	3 years.

Item No.	Description of records	Period to be retained
93	Express orders and travelers' cheques issued by telegraph carriers:	
	a. Contract with American Express. (See item 6–j)	6 years after termination.
	b. Accounting summaries and detailed records necessary to establish basis for settlement with Express Co.	6 years.
	c. Statements, summaries, and memoranda pertaining to settlements with Express Co. if summarized in records covered by item 93–b.	2 years.
94	Miscellaneous operating records:	
	a. Telephone traffic peg counts:	
	(1) Summaries showing totals by offices, areas, etc	Do.
	(2) Detailed records of peg counts for which totals of significant data are shown on summaries covered by item 94–a–(1).	Optional.
	b. Records used for traffic information, intercepting, routing, or other handling of telephone calls.	Do.
	c. Maps, drawings, reports, and other records of subscribers plant facilities, trunks, circuits, or other plant available for assignment or assigned. (See item 44–f.)	Until record is superseded or is retired from active use.
	d. Telephone traffic and commercial engineering records	As provided for items 42, 43, 85, 106–b, 106–h or other item applicable to particular record.
	e. Tickets, correspondence, memoranda of telephone directory errors, or other records of complaints or criticisms from customers or telephone directory advertisers, together with records of investigation and disposition thereof, related to:	
	(1) Claims of damages due to service fault	As provided for item 13–a.
	(2) Claims of overcharges, whether or not resulting in refunds or adjustments of accounts receivable.)(See item 76–g.)	2 years.
	(3) Not involving claims of damages or overcharges	Optional.
	f. Copies of purchase orders, requisitions, transfer reports, returned material notices, sale or junk orders, or other records of furniture and other office or work equipment, material and supplies, stationery, or office supplies used only in administration of such property or activities, not as a basis for entries to accounts or property records. (See items 55, 56, and 58.)	Do.
	g. Work programs, schedules, and assignments	Optional except as covered by item 21–e.
	h. Basic detailed reports or records of time or work paid for	As provided for item 21–e.
	i. Memoranda of work done and time spent thereon, made by employees preliminary to and for use in preparing detailed reports or other records used as the basis for entries to accounts. (See item 45–a–(2).)	Optional.
	j. Photographs, drawings, maps, or similar records of buildings or other plant or equipment, floor plans or office layouts, used for informational or administrative purposes only and not as property records covered by item 30.	Do.
	k. Underlying statistical records of message, telephones, and other data relative to volume of business or work performed, used as the basis for preparation of administrative summaries, reports, studies, etc., covered by item 85 or 101.	Do.
	l. Reports and records of watch and surveillance service including investigations of stolen property, robberies and frauds.	As provided for item 48–k.
	m. Accidents and damages	As provided for item 13.
	n. Records of operations other than communications common carrier operations.	For the same periods as provided in section for similar records.
	o. Telegraph carrier logs and records maintained on circuit failures, substandard equipment and circuit functioning, line insulation and other tests, customers' trouble calls, measurements and other data regarding carrier pair, wariopler, subscriber, and other circuit and equipment interruptions and failures, service, tests, observations, and other monitorial records and reports; and authorized wire and circuit assignments.	Optional, except as provided in item 44–l.
	p. Cable-ship and depot logs of ship operations, cable interruptions, breaks, repairs and electrical measurements.	Optional.
	q. Confidential telegraph codes, official copies	Permanently.
	r. Number sequence records of telegraph messages transmitted or otherwise handled.	Optional.
95–99	[Reserved.]	
	Reports, statistics, and miscellaneous	
100	Monthly, annual, and other periodic administrative, financial, and statistical reports or statements regularly prepared to show the results of operations for the period and the financial condition of the company, for the information of officials. This includes the regular balance sheet and income statements, reports of operating revenues, expenses, and charges in plant, depreciation reserve, and surplus accounts, and general statistical reports of (a) quantities of plant owned or operated, (b) business handled, and (c) employees and wages:	
	a. Annual reports	25 years.
	b. Monthly and other periodic reports	6 years.
101	Miscellaneous statistical, narrative, and descriptive reports, statements, analyses, studies, charges, summaries, or estimates, not provided for elsewhere in this List of Records, prepared for use by the company's officials or other employees for administrative or informational purposes and not used as a basis for entries to accounts. (See items 85, 94–k, and 104).	Optional.
102	Reports to stockholders:	
	a. Annual reports or statements	Permanently.
	b. Quarterly and other statements of earnings, etc. (See item 4–o.)	6 years.
	c. Stockholders' acknowledgements of receipt of reports and request for copies of reports.	Optional.
	d. Other correspondence with stockholders relative to reports and statements furnished stockholders.	As provided for items 4–o and 25–b.

FEDERAL ENERGY ADMINISTRATION

[10 CFR Part 202]

FREEDOM OF INFORMATION ACT

Amendments To Conform Regulations on Production or Disclosure of Records

The Federal Energy Administration ("FEA") hereby gives notice of a proposal to amend Chapter II of Title 10 of the Code of Federal Regulations to revise Subpart A of Part 202 of that chapter, regarding production or disclosure of material or information in accordance with the Freedom of Information Act (5 U.S.C. 552). These revisions reflect the amendments to the Freedom of Information Act enacted as Pub. L. 93-502 (88 Stat. 1561).

On February 19, 1975, the amendments to the Freedom of Information Act (FOI Act) contained in Pub. L. 93-502 will become effective. The amendments to the FOI Act, among their other provisions, set time limits which must be met by a Federal agency in responding to a request for information under that Act; narrow the scope of the first and seventh exemptions from mandatory disclosure contained in 5 U.S.C. 552(b); require publication of an index of certain materials; and specify that fees may be charged to requesters only for the costs of document search and duplication.

The purpose of the rulemaking proposed herein is to amend the regulations promulgated by FEA implementing the Freedom of Information Act to correspond with the new requirements of the amended FOI Act.

The time limits for agency response to requests contained in the FOI Act amendments make it imperative that initial requests and appeals of denials of requests reach the proper personnel within FEA with a minimum of delay. Therefore §§ 202.3(a) and 202.6(a) have been amended specifically to define what constitutes "receipt" by FEA of a request or appeal. Properly addressed requests and appeals will be deemed to be received upon arrival at FEA, if mailed, or upon delivery to the appropriate office, if hand-delivered. Requests or appeals that are not addressed in accordance with the regulations will not be deemed to be received for purposes of the applicable time limits until actual receipt by the Information Access Officer, or the Director, Office of Exceptions and Appeals, as appropriate.

The FOI Act amendments revise the requirement that a request must be for "identifiable records", by providing that an agency must make available documents upon a request which "reasonably describes such records". Accordingly, the term "identifiable" records has been replaced where it appears in Subpart A of Part 202 with a reference to the requirement that records must be "reasonably described". Existing procedures will continue in force that provide that if information supplied by the requester is not sufficient to enable FEA personnel to locate the records, the FEA will solicit additional information to aid in locating the requested documents (§ 202.3(c)).

The FOI Act amendments provide that a determination on a request must be made by an agency within 10 days of receipt of the request. Twenty days after receipt of an appeal are allowed for making a determination on an appeal. Under the amendments, however, a maximum of 10 days extension of time may be taken where unusual circumstances require additional time to search for, collect, and examine records. This extension may be divided between the initial determination and the appeal, so long as no more than ten days extension is taken in total, and provided the extension is needed because of "unusual circumstances" as defined in the amendments. The proposed rulemaking contains procedures implementing the new time limits for agency response, including the extension provision, and contains procedures concerning notification of the requester when an extension is necessary (§§ 202.4 (c) and (d), 202.6(b)).

The amended FOI Act provides that a notification of denial of any request for records shall set forth the names and titles or positions of each person responsible for the denial of such request. The regulations incorporate this requirement in §§ 202.5(b)(2) and 202.6(c), by requiring a statement setting forth such information to be included in every letter of denial and every appeal affirming a denial.

The FOI Act amendments provide that fees may be charged only for search for, and duplication of records. Section 202.8 has therefore been amended to eliminate fees charged for monitoring inspection of documents and for time spent screening records for material that is exempted from disclosure by 5 U.S.C. 552(b). FEA will now charge fees to cover only the actual cost of search and duplication of records and for related services, such as certification of true copies. In many cases anticipated fees for search and duplication of records can be substantial. Where such fees are anticipated to be greater than $25 and the requester has not either stated his willingness to bear whatever fees are assessed, or has not set a cost limit which covers the anticipated fees to be charged, a request will not be deemed to have been received for purposes of applicable time limits until the requester has been notified of the anticipated fees and has agreed to pay such fees and made any required deposit (§ 202.8(c)).

The amendments require each agency to promulgate regulations, pursuant to notice and receipt of public comments, specifying a uniform schedule of fees for search and duplication applicable to all constituent elements of the agency. Such a proposed schedule of fees is contained in § 202.8(b). Comments are specifically requested on this schedule.

The FOI Act amendments include amendments to the first and seventh exemptions from the mandatory disclosure provisions of the Act; these exemptions concern material authorized to be kept secret in the interest of national defense or foreign policy, and material contained in investigatory files. The portion of the regulations which restates the exemptions from the disclosure provisions of the Act (§ 202.9(a)) has been revised to conform to these amendments.

Finally, § 202.10 has been amended to conform to the amended Act, by providing that computation of time pursuant to Subpart A excludes in all cases Saturdays, Sundays, and legal public holidays.

To comply with the requirements of the FOI Act, as amended effective February 19, 1975, these regulations will be implemented for all requests or appeals received on or after February 19, 1975. Such procedures may, however, thereafter be revised in light of comments received on the proposed rulemaking.

Interested persons are invited to participate in this rulemaking by submitting data, views, and arguments with respect to the proposed amended regulations set forth in this notice. Submittals may be hand-delivered to Executive Communications, Room 3309, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., or mailed to Executive Communications, Room 3309, Federal Energy Administration, Box CF, Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on documents submitted to Executive Communications, FEA, with the designation "Freedom of Information Regulations." Twenty-five copies should be submitted. All comments received by February 24, 1975, and all relevant information, will be considered by the Federal Energy Administration.

Comments received in response to this notice will be available for public inspection after the comment period in the Administrator's Reception Area, Room 3400, Federal Building, 12th & Pennsylvania Avenue NW., Washington, D.C.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it accordingly.

As the proposed regulation is not a regulation affecting the quality of the environment, the provisions of section 7(c)(2) of the Federal Energy Administration Act of 1974 (Pub. L. 93-275) have been determined to be inapplicable to the proposal.

It has also been determined that the requirements of section 7(i)(1)(C) of that Act, relating to opportunities for oral presentations, do not apply because the proposed regulations are procedural in nature and are not likely to have a substantial impact on the Nation's economy or large numbers of individuals or businesses.

[Freedom of Information Act, 5 U.S.C. 552, as amended; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790, 39 FR 23185.]

In consideration of the foregoing, it is proposed to amend Subpart A of Part 202, Chapter II of Title 10, Code of Federal Regulations, as set forth below.

Issued in Washington, D.C., February 10, 1975.

ROBERT E. MONTGOMERY, Jr.,
General Counsel,
Federal Energy Administration.

Chapter II of Title 10, Code of Federal Regulations is amended, by revising Subpart A of Part 202 to read as follows:

Subpart A—Production or Disclosure Under 5 U.S.C. 552

Sec.

202.1 Purpose and scope.
202.2 Public reference facilities.
202.3 Requests for reasonably described records and copies.
202.4 Time for response to request for records.
202.5 Responses by Information Access Officer: Form and Content.

AUTHORITY: Freedom of Information Act, 5 U.S.C. 552, as amended; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790, 39 FR 23185.

Subpart A—Production or Disclosure Under 5 U.S.C. 552

§ 202.1 Purpose and scope.

This subpart contains the regulations of the Federal Energy Administration (FEA) implementing 5 U.S.C. 552 (1970) as amended by Pub. L. 93-502, 88 Stat. 1561. The regulations of this subpart provide information concerning the procedures by which records may be obtained from all divisions within the FEA. Official records of the FEA made available pursuant to the requirements of 5 U.S.C. 552 shall be furnished to members of the public as prescribed by this subpart. Officers and employees of the FEA may furnish to the public, informally and without compliance with procedures prescribed herein, information and records of types which prior to enactment of 5 U.S.C. 552 were furnished customarily in the regular performance of their duties to the public by other agencies. Persons seeking information or records of the FEA may find it useful to consult with FEA's Office of Public Affairs before invoking the formal procedures set out below. To the extent permitted by other laws, the FEA will make available records which it is authorized to withhold under 5 U.S.C. 552 unless it determines that such disclosure is not in the public interest.

§ 202.2 Public reference facilities.

(a) The National Office, FEA and Regional Offices, FEA will maintain in a public reading room or public reading area, the materials relating to that office which are required by 5 U.S.C. 552(a)(2) and 552(a)(4) to be made available for public inspection and copying.

(b) Each of these public reference facilities will maintain and make available for public inspection and copying current indexes of the materials available at that facility which are required to be indexed by 5 U.S.C. 552(a)(2), and the National Office, FEA, will maintain and make available for public inspection and copying copies of all such indexes. Energy Management: Federal Energy Guidelines, a commercially published loose leaf reporter system, indexes and publishes a number of the materials required to be made public under 5 U.S.C. 552(a)(2), and is available through private commercial subscription. The Guidelines are available for inspection and copying in the public reading rooms. In addition, the FEA National Energy Information Center will publish, on a quarterly basis, a listing of all energy data bases and publications as a guide to other types of information, not referred to by 5 U.S.C. 552(a)(2), collected or generated by the FEA.

§ 202.3 Requests for reasonably described records and copies.

(a) *Addressed to the Director of Public Affairs.* A request for a record of the FEA which is not customarily made available and which is not available in a public reference facility as described in § 202.2 shall be addressed to the Director of Public Affairs, Federal Energy Administration, Washington, D.C. 20461, and shall be clearly marked on the envelope "Attention: Information Access Officer". Except as provided in § 202.8(c), a request which is so addressed and marked will be considered to be received by the FEA for purposes of 5 U.S.C. 552(a)(6) when it has been delivered to the FEA National Office by the United States Postal Service if mailed, and upon delivery to the Information Access Office, Room 206, Old Post Office Building at 12th and Pennsylvania Avenue NW., Washington, D.C., if hand-delivered. A request under 5 U.S.C. 552 which is not so addressed and marked shall be considered to be received upon actual receipt by the Information Access Officer. Documents delivered after regular business hours are deemed received on the next regular business day. Regular business hours for the FEA National Office are 8 a.m. to 4:30 p.m.

(b) *Request should be in writing and for reasonably described records.* A request for access to records should be submitted in writing and should reasonably describe the records requested to enable FEA personnel to locate them with a reasonable amount of effort. Where possible, specific information regarding dates, titles, file designations, and other information which may help identify the records should be supplied by the requester, including the names and titles of any FEA officers or employees who have been contacted regarding the request prior to filing of a written request. If the request relates to a matter in pending litigation, the court and its location should be identified. If the records are known to be in a Regional Office of the FEA, the request should so state and should identify the Regional Office concerned.

(c) *Form may be requested.* Where the information supplied by the requester is not sufficient to permit location of the records by FEA personnel with a reasonable amount of effort, the requester may be sent and asked to fill out and return a form which is designed to elicit the necessary information.

(d) *Categorical requests—(1) Must meet reasonably described records requirement.* A request for all records falling within a reasonably specific category shall be regarded as conforming to the statutory requirement that records be reasonably described if it can reasonably be determined which particular records are sought in the requests, and the records can be searched for, collected, and produced without unreasonably burdening or interfering with FEA operations because of the staff time consumed or the resulting disruption of files.

(2) *Assistance in reformulating nonconforming requests.* If it is determined that a categorical request would unreasonably burden or interfere with the operations of the FEA under subparagraph (1) of this paragraph, the response denying the request on those grounds shall specify the reasons why and the extent to which compliance would burden or interfere with FEA operations, and shall extend to the requester an opportunity to confer with knowledgeable FEA personnel in an attempt to restate the request or reduce the request to manageable proportions by reformulation and by agreeing on an orderly procedure for the production of the records.

(e) *Requests for records of other agencies.* Some of the records in the files of the FEA have been obtained from other federal agencies. Where it is determined that the question of the availability of requested records is primarily the responsibility of another federal agency, the Information Access Officer will inquire of the originating agency as to whether it concurs in release of the records. If that agency does not concur within the time for FEA response to the request, the Information Access Officer will refer the request to the originating agency, and inform the requester of the appropriate official with whom to pursue his request. The FEA will accompany such referral with a recommendation, based on the interest of FEA in such records, concerning the disclosure of the requested records.

§ 202.4 Time for response to request for records.

(a) An Information Access Officer, appointed by the Director of Public Affairs, shall be responsible for processing written requests for records submitted pursuant to this part. Upon receiving such a request, the Information Access Officer shall ascertain which division or divisions of the FEA have primary responsibility for, custody of, or concern with the records requested and forward the request to such division or divisions, who

XUM
V40-31
FEB 13 75
XUM

shall promptly identify and review the records encompassed by the request. After reviewing the material, the division or divisions concerned shall forward to the Information Access Officer either the requested material, or a recommendation that the request be wholly or partially denied. Any recommendation that a request be denied shall set forth the policy considerations supporting such denial and shall be forwarded, with the information sought or a representative sample thereof, to the Information Access Officer, who shall provide such recommendation and materials to the General Counsel for his review and recommendation.

(b) On the basis of the recommendations of the division or divisions, the Information Access Officer shall either (1) grant the request, (2) deny the request, (3) grant it in part and/or deny it in part, or (4) reply with a response either stating that the request has been referred to another agency under § 202.3 (e) of this part, or that additional information is needed from the requester to render the records reasonably described; such a response shall specify any further information needed by the FEA from the requester, the agency to whom the request has been referred, if any, and the name of the appropriate official of that agency with whom to pursue the matter. The Deputy Administrator or his delegate shall, in cases of denials of requests, determine the official or officials responsible for such denial.

(c) Action pursuant to paragraph (b) of this section shall be taken within 10 days of receipt of a request for FEA records ("receipt" is defined in § 202.3(a)) except that if unusual circumstances require an extension of time before a decision on a request can be reached, and the person requesting records is promptly informed in writing setting forth the reasons for such extension and the date which a determination is expected to be dispatched, then the Information Aeess Officer may respond to the request within 15 days of the receipt of the request, or within 20 days of receipt of the request if the Director, Office of Exeeptions and Appeals shall concur with such later response. If a response is given by FEA stating that additional information is needed from the requester to render records reasonably described, any reformulated request submitted by the requester shall be treated as an initial request for purposes of time for FEA response.

(d) For purposes of this section and § 202.6(b) the term "unusual circumstances" means:

(1) The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(2) The need to search for, collect and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(3) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject-matter interest therein.

(e) If the Information Access Officer does not respond to a request for records within the time limits provided in paragraph (c) of this section, the requester may petition the Deputy Administrator to take appropriate measures to assure prompt action on the request.

(f) For purposes of this section, the term "division" includes all administrative or operating units of the FEA.

§ 202.5 Responses by Information Access Officer: Form and content.

(a) *Form of grant.* When a requested record has been identified and is to be made available, the Information Access Officer or other appropriate official of FEA shall notify the requester as to when the record is available, and shall promptly make the records available to the person making the request. The notification shall also advise the requester of any applicable fees under § 202.8.

(b) *Form of denial.* A reply denying a written request for a record shall be in writing signed by the Information Access Officer and shall include:

(1) *Reason for denial:* A statement of the reason for denial, containing, as applicable:

(i) *Exemption category.* A reference to the specific exemption under the Freedom of Information Act authorizing the withholding of the record, and to the extent consistent with the purposes of the exemption, a brief explanation of how the exemption applies to the record withheld, and, if the Information Access Officer considers it appropriate, a statement of why the exempt record is being withheld;

(ii) *Denial because record cannot be located or does not exist.* If a requested record is known to have been destroyed or otherwise disposed of, or if no such record was ever known to exist, the requester shall be so notified.

(2) *Persons responsible for denial.* A statement setting forth the names and the titles or positions of each person responsible for the denial of such request; and

(3) *Administrative appeal and judicial review.* A statement that the denial may be appealed within 30 days to the Deputy Administrator, and that judicial review will be thereafter available either in the district in which the requester resides or has a principal place of business or in which the agency records are situated or in the District of Columbia.

§ 202.6 Appeals to the Deputy Administrator from initial denials.

(a) *Appeal to Deputy Administrator.* When the Information Access Officer has denied a request for records in whole or in part, the requester may, within 30 days of its receipt, appeal the denial to the Deputy Administrator, FEA. The appeal shall be in writing and shall be addressed to the Deputy Administrator, Federal Energy Administration, Washington, D.C. 20461, and shall be clearly marked on the envelope "Appeal—Freedom of Information Act; Attention: Director, Office of Exceptions and Appeals." A request which is so addressed and marked will be considered to be received by the FEA for purposes of 5 U.S.C. 552(a)(6) when it has been delivered to the FEA National Office by the United States Postal Service if mailed, and upon delivery to the Office of Exceptions and Appeals, Room 8002, 2000 M Street NW., Washington, D.C., if hand-delivered. An appeal of the denial of a request which is not so addressed and marked shall be considered to be received upon actual receipt by the Director, Office of Exceptions and Appeals. Documents delivered after regular business hours are deemed received on the next regular business day. Regular business hours for the FEA National Office are 8 a.m. to 4:30 p.m.

(b) *Action within 20 days.* The Deputy. Administrator shall act upon the appeal within 20 days of its receipt, and more rapidly if practicable, except that if unusual circumstances require an extension of time before a decision on a request can be reached, the Director, Office of Exceptions and Appeals, acting on behalf of the Deputy Administrator, may extend the time for final action for an additional 10 days less the number of days of any extension which may have been taken by the Information Access Officer during the period of initial determination, upon notifying the requester in writing of the reasons for the extended deadline and the date on which a final determination is expected to be dispatched.

(c) *Form of action on appeal.* The Deputy Administrator's action on an appeal shall be in writing, and shall set forth his name and title. A denial in whole or in part of a request on appeal shall set forth the exemption relied on, a brief explanation consistent with the purpose of the exemption of how the exemption applies to the records withheld, and the reasons for asserting it. It shall also contain a statement that judicial review will be available either in the district in which the requester resides or has a principal place of business or in which the agency records are situated or in the District of Columbia. Documents determined by the Deputy Administrator to be documents subject to release shall be made promptly available to the applicant.

§ 202.7 Maintenance of files.

(a) *Maintenance of file open to public.* The Information Access Officer shall maintain a file, open to the public, which shall contain copies of all grants or denials of all requests for information or appeals made under this subpart. The material shall be indexed by the exemption asserted by the FEA, if any, and, to the extent feasible, according to the type of records requested.

(b) *Protection of privacy.* Where the identity of a requester, or other identifying details related to a request, would constitute an invasion of a personal privacy if made generally available, the

Information Access Officer shall delete identifying details from the copies of documents maintained in the public file established under paragraph (a) of this section.

§ 202.8 Fees for provision of records.

(a) *When charged.* User fees pursuant to 5 U.S.C. 552, as amended and 31 U.S.C. 483a, shall be charged according to the schedule contained in paragraph (b) of this section for services rendered in responding to requests for FEA records under this subpart unless the Information Acess Officer determines, in conformity with the provisions of 5 U.S.C. 552, as amended, and 31 U.S.C. 483a, that waiver of payment of such charges or a portion thereof is in the public interest. Such a determination shall ordinarily not be made unless the service to be performed will be of benefit primarily to the public as opposed to the requester, or unless the requester is an indigent individual. Fees shall not be charged where they would amount, in the aggregate, for a request or series of related requests, to less than $3. Ordinarily, fees for search shall not be charged if the records requested are not found, or if all of the records located are withheld as exempt. However, if the time expended in processing the request is substantial, and if the requester has been notified of the estimated cost pursuant to paragraph (c) of this section and has been specifically advised that it cannot be determined in advance whether any records will be made available, fees for search may be charged.

(b) *Services charged for, and amount charged.* For the services listed below expended in locating or making available records or copies thereof, the following charges shall be assessed:

(1) *Copies.* For copies of documents (maximum of 5 copies will be supplied) $.10 per copy of each page.

(2) *Clerical searches.* For each one quarter hour spent by clerical personnel in excess of the first quarter hour in searching for and producing a requested record, $1.25.

(3) *Certification.* For certification of true copies, each, $1.

(4) *Nonroutine, nonclerical searches.* Where a search cannot be performed by clerical personnel, for example, where the task of determining which records fall within a request and collecting them requires the time of professional or managerial personnel, and where the amount of time that must be expended in the search and collection of the requested records by such higher level personnel is substantial, charges for the search may be made at a rate in excess of the clerical rate, namely for each one quarter hour spent in excess of the first quarter hour by such higher level personnel in searching for a requested record, $3.75.

(5) *Examination and related tasks in screening records.* No charge shall be made for time spent in resolving legal or policy issues affecting access to records of known contents. In addition, no charge shall be made for the time involved in examining records to determine whether they are exempt from mandatory disclosure and should be withheld as a matter of sound policy.

(6) *Computerized Records.* Fees for services in processing requests maintained in whole or part in computerized form shall be in accordance with this section so far as practicable. Services of personnel in the nature of a search will be charged for at rates prescribed in paragraph (b)(4) of this section unless the level of personnel involved permits rates in accordance with paragraph (b)(2) of this section. A charge may be made for the computer time involved, based upon the prevailing level of costs to governmental organizations and upon the particular types of computer and associated equipment and the amounts of time on such equipment that are utilized. A charge may also be made for any substantial amounts of special supplies or materials used to contain, present, or make available the output of computers, based upon prevailing levels of costs to governmental organizations and upon the type and amount of such supplies or materials that is used. Nothing in this paragraph shall be construed to entitle any person, as of right, to any services in connection with computerized records, other than services to which such person may be entitled under 5 U.S.C. 552 and under the provisions, not including this paragraph (b), of this subpart.

(c) *Notice of anticipated fees in excess of $25.* Unless the requester specifically states that he is willing to pay whatever fees are assessed by FEA for meeting the request or, alternatively, specifies an amount in excess of $25 which he is willing to pay and which in fact covers the anticipated fees for meeting the request, a request that is expected to involve assessed fees in excess of $25 will not be deemed to have been received until the requester is advised of the anticipated cost, agrees to bear it, and makes any advance deposit required. Such notification shall be made by the Information Access Officer promptly upon receipt of the request.

(d) *Form of payment.* Payment should be made by check or money order payable to the Treasury of the United States.

§ 202.9 Exemptions.

(a) 5 U.S.C. 552 exempts from all of its publication and disclosure requirements nine categories of records which are described in subsection (b) of that section. These categories include such matters as national defense and foreign policy information; investigatory files, internal procedures and communications; materials exempted from disclosure by other statutes; information given in confidence; and matters involving personal privacy. Specifically, the exemption in 5 U.S.C. 552(b) applies to matters that are—

(1)(i) Specifically authorized under criteria established by an Executive order to be kept secret in the interest of the national defense or foreign policy and (ii) are in fact properly classified pursuant to such Executive order;

(2) Related solely to the internal personnel rules and practices of an agency;

(3) Specifically exempted from disclosure by statute;

(4) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) Inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency;

(6) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(7) Investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would (i) interfere with enforcement proceedings, (ii) deprive a person of a right to a fair trial or an impartial adjudication, (iii) constitute an unwarranted invasion of personal privacy, (iv) disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source, (v) disclose investigative techniques and procedures, or (vi) endanger the life or physical safety of law enforcement personnel;

(8) Contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or

(9) Geological and geophysical information and data, including maps, concerning wells.

(b) Any reasonably segregable portion of a record will be provided to any person requesting such record after deletion of the portions which are exempt under the exceptions listed above if it is determined that such deletions are required by law or are in the public interest.

(c) The scope of the exemption is discussed generally in the Attorney General's Memorandum on the Public Information section of the Administrative Procedure Act, which was published in June 1967 and subsequent memoranda treating the 1974 amendments. These documents are, or will be, available from the Superintendent of Documents and may be consulted in considering questions arising under 5 U.S.C. 552.

§ 202.10 Computation of time.

In computing any period of time prescribed or allowed by this subpart, the day of the event from which the designated period of time begins to run is not to be included; the last day of the period so computed is to be included; and Saturdays, Sundays and legal public holidays are excepted.

FEDERAL TRADE COMMISSION

[16 CFR Part 437]

FOOD ADVERTISING

Change In Closing Date To Comment on Proposed Trade Regulation Rule

Notice of the opportunity to file written data, views or arguments regarding the proposed Trade Regulation Rule Concerning Food Advertising was published in the FEDERAL REGISTER on November 11, 1974 (39 FR 39842). The Notice also set forth both a proposed rule and a staff statement on which comment was requested.

Petitions from industry members and interested parties requesting that the closing date for filing written data, views or arguments be extended have been denied.

However, the Commission has determined that the comment period should remain open pending promulgation of rules of procedure governing its trade regulation rule proceedings, made necessary by the Magnuson-Moss Warranty—Federal Trade Commission Improvement Act, Pub. L. 93–637 (January 4, 1975); and that further proceedings in this matter, including the filing of written comments, will be conducted consistent with those rules of procedure. It is expected that the record in this matter will remain open for at least 60 days beyond the original February 5, 1975, closing date under the circumstances outlined above.

Written data, views or arguments concerning the proposed rule may be filed with the Special Assistant Director for Rulemaking, Bureau of Consumer Protection, Federal Trade Commission, Washington, D.C. 20580.

Issued: February 7, 1975.

By the Commission.

[SEAL] CHARLES A. TOBIN, *Secretary.*

[FR Doc.75-4054 Filed 2-12-75;8:45 am]

VETERANS ADMINISTRATION

[38 CFR Part 3]

VETERANS BENEFITS

Liberalization of Pension Provisions

The Administrator of Veterans' Affairs proposes regulatory changes to implement provisions of Pub. L. 93–527 (88 Stat. 1702) which was enacted December 21, 1974, and is effective January 1, 1975.

Pub. L. 93–527 increased rates of pension payable to veterans, widows and widowers, and children and rates of dependency and indemnity compensation payable to parents. The maximum income limitations for payment of pension and dependency and indemnity compensation were increased $400. The Act also added subsection (f) to section 541 of Title 38, United States Code, which provides that, for the purpose of that section and section 542 of Title 38, the term "veteran" includes a person who had completed at least 2 years of honorable military, naval or air service but whose death in service was not in line of duty. Under this latter provision nonservice-connected death pension may be payable in cases where the serviceman or servicewoman dies in service under such circumstances that the death is determined not in line of duty and service-connected death benefits are not payable. Prior to enactment of Pub. L. 93–527 no death benefits were payable based on the period of service in which such death occurred. Pub. L. 93–527 amended section 103(e) of Title 38, United States Code to provide for further payment of benefits to or on account of a child who married but whose marriage has been terminated by death or divorce. Section 3010(1) was amended to provide that the effective date of an award to or on account of such a child would be the date of the event (death or divorce) if claim is filed within 1 year after that date. Pub. L. 91–376 (84 Stat. 787), effective January 1, 1971, had made similar provisions for remarried widows or widowers whose subsequent marriages were terminated under such circumstances. Prior to enactment of Pub. L. 91–376 a veteran's widow or widower who remarried had no further entitlement to benefits based on the veteran's service unless the subsequent marriage was void or annulled. Similarly, prior to enactment of Pub. L. 93–527, a veteran's child who married had no further entitlement to benefits unless the marriage was void or annulled.

To implement the provisions of Pub. L. 93–527 it is proposed to amend Part 3 of Title 38, Code of Federal Regulations, as indicated below. Minor editorial changes are made in §§ 3.20, 3.54, 3.250, 3.257 and 3.260 to reflect agency policy to avoid any appearance of seeming to preclude benefits for female veterans, dependents or beneficiaries.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans' Affairs (271A), Veterans Administration, 810 Vermont Avenue, NW., Washington, DC 20420. All relevant material received before March 17, 1975, will be considered. All written comments received will be available for public inspection at the above address only, between the hours of 8 a.m. and 4:30 p.m. Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in room 132. Such visitors to any field station will be informed that the records are available for inspection only in Central Office and furnished the address and the above room number.

Notice is given that the proposed amendments would be effective January 1, 1975.

1. In § 3.1, paragraphs (d), (m) (1) and (q) are revised to read as follows:

§ 3.1 Definitions.

* * * * * *

(d) "Veteran" means a person who served in the active military, naval, or air service and who was discharged or released under conditions other than dishonorable.

(1) For compensation and dependency and indemnity compensation the term "veteran" includes a person who died in active service and whose death was not due to willful misconduct.

(2) For death pension the term "veteran" includes a person who died in active service under conditions which preclude payment of service-connected death benefits, provided such person had completed at least 2 years honorable military, naval or air service, as certified by the Secretary concerned. (See § 3.3 (c)(1)) (38 U.S.C. 541; Pub. L. 93–527, 88 Stat. 1702.)

* * * * * *

(m) "In line of duty" means an injury or disease incurred or aggravated during a period of active military, naval, or air service unless such injury or disease was the result of the veteran's own willful misconduct. A service department finding that injury, disease or death occurred in line of duty will be binding on the Veterans Administration unless it is patently inconsistent with the requirements of laws administered by the Veterans Administration. Requirements as to line of duty are not met if at the time the injury was suffered or disease contracted the veteran was:

(1) Avoiding duty by desertion, or was absent without leave which materially interfered with the performance of military duty.

* * * * * *

(q) "Notice" means written notice sent to a claimant or payee at his or her latest address of record.

* * * * * *

2. In § 3.3, paragraphs (a) and (d) (3) are revised to read as follows:

§ 3.3 Pension.

(a) *Pension.* This term means a monthly payment made by the Veterans Administration to a veteran because of service, age, or non-service-connected disability, or to a widow or widower or child of a veteran because of the non-service-connected death of the veteran. Except as provided in paragraph (d) (3) of this section, pension is not payable unless the veteran was discharged under conditions other than dishonorable from the period of service on which the claim is based. (38 U.S.C. 101(2), (15)) (See § 3.252 as to annual income limitations for disability and death pension.)

* * * * * *

(d) *Death pension.* * * *

(3) *Mexican border period and later war periods.* Basic entitlement exists for the widow, widower or child of a deceased veteran if the veteran's service meets the requirements of paragraph (c) (1) or (2) of this section or the veteran

was, at the time of death, receiving or entitled to receive compensation or retirement pay for service-connected disability based on wartime service. Basic entitlement also exists under the provisions of this subparagraph, effective January 1, 1975, for the widow, widower or child of a deceased veteran, as defined in § 3.1(d)(2) whose service meets the requirements of paragraph (c)(1) of this section. (38 U.S.C. 541, 542; Pub. L. 93–527, 88 Stat. 1702)

3. In § 3.13, paragraph (b) is revised to read as follows:

§ 3.13 Discharge to change status.

* * * * * *

(b) The entire period of service under the circumstances stated in paragraph (a) of this section constitutes one period of service and entitlement will be determined by the character of the final termination of active service except that, for death pension purposes, § 3.3(d)(3) is controlling as to basic entitlement when the conditions prescribed therein are met.

4. Section 3.15 is revised to read as follows:

§ 3.15 Computation of service.

For non-service-connected or service-connected benefits, active service is countable exclusive of time spent on an industrial, agricultural, or indefinite furlough, time lost on absence without leave (without pay), under arrest (without acquittal), in desertion, while undergoing sentence of court-martial or a period following release from active duty under the circumstances outlined in § 3.9. In claims based on Spanish-American War service, leave authorized under General Order No. 130, War Department, is included.

5. Section 3.20 is revised to read as follows:

§ 3.20 Widow's or widower's benefit for month of veteran's death.

Where the veteran died on or after December 1, 1962, the rate of death pension, death compensation or dependency and indemnity compensation otherwise payable for the widow or widower for the month in which the death occurred shall be not less than the amount of pension or compensation which would have been payable to or for the veteran for that month but for his or her death. (38 U.S.C. 3110)

6. In § 3.54, paragraph (b), the introductory portion of paragraph (c) preceding subparagraph (1), and paragraphs (d) and (e) are revised to read as follows:

§ 3.54 Marriage dates.

* * * * * *

(b) *Compensation.* Death compensation may be paid to a widow or widower who, with respect to date of marriage, could have qualified as a widow or widower for death compensation under any law administered by the Veterans Administration in effect on December 31, 1957, or who was married to the veteran:

(1) Before the expiration of 15 years after termination of the period of service in which the injury or disease which caused the veteran's death was incurred or aggravated, or

(2) One year or more, or

(3) For any period of time if a child was born of the marriage, or was born to them before the marriage. (38 U.S.C. 302)

(c) *Dependency and indemnity compensation.* Dependency and indemnity compensation may be paid to the widow or widower of a veteran who died on or after January 1, 1957, who was married to the veteran:

* * * * * *

(d) *"Child born".* The term "child born of the marriage" means a birth on or after the date of the marriage on which the widow's or widower's entitlement is predicated. The term "born to them before the marriage" means a birth prior to the date of such marriage. Either term includes a fetus advanced to the point of gestation required to constitute a birth under the law of the jurisdiction in which the fetus was delivered.

(e) *More than one marriage to veteran.* For periods commencing on or after January 1, 1958, where a widow or widower has been married legally to a veteran more than once, the date of the original marriage will be used in determining whether the statutory requirement as to date of marriage has been met. (38 U.S.C. 103(b))

7. Section 3.55 is revised to read as follows:

§ 3.55 Terminated marital relationships.

(a) Remarriage of a widow or widower or marriage of a child shall not bar the furnishing of benefits to such widow or widower, or to or on account of such child, if the marriage

(1) was void, or

(2) has been annulled by a court having basic authority to render annulment decrees, unless it is determined by the Veterans' Administration that the annulment was obtained through fraud by either party or by collusion.

(b) On and after January 1, 1971, remarriage of a widow or widower shall not bar the furnishing of benefits to such widow or widower if the marriage

(1) has been terminated by death, or

(2) has been dissolved by a court with basic authority to render divorce decrees unless the Veterans Administration determines that the divorce was secured through fraud by the widow or widower or by collusion.

(c) On and after January 1, 1971, the fact that a widow or widower has lived with another person and has held herself (himself) out openly to the public as the wife or husband of such other person shall not bar the furnishing of benefits to her (him) after she (he) terminates the relationship.

(d) On and after January 1, 1971, the fact that benefits to a widow or widower may previously have been barred because her (his) conduct or a relationship into which she (he) had entered had raised an inference or presumption that she (he) had remarried or had been determined to be open and notorious adulterous cohabitation, or similar conduct, shall not bar the furnishing of benefits to such widow or widower after she (he) terminates the conduct or relationship.

(e) On and after January 1, 1975, marriage of a child shall not bar the furnishing of benefits to or for such child if the marriage

(1) has been terminated by death, or

(2) has been dissolved by a court with basic authority to render divorce decrees unless the Veterans Administration determines that the divorce was secured through fraud by either party or by collusion. (38 U.S.C. 103(d), (e); Pub. L. 93–527, 88 Stat. 1702)

8. In § 3.250, paragraphs (a) (2) and (c) are revised to read as follows:

§ 3.250 Dependency of parents; compensation.

(a) *Income.* * * *

(2) *Excess income.* Where the income exceeds the monthly amounts stated in paragraph (a)(1) of this section dependency will be determined on the facts in the individual case under the principles outlined in paragraph (b) of this section. In such cases, dependency will not be held to exist if it is reasonable that some part of the corpus of the claimant's estate be consumed for his or her maintenance.

* * * * * *

(c) *Inception of dependency.* The fact that the veteran has made habitual contributions to the father or mother, or both, is not conclusive evidence that dependency existed but will be considered in connection with all other evidence. In death claims, it is not material whether dependency arose prior or subsequent to the veteran's death (38 U.S.C. 102(a)). (see § 3.1000(d)(3) as to accrued.)

* * * * * *

9. In § 3.251, paragraph (a) (1) is revised to read as follows:

§ 3.251 Income of parents; dependency and indemnity compensation.

(a) *Annual income limitation.* (1) Dependency and indemnity compensation is not payable to a parent whose annual income exceeds the following limitations:

(i) $2,600 ($3,000 effective January 1, 1975), one parent alone;

(ii) $2,600 ($3,000 effective January 1, 1975), separately, two parents not living together;

(iii) $3,800 ($4,200 effective January 1, 1975), combined income, two parents living together or remarried parent living with spouse.

(iv) Where there is only one parent, and the parent has remarried and is living with his or her spouse, dependency and indemnity compensation will be paid under either the formula in 38 U.S.C. 415(b)(1) or the formula in 38 U.S.C. 415(d), whichever will provide the greater monthly rate of dependency and indemnity compensation. The total combined annual income of the parent and

XUM V40131 FEB 13 75 XUM

spouse will be counted. (38 U.S.C. 415; Pub. L. 93–527, 88 Stat. 1702)

• • • • • •

10. In § 3.252, paragraphs (a), (b), (d) and (e) are revised to read as follows:

§ 3.252 Annual income; pension; Mexican border period and later war periods.

(a) *Annual income limitation; protected pension.* Where the right to pension under laws in effect on June 30, 1960, is protected under § 3.956, pension is not payable to an unmarried veteran or to a widow or widower without a child or to or on account of a child, whose annual income exceeds $2,600; or to a married veteran or a veteran with a child or to a widow or widower with a child whose annual income exceeds $3,900.

(b) *Annual income and net worth limitation; Pub. L. 86–211.* Pension is not payable to an unmarried veteran, or to a widow or widower without a child, whose annual income exceeds $3,000, or to or on account of a child whose annual income (excluding earned income of a child-claimant) exceeds $2,400; or to a married veteran or a veteran with a child, or to a widow or widower with a child, whose annual income exceeds $4,200; or to a veteran, widow or widower or child if it is reasonable that some part of the claimant's estate be consumed for his or her maintenance. Where a veteran and spouse are living together, the separate income of the spouse will be considered as the veteran's income as provided in § 3.262(b).

(38 U.S.C. 521, 541, 542 and 543)

• • • • • •

(d) *Veteran with a spouse.* For the purpose of determining eligibility under paragraph (b) of this section the pension rates provided by 38 U.S.C. 521(c) may be authorized for a married veteran if he or she is living with or, if estranged, is reasonably contributing to the support of his or her spouse. The determination of "reasonable" contribution will be based on all the circumstances in the case, considering the income and estate of the veteran and the separate income and estate of the spouse. Apportionment of the veteran's pension under § 3.451 meets the requirement of reasonable contribution.

(e) *Widow or widower with a child*—(1) *Child.* The term "child" means a child as defined in § 3.57. Where a posthumous child is involved, the widow will not be considered a widow with a child prior to the date of birth of the child.

(2) *Veteran's child not in widow's or widower's custody.* Where the veteran was survived by a widow or widower and by a child, the income increments for a widow or widower and child are applicable even though the child is not the child of the widow or widower and not in his or her custody.

(3) *Income of child.* The separate income received by a child or children, regardless of custody, will not be considered in computing the widow's or widower's income. Where the separate income of the child is turned over to the widow or widower, only so much of the money as is left after deducting any expenses for maintenance of the child will be considered the widow's or widower's income.

(4) *Alternative rate.* Whenever the monthly pension rate payable to the widow or widower under the formula in 38 U.S.C. 541(c) is less than the rate payable for one child under section 542 if the widow or widower were not entitled, the widow or widower will be paid the child's rate.

(38 U.S.C. 541(c), 542)

11. Section 3.257 is revised to read as follows:

§ 3.257 Children; no widow or widower entitled.

Where pension is not payable to a widow or widower because his or her annual income exceeds the statutory limitation or because of his or her net worth, payments will be made to or for the child or children as if there were no widow or widower.

12. In § 3.260, paragraph (e) is revised to read as follows:

§ 3.260 Computation of income.

• • • • • •

(e) *Proportionate income limitations; spouse.* In determining whether proportionate computation is applicable to a claim under Public Law 86–211 (73 Stat. 432), the total income for the calendar year of entitlement of both veteran and that of the spouse available for use of the veteran will be considered. If a proportionate income limitation is then applicable, it will be applied to both the veteran's and the spouse's income. The spouse's income will not be included, however, where his or her total income for the calendar year does not exceed $1,200.

• • • • • •

13. In § 3.400, paragraph (u) is revised to read as follows:

§ 3.400 General.

• • • • • •

(u) *Void, annulled or terminated marriage of a child (38 U.S.C. 3010 (a), (k), (l); Pub. L. 93–527, 88 Stat. 1702; § 3.55)* (1) *Void.* Date the parties ceased to cohabit or date of receipt of claim, whichever is later.

(2) *Annulled.* Date the decree of annulment became final if claim is filed within 1 year after that date; otherwise date of receipt of claim.

(3) *Death.* Date of death if claim is filed within 1 year after that date; otherwise date of receipt of claim.

(4) *Divorce.* Date the decree became final if claim is filed within 1 year after that date; otherwise date of receipt of claim.

• • • • • •

Approved: February 7, 1975.

By direction of the Administrator:

[SEAL] ODELL W. VAUGHN,
Deputy Administrator.

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF STATE

Agency for International Development

AID RESEARCH ADVISORY COMMITTEE

Notice of Meeting

Pursuant to Executive Order 11686 and the provisions of section 10(a)(2), Pub. L. 92–463, Federal Advisory Committee Act, notice is hereby given of the A.I.D. Research Advisory Committee Meeting on March 20–21, 1975, at the Pan American Health Organization Building, 23rd Street and Virginia Avenue, NW., Conference Room "B", to review, appraise and make recommendations to the Administrator, Agency for International Development, concerning proposals for research contracts in the fields of food and nutrition, health and population and selected development problems. The meetings will begin at 9 a.m. and adjourn at 5:30 p.m. Dr. Erven J. Long, Associate Assistant Administrator, is designated as the A.I.D. representative at the meeting. It is suggested that those desiring more specific information contact Dr. Erven J. Long, 21st Street and Virginia Avenue, NW., Washington, D.C. 20523, or call area code 202–632–3800.

Dated: February 6, 1975.

CURTIS FARRAR,
Acting Assistant Administrator for Technical Assistance.

DEPARTMENT OF THE TREASURY

Fiscal Service

[Dept. Circ. 570, 1974 Rev., Supp. No. 8]

SUMMIT INSURANCE COMPANY OF NEW YORK

Surety Companies Acceptable on Federal Bonds: Termination of Authority

Notice is hereby given that the Certificate of Authority issued by the Treasury to Summit Insurance Company of New York, Houston, Texas, under Sections 6 to 13 of Title 6 of the United States Code, to qualify as an acceptable surety on Federal bonds is hereby terminated, effective February 4, 1975. The company was last listed as an acceptable surety on Federal bonds at 39 FR 26369, July 18, 1974.

The company agreed to be placed in voluntary rehabilitation under the New York State Insurance Department on February 4, 1975. Information obtained from the Insurance Department and the company indicated that a regular examination by State examiners had disclosed that the company was in serious financial difficulty. The company's latest financial statement reflected a substantial amount of surplus as of September 30, 1974, and gave no indication of any significant adverse trend in underwriting results. The cause of the difficulty is still under examination.

Bond-approving officers of the Government should, in instances where such action is necessary, secure new bonds in lieu of bonds executed by Summit Insurance Company of New York. Claims against the company should continue to be prepared in the usual manner, and, in the future, forwarded to:

Mr. James W. Dowling,
Special Deputy Superintendent of Insurance,
New York Insurance Department,
116 John Street,
New York, New York 10038.

Dated: February 7, 1975.

[SEAL] JOHN K. CARLOCK,
Fiscal Assistant Secretary.

[FR Doc.75-4056 Filed 2-12-75;8:45 am]

Office of Revenue Sharing

ENTITLEMENT DATA

Procedure for Improvement

The data used by the Office of Revenue Sharing in calculating the initial revenue sharing allocations for units of local government pursuant to the State and Local Fiscal Assistance Act of 1972 (Pub. L. 92–512, 31 U.S.C.A. Chapter 24) for the sixth entitlement period (July 1, 1975 through June 30, 1976) will be mailed to each recipient government on February 14, 1975. The collective data for all of the units of local government used in the initial allocations for the sixth entitlement period will be available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402 after April 22, 1975.

These data have been compiled by the Bureau of the Census and the Bureau of Indian Affairs. Definitions of each data element are provided in this notice. This is the first time that the data elements of population and per capita income have been updated beyond the 1970 Census. The population and per capita income relate to 1973 and 1972, respectively.

Each recipient government will receive either a Form 3233 or a Form 3240. Only those governments in areas declared major disaster areas since April 1, 1974 under the Disaster Relief Act of 1974 (Pub. L. 93–288, 42 U.S.C. Chapter 58) and whose Fiscal Year 1974 adjusted taxes and/or intergovernmental transfers were possibly adversely affected by the major disaster will receive Form 3240. These local governments, in order to be eligible for the data stabilization benefit of that Act, which allows them to use their predisaster data figures for adjusted taxes and/or intergovernmental transfers rather than their post-disaster figures, are required to certify that both or either of their 1974 adjusted taxes and intergovernmental transfers were adversely affected by the disaster. Such certification must be received in the Office of Revenue Sharing by March 14, 1975.

All other recipient governments will receive Form 3233. If a recipient government believes that there are errors in this data, relative to these definitions and effective dates, they should so inform the Office of Revenue Sharing in writing and by returning Form 3233 with evidence and documentation to fully justify the proposed corrections of data. Governments which receive Form 3240 will also have the opportunity to question all their data elements by returning Form 3240 with evidence and documentation to fully justify the proposed corrections to this data. Form 3233 or Form 3240 and supporting justifications must be received by the Office of Revenue Sharing on or before March 14, 1975 in order that corrections to data elements may be used in determining initial sixth entitlement period allocations.

Governments which receive Form 3233 and which do not wish to question their data are requested not to return the form. Governments which receive Form 3240 and which do not wish to question their data or provide a disaster certification are requested not to return the form.

The data of record in the Office of Revenue Sharing for those local governments, which do not respond by March 14, 1975 will be used to calculate their initial allocation for the sixth entitlement period. In the case of those local governments sent Form 3240, the post-disaster data of record in the Office of Revenue Sharing will be considered valid for those governments for which the Office of Revenue Sharing has not received a disaster certification by March 14, 1975.

Upon receipt of any written response from a recipient government the Office of Revenue Sharing will, as timely as practicable, work with the Bureau of the Census, or the Bureau of Indian Affairs, as the case may be, to substantiate or correct all data questioned and advise the recipient government of its findings. Those findings will constitute final administrative action for purposes of giving recipient governments standing to obtain judicial review of the questioned data.

In order to assure equitable treatment of each recipient, the books will be kept

XUM
V40-31 FEB 13 75
XUM

open until all evidence and documentation received in the Office of Revenue Sharing on or before March 14, 1975, have been reviewed and data determined to be erroneous have been corrected.

Dated: February 11, 1975.

[SEAL] GRAHAM W. WATT,
Director,
Office of Revenue Sharing.

I. POPULATION

POPULATION OF COUNTIES, CITIES, TOWNS, AND TOWNSHIPS

The *population* of a unit of government for revenue sharing purposes is the resident population as of July 1, 1973 as determined by the Bureau of the Census. The July 1, 1973 estimates of population were derived by the Bureau of the Census using a component procedure whereby components of population *change* are estimated separately and then added to the enumerated 1970 census populations of the units of local government. The population base reflects all population corrections made to the data after the initial Bureau of the Census publication as well as changes due to new incorporations, disincorporations and annexations.

The components of population change are:

1. *Natural increase, i.e. the excess of births over deaths:* Annual births and deaths were compiled from State vital statistics offices supplemented by data from the National Center for Health Statistics. County statistics were available for all States. When vital statistics were not available for all areas within a county, the births and deaths for these areas were distributed proportionately on the basis of the 1970 census population.

2. Net Migration: This component of population change was estimated for each unit of government by developing a net migration rate for the period between 1970 and 1973. The net migration rate was developed by matching IRS files of 1972 tax returns and 1969 tax returns. Thus it was possible to determine for each unit of local government the number of taxpayers who did not move, or who moved in or out of the jurisdiction between 1970 and 1973. The number of those who moved in minus the number of those who moved out yields the net migration. The net migration rate of taxpayers was applied to the total population in an area.

In addition to the estimates of natural increase and net migration, adjustments were incorporated into the estimates to account for immigration from abroad, institutional inmates, members of the armed forces and college students. For all areas where special censuses were taken by the Bureau of the Census close to the July 1, 1973 estimate date, the special census counts were used in lieu of the estimates. The special census counts were adjusted to the July 1, 1973 estimate date. In several States, the subcounty estimates were also merged with estimates developed by State agencies participating in the Federal-State Cooperative Program for Local Population Estimates.

The July 1, 1973 population estimates being used for revenue sharing for counties represent the *average* of July 1, 1973 administrative record-based estimates derived by the procedure described above and July 1, 1973 estimates derived from the Federal-State Cooperative Program. The county populations were further adjusted to be consistent with State estimates published by the Bureau of the Census in *Current Population Reports* Series P-25. The population estimates for the governments in each county area were adjusted to be consistent with the county population.

The July 1, 1973 population estimates are related to boundaries as of December 31, 1973. New incorporations, disincorporations and qualifying annexations, i.e., annexations made by places with a 1973 population of at least 5,000 and for which the annexed areas include population equal to 5% or more of the annexing government's population have been recognized up through 1974.

POPULATION OF INDIAN TRIBES AND ALASKAN NATIVE VILLAGES

The *population* of an Indian tribe or Alaskan Native village for revenue sharing purposes is the resident population as of July 1, 1973 as determined by the Bureau of Indian Affairs. For Indian tribes, the resident population is the number of Indians living within the boundaries of the tribal reservation plus the number of Indians living on trust land (including public domain allotments) adjacent to the reservation and pertaining to the tribe. The adjacent trust land may be tribally owned or individually owned. Resident non-Indian members of families with an Indian head or spouse are also included in the population estimates.

For Alaskan Native villages, the resident population is the number of Indians, Aleuts and Eskimos living within the boundaries of the village. Resident non-Alaskan Native members of families with an Alaskan Native head or spouse are also included in the population estimate.

The methodology used by the Bureau of Indian Affairs to update the 1970 population of an Indian tribe or Alaskan Native village depended on the type of accurate data that was available for that tribe or village. The types of data available varied from place to place. Two examples of the types of data used to make the July 1, 1973 population estimates are lists of residents and school enrollment data. In many cases the Bureau of Indian Affairs worked directly with the Indian tribe or Alaskan Native village to obtain the best available data.

II. PER CAPITA INCOME

The 1972 per capita income (PCI) is the estimated mean or average amount of total money income received during calendar year 1972 by all persons residing in a given political jurisdiction in April 1973. The 1972 PCI estimates are based on data from the 1970 Census, or later special censuses, and reflect corrections to the Census data which have been made since 1970.

The 1970 census PCI data were updated to 1972, based on income data from the 1969 and 1972 Federal Income tax returns and State and county income estimates prepared by the Bureau of Economic Analysis (BEA) to measure the change from 1969 to 1972.

Total money income is the sum of:
Wage or salary income.
Net nonfarm self-employment income.
Net farm self-employment income.
Social Security or railroad retirement income.
Public assistance income.
All other income such as interest, dividends, veteran's payments, pensions, unemployment insurance, alimony, etc.

The total represents the amount of income received before deductions for personal income taxes, Social Security, bond purchases, union dues, medicare deductions, etc.

Receipts from the following sources are not included as income: Money received from the sale of personal property; capital gains; the value of income "in kind" such as food produced and consumed in the home or free living quarters; Withdrawal of bank deposits; money borrowed; tax refunds; exchange of money between relatives living in the same household; gifts and lump sum inheritances, insurance payments, and other types of lump sum receipts.

COUNTY ESTIMATES

At the county level, 1972 PCI estimates were developed by carrying forward the per capita amount for each income type listed above. Census wage and salary per capita income amounts were updated using the percent change in the IRS wage and salary per exemption. For the remaining income types, the percent change in the BEA per capita amounts were used. The 1972 per capita amounts for each income type were then multiplied by the July 1, 1973 population estimates, and the resulting county income aggregates were adjusted to State income aggregates. For each county the aggregate amounts for each income type were added to get an estimated 1972 total money income which was then divided by the estimated population to derive the 1972 PCI estimate.

SUBCOUNTY GOVERNMENTAL UNIT ESTIMATES

For all townships over 1,000 population and for all municipalities over 1,000 not in townships, the updates were also developed using per capita amounts. Updated census earnings plus "other income" per capita were developed using the percent changes in IRS Adjusted Gross Income per exemption. The Adjusted Gross Income perexemption. The estimates for Social Security and public assistance were made by assuming that the 1970 census per capita amounts for these income types grew at the same rate as that for the county. The PCI for places over 1,000 population in township was assumed to grow at the same rate as that for the entire township.

The PCI estimates for governmental units of 500-999 population were computed by applying the average percent change in PCI for the county, excluding large places (population of 10,000 or more), to their 1970 census PCI. PCI estimates for governmental units of under 500 population were assumed to be equal to the average PCI of the county excluding any large places. The subcounty estimates were adjusted to the county estimates to insure conformity.

III. ADJUSTED TAXES

The adjusted taxes for a unit of local government, as derived from the General Revenue Sharing Survey conducted by the Bureau of the Census in 1974, are the total taxes of the unit of government in Fiscal Year 1974 (that government's 12-month accounting period that ended between July 1, 1973 and June 30, 1974) excluding taxes for schools and other educational purposes. A government's total Fiscal Year 1974 taxes are those which were exacted by that government and which were collected by or for that government during Fiscal Year 1974. Total general purpose taxes include:

1. Property taxes—county, municipal or township taxes levied on the value of real or personal property.

2. Sales taxes—county, municipal or township taxes, either general or specific, on goods and services, measured as a percent of sales or receipts, or as an amount per unit sold.

Sales taxes are of two types:
a. General sales or gross receipts tax.
b. Selective sales or gross receipts tax. Examples of selective sales taxes are:
Gasoline tax.
Liquor tax.
Cigarette and tobacco tax.
Public utilities excise tax.
Amusement tax.
Hotel and motel room occupancy and meals tax.

3. Licenses, permits and other taxes—county, municipal or township taxes not included in items 1 and 2 above.

Examples of license taxes are:
Alcoholic beverage licenses.
Business privilege licenses.
Motor vehicle and operators licenses.
Hunting and fishing licenses.
Marriage licenses.
Inspection fees charged in connection with the granting or renewal of a license.
Examples of permits are:
Building permits.
Permits for a business or nonbusiness privilege.
Examples of other taxes are:
Income, payroll or earnings tax.
Mortgage transfer and recordation tax.
Severence tax.
Fee retained by a government for collecting taxes for other governments.

General purpose taxes do not include receipts from service charges, special assessments, interest earnings or fines.

A tax which is jointly imposed by a State government and units of local government is apportioned in order to determine local tax effort. An example of a jointly imposed tax would be a five percent sales tax of which four percent was imposed by the State government and one percent was imposed by the local government. In such case the amount of revenue realized by virtue of the one percent locally imposed portion will be credited to local tax effort. It is important to distinguish a "jointly imposed tax" from a wholly State imposed tax where part of the tax revenue is shared with local governments. An example of a shared State tax would be a five percent sales tax wholly imposed by the State, but which provides a 20 percent revenue share to units of local government. A local government's share of a "wholly State imposed tax" is classified as an intergovernmental transfer and not as local tax effort. Thus, in detremining local tax effort the point of reference is the government which imposed the tax rather than the government which expended the resulting tax revenue.

Certain sales taxes imposed by counties which meet the requirements of Section 109 (e) (2) (B) of the Revenue Sharing Act may be considered to be taxes of the units of local government within the county rather than the county government. The "Memphis Rule," as this section is called, provides for situations whereby a county government imposes a sales tax within the geographic area of local governments within the county, and then shares part or all of the applicable tax revenue with those local governments. These taxes must be transferred by the county government without specifying the purposes for which the local governments may spend the revenues. In such cases, the Governor of the State must certify to the Secretary of the Treasury that the requirements of the "Memphis Rule" are met. This certification must be made by the Governor before the beginning of the entitlement period when the "Memphis Rule" is to take effect. The taxes which are transferred by the county to the units of local government will then be considered for revenue sharing purposes to be taxes of the local governments and not the taxes of the county government.

Amounts in lieu of taxes received by a government from a utility it operates are treated as internal transfers and are excluded from taxes. Amounts in lieu of taxes received from utilities operated by other governments are reported as intergovernmental transfers.

School taxes are tax revenues of a unit of government which are allocated for school purposes. They consist of taxes levied for current operation, capital outlay and debt service including amounts collected for a governmental unit's schools by the State or a local government acting as collecting agent.

In some jurisdictions tax revenues for purposes of education are not separately identifiable because education is financed by expenditure or transfer of monies from a general fund to a school fund. If so, then the ratio of tax revenues to total revenues in such general fund multiplied by the expenditure or transfer of monies from the general fund (or similarly named fund) for education purposes is taken to be the amount of tax revenues allocable to expenses for education.

IV. INTERGOVERNMENTAL TRANSFERS OF REVENUE

Intergovernmental transfers of revenue are amounts received by a unit of government from other governments in Fiscal Year 1974 (the government's 12-month accounting period that ended between July 1, 1973 and June 30, 1974) for use either for specific functions or for general financial support. This amount is derived from the General Revenue Sharing Survey conducted by the Bureau of Census in 1974. The figure includes grants, shared taxes, contingent loans and reimbursements for tuition costs, hospital care, construction costs, etc. Intergovernmental revenue does not include amounts received from sale of property or commodities, utility services to other governments, or Federal general revenue sharing entitlement funds.

ENDANGERED SPECIES PERMIT

Receipt of Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant: Denver Zoological Gardens, Denver, Colorado 80205, Clayton F. Freiheit, Director.

DIRECTOR (FWS/LE)
U.S. Fish and Wildlife Service, U.S. Department of the Interior, Washington, D.C. 20240

DEAR SIR: This is an application for a permit to *export* endangered species under PL 93-205.

The *Denver Zoological Gardens* seeks authority to export four (4) female Bengal tigers (*Panthera tigris*) as a *bona fide gift* to the Caracas, Venezuela Zoological Garden. These 4 animals were born in the Denver Zoo on 15 February, 1974. Attached herewith is a letter from C. Pedro Trebbau, Director of the Caracus Zoo expressing a desire to receive these animals to formulate a breeding group in the company of their single male. It is our understanding that a new zoological park is under construction in Caracas and that a large tiger exhibit is included as part of this development.

Although technically regarded as an endangered species in the wild, the Bengal tiger population in captivity appears to be secure. Volume 14 of the International Zoo Yearbook lists 451 specimens in 144 of the world's zoological collections. Of this total, 323 are listed as bred in captivity. There appears to be an overpopulation of the species developing in U.S. collections. The October issue of the American Association of Zoological Parks and Aquariums Newsletter listed 14 Bengal tigers in 6 zoos as surplus. We believe the actual number of surplus Bengal tigers at this date may approach 50 specimens. This surplus has undoubtedly developed due to restrictions on movement of the species imposed by the Endangered Species Act of 1973. The breeding population in the Denver Zoo is considered secure and consists of 2 males and 3 females, all young adults. In addition we currently have the 4 females which we seek to export, as well as 2 young cubs as yet unsexed. Our animal food budget and cage space available is not adequate to support a population of 11 tigers, thus another reason why we are seeking to export the aforementioned 4 females. We have offered these animals to other zoological collections in the U.S. and have had no interest expressed from public, non-commercial zoos.

If authority to export is granted, shipment would be accomplished by commercial air carrier in suitable crates as per IATA standards.

Further information concerning this application will be supplied upon request.

I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of the Federal Regulations and the other applicable parts in Subchapter B of Chapter I of Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement herein may subject me to the criminal penalties of 18 USC 1001.

Very truly yours,

CLAYTON F. FREIHEIT,
Director.

PARQUE CARICUAO
DIRECCION DE ZOOLOGICOS, APDO. 28058
CARACAS, VENEZUELA, *October 11, 1974.*

MR. CLAYTON F. FREIHEIT
Director, Denver Zoological Gardens,
City Park, Denver, Colo. 80205

DEAR COLLEAGUE: During the last A.A.Z.P.A. Meeting I learned that you have a surplus of 0.4 Bengal tigers.

It is the fact, that in our zoo in Venezuela we have a new and excellent exhibit for Bengal tigers, and, unfortunately, only one male. As it is one of our aims to install breeding groups of felines, it would be an excellent opportunity to receive your four females for this purpose. Please be so kind as to contact the proper authorities, to obtain the export permit.

Hoping to hear from you soon, I remain,
Yours very truly,

PEDRO TREBBAU.

January 8, 1975.

DIRECTOR (FWS/LE)
U.S. Fish & Wildlife Service
U.S. Department of the Interior
Washington, D.C. 20240

Reference: FWS/LE PRT-116-X

DEAR SIR: As per your request we are herewith submitting the additional documentation from Caracas Zoo in support of our endangered species permit application to export 4 female Bengal tigers to Venezuela.

Enclosed is a letter from Dr. Pedro Trebbau, Director of Zoos. Also submitted is an architectural plan of current tiger facilities. Apparently the design of their new tiger enclosure is not far enough advanced to submit further information than that in Dr. Trebbau's letter.

Very truly yours,

Denver Zoological Gardens
CLAYTON F. FREIHEIT,
Director.

$50 check sent December 16, 1974.

MR. CLAYTON FREIHEIT,
Director,
Denver Zoological Park,
Denver, Colorado 80205

DEAR COLLEAGUE: Enclosed you will find a ground plan of our facilities for large fe-

XUM
V40-31 FEB 13 75 XUM

lines, which is working very fine. The exhibition is on natural soil, with natural plantings and contains, too, a pool. In the exhibition we have actually only one very good male bengal tiger, which, I think, would be excellent for your four females. The whole area is fenced in with a high fence with an overhang, sky open. The facilities for the leopards are closed. The area has about 322 m² (around 3466 ft.²). At the same time we are planning large exhibitions at the new site where we have already an exhibition for jaguars with complete natural surrounding, in an extension around 20,000 ft.², and something similar is planned for the bengal tigers.

I hope this information will be helpful for you.

Best regards,

PEDRO TREBBAU,
Director of Zoos.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before March 17, 1975 will be considered.

Dated: February 10, 1975.

C. R. BAVIN,
Chief, Division of Law Enforcement, Fish and Wildlife Service.

National Park Service

[Order No. 1, Amdt. 1]

SUPERINTENDENTS, ET AL., MID-ATLANTIC REGION

Delegation of Authority

Order No. 1, approved January 6, 1974, and published in the FEDERAL REGISTER of January 29, 1974 (39 FR 3694), set forth in section 2 certain authority to officers and employees. This amendment changes paragraphs (c) and (d) of section 2 to read as follows:

SEC. 2. *Delegation* • • •

(c) Regional Procurement Agent. The Regional Procurement Agent may execute, approve and administer contracts not in excess of $50,000 for supplies, equipment or services, including construction. This authority may be exercised by the Regional Procurement Agent in behalf of any office or area for which the Mid-Atlantic Regional Office serves as the field finance office.

(d) Regional Purchasing Agent. The Regional Purchasing Agent may execute, approve and administer contracts not in excess of $10,000 for supplies, equipment or services, including constructions. This authority may be exercised by the Regional Purchasing Agent in behalf of any office or area for which the Mid-Atlantic Regional Office serves as the field finance office.

(National Park Service Order No. 77, 38 FR 8, as amended)

Dated: November 4, 1974.

CHESTER L. BROOKS,
Regional Director, Mid-Atlantic Region.

FEATHERSTONE NATIONAL WILDLIFE REFUGE

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Pub. L. 91-190, the Department of the Interior has prepared a final environmental statement for the proposed acquisition of 172 acres known as the Featherstone Marsh, Prince William County, Virginia. Acquisition of the land would allow the establishment of the Featherstone Wetlands National Wildlife Refuge.

The area consists of 112 acres of wetlands and 60 acres of upland. An original proposal of 313 acres was reduced to the present proposal due to appreciation of land values over a period of fiscal delays, since 1970. The reduced portion was entirely uplands adjacent to the marsh.

Copies of the final statement are available for inspection at the following locations:

U.S. Fish and Wildlife Service,
John W. McCormack Post Office and Courthouse,
Boston, Massachusetts 02109.

U.S. Fish and Wildlife Service,
Office of Environmental Coordination,
Department of the Interior,
Room 2252,
18th and "C" Streets, NW.,
Washington, D.C. 20240

Single copies may be obtained by writing the Chief, Office of Environmental Coordination, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

Dated: February 7, 1975.

STANLEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

RESIDENTIAL/COMMERCIAL TASK GROUP COMMITTEE ON ENERGY CONSERVATION NATIONAL PETROLEUM COUNCIL

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given of the following meeting:

The Residential/Commercial Task Group of the Committee on Energy Conservation of the National Petroleum Council will meet on March 4, 1975, in the National Petroleum Council's Conference Room, 1625 K Street, NW., Washington, D.C. at 9:30 a.m. The agenda includes the following items:

1. Review of progress on preparation of a report on Phase II of the current study on the possibilities for energy conservation in the United States and the impact of such measures on the future energy posture of the Nation. This study was requested by the Secretary of the Interior on July 23, 1973. Phase I of the study was completed on September 10, 1974.

2. Discussion of instructions and guidance by the Coordinating Subcommittee of the Committee on Energy Conservation regarding Phase II of the study.

3. Discussion of any other matters pertinent to the overall assignment of the Task Group.

The meeting will be open to the public to the extent that space and facilities permit. Any member of the public may file a written statement with the Council either before or after the meeting. Interested persons who wish to speak at the meeting must apply to the Council and obtain approval in accordance with its established procedures.

The purpose of the National Petroleum Council is to provide advice, information and recommendations to the Secretary of the Interior, upon request, on any matter relating to petroleum or the petroleum industry.

Further information with respect to this meeting may be obtained from Fran Hanavan, Office of the Assistant Secretary—Energy and Minerals, Department of the Interior, Washington, D.C., telephone number 343-2904.

Dated: February 10, 1975.

C. K. MALLORY,
Deputy Assistant Secretary of the Interior.

SIGURD TO CEDAR CITY POWER TRANSMISSION LINE

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared an environmental statement for a proposed power transmission line in southern Utah and invites your written comments March 31, 1975.

The proposal involves construction of 230 kV power transmission line between Sigurd and Cedar City, Utah. The line would supply electrical power to communities in southern Utah and tie into California Pacific Utilities power grid.

Copies are available for inspection at the following locations:

Office of Public Affairs, Bureau of Land Management, Interior Building, 18th and C Streets, NW., Washington, D.C. 20240. Telephone: (202) 343-5717

Utah State Office, Bureau of Land Management, Federal Building, 125 South State, Salt Lake City, Utah 84111. Telephone: (801) 524-5311

Cedar City District Office, Bureau of Land Management, 154 North Main, Cedar City, Utah 84720. Telephone: (801) 586-9443

A limited number of single copies may be obtained by writing the Utah State Director, Bureau of Land Management, at the above address.

FEBRUARY 4, 1975.

STANLEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[Designation Number A135]

NORTH CAROLINA

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in Stokes County, North Carolina. The Secretary has found that this need exists as a result of a natural disaster consisting of frost October 1, 2, and 3, 1974.

Therefore, the Secretary has designated this area as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor James E. Holshouser that such designation be made.

Applications for Emergency loans must be received by this Department no later than April 4, 1975, for physical losses and November 4, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 6th day of February, 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

Forest Service

MOUNTAIN HOME PLANNING UNIT

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for Mountain Home Planning Unit, Boise National Forest, Idaho. The Forest Service report number is USDA-FS-FES (Adm) R4-75-1.

The environmental statement identifies and evaluates the probable effects of the land use plan for the Mountain Home Planning Unit on the Boise National Forest in southwest Idaho. The purpose of the plan is to allocate National Forest lands within the unit to specific resource uses and activities; establish management objectives; document management direction, management decisions, and necessary coordination between resource uses and activities; and provide for the protection, use, and development of the various resources within the planning unit. The plan provides for minimization of adverse effects and maximization of desirable effects. Minor adverse effects from some development activities will be temporary stream sedimentation and short periods of air pollution. Recreation opportunities will receive minor modification with opportunities for solitude slightly reduced and opportunities for developed type recreation improved. The mix of uses provided for includes moderate levels of consumptive resource uses. Significant areas will remain undeveloped with options for future management remaining open.

This final environmental statement was transmitted to CEQ on February 7, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service,
South Agriculture Bldg., Room 3230,
12th St. & Independence Ave. SW.,
Washington, D.C. 20250.

Regional Planning Office,
USDA, Forest Service,
Federal Building, Room 4403,
324-25th Street,
Ogden, Utah 84401.

Forest Supervisor,
Boise National Forest,
1075 Park Boulevard,
Boise, Idaho 83706.

District Forest Ranger,
Mountain Home Ranger District,
282 S. 3rd West,
Mountain Home, Idaho 83647.

A limited number of single copies are available upon request to Forest Supervisor Edward C. Maw, Boise National Forest, 1075 Park Boulevard, Boise, Idaho 83706.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

Dated: February 7, 1975.

VERN HAMRE,
Regional Forester.

PALOMAR MOUNTAIN UNIT—CLEVELAND NATIONAL FOREST

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture has prepared a draft environmental statement for the Land Use Plan, Palomar Mountain Unit, Cleveland National Forest, California, USDA-FS-R5-DES(Adm)-75-8.

The environmental statement concerns a proposed land use management plan for the 71,900 acres of National Forest land within the Palomar Mountain Unit of the Cleveland National Forest, in San Diego and Riverside Counties, California. Fourteen thousand five hundred acres within this Unit have been inventoried as "roadless"; and 16,971 acres are now included within the National Wilderness Preservation System as the Agua Tibia Wilderness. An additional 36,629 acres are proposed for designation as Special Interest Area—(Scenic). This Special Interest Area encompasses the entire 14,500 acres of inventoried "roadless" areas.

This draft environmental statement was transmitted to the Council on Environmental Quality (CEQ) on February 7, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service,
South Agriculture Bldg., Room 3230,
12th St. & Independence Ave., SW.
Washington, D.C.

Regional Forester,
U.S. Forest Service, Rm. 529,
630 Sansome St.,
San Francisco, California.

Forest Supervisor's Office,
Cleveland National Forest,
3211 Fifth Avenue,
San Diego, California.

Forest Service,
District Ranger,
732 North Broadway,
Escondido, California.

A limited number of single copies are available, upon request, from Forest Supervisor Donald Smith, Cleveland National Forest, 3211 Fifth Ave., San Diego, California.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental effect for which comments have not been specifically requested.

Comments concerning the proposed action, and requests for additional information should be addressed to Forest Supervisor Donald Smith, Cleveland National Forest, 3211 Fifth Avenue, San Diego, California. Comments must be received within 90 days after transmittal to CEQ in order to be considered in the preparation of the final environmental statement.

J. W. KOSHELLA,
Deputy Regional Forester.

CAPPER-VOLSTEAD ACT

Assignment of Responsibility

Pursuant to the authority contained in (5 U.S.C. 301) and Reorganization Plan No. 2 of 1953 (67 Stat. 633, 7 U.S.C. 2201, note) there is hereby established a Committee composed of the General Counsel, Chairman, the Assistant Secretary for Marketing and Consumer Services, and the Director of Agricultural Economics, whose function shall be to carry out the responsibilities assigned to the Secretary of Agriculture by section 2 of the Capper-Volstead Act (7 U.S.C. 292): *Provided*, that there is reserved to the Secretary the issuance of final orders directing associations to cease and desist from monopolization or restraint of trade. The Committee may call upon any agency of the Department to investigate facts, provide information and otherwise generally assist the Committee in performing its assigned function.

Done at Washington, D.C., this 7th day of February 1975.

EARL L. BUTZ,
Secretary.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 75 028]

EQUIPMENT, CONSTRUCTION, AND MATERIALS

Approval Notice

1. Certain laws and regulations (46 CFR Chapter I) require that various items of lifesaving, firefighting and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the Outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been granted as herein described during the period from December 4, 1974, to December 19, 1974 (List No. 27-74). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75-1 to 2.75-50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of Title 46, United States Code, section 1333 of Title 43, United States Code, and section 198 of Title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (49 CFR 1.46(b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160 to 164.

3. The approvals listed in this document shall be in effect for a period of 5 years from the date of issuance, unless sooner cancelled or suspended by proper authority.

LIFEBOAT WINCHES FOR MERCHANT VESSELS

Approval No. 160.015/93/1, lifeboat winch, Type 35G-MKII; approval is limited to mechanical components only and for a maximum working load of 7,500 lbs. pull at the drums (3,750 lbs. per fall); identified by general arrangement drawing No. W1-F-003, revision D dated March 18, 1974, and drawing list, revision E dated March 27, 1974, manufactured by Marine Safety Equipment Corporation, Foot of Wycoff Road, Farmingdale, New Jersey 07727, effective December 5, 1974. (It supersedes Approval No. 160.015/93/1 dated June 8, 1971, to provide for drawing consolidation.)

Approval No. 160.015/94/1, lifeboat winch, Type 55G-MKII; approval is limited to mechanical components only and for a maximum working load of 11,000 lbs. pull at the drums (5,500 lbs. per fall); identified by general arrangement drawing No. W1-F-002, revision E dated March 12, 1974, and drawing list, revision D dated March 21, 1974, manufactured by Marine Safety Equipment Corporation, Foot of Wycoff Road, Farmingdale, New Jersey 07727, effective December 5, 1974. (It supersedes Approval No. 160.015/94/1 dated June 8, 1971, to provide for drawing consolidation.)

Approval No. 160.015/101/0, lifeboat winch, Type 75 G, approval is limited to mechanical components only and for a maximum working load of 15,000 lbs. pull at the drums (7,500 lbs. per fall); identified by general arrangement drawing W1-F-008, revision B dated March 18, 1974 and drawing list dated March 21, 1974, manufactured by Marine Safety Equipment Corporation, Foot of Wycoff Road, Farmingdale, New Jersey 07727, effective December 6, 1974. (It supersedes Approval No. 160.015/101/0 dated September 18, 1972 to provide for drawing consolidation.)

Approval No. 160.015/103/0, Type 55 GH-MKIII lifeboat winch; approval is limited to mechanical components only and for a maximum working load of 11,000 lbs. pull at the drums (5,500 lbs. per fall); identified by general arrangement drawing No. W1-F-002-H, revision C dated March 13, 1974, and drawing list, revision B dated March 21, 1974, manufactured by Marine Safety Equipment Corporation, Foot of Wycoff Road, Farmingdale, New Jersey 07727, effective December 6, 1974. (It supersedes Approval No. 160.015/103/0 dated January 2, 1973 to provide for drawing consolidation.)

Approval No. 160.015/110/0, lifeboat winch, Type 35G-MKIII; approval is limited to mechanical components only and for a maximum working load of 7,500 lbs. pull at the drums (3,750 lbs. per fall); identified by general arrangement drawing W1-F-009, dated December 14, 1971 and drawing list dated March 27, 1974, winch attached to davit trackways, manufactured by Marine Safety Equipment Corporation, Foot of Wycoff Road, Farmingdale, New Jersey 07727, effective December 4, 1974.

LIFE PRESERVERS, UNICELLULAR PLASTIC FOAM, ADULT AND CHILD FOR MERCHANT VESSELS

Approval No. 160.055/102/0, adult-non-standard cloth covered unicellular plastic foam life preserver construction in accordance with U.S. Coast Guard Specification Subpart 160.055 and Coast Guard letter, file No. 5946/160.055/102 dated February 12, 1974, Type V PFD, approved only for use by persons engaged in commercial white water service within the U.S.A., manufactured by Holcombe Industries, Inc., 1602 Tacoma Way, Redwood City, California 94063, effective December 17, 1974. (It supersedes Approval No. 160.055/102/0 dated February 14, 1974.)

MARINE BUOYANT DEVICES

Approval No. 160.064/715/0, child medium, Model No. 8308, cloth covered unicellular plastic foam "Ski Vest," manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective December 5, 1974.

Approval No. 160.064/716/0, adult, Model No. 8309, cloth covered unicellular plastic foam "Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective December 5, 1974.

Approval No. 160.064/717/0, adult, Model No. 8310, cloth covered unicellular plastic foam "Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective December 5, 1974.

Approval No. 160.064/718/0, adult, Model No. 8311, cloth covered unicellular plastic foam "Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective December 5, 1974.

Approval No. 160.064/719/0, adult, Model No. 8312, cloth covered unicellular plastic foam "Ski Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective December 5, 1974.

Approval No. 160.064/720/0, child small, Model No. 8321, cloth covered unicellular plastic foam "Boating Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective December 6, 1974.

Approval No. 160.064/721/0, child small, Model No. 8322, cloth covered unicellular plastic foam "Boating Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective December 5, 1974.

Approval No. 160.064/727/0, adult medium, Model No. 8328, cloth covered unicellular plastic foam "Boating Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective December 6, 1974.

Approval No. 160.064/728/0, adult large, Model No. 8329, cloth covered unicellular plastic foam "Boating Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective December 6, 1974.

Approval No. 160.064/729/0, child medium, Model No. 8330, cloth covered unicellular plastic foam "Marine Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective December 6, 1974.

Approval No. 160.064/730/0, adult medium, Model No. 8331, cloth covered unicellular plastic foam "Marine Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective December 6, 1974.

Approval No. 160.064/731/0, adult large, Model No. 8332, cloth covered unicellular plastic foam "Marine Buoyant Vest", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 47, Type III PFD, manufactured by Cut 'N' Jump Ski Corporation, 11525 Sorrento Valley Road, San Diego, California 92121, effective December 6, 1974.

Approval No. 160.064/759/0, adult X-large, Model No. SN400 or SO400, cloth covered unicellular plastic foam "Flotation Jacket", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 216, Type III PFD, manufactured by Empress Corporation, 1144 San Julian Street, Los Angeles, California 90015, for Sperry Top-Sider, P.O. Box 338, Naugatuck, Connecticut 06770, effective December 5, 1974.

Approval No. 160.064/760/0, adult large, Model No. SN400 or SO400, cloth covered unicellular plastic foam "Flotation Jacket", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 216, Type III PFD, manufactured by Empress Corporation, 1144 San Julian Street, Los Angeles, California 90015, for Sperry Top-Sider, P.O. Box 338, Naugatuck, Connecticut 06770, effective December 5, 1974.

Approval No. 160.064/761/0, adult medium, Model No. SN400 or SO400, cloth covered unicellular plastic foam "Flotation Jacket", manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ 216, Type III PFD, manufactured by Empress Corporation, 1144 San Julian Street, Los Angeles, California 90015, for Sperry Top-Sider, P.O. Box 338, Naugatuck, Connecticut 06770, effective December 5, 1974.

Approval No. 160.064/762/0, adult small, Model No. SN400 or SO400, cloth
